Emergency Executive Order 21-01

Protecting Recent Progress and Cautiously Resuming Certain Activities

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following Executive Order:

The COVID-19 pandemic continues to present an unprecedented and rapidly evolving challenge to our State. Minnesota has taken extraordinary steps to prevent and respond to the pandemic. On March 13, 2020, I issued Executive Order 20-01 and declared a peacetime emergency because this pandemic, an act of nature, threatens the lives of Minnesotans, and local resources are inadequate to address the threat. Since declaring the peacetime emergency, I have extended it every 30 days, with the most recent extension occurring on December 14, 2020.

Almost seven weeks ago, Minnesota joined an increasing number of states in dialing back social gatherings, organized sports, and activities in a range of places of public accommodation in response to a significant surge in COVID-19 cases. As state health officials predicted, the surge’s consequences were dire. Hospitals reported dangerous strains on their capacity, and average daily deaths due to the virus were far higher than we had experienced at any point in the pandemic. In light of the sobering infection rates and loss of life, I called on the people of Minnesota to forego holiday gatherings, sports leagues, and other social activities, and we temporarily closed businesses and gathering spaces that pose high risks of virus transmission. Minnesotans answered the call, making difficult personal sacrifices to change the pandemic’s trajectory and save their neighbors’ lives. If not for our collective action to stem the rapidly rising tide of COVID-19 infections, the consequences could have been far worse.

Indeed, Minnesota’s daily COVID-19 case numbers began to slowly decrease after we started the dial back. After the first four weeks, we made minor adjustments with Executive Orders 20-103 and 20-104, which were targeted to help Minnesotans cope with the challenges of isolation by slightly easing social gathering restrictions and prioritizing the slow return of physical fitness and sports activities with the goal of improving physical and mental well-being. Because new COVID-19 cases remained at problematic levels, these steps were intentionally gradual. Since then, the outlook has improved. In the past week, the White House Coronavirus Task Force (‘‘Task Force’’) has shared cautious optimism about the state’s improving COVID-19 situation. Although many key metrics—including COVID-19 deaths, new hospitalizations, daily case numbers, and test positivity rate—are now well below where they were at the most severe stages
of our late fall and early winter surge, we continue to be in an area of high risk for further
COVID-19 spread by most Task Force and Minnesota Department of Health (“MDH”)
measures.

Although we must continue to be cautious, the recent change in the virus’s trajectory allows us to
again take measured steps to reopen businesses closed under previous Executive Orders. These
businesses have suffered through no fault of their own. The state and federal measures have
provided some relief to affected businesses, but we know that the ultimate goal of businesses is
to reopen to serve their customers. I appreciate the efforts of all Minnesotans in buckling down
to reduce our infection rates as much as possible in the past seven weeks. Those efforts allow
workers and business owners to get back to work.

We continue to face a challenging balancing act. As we allow more settings to reopen, the risk of
transmission increases. As I have noted previously, some settings continue to pose more risks
than others. Indoor activities pose higher risks than outdoor activities. Strenuous activities
resulting in increased respiration pose higher risk than sedentary activities. Unpredictable
settings are riskier than more predictable and controlled settings. Settings conducive to
prolonged contact provide more opportunity for transmission than settings featuring more
transitory interactions. In addition, science, data, and experience also show that the late-night bar
and restaurant hours are particularly risky for patrons. Recognizing the impact of these variables,
this Executive Order continues to limit certain settings more than others due to the varying levels
of risk.

Staying at home and avoiding gatherings is still the most effective way to prevent transmission
and doing so is particularly important for those who are at risk of severe illness from COVID-19.
It is also important to continue to limit the size of social gatherings with family and friends, as
these familiar and uncontrolled gatherings present special transmission risks. While gatherings of
people from different households continue to pose risk of transmission, we can reduce
transmission by each of us doing our part and ensuring compliance with safety measures. As the
White House Task Force recently summarized: “Mitigation measures to limit transmission in
personal gatherings need ongoing strengthening, including continuing to ask Minnesotans to
limit travel, wear masks, physically distance, and avoid gatherings in both public and private
spaces, especially indoors.”

