Agency Purpose

he mission of the Department of Public Safety (DPS) is simple – to protect Minnesota with a commitment to excellence by promoting safer communities through:

- ♦ Prevention
- ♦ Preparedness
- ♦ Response
- Recovery
- Education
- ♦ Enforcement

We do this by focusing on:

- Saving Lives
- Providing Efficient and Effective Services
- ♦ Maintaining Public Trust
- Developing Strong Partnerships

Core Functions

The DPS provides a variety of core services statewide to support the goal of keeping Minnesotans safe. These core services include:

- enforcing liquor and gambling laws;
- conducting criminal investigations and forensic science analysis;
- administering driver and vehicle services;
- coordinating emergency planning and response for disasters and acts of terrorism;
- promoting fire safety;
- ensuring safety of natural gas and hazardous liquid pipeline systems;
- enforcing traffic laws on Minnesota highways;
- promoting safety on roadways and reducing traffic injuries and fatalities;
- providing financial advocacy and assistance to crime victims:
- administering justice assistance and crime prevention grant programs; and
- administering the Statewide 9-1-1 program.

DPS works to ensure that these core functions incorporate innovation, stewardship, collaboration, and communication.

The DPS took on a new role after September 11th as Minnesota's Office of Homeland Security. The department oversees the coordination of preparedness and response plans and resources, and serves as a link from the federal government to local public safety agencies. Under Governor Tim Pawlenty, Commissioner Michael Campion serves as the Director of Homeland Security.

Operations

Service to the citizens of Minnesota is the DPS's number one priority. However, the department's efforts also impact federal, state, and local criminal justice agencies, fire service agencies, emergency management, licensing and inspection agencies, other government agencies, and private and non-profit organizations. Nine separate divisions within the department provide direct services to the public.

Alcohol and Gambling Enforcement enforces liquor licensing and gambling laws through compliance checks, assistance to local agencies with criminal investigations, and efforts to combat underage drinking.

At A Glance

Over 270,000 vehicle registration renewals and payments were processed via self-service online transactions.

4,958 Driving While Impaired (DWI) arrests were made by the State Patrol in 2003.

12,521 cases were examined by the Bureau of Criminal Apprehension.

More than 375 locally-based crime victim programs received funding, and provided services to approximately 190,000 individuals in FY 2004.

Percentage of traffic deaths that are alcohol related declined 38%.

475 fire investigations were conducted by the State Fire Marshal's Office in 2003. Two hundred three of these were determined to be arson.

Bureau of Criminal Apprehension provides complete investigative assistance to local agencies, forensic laboratory services, criminal history information, and training to peace officers.

Driver and Vehicle Services provides vehicle registration, driver's license and driver evaluation services. Driving records and accident reports are also maintained.

Homeland Security and Emergency Management coordinates disaster preparedness, response, recovery, and mitigation for homeland security, natural, and other types of major emergencies and disasters.

State Fire Marshal and Pipeline Safety protects human lives and property by promoting fire prevention and pipeline safety through inspections, investigations, and public education.

State Patrol enforces traffic laws on Minnesota's highways, responds to crashes, inspects commercial vehicles, and assists local law enforcement.

Traffic Safety administers programs and grants that reduce the number and severity of traffic crashes in Minnesota including programs such as alcohol awareness, safety belt promotion, and motorcycle training.

Office of Justice Programs was created by Governor Tim Pawlenty in May 2003, and brings together programs formerly operated through Minnesota Planning and the Office of Crime Victim Ombudsman, and the departments of Public Safety, Education and Economic Security. The office provides leadership and resources to reduce crime, improve the functioning of the criminal justice system, and assist crime victims. This office also provides grant administration, criminal justice information and research, and assistance and advocacy to crime victims.

911 Emergency Services/ARMER oversees the 9-1-1 System standards; provides technical assistance to cities and counties to implement and improve 9-1-1; manages and distributes funds to provide for 9-1-1 service, and distributes funds for the regional public safety trunked radio system.

DPS also has five internal support divisions that provide services relating to communication, fiscal administration, human resource management, internal affairs, and technical support.

Program: ADMIN & RELATED SERVICES
Activity: OFFICE OF COMMUNICATIONS

Narrative

Activity Description

The Office of Communications delivers the department's message and responds to media requests on behalf of all divisions within the Department of Public Safety (DPS).

Population Served

The Office of Communications serves DPS employees, the media, the public, the legislature, other state agencies, and external constituent groups such as law enforcement agencies.

Activity at a Glance

In FY 2004:

- Sent 250 news advisories and releases
- Responded to 2,000 media calls
- ♦ Initiated 525 media calls
- Coordinated 40 news conferences
- Designed and wrote 35 publications
- ♦ Wrote/edited 50 articles and reports

Services Provided

Communications coordinates activities that establish the department as a leader and effective public policy maker on issues that affect public safety by:

- assisting the Commissioner's Office in developing a unified departmental message; and
- promoting DPS's three primary functions: service, enforcement, and prevention.

Communications also provides strategic direction, leadership, and professional communications services and support including:

- development of communication plans and processes;
- ongoing execution of media relations;
- development, coordination, and production of a range of communications vehicles and publications, including editorial and graphic content; and
- planning, coordination and execution of special events and programming; and development and dissemination of public information and educational materials.

