CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF AITKIN

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CODE NUMBER & CLASSIFICATION	BASIC RATE PER HOUR	H & W	PEN- SION	VAC.	OTHER	PREVAILING HRLY RATE WHICH MUST BE PAID

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF BENTON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF CARLTON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

COUNTY OF CHIPPEWA

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF CHISAGO

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF COTTONWOOD

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF DODGE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF DOUGLAS

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF GOODHUE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF HOUSTON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF JACKSON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF LAC QUI PARLE EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF MCLEOD

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

--

COUNTY OF MORRISON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF NICOLLET

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF NOBLES

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF PENNINGTON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF POLK

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF POPE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF RENVILLE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF SIBLEY

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF STEVENS

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF WADENA

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

COUNTY OF YELLOW MEDICINE EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1983

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CODE NUMBER & CLASSIFICATION	BASIC RATE PER HOUR	H & W	PEN- SION	VAC.	OTHER	PREVAILING HRLY RATE WHICH MUST BE PAID
