METROPOLITAN AIRPORTS COMMISSION

Chair: Daniel Boivin

Commissioners:

District A	Carl Crimmins
District B	Rick King
District C	Katie Clark Sieben
District D	Steve Cramer
District E	James Deal
District F	Michael Madigan
District G	Richard Ginsberg
District H	Ibrahim Mohamed
City of Minneapolis	Leili Fatehi
City of Saint Paul	Melvin Carter
Representing Greater Minnesota Area	Randy Schubring
	Patti Gartland
	Donald Monaco
	Dixie Hoard

The Chair and Commissioners collectively are an appointed body which governs the Metropolitan Airports Commission. The Commissioners are, in effect, the board of directors for this public corporation.

Executive Director/CEO: Brian Ryks

The Executive Director/CEO is appointed by and responsible to the Commissioners. He is responsible for transforming the Commissioners' policy guidance into practical results that benefit airport users, specifically, and the citizens of Minnesota, generally.

OFFICE OF EXECUTIVE DIRECTOR

May 21, 2018

To The Commissioners
of the Metropolitan Airports Commission
and to its Stakeholders:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Metropolitan Airports Commission, Minneapolis-St. Paul, Minnesota, for the fiscal years ended December 31, 2017 and 2016.

Management's Responsibility:
We, the management of the Metropolitan Airports Commission (Commission or MAC), are responsible for the accuracy of the reported data, for its completeness, and for the fairness of its presentation. To the best of our knowledge and belief, the data in the enclosed report are accurate in all material respects. We believe the report presents fairly the financial position, results of operations, and changes in net position and cash flows of the Commission in accordance with accounting principles generally accepted in the United States of America (GAAP). All disclosures necessary to help the reader understand the Commission's financial activities are included in the report.

To provide a reasonable basis to make the representations (above), we have established a comprehensive system of internal controls to ensure:

- Effectiveness and efficiency of operations
- Reliability of financial reporting
- Compliance with all applicable laws, regulations, contracts and grants

Because the cost of internal controls should not exceed their benefits, internal controls can provide only reasonable—not absolute—assurance that the MAC is achieving its objectives.

Independent Audit:
In accordance with Minnesota State Law, the Minnesota Office of the Legislative Auditor may conduct a financial audit of the MAC or allow this service to be contracted. In addition, the Legislative Auditor periodically conducts a separate audit to examine the Commission's compliance with applicable laws, policies and procedures.

For the years ended December 31, 2017 and 2016, the annual financial statements of the MAC have been audited by BKD, LLP, a firm of independent Certified Public Accountants. BKD's opinion on the financial statements is presented in this report.

Also, as part of the annual audit, BKD performs procedures in accordance with the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Finally, the auditors perform procedures in accordance with the *Passenger Facility Charge Audit Guide for Public Agencies* to audit the MAC's compliance with the FAA regulations in relation to passenger facility charge (PFC) revenues and expenses. The resulting reports are intended for the use of the MAC and the FAA and have not been included in this report.

LETTER OF TRANSMITTAL

Introductory Section

THE COMMISSION:

Purpose:
The Minnesota State Legislature created the MAC in 1943 as an independent public corporation. Its legislative Statute (Minnesota Laws, 1943, Chapter 500) charges the Commission to:

- Promote the public welfare and national security;
- Serve the public interest, convenience and necessity;
- Promote air navigation and transportation, (international, national and local);
- Increase air commerce and promote the efficient, safe and economical handling of such commerce; and,
- Develop the full potentialities of the metropolitan area as an aviation center.

With the growth of air commerce since 1943, the MAC has also assumed responsibilities to:

- Minimize the environmental impact from air navigation and transportation;
- Promote the overall goals of the state's environmental policies; and
- Minimize the public's exposure to noise and safety hazards around airports.

Powers:
As a *corporation,* the MAC has all the normal business rights and powers necessary to fulfill its mission to acquire, build and operate a system of airports. For example, the Commission can:

- Acquire and hold title to real estate;
- Enter into contracts and hire employees;
- Sue and be sued.

As a *public* corporation, the MAC has powers beyond those of a normal business. For example, the Commission can:

- Issue tax-exempt debt;
- Adopt ordinances, enforce them through its police powers, and acquire property through eminent domain;
- Levy taxes on real property in the Metropolitan Area for general obligation debt service or to meet operations and maintenance costs of airport facilities.

Notably, the Commission has <u>not</u> levied a local tax since 1969. Currently, the MAC has no need or intention to levy taxes. Rather, the Commission operates as an entirely self-funded organization similar to a private business.

Governance:
The MAC's governing board (Commission) consists of fifteen Commissioners who are appointed for fixed terms of office. The mayors of St. Paul and Minneapolis have permanent seats on the Commission but can appoint delegates to fill the positions. The Governor appoints the Chairperson and twelve Commissioners: eight from designated districts within the Metropolitan Area and four Commissioners to represent the Greater Minnesota Area (i.e., outside the Metropolitan Area). As the "board of directors" of the public corporation, the Commissioners represent the interests of the "owners" of the Commission, which is to say the Commissioners represent "the public's interest".

The Chairperson may be from anywhere in the State. Only the Chairperson can be removed before his or her term expires. Governor Mark Dayton appointed Mr. Daniel Boivin chair of the Commission in February 2011 and reappointed him in 2015. Prior to this, Boivin served as the mayor of Minneapolis' appointee to the board beginning in May 2002. As a MAC commissioner, Boivin chaired the Human Resources and Affirmative Action Committee.

