MARCH, 1987

REPORT #1

TRENDS IN AVERAGE DAILY MEMBERSHIP (ADM)

1983-84 THROUGH 1988-89

For each of the school years 1983-84 through 1988-89, this report shows each school district's total resident average daily membership (ADM) for pre-kindergarten pupils and pupils in kindergarten through grade 12. Average daily membership is the average number of pupils on the membership rolls of the school district throughout all the days of the school year. Thus, a pupil enrolled for the entire school year counts as 1 ADM, and a pupil enrolled for exactly half the year counts as 0.5 ADM. The resident ADM totals on this report include all district residents who are educated in their home district, plus residents who are educated in other districts or schools and for whom the home district pays tuition.

Data for the first three years (1983-84 through 1985-86) are actual ADM totals, as reported by school districts to the Department of Education. Data for the last three years (1986-87 through 1988-89) are projected ADM, based on projections provided by school districts to the Department of Education in the summer and fall of 1986. The Department made slight adjustments to the districts' projections.

The last column of the report shows the percent change in ADM from 1983-84 to 1988-89.

TRENDS IN AVERAGE DAILY MEMBERSHP (ADM)
1983-84 THROUGH 1988-89

#2 Trends in
Weighted ADI

EDUCATION INFORMATION NOTEBOOK
SENATE COUNSEL AND RESEARCH
MARCH, 1987

REPORT #2

TRENDS IN WEIGHTED AVERAGE DAILY

MEMBERSHIP (WADM); 1983-84 THROUGH 1986-87

For each of the school years 1983-84 through 1988-89, this report shows each school district's total weighted average daily membership (WADM), or actual pupil units. These weighted ADM totals are based on the ADM totals shown in Report #1. For a definition of ADM, see Report #1.

Weighted ADM is calculated by applying weighting factors to each district's ADM pupil counts. Each kindergarten ADM counts as 0.5 WADM; each elementary, pre-kindergarten handicapped, and kindergarten handicapped ADM counts as 1.0 WADM; and each secondary ADM counts as 1.4 WADM. Weighted ADM counts are used to calculate each district's entitlement for foundation aid and several other categories of aids and property tax levies.

As with Report #1, data for the first three years on this report (1983-84 through 1985-86) are actual weighted ADM counts, while data for the last three years are projections.

The last column on the report shows the percent change in weighted ADM from 1983-84 to 1988-89.

REPORT #3

SCHOOL DISTRICT EARC VALUES

(ADJUSTED ASSESSED VALUES), 1981 THROUGH 1985

This report shows each school district's EARC value, or adjusted assessed value, in thousands of dollars, for 1981 through 1985.

The EARC value is the assessed value of all taxable property in each school district, adjusted for differences in local assessment practices. Assessed values are determined by local assessors. The Department of Revenue then conducts "sales ratio studies" which examine the relationship between the true market value of property and the estimated market value assigned by local assessors. These sales ratio studies are used to calculate EARC values. (EARC stands for Equalization Aid Review Committee.)

EARC values are used in calculating school district property tax levies and state aid entitlements. For example, the 1985 EARC is used in determining levies for taxes payable in 1987, and state aid for the 1987-88 school year.

The last three columns on the report are defined below.

PCT. CHANGE - Percent change in EARC value from 1981 to 1985.

85 EARC PER P.U. - 1985 EARC divided by projected 1987-88 total pupil units, including actual pupil units (or weighted ADM) and AFDC pupil units.

85 EARC PER WADM - 1985 EARC divided by projected 1987-88 actual pupil units (or weighted ADM).

REPORT #4

SCHOOL DISTRICT UNAPPROPRIATED OPERATING FUND BALANCES

AS OF JUNE 30; 1983 THROUGH 1986

For each of the years 1983 through 1986, this report shows the unappropriated fund balance, as of June 30, in each district's operating funds (the general, food service, pupil transportation, and community service funds).

The first four columns show the fund balance for each year in thousands of dollars. The last four columns show the fund balance divided by the number of weighted ADM in the same year. For example, the far right column shows the fund balance on June 30, 1986, divided by 1985-86 weighted ADM. (For a definition of weighted ADM, see Report #2.)