Key Measures

- ⇒ Relationships with the media and the amount of media coverage. Communications responds to media requests and proactively provides information to the media. The goal is to continue positive working relationships with media outlets and maintain the amount of coverage DPS receives in FY 2006 and FY 2007.
- ⇒ **Distribution of an internal DPS electronic newsletter.** Communications provides employees with departmental news and information so employees are better informed and develop a stronger sense of team spirit. The goal is to electronically deliver the e-newsletter four times per year.

Activity Funding

This activity is a mix of General Fund appropriations, Special Revenue Fund accounts, Trunk Highway Fund appropriations and federal funds. The source of the Special Revenue Funds is driver license motorcycle endorsement fees (Motorcycle Safety Account).

Activity: PUBLIC SAFETY - SUPPORT

Narrative

Activity Description

Public Safety Support includes three separate offices: the Commissioner's Office, Fiscal and Administrative Services, and Human Resource Management and Development. The Commissioner's Office provides overall leadership for the entire Department of Public Safety (DPS) as it relates to the three main goals of DPS: service, prevention, and enforcement. Fiscal and Administrative Services provides financial and administrative support to the divisions and staff offices within DPS. Human Resource Management and Development provides professional human resource services to all employees within DPS.

Activity at a Glance

- The Commissioner's Office oversees 14 separate divisions within DPS with 1,929 employees
- Human Resources held 120 classes with 1,585 students in FY 2004.
- Fiscal and Administrative Services processed 37,768 payments to vendors, with 99.5% paid within 30 days in FY 2004.

Population Served

Public Safety Support primarily serves all the employees and divisions within DPS but also serves other state agencies, the legislature, public safety constituent groups such as law enforcement, federal public safety agencies, and the citizens of Minnesota.

Services Provided

The Commissioner's Office provides strategic and operational planning, management of divisions, legislative services, constituent response, and overall leadership of the goals of the agency. This office also serves as the Minnesota Office of Homeland Security providing a link between the federal Office of Homeland Security and local first responders throughout the state.

Fiscal and Administrative Services provides budgeting, general accounting, financial reporting, payroll coordination, accounts payable, purchasing, grant and contract management, and administrative support services.

Human Resource Management and Development provides recruitment and staffing, exam development, classification, compensation, benefits and insurance, workforce planning, labor relations and negotiations, workers compensation and safety, and training and development classes.

Key Measures

- ⇒ Implementation of DPS strategic plan. Each division sets goals with targets and results; Public Safety Support works with division directors to assure that strategic plan goals are met annually.
- ⇒ Efficiency of the grant contract process. Fiscal and Administrative Services has improved efficiency through guidelines, checklists, training materials, online tools, training sessions and by updating administrative policies.
- ⇒ Implementation of Resumix for all vacancies filled within the department. Resumix is the new system used to hire positions within state agencies.

Activity Funding

This activity is funded by a mix of General Fund appropriations, Special Revenue Funds, Trunk Highway Fund appropriations, and Highway User Tax Distribution Fund appropriation. The source of the Special Revenue Funds is the recovery of indirect costs.

Program: ADMIN & RELATED SERVICES
Activity: TECHNICAL SUPPORT SERVICES

Narrative

Activity Description

The Office of Technical Support Services (OTSS) designs and supports a department wide set of CORE computer services including: the computer network infrastructure, email communication system, web services, and information systems security services. OTSS also develops software applications for division programs and provides desktop support to Department of Public Safety (DPS) staff.

Population Served

OTSS primarily serves employees within DPS. All programs within the DPS including the Bureau of Criminal Apprehension, CriMNet, the Minnesota State Patrol, Driver and Vehicle Services, Emergency Management, State Fire Marshal, and Pipeline Safety are dependent on the CORE services OTSS provides.

Activity at a Glance

- Manages department information systems security for all programs and 1,800 DPS computer users.
- Provides desktop support for over 600 DPS employees housed in five major locations, 17 small sites, and 250 individual remote locations across the state.
- Provides telephone system support for 600 phones for DPS employees and telephone service request coordination for the entire department.

Services Provided

OTSS designs, implements, and supports DPS network architecture. This is a complex infrastructure that includes e-mail and file and print services that supports staff in locations throughout the state. The department web master manages the department web server and assists division personnel in developing web pages and interactive applications for the public and business partners. Programming services are provided for all divisions of DPS to develop needed software applications to carry out their program goals. OTSS also provides department-wide information systems planning and represents the department's interests on the State Information Policy Council and the State Technical Architecture Review Board. The information security officer directs computer systems security out of the OTSS, including firewall support, network monitoring, incident response, and intrusion testing. OTSS provides system architecture design services through our network group that also manages all switches and routers and works with InterTech and other providers of our wide area network connectivity.

Additionally, OTSS provides personal computer desktop support services for eleven DPS divisions with over 600 staff. This includes hardware and software installations, upgrades and removals, helpdesk support, software license compliance management, and problem resolution (in addition to telephone system support).

