## AT A GLANCE

- DEED is the state's principal economic development and workforce development agency.
- We work to attract, retain, and expand businesses and create jobs for all Minnesotans.
- We work to connect workers to jobs, prepare individuals for jobs in high-demand industries, and help people to live independently.
- We stabilize and stimulate the economy through unemployment benefit payments.
- We work to ensure no communities are left on the economic sidelines.
- Our organization has close to 1,500 dedicated staff statewide.
- We invest in programs and policies that ensure communities of color reach their professional and personal goals by eliminating economic disparities throughout the state.

## PURPOSE

Minnesota Department of Employment and Economic Development (DEED) programs provide employment and training for individuals; provide services that help individuals with disabilities achieve personal and vocational independence; promote business recruitment, expansion, and retention; promote career and business opportunity for individuals currently underrepresented in Minnesota's economy; promote international trade; promote broadband adoption; and support community development.

We support the following statewide outcomes:

- A thriving economy that keeps Minnesota competitive and helps reduce economic disparities across the state
- A workforce with the education, skills and credentials they need to achieve their goals
- Superior service that promotes an innovative business climate
- Sustainable, transparent and equitable investment in all Minnesota communities

## BUDGET

*BCD = Business and Community Development; MTO = Minnesota Trade Office; UI = Unemployment Insurance; WDD = Workforce Development Division; DDS = Disability Determination Services; GSS = General Support Services; VRS = Vocational Rehabilitation Services; SSB = State Services for the Blind; BDO = Broadband Development Office.*

*Explore Minnesota (for FY2002-2004) and Public Facility Agency (for FY 2002-2009) expenditure data was separated from DEED's Consolidated Fund Statement data.*

*Source: Consolidated Fund Statement*

## STRATEGIES

DEED manages many federal and state programs that support Minnesota's people, businesses, and communities. Our focus is on providing superior service, secure systems, and sustainable and equitable investment in order to combat the state's primary economic challenges: a shrinking labor market and widening economic disparities that exist for individuals with disabilities and communities of color throughout the state.

Our *Workforce Development* division works to ensure that businesses have the talent they need to be globally competitive and that workers have the skills and opportunities they need for meaningful and family-sustaining employment. DEED delivers many of these services to Minnesotans through nearly 50 workforce centers, through partnerships and with grants to certified service providers, non-profits, MNSCU schools, and Adult Basic Education programs.

- *Workforce Development*: We provide unemployed and underemployed Minnesotans with services such as career counseling, assessment, job seeker and placement services, education and training, and job development activities through our employment and training programs.
- *Vocational Rehabilitation*: We assist Minnesotans with disabilities to secure and retain employment, live independently, and reduce their dependence on government supports.
- *State Services for the Blind*: We facilitate the achievement of personal and vocational independence by Minnesotans who are blind, visually impaired, or DeafBlind.
- *Unemployment Insurance*: We pay unemployment benefits to workers unemployed due to no fault of their own to ensure that they are able to support themselves and their families while they look search for employment.
- *Disability Determination*: We determine if Minnesota applicants meet federal criteria for disability benefits through the Social Security's Administration.

Our *Economic Development* division contributes to Minnesota's economic success by providing services that support the growth of businesses and communities.

- *Business and Community Development*: We provide new and expanding businesses with various business finance incentives, while communities can receive grants, loans, and technical assistance for redevelopment and public infrastructure.
- *Minnesota Trade Office*: We provide export assistance and training for businesses and help foreign companies invest in Minnesota through new business startups or expansions.
- *Office of Broadband Development*: We coordinate public, private, and philanthropic efforts to increase availability, speed, connectivity and use of broadband.

Our *Policy and Research* offices provide data, data tools, research, and analysis that give a comprehensive look at Minnesota's economy and workforce. DEED is the home to Minnesota's State Labor Market Information Office, funded by the federal Bureau of Labor Statistics, which, among other things, publishes the state's unemployment rates each month. The agency also has dedicated performance management and economic analysis teams for the benefit of our customers.

Our new *Office of Economic Equity and Opportunity* helps workers and businesses of color find career paths and business opportunities in Minnesota by breaking down barriers that may have contributed to economic disparities throughout the state.

"State Fiscal Year" or "SFY" is used throughout DEED's program narratives to clarify the time period being referenced, since Minnesota's state government and the Federal Government use different fiscal calendars. The "Federal Fiscal Year" is noted as "FFY."

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Minnesota Investment Fund and Job Creation Fund

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	10,000	10,000	0	0
Revenues	0	0	0	0
Other Funds				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	10,000	10,000	0	0
FTEs	0	0	0	0

#### Recommendation:

The Governor recommends \$6 million per year in FY2018 and FY2019 for the Job Creation Fund (JCF) and \$4 million per year in FY2018 and FY2019 for the Minnesota Investment Fund (MIF). This is a one-time appropriation. The recommendation allows the Department of Employment and Economic Development (DEED) to continue to reserve up to 3% of funds for program administration.

In addition, the Governor recommends allowing DEED to transfer funds between JCF and MIF to better meet business needs and recommends modifications to the JCF and MIF programs to encourage investments in targeted businesses, including those owned by people of color, veterans, women, people with disabilities, and/or located in Greater Minnesota.

#### Rationale/Background:

The Minnesota Job Creation Fund and the Minnesota Investment Fund are the state's primary financing tools to assist with business expansion and job growth. Economic development incentives often play a key role in influencing a business' final decision on where to locate or expand. These programs give Minnesota the resources needed to compete for economic development projects with other states. Recent cuts to the Job Creation Fund and Minnesota Investment Fund have significantly hampered DEED's economic development efforts. Additionally, although the programs are popular, DEED has identified opportunities to better meet important community, business, and equity needs.

#### Proposal:

##### *Restore Cuts to the Job Creation Fund and Minnesota Investment Fund*

- The Governor recommends restoring 2016 cuts to the JCF and MIF, returning to their previous funding levels of \$12.5 million and \$15 million, respectively, per fiscal year. This proposal increases funding for JCF by \$6 million per year in FY2018 and FY2019 and increases funding for MIF by \$4 million per year in FY2018 and FY2019.

##### *Provide Flexibility between JCF and MIF to Meet Business Needs*

- This proposal gives the DEED commissioner discretion to transfer funds annually between JCF and MIF to better meet business needs. Businesses sometimes prefer one program over another; for example, one business might prefer the straightforward pay-for-performance grant mechanism of JCF, while another business may need the upfront financing from a MIF loan. If funds are not available in the business' preferred program, Minnesota may be eliminated as a location option for a business expansion. This proposal gives the commissioner flexibility to create a JCF and MIF package that meets individual business needs. The transfers would be tracked to ensure transparency.

*Modify JCF and MIF to Encourage Investment by Targeted Groups (Businesses owned by people of color, veterans, women, people with disabilities, and/or located in Greater Minnesota.)*

- *Increase JCF awards for targeted businesses:* This proposal increases JCF job creation awards for targeted businesses. This change provides an additional \$1,000 per job incentive above current award levels for those businesses. This proposal is similar to a current provision in the program that allows for higher capital investment awards to investments in Greater Minnesota. The cap on JCF awards would remain at \$500,000.
- *Reduce JCF job creation goals to better serve targeted businesses:* This proposal lowers the minimum job creation requirement for targeted businesses from 10 to 5 jobs and would lower the minimum capital investment requirement for targeted businesses from \$500,000 to \$250,000. Both of these proposals allow more small businesses to utilize JCF, as targeted businesses tend to be smaller than companies in the Twin Cities metro and/or owned by the majority population.
- *Reduce JCF job creation goals to promote investment in Greater Minnesota:* This proposal lowers the minimum job creation requirement from 200 jobs to 75 jobs for a business in Greater Minnesota to qualify for an enhanced JCF job creation award of between \$500,000 and \$1 million. This threshold is consistent with the job retention requirements for a job retention award in Greater Minnesota.
- *Reserve MIF funds for targeted businesses:* This proposal gives the DEED commissioner the discretion to reserve up to \$2 million per fiscal year of a MIF appropriation for targeted businesses. Funds would be reserved for the first six months of each fiscal year then any unused portion of the reserved funds would be released back to the larger pool thereafter, similar to the Angel Tax Credit program.

