## **Cost of Report Preparation**

The total cost for the Office of the Secretary of State to prepare this report was approximately \$1,200. Most of these costs involved staff time in compiling and analyzing data, and preparing the written report. Incidental costs include paper, copying, and other office supplies.

Estimated costs are provided in accordance with *Minnesota Statutes* 2014, Section 3.197, requiring the cost for preparing a report to be provided at the beginning of a report to the legislature.

## **Introduction**

This mandated report was prepared in accordance with Minnesota Statutes, section 203B.28, requiring the Office of the Minnesota Secretary of State to prepare a statistical report related to absentee voting in the most recent general election.

The first report of this nature was issued after the 2010 General Election. Data from the 2010 report spurred legislative and administrative changes for the 2012 election. In 2013, the legislature authorized the use of “no-excuse” absentee voting, allowing any voter to use the absentee balloting process without having to certify that he or she will be out of the precinct or unable to physically travel to the polling place on election day. This is the first report on absentee balloting since the implementation of no-excuse absentee voting.

## **Recent Changes to Absentee Balloting**

In 2010 legislation fundamentally altered the absentee balloting process. The legislative changes in 2010 required election officials to create teams of specially-trained election judges known as absentee ballot boards. The boards review absentee ballot envelopes within days of arrival to determine whether they meet the legal requirements for acceptance or whether voters made errors requiring absentee ballot envelopes to be rejected. If voters fail to provide required information on the envelope, their ballots must be rejected. If voters’ envelopes are rejected more than five days before the election, local election officials are required to send voters new “replacement” ballots, along with an explanation of the errors causing the ballots to be rejected. This allows voters another chance to complete the envelope correctly. If absentee ballot envelopes are rejected within five days before the election, local election officials must attempt to notify voters of their rejected absentee ballot envelopes by phone or email.

Another 2010 legislative change to the absentee balloting process required all absentee ballots for state elections to be tracked in the Statewide Voter Registration System (SVRS). Centralized tracking within SVRS allows this Office to provide an online tool for voters to look up the status of their absentee applications and ballots. Collecting and tracking data within SVRS makes this

report possible and allows for the type of analysis necessary to construct legislative and administrative changes to the absentee balloting process.

For example, the 2010 report showed that over 500 absentee ballot envelopes were rejected in 2010 because voters forgot to put a date on the envelopes. The 2011-12 Legislature looked at this issue, determined that the date added little to no value and repealed the requirement. This action removed a barrier that would have kept some eligible voters from having their votes counted.

In addition, in 2013-14, this Office improved the wording of the certificate on the absentee ballot envelope through the rulemaking process. These improvements included changes to the instructions for the voters' witnesses, resulting in a reduction of the percentage of absentee ballots rejected because a witness failed to include his or her residential address.

In 2014, the Office also launched an online absentee ballot application tool. Over 43,000 absentee ballots were requested using the online application tool. The online absentee ballot application mirrored the paper application, requiring that voters provide either their driver's license number or the last-four digits of their Social Security Number. Early in the general-election absentee balloting period, the Office learned that voters were regularly providing only one identifying number on their application, and providing a different number on their returned absentee ballot materials. This would result in a rejection of the voter's absentee ballot. In response to this issue, the Office changed the language on the online absentee ballot encouraging voters to provide both identifying numbers on their online application. Prior to the change to language in the online absentee ballot application, approximately one-third of applicants provided only one of the two identifying numbers. Following the language change, nearly two-thirds of applicants provided both numbers.

## **Overview of Absentee Ballot Data for 2014**

This mandated report provides data on the number of absentee ballot envelopes accepted and rejected and the reasons for rejection. While this data is important, it is equally important to know how many eligible voters successfully cast ballots and how many did not. As such, this report provides both the number of rejected ballots by county as well as the number of voters whose absentee ballots were ultimately rejected and not counted. The data on voters only counts each voter once; a voter who had multiple ballots rejected is only counted in the category in which their latest ballot was rejected. If their last ballot was not rejected, but was received late, they are instead accounted for in the category "received late." This data reflects data entered into the system by county auditors and municipal clerks and relies on the accuracy of their data entry.

Please also note: In addition to the numbers on rejected and accepted absentee ballots, there were 480 voters who had their absentee ballot rejected and successfully voted at their polling place on election day.

# State Summary

	2014 Regular Absentee Voters	2014 Military & Overseas Voters	2014 Total Absentee Voters	2010 Total Absentee Voters	2012 Total Absentee Voters
<b>Total number of voters who applied for ballots</b>	227,951	2,665	230,616	140,559	285,046
<b>Total number of voters whose ballots were accepted</b>	196,267	1,601	197,868	127,248	268,048
<b>Total number of voters whose initial ballot envelopes were rejected</b>	5,532	24	5,556	6,651	5,787
<b>Initial acceptance rate</b>	97.2%	98.5%	97.2%	95.0%	97.9%
<b>Total number of voters whose initial ballot envelopes were rejected, but who had a subsequent ballot accepted</b>	2,935	7	2,942	3,960	3,309
<b>Total number of voters whose final ballot envelopes were rejected</b>	2,597	17	2,614	2,691	2,478
<b>Success rate</b>	98.7%	98.9%	98.7%	97.9%	99.1%

## Key to Rejection Reasons

**Voter Name Not Match** – The name on the voter’s absentee ballot application did not match the name on the voter’s absentee ballot return envelope.

**Voter Address Not Match** – The address on the voter’s absentee ballot application did not match the address on the voter’s absentee ballot return envelope.

**No Voter Signature** – The voter did not sign the certificate printed on the absentee ballot return envelope.

**Numbers & Signature Not Match** – When compared to the voter’s absentee ballot application, neither the voter’s identification numbers nor the voter’s signature provided on the absentee ballot return envelope matched. This could also occur when a voter provided one number on their online application (DL vs. SSN), but provided a different number on their return materials.

**Voter Reg App Not Included** – The voter was not already registered at this address and failed to include a voter registration application in the absentee ballot return envelope.

**Voter Reg App Return Separate** – The voter was not already registered at this address and failed to include a voter registration application in the absentee ballot return envelope. It was returned separately, but less than 21 days before the election -- after the deadline for preregistering to vote.

**Voter Reg App Not Signed** – The voter was not already registered at this address and did enclose a voter registration application, but failed to sign it.

**Voter Reg App Deficient** – The voter was not already registered at this address and did enclose a voter registration application, but failed to include other required information.

**No Witness Signature** – The voter’s witness did not sign the certification on the absentee ballot envelope.

**No Witness Address, Title or Stamp** – The voter’s witness did not provide a Minnesota address, their title indicating that they are an official authorized to give oaths, or a notary stamp on the absentee ballot envelope.

**Witness Not Mark Proof** – The voter was not already registered at this address and was therefore required to show proof of residence to the witness. The witness did not indicate on the absentee ballot return envelope which proof of residence the voter provided.

**Already Voted** – The voter already had another absentee ballot accepted and counted or already voted in-person in the polling place.