Key Measures

- ⇒ Implementation of computer security system recommendations.
 - A network security vulnerability assessment and corrective network architecture plan was developed for the department in 1999 by InterSec, a vendor that specializes in security architecture development. The department has implemented most of the recommendations. With the need to focus more directly on security due to homeland security responsibilities that the department now has, there is a need to complete implementation and maintain security into the future.
- ⇒ The amount of bandwidth needed to provide necessary network operating services. As more and more DPS services to the public and business partners are delivered over computer networks, including the Internet, the department must keep pace with providing the necessary bandwidth to carry these services. Network efficiency monitoring must reflect an average efficiency of at least 99% each year to be sure those programs can operate adequately.
- ⇒ Desktop support problem resolution.

 Trouble calls are assigned an appropriate priority when received and are completed within the agreed upon timeframe for the priority assigned (four hours for a priority one, eight hours for a priority two etc.). Ontime problem resolution should be at a 90% level or better.

STATE PATROL Program:

PATROLLING HIGHWAYS Activity:

Narrative

Activity at a Glance

4,958 Driving While Impaired (DWI) arrests 12,854,976 total miles traveled by troopers

During calendar year 2003:

593,363 enforcement contacts

25.009 crashes investigated

Activity Description

It is the responsibility of the State Patrol to enforce traffic and criminal laws on Minnesota's public highways and on state property. These law enforcement services provide for the safe and efficient movement of traffic and the protection of Minnesota's citizens through enforcement, education, and assistance.

Population Served

The State Patrol serves the 5.1 million Minnesota citizens,

and 3.75 million licensed drivers operating 4.49 million registered motor vehicles regularly using the roadways in Minnesota.

Services Provided

This division's primary role is the enforcement of laws regulating the use of the state's highways with special emphasis on removing impaired drivers, encouraging seat belt use, and reducing the incidence of speed and aggressive driving violations.

In addition to enforcement, the State Patrol provides a variety of services. Troopers respond to motor vehicle crashes and provide assistance to stranded motorists. As first responders, troopers regularly render life-saving assistance to the victims of serious crashes. After tending to the injured, troopers investigate and reconstruct motor vehicle collisions to determine the causal factors. Determining the cause of collisions establishes accountability and helps prevent future crashes. Disabled vehicles can be a serious hazard for the driver as well as for other vehicles on the roadway. Helping motorists with vehicle problems to either move their vehicles to safety off the road, or to repair a minor problem, makes travel safer for everyone and reduces congestion causing obstructions. Over the course of the year, troopers make arrangements for numerous tow trucks, change countless tires, put out small car fires, and assist with medical emergencies.

The State Patrol also promotes a safer highway environment by encouraging voluntary compliance with motor vehicle traffic laws through public education activities. State Patrol troopers regularly visit schools, conduct child safety seat inspections, participate in safe driving seminars, and produce public service announcements. Traffic safety programs designed specifically for school age audiences, such as pedestrian, bicycle, school bus, and teen driving, have allowed troopers to reach nearly every Minnesota child between the ages of five-18. The State Patrol has successfully blended community and corporate partnerships with innovative traffic safety initiatives at the local level.

Historical Perspective

Since 1980, the effects of removing impaired drivers, encouraging seat belt use, and reducing the incidence of speed and aggressive driving violations have caused some positive changes to occur. With sustained emphasis on arresting and removing impaired drivers from the highways, the incidence of impaired or intoxicated driving has decreased. Prior to 1980, over 50% of all fatal car crashes involved an impaired driver. For the calendar year 2003, 37% of fatal crashes were attributed to an impaired driver.

Special emphasis on seat belt enforcement has contributed to the increasing percentage of motorists using seat belts. Coincidental to the increased seat belt enforcement, the number of severe injuries resulting from motor vehicle crashes has steadily decreased. Prior to 1980, the percentage of persons wearing seat belts was 30% and the number of persons severely injured in crashes was over 5,000 annually. In 2003, seat belt use was at 79% and the number severely injured was under 2,300. This decrease has occurred even as the number of licensed drivers, registered vehicles, and miles traveled has increased, and the average number of total crashes has stayed the same.

STATE PATROL Program:

PATROLLING HIGHWAYS Narrative Activity:

Last year, while patrolling the state's 12,000 miles of highway, the State Patrol Troopers issued 593,363 citations and warnings, arrested 4,958 impaired drivers, investigated 25,009 crashes, and assisted 130,055 motorists.

Key Measures

⇒ The number of motor vehicle occupants using seat belts.

The use of seat belts has proven to be directly related to a reduced incidence of injuries and deaths resulting from motor vehicle crashes. Active education and enforcement of seat belt laws has a direct impact on the percentage of vehicle occupants wearing seat belts. The goal is to reduce the number of serious injury and fatal motor vehicle crashes.

Performance indicator: The percentage of motor vehicle occupants that used seat belts from 1994 – 2005.

<u> 1994</u>	<u> 1995</u>	<u> 1996</u>	<u> 1997</u>	<u> 1998</u>	<u> 1999</u>	2000	<u>2001</u>	2002	2003	2004	2005(PROJ)
57%		64%	65%	64%	72%	73%	74%	76%	77%	79%	80%

Activity Funding

This activity is funded by a mix of appropriations: Trunk Highway Fund, Special Revenue Funds, Emergency 911 Funds, and federal funds. The sources of the Special Revenue Funds are the motor vehicle title transfer surcharge revenues (funds State Patrol vehicle purchases), disposition of drug forfeitures, portion of the seat belt violation fine money (funds traffic safety educational programs), service fees charged for air patrol services. State Patrol escort service fees and Enhanced 911 service fees.