In addition to serving as Chair of the Commission, he is an executive with Energy Management Collaborative, a national turnkey lighting solutions provider specializing in energy audits, lighting retrofits and maintenance services. Mr. Boivin served from 2008 to 2015 as the Executive Vice-President, Chief Legal Officer and General Counsel for SeeChange Health, a value-based health insurance and technology company. Previously, he served as attorney and partner with the Meshbesher & Spence law firm. Mr. Boivin served as the chair of the Minnesota Bar Association Civil Litigation Section, and has provided pro bono legal representation and acted as a volunteer judge for the Minnesota State High School Mock Trial Tournament. He is a graduate of the University of Wisconsin-Madison and Hamline Law School.

The board appoints the Executive Director/CEO who serves at the pleasure of the Commission and is the “chief executive” of the MAC. The Executive Director/CEO is accountable for meeting all the Commission’s expectations for organizational performance.

Brian D. Ryks was appointed Executive Director/Chief Executive Officer of the Commission in May 2016. Prior to this appointment, he was the Executive Director/CEO of the Gerald R. Ford International Airport in Grand Rapids, Michigan. Between 2002 and 2012, Mr. Ryks was the Executive Director at the Duluth Airport Authority overseeing the Duluth International Airport and Sky Harbor Airport, a general aviation airport, both located in Duluth, Minnesota. During his ten years in Duluth, he oversaw the completion of $135 million in airport improvements, culminating with a $77 million new terminal project. Prior to arriving in Duluth, Mr. Ryks was employed for five years as the Airport Manager at St. Cloud Regional Airport (1997-2002) and two years as the Airport Manager in Aberdeen, South Dakota (1996-1997). Mr. Ryks spent six years in Denver as the Manager of Noise Abatement at Stapleton and Denver International Airports (1990-1996). He also was the Project Manager for the development and installation of an Airport Noise and Operations Monitoring System at the Denver International Airport. He began his career as a Noise Technician at the Commission in 1986. Mr. Ryks holds a Bachelor of Arts degree from St. Cloud State University, is a licensed pilot with an instrument rating and is also an Accredited Airport Executive with the American Association of Airport Executives (“AAAE”). He currently serves on the Board of Directors for Airports Council International (“ACI”). He also holds a professional affiliation with the Great Lakes Chapter of AAAE (“GL-AAAE”) and is Past President of GL-AAAE.

Jurisdiction and Facilities:
The Commission’s geographic jurisdiction extends throughout the Minneapolis-St. Paul Metropolitan Area radiating 35 miles from Minneapolis’ and St. Paul’s city halls. It encompasses Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington Counties.

The Commission owns and operates seven airports in the Metropolitan Area. Minneapolis-St. Paul International Airport (MSP) serves as the primary air carrier facility. MSP is one of the highest activity airports in the United States: it is the 16th largest among U.S. airports based on the number of operations (takeoffs or landings) and 17th largest based on passenger volume. The following reliever airports complement MSP to serve general aviation needs:

St. Paul Downtown Airport	Airlake Airport	Anoka County/Blaine Airport
Crystal Airport	Flying Cloud Airport	Lake Elmo Airport

- Airlake, Anoka County/Blaine, Crystal, Flying Cloud, and Lake Elmo are classified as minor use airports.
- Control towers are operational at St. Paul, Crystal, Anoka County/Blaine and Flying Cloud Airports.
- The St. Paul Downtown Airport serves as the primary corporate reliever and is classified as an intermediate airport.

The Commission provides a variety of services at each of its airports. At MSP, the Commission is responsible for providing buildings and facilities for air carrier activity as well as police, fire protection, maintenance, administrative and planning services, and other related services and facilities that are deemed to be necessary.

SIGNIFICANT ACCOUNTING AND BUDGETING CONVENTIONS:

The Commission is a stand-alone unit of government and operates as a self-supporting business. Therefore, the net position reported in the Commission's financial statements measure "total economic resources" (as opposed to the "current financial resources" focus employed by general-purpose governments). Consistent with its measurement focus, the MAC accounts for transactions on the full accrual basis in which revenues and expenses are recognized when they are incurred regardless of the timing of related cash receipts or disbursements. All of the Commission's financial activities are organized and accounted for within one "enterprise fund", which includes "accounts" for operations, debt service and capital investment.

As is the case at most governments and businesses, the budget is a critically important management tool for the MAC. The process of identifying and funding priorities begins in April of each year and concludes in December with formal adoption of the budget by the Commissioners. Managers review their budgets continuously and adjust for changing business conditions. The board of Commissioners reviews budget variance reports monthly throughout the year.

Because it is a public entity and has the authority to levy taxes (even though it does not exercise this authority), the MAC is required by State Statute (Ch. 275) to publicly adopt its budget. However, the MAC's budget is not legally appropriated. Because the budget is not legally appropriated, budgetary data are not included in the MAC's basic financial statements.

ACTIVITY HIGHLIGHTS

MSP is classified by the FAA to be one of the large hub airports in the United States. According to Airports Council International (ACI) statistics, in calendar year 2016, MSP was the 17th busiest airport in the United States in terms of passenger volume, 16th in terms of takeoffs and landings and 27th in cargo traffic.