#### *Eliminate Restrictions on MIF Funds to Maximize Resources*

- *Expand allowable uses of local revolving loan funds seeded by MIF repayment:* This proposal allows local governments to use MIF revolving loan funds for such industries as retail development and related activities like economic development planning, in addition to the current allowable uses under law. A significant portion of MIF repayments go to the local government partner in the project to create a local revolving loan fund. Local governments currently have more than \$30 million in MIF repayments unused in revolving loan funds. This provision has no state budget impact, though the proposal requires communities to report on the use of funds to DEED annually.
- *Eliminate limitation of one MIF award per government entity each fiscal year:* This proposal allows local governments to receive more than one MIF award per year. Minnesota Rules, part 4300.1200 prohibits more than one MIF award to a government entity per year, which can eliminate a community from a location search based on the timing of its last MIF project. This change ensures a community is not ruled out for a business expansion based on its previous success.

#### *JCF Technical / Administrative Changes*

- *Allow 7-year JCF agreements:* This recommendation clarifies DEED can enter into 7-year JCF agreements for businesses in Greater Minnesota, as intended in the JCF statute. Despite the program statute specifically allowing this authority, the Minnesota Department of Administration has stated that the Legislature needs to be more explicit in authorizing this departure from ordinary contracting procedures.
- *Third party award payments:* This proposal allows JCF capital investment award payments to be made to a third party, like a landlord. It is often difficult to determine the value of capital investment paid by the expanding business when the business is leasing a property and capital investment costs paid by the landlord are incorporated into that lease.

#### **Equity and Inclusion:**

The policy changes in this proposal aim to help targeted businesses expand or locate in Minnesota by eliminating barriers to accessing JCF and MIF. It also recognizes that businesses owned by targeted groups are often smaller and have different needs and adjusts economic development incentive program requirements to provide better access to the programs. Finally, it recognizes that targeted business owners are more likely to hire members of their communities and as a result, reduce economic disparities and increase prosperity.

**Results:**

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Border-to-Border Broadband Grant Program

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Appropriation	30,000	30,000	0	0
Transfer Out	30,000	30,000	0	0
Special Revenue				
Transfer In	30,000	30,000	0	0
Expenditures	30,000	30,000	0	0
Net Fiscal Impact = (Expenditures – Revenues)	30,000	30,000	0	0
FTEs	0	0	0	0

#### Recommendation:

The Governor recommends \$30 million in FY2018 and \$30 million in FY2019 for the Border-to-Border Broadband Grant Program in Minnesota. The recommendation allows the Department of Employment and Economic Development (DEED) to reserve up to 3% of grant funds for program administration and broadband mapping. The Governor further recommends that funds be reserved for tribal and low-income areas and that the state matching funds percentage be raised for projects in those areas.

#### Rationale/Background:

Minnesota has a goal of border-to-border high-speed internet access throughout the state by 2022. The Border-to-Border Broadband Grant Program is a way to level the playing field for families, students, businesses, and community institutions to access affordable, reliable, high-speed internet that meets the State's statutory speed goals. Broadband is an important tool to improve Minnesotan's quality of life and expand educational, health care, and economic development opportunities in Greater Minnesota.

A recent data analysis by the Office of Broadband Development shows that more than 22% (197,000) of non-metro households do not have access to broadband service that meets the State's 2022 statutory speed goal of 25Mbps download by 3Mbps upload. The estimate of unserved households is 10% state-wide, which equates to 206,000 households without access to service. State-wide households considered as underserved, or not meeting the 2026 goal of 100Mbps download by 20Mbps upload is 605,000 or 29%.

Additionally, affordable, reliable, high-speed access to the internet, along with the tools and skills to use it, are key to expanding opportunities for Minnesota's rural areas and communities of color. By facilitating better access to employment opportunities, housing resources, budgeting tools, and lower-cost options for household goods, just to name a few, the internet can contribute as much as \$10,500 to a household's wealth annually. Overall household broadband use in Minnesota is around 67%. Unfortunately, there is up to a 22% gap in broadband access between white Minnesotans and different racial and ethnic groups.

The Border-to-Border Broadband Grant Program is Minnesota's most effective strategy to incent broadband development in areas where businesses cannot make the business case to invest on their own. Continued funding for this program is critical to expanding broadband access in Greater Minnesota. The program also leverages federal Connect America Fund (CAF) II investments and private resources, and ensures those non-state funding sources result in broadband speeds that meet or exceed Minnesota's state speed goals.

#### Proposal:

This proposal funds the Border-to-Border Broadband Development Grant Program which will build on several years of public and private investments in broadband infrastructure in unserved and underserved areas of the state.

The Governor recommends that of the \$30 million per year in funding, \$5 million would be reserved specifically for tribal and/or low-income areas in Greater Minnesota. Applications that qualify under this classification would also be eligible for 75% in state matching grant funds, since tribal and/or low-income communities are often unable to raise 50% of the total project cost.

**Equity and Inclusion:**

The Border-to-Border Broadband Grant Program prioritizes funding to areas in Greater Minnesota where there are geographic disparities in broadband access. This program provides rural/non-metro areas with access to broadband service at a level that supports equitable access to economic development, education, healthcare, government services, and social opportunities.

This program contains preference consideration for rural communities and those that demonstrate low-income indicators such as poverty rate and free/reduced lunch program participation. Tribal and low-income areas will receive special consideration under this proposal, which will help expand broadband to areas that have not been able to apply for funding in the past due to programmatic barriers.

**Results:**

DEED expects that this proposal would expand broadband access to at least 23,000 households, businesses, and community institutions. Less easily quantifiable is the positive impacts this program will contribute to extending and leveraging the benefits of ongoing federal Connect America Fund (CAF) II investments; in many areas, Minnesota's resources and tools will help those CAF investments go beyond the lower federal speed requirements to meet or exceed the Minnesota standards.

Border-to-Border Broadband Grant Program	FY 2014	FY 2015	FY 2016
Number of Grant Recipients	16	15	42
Total Amount of Grants Awarded	\$18,700,337	\$11,008,366	\$ 34,148,758
Total Matched Dollar Amount	\$23,337,033	\$18,234,399	\$40,348,097
Number of households, businesses and community organizations served ( <i>proposed</i> )	6,022	4,098	20,047

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Vocational Rehabilitation Services

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	3,500	3,500	0	0
Revenues	0	0	0	0
Other Funds				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	3,500	3,500	0	0
FTEs	0	0	0	0

#### Recommendation:

The Governor recommends \$3.5 million each year for FY 2018 and FY 2019 for the Vocational Rehabilitation Services (VRS) program. This proposal ensures that VRS Service Category 1, which serves individuals with the most significant disabilities, remains open so that Minnesotans with disabilities can access competitive, integrated employment opportunities. This funding is necessary to accommodate two unfunded federal mandates that require VRS to divert funds away from serving eligible participants and further strains VRS resources. This is a one-time appropriation.

#### Rationale/Background:

##### *VRS Background*

The gap between the unemployment rate of those with and without disabilities in Minnesota and the U.S. is substantial. In 2014, the unemployment rate for working age people with any type of disability was 9.6 percent in Minnesota and 14.8 percent nationally. This compares with 3.8 percent in Minnesota and 6 percent nationally for those with no disability. VRS helps remedy this disparity by helping people with disabilities get and keep a job in a competitive, integrated setting.

VRS serves Minnesotans with disabilities that cause serious functional limitations in life, specifically related to employment. Those functional limitations include, but are not limited to, mobility, communication, self-care, or work tolerance issues. The Vocational Rehabilitation Program is DEED's most effective strategy to increase competitive, integrated employment for individuals living with disabilities. Competitive, integrated employment is essential to increasing economic equity for these individuals, and moreover ensures Minnesota remains economically competitive as a state.

