Annual Use Estimate of the Metropolitan Regional Parks System for 2009

Based on a four-year average of visitation data from 2006 through 2009

April 2010

Metropolitan Council Members

		Peter Bell	Chair	
Roger Scherer	District 1		Natalie Haas Steffen	District 9
Tony Pistilli	District 2		Kris Sanda	District 10
Robert McFarlin	District 3		Georgeanne Hilker	District 11
Craig Peterson	District 4		Sherry Broecker	District 12
Polly Bowles	District 5		Richard Aguilar	District 13
Peggy Leppik	District 6		Kirstin Sersland Beach	District 14
Annette Meeks	District 7		Daniel Wolter	District 15
Lynette Wittsack	District 8		Wendy Wulff	District 16

T he mission of the Metropolitan Council is to develop, in cooperation with local communities, a comprehensive regional planning framework, focusing on transportation, wastewater, parks and aviation systems that guide the efficient growth of the metropolitan area. The Council operates transit and wastewater services and administers housing and other grant programs.

Publication No. 78-10-016

Executive Summary

- An estimated **38,062,600 visits** were made to the Metropolitan Regional Parks System in 2009.
- Estimated annual visits have increased 15 percent since 2004. A total of 89 park and trail units were sampled in 2009 compared to 73 units sampled in 2004.

• The following chart indicates the distribution of estimated visits by seasonal day use, camping and special events:

• The five most-visited regional parks, trails and special recreation features in 2009 were:

Park/Reserve/Trail	2009 Visits
1. Minneapolis Chain of Lakes Regional Park	4,860,800
2. Como Regional Park, Zoo and Conservatory Special Recreation	3,414,300
Feature	
3. Mississippi Gorge Regional Park (Minneapolis & St. Paul)	2,035,800
4. Central Mississippi Riverfront Regional Park	1,516,000
5. Nokomis-Hiawatha Regional Park	1,509,500

- Fifty-six percent of all estimated visits occurred in regional parks and trails in Minneapolis and St. Paul. This reflects a decrease in the share of visits to those parks and trails in the regional system over time (65.7% share in 2000). This is due primarily to the addition of park and trail facilities and population growth occurring outside these two cities.
- Twenty-one percent of all visits in 2009 were to regional trails and 79 percent were visits to regional parks, park reserves and special recreation features. Although Anoka County Riverfront, Minneapolis Chain of Lakes, and Mississippi Gorge are regional parks, the majority of visits to these parks are for trail use. If the trail visits to Anoka County Riverfront, Minneapolis Chain of Lakes and Mississippi Gorge area were included in the trail totals, 38 percent of all 2009 visits were to trails.
- Fifty-five percent of all visits to regional parks and trails are considered "local" visits. A local visit is defined as a visit to a park or trail by a person who lives within the jurisdiction of the park agency that owns or operates that park or trail. Conversely, 45 percent of all visits to regional parks and trails are "non-local" visits, which clearly demonstrates that the system serves a regional audience.
- Walking and biking are the top activities in the regional parks system, followed by swimming, jogging, picnicking and relaxing. This information is based on data from the *Metropolitan Council Regional Parks and Trails Survey 2008*.

Acknowledgements

The Metropolitan Regional Parks System is owned and managed by 10 county, city or special park district implementing agencies. Each agency is responsible for conducting the annual counts for their Regional Parks System units. Over 3,760 staff hours across agencies were put into the annual use sample counts for 2009, along with significant amounts of staff training and oversight. Without the help of the implementing agencies, the annual use estimate would not be possible.

The agencies and their count supervisors for 2009 are:

Anoka County - Cindy Higgins

City of Bloomington - Mark Morrison

Carver County - Lenny Schmitz

Dakota County – Doug Gross

Minneapolis Park and Recreation Board – Jennifer Ringold

Ramsey County – Jody Yungers

City of Saint Paul – Karen Clark

Scott County - Patricia Freeman

Three Rivers Park District - Jon Nauman and Sharon Brown

Washington County – Lori Meyers

Metropolitan Parks and Open Space Commission

The Metropolitan Parks and Open Space Commission advises the Metropolitan Council on system-wide policy planning issues regarding the Metropolitan Regional Parks System.

