AT A GLANCE

- Serves the entire state of Minnesota and the eleven sovereign Tribal Nations
- Approximately 59,000 American Indians statewide
- Two Offices located in St. Paul and Bemidji
- 28-member board
- Four staff; Executive Director, Cultural Resources Director; Legislative Assistant, and Cultural Resources Specialist

PURPOSE

The mission of the Indian Affairs Council (MIAC) is to protect the sovereignty of the 11 Minnesota Tribes and to ensure the well-being of American Indian citizens throughout the state of Minnesota. Established in 1963, the MIAC provides a liaison office to the eleven sovereign tribal nations and state government. The council also advises and makes recommendations to state policy makers, including the Governor and Legislature. The MIAC proposes the yearly agenda for the annual Governor/Tribal Leader summit. The MIAC also fulfills duties found in MS 307.09, through its Cultural Resources program. The Cultural Resources program works to protect Indian gravesites and burial mounds statewide.

The MIAC contributes to the statewide outcomes by close partnerships with state agencies, citizen outreach through quarterly board meetings, public outreach, providing liaison services between governments, participating in and developing reports and data for policy development, co-managing the Why Treaties Matter Exhibit, and managing the Dakota and Ojibwe Language Revitalization program.

The Minnesota Indian Affairs Council contributes to numerous if not all statewide outcomes by partnering with agencies focused directly on the statewide outcomes of the following: **Strong and stable families and communities; a thriving economy that encourages business growth and employment opportunities; Minnesotans have the education and skills needed to achieve their goals; all Minnesotans have optimal health; a clean and healthy environment with sustainable uses of natural resources; and people in Minnesota are safe.**

Historical Spending

Source: Consolidated Fund Statement

The Minnesota Indian Affairs Council has a total biennial budget of approximately \$2.7 million. General Fund is approximately \$855,000. Legacy Funding consisting of grants to communities for Dakota and Ojibwe Language Revitalization is approximately \$1.7 million. The remaining \$138,000 is federal funding.

STRATEGIES

To accomplish its mission, the Minnesota Indian Affairs Council uses the following strategies:

- Citizen and public outreach
- Liaison services to state government and tribes
- Policy advisement to the Governor and State Legislature
- Educating public on issues of importance to Indian Tribes and people

RESULTS

The liaison services and work of the MIAC are most effectively measured quantitatively. Research data and information obtained through sources and individuals outside of MIAC are crucial to its liaison work. MIAC operates several programs, such as the Why Treaties Matter Exhibit initiative led and in partnership with the Minnesota Humanities Center and the National Museum of the American Indian, Smithsonian Institute. From its inception in 2010, outcomes show that over 55,000 constituents throughout Minnesota have taken part in the exhibit viewing and programming through 2014. The exhibit continues to travel within MNSCU institutions and the Blandin Foundation, Northern Minnesota region, but it is no longer primarily funded by the state or legacy funds.

Recommendation:

The Governor recommends additional funding for compensation related costs associated with the delivery of agency services. This amount represents an annual increase of 1.8% for General Fund compensation costs.

Rationale/Background:

Each year, compensation costs rise due to labor contract settlements, and changes in employer-paid contributions for insurance, FICA, Medicare, retirement, and other factors. Absorbing this increase in compensation costs within existing agency base appropriations results in reduced staffing and/or reduced non-compensation spending.

Proposal:

The Governor recommends increasing agencies' general fund budgets for employee wage and benefit costs by 1.8% per year for FY 2016-17. Agencies were instructed to include a 1.8% increase to total compensation each year in their base budgets, based upon the compound annual compensation spending rate increase per FTE over the last ten years for executive branch employees. This recommendation is intended to allow agencies to maintain their current level of agency operations.

For non-General Fund direct appropriated funds, the Governor's budget recommendations also include an adjustment of 1.8% per year, where the amount can be supported by the source of revenue.

Results:

This proposal is intended to allow agencies to continue to provide current levels of service and information to the public.

Narrative:

The Minnesota Indian Affairs Council (MIAC) receives funds for the Economic Opportunity Program from the Department of Human Services (DHS) Office of Economic Opportunity (OEO). Yearly, DHS and MIAC enter into an interagency agreement to administer the program. The program assists Minnesota Indian reservation governments to plan, develop and administer Community Action and Economic Opportunity programs and to strengthen their role in the statewide community action network. Since October 2013, these annual agreements have been accounted for in the special revenue fund.