Most commonly, VRS participants are referred to the program by high schools (about 28 percent) or through self-referral (about 24 percent). Once an individual contacts VRS, he or she is paired with a counselor who works one-on-one with the customer to determine work goals and employment opportunities that will lead to a more fulfilling, independent life. Job counselors provide vocational assessments and evaluation, counseling, job training, and job placement options that best meet the customer's needs. Over 300 VRS staff members work within the Minnesota WorkForce Center System to deliver these services. When necessary, counselors also facilitate additional support services to address transportation, assistive technology, housing, and other needs. Some participants are referred to other programs at the Department of Employment and Economic Development (DEED), including the Extended Employment program, the Individual Placement and Support program, and/or the Independent Living program.

##### *New Financial Pressures*

Several federal initiatives are dramatically changing the way employment services are offered to people with disabilities, including the reauthorization of Title I of the Rehabilitation Act under the Workforce Innovation and Opportunity Act (WIOA). These changes are driven by a national commitment to achieving the primary objective of the Americans with Disabilities Act: full inclusion of, and preventing discrimination against, people with disabilities.

Two new unfunded mandates imposed by WIOA are putting significant financial pressure on VRS. First, WIOA requires VRS to use a substantial portion of its already limited funding for pre-employment transition services to youth with disabilities. Second,

WIOA requires a new activity for VRS: for counselors to meet one-on-one with individuals currently receiving subminimum wage to determine if they would like to pursue competitive, integrated employment.

Even before the WIOA mandates took effect, VRS lacked adequate financial resources. The program has been operating with three of its four service categories closed due to the high demand for VRS services and lack of sufficient funding. Category 1, which serves individuals with the most severe disabilities, remains open, but more than 1,000 people in Categories 2 to 4 have been placed on a waiting list for services. The waiting list for Categories 2 to 4 will continue to grow as long as those categories remain closed.

#### *Closing Category 1*

Based on current projections, and assuming the program continues to provide services to all existing participants and to accept new participants who are in Category 1, DEED expects a funding shortfall during the federal fiscal year ending on September 30, 2017. Without additional state funding for the next biennium, DEED will be required to close Category 1 sometime within the second year of the biennium. If that happens, hundreds more people who are eligible for Vocational Rehabilitation services will be placed on indefinite waiting lists.

By law, VRS is legally obligated to provide services to all individuals with disabilities who have applied to the program, are eligible, and have developed an employment plan. If Category 1 is closed, only those individuals currently enrolled in the VRS program will continue to receive services and the program will be forced to place all new eligible applicants, in all four categories, on indefinite waiting lists until Category 1 can be reopened.

#### **Proposal:**

The Governor recommends \$3,500,000 per year in FY2018 and FY2019 for VRS to provide counselling and support work in competitive, integrated employment for individuals with the most significant disabilities. This additional state funding will allow VRS to fulfill the two new WIOA mandates and avoid closing Category 1. This funding level will allow DEED to maintain service to an estimated 5,800 new participants each year for the VR program, and avoid a wait list in Category 1.

#### **Equity and Inclusion:**

This proposal will serve Minnesotans with the most severe disabilities who are interested in securing competitive, integrated employment or advancing in their career. Of those persons enrolled in the VR program, data show that 23 percent are people of color, 2.4 percent are veterans, and 31 percent are currently receiving public benefits.

There is a strong correlation between disability and poverty. Historically, people with the most significant disabilities have a much higher unemployment rate than people without disabilities. The proposal is designed to increase the access to competitive, integrated employment. The VRS program seeks to provide services and supports to individuals with disabilities to obtain, maintain, and advance in competitive, integrated employment, thereby reducing the historic employment disparities for people with disabilities. This proposal will also improve the economic self-sufficiency for people with disabilities and promote full inclusion in their communities.

#### **Results:**

The overall success of this proposal would be measured by keeping Service Category 1 open indefinitely. Previous years' outcome metrics are below:

	SFY 2012	SFY 2013	SFY 2014	SFY 2015
New participants accepted for service	6,901	7,076	5,898	6,651
New employment plans	4,821	5,044	4,508	5,336
Participants completing an employment plan and attaining employment	2,536	2,752	2,875	2,944
Participating employers	1,780	1,895	1,991	2,027
Year-end active caseload	10,601	10,898	10,242	10,123

#### **Statutory Change(s):**

None.

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Angel Tax Credit

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	0	0	0	0
Revenues	0	(10,000)	0	0
Other Funds				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	0	10,000	0	0
FTEs	0	0	0	0

#### Recommendation:

The Governor recommends \$10 million in FY2019 for the Angel Tax Credit Program in calendar year 2018. This is a one-time appropriation. The Governor further recommends policy changes to better serve targeted businesses in Minnesota and extending the program's sunset clause to December 31, 2018.

These funds provide a tax credit to investors or investment funds that put money into early stage companies focused on high technology, a new proprietary technology, or a new proprietary product, process, or service in specified fields. The program was funded at \$15 million in calendar years 2015 and 2016 and \$10 million in calendar year 2017.

#### Rationale/Background:

The Angel Tax Credit program is Minnesota's primary economic development tool for assisting early stage businesses and is part of the Department of Employment and Economic Development's (DEED) commitment to fostering innovation in the state. Minnesota has earned its reputation as one of the best states for business by encouraging the growth and economic competitiveness of businesses of all sizes. As high-tech startups look outside the confines of traditional hubs like Silicon Valley, Minnesota has the opportunity to provide incentives that will encourage job growth and technical expertise here in the state. The Angel Tax Credit program has resulted in over \$350 million in private investment in Minnesota startups, leveraged by the state's issuance of \$84 million in tax credits to angel investors. The program spurs economic growth and builds on Minnesota's existing ecosystem of high tech, high innovation companies.

The program is also an important tool for wealth creation in communities across the state. Since its inception, DEED has sought to broaden the base of individuals, communities, and businesses that benefit from the program. DEED believes it is critical that all qualifying businesses in Minnesota have access to the benefits of the program. The policy changes included in this proposal will increase utilization of the program among targeted group businesses, including those owned by people color, women-owned businesses, veteran-owned businesses, businesses owned by people with disabilities, and/or businesses in Greater Minnesota.

#### Proposal:

The Governor recommends \$10 million in FY2019 for the Angel Tax Credit program. The program exhausts available funding every year; when credits are exhausted, some investors stop investing for the year and start-up business face barriers to obtain the equity financing they need to continue their growth.

#### *Better Serving All Minnesotans*

The Governor the program be modified to better serve targeted group businesses. These modifications include:

- *Lower minimum investment thresholds for investors of targeted business:* This proposal reduces the minimum investment for individuals from \$10,000 to \$5,000 to increase the pool of potential investors in targeted businesses. Targeted businesses typically raise smaller amounts from each investor than non-targeted businesses.

- *Eliminate restrictions on friends and families:* This proposal eliminates the exclusion of friends and family members from being eligible for the credit to increase the pool of potential investors in targeted businesses. Friends and family members are usually the first investors in a business and an especially important source of investment dollars for targeted group businesses.

#### *Extending the Sunset Clause*

The Governor recommends that the program's sunset clause be extended until December 31, 2018. Under current law, the program will end December 31, 2017.

#### **Equity and Inclusion:**

The policy changes in this proposal specifically target businesses owned by people color, women-owned businesses, veteran-owned businesses, businesses owned by people with disabilities, and/or businesses in Greater Minnesota by reserving credits for investments in these business and modifying certain program requirements to better enable them to access and benefit from the program.

#### **Results:**

	CY 2012	CY 2013	CY 2014	CY 2015

#### **Statutory Change:**

Minn. Stat. 116J.8737

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: DEED Operating Adjustment

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	756	1,235	1,235	1,235
Revenues	0	0	0	0
Other Funds				
Expenditures	18	31	31	31
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	774	1,266	1,266	1,266
FTEs	0	0	0	0

#### Recommendation:

The Governor recommends additional funding of \$756,000 in FY2018 and \$1,235,000 each year thereafter from the general fund and \$18,000 in FY2018 and \$31,000 each year thereafter from the workforce development fund to maintain the current level of service delivery at the Department of Employment and Economic Development (DEED).

