(M.S. 1997, Section 214.07)

BOARD: Minnesota Board of Architecture, Engineering, Land
Surveying, Landscape Architecture, Geoscience, and Interior
Design

LOCATION: 85 E. 7th Place, Suite 160, St. Paul, MN 55101

STATUTORY AUTHORITY: 326.02 – 326.15

REPORT PERIOD: July 1, 2006 to June 30, 2008

SUBMITTED BY: Doreen Frost, Executive Secretary

This report shall be delivered to the Governor.

**Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience,
and Interior Design**

Clause a: GENERAL STATEMENT OF BOARD ACTIVITIES

This description should cover both FY 07 and FY 08 and include any changes (additions/deletions) in activities between those years.

The Minnesota Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience, and Interior Design has been established to safeguard life, health and property and to promote the public welfare. The Board meets its mission through the examination, licensure, certification and regulation of individuals who practice architecture, professional engineering, land surveying, landscape architecture, geology, or soil science or who use the title certified interior designer. In addition, the Board regulates the unlicensed practice of these professions.

The Board reviews and processes applications for examination by identifying those candidates who meet the education and experience requirements set forth in statute and rule. Board staff administered 10 examinations for geology and soil science to a total of 70 candidates. The examinations for architecture, engineering and land surveying were administered by third-party testing agencies to a total of 1,994 candidates pre-approved by the Board as having met the requirements to sit for the respective examinations. In addition, the examinations for landscape architecture and certified interior design were given through their respective national licensing councils and candidates applied to the Board for licensure or certification following successful exam completion.

In the FY07/FY08 reporting period, the Board granted a total of 1,745 new licenses and certificates (by exam and by comity). The Board renewed approximately 15,400 licenses and certificates in FY08.

The Board, in cooperation with the Attorney General's office, processed and closed 267 complaints alleging violations of the Board's statutes and rules. During this period 196 new complaints were filed.

The Board generates non-dedicated revenue (license fees, examination fees, fines, civil penalties) into the General Fund. Fees are set to cover all direct and indirect costs.

Clause f: A BRIEF SUMMARY OF BOARD RULES PROPOSED OR ADOPTED
DURING THE REPORTING PERIOD WITH APPROPRIATE CITATIONS
TO THE STATE REGISTER AND PUBLISHED RULES.

During the reporting period, the Board adopted rules pertaining generally to all licensees and certificate holders. The nature of the adopted rules was to provide clarity in general and to specifically and accurately reflect which types of projects are exempt from requiring a licensed design professional.

Additionally during the reporting period, the Board entered the final stages for adoption of rules pertaining generally to all licensees and certificate holders and specifically to land surveyors. The nature of the rules was to require 160 hours in plat computations prior to admission to the professional land surveying examination. Prior to adoption of this rule, experience in plat computations was optional.

Minnesota Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience and Interior Design Rules Relating to Classes of Buildings.

1800.5900 CLASSES OF BUILDINGS.

In accordance with Minnesota Statutes, sections 326.02, subdivision 5, and 326.03, subdivision 2, the following classes of buildings are exempt subject to the limitations of the elements listed below:

**Board of Architecture, Engineering, Land Surveying, Landscape Architecture,
Geoscience, and Interior Design**

Clause p: ANY OTHER OBJECTIVE INFORMATION WHICH THE BOARD MEMBERS BELIEVE WILL BE USEFUL IN REVIEWING BOARD ACTIVITIES.

(For Example: In what other states do your licensees hold licenses? Number of Minnesota licenses verified/certified to other states? Number of inspections? Comparisons with past biennial reports?)

Annually the Board verifies to other states the status of approximately 1000 licensees and certificate holders. The completion of a verification does not mean that the individual necessarily follows through and receives a license or certification in the other jurisdiction.

It would be difficult to track licensure or certification in other jurisdictions. Non-home state licensure/certification is not always long term – it may be due to a single project. If all our licensees and certificate holders were asked to tell other jurisdictions in which they were licensed/certified, the data would become obsolete very quickly.

Licensees and certificate holders have a varying number of other licensing jurisdictions with which they can become licensed/certified. For example, architects and engineers could be licensed in 55 separate jurisdictions whereas soil scientists would find only 8 such jurisdictions.

The Board investigates complaints alleging unlicensed practice and because those individuals did not hold a license with the Board, the data is not included in clause m. Data for those complaints is set forth below:

	FY 07	FY 08	FY 07/08
TOTAL number of actions against unlicensed persons:	7	6	13