Introduction

The Metropolitan Regional Parks System that was sampled for this estimate in 2009 encompassed approximately 53,111 acres of parkland and included 38 regional parks, 12 park reserves, 6 special recreation features and 33 regional trails. These park/trail units are owned and operated by 10 implementing agencies – counties, special park districts and cities. The regional park implementing agencies include:

Anoka County	Ramsey County
City of Bloomington	City of St. Paul
Carver County	Scott County
Dakota County	Three Rivers Park District
Minneapolis Park & Recreation Board	Washington County

This report presents annual use estimates for 89 units sampled in the Regional Parks System from data collected in 2006 through 2009. The information is reported by park/trail units for each implementing agency. Some parks and trails have sub-units that are operated by different implementing agencies, so total use for that park or trail is comprised of the sum of individual agency units.

Use estimates are reported in "visits." One person entering the park represents one visit. Therefore, if a person visits a particular park once each week for a year, that represents 52 visits to that park.

How the annual use estimate is calculated

The annual use estimate is based on the average of four years (2006 – 2009) of summer counts of bikers, pedestrians, horse-riders, boats, vehicles and charter buses that enter the park through recognized park entrances. People in vehicles and buses are not counted individually. To determine the number of people entering in vehicles or buses, a person-per-vehicle average is multiplied by the number of vehicles or buses in each sample count. The person-per-vehicle averages come from the *Metropolitan Council Regional Parks and Trails Survey 2008*.

Counts are taken in two-hour samples between Memorial Day and Labor Day. Two-hour samples begin at 8 a.m., 10 a.m., 12 p.m., 2 p.m., 4 p.m. and 6 p.m. The entrances and times are randomly chosen, with the samples split evenly between weekdays and weekends. To accurately

estimate summer use, at least 25 samples on weekends and 25 samples on weekdays in each park and trail are necessary, but it is costprohibitive to do 50 samples per park and trail every year. Therefore, the samples for the current year and the three previous years are combined to determine the annual use for each park and trail. For each year, at least 16 samples are drawn for each park and trail. The fouryear approach results in a minimum of 32 samples on weekends and 32 samples on weekdays, which meets the statistical requirements for estimated visits.

Visits to the Regional Parks System in 2009 **53,111** Acres of Regional parkland The four-year approach reduces the effect of extreme weather or other anomalies on each park's estimated visitation. It reduces the effects of a temporary closure of a popular facility and from road construction to the facility. The four-year average also somewhat underestimates increased visitation associated with a major new facility such as a swim pond or play structure. By the fourth year of the facility's existence, its visitation is fully represented in the data. The annual estimate makes no attempt to correct for overestimates for

temporary closures or underestimates for facility additions. All agencies in the regional system are adding desirable facilities and experiencing temporary closures of facilities that are being redeveloped. Therefore, it is believed that the four-year average has negligible effects when comparing visitation across agencies.

Summer visitation is calculated by taking the total number of people entering the park during each sample and multiplying it by the number of entrances and time slots that sample represents. Winter, spring and fall seasonal visitation estimates are then calculated from the summer visitation using seasonal multiplier data derived from the *Metropolitan Council Regional Parks and Trails Survey 2008*.

Camping visits are also added to the annual estimate. A camping visit is defined as a camper in the park for any part of a day, so a family of four who camped one night would be counted as 8 total visits. Special events are also added to the annual use estimate when the attendance was greater than 300 people and the event did not take place during the sample counts. If sample counts occurred during a special event, they were not included in the estimate. Camping and special event data are not averaged across four years since the implementing agencies have records reflecting those types of visits on an annual basis.

Total	38,523.4	38,062.6	(460.8)	-1.2%

Table 3: Comparison of 2008 and 2009 visitation

Notes:

¹ A significant portion of Mississippi Gorge Regional Park in Minneapolis was closed in 2009 due to construction, which has impacted the visitation estimates. Additionally, the 2008 estimate for regional parks, which is based on an average of 2005-2008 data, included very high numbers of visitors in certain regional facilities in the 2005 counts. The 2009 estimate is based on an average of 2006-2009 data. With the large numbers from 2005 dropping from the calculation, the 2009 estimate has decreased.

² The majority of the increase in visitation is from Como Park, Zoo and Conservatory. Since the estimates are based on an average of 4 years of data, the estimates now fully recognize the impact of major capital improvements made at the zoo and conservatory in 2005.

³ The increase in visitation is primarily attributed to Big Marine Park Reserve, which served as boat launch prior to its grand opening with additional park facilities in 2008.

Table 4: Comparison of 2008 and 2009 park vs. trail visitation

•				a	
	2008	2009	# change	% change	% of all visits in 2008
	(1,000's)	(1,000's)	(1,000's)		
Trail Visits ¹	8,264.3	8,238.3	(25.9)	-0.3%	22%
Park/Reserve/SRF Visits	30,259.2	29,824.2	(435.0)	-1.4%	78%
Total Visits	38,523.4	38,062.6	(460.8)	-1.2%	100%

Notes:

¹ About 80% of all visits to the Minneapolis Chain of Lakes and Anoka County Riverfront RP are trail visits. Mississippi Gorge Regional Park is also more similar to a parkway than a regional park. However, the above trail totals do not include those trail visits.