#### Rationale/Background:

Each year, employer-paid health care contributions, pension contributions, FICA and Medicare, along with other salary and compensation-related costs increase. Other operating costs, like rent and lease, fuel and utilities, and IT and legal services also grow. This cost growth puts pressure on agency operating budgets that remain flat from year to year.

Agencies face challenging decisions to manage these costs within existing budgets, while maintaining the services Minnesotans expect. From year to year, agencies find ways to become more efficient with existing resources. However, cost growth typically outstrips efficiencies, and without additional resources added to agency budgets, service delivery erodes.

For DEED, an erosion of services includes:

- Business and Community Development (BCD):
  - Loss of federal match money on a 1:1 basis
  - Reduction in service levels to clients
  - Reduction in the ability to meet client timelines
  - Limitations on the ability to effectively achieve the Small Business Office's mission
- Minnesota Trade Office (MTO):
  - Loss of some international trade assistance services to Minnesota companies
  - Reduction in the number of export education seminars, reducing individual participation and limiting outreach to Minnesota companies.
  - Elimination of some planned trade missions to strategic global markets
  - Reduction to staffing support to foreign offices
  - Reduction in the capacity to host potential foreign business partners and advice on protocols
  - Reduction in general outreach to Minnesota regions
- State Services for the Blind (SSB):
  - Reduction in psychology services, which provide vocational assessments, vocational groups, and consultation to counselors for our most difficult to place customers.
  - Reduction of assistive technology assessments for customers, creating a backlog for individuals needing technology to help them with employment
  - Limitation of services beyond required school work

**Proposal:**

The Governor recommends increasing agency operating budgets to maintain the delivery of current services. For DEED this funding will cover expected and anticipated employee compensation growth, including anticipated compensation increases and employer-paid pension costs.

**Results:**

This proposal is intended to allow agencies to continue to provide current levels of service and information to the public.

**Statutory Change(s):**

N.A.

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Emerging Entrepreneur Loan Program

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Other Funds				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	0	0	0	0
<b>FTEs</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>

#### Recommendation:

The Governor recommends policy and technical changes to the Emerging Entrepreneur Loan Program (EELP), a statewide revolving loan fund benefiting targeted businesses, including those owned by people of color, women, veterans, people with disabilities, and/or businesses located in economically distressed areas.

#### Rationale/Background:

EELP was created in 2016 to help communities realize the benefits of home-grown entrepreneurship. This program is administered through partnerships with nonprofit lending organizations statewide and is funded from repurposed funds from several Department of Employment and Economic Development (DEED) programs in order to serve two distinct roles:

- To provide grants to nonprofit lenders for loans to businesses owned by people of color, women, veterans, people with disabilities, and/or businesses in economically distressed areas.
- To provide grants to nonprofit business technical assistance providers.

Small businesses face obstacles in accessing capital throughout the state. In particular, targeted businesses, including such as businesses owned by people of color, women, veterans, people with disabilities, and/or businesses in economically distressed areas, are often perceived as risky investments for conventional bank loans due to issues such as poor credit history, lack of credit history, lack of owner equity, etc. By working with community lenders certified to work with targeted small businesses, EELP helps fill this critical gap.

The proposed technical changes would improve program operation. The retention of funds would boost long-term funding for the program as unused funds would remain with the program rather than be returned to the general fund. Forgiving a portion of the loan would reduce repayments to the program and result in a lower revolving loan fund that would be used for future loans. Stakeholders, including lenders, will support the technical changes as they will improve program operations. They will also support the fiscal changes as they will improve access to capital for targeted business groups.

#### Proposal:

*Policy Proposal: Allow up to 10 percent portion of state-funded loan to be forgivable.*

- The Governor recommends allowing EELP lenders, nonprofit lending organizations contracted by DEED, to forgive remaining EELP payments once 90% of the loan principal has been repaid. Lenders would need to develop their own criteria outlining how this provision would be used for transactions. This change will provide increased cash flow to targeted businesses.

Lost loan repayment revenue from this provision would begin impacting the revolving loan fund beginning in FY2022. DEED anticipates that approximately 50% of loans issued under EELP would meet the criteria for loan forgiveness.

DEED anticipates \$36,000 in lost loan repayment revenue starting in FY2022, and \$56,000 per year starting in FY2023.

### Technical Proposals

- *Rename the program.* This proposal changes the name of the program to the “Emerging Entrepreneur Loan” program to clarify for program users that the program provides loans not grants.
- *Allow funds to be used past a given fiscal year.* This proposal allows EELP appropriations, beginning in FY2018, to be deposited in the program revolving loan account in the special revenue fund. In 2016, the Legislature intended the EELP be a revolving loan program, but did not provide direct legislative authorization. Without direct legislative authorization for appropriations to be transferred to the revolving loan fund, unobligated appropriations return to the general fund annually.
- *Modify language related to the definition of low-income households and areas.* Current program language regarding low-income households and areas is inconsistent. This proposal would define of a low-income area as those cities in the metropolitan area that have a “median income” as opposed to an “average income” that is below 80 percent of the median income for a four-person family.
- *Clarify the program timeline of EELP.* This proposal clarifies EELP will run on a fiscal year basis and changes dates in statute accordingly. Current program language assumed that the program would operate under a calendar year basis. However, with a base appropriation now arriving on July 1 of each year, the program will operate on a fiscal year timeline. The nine-month set-aside should begin on July 1 (rather than January 1) and end on March 30 (rather than September 30) to reflect the state fiscal calendar.
- *Clean-up language removing “board” and insert “department.”* This proposal eliminates obsolete language. Current language removed program oversight functions from the Emerging Entrepreneur Board, since DEED already fulfilled most of these functions. Most of the requested changes were completed, but some mentions of “Board” mistakenly remained. This proposal would remove the remaining “Board” language and replace with “Department.”
- *Change the date lenders need to annually report to DEED.* This proposal requires EELP lenders submit an annual report to DEED by February 15 instead of March 30 to ensure DEED can publish a summary report for legislative review.
- *Delete Minnesota Rules, part 4355 which governed the “Urban Challenge Grant Program” (more commonly known as the Urban Initiative Loan Program).* This proposal repeals an obsolete rule that references the Urban Initiative Loan program, which the Legislature replaced with EELP.

### Equity and Inclusion:

This proposal makes policy and technical improvements to the EELP in order to better serve businesses owned by people of color, women, veterans, people with disabilities, and/or businesses in economically distressed areas. DEED anticipates that these groups will have greater access to capital and assistance in starting small businesses than they had under the previous program.

Increased lending to targeted businesses will improve economic opportunity, create wealth for individuals from targeted communities, and strengthen neighborhoods and communities by stimulating economic development in low-income areas. Though many EELP businesses are small, owners of targeted businesses are also likely to fill job vacancies from communities experiencing economic disparities.

### Results:

Since EELP is a new program, DEED does not yet have program outcomes. However, past performance of both the Emerging Entrepreneur Fund and the Urban Initiative Program illustrate some general trends in this space.

Emerging Entrepreneur Fund	CY 2012	CY 2013	CY 2014	CY 2015
Number of businesses assisted	28	35	31	41
SSBCI funds contributed	\$1.1M	\$2.1M	\$1.4M	\$1.4M
Amount of leverage dollars achieved	\$13.1M	\$19.2M	\$18.9M	\$12.1M

Urban Initiative Loan Program	SFY 2012	SFY 2013	SFY 2014	SFY 2015
Number of projects	23	20	20	34
Loan amounts	\$460,070	\$579,770	\$832,900	\$1,132,367

In addition to measuring metrics similar to the ones above for the new program, DEED will also measure program outcomes for businesses in the newly targeted groups:

- **Quantity:** Number of businesses assisted owned by individuals in targeted groups
- **Quantity:** Amount of loans awarded to business owners in targeted groups.
- **Quantity:** Amount of leverage dollars achieved by businesses owned by individuals in targeted groups.

