

2006 MERC/PMAP Discretionary Fund Distribution

In 2004, ten percent of the funds available for the MERC/PMAP distribution began being set aside for sponsoring institutions to disburse, at their discretion, to their eligible clinical training sites. The original intent of this fund was to offset funding that smaller sites might have lost when the Legislature added a statute that required sites to host a minimum number of FTEs per training program in order to qualify for the MERC/PMAP grant.

In 2005, the FTE minimum was lifted; however, the discretionary fund remained available for sponsoring institutions to use based on their own methodology to determine which of their training sites should benefit from these funds. They are required to report this methodology to the Minnesota Department of Health along with the discretionary amounts forwarded to each of their clinical training sites.

The 2006 Discretionary Distribution totaled \$6,450,701.45. This was divided among the sponsoring institutions based on the overall percentage of the MERC/PMAP grant they received.

Listed below are the sponsoring institutions along with the funding they had available from the 2006 Discretionary Fund:

Sponsoring Institution	Discretionary Fund

- Individual institution totals may not add up to the total overall grant due to rounding.
- After the distribution was made, some sponsoring institutions returned funds due to unforeseen site changes that were not known until funding was mailed. These adjustments are not shown in the amounts reported above. The individual site totals shown on the following pages represent the actual amounts received by the sites (including adjustments). All returned funds will be rolled into the next distribution.
