Community Supported Agriculture (CSA) farms are a popular production model. Benefiting both consumers and farmers, it's easy to see why! Consumers get fresh, healthy, local food directly from the farm. Farmers have a known market for their products, allowing them to focus on what they do best – growing food!

CSA farms come in many different shapes, sizes and styles. It's important to spend some time researching different farms to find the right fit for you. Each will vary in what they offer, how much it costs, delivery/pick up locations and the length of their season. Some farms even offer member-only perks, like a weekly newsletter about what's in the share or on farm work days/visits. Some farms offer egg, meat, poultry or even flower add-ons.

In general, a CSA farm will sell subscriptions/memberships to their farm in the late winter or early spring, before planting begins. Members will pay before the season starts and then receive a weekly share of produce during the growing season, around 14-20 weeks. Most farms will offer either full or half shares. Many individuals split their shares with other individuals/families – this is fine, but know that splitting up the goodies will be up to you, not the farm! Shares are either picked up at the farm or delivered to a designated drop site.

It's important to understand that a CSA membership involves a shared risk and reward with the farmer. You will share in the bounty of crops that do well, but also risk any crop failure. This is a great discussion for you to have with the farms of your choice.

Use this quick list to find a farm near you – but also keep in mind many CSA farms deliver to locations outside of their city. Our website also displays some of these farms drop sites. Head to [www.minnesotagrown.com](http://www.minnesotagrown.com), search by product for Community Supported Agriculture. Once you are on the initial results page, enter your city or zip code and select "show drop sites". Remember, this is only some of the drop sites for each farm. Don't hesitate to reach out directly to the farm for more information and to start the relationship with your farmer today!

# Fall Means Pumpkins

## Quick List

The number listed is the Farm Listing Number, not the page number.

As the most famous of all winter squashes, pumpkins and pumpkin patches are an essential part of having fun in Minnesota during the fall months. Let the kids explore and play in the fresh, open air. Lots of patches have PYO (pick your own) – so you can explore the field and teach your children how pumpkins grow. Most patches also offer pre-picked, so you can sort through the rows of pre-sorted pumpkins too. Pumpkins can be used for cooking, decorations and of course for making Jack-O-Lanterns! Check out our website, [www.minnesotagrown.com](http://www.minnesotagrown.com), for tips on how to pick out the perfect pumpkin for each use!

Browse through this quick list of pumpkin growers to find one near you and read their listing to find out what activities they offer. Buy Minnesota Grown pumpkins from one of our 139 growers this fall and ensure yourself a local pumpkin experience!

Minnesota is home to more than 600 vineyards and our Directory boasts 41 wineries! Minnesota wineries make the perfect day trip, weekend getaway or date-night activity. Some wineries are available for weddings, birthday dinners, retirement parties or other events. With Minnesota's beautiful landscapes, spring, summer and fall weather, and great tasting wines – it's no wonder why these wineries are great destinations and keep expanding!

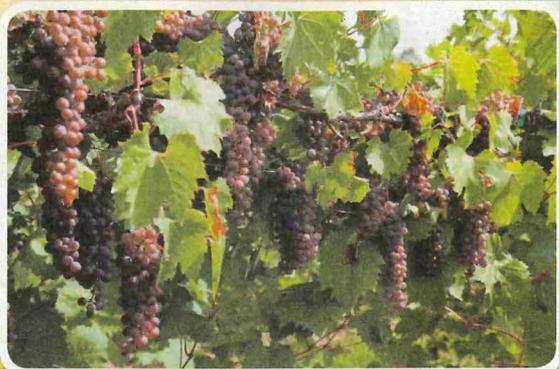

Much of the growth to Minnesota's wine industry can be attributed to the University of Minnesota, which is recognized for having one of the top wine grape programs in the United States. They have developed four outstanding cold-hardy wine grapes: Frontenac, Frontenac Gris, La Crescent & Marquette. With a state-of-the-art enology lab and research winery, the University of Minnesota is a valuable resource for an industry that has its sights set on continued growth!

## Frontenac

Frontenac has proven to be a very disease resistant, productive, and cold hardy red wine variety. Its deep garnet color complements its distinctive cherry aroma and inviting palate of blackberry, black currant, and plum. Frontenac have been used successfully for a variety of wine styles including dry or semi-dry table wines, rosé, and fortified, port-style wine.

