# Introduction

The State of Minnesota's self-insured workers' compensation program is administered by the Minnesota Department of Administration's Risk Management Division. The program consists of four service units: claims management, disability management, legal, and safety & loss control. It covers over 57,000 employees in the executive, legislative, judicial branches of state government and quasi-state agencies, such as the Minnesota Historical Society, MnSCU, and the Minnesota State Fair.

The state's workers' compensation program receives on average 2,700 new claims annually and is funded by an administrative fee charged to each agency covered by the program. During state fiscal year 2009 (FY 2009), the program's total costs increased 4.9% (\$1,338,520) from \$27.3 million to \$28.7 million. The increase is led by a significant increase in reinsurance and special assessment costs. We present the following report on the program's activities during FY 2009. This report will present the costs of indemnity and medical benefits provided to injured state employees, summarize information regarding claims for work-related injuries, and note other significant data compiled by the program during the past fiscal year. A section of this report benchmarks the program against Minnesota industry results. This information is provided to state agencies, legislators, labor unions, insurance industry professionals, and others interested in the general operation of the program.

The Workers' Compensation Program welcomes comments about this report. Please direct comments to:

Minnesota Department of Administration Risk Management Division – Workers' Compensation Program 320 Centennial Office Building 658 Cedar Street St. Paul, MN 55155 Phone: 651/201-3000 Fax: 651/297-5471 E-mail: workers.comp.admin@state.mn.us Internet: www.riskworkers'comp.admin.state.mn.us

All comparisons made in this report are of FY 2009 figures to FY 2008, unless otherwise noted, and are actual costs. The cost data has not been adjusted for inflation, except for the benchmarks section (pp. 4-7).

# **Executive Summary**

The following is a summary of program activity for state fiscal year 2009:

# Cost Per \$100 of Payroll

 Costs per \$100 of payroll remains steady and are less than the Department of Labor & Industry's estimated average for employers in Minnesota (p. 5).

### **Claim Numbers**

 Agencies reported 0.2% fewer claims in FY 2009 (p. 9).

# **Total Costs**

- Total program costs increased 4.9% from \$27,315,121 in FY 2008 to \$28,653,641 in FY 2009 (pp. 11-12).
- Expenditures for reinsurance and the special assessment increased 16.5% from \$1,966,094 in FY2008 to \$2,289,854 in FY2009 (pp. 11-12).
- Expenditures for all benefits increased 3.9% from \$21,423,282 in FY 2008 to \$22,256,201 in FY 2009 (pp. 13-14).
- Expenditures for medical benefits increased 1.3% from \$10,790,514 in FY 2008 to \$10,935,884 in FY 2009 (pp. 16-17).
- Expenditures for indemnity benefits increased 6.6% from \$7,910,732 in FY 2008 to \$8,436,569 in FY 2009 (pp. 18-19).

### Recoveries

 Recoveries increased 38.9% in FY 2009 (pp. 20-21). Recoveries are funds the program receives from supplementary benefits, Second Injury Fund and subrogation.

# **Agency Activity**

- Nine large agencies (Human Services, Transportation, Corrections, MnSCU, Natural Resources, Public Safety, Veterans Affairs, Administration, and Trial Courts) accounted for 85.6% of the program's payment activity (pp. 24-25).
- Benefit costs for these nine agencies decreased 0.8% from FY 2008 to FY 2009 (pp. 26-27).
- The workers' compensation incidence rate decreased slightly from 4.3 in FY 2008 to 4.2 in FY 2009 (pp. 32-33) for all agencies. The incident rate for individual agencies is located in Appendix C (p. 37).

# **Other Findings**

- Claims that occurred prior to 2000 accounted for 25.9% of the program's benefit costs paid out during FY 2009 (pp. 22-23).
- Most common injury causes continue to be to overexertion and falls (p. 30).

# How the Program Works

# Mission and Enabling Legislation

The Workers' Compensation Program's mission is to work in partnership with state and quasi-state agencies to manage workers' compensation risk throughout state government. The program works primarily through each individual state agency's human resource and safety personnel.

The enabling legislation for the Program is found in Minnesota Statutes 176.541 through 176.611.