STATE PATROL Program:

COMMERCIAL VEHICLE ENFORCEMENT Activity:

Narrative

Activity Description

Commercial Vehicle Enforcement exists to enforce laws specifically regulating the operation and movement of commercial motor vehicles, with the expressed goal of reducing the number of collisions involving commercial vehicles and reducing the damage to roadways caused by overweight vehicles.

Population Served

The Commercial Vehicle Enforcement division serves the

5.1 million Minnesota citizens, and 3.75 million licensed

Activity at a Glance

Commercial motor vehicle (CMV) enforcement activity for calendar year 2003:

- 35,138 driver/CMV safety inspections
- 5,114 CMV collisions
- 2,432 CMV drivers placed out of service
- 7,019 CMVs placed out of service

drivers operating 4.49 million registered motor vehicles regularly using the roadways in Minnesota. specifically, daily activities center on the commercial vehicle operators and companies involved in transporting goods and providing transportation services within Minnesota.

Services Provided

The Commercial Vehicle Enforcement division enforces state and federal laws regulating the size, weight, load, and operation of commercial motor vehicles on all Minnesota roadways, and primarily, on the state and federal trunk highway systems.

This includes 11 fixed weigh scale locations and 22 mobile enforcement teams. Fixed scales are located in Erskine, Saginaw, Moorhead, St. Croix, and Worthington. These facilities are operated on a regular basis with permanent staff. The remaining scale locations are operated on an irregular basis with no permanent staff assigned. Mobile enforcement teams weigh vehicles at roadside and perform random roadside inspections of commercial vehicles. Specialized school bus inspectors perform annual and random inspections of school buses for compliance with safety equipment, vehicle mechanical condition, and driver documentation. In 2003, 35,138 commercial vehicle and/or driver inspections were completed.

While weather is a contributing factor, the major cause of roadway deterioration is the effect of overweight trucks. Deterioration of roadways comes at a tremendous cost in dollars and lost safety for taxpayers and users of the roadways. The Minnesota relevant evidence law provides for the civil enforcement of vehicle weight by requiring law enforcement access to certain shipping documents and bills of lading at elevators and shipping locations. State Patrol civil weight inspectors review hundreds of thousands of shipping documents annually identifying overweight violations that would otherwise go undiscovered.

Commercial Vehicle Enforcement provides annual and requested training to local law enforcement agencies on commercial vehicle regulation, inspection, and crash investigation. Training is also provided in compliance with the requirements of the state mandatory commercial vehicle inspection program.

The State Patrol is also designated as the lead agency for the state of Minnesota's participation in the federal Motor Carrier Safety Assistance Program (MCSAP). The purpose of MCSAP is to improve the performance of commercial vehicle drivers and mechanical condition of commercial vehicles. The State Patrol Commercial Vehicle Enforcement activity, as part of the MCSAP, devotes a significant portion of resources toward CMV-driver safety education. This generally takes the form of formal classes conducted by the Commercial Vehicle Enforcement staff, question and answer sessions between staff and CMV industry representatives and drivers, and roadside enforcement activities focusing on unsafe driver practices.

Key Measures

⇒ The number of commercial motor vehicle inspections.

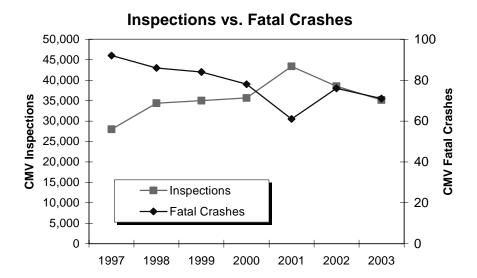

The effect of fatigue on the driver of a motor vehicle has been shown to be similar to the impairment caused by alcohol and/or drugs. The effect of fatigue on a commercial vehicle driver can have devastating implications due to the size and weight differential of a CMV. Of those fatal crashes that are found to be the

Program: STATE PATROL

Activity: COMMERCIAL VEHICLE ENFORCEMENT

Narrative

fault of the CMV, only about 5% can be blamed on faulty vehicular equipment and about 95% are the responsibility of the CMV driver. Statistics seem to indicate that there is a direct relationship between an increased emphasis on CMV driver inspections and a decrease in fatal crashes involving CMVs. Ninty-four percent of all inspections involve the inspection of the driver. As the number of CMV inspections increases, the number of fatal crashes has declined.

Activity Funding

This activity is funded by a mix of Trunk Highway Fund appropriations and federal funds.

Program: STATE PATROL

Activity: CAPITOL COMPLEX SECURITY

Narrative

Activity Description

Capitol Complex Security/Executive Protection is a division of the Minnesota State Patrol, whose primary function is to provide for the safety and security of judicial and legislative officials, state employees, and members of the public working at or visiting the Capitol Complex. The executive protection unit is comprised of state troopers, who are responsible for providing personal protection and security for the governor, lieutenant governor, the governor's immediate family and the state's executive residence in St. Paul.