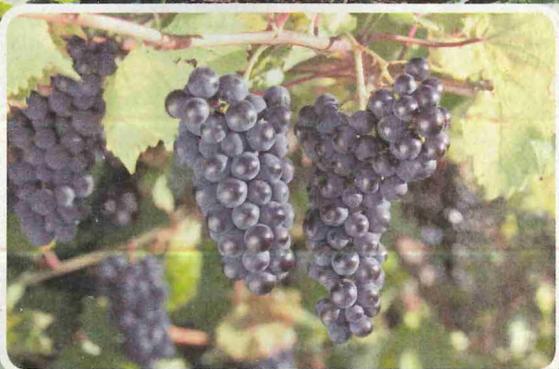

## Frontenac Gris

Frontenac gris is the white wine version of Frontenac. Wines are typically intensely fruity, exhibiting dominant peach and tropical fruit flavors, especially pineapple, and hints of honey. Its bronze skin lends color to the juice, which results in wines ranging from pale gold to rich amber. A brilliant balance of fruit and acidity creates lively, refreshing wines. Unique and complex flavors make this an excellent grape for table, dessert, and ice wines. Frontenac gris has also shown well as a dry to off-dry table wine.

## La Crescent

La Crescent's intense nose of apricot, peach, and citrus lends itself to superior quality off-dry or sweet white wines. Produced in a Germanic style, La Crescent wine is reminiscent of Vignoles or Riesling. With its lush aromatics and crisp acidity, La Crescent shows best as a semi-sweet to dessert white wine.

## Marquette

Marquette wines are complex, with attractive ruby color, pronounced tannins, and desirable notes of cherry, berry, black pepper, and spice on both nose and palate. As a red wine, Marquette is best when utilized as a medium-bodied red table wine and represents a new standard in cold hardy viticulture and enology.

Purchasing a real, locally grown Christmas tree is about more than just the tree; it's about the experience your family will have. Many Christmas tree farms provide a fun, festive and family-friendly atmosphere that everyone will remember for years to come. The rows of trees provide a beautiful nature backdrop for those candid pictures or your annual Christmas card photo. Many farms offer additional activities like wagon/sleigh rides, custom wreaths and some are even visited by Santa! Some farm locations let you warm up with cider and cookies while you browse the selection of gifts, decorations and wreaths.

## Three important tips for keeping your tree fresh!

- Always make a fresh cut! Remove a 1 inch thick disk from the bottom of your tree before you put it in your stand. This will help your tree to absorb water. This disk also makes a great ornament! Drill a hole in the top, run some ribbon or string through it. You can write something fun or let the children decorate it – just don't forget to add the year. Be sure to seal the disk before hanging on your tree, a clear lacquer works great.
- Use a stand that fits your tree! You'll want to avoid whittling the sides of the trunk to make it fit the stand. The outer layers of the wood help the tree to take up water efficiently.
- Check the water level! Trees tend to drink a lot of water in the first few days and then slow their intake. As a general rule, you'll want your stand to hold at least 1 gallon of water. Make sure you check the water levels daily.

## Maple Coffee Bean Parfait with Pumpkin Bar

**Yields 12 (6oz) Servings**

Spanky's Stone Hearth • Frazee, MN

### FOR THE PARFAIT

16 egg yolks  
2 C sugar  
16 oz coffee  
6 oz maple syrup  
1 C heavy cream  
2 oz confectioner's sugar  
chocolate covered coffee beans  
pinch of cocoa

In a medium saucepan, reduce coffee by 1/2 to make 8 oz concentrated coffee. Add sugar & boil for about 5 min. Separate egg yolks & place in a bowl. In a double boiler, whisk egg yolks & coffee/sugar mixture together for 7-10 min until a custard forms. Remove from heat & place in an ice bath, stirring occasionally. Whisk the heavy cream with the confectioner's sugar until small peaks form. Remove custard from the ice bath. Combine the cream/confectioner's sugar mixture & pure maple syrup, preferably Camp Aquila Maple Syrup, to the custard. Pour into martini glasses & freeze for 8 hrs.

### FOR THE BARS

1/2 C vegetable oil  
2 eggs  
1 C sugar  
1 can pumpkin  
1/2 t baking soda  
pinch of salt  
1 t baking powder  
1 t cinnamon  
1 C flour  
1/2 oz banana liqueur  
1/2 t allspice

Preheat oven to 350 degrees. In a mixing bowl, cream oil, eggs, & sugar together. Add remaining ingredients & mix. Pour batter into two 9" round cake pans. Bake for approximately 20 min. Cool completely. Frost with cream cheese frosting.

### CHEF JOSH'S WARNING

When assembling this dessert, take care not to fill up on chocolate covered coffee beans. They are quite addicting!

### FOR THE FROSTING

2 oz cream cheese  
3 T European butter (softened)  
1/2 t milk  
1/2 t vanilla  
1 C confectioner's sugar

Cream together frosting ingredients in a mixing bowl. Spread onto pumpkin bars. When ready to serve, cut bars into desired size & shape and arrange on top of parfait. Embellish with coffee beans & a pinch of cocoa.

Presentation suggestion:

Consider sprinkling granular sugar on top of the frosting & torching it to create a creme brulee look.

There are over 100 varieties grown in Minnesota! Common in many dishes, garlic is easy to cook with and has many health benefits.