# **The Four Service Units**

The Workers' Compensation Program delivers its workers' compensation services to state agencies and their employees through four work units: claims management, disability management, legal, and safety & loss control. Below is a brief description of what each work unit does.

# **Claims Management Unit**

The Claims Management Unit determines liability for workers' compensation claims filed against the state and quasi-state agencies by state employees. It then contests or pays these claims in accordance with the requirements of Minnesota Statutes 176. While carrying out this work, the unit represents the interests of the state and quasi-state agencies.

In addition to its responsibility for the administration of workers' compensation benefits, the unit also is responsible for directing the efforts to return injured employees back to the job, recovering costs from negligent third parties, and seeking final resolutions for all claims.

# **Disability Management**

The Disability Management Unit manages disability claims by working with employees, state agencies, workers' compensation specialists, health care providers and other professionals to help injured employees stay on the job or return to work as soon as possible. The unit provides services such as vocational screenings/assessments, on-site job analyses, ergonomic evaluations, job placement, statutory rehabilitation and return-to-work plans.

# Legal Services

The Legal Services Unit provides legal representation to state agencies in workers' compensation disputes. Its purpose is to conduct all aspects of defense litigation and provide legal counsel to state agencies and staff members of the Workers' Compensation Program. Its objective is to protect the legal interests of state agencies in disputed cases and to defend or resolve these cases in the best interest of the state.

# Safety & Loss Control

The Safety and Loss Control Unit provides safety and industrial hygiene consulting resources to all state agencies. Its purpose is to help state agencies identify and correct workplace safety hazards-both environmental and behavioral-that place employees at risk for work related injury or illness. The unit provides safety-related services to agencies such as worker exposure assessments, indoor air quality surveys, and safety program development.

# **Benchmarks**

### Claims rate remains steady over the last five years (Chart 1).

# Chart 4b/Return to Work (RTW) Comparison 2002-2008/Average

State of Minnesota All Minnesota Employers

# **Findings**

### The number of new claims remains steady (Chart 5 and Appendix A)

#### Number of claims decreased (Chart 5)

The program experienced a decrease of 6 claims reported from FY 2008 to FY 2009. Appendix A (p. 35) contains an agency-by-agency breakdown of the number of claims reported for FY 2008 and FY 2009.

#### Decrease in lost time claims (Chart 5)

*Lost time claims*, those in which the employee is disabled beyond a three calendar-day waiting period, decreased by 0.6% (4) from FY 2008 to FY 2009. *Medical only claims* decreased by less than 0.1% (2) from FY 2008 to FY 2009.

#### Number of claims closed remained steady (Chart 6)

The program closed fewer claims in FY 2009 compared to FY 2008. The program closed more claims than it received during FY 2009 (2,691 received vs. 2,701 closed), thus reducing the number of claims being managed.

# Chart 5/Number of Claims Reported/FYs 2005-2009

	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009	FY 05-09	FY 08-09
		Claims Reported					ange
Lost Time	568	616	614	624	620	9.2%	-0.6%

Totals	2,718	2,720	2,693	2,697	2,691	-1.0%	-0.2%

	FY 2005	FY 2005	FY 2007	FY 2008	FY 2009	FY 05-09	FY 08-09
		Claims Closed					ange
Lost Time	712	495	698	692	646	-9.3%	-6.6%
Medical Only	2,270	1,948	2,127	2,146	2,055	-9.5%	-4.2%
Totals	2,982	2,443	2,825	2,838	2,701	-9.4%	-4.8%

# The program experienced an increase in total costs (Chart 7)

The program's total costs of \$28,653,641 increased 4.9% (\$1,338,520) from FY 2008 to FY 2009. These costs include all benefits, program administrative fees, special assessments, reinsurance, and managed care administrative fees.

#### **Benefits**

Benefit costs include all benefits paid under Minnesota Statutes, Chapter 176. In FY 2009, these costs increased 3.9% (\$832,919) compared to FY 2008. Benefit costs by category are listed on page 13 of this report.

#### Administration

In FY 2009, the program provided claims administration, safety and loss control services, and disability management/ rehabilitation services with an administrative operating budget of \$2,496,000, which has remained unchanged since FY 2004.