If Mississippi Gorge, Minneapolis Chain of Lakes and Anoka County Riverfront RP trail visits are included in the trail total, **about 14.4 million, or 38% of all visits, are trail visits.**

				Cumulative
			2009	percent of

Table 5: Most-visited regional parks and trails - 2009

Table 6: Urban parks visitation - 2009

	2009 Visitation
Agency	(1,000's)
Minneapolis Parks Total	14,113.0
St. Paul Parks Total	7,229.5
Urban Total	21,342.6
Urban Percentage of 2009 visitation	56.1%

Table 7: Como visitation - park and zoo/conservatory

	2009 Visitation	2009
Park Unit	(1,000's)	%
Como Zoo & Conservatory SRF ¹	2,704.1	79.2%
Como Park (non-zoo/conservatory visits)	710.2	20.8%
Como Total	3,414.3	100%

Notes:

¹ Como Zoo & Conservatory Special Recreation Feature estimates are based on visitor interviews conducted in 2008. That data indicated that 79.2% of all Como visitors were <u>primarily</u> visiting the Zoo & Conservatory. Zoo/Conservatory SRF visitors could possibly use Como RP for secondary activities during their visit, so the total use of Como RP is higher than the 20.8% listed for non-zoo/conservatory visits.

Table 8: Visitation estimates by agency for operations andmaintenance funding formula purposes

	2009 Visitation	Percentage of
Agency	(1,000's)	total ¹
Anoka County ^{2,3}	3,211.1	8.49%
Bloomington	512.6	1.36%
Carver County	265.5	0.70%
Dakota County	929.8	2.46%
Minneapolis Park & Recreation Board	14,113.0	37.32%
Ramsey County	3,057.3	8.08%
St Paul ²	7,228.2	19.11%
Scott County	255.1	0.67%
Three Rivers Park District - Hennepin ²	6,694.2	17.70%
Three Rivers Park District - Scott	292.0	0.77%
Washington County	1,261.2	3.33%
TOTAL	37,820.1	100.00%

Notes:

¹ Percentages are given to the second decimal point for use in the O&M funding formula.

² O&M visitation estimates do not include enterprise facility visitation (Bunker Beach and downhill skiing at Hyland and Como).

³ Previous counts at Bunker Hills Regional Park included Bunker Beach as a defined entrance at the park. Anoka County is now reporting visitation to Bunker Beach based on ticket sales for admission. This visitation is now being reported in Table 2 rather in the base summer visitation. Since Bunker Beach is an enterprise facility and its specific visitation is being reported, the O&M visitation estimates have now been adjusted.

% annual increase	-	-0.9%	-1.3%	8.3%	-1.2%			

Notes:

¹ Visitation estimates for 2005-2007 were adjusted to reflect the seasonal multipliers from the *Metropolitan Council Regional Parks and Trails Survey 2008* so that estimates are comparable across all years. Therefore, the estimates shown in Table 10 will not correspond to the published annual use estimates for 2005-2007.

% of 2009 visits		78%		22%		100%

Notes:

¹ Activity pattern data of regional park and trail visitors was collected in 2008 and published in the *Metropolitan Council Regional Parks and Trails Survey 2008*. The activity patterns were applied to the 2008 visit estimate to generate this table. Visitors could do more than one activity during their visit to a regional park or trail. Each time they participated in an activity, it was considered an activity occasion. Therefore, the total number of activity occasions is greater than the actual number of visits.

² "Relaxing" was a general activity on a list of activities that park visitors used to indicate what they did during their park visit. This activity was not specifically defined.

³ For trail visits, survey respondents indicated that the trails were providing access to these activities. For example, 2% of trail visits provided access to swimming and 1% of trail visits provided access to fishing.

NOTES:

All visits are listed in units of 1,000.

Local visits are defined as visits to a park by visitors who reside in that park agency's jurisdiction. Local visits for each agency are in bold and are highlighted.

Visitor origin data is from the Metropolitan Council Regional Parks and Trails Survey 2008. Percentages were adjusted to disregard "unknown" visitor origin and therefore may differ slightly from the survey report

Three Rivers Park District owns and operates two regional parks in Scott County. The amounts shown in this table reflect visits to park and trail units located in Scott County regardless of managing entity.