We all play a part in preserving the gains that we have made over the past two months. When
Minnesotans leave their homes, they must continue to follow the science and adhere to public
health guidance to avoid the need for dial backs. The Centers for Disease Control and Prevention
(“CDC”) estimates that the basic measure of wearing a face covering can reduce transmission
risk by 70 to 80 percent. When face coverings are paired with consistent social distancing, we
can dramatically reduce transmission. I continue to ask everyone in Minnesota to support these
basic measures to allow our children to return to school, keep our businesses open, preserve our
hospital capacity, and protect our neighbors.

In Minnesota Statutes 2020, section 12.02, the Minnesota Legislature conferred upon the
Governor emergency powers to “(1) ensure that preparations of this state will be adequate to deal
with disasters, (2) generally protect the public peace, health, and safety, and (3) preserve the
lives and property of the people of the state.” Pursuant to Minnesota Statutes 2020, section
12.21, subdivision 1, the Governor has general authority to control the state’s emergency management as well as to carry out the provisions of the Minnesota Emergency Management Act.

Minnesota Statutes 2020, section 12.21, subdivision 3(7), authorizes the Governor to cooperate with federal and state agencies in “matters pertaining to the emergency management of the state and nation.” This includes “the direction or control of . . . the conduct of persons in the state, including entrance or exit from any stricken or threatened public place, occupancy of facilities, and . . . public meetings or gatherings.” Pursuant to subdivision 3 of that same section, the Governor may “make, amend, and rescind the necessary orders and rules to carry out the provisions” of the Minnesota Emergency Management Act. When approved by the Executive Council and filed in the Office of the Secretary of State, such orders and rules have the force and effect of law during the peacetime emergency. Any inconsistent rules or ordinances of any agency or political subdivision of the state are suspended during the pendency of the emergency.

For these reasons, I order as follows:

1. Executive Orders 20-99, 20-103, and 20-104 are rescinded as of Sunday, January 10, 2021 at 11:59 pm.

2. This Executive Order is effective as of Sunday, January 10, 2021 at 11:59 pm.

3. **Masks and face coverings required.** Executive Order 20-81, requiring face coverings in certain settings, remains in full force and effect except as modified by this Executive Order.

4. **At-risk persons.** All persons currently living within the State of Minnesota who are at risk of severe illness from COVID-19, as defined by Executive Order 20-55, are strongly urged to stay at home or in their place of residence and follow the provisions of Executive Order 20-55.

d. **Requirements for all businesses.** Since June 29, 2020, all businesses in Minnesota (whether Critical or Non-Critical) have been required to have a COVID-19 Preparedness Plan (“Plan”) and implement that plan. All businesses must continue to follow the same requirements. Each Plan must provide for the business’s implementation of guidance for their specific industry or, if there is no specific guidance, general guidance for all businesses, as well as Minnesota OSHA Standards and MDH and CDC Guidelines in their workplaces. These requirements are set forth in guidance (“Plan Guidance”) available on the Stay Safe Minnesota website ([https://staysafe.mn.gov](https://staysafe.mn.gov)).

i. **Required Plan content.** As set forth in the Plan Guidance, at a minimum, each Plan must adequately address the following areas:

A. **Require work from home whenever possible.** All Plans must ensure that all workers who can work from home continue to do so.

B. **Ensure that sick workers stay home.** All Plans must establish policies and procedures, including health screenings, that prevent sick workers from entering the workplace.

C. **Social distancing.** All Plans must establish social distancing policies and procedures.

D. **Worker hygiene and source control.** All Plans must establish hygiene and source control policies for workers.

E. **Cleaning, disinfection, and ventilation protocols.** All Plans must establish cleaning, disinfection, and ventilation protocols for areas within the workplace.

ii. **Customer facing businesses.** All businesses that are customer facing (i.e., businesses that have in-person customer interactions) must include additional Plan provisions to keep the public and workers safe as set forth in the applicable guidance available on the Stay Safe Minnesota website ([https://staysafe.mn.gov](https://staysafe.mn.gov)). This includes requirements that workers and customers must maintain physical distancing of six feet and that store occupancy must not exceed limits set forth in the guidance. In customer facing businesses that share common areas, such as malls, all Plans must similarly include a facility occupancy that must not exceed the limits set forth in the guidance and provide an enhanced sanitizing, cleaning, and disinfecting regimen consistent with Minnesota OSHA Standards and
MDH and CDC Guidelines for those common areas. All Plans must also include signage in common areas to discourage congregating.