Activity at a Glance

- Capitol Security monitors over 20,000 environmental, fire, and security points including fire alarms, panic alarms, hold-up alarms, and security alarms.
- 6,000 employees work within the Capitol Complex and nearly one million citizens visit the Capitol Complex on an annual basis.

Population Served

Capitol Complex security officers are responsible for safety and security of more than 6,000 state employees working within 34 individual state buildings located throughout the entire Capitol Complex. Capitol Security officers also provide security, employee safety escorts, and parking enforcement within the 31 Capitol Complex parking facilities. There are also over one million visitors to the Capitol annually.

Services Provided

The Capitol Security Operations Center is the central hub for the operation of the state buildings and responds to all emergencies that occur within its jurisdiction. Currently there are over 20,000 environmental and security points regulated by the Operations Center staff. These include: security alarms, panic alarms, fire alarms, hold-up alarms, environmental heating, air conditioning and ventilation controls, and lighting.

The Operations Center monitors more than 200 cameras. These cameras are located throughout the Capitol Complex in high-security and public areas. The parking lots, parks, tunnels, and main entrances also have intercoms, which can be used in an emergency or to request assistance from a security officer. There are over 100 intercom sites located throughout the Capitol Complex.

During the legislative session, the State Patrol assigns troopers to the legislature to protect members of the house of representatives and senate. These troopers follow up on threats, which members may receive verbally, in writing or via the telephone. When the legislature is not in session, threats are followed up by a security supervisor and then turned over to Capitol Security's investigator, who is a state trooper.

There are over 240 rallies, protests and events held on the Capitol Complex each year. A permit is required for each event and additional security is often needed at these events.

Capitol Security officers are the primary responders to all emergencies occurring on the Capitol Complex and at buildings within Capitol Security's jurisdiction. These emergencies include: suspicious activities, disruptive individuals, fires, and medical emergencies. Officers are trained in first aid, CPR, and the use of automatic external defibrillators. Capitol Security works closely with Minneapolis and St. Paul paramedics, fire departments and police to make sure that all emergencies are safely and efficiently managed.

Key Measures

 \Rightarrow The response time of Capitol Security officers to requests for assistance.

Calls for Service (CFS) are defined as a request for security services, which require an immediate response or follow-up by security personnel. CFS received at the Capitol Complex Security Communications Center are categorized as emergency and non-emergency. Data indicate that quick response to emergency situations (medicals, fire/police assists, alarms) saves lives, minimizes damage, and solves crimes. Emergency CFS are given priority for response. CFS response time is the elapsed time from the time a CFS is received by the Communications Center and the time that security personnel arrive at the CFS location. Prompt handling, proper prioritization, and staffing levels have an impact on response time.

Program: STATE PATROL

Activity: CAPITOL COMPLEX SECURITY Narrative

The goal of Capitol Security is to ensure the safety of employees and visitors within the Capitol Complex by responding to CFS in a timely manner. The goal for Capitol Security is to maintain the average response time to CFS established in 2002-2003, although staff reductions have taken place since then.

Average CFS Response Time (minutes):

	2002-2003	2004-2005 (goal)
Emergency	3.41	3.41
Non-emergency	4.25	4.25

Activity Funding

This activity is funded from the General Fund. Revenues are generated from security contracts with agencies located in buildings outside of the Capitol Complex and for additional security needed by some state agencies.

DRIVER & VEHICLE SERVICES Program:

VEHICLE SERVICES Activity:

Activity Description

Vehicle Services is responsible for issues relating to motor vehicles in Minnesota including: issuance of vehicle registration and titles, maintenance of records, collection of revenue, regulation of motor vehicle dealers, issuance of disability permits and plates, and inspection of salvaged and reconstructed vehicles.

Population Served

This division serves the general population of Minnesota, vehicle owners and lessees, deputy registrars, auto dealers, motor carriers, law enforcement agencies, lending institutions, insurance companies, and the court system.

Services Provided

- ⇒ Maintains over six million motor vehicle ownership and registration records.
- ⇒ Verifies ownership documents and issues certificates of title to owners and lien notification cards to lenders.
- ⇒ Issues license plates and registration stickers.
- ⇒ Issues temporary and permanent disability license plates and parking certificates to qualified applicants.
- ⇒ Collects registration and fuel taxes from interstate motor carriers through the administration of two international registration and fuel tax agreements, offering online fuel tax reporting to carriers.
- ⇒ Partners with appointed public and private deputy registrars to provide motor vehicle services to citizens at over 171 locations throughout the state.
- ⇒ Provides training and support to appointed deputy registrars and licensed motor vehicle dealers and insures statutory and rules compliance of these agents and licensees.
- ⇒ Prepares and distributes procedural manuals and bulletin updates related to motor vehicle title and registration issues.
- ⇒ Provides information services related to vehicle registration and titling to citizens, deputy registrars, auto dealers, courts, and law enforcement agencies, by phone, letter, Internet, and e-mail. Deputy registrars and auto dealers also have access to the eSupport website designed to bring information and online services to Vehicle Services business partners.
- ⇒ Provides self service options for vehicle registration renewal, report of vehicle sale, and purchase of critical habitat license plates. Registration stickers and license plates are delivered to customers in 10 days or less.
- ⇒ Offers mail-in option for registration renewals. Registration materials are mailed to customer in four business days or less.
- ⇒ Staffs an office in St. Paul, where citizens may file a traffic crash report, perform online services at a kiosk and access division records.
- ⇒ Issues a variety of special license plates, including personalized, critical habitat, veteran, collector, and special use plates.