#### Special Assessments

The program's expenditure for *special assessments* increased 10.3% (\$144,528) compared to FY 2008. Special assessments are levied by the Department of Labor and Industry (DLI) for payment of uninsured employer claims, reimbursement of supplementary benefits, and reimbursement of Second Injury Fund claims. This assessment is based upon indemnity benefits paid and charged to all insurers and self-insured employers doing business in Minnesota.

#### Reinsurance

The program's expenditure for *reinsurance* increased 32.2% in FY 2009 compared to FY 2008. The Workers' Compensation Reinsurance Association (WCRA) provides coverage to the state on claims exceeding our deductible or retention level. The increase in premiums in FY 2009 is associated with the overall loss experience of WCRA members.

#### Managed Care

The program's payment for *managed care* services increased 2.5% (\$33,718) from FY 2008 to FY 2009. The increase is due to the vendor cost increasing from \$2.10 per employee per month to \$2.15 on 1/1/09, and also because of an increase in the number of employees.

# Chart 7/Total Program Costs/FYs 2005-2009

	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009	FY 05-09	FY 08-09
Benefits	\$18,144,402	\$16,817,690	\$20,398,449	\$21,423,282	\$22,256,201	22.7%	3.9%
Administration	\$2,592,269	\$2,545,789	\$2,537,651	\$2,556,402	\$2,704,525	4.3%	5.8%
Assessments	\$1,381,559	\$1,367,872	\$1,338,730	\$1,408,947	\$1,553,475	12.4%	10.3%
Reinsurance	\$492,628	\$534,597	\$553,511	\$557,147	\$736,379	49.5%	32.2%
Managed Care	\$1,125,311	\$1,227,235	\$1,331,002	\$1,369,343	\$1,403,061	24.7%	2.5%
Totals	\$23,736,169	\$22,493,183	\$26,159,343	\$27,315,121	\$28,653,641	20.7%	4.9%

# The program's expenditures for benefits increased (Chart 8)

In FY 2009, benefit expenditures increased a total of 3.9% (\$832,919) compared to FY 2008.

#### Medical costs increased

Payments for office and hospital visits, prescriptions, supplies, and reimbursements for travel and time off to see the doctor increased 1.3% (\$145,371) in FY 2009 compared to the previous year.

Apparent medical cost drivers contributing to the increase include medical visits and pharmacy costs.

#### Indemnity costs increased

Benefit payments to compensate employees for lost wages or for permanent loss of body function increased in FY 2009 compared to FY 2008 by 6.6% (\$525,837).

#### Rehabilitation costs increased

Expenditures for disability management and vocational rehabilitation services that aid in returning injured employees to work increased 12.0% (\$143,101) from FY 2008 to FY 2009.

#### Expense costs increased

Expenditures for investigations, independent medical examinations, medical records, court reporters, deposition fees, and legal defense costs increased 15.1% (\$132,693) in FY 2009.

#### Employee attorney costs decreased

Fees paid to attorneys representing injured employees in FY 2009 decreased 17.5% (\$114,083) compared to FY 2008.

Chart 8/Benefit Costs/FYs 2005-2009

	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009	FY 05-09	FY 08-09
			<b>Benefit Costs</b>			Cha	nge
Medical	\$8,596,151	\$7,573,499	\$9,747,169	\$10,790,514	\$10,935,885	27.2%	1.3%
Indemnity	\$7,522,007	\$7,166,259	\$8,086,464	\$7,910,732	\$8,436,569	12.2%	6.6%
Rehabilitation	\$985,937	\$1,018,196	\$1,227,354	\$1,188,114	\$1,331,215	35.0%	12.0%
Expenses	\$545,161	\$655,244	\$789,490	\$880,966	\$1,013,659	85.9%	15.1%
EE Atty Fees	\$495,146	\$404,492	\$547,972	\$652,956	\$538,873	8.8%	-17.5%
Totals	\$18,144,402	\$16,817,690	\$20,398,449	\$21,423,282	\$22,256,201	22.7%	3.9%

# The majority of benefits were for medical payments (Chart 9)

In FY 2009, 49% (\$10,935,885) of the total benefits paid were for injured employees' medical costs. 38% (\$8,436,569) of the total benefits paid went directly to employees in the form of indemnity payments to compensate for lost wages or for permanent loss of body function. The percentage of total benefits going directly to employees was slightly higher than the previous year (FY 2008) which was 36.9%.