#5 Referendum
Levy Revenue

EDUCATION INFORMATION NOTEBOOK
SENATE COUNSEL AND RESEARCH
MARCH, 1987

REPORT #5

DATA ON REFERENDUM LEVY REVENUE

1985-86 TO 1987-88

This report shows data on school district revenue from excess maintenance levies, or referendum levies, for the 1985-86, 1986-87, and 1987-88 school years. Referendum revenue for the 1987-88 school year is from the levy certified in 1986 and payable in 1987. The revenue data on this report include the certified referendum levies and taconite referendum aid.

The first three columns show referendum revenue in thousands of dollars.

The next three columns show referendum revenue per weighted ADM, or actual pupil units. (For a definition of weighted ADM, see Report #2.)

The last three columns show the tax rate of the referendum levy, in EARC mills. For example, the referendum mill rate for 1987-88 is calculated as one thousand times the referendum levy certified in 1986, divided by the 1985 EARC value. (For a definition of EARC values, see Report #3.)

#6 1986-87 Foundation
& Referendum Revenue

REPORT #6

ESTIMATED 1986-87 FOUNDATION AND
REFERENDUM REVENUE

This report provides estimates of each district's 1986-87 revenue from foundation aid and the corresponding tax levies and from the referendum levy. The estimates are based on all of the latest data available as of February 7, 1987. To find all of the data for a district, you must read across two facing pages. All revenue amounts on the report are shown in dollars per weighted ADM, or actual pupil units. (For a definition of weighted ADM, see Report #2.) The tax rates on the report are in EARC mills, based on the 1984 EARC value. (For a definition of EARC value, see Report #3.)

Following is a brief definition for each column of the report.

Left-hand page

1986-87 WTD. ADM - Projected 1986-87 weighted average daily membership, or actual pupil units.

BASIC - Basic foundation aid and levy, not including the portion of aid and levy that is attributable to AFDC pupil units. (This amount is \$1690 per WADM for all districts.)

AFDC - The portion of basic foundation aid and levy that is attributable to AFDC pupil units.

1ST TIER - Cost differential tier (or 1st tier) aid and levy.

2ND TIER - 2nd tier aid and levy.

3RD TIER - 3rd tier aid and levy.

4TH TIER - 4th tier aid and levy.

5TH TIER - 5th tier aid and levy.

DECL. P.U. - Declining pupil unit aid and levy.

Right-hand page

TOTAL FOUND. REV.:

AID - The state portion of total foundation revenue; equals the sum of the aid entitlements for basic foundation aid, tier aids, and declining pupil unit aid.

LEVY - The local portion of total foundation revenue; equals the sum of the levy limits for the basic foundation levy, tier levies, and declining pupil unit levy.

TOTAL REV. - Total foundation revenue per weighted ADM; equals the sum of all the separate revenue amounts shown on the left-hand page.

REFERENDUM REV.:

AID - Taconite referendum aid for the 1986-87 school year; only 19 districts qualify for this aid.

LEVY - The district's referendum levy certified in 1985, and payable in 1986.

TOTAL REV. - The sum of referendum aid and levy.

FOUND. + REF. REVENUE - The sum of total foundation revenue and referendum revenue.

EARC MILL RATES:

FOUNDATION - Mill rate for the total foundation levy.

REFERENDUM - Mill rate for the referendum levy.

FOUND. + REF. - Sum of the foundation and referendum mill rates.

#7 Foundation Revenue
83-84 to 87-88

EDUCATION INFORMATION NOTEBOOK
SENATE COUNSEL AND RESEARCH
MARCH, 1987

REPORT #7

TOTAL FOUNDATION REVENUE PER
WEIGHTED ADM; 1983-84 THROUGH 1987-88

This report shows each school district's total foundation revenue per weighted ADM, or actual pupil units, for each year from 1983-84 through 1987-88. (For a definition of weighted ADM, see Report #2.)

Foundation revenue includes the following components for the years indicated.

- Basic foundation aid and levy (all years)
- Grandfather, replacement, discretionary, and low fund balance aids and levies (1983-84 only)
- Tier aids and levies (1984-85 through 1987-88)
- Declining pupil unit aid and levy (1986-87 and 1987-88)

The data for 1983-84 through 1985-86 are based on actual weighted ADM and actual foundation revenue totals. The data for 1986-87 and 1987-88 are estimates, based on the best data currently available. For 1987-88, revenue was estimated based on current statutes (e.g., a formula allowance of \$1700 was assumed).

The report also shows each district's weighted ADM for 1983-84 and 1987-88. The last column shows the percent increase in foundation revenue per WADM, from 1983-84 to 1987-88.