iii. **Household services businesses.** All businesses that provide household services (e.g., housecleaning, maid services, and piano tuners) must also develop Plan provisions intended to keep customers and workers safe as set forth in the applicable guidance available on the Stay Safe Minnesota website ([https://staysafe.mn.gov](https://staysafe.mn.gov)).

iv. **Optional template.** A template COVID-19 Preparedness Plan, which covers the above requirements, is available as part of the Plan Guidance, available on the Stay Safe Minnesota website ([https://staysafe.mn.gov](https://staysafe.mn.gov)).

v. **Certification and signature.** Senior management responsible for implementing the Plan must sign and certify the Plan, affirming their commitment to implement and follow the Plan.

vi. **Dissemination and posting.** Each business must provide its Plan, in writing, to all workers, and the Plan must be posted at all of the business’s workplaces in locations that will allow for the Plan to be readily reviewed by all workers. Where physical posting is impracticable, the Plan can be posted electronically, provided that the Plan is received by all workers and remains available for their review.

vii. **Training.** Each business must ensure that training is provided to workers on the contents of its Plan and required procedures, so that all workers understand and are able to perform the precautions necessary to protect themselves and their co-workers. This training should be easy to understand and available in the appropriate language and literacy level for all workers. Businesses should also take steps to supervise workers and ensure that workers understand and adhere to necessary precautions to prevent COVID-19 transmission. Documentation demonstrating compliance with this training requirement must be maintained and made available to regulatory authorities and public safety officers, including DLI, upon request.

viii. **Compliance.** Workers and management must work together to ensure compliance with the Plan, implement all protocols, policies, and procedures, and create a safe and healthy work environment.

ix. **Exposure notification protocol.** As set forth in the general industry guidance available on the Stay Safe Minnesota website ([https://staysafe.mn.gov](https://staysafe.mn.gov)), businesses must establish a protocol for identifying and communicating with workers who may have been exposed to a person with COVID-19 symptoms or who has tested positive for COVID-19 while at work.
x. **Availability to regulatory authorities and public safety officers.** Businesses do not need to submit their Plans for preapproval. Upon request, businesses must make their Plans available to regulatory authorities and public safety officers, including DLI, MDH, the Minnesota Attorney General’s Office, and city and county attorneys.

xi. **Complaints or disputes.** In the event of a complaint or dispute related to a business’s Plan, DLI is authorized to determine whether the Plan adequately implements the applicable guidance, Minnesota OSHA Standards, and MDH and CDC Guidelines in its workplaces.

e. **Child care.** Licensed child care providers, including child care centers, certified child care centers, and family and group day care homes, as well as license exempt child care, may continue to operate and serve families. 9. Enhanced local measures permitted. Nothing in this Executive Order or previous Executive Orders should be construed to prohibit or prevent political subdivisions from implementing, within their jurisdictions and pursuant to applicable law and authority, restrictions beyond the restrictions contained in this Executive Order, as long as those additional restrictions have a real or substantial relation to the public health crisis caused by COVID-19. Pursuant to Minnesota Statutes 2020, section 12.32, political subdivisions may not relax or reduce this Executive Order’s restrictions. In other words, to the extent that they have authority to do so, cities and other political subdivisions may take actions that are more protective of the public health but may not take actions that are less protective of the public health.

State and local licensing and regulatory entities that inspect businesses for compliance with rules and codes to protect the public are encouraged to assess regulated businesses’ compliance with this Executive Order and use existing enforcement tools to bring businesses into compliance. Nothing in this Executive Order is intended to encourage or allow law enforcement to transgress individual constitutional rights.

Pursuant to Minnesota Statutes 2020, section 4.035, subdivision 2, and section 12.32, this Executive Order is effective immediately upon approval by the Executive Council. It remains in effect until the peacetime emergency declared in Executive Order 20-01 is terminated or until it is rescinded by proper authority.

A determination that any provision of this Executive Order is invalid will not affect the enforceability of any other provision of this Executive Order. Rather, the invalid provision will be modified to the extent necessary so that it is enforceable.