**Statutory Change(s):**

Minn. Stat. 116M.14

## Department of Employment and Economic Development

### FY18-19 Biennial Budget Change Item

#### Change Item Title: Governor's Workforce Development Board Statute Updates

Fiscal Impact (\$000s)	FY 2018	FY 2019	FY 2020	FY 2021
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Other Funds				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	0	0	0	0
<b>FTEs</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>

#### Recommendation:

The Governor recommends updates to the statute that governs the Governor's Workforce Development Board (GWDB) to bring it into alignment with recent changes to federal law.

#### Rationale/Background:

Due to recent changes made in both state and federal law regarding the composition and duties of the Board, the current statute is now out of compliance. Passing the necessary changes in Minnesota statute will allow the GWDB to come into compliance with both federal and state law.

#### Proposal:

The federal Workforce Innovation and Opportunity Act (WIOA) passed in 2014 governs the Governor's Workforce Development Board which is also codified in Minnesota Statutes. WIOA made changes to the membership and duties of state workforce boards. The required membership changes necessitate an increase in board membership and thus results in an increased number of per diems. These costs are currently borne by federal funding and the increase in per diems will be negligible and borne by the same federal funding. The purpose of these changes were to increase the representation of industry on the Board and emphasize regional, industry-driven sector workforce development efforts as part of state policy. This proposal makes conforming changes to Minnesota statute to be compliant with WIOA. This language was included in a DEED policy initiative in the 2016 session, but did not become law.

#### Equity and Inclusion:

The GWDB provides policy recommendations for the workforce system in Minnesota. With a more diverse membership that better reflects Minnesota's demographics, the Board will be better equipped to address Minnesota's employment disparities. It specifies inclusion of minority representatives of community-based organizations that have demonstrated experience and expertise in addressing the employment, training, or education needs of individuals with barriers to employment.

#### Results:

One primary outcome of these changes will be that the Board membership diversity has increased.

#### Statutory Change(s):

Minn. Stat. 116L.665

## Program: Business and Community Development

<http://mn.gov/deed/business/>

## AT A GLANCE

- Administers financing programs to help businesses retain existing jobs and create new high-quality jobs.
- Administers financing programs and special appropriations to support community development.
- Provides information and access to resources to help entrepreneurs and small businesses.
- Funds cooperative training projects involving partnerships between businesses and educational institutions that build the skills of new employees and/or retrain existing employees.
- In FY 2016, across all programs both federal and state, DEED awarded \$139 million for 464 projects resulting in a minimum of \$4.2 billion in leveraged investment, the creation of 7,169 new jobs and the retention of 14,345 jobs.

## PURPOSE &amp; CONTEXT

DEED's Business and Community Development (BCD) program area contributes to Minnesota's economic success by providing services that support the growth of businesses and communities.

We provide financial and technical services to businesses and communities to support the creation, expansion, attraction, and retention of businesses in and to Minnesota. We also work to help communities become affordable, quality places for people and businesses to locate, grow, and prosper.

## SERVICES PROVIDED

We accomplish our mission via the following activities:

- *Business Finance*: we administer financing and tax credit programs that provide capital to growing businesses in Minnesota. Some key programs include the Minnesota Job Creation Fund, which provides performance-based awards to new and expanding businesses after they meet job creation and capital investment targets; the Minnesota Investment Fund, which provides upfront financing that targets job creation in industrial, manufacturing and high-tech industries; and the Angel Tax Credit Program, which provides incentives to invest in start-up and emerging companies (primarily in high-tech industries). We also oversee the Emerging Entrepreneur Program, which provides loans targeted toward Minnesota small businesses owned by women, veterans, people with disabilities, people from communities of color and/or low-income individuals.
- *Brownfields and Redevelopment*: we manage grant and loan programs that assist local units of government with the investigation and cleanup of contamination and the redevelopment of underutilized properties. The Contamination Cleanup and Investigation Grant Program helps pay for assessing and cleaning contaminated sites for private or public redevelopment. The Redevelopment Grant Program helps communities with the costs of redeveloping blighted industrial, residential, or commercial sites and putting land back into productive use. The Demolition Loan Program helps with the costs of demolishing blighted buildings on sites that have future development potential but no current plans.
- *Business Development*: our regional business development representatives assist businesses and communities to access DEED services and other available resources to support the growth, retention and attraction of workforce and businesses. The office also promotes specific industry sectors where Minnesota has strength and/or potential for growth.
- *Community Finance*: we administer programs that assist local governments in attracting and keeping businesses and jobs in their communities. Key programs include the Small Cities Development Program, Business Development Public Infrastructure Program, Innovative Business Development Public Infrastructure Program, and the Workforce Housing Program. Through financial assistance for housing, the development of commercial and industrial property, and

improvements to public infrastructure, we help communities prosper and position themselves for future economic growth.

- *Minnesota Job Skills Partnership (MJSP)*: our Minnesota Job Skills Partnership provides funding for cooperative training projects that build the skills of new employees and/or retrain a company's existing employees. These grants are awarded to educational institutions with businesses as partners. This program can also provide training to low income individuals to help them advance their career, achieving higher paying jobs and economic self-sufficiency.
- *Small Business Assistance Office (SBAO)*: our Small Business Assistance Office works to reduce costs for small businesses by providing timely, accurate, and comprehensive information and technical assistance on all aspects of the start-up, operation, or expansion of a small business. The SBAO complements the work of the Small Business Development Center network (SBDCs), which aids in the development of new and existing businesses through a statewide network of offices offering entrepreneurs business consulting, training services and assistance in locating and securing capital.

## RESULTS

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>
Quality	Leveraged private investment through all programs	\$642M	\$4.2B	SFY 2015 & SFY 2016
Results	# of jobs to be created/retained through all programs	21,018	21,514	SFY 2015 & SFY 2016
Results	# of jobs to be created through the Minnesota Job Creation Fund	1,241	1,444	SFY 2015 & SFY 2016
Quantity	Amount of investments generated through the Minnesota Angel Tax Credit Program	\$59.8M	\$70.4M	SCY 2014 & SCY 2015
Quantity	# of workers trained through the Minnesota Job Skills Partnership Program	6,580*	10,052*	SFY 2015 & SFY 2016
Quantity	# of small business clients served through the SBDC and SBAO	34,934	37,152	SFY 2015 & SFY 2016
Quality	Leveraged private investment through the Contamination Investigation and Cleanup Grant Program	\$724M	\$1.81B	SFY 2015 & SFY 2016
Quality	Leveraged private investment through the Redevelopment Grant Program	\$263M	\$506M	SFY 2015 & SFY 2016
Quality	Leveraged private investment through the Innovative Business Development Public Infrastructure Program	\$9M	\$300K	SFY 2015 & SFY 2016
Quality	Leveraged private investment through the Business Development Public Infrastructure program	\$5.4M	\$4.2M	SFY 2015 & SFY 2016

\* SFY15 and SFY16 MJSP grants are currently open, so total number of workers is the "planned number of trainees" the employer indicated they would serve in their grant application.

## Program: Unemployment Insurance

<http://uimn.org/uimn/>

## AT A GLANCE

- Pays eligible workers up to 50 percent of their average weekly wage, subject to a state maximum for up to 26 weeks.
- Collaborates with WorkForce Center partners to ensure workers obtain the assistance needed to speedily return to employment.
- Paid \$778 million in unemployment benefits to 166,361 Minnesotans in 2015.
- Minnesota UI regularly ranks among the top 5 states in the country in achieving federal performance standards.

## PURPOSE &amp; CONTEXT

The Unemployment Insurance (UI) program's mission is to enhance workforce development and the economic strength of Minnesota by providing unemployment insurance for individuals and employers. The program provides a temporary, partial wage replacement to workers unemployed through no fault of their own.

Unemployment insurance benefits provide stability to local economies by helping to maintain spending during prolonged economic downturns; support dislocated workers while they obtain training so they may re-enter the labor market; and ensure that skilled workers do not leave an area in search of other work during periods of short-term unemployment.