In 2017, a new record of approximately 38,000,000 passengers passed through MSP; a 1.3% increase in total passengers over 2016 levels. The top five carriers serving MSP in 2017 by enplaned passengers are shown in the accompanying table. Enplaned revenue passengers (including those connecting) at MSP in 2017 totaled 18,385,154. (Totals may differ from the passenger statistics reported by the air carriers to the Department of Transportation).

	Carrier	Total Enplaned Revenue Passengers	% of Total Enplaned Revenue Passengers
1	Delta	9,787,444	53.2%
2	Skywest	1,706,393	9.3%
3	Sun County	1,213,114	6.6%
4	Southwest	1,028,051	5.6%
5	American	1,027,450	5.6%
		14,762,452	80.3%

Skywest is a codeshare with Delta.

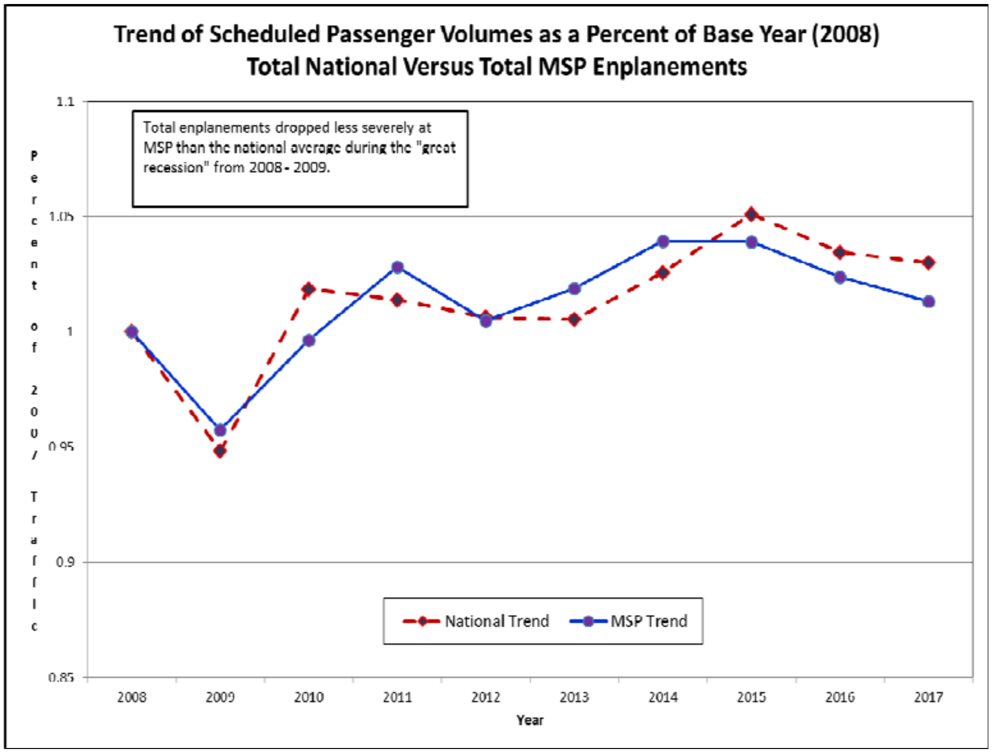
FACTORS AFFECTING THE MAC's FINANCIAL CONDITION:

Demand for Air Transportation

The Aircraft Aerodynamics and Design Group at Stanford University note that the role of air transport "… is central to the globalization taking place in many other industries." Air transport is riding the long-term trend of globalization because it facilitates economic growth, world trade, investment and tourism.

However, the air transportation industry and, specifically, the air travel segment of the industry, are highly sensitive to the general level of economic output. Demand for air travel is highly elastic primarily due to its vulnerability to substitutes like bus, train, or automobile travel—or, the choice not to travel at all.

External events can significantly affect the supply and demand for airline services; events such as the 9/11 terror attacks and the large increase in petroleum (and, therefore, jet fuel) prices between 2005 and mid-2008 and the "great recession" that began in 2008. The accompanying chart of Bureau of Transportation Statistics (BTS) data on airline passengers paints a picture of the industry's volatility.



<u>Demand for Origination and Destination Traffic (O&D) at MSP</u>**:**

A number of regional economic factors create strong demand for travel air traffic to and from the Twin Cities metropolitan area.

- <u>Size:</u> Minnesota is the 22st most populous State in the U.S. The Twin Cities metropolitan area is the 16th most populous metropolitan area in the nation.

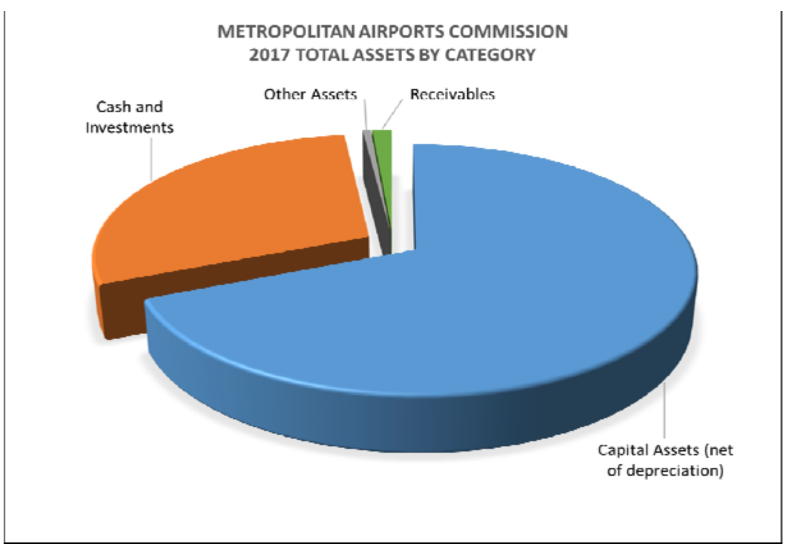
- Economic Strength and Diversity:
  - ✓ Minnesota is headquarters to 18 Fortune 500 companies, which places it tenth among the 50 States in terms of numbers of Fortune 500 firms headquartered within the State on a per-capita basis.
  - ✓ Minnesota is headquarters to 8 of the 223 largest private companies including the largest privately held company in the United States: the Cargill Corporation.
  - ✓ Minneapolis Metropolitan Statistical Area has the seventh largest concentration of Fortune 500 company headquarters among cities in the United States, and is first among the 30 largest metropolitan areas on a per-capita basis.

