This proposal imposes a penalty for failing to provide records or documents that support items on a return when requested to do so in writing by the Department of Revenue. The penalty is the greater of \$500 or 25 percent of the additional tax resulting from the failure to provide the requested documents. The penalty would not be imposed if the failure to provide is due to reasonable cause.

This recommendation reduces the general fund operating budget and special revenue budget by 3 percent of unspent funds in FY 2010 and FY 2011. General fund reductions include 3 percent reductions to the Board of Teaching and Board of School Administrators, capturing early childhood carryforward balances, a reduction of 6.5 full-time equivalent positions, and a reduction in supplies and equipment. Special revenue reductions are a one-time transfer of carryforward funds to the general fund.

Operating Budget Reduction						
General	Expenditure		(138)	(220)	(220)	(220)
General	Transfer In		19	11	0	0

This recommendation reduces the general fund operating budget and special revenue fund by 3 percent of unspent funds in FY 2010 and FY 2011. General fund reductions will come from staff restructuring and elimination of 2.1 full-time equivalent positions. Special revenue reductions are a one-time transfer of carryforward funds to the general fund.

#### **Higher Education**

#### **Office of Higher Education**

#### Supplemental **Operating Budget Reduction** General Expenditure (64) (94) This proposal represents an approximately three percent operating reduction in the unspent funds remaining for the biennium. The reduction would be realized by eliminating one full time equivalent position through attrition or retirement, and a reduction in spending on employee development, supplies and software. This will likely result in a reduction in college readiness outreach activities, in person, in print and online to students and parents. **Grants and Other Program Reductions** General Expenditure (5,983)(555)

This proposal reduces OHE's unspent non-operating expenses by \$555,000 in FY 2010 and \$10.98 million in FY 2011. The largest reductions come from the State Grant Program (\$2.3 million), State Work Study (\$2.5 million) and Child Care grants (\$500,000). Other programs included in the reduction are the Minnesota College Savings Plan Matching Grants, MnLink Gateway and Minitex, United Family Practice and Intervention for College Attendance grants.

This proposal reduces the agency's operating budget in the state government special revenue fund by 3 percent of the unspent funds in FY 2010 and 3 percent of the operating budget in FY 2011. The savings amount shall be transferred to the general fund. The reductions and the transfer are one-time in the FY 2010-11 biennium. This reduction would result in limiting several operating expenses.

This is a 3 percent reduction to the department's unspent operating budget in FY 2010-11. Savings in the general fund is achieved through one-time shifts of activities to federal funding, and realigning and holding positions vacant. Savings in the health care access fund is achieved through hiring delays, shifting costs to federal funds, and reducing ongoing reporting activities. Savings in the state government special revenue fund is achieved by one-time delays in hiring. These changes result in the elimination of 3 full-time equivalents in the general fund, and 1.5 full-time equivalents in the health care access fund.

General

This proposal extends the Governor's FY 2011 general fund unallotment plan to FY 2012 and FY 2013 and makes it permanent. Of the reduction amount each year, \$16,240 is from multimedia program operations, \$30,000 annually is from environmental health and biomonitoring, \$14,740 annually is from administrative operations and \$38,020 annually is from water program operations.