## SERVICES PROVIDED

We accomplish our mission through a variety of advanced technological and management approaches, including:

- Ensuring the prompt payment of benefits to eligible unemployed workers.
- Reducing the administrative burdens on employers who pay unemployment insurance taxes as much as possible.
- Using human resources as cost-effectively as possible.
- Collaborating with WorkForce Center partners to ensure workers obtain the assistance needed to speedily return to employment that makes the best possible use of the worker's skills and abilities (a requirement of UI).

We achieve these goals through several different activities:

- *Appeals Operations and Legal Affairs:* we conduct appeal hearings and Workers' Compensation interventions to ensure that all legal standards are properly applied.
- *Audits and Special Accounts:* we ensure compliance through field audits and manage special programs such as Disaster Unemployment Insurance; Interstate, Federal and Military Claims; the Shared Work Program; and Trade Readjustment Allowances.
- *Customer Service Center:* we work to make the program easy to understand by providing fast, responsive applicant and employer unemployment insurance account support.
- *Program Performance and Outreach:* we focus on operational improvement through informational/outreach programming, benefit accuracy measurements, profiling, program budget evaluation, reemployment assistance, and training.

## RESULTS

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>
Quantity	Timely First Payment of Benefits (Federal goal: 87% in 14 days)	92.0%	93.3%	SFY 2015 & SFY 2016

## Program: Workforce Development Division

<http://mn.gov/deed/job-seekers>

## AT A GLANCE

- Provides skill development and training programs for Minnesotans with barriers to employment or who are unemployed.
- Helps people develop and improve their job readiness for in-demand occupations that pay family sustaining wages.
- Helps business find and train workers.
- Provides an online resume and job-matching system for employers and job seekers (MinnesotaWorks.net).

## PURPOSE &amp; CONTEXT

The Workforce Development Division (WDD) supports Minnesotans seeking new employment through policy guidance, program administration and direct services. WDD supports local and statewide partnerships designed to develop and improve career skills and obtain employment at family sustaining wages. Division activities also support the needs of businesses in recruiting and training their current and future workforces to ensure that no Minnesotan is left on the economic sidelines.

## SERVICES PROVIDED

DEED is committed to serving a variety of populations through the Workforce Development Division. From laid-off workers to at-risk youth, WDD programs reach diverse communities across the state to ensure that all Minnesotans have access to DEED's services. Many of these programs include partnerships with nonprofit service providers, educational institutions, businesses, and other stakeholders; a full list of our workforce development services can be found on the DEED website (<https://mn.gov/deed/job-seekers>).

- *Laid-Off Workers:* Workers who lost their jobs through no fault of their own – that is, neither quit nor were fired – can receive assistance to find a new career. The Dislocated Worker Program, funded jointly by the federal government and the State, assists laid-off workers in returning to work with comparable wages and benefits. Participants enrolled in the program can access career planning and counseling; job search and placement services; short-term training upon counselor approval; and support services for expenses such as family care and transportation upon counselor approval. The related Trade Adjustment Assistance Program (TAA) assists workers who lose their jobs, hours, or income specifically as a result of increased foreign trade activity. Available benefits include special extensions to unemployment insurance as well as reimbursement of training costs, job search allowances, relocation allowances, and similar costs for finding a new job.
- *Adults with Barriers to Employment:* Adults who face any number of barriers to employment, including those living with disabilities, individuals who are deaf and hard of hearing, individuals returning to work after receiving public assistance, people of color, and older workers, can access services to help them succeed in well-paying careers. The state-funded Minnesota Pathways to Prosperity program integrates basic skills education, career-specific training, support services, and employment placement and retention to meet the needs of our clients. DEED also administers several other adult competitive grant programs focused on meeting the needs of different communities across the state.
- *Veterans:* DEED administers the federally funded Veterans Employment Services program that provides employment and training services for current and former military members. All DEED employees on the Veterans Employment Services team are veterans themselves. Services include job-readiness assessment, job preparation, and job placement assistance.
- *At-Risk Youth:* The youth and young adults who are eligible for DEED services come from low-income families, have severe barriers to employment, and are under-represented in the workforce.
  - The state funded Youthbuild program offers a construction career pathway for at-risk youth and young adults who have dropped out of school or experienced repeated failure in school. It provides youth with industry-recognized credentials and pre-apprenticeship training in residential construction; and contextual basic skills and soft skills in work readiness, career counseling, and leadership skills.
  - The state funded Minnesota Youth at Work Competitive Grants provides funding to organizations offering workforce development and training opportunities to economically disadvantaged or at-risk youth, ages 14-24, with special consideration to youth from communities of color and youth with disabilities. Services include

- connecting classroom skills to work-based settings, exposing youth to work settings that offer direct employer/supervisor feedback, and youth engagement while exploring interests and abilities.
- The state funded Minnesota Youth Program (MYP) provides summer and year-round employment and training services to low-income and at-risk youth, ages 14 to 24, through a partnership with Workforce Service Areas. This program reaches every single county in Minnesota.
- *Universal Customer:* Any Minnesotan who is looking to access DEED services who may not be eligible for a specific DEED program can still access our job-seeking services, free of charge. The federally funded Job Service Program provides job preparation and placement assistance including workshops on job-seeking skills, resume writing, interviewing, and internet job-search to job seekers. MinnesotaWorks.net is the largest employment database in the state and is a free website for both employers and job seekers. On this website, employers can post job openings and job seekers can submit their resumes to open positions.

## RESULTS

## Program: Disability Determination Services

<http://mn.gov/deed/programs-services/dds/index.jsp>

**AT A GLANCE**

- Quick stats on the program/activity; avoid repeating performance measures. Serves Minnesota residents who file applications for disability benefits or Minnesotans who are reviewed for continuing eligibility.
- Refers disability applications for individuals who may benefit from rehabilitation services to other state agencies.
- Reviewed 59,846 new claims in 2015.
- Program is funded 100% by federal dollars.

**PURPOSE & CONTEXT**

Disability Determination Services (DDS) evaluates claims for disability benefits using Social Security Administration (SSA) guidelines and Federal Regulations. The Social Security program provides benefits to persons with disabilities who are not able to work.

When Social Security added protection for individuals with disabilities in 1954, the Congress wrote into the law that the disability decision for an individual had to be made by a state agency and not by a federal office. Social Security pays Minnesota to run the office and make the disability decisions.

**SERVICES PROVIDED**

We accomplish our mission by making eligibility decisions regarding disability and blindness applications on behalf of the federal SSA. Our activities include:

- Reviewing disability applications and requesting medical records from claimants' medical sources.
- Corresponding by phone or letter with claimants, family members, legal representatives, and others to obtain additional information necessary for claims.
- Reviewing and analyzing evidence, applying SSA regulations and policy, and writing comprehensive assessments (including medical evidence, vocational factors, educational background, and other collateral information) to reach an eligibility determination.

In addition to providing eligibility determinations for disability payments, we also refer disability applicants who may benefit from rehabilitation services to Vocational Rehabilitation Services, State Services for the Blind, and the Department of Health's section of Children with Special Health Needs.

**RESULTS**

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>
Quantity	# of new determinations reviewed	50,134	59,846	FFY 2014 & FFY 2015
Quality	Days in decision-making	98.7	80.5	FFY 2014 & FFY 2015
Quality	Accuracy of determination decisions (assessed through a review by SSA.)	98.7%	98.1%	FFY 2014 & FFY 2015

Social Security Act; U.S. Code, Title 42, Chap. 421 (<http://www.law.cornell.edu/uscode/text/42/421>) provides the legal authority for Disability Determination Services.

## Program: General Support Services

<http://mn.gov/deed>

## AT A GLANCE

- Provides leadership and infrastructure for the agency.
- Includes the Commissioner's Office and other offices which support DEED's program work.
- Produces economic analysis and labor market information.
- 312,866 subscribers to DEED's email communications.