Historical Perspective

Driver and Vehicle Services (DVS) continues to expand the access that our business partners have to electronic transactions. In addition to deputy registrars to renew registration online in real-time, we have begun a project that will allow for them to report their work to us in a standardized form online. These changes are part of an ongoing technical improvement plan to provide citizens and business partners with more options to receive fair, accurate, secure, and timely (FAST) service from Driver and Vehicle Services.

Activity at a Glance

Narrative

During Fiscal Year 2004 the division has:

Increased the number of self-service registrations by 25%

In 2003 the division:

- Processed over five million vehicle transactions
- Issued 1.5 million vehicle ownership certificates of title
- Licensed 4,000 motor vehicle dealers; over 40% renewed with self-service online licensing
- Collected over \$1.5 billion in revenue
- Processed over 270,000 vehicle registration renewals and payments by Internet (see above)
- Agents were able to process over 3.9 million motor vehicle transactions in real-time online

Program: DRIVER & VEHICLE SERVICES

Activity: VEHICLE SERVICES Narrative

Key Measures

⇒ Wait times for delivery of service.

⇒ Access to service and information.

DRIVER & VEHICLE SERVICES Program:

DRIVER SERVICES Narrative Activity:

Activity Description

Driver Services is responsible for any issue relating to licensed drivers in Minnesota including: identification, examination, licensing, and evaluation of drivers, issuance of driver's licenses and identification cards, maintenance of driver history and traffic crash data, licensing of driver training instructors and schools, and collection of revenue.

Population Served

The division serves the general population of Minnesota, licensed drivers, driver education instructors and schools, driver license agents, the court system, and law enforcement agencies.

Services Provided

- ⇒ Maintains 3.6 million driver history records.
- ⇒ Administers driver's license examinations. Driver Services staff administer knowledge (written) and skill (road) exams at 94 locations throughout the state. In 2003, 689,502 total tests were conducted, including general (Class D), commercial vehicle licensing, motorcycle, and school bus. Of those, 530,639 were

Activity at a Glance

During FY 2004 the division has:

- Reduced processing time for driver's licenses from 26 days to 10 days
- Reduced customer wait time for driver's license road test appointments from 25 days to 17 days

In 2003 the division:

- Issued 1.56 million cards including driver's licenses, ID cards, and permits
- Conducted over 400,000 general (Class D) knowledge and skill examinations
- Reinstated the driving privileges of 170,000
- Suspended, canceled, revoked, or disqualified the driving privileges of 200,000 drivers
- knowledge tests and 158,863 were skill tests. The knowledge test is made available in seven languages at 24 testing facilities.
- ⇒ Offers 136 sites throughout the state to renew or apply for a Minnesota driver's license, identification card, or permit (in partnership with 122 appointed driver's license agents).
- ⇒ Develops and publishes driver manuals to assist individuals in preparing for the driver's license tests. Manuals are also available electronically on the division's website. The general manual (Class D) is available electronically in Spanish.
- ⇒ Issues driver's licenses, identification cards, and permits. An online application process delivers a duplicate or renewed license, permit, or ID card to the customer in less than seven days as opposed to 10 days with the existing manual process.
- ⇒ Provides driver compliance evaluations for problem drivers throughout the state. Evaluators met with 29,232 drivers in 2003.
- ⇒ Provides information services to the public by phone, letter, and e-mail.
- ⇒ Licenses over 93 commercial driver education schools and over 528 driver education instructors.
- ⇒ Approves public school driver education programs, motorized bicycle courses, accident prevention courses for drivers 55 or older, and Driving While Impaired (DWI) clinics.
- ⇒ Maintains all traffic crash records that occur in Minnesota online.
- ⇒ Provides service to law enforcement and court services.

Historical Perspective

In the past year, Driver Services expanded its mission of providing fair, accurate, secure and timely (FAST) service to the public and its business partners (law enforcement, court systems, driver's license agents, driver instructors and schools, and third party examiners) to include Internet services. The creation of eSupport, a website designed for the division's business partners, gives these partners access to simple-to-read driving records, regional online scheduling of driver's tests, and an online driver's license application process. eSupport has simplified the process for the end user and streamlined the process for the division, enabling the division to meet many of its target goals.

Program: TRAFFIC SAFETY

Narrative

Program Description

The Office of Traffic Safety (OTS) was created to reduce traffic crashes through enforcement efforts and public awareness events. Traffic crashes are the leading cause of death and serious injury for Minnesotans from the age of one through 34 years of age.

Population Served

The office works most often with the public health, enforcement, research, and media communities and other traffic safety organizations, to improve the behavior of drivers, passengers, pedestrians, and motorcyclists on Minnesota roadways.

Program at a Glance

- 184 grants to local units of government in 61 counties. 34 statewide grants to other state agencies, other divisions of Public Safety, and nonprofits.
- More than \$25 million in grants received, requiring OTS applications for 18 different federal programs.
- ◆ To better serve our partners, grant applications are now available on our web site at <u>www.dps.state.mn.us/ots/</u> and some reports can be submitted online.

