# Bear Head Lake State Park

**Secluded in the Northwoods**, this park contains pristine lakes; it is home to black bears, nesting eagles, wolves and moose. Stands of white and red pine trees tower over the birch, aspen and fir trees. Located just south of the Boundary Waters Canoe Area, the park shares a similar wilderness quality.

Explore miles of shoreline by canoe. Swim at the beach, picnic in the shelter building, or fish for walleye, bass, crappies or trout. Trails in the park link-up with

the Taconite State Trail and offer snowmobilers, skiers and hikers plenty to enjoy. Rent a three-bedroom guest house or camper cabin any season of the year.

**Tell me more** about this park's wildlife, history, geology and landscape.

## Visitor Alert!

Exciting news: Construction for the new Trail Center has begun. As always please drive cautiously within the park as trucks are hauling equipment and materials.