# Chart 9/Composition of Benefit Costs/FY 2009

# The program's expenditure for medical benefits increased 1.3% *(Chart 10)*

In FY 2009, the program paid \$10,935,885 to various medical care providers and for medical reimbursements to the employee. This was an increase of 1.3% (\$145,371) compared to FY 2008.

*Medical office visits* include all nonchiropractic care that is not provided in a hospital. From FY 2008 to FY 2009, these payments increased by 4.5% (\$132,065).

*Hospital* payments include all inpatient and outpatient treatment that is provided in a hospital. In FY 2009, these payments increased 0.6% (\$33,598) compared to FY 2008.

*Chiropractic care* payments increased 0.2% (\$403) in FY 2009 compared to FY 2008.

*Miscellaneous medical* includes payments to intervenors, diet and/or fitness centers, and home remodeling. In FY 2009, these payments decreased 10.6% (\$23,917) compared to FY 2008. *Employee reimbursements* include mileage, parking, and meals. These payments increased 19.4% (\$63,214) from FY 2008 to FY 2009.

*Employee time for doctor* is reimbursement of wages lost for time spent attending medical appointments. It does not include wages lost because of inability to work. These payments decreased 8.7% (\$19,959) compared to FY 2008.

**Prescription** costs increased 7.6% (\$77,186) from FY 2008 to FY 2009.

**Supplies** include medical equipment and supplies. These payments decreased 55.7% (\$117,220) in FY 2009 compared to FY 2008.

Supplies	\$184,094	\$144,037	\$204,001	\$210,267	\$93,047	-49.5%	-55.7%
Totals	\$8,596,151	\$7,573,499	\$9,747,169	\$10,790,514	\$10,935,884	27.2%	1.3%

# The program's expenditure for indemnity benefits increased 6.6% (*Chart 11*)

The program's second largest expenditure, indemnity benefits, experienced an increase of 6.6% from FY 2008 to FY 2009.

#### Types of Indemnity Benefits

Indemnity benefits are usually paid on a biweekly basis to compensate employees for lost wages and permanent loss of body function due to a work-related injury. Indemnity benefits fall into one of the following categories:

#### Temporary Total Disability (TTD)

**benefits** are paid to employees who are unable to work, but who may be able to return to some type of work in the future. In FY 2009, TTD payments increased 13.9% (\$298,681) compared to FY 2008.

**Other Benefits** include lump sums to settle claims, death benefits to dependents, and retraining benefits. In FY 2009, these payments decreased 0.8% (\$12,947) compared to FY 2008.

Supplementary Benefits (SBs) are paid in conjunction with PTD, or to bring payments up to a percentage of the statewide average weekly wage. The majority of employees who receive SBs also receive Social Security Disability benefits. The program does not invoice agencies for these benefit payments, but rather receives full reimbursement from the Department of Labor and Industry. In FY 2009, SB payments increased 3.4% (\$61.318) compared to FY 2008. The legislature has eliminated the requirement to pay Supplementary Benefits for injuries occurring on or after October 1, 1995 so over time this benefit will continue to experience decreases.

#### Temporary Partial Disability (TPD)

**benefits** are paid to employees who are able to work at either a reduced wage or a reduced number of hours. In FY 2009, TPD payments decreased 3.3% (\$16,113) compared to FY 2008.

#### Permanent Total Disability (PTD)

**benefits** are paid to employees who will never be able to work again. In FY 2009, PTD payments decreased 7.1% (\$88,819) compared to FY 2008.

#### Permanent Partial Disability (PPD)

**benefits** are paid to employees who have a permanent loss of body function. In FY 2009, PPD payments increased 40.4% (\$283,717) compared to FY 2008.

# Chart 11/Indemnity Benefit Costs/FYs 2005-2009

### Recoveries increased 38.9% in FY 2009 (Chart 12)

Recoveries are funds the program receives from three main sources: supplementary benefits, Second Injury Fund, and subrogation. Total recoveries in FY 2009 increased 38.9% (\$1,062,826) compared to FY 2008.