- High per capita income:
  - ✓ The Bureau of Economic Analysis reports that the Twin Cities average per capita income is approximately 15% higher than the national average.

- Stronger than National Average Growth in Population and Employment:
  - ✓ The Metropolitan Council, a regional planning organization for the eleven-county area including the Twin Cities, projects average annual population growth of 1.0% through 2040 versus the Census Bureau's projected national population growth rate of 0.7%.
  - ✓ The Metropolitan Council foresees a 1.1% annual average growth rate for Twin Cities area employment growth through 2040 versus the Bureau of Labor Statistics' projected growth in national employment of 1.0%.

Demand for Connecting Traffic:

Traffic at MSP is split 60/40 between O&D and connecting traffic. The strong demand for O&D traffic from MSP can be leveraged by tenant airlines to fill their planes by scheduling connecting flights through the airport. Historically, MSP was the "home-town" hub for the former Northwest Airlines, which had its headquarters in Eagan, Minnesota. After the merger of Northwest and Delta, the headquarters of the combined company was located in Atlanta. Although no longer the home-town company, Delta has made significant commitments to MSP. For example, Delta elected to extend its airline lease agreement with the MAC through December 31, 2020. In addition, Delta made a significant commitment to MSP in signing a "hub covenant". In its hub covenant, Delta agreed to maintain an annual average of 400 daily departing flights from MSP, at least 250 of which must be aircraft with greater than 70 seats and that a minimum of 30% of enplaned passengers must be connecting.



Supplying the Demand:

Airports are "landlords"—they build, own, maintain, and rent facilities and related services. Because an airport's main job is to provide runways, terminals, etc., it is a capital-intensive business. The MAC's statement of net position is dominated by capital assets which, at approximately $2,600,000,000 (net of depreciation), represent more than two-thirds of the Commission's total assets. Constructing, maintaining, and improving our capital assets is critical to meeting the demand of our customers.

During 2017, the Commission expended $254,000,000 on its on-going Capital Improvement Program (CIP). Approximately $5,000,000 was associated with various airfield and runway projects. Approximately $119,000,000 was related to Terminal 1-Lindbergh projects. Projects at Terminal 1-Lindbergh include vertical circulation improvements, Concourse A to G connector improvements, and HVAC/AHU replacements. Approximately $116,000,000 was mainly spent on site preparation, roadway work and buildings for a new parking ramp at Terminal 1-Lindbergh, with the remaining spent on other various landside/parking projects. Approximately $10,000,000 was spent on the Commission's reliever airport system. The remaining $4,000,000 was spent primarily for noise mitigation and other building improvements. Average monthly capital spending in 2017 was approximately $21,200,000.

The 2018 -19 CIP includes approximately $454,925,000 of planned projects, as set forth in the accompanying table. CIPs are revised from time to time and additional projects could be added to the 2018 -19 CIP.

Projects 2018 - 2019	2018 planned construction	2019 planned construction
Terminal-1 Rehabilitation & Repair	$58,305,000	$40,620,000
Terminal-1 Tenant Projects	22,700,000	6,400,000
Terminal-1 Expansion/Remodeling	92,100,000	91,600,000
Hangers and Other Buildings	7,500,000	9,700,000
Energy Management Center	2,500,000	1,500,000
Environmental	1,500,000	1,800,000
Parking Facilities	3,300,000	20,850,000
Airfield and Runway Rehabilitation Program	10,900,000	15,250,000
Terminal-2 Flooring and Automated Security		4,700,000
Consolidated Loading Dock Facility	10,000,000	
Noise Mitigation Program	6,500,000	11,500,000
Police & Fire	7,200,000	3,500,000
Reliever Airports Program	5,600,000	18,400,000
Other	600,000	400,000
Total	$228,705,000	$226,220,000