## PURPOSE &amp; CONTEXT

General Support Services (GSS) directly supports the agency with infrastructure and leadership necessary to operate programs, develop policies, and provide assistance to individuals, businesses, and communities. These divisions are our "back of the house" support and provide the technical expertise to ensure our programs are effective and efficient

## SERVICES PROVIDED

General Support Services (GSS) includes the following core functions:

- *Commissioner's Office*: provides executive leadership through appointment by Office of the Governor of Minnesota. In addition to supervising all DEED programs, the Commissioner's Office oversees two quasi-independent agencies:
  - The *Public Facilities Authority* (PFA) is a multi-agency authority that provides municipal financing expertise and infrastructure financing programs to enhance the environmental and economic vitality of the State. The Commissioner of DEED serves as the chair and chief executive officer of the authority while day-to-day operations are managed by an executive director and staff.
  - *Explore Minnesota Tourism* is the state's tourism marketing entity and is an office in the executive branch. The director of that agency reports directly to the Commissioner of DEED.
- *Policy Office*: The Policy Office oversees policy planning for the agency, evaluates program performance, conducts economic analysis, and represents DEED at the Legislature.
- *Labor Market Information*: develops and refines data on Minnesota's labor market and communicates that data to customers via funding from the federal Bureau of Labor Statistics.
- *Communications Office*: Publicizes DEED services for customers, partners, and other stakeholders while promoting Minnesota as a place to live, work, and do business.
- *Office of Economic Equity and Opportunity*: Helps workers and businesses of color find career paths and business opportunities in Minnesota by breaking down barriers that may have contributed to disparities for communities of color throughout the state.
- *Office of Diversity and Equal Opportunity*: Ensures DEED's compliance with federal and state laws concerning discrimination, harassment, reasonable accommodation, site and program access and retaliation, and handles complaints of discrimination for any DEED employee, applicant, contractor intern or customer.
- *Administrative and Financial Services*: oversees all financial activities (including budgeting, payroll, procurement, continuity of operations and other functions) as well as managing all DEED facilities.
- *Human Resources*: manages agency personnel, labor relations, and employee development.
- *MN.IT@DEED*: provides information technology (IT) development and support.

## Program: Minnesota Trade Office

<http://mn.gov/deed/trade>

**AT A GLANCE**

- Works to increase the number of Minnesota companies exporting into foreign markets.
- Helps foreign companies explore the advantages of expanding or relocating in Minnesota and operates trade offices located in Brazil, China, Germany, and South Korea.
- Provides technical assistance and financial resources for companies seeking to expand exporting.
- Recruits new and additional foreign direct investment from foreign-owned enterprises.

**PURPOSE & CONTEXT**

The Minnesota Trade Office (MTO) seeks to increase the number of exports and the amount of foreign direct investment that contribute to the growth of the Minnesota economy.

We provide export assistance to Minnesota's manufacturers and service providers. Programs and services focus primarily on assisting small and medium-sized companies. We also have offices and staff in key foreign markets to help overseas companies explore business startup, expansion and relocation opportunities in Minnesota.

**SERVICES PROVIDED**

The Minnesota Trade Office (MTO) provides:

- *Export counseling and assistance:* our International Trade Representatives guide Minnesota companies through the challenges of conducting international business. Services include exporting guidance, market research, reviewing regulatory requirements, providing advice on international logistics, and evaluating market entry strategies.
- *Export financing programs:* we provide grants and guide companies on obtaining private financial assistance like loans, working capital, credit, and insurance to help new and current exporters. For instance, the STEP Grant Program provides financial and technical assistance to Minnesota small businesses with an active interest in exporting products or services to foreign markets. Small businesses may also apply for reimbursements of between \$500 and \$7,500 for export-training and export-development related activities.
- *Foreign direct investment assistance:* we work with foreign companies exploring the advantages of expanding or relocating in Minnesota. To facilitate this work, we operate trade offices in Brazil, China, Germany, and South Korea.

We sponsor and coordinate trade missions to foreign countries with delegations of business, education, and government officials, to showcase Minnesota as a superior place to do business, raise the profile of Minnesota companies, and provide important networking opportunities to the delegates.

The MTO also provides leadership on matters of international affairs for the State of Minnesota. We serve as Minnesota's Office of Protocol, ensuring that the state's interactions with foreign delegations and dignitaries are conducted with appropriate diplomatic etiquette and cultural practices. We are also the state's liaison to the local diplomatic community – the Minnesota Consular Corps.

**RESULTS**

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>
Quantity	Number of organizations receiving export assistance SFY 2014 = 1,284	1,067	864	SFY 2015 & SFY 2016
Results	Number of attendees at MTO training seminars SFY 2014 = 1,349	1,142	1,285	SFY 2015 & SFY 2016

Minn. Stat. § 116J.966 (<https://www.revisor.mn.gov/statutes/?id=116J.966>) and the Federal Trade Act of 1974, Public Law 93-618, as amended; U.S. Code, Title 19 (<http://www.law.cornell.edu/uscode/text/19/chapter-12>) provide the legal authority for DEED's Trade Office.

## Program: Vocational Rehabilitation Services

<http://mn.gov/deed/job-seekers/disabilities/>

## AT A GLANCE

- Provides services that empower Minnesotans with disabilities to find and keep jobs, live independently in their community, and reduce their dependence on government support.
- Provides long-term employment support services to assist Minnesotans with significant disabilities to maintain and advance in their employment.
- Assists Minnesotans with disabilities to live independently and secure their basic rights in areas such as housing, transportation, education and employment.

## PURPOSE &amp; CONTEXT

Our purpose is to empower Minnesotans with disabilities to find and keep jobs and to live independently in their communities. Our primary customers include:

- 266,000 non-institutionalized Minnesotans ages 18-64 who have a significant disability and who seek employment and independence
- All high school-age students with significant disabilities who are making the transition from school to work
- Businesses and other employers who seek qualified candidates for job openings

## SERVICES PROVIDED

We accomplish our mission via four distinct programs. The Vocational Rehabilitation and Independent Living programs are operated and funded as federal/state partnerships. Extended Employment and Individual Placement and Support are funded solely by the state.

- *Vocational Rehabilitation*: we empower people with significant disabilities to find jobs through counseling, training, and job placement services.
- *Extended Employment*: we assist people with significant disabilities to keep their jobs by providing long-term employment supports. Those services typically include assistance in training or retraining job tasks, dealing with schedule changes, adjusting to new supervisors, advancement to new job tasks or positions, and managing changes in non-work environments or life activities that affect work performance.
- *Individual Placement and Support*: we assist people with serious mental illness to achieve steady employment in mainstream competitive jobs by providing counseling and long-term job supports.
- *Independent Living*: we enable Minnesotans with disabilities to live and function independently at home, at work and in their communities, and relocate out of nursing homes, by collaborating with the state's eight regional centers for independent living to provide services and training.

Our staff are highly trained professionals with experience in providing individualized assessments, evaluations, counseling, training, assistive technologies, and job placement and retention services. Through a coordinated network of alliances, we work closely with nonprofit community rehabilitation providers, county service agencies, regional centers for independent living, secondary and post-secondary educational institutions, businesses, and other public and private organizations.

We are closely involved in implementing the court-ordered Olmstead Plan regarding government services to people with disabilities. By fully embracing the Olmstead Plan, we seek to ensure that Minnesotans with disabilities have the opportunity to be close to families and friends, to live independently, to engage in productive employment, and to fully participate in community life. Established through an executive order in 2013, the Olmstead Subcabinet has helped us guide this work and the creation of the Olmstead Implementation Office overseen by the Minnesota Housing Finance Agency. Ongoing, collaborative efforts will ensure that the vision, goals, and time-specific tasks of the Olmstead Plan are implemented in their entirety.