**Supplementary Benefit Recoveries** are reimbursed by the Department of Labor and Industry. In FY 2009, the program recovered 31.6% more (\$600,826) compared to FY 2008.

**Second Injury Fund Recoveries** are reimbursed by the Department of Labor and Industry for benefits paid on claims in which the employee had certain pre-existing conditions. In 1992, legislation eliminated the Second Injury Fund for claims occurring on or after July 1, 1992. In FY 2009, the recovery of these funds increased 218.4% (\$384,070) compared to FY 2008.

**Subrogation Recoveries** are funds paid by third parties who are found responsible for employees' injuries and illnesses. From FY 2008 to FY 2009, the recovery of these funds increased 112.4% (\$217,028).

*Other Recoveries* include funds obtained through contribution and reinsurance. In FY 2009, the recovery of these funds decreased 30.0% (\$139,097) compared to FY 2008.

Chart 12/Recoveries/FYs 2005-2009

# Claims that occurred prior to 2000 accounted for 25.9% of the program's FY 2009 benefit costs (*Chart 13*)

Chart 13 shows a breakdown of total benefits paid from FY 2006 to FY 2009 for injuries occurring in calendar years 1956 through June 30, 2009. In FY 2009, 25.9% (\$5,769,495) of all benefits went to employees who were injured prior to 2000. In FY 2008, \$5,958,592 was paid on older claims compared to \$5,769,4952 paid in FY 2009 a 3.2% decrease. In FY 2009, the oldest claim the program managed occurred in 1957.

#### Claims follow predictable pattern

In terms of cost, claims tend to undergo a "maturing" process. Claim costs tend to rise in the year following the injury as further benefits are paid. Then, in subsequent years, claim costs tend to decrease. Chart 13 shows claims payments made in FY 2009 which demonstrate this pattern.

Calendar Years	FY 2006	FY 2007	FY 2008	FY 2009
1956-59	\$51,790	\$52,800	\$53,505	\$28,378
1960-69	\$222,729	\$214,806	\$207,497	\$210,292

2005	\$4,666,274	\$2,760,592	\$1,583,663	\$1,149,925
2006	\$879,217	\$5,595,600	\$2,813,497	\$2,092,776
2007	N/A	\$1,289,517	\$6,116,306	\$2,771,443
2008	N/A	N/A	\$1,341,260	\$6,783,587
2009	N/A	N/A	N/A	\$1,355,937
TOTALS	\$16,817,690	\$20,398,449	\$21,423,282	\$22,256,201

# Nine agencies accounted for the majority of the program's activity (Charts 14, 15, and Appendices A, B)

Reported claims distribution among state agencies is consistent with agency size and the nature of work being performed by employees. Nine agencies reported 83% (2,237) of the claims and paid 85.6% (\$19,049,903) of the benefits in FY 2009. The nine agencies are: Human Services, Transportation, Corrections,MnSCU, Natural Resources, Public Safety, Veterans Affairs, Administration, and Trial Courts.

Charts 14 and 15 contain information on these nine agencies, while Appendices A (Reported) and B (Benefit Costs) contain agency-by-agency comparison of the number of claims reported and the amount of benefits paid in FY 2008 and FY 2009.

# Chart 14/Composition of Reported Claims by Agency/FY 2009

### Chart 15/Composition of Benefits Paid by Agency/FY 2009

# Benefit costs for these nine agencies decreased 0.8% (Chart 16 and Appendix B)

Combined benefit costs for the nine large agencies decreased a total of 0.8% (\$157,004) from FY 2008 to FY 2009. Chart 16 shows data for these nine agencies. Cost data for the remaining agencies is contained in Appendix B (p. 36).

#### Caution urged when comparing agencies

It must be noted that comparisons of agencies' workers' compensation costs may be misleading and must be kept in perspective. One must consider many factors when comparing costs among agencies: the number and age of employees, the type of work performed, the salaries paid, the number of hours worked, and the type and severity of injuries.