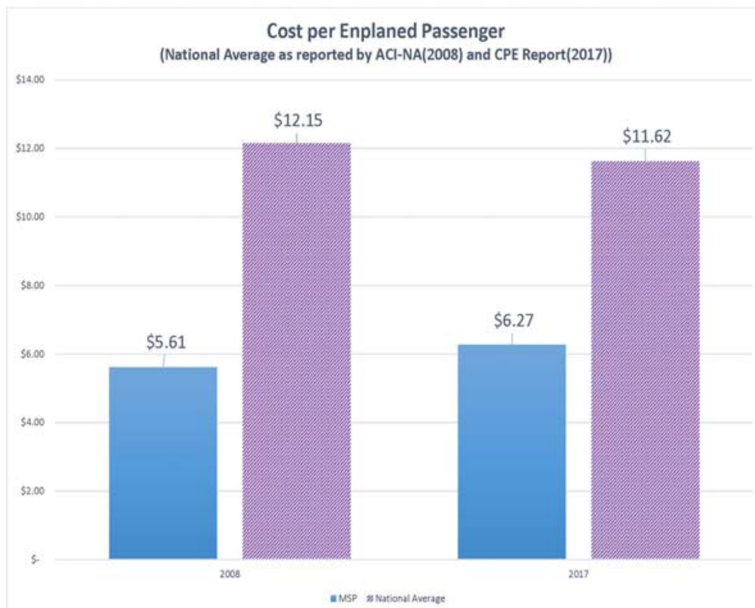
Financing the Supply

Capital grants, PFC's and long-term debt are the principal sources of funding of the Capital Improvement Program. Like a home mortgage, long-term debt bridges the difference between the time when cash is needed (up front) to pay for large capital outlays and the time the Commission collects its revenues. The MAC repays its debts over time through annual revenues. The Commission's principal revenues include use charges to the airlines, concession fees from vendors in the terminal buildings, facility rentals, and the sale of utilities.

Under its Master Indenture, the MAC has promised to maintain a debt service coverage ratio of 1.25 times the following year's scheduled payments. In July 2008, the Board of Commissioners directed that the MAC increase its debt service coverage above the contractual obligation to 1.4 times annual debt service for its Senior General Obligation Revenue Bonds (GORBs) and Senior General Airport Revenue Bonds (GARBs)—(see Note F to the financial statements). The MAC exceeded the July 2008 requirement. As of December 31, 2017, projected debt coverage on Senior Debt obligations is approximately 4.8 times scheduled payments.

At year-end 2017, the MAC had long-term debt (including the currently payable portion) of approximately $1,600,000,000 supporting approximately $2,600,000,000 of capital assets as discussed above (also see notes E and F to the financial statements). Despite its significant debt, the MAC is highly liquid. Also at year-end 2017, the MAC had cash and investments totaling more than $1,100,000,000 and has continued to maintain strong debt service coverage ratios (currently at 4.8). The MAC's conservative financial practices have been rewarded with AA- debt rating on its senior debt (the second highest rating given to any airport debt) by both the Standard and Poor's and Fitch rating agencies. High bond ratings reduce borrowing costs to the MAC and, therefore, help moderate the cost per enplaned passenger incurred by the airlines operating at MSP. In addition, high bond ratings ensure access to capital markets. Access to capital ensures that customers can depend on finding the high quality runways, terminals and other capital assets at the MAC's airports in good repair.

Because of the Commission's conservative financial practices, the cost to airlines of enplaning passengers at MSP is significantly lower than the national average. Because of inconsistencies in methods of calculating the cost per enplanement, it is difficult to have fully comparable statistics. However, recently reported comparative data from a S&P Global Ratings report shows the cost to airlines of enplaning passengers at MSP to be significantly cheaper than the national average of large hub airports. This makes MSP a profitable venue for client airlines.



The MAC board, management and employees are guided by our Strategic Plan to provide the highest quality facilities at the lowest life-cycle cost for the benefit of our customers. The MAC and its airports are well positioned to meet the demands of airlines and air-travelers for safe, efficient and reliable facilities for years to come.

MANAGEMENT'S DISCUSSION AND ANALYSIS:

Management is required by GAAP to provide a narrative introductory overview and analysis in the form of a "Management's Discussion and Analysis" (MD&A) to accompany the financial statements. The MD&A follows the independent auditor's report. The MD&A has greater scope, more detail, and is a more substantive discussion of issues mentioned in this transmittal. Users of the financial statements should read the MD&A in conjunction with this letter.

AWARDS:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the MAC for its Comprehensive Annual Financial Report for the year ended December 31, 2016. The Commission has received this prestigious GFOA award for 32 consecutive years.

In order to be awarded a Certificate, which is valid for one year, a governmental unit must publish an easily readable and efficiently organized report, the contents of which conform to the program's standards. Such report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Commission also received for the 32nd consecutive year the GFOA Award for Distinguished Budget Presentation for its Annual Operating Budget for 2017. In order to qualify for the Distinguished Budget Presentation, the Commission's budget document was judged to be proficient in several categories, including policy documentation, financial planning and organization.

ACKNOWLEDGEMENTS:

We wish to convey our sincere appreciation to the many MAC employees from all of its departments who participate in the Commission's fiscal management on a daily basis and have contributed to the financial results reported in the following financial statements.

In addition, we would like to express our appreciation for the leadership and support of the Board of Commissioners and for their sincere interest in operating the MAC in a sound financial manner.

Respectfully,

Respectfully,

Independent Auditor's Report

To the Members of the Commission
Minneapolis/St. Paul Metropolitan Airports Commission
Minneapolis, Minnesota

We have audited the accompanying financial statements of the Minneapolis/St. Paul Metropolitan Airports Commission (Commission), as of and for the years ended December 31, 2017 and 2016, and the related notes to financial statements, which collectively comprise the Commission's basic financial statement as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Minneapolis/St. Paul Metropolitan Airports Commission as of December 31, 2017 and 2016, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other postemployment information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's basic financial statements. The Introductory and Statistical Sections, as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

BKD, LLP

Indianapolis, Indiana
May 21, 2018

Financial Section

The following management's discussion and analysis of the financial performance and activity of the Minneapolis/St. Paul Metropolitan Airports Commission (Commission or MAC) is to provide an introduction and understanding of the basic financial statements of the Commission for the year ended December 31, 2017 with selected comparative information for the years ended December 31, 2016 and 2015. This discussion has been prepared by management and should be read in conjunction with the audited financial statements and the notes thereto, which follow this section.