Services Provided

OTS collaborates with other divisions in the Department of Public Safety (DPS), other state agencies, county and city governments, school districts, and private organizations and individuals to conduct traffic safety programs throughout Minnesota. The federal funds allow us to support traffic safety action programs and innovative technological solutions to a variety of traffic safety problems – from overtime patrols for law enforcement, to the development of new database links, to computer solutions for Driver and Vehicle Services and beyond. Finally, we see ourselves as sound stewards of public funds, seeking to invest in programs that will reduce not only the economic cost of crashes in Minnesota, but also the emotional toll on families of crash victims.

OTS serves as the Governor's Representative for Highway Safety and coordinates Minnesota's participation in the National Highway Traffic Safety Administration's (NHTSA) State and Community Highway Safety grant program. In addition to the NHTSA federal grant programs, OTS coordinates and manages several state-funded programs (including the motorcycle safety program and the child seats for needy families program) and other federal grant programs (the block grant and discretionary grants made available through the Office of Juvenile Justice and Delinquency Prevention to combat underage drinking). In addition, OTS also produces Minnesota Motor Vehicle Crash Facts to satisfy the requirements of M.S. 169.10.

State program administrators (roughly half of the OTS staff of 20) serve as grant coordinators and designers who interact with grant recipients and funding agencies. Coordinators also act as program experts who testify before the legislature, answer questions from the media and the general public, and advise policy makers and legislative staff on issues related to the program areas they coordinate. OTS has three research analysts who analyze traffic crash data from Minnesota, produce the legislatively-mandated Minnesota Motor Vehicle Crash Facts booklet, identify traffic safety problem areas for the coordinators, answer questions from the general public, and evaluate the effectiveness of various traffic safety programs. Other office activities include participation in the Fatal Analysis Reporting System, a national database on fatal motor vehicle crashes which is internationally known and respected.

OTS employs a variety of methods to gather input from other people involved in traffic safety issues. The key advisory boards and networks used during the past year include the Traffic Safety Partners group, Traffic Records Coordinating Committee, Network of Employers for Traffic Safety Advisory Board, Safe and Sober Law Enforcement Liaisons, Motorcycle Safety Advisory Board, and Child Passenger Safety Advisory Board.

Historical Perspective

While a great deal of progress has been made since OTS began compiling and publishing crash statistics, traffic crashes are still a critical public health problem of epidemic proportions. If we compare 1971 Minnesota data with 2002 data we find:

⇒ Licensed drivers have increased 77%, registered vehicles have increased 93%, and vehicle miles traveled have increased over 132%. During the same time, the state's population increased 29%. More of us drive,

Program: TRAFFIC SAFETY

Narrative

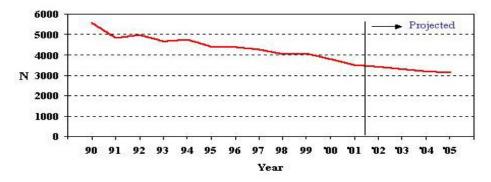

and we drive more often than we used to. Our exposure to the risk of a traffic crash has increased as a result of these factors.

- ⇒ From 1971 to 2002, the number of traffic-related deaths fell 36% and severe injuries fell over 81%, while the number of vehicles in crashes fell 18%. A crash today is more likely to result in a moderate or possible injury increases of 55% and 69% respectively. Today's vehicles are better designed to protect the people inside when a crash happens and more of our travel is done on four-lane divided highways with limited access the safest type of roadway. The change most responsible for the declining severity of crashes is the 16-fold increase in occupant protection use seen over the past 30 years from less than 5% in 1971 (when many cars on the road weren't even equipped with belts) to 79% in 2002.
- ⇒ The number of Driving While Impaired (DWI) arrests have increased 280%, males accounted for 91% of alcohol related traffic deaths in 1971 and accounted for 72% in 2002. Although the legal drinking age has not changed since 1971 (21), the age of drinking drivers involved in fatal crashes has. In 1971, 42% of fatal crashes involved drinking drivers between the ages of 16-24. In 2001, that age group represented 22% of fatal crashes involving drinking drivers.
- ⇒ Crash costs include emergency medical services, hospitalization, hospital staff, rehabilitation, administrative, and liability. In Minnesota, crash costs have increased about 15-fold since 1971. In 2002, Minnesota taxpayers and insurance policy holders footed the bill for costs in excess of \$1.7 billion dollars.

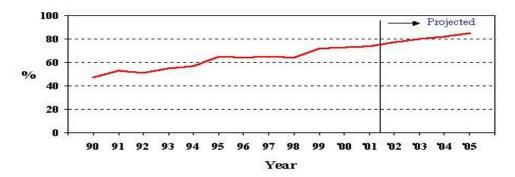

Key Measures

- Reduce the number of traffic deaths and serious injuries in Minnesota
- Increase seat belt use in Minnesota
- Decrease impaired driving in Minnesota

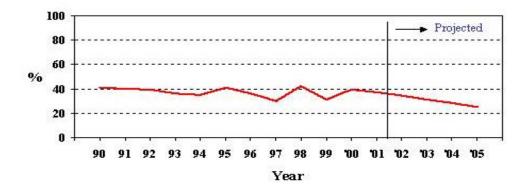

Minnesota Traffic Fatalities and Serious Injuries Actual, 1990 - 2001 Projected, 2002 - 2005