#### Benefit Costs Decreased for Five of the Largest Nine Agencies, While Other Agencies Experienced an Increase.

The nine agencies experienced changes ranging from -32.4% (Administration) to 10.8% (Public Safety). All other agencies experienced an increase of 44.7% (\$989,923).

# Chart 16/Benefit Costs for Nine Agencies/FYs 2005-2009

### Claim Characteristics (Charts 17, 18 and 19)

Claims are defined in the Workers' Compensation Program by four different characteristics:

- body part
- cause
- nature
- source

We present charts 17 (A & B), 18 (A & B), and 19 (A & B) describing the distribution and average claim cost of injuries by body part, cause, and nature. Source is excluded from analysis due to the large number of possible source codes.

Average claim costs are in parenthesis in charts 17B, 18B, and 19B. The average is based upon a five year claim maturity and therefore represent the average of costs paid to date (6/30/09) on claims reported during the five year period of FY 2001 through FY 2005.

For a complete listing of injury characteristic coding used by the Workers' Compensation Program, please go to http://www.riskworkerscomp.admin.state.mn.us/manuals.htm and click on Workers' Compensation Injury Coding Guide.

# FY 2009 Reported Claims (Chart 17A) and 5-Year Comparison (Chart 17B) by Body Part

In FY 2009, upper extremities (arm, shoulder, elbow, wrist) continued to be the most frequently reported injured body part (30.0%), up 1.8% compared to FY 2008. Reported injuries from FY 2001 through FY 2005 that involve multiple body parts (\$7,293 average per claim) and injuries to the neck and back (\$5,241 average per claim) have the highest average cost per claim.

Chart 17A FY 2009 Reported Claims by Body Part

Chart 17B 5-Year Comparison by Body Part (%) of Reported Claims

NOTE: The dollar amounts shown in parenthesis in chart 17B above are the historical average claim costs on claims reported in FY 2001 through FY 2005 paid out through 6/30/09.

# FY 2009 Reported Claims (Chart 18A) and 5-Year Comparison (Chart 18B) by Cause

The injury "cause" or "type" identifies the event which directly caused the injury. In FY 2009, overexertion, defined as excessive physical effort (22.4%) and falls (21.4%) continue to be the most prevalent cause of injuries. Bodily reaction/involuntary motion claims (\$5,976 average per claim) and motor vehicle claims (\$9,117 average per claim) are on average the most expensive cause of claims.

#### Chart 18A FY 2009 Reported Claims by Cause

Chart 18B 5-Year Comparison by Cause (%) of Reported Claims

NOTE: The dollar amounts shown in parenthesis in chart 18B above are the historical average claim costs on claims reported in FY 2001 through FY 2005 paid out through 6/30/09.

### FY 2009 Report Claims (Chart 19A) and 5-Year Comparison (Chart 19B) by Nature

The "nature" of an injury identifies the injury or illness in terms of its principal physical characteristics such as: a cut, broken bone, or pain. In FY 2009, sprains/strains continued to be the most frequently reported nature of injury (40.9%), occurring more than twice as often as the next most frequently reported nature, contusion/crush/ bruise (18.4%). While occurring infrequently, multiple injuries (\$11,814 average per claim) and fractures (\$9,856 average per claim) represent the most expensive reported claims.

NOTE: The dollar amounts shown in parenthesis in chart 19B above are the historical average claim costs on claims reported in FY 2001 through FY 2005 paid out through 6/30/09.

# The average workers' compensation claim incident rate decreased slightly in FY 2009 (Chart 20)

The workers' compensation claim *incident rate* is an indicator of an agency's claims experience. It is an approximation of the number of reportable claims paid per year, per 100 full-time employees and is calculated as follows:

Number of Reportable Claims Paid x 200,000

Incident Rate =

Total Employee Hours Worked

A *reportable* claim is one in which an employee seeks medical treatment, we accept liability, and expenses are paid.

The statewide average incident rate decreased slightly from 4.3 in FY2008 to 4.2 in FY 2009. See Appendix C (p. 37) for individual agency incident rates for FY 2009.

Overall, the incident rate for all agencies decreased from 4.6 in FY 2005 to 4.2 in FY 2009. See Chart 21 (p. 34) for five year rate comparison.