USING THE FINANCIAL STATEMENTS

The MAC's financial report includes three financial statements: the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, as promulgated by the Governmental Accounting Standards Board (GASB).

FINANCIAL HIGHLIGHTS

General
The Commission has entered into, and receives payment under, agreements with various air carriers and other parties, including the airline lease agreements relating to landing fees and the leasing of space in terminal buildings, other building leases regarding the leasing of cargo and miscellaneous hangar facilities, concession agreements relating to sale of goods and services at the airport and specific project leases relating to the construction of buildings and facilities for specific tenants. Below is a brief description of each agreement along with the revenue generated in 2017.

Airline Lease Agreements
The airline lease agreements relate to the use of the airport for air carrier operations, the leasing of space within the terminal buildings of the airport, ramp fees for parking aircraft at the Lindbergh Terminal and the establishment of landing fees. Except for rental amounts based primarily upon the square feet rented, the terms, conditions and provisions of each airline lease agreement are substantially the same.

In the airline lease agreements, the Commission has leased to each particular air carrier a certain specified square footage portion of the terminal area in the airport. Annual rents are computed on the basis of various charges per square foot for various types of space within the existing terminal area and, in certain cases, the costs of certain improvements of the existing terminal area. The airline lease agreements also provide that each air carrier is required to pay a basic landing fee. The landing fee is calculated by dividing the cost of operations, maintenance and debt service at the airfield by total landed weight of aircraft utilizing the airport. The airline lease agreements also require each air carrier leasing gate space at Lindbergh Terminal (Terminal 1) to pay an aircraft parking ramp fee that is computed on a lineal foot basis. The ramp fee includes the cost of operations, maintenance and debt service to the ramp area surrounding the terminal building gates.

The airline lease agreement also provides that food and beverage, merchandise and auto-rental annual gross concession revenues to the Commission ("Selected Concession Revenues") will be shared with the Passenger Signatory Airlines (allocated among the Passenger Signatory Airlines based upon their proportionate share of enplanements at the Airport for the applicable fiscal year) under the following schedule (the "Shared Concession Revenues"):

Selected Concession Revenues	Percent Shared with Passenger Signatory Airlines
Greater than $46,007,111	25% up to $59,441,187 and 50% for amounts above $59,441,187
$42,481,340 to $46,007,111	20%
$40,862,628 to $42,481,339	15%
$39,243,915 to $40,862,627	10%
$37,625,202 to $39,243,914	5%

The Passenger Signatory Airlines are also entitled to Supplemental Revenue Sharing equal to an additional 25% of Selected Concession Revenues above $34,272,000 but below $59,441,187 if enplaned passengers exceed 17,716,500. Selected Concession Revenues were $48,831,314 and enplaned passengers exceeded 17,716,500 for fiscal year 2017, resulting in total Shared Concession Revenue of $17,080,131, of which $4,256,066 was Supplemental Revenue Sharing. The Selected Concession Revenues thresholds are subject to change annually.

The total amount of Shared Concession Revenues will be structured as a credit against the rates and charges in the current year, payable to the Passenger Signatory Airlines in the subsequent fiscal year. Notwithstanding the above schedule, the amount of Shared Selected Concession Revenues will be reduced to the extent necessary so that Net Revenues, after subtracting the Shared Concession Revenues, will not be less than 1.25 times the total annual debt service on Senior Bonds, Subordinate Obligations, and other debt obligations of the Commission. In the event that the Shared Concession Revenues are reduced in any year, such reduction will be deferred until the next fiscal year and will be credited against the rates and charges payable by the Passenger Signatory Airlines in the next fiscal year to the extent that Net Revenues, after subtracting the applicable Shared Concession Revenues, are not less than 1.25 times the total annual debt service on Senior Bonds, Subordinate Obligations, and other debt obligations of the Commission.

For the years ended December 31, 2017 and 2016, the aggregate rentals earned by the Commission pursuant to the airline lease agreements were approximately $101,139,000 and $100,340,000, respectively. The annual rentals due under each lease may be adjusted each year to reflect actual costs of the airport.

Other Building and Miscellaneous Leases

The other building and miscellaneous leases relate to rentals and other fees associated with the Hubert H. Humphrey Terminal (Terminal 2), miscellaneous hangar facilities, and office rentals for non-airline tenants in Terminal 1. For the years ended December 31, 2017 and 2016, the aggregate annual rentals under these leases were approximately $33,292,000 and $30,038,000, respectively.

Specific Project Leases

The Commission has constructed various buildings and facilities for specific tenants. If bonds were issued by the Commission to finance the construction of a facility, the lessee is required to pay annual lease payments equal to the debt service requirements on the bonds issued to construct the facility, due in the following year. The lease remains in effect until the total debt service on the bonds has been paid. If, on the other hand, the construction of a facility is financed from funds the Commission has on hand, the lessee is required to make lease payments equal to the debt service requirements which would have been required if bond funds were used.

For the years ended December 31, 2017 and 2016, the aggregate lease rentals paid to the Commission under specific project leases was approximately $8,394,000 and $8,488,000, respectively.