Minnesota Observed Seat Belt Use Actual, 1990 - 2001 Projected 2002 - 2005

Percentage of Minnesota Traffic Fatalities that were Alcohol-Related Actual, 1990 - 2001 Projected 2002 - 2005

Program Funding

The work of the OTS is funded by a mix of Special Revenue Accounts, Trunk Highway Fund appropriations, and federal funds. The sources of the Special Revenue Funds are motorcycle endorsement fees on drivers' licenses (the Motorcycle Safety Account) and child restraint car seat violations (the Minnesota Child Passenger Restraint and Education Account). The Trunk Highway Fund appropriation is a required match for receiving the federal funding.

Program: PIPELINE SAFETY

Narrative

Program Description

The Office of Pipeline Safety (MNOPS) protects Minnesota's lives, property, and environment through the implementation of a program of gas and hazardous liquid pipeline inspections, enforcement, accident/incident investigations, and education. MNOPS conducts safety inspections of all pipeline facilities as authorized by state law and the United States Department of Transportation (U.S. DOT/OPS).

Population Served

The Office of Pipeline Safety protects the public safety of all Minnesotans by inspecting over 30 municipal gas systems, 10 private gas systems, over 100 total pipeline facility operators (which operate over 65,000 miles of pipelines in the state) and over 1.4 million customer meter settings.

Program at a Glance

- Minnesota's 12 inspectors have over 65,000 miles of pipelines to inspect; over 9,000 miles are interstate pipelines.
- There are 30 municipal gas systems, 10 private gas distribution systems, and 100 pipeline facility operators in Minnesota.
- Minnesota's Damage Prevention Program conducted 90 presentations to 7,200 people in 2003.
- The Office of Pipeline Safety is funded up to 50% by a U.S. Department of Transportation/OPS grant and 50% from a special revenue account.

Services Provided

Pipeline Inspections:

- ⇒ Twelve pipeline inspectors are responsible for statewide inspection of the natural gas and hazardous liquid industry. As agents for the U.S. DOT, Minnesota staff inspects over 9,000 miles of interstate pipelines in addition to over 56,000 miles of intrastate pipelines.
- ⇒ Staff responds to pipeline accidents and incidents, working cooperatively with the National Transportation Safety Board, U.S. DOT/OPS, and the Minnesota Pollution Control Agency.
- ⇒ The Office has field personnel located in Mankato, Grand Rapids, and Detroit Lakes as well as St. Paul.

Damage Prevention:

The office promotes damage prevention, enforces the Gopher State One-Call law (requires excavators to call before they dig and utility operators to mark their facilities), supports an emergency notification center, and maintains data and maps on pipelines. MNOPS conducts "dig safely" education seminars at several utility coordinating committees, Gopher State One Call, public speaking opportunities, the Minnesota State Fair exhibit, pipeline operator training, and damage prevention seminars. Three staff actively participate in the national industry/government education effort of the Common Ground Alliance, to promote utility best practices.

Historical Perspective

The Office of Pipeline Safety was created in 1987 following a major pipeline release that ignited in Mounds View. In 1991, the office became fully qualified to inspect all interstate pipelines under authority of U. S. Department of Transportation, Research and Special Programs Administration. As a condition of its federal pipeline grant funding, the office must continue to train its inspectors, meet federal standards, and pass an annual program audit.

Federal program changes have placed increased federal inspection requirements in risk and integrity management, operator qualifications, and expanded community liaison between emergency officials and pipeline operators. In addition, since 9-11-01, additional emphasis has been placed on security planning and emergency response.

Minnesota has initiated new efforts with industry to inform local communities and emergency responders about responding to pipeline incidents. The Minnesota Pipeline Community Awareness and Emergency Response program (C.A.E.R.) has conducted over 25 local meetings throughout the state.

The inspection program has issued over 5,400 violations of state and federal safety codes since 1994. In 2003, staff responded to 184 accidents/incidents. MNOPS inspectors issued 122 compliance actions with 36 proposed civil penalties amounting to \$61,500 in 2003.

Program: PIPELINE SAFETY

Narrative

In 2003, damage prevention education and enforcement increased substantially with staff conducting over 90 presentations to over 7,200 excavators, operators, and homeowners. In addition, the office issued over 373 violations totaling over \$93,250 in proposed penalties for Gopher State One Call violations. Approximately 186 of the 373 were warnings of violations that did not include a penalty.

Nationally, the MNOPS continues as a leader in its inspection program, and its damage prevention education and enforcement efforts.

Key Measures

- ⇒ The number of pipeline leak repairs. The goal is to reduce pipeline leak repairs through inspection and enforcement 5% by June 2005.
- ⇒ The number of calls to the Gopher State One-Call Center. The goal is to increase the number of calls 8% by June 2005.

The number of educational presentations to excavators, emergency responders, local officials, operators, and homeowners. The goal is to conduct 90 educational presentations by June 2005

Program Funding

This program is funded by a mix of Special Revenue funds and Federal Grant Funds. The source of the Special Revenue Funds is pipeline safety inspection fees (Pipeline Safety Account).