*Do you know what garlic scapes are? They are the flower stalks of hardneck garlic. Most producers cut them off the plant, so the growing energy can be concentrated on the garlic itself. They are sometimes referred to as "green garlic" and can be eaten and used just like green onions. Call a Minnesota Grown garlic producer to find out more or reserve some garlic scapes now!*

## BELT (BLT with a Fried Egg)

**Yield: 1 sandwich**

Golden's of Lowertown • St. Paul, MN

### INGREDIENTS

5 slices Prairie Pride bacon

2 nice crisp center tears of locally grown, farmers market lettuce

2 slices juicy market tomatoes: Golden's recommends: Beefsteak, Brandywine, or Hothouse

1 organic, free-range egg

2 slices 12 Grain or Sourdough bread from St. Agnes Baking Co. in St. Paul

2 T mayonnaise

1 T salted butter

salt & pepper, to taste

Preheat oven to 400 degrees F. For crispy bacon, place bacon on wire cooling rack set on cookie sheet. Place in oven, & cook for 10 min or until crisp. For tender, juicy bacon, place bacon on foil-lined cookie sheet (make sure foil is folded up at sides to keep drippings locked in); bake approximately 10 min, depending on the thickness of the bacon & your preferred doneness. Fry egg sunny side up over low heat to allow assembly time.

### FOR ASSEMBLY

Toast bread, then butter one side of each slice (alternatively, you can butter bread first, then grill). Spread mayonnaise on non-buttered side of bread.

Place one slice of bread butter side down, then layer in this order: lettuce, bacon, tomato slices (sprinkled with salt and pepper, to taste), then sunny side egg. Place egg GENTLY on top so as not to break the yolk - this is the most delicious bite! Top everything with your second slice of bread, & enjoy.

# Rhubarb

Despite its typical uses and associations, rhubarb is actually a vegetable! It is one of the first vegetables available in the spring and its season runs through about June.

**IMPORTANT:** Rhubarb leaves can be poisonous because they contain a substance called oxalate. NEVER eat the leaves cooked or raw!

Green stalks with green flesh are very sour and are good for jams and jellies. Red stalks with green flesh are slightly tangy and less sour; they are good for cake fillings or cookie fillings. Red stalks with red flesh have a sweeter flavor or a slight raspberry flavor. This variety is good in fruit salads, or fruit tarts or pies. Generally, the deeper the red color, the sweeter the rhubarb will be!

Rhubarb is a great match with other Minnesota Grown products such as strawberries, raspberries, blueberries, apples, peaches, apricots, pears and raisins. Its flavor is enhanced by ginger, cinnamon, orange, lime and mint. Mix all of these wonderful items together and enjoy a terrific fresh fruit salad.

## Roasted Garlic Creme Brulee with Parmesan Biscotti

Yield: 6 servings

Four Daughter's Vineyard & Winery • Spring Valley, MN

### FOR ROASTED GARLIC

2 C garlic cloves, peeled 2 qt canola oil

In an oven proof dish, cover garlic cloves with oil & bake at 350 °F until garlic starts to brown. Cool & strain. (Save this garlic-infused oil for future use.)

### FOR BRULEE

3/4 C milk	1/2 t black pepper	1/2 t salt
1 3/4 C cream	4 egg yolks	sugar, for sprinkling
8 oz goat cheese	2 t sugar	

In a mini-blender, mix 3 T pureed roasted garlic with milk. In a saucepan, combine cream & garlic-flavored milk. Bring to a near boil. Turn off heat & immediately add goat cheese & black pepper. Keep stirring until goat cheese is fully incorporated. Strain dairy liquid through a fine mesh sieve. In a mixing bowl whisk egg yolks with sugar & salt until they become pale yellow. Combine dairy liquid with egg mixture by slowly adding a ladle of the dairy liquid at a time to prevent yolks from curdling. Strain one more time through a fine mesh sieve. Fill 6 ramekins with the custard. Place in a warm water bath in a deep baking pan - water should reach halfway up sides of ramekins (at least 1 1/2-inch high level of water). Loosely cover pan with aluminum foil; place in oven for 35 min. Open oven, remove aluminum foil, & continue cooking another 5 min. The texture should be a little jiggly but not liquid. Allow to cool. When serving, sprinkle sugar in each cup, then caramelize with a culinary torch. Serve immediately at room temperature.

# Raspberries

*A sweet and fruity member of the rose family, Minnesota raspberries have a reputation of being a healthy and delicious part of the season. Raspberries coming in a few colors, including the common red and also black, purple, and gold! Raspberries have been found to have anti-cancer effects, and contain antioxidants, vitamin C, and anti-inflammatory phytonutrients. The start of Minnesota's summer raspberry season usually falls between the start of strawberry season and blueberry season. Different varieties of raspberries ripen in the fall, closer to late Aug-early Sep.*

*This berry is delicate and should be handled carefully! Store your fresh berries in a shallow container as piling them in a deep container will cause them to deteriorate more quickly. If possible, store the berries unwashed, and wash right before eating. They will last three to five days in the refrigerator.*
