**Subject: Annual Report on Obsolete, Unnecessary, or Duplicative Rules, as Required by
Minnesota Statutes, Section 14.05, Subdivision 5.**

Dear Governor Dayton, Senators, Representatives, Legislative Coordinating Commission Director
Hubinger and Revisor Timmons:

Minnesota Statutes, section 14.05, subdivision 5, states:

"....., an agency must submit to the governor, the legislative coordinating commission, the policy and funding committees and divisions with jurisdiction over the agency, the revisor of statutes, a list of any rules or portions of rules that are obsolete, unnecessary, duplicative of other state or federal statutes or rules. The list must also include an explanation of why the rule or portion of the rule is obsolete, unnecessary, or duplicative of other state or federal statutes or rules. By December 1, the agency must either report a timetable for repeal of the rule or portion of the rule, or must develop a bill for submission

to the appropriate policy committee to repeal the obsolete, unnecessary, or duplicative rule. Such a bill must include proposed authorization to use the expedited procedures of section 14.389 to repeal or amend the obsolete, unnecessary, or duplicative rule. A report submitted under this subdivision must be signed by the person in the agency who is responsible for identifying and initiating repeal of obsolete rules. The report also must identify the status of any rules identified in the prior year's report as obsolete, unnecessary, or duplicative. If none of an agency's rules are obsolete, unnecessary, or duplicative, an agency's December 1 report must state that conclusion."

The Board of Podiatric Medicine 2014 statutory revisions allows for the following obsolete rules:

The preceptorship must provide the recent podiatric medical graduate sufficient experiences to have further patient care exposure, to improve clinical management and communication skills, and to obtain increased self-confidence.~~

Subp. 7. Preceptor requirements.

~~The preceptor must:~~

~~A. provide hands-on training in the care of children and adults that offers experience as defined by the statutory scope of practice including drug therapy, radiology, local anesthesia, analgesia, biomechanics, physical medicine, rehabilitation, and the following surgeries:~~