Concession Agreements

The Commission has entered into concession agreements with various firms to operate concessions inside the terminal building at the airport including, among others, food and beverage services, newsstands, advertising, vending, insurance, and personal service shops. For the years ended December 31, 2017 and 2016, the aggregate fees earned by the Commission under the existing concession agreements were approximately $40,443,000 and $36,298,000, respectively. Such fees are computed on the basis of different percentages of gross sales for the various types of concessions, with the larger concessions guaranteeing a minimum payment each year.

Concession agreements for rental car agencies require such concessionaires to pay fees based on a percentage of their gross revenues and special charges such as parking fees, customer facility charge, and a per-square-foot land rental. The Commission also has a management contract with a firm for the operation of the airport parking lot and garage facilities. For the years ended December 31, 2017 and 2016, the aggregate fees earned by the Commission under the existing rental car agreements and parking lot and garage facilities were approximately $137,340,000 and $134,213,000, respectively. Of this amount, parking revenue was approximately $95,231,000 for 2017 and $91,235,000 for 2016. Auto rental revenue for both on and off airport auto rentals for December 31, 2017 and 2016 was approximately $42,109,000 and $42,978,000, respectively.

Reliever Airports

The Commission has entered into various other leases and agreements with tenants at its reliever airport system. These reliever airport tenant leases include fuel flowage fees, hangar rentals, storage lots, commercial fees and other miscellaneous amounts. For the years ended December 31, 2017 and 2016, revenues from these agreements were approximately $7,882,000 and $7,759,000, respectively.

Miscellaneous Off-Airport Concession Leases and Ground Transportation Fees

The Commission has entered into certain leases with off-airport concessionaires that provide off-airport advertising and auto services. Additionally, the Commission charges fees for employee parking, permits and licenses to operate shuttles, vans, buses and taxis at the airport. Such fees are set by Commission ordinances. In 2016, the Commission allowed Transportation Network Companies (TNC) to operate at the airport. For the year ended December 31, 2017 and 2016, the Commission earned $16,218,000 and $12,105,000, respectively.

Utilities

The Commission has entered into certain leases with tenants the provide utilities to the leased spaces throughout the terminal. For the years ended December 31, 2017 and 2016, the revenues from these utility charges were approximately $5,343,000 and $4,334,000, respectively.

Miscellaneous Revenues
In addition to the above agreements, the Commission enters into various other leases and agreements. These include ground space rentals, office rentals for commuter airlines and concessionaires, commuter and general aviation fees, and other miscellaneous amounts. For the years ended December 31, 2017 and 2016, the revenues from these agreements were approximately $12,287,000 and $13,847,000, respectively.

Operating Revenues
Operating revenues for the MAC are derived entirely from user fees that are established for various services and facilities that are provided at Commission airports. While the Commission has the power to levy taxes to support its operations, it has adopted policies to provide adequate revenues for the system to operate since 1969 without general tax support. Revenue sources have been grouped into the following categories in the Statements of Revenues, Expenses and Changes in Net Position:

Airline Rates & Charges	-	Revenue from landing and ramp fees and terminal building rates
Concessions	-	Revenue from food and beverage sales, merchandise sales, auto parking, etc.
Other Revenues:		
Rentals/fees	-	Fees for building rentals
Utilities and other revenues	-	Charges for tenants use of ground power, water and sewer, and other services provided by the MAC

For the fiscal years ended December 31, 2017 and 2016, the top ten operating revenue sources for the MAC were as follows:

Top Ten Operating Revenue Sources:

	Source	2017 Revenue	
1.	Parking	$ 95,231,435	
2.	Landing fees	62,624,007	
3.	General Building	44,449,261	
4.	Other Building Rent	25,788,486	
5.	Food & Beverage	23,136,949	
6.	Auto rental (off- and on-airport)	20,584,230	*
7.	Ground Rent	10,886,646	
8.	Ground transportation fees	10,322,990	
9.	News and Retail Stores	10,170,400	
10.	Ramp Fees	7,136,821	

*Excludes customer facility charges.

	Source	2016 Revenue	
1.	Parking	$ 91,234,678	
2.	Landing fees	60,391,447	
3.	General Building	46,176,169	
4.	Other Building Rent	23,595,543	
5.	Auto rental (off- and on-airport)	21,053,414	*
6.	Food & Beverage	21,043,955	
7.	Ground Rent	9,699,338	
8.	News and Retail Stores	8,701,273	
9.	Ramp Fees	7,407,993	
10.	Ground transportation fees	6,730,336	

*Excludes customer facility charges.

The top ten revenue providers for 2017 for the MAC were as follows:

Top Ten Operating Revenue Providers

1. Delta Airlines
2. Enterprise
3. Hertz
4. HMS Host
5. Sun Country
6. Avis
7. American
8. Southwest
9. United
10. Delaware North

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

During 2017, the MAC's total revenues and capital contributions increased by 1.1% to $435,532,000 from $430,785,000 in 2016. Changes in major categories follow (dollars in thousands):