## RESULTS – VOCATIONAL REHABILITATION PROGRAM

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>
Quantity	# of new customers accepted for service / # of open cases at the end of the fiscal year	6651 / 10,123	6635 / 20,233	SFY 2015 & SFY 2016
Result	# of customers attaining employment	2,936	2,944	SFY 2015 & SFY 2016

Minn. Stat. § 268A (<https://www.revisor.mn.gov/statutes/?id=268A.11>), Federal Rehabilitation Act of 1973 as amended, U.S. Code, Title 29, Chapter 16 (<http://www.law.cornell.edu/uscode/text/29/chapter-16>), provides the legal authority for DEED's Vocational Rehabilitation Services.

## RESULTS – EXTENDED EMPLOYMENT PROGRAM

<b>Type of Measure</b>	<b>Name of Measure</b>	<b>Previous</b>	<b>Current</b>	<b>Dates</b>

## Program: State Services for the Blind

<http://mn.gov/deed/job-seekers/blind-visual-impaired/>

## AT A GLANCE

- Provides career exploration and employment services so that Minnesotans who are blind, visually impaired or DeafBlind can find and keep jobs.
- Provides materials in accessible formats (audio, braille and e-text) for education, work and independence.
- Provides seniors facing vision loss with tools, training and technology to remain in their homes or live as independently as possible.
- 4,036 seniors assisted in 2015.

## PURPOSE &amp; CONTEXT

State Services for the Blind (SSB) helps Minnesotans who are blind, visually impaired, or DeafBlind achieve personal and vocational independence.

Our customers are Minnesotans who have vision loss or other disabilities (such as learning disabilities or dyslexia) that make it difficult to read print. Our services – designed to address needs that are unmet by other programs – provide Minnesotans with access to print, the skills and tools to get and keep jobs, and the necessary supports to live independently in our communities. These services are especially critical as Minnesota's population ages and thus the population of people needing services is expected to more than quadruple in the near future.

## SERVICES PROVIDED

We accomplish our mission via the following activities:

- *Workforce Development:* we provide employment and career support to over 1,000 blind, visually impaired, or DeafBlind Minnesotans annually, helping them find and keep jobs. This includes helping youth and adults choose careers that align with today's economic trends, providing assistive technology and training to meet workplace demands, and supporting post-secondary education so we have a highly skilled, highly trained workforce.
- *Business Enterprises:* we provide vending business job opportunities for blind, visually impaired, or DeafBlind entrepreneurs within state and federal buildings in 186 locations. Thirty-six entrepreneurs in this program generate \$6.4 million in annual sales, pay \$420,000 in state sales taxes, pay over \$643,000 in employee wages, and pay \$250,000 in funds to support the program.
- *Senior Services:* we help seniors with vision loss stay in their homes, remain active in their communities, and retain higher levels of independence, through counseling, training, and assistive devices (such as magnifiers) that are not available in local stores. These services are delivered both by our staff and by partner organizations trained by our staff.
- *Communication Center:* we produce accessible materials (braille, audio, and e-text) that are not already available in the market, including custom materials at the request of our customers. We are assisted by a network of 650 volunteers and a partnership with the Minnesota Braille and Talking Book Library. We work closely with K-12 schools, businesses, government agencies, and other partners in need of materials accessible to visually or print impaired people. Our closed-circuit Radio Talking Book (RTB) broadcasts allow people throughout the state to hear readings of just-published books, magazines, and other current print information. We also provide Minnesotans with podcasts and two accessible news services which enables them to read their local, regional, national, and international newspapers, magazines, and job postings.

## RESULTS

## Program: Broadband Development

<http://mn.gov/deed/broadband>

## AT A GLANCE

- Works to ensure that the state's Internet service is among the nation's best and can keep pace with growing demands of busy Minnesotans.
- Coordinates public, private, and philanthropic efforts to increase availability, speed, and use of broadband.
- Administers the state competitive grant fund for broadband infrastructure.
- Conducts research, data collection, and mapping to inform policy and improve access to underserved and unserved communities.

## PURPOSE &amp; CONTEXT

The Office of Broadband Development (OBD) was created in 2013 and charged with improving broadband access and use within Minnesota.

Our purpose is to drive job creation, promote innovation and expand markets for Minnesota businesses by increasing the deployment and use of broadband technologies. We also encourage investment in broadband infrastructure to achieve equal access to opportunities in economic development, education, healthcare, public safety and social well-being throughout the state. Our work ensures that unserved and underserved communities gain access to the broadband infrastructure they need to remain economically competitive and socially connected.

## SERVICES PROVIDED

The Office of Broadband Development (OBD) accomplishes its mission through the following activities:

- *Community Planning:* We work with communities, broadband providers, and local units of government to provide technical assistance and consultation services for broadband development and related planning. We also work to ensure these stakeholders are aware of both federal and state policies and programs, including financial resources.
- *Broadband Infrastructure:* We manage the competitive Border-to-Border Broadband Development Grant program to build broadband infrastructure in areas of the state where conventional business models have been unable to meet connectivity needs. Applicants are typically one partner among several in a community initiative, such as an existing broadband provider, a cooperative, township, city, or tribe.
- *Research and Data Collection:* Through the coordination of data collection, mapping, and analysis, we measure progress toward state broadband goals.
- *Adoption and Use:* We study and work to improve low broadband adoption and use rates among identified population groups.
- *Collaboration and Engagement:* We provide support and input to the Governor's Task Force on Broadband in order to develop, implement and promote state broadband policy, planning and initiatives to achieve State broadband needs and goals.

## RESULTS

<b><i>Type of Measure</i></b>	<b><i>Name of Measure</i></b>	<b><i>Previous</i></b>	<b><i>Current</i></b>	<b><i>Dates</i></b>
Quantity	# of Applications to Broadband Grant Programs	40	44	Oct. 2014 & Oct. 2015
Quantity	# of Households, Businesses, and Community Institutions Served by Broadband Grant Program	6,333	4,098 <sup>1</sup>	Feb. 2015 & Nov. 2015
Results	Percent of Minnesota Households with High Speed Broadband Access (based on previous 10Mbps/5Mbps state goal for 2015)	86.53%	87.54%	Oct. 2014 & Dec. 2015

---

Minn. Stat., Chap. 116J.39 (<https://www.revisor.mn.gov/statutes/?id=116J.39>) provides the legal authority for DEED's Broadband Development program.

---

<sup>1</sup> This number reflects a decrease in the amount of grant funding authorized for SFY 2016. It is based on \$11 million awarded in 2015 versus \$18.6 million awarded in 2014.

#### Narrative:

DEED receives funding from a variety of federal agencies including the Departments of Labor, Education, Health and Human Services, Housing and Urban Development, Social Security Administration, Environmental Protection Agency, and Small Business Administration. Federal funds represent a significant portion of DEED's budget, consisting of over 51% of expenditures in SFY16.

For planning purposes, it is assumed that federal award amounts for ongoing programs will remain fairly constant over the biennium. FTE counts are based on the estimated time charged against federal programs for SFY17.

In general, the Workforce Innovation and Opportunity Act took effect on July 1, 2015, the first full program year after enactment, unless otherwise noted. WIOA creates a streamlined workforce development system by eliminating 15 existing programs and maintaining the 15 percent funding reservation at the state level to allow states the flexibility to address specific needs. Resources to the Local Areas were reduced by approximately 5%, due to the national allocation methodology. An in-state, on-site assessment was conducted in July to addresses: How ready are we for WIOA implementation? What are the barriers to implementation? How does the system need to be adapted for WIOA implementation? Minnesota has state funding sources that align and support the purpose of WIOA and plays a strategic role in addressing the evolving landscape of workforce development.

The Small Business Development Center program requires a 1 to 1 match which is shared between the state and the grantees. The Small Cities Community Development Block Grant program requires a 1 to 1 match for administrative funds, after the first \$100,000 is paid. The Brownfields program requires a 22% match, which is provided by the loan recipients. The Minnesota Trade Office STEP program requires a .333% match.

The Basic Supported Employment program requires a 10% match; Basic Employment requires 21.3% match; Independent Living programs require a 10% match; Older Blind Support requires \$1 for every \$9 of Federal grant funding received. The MOE level on Basic Employment is based on the amount of the State's non-Federal expenditures under the program for the Federal fiscal year two years earlier.