	2017	% of Total	2016	% of Total	Dollar Change	Percent Change
Operating revenues						
Airline rates and charges	$ 113,056	26.0%	$ 112,653	26.2%	$ 403	0.4%
Concessions	172,476	39.6%	160,691	37.2%	11,785	7.3%
Rentals/fees	49,970	11.5%	48,473	11.3%	1,497	3.1%
Utilities and other revenues	18,442	4.2%	17,115	4.0%	1,327	7.8%
Total operating revenues	353,944		338,932		15,012	
Nonoperating revenues						
Investment income	12,306	2.8%	12,634	2.9%	(328)	-2.6%
Solar panel financing rebate	978	0.2%	914	0.2%	64	7.0%
Gain (loss) on disposal of assets	(6,513)	-1.5%	2,029	0.5%	(8,542)	-421.0%
Passenger facility charges	73,390	16.9%	72,273	16.8%	1,117	1.5%
Total nonoperating revenues	80,161		87,850		(7,689)	
Capital contributions and grants	1,427	0.3%	4,003	0.9%	(2,576)	-64.4%
Total revenues and capital contributions	$ 435,532	100.0%	$ 430,785	100%	$ 4,747	1.1%

Concessions increased by 7.3% or $11,785,000. The majority of the increase is in the public parking and ground transportation categories. Food and Beverage increases (approximately $2.1 million) can be attributed to the increase in passenger traffic and the opening of many new concessions. A rate increase in parking accounted for approximately $4.0 million of the increase in the concessions category. The remaining increase was in the Ground Transportation category. Ground Transportation primarily increased approximately $3.6 million due to the growth of Transportation Network Companies (TNC) activity, which started in 2016.

Rental fees increased by $1,497,000 or 3.1%. This is primarily a result of new ground rental rates for non-airline tenants implemented in 2017.

Utilities and other revenues increased by 7.8% or $1,327,000 primarily due to the increase in consortium fees from an increase in the lease rate and the increase in food and beverage sales.

The loss on sale of assets of $6,513,000 in 2017 was primarily due to the sale of several parcels of land near MSP.

Capital contributions and grants represent grants received from both federal and state governments for various construction projects at both MSP and the reliever airports. The decrease in 2017 comes primarily from a decrease in federal grants for baggage screening projects.

During 2016, the MAC's total revenues and capital contributions increased by 7.0% to $430,785,000 from $402,478,000 in 2015. Changes in major categories follow (dollars in thousands):

	2016	% of Total	2015	% of Total	Dollar Change	Percent Change
Operating revenues						
Airline rates and charges	$ 112,653	26.2%	$ 107,805	26.8%	$ 4,848	4.5%
Concessions	160,691	37.2%	146,893	36.6%	13,798	9.4%
Rentals/fees	48,473	11.3%	36,086	9.0%	12,387	34.3%
Utilities and other revenues	17,115	4.0%	16,637	4.1%	478	2.9%
Total operating revenues	338,932		307,421		31,511	
Nonoperating revenues						
Investment income	12,634	2.9%	9,241	2.3%	3,393	36.7%
Solar panel financing rebate	914	0.2%	599	0.1%	315	52.6%
Gain on disposal of assets	2,029	0.5%	60	0.0%	1,969	3281.7%
Passenger facility charges	72,273	16.8%	70,471	17.5%	1,802	2.6%
Total operating revenues	87,850		80,371		7,479	
Capital contributions and grants	4,003	0.9%	14,686	3.6%	(10,683)	-72.7%
Total revenues and capital contributions	$ 430,785	100%	$ 402,478	100%	$ 28,307	7.0%

Airline rates and charges increased $4,848,000 or 4.5% from 2016 levels. A majority of the revenue derived from the airline rates and charges category is based on the amount of expenses incurred in certain cost centers. The increase related primarily to higher debt service costs and the additional costs related to MAC regaining responsibility for the G Concourse in 2016, partially offset by an increase in the amount of concessions shared with the airlines.

Concessions increased by 9.4% or $13,798,000. The majority of the increase is in the public parking categories. Food and Beverage increases (approximately $4.2 million) can be attributed to the addition of the G Concourse concession program, passenger growth, and increase spending on a per passenger basis. Higher volume and longer lengths of stay in parking accounted for approximately $3.7 million of the increase in the concessions category. The remaining increase was in the Ground Transportation and Auto Rental categories. Ground Transportation primarily increased approximately $1.9 million due to the addition of Transportation Network Companies (TNC) activity, which started in 2016. The Auto Rental revenue increase (approximately $1.2 million) was primarily related to passenger growth.

Rental fees increased by $12,387,000 or 34.3%. This is primarily a result of higher auto rental customer facility charge (CFC) revenue due to an increase in the CFC rate in 2016 and ground rental rates for non-airline tenants.

Investment income increased $3,393,000 or 36.7% due to higher interest rates.

The Commission received a $914,000 in financing credit related to the installation of solar panels on top of the public parking ramps at Terminal 1 in 2015 and Terminal 2 in 2016.

The gain on sale of assets increased by $1,969,000 due to the sale of a parcel of land at the Anoka County/Blaine Airport.

Capital contributions and grants represent grants received from both federal and state governments for various construction projects at both MSP and the reliever airports. The decrease in 2016 comes primarily from a decrease in federal grants for baggage screening projects.

Expenses
In 2017, the MAC's total expenses decreased by 2.9% to $375,652,000 from $386,764,000 in 2016. Changes in major categories are summarized below (dollars in thousands):

	2017	% of Total	2016	% of Total	Dollar Change	Percent Change
Operating expenses						
Personnel	$ 87,993	23.4%	$ 94,425	24.4%	$ (6,432)	-6.8%
Administrative	1,993	0.5%	1,723	0.4%	270	15.7%
Professional services	6,151	1.6%	6,217	1.6%	(66)	-1.1%
Utilities	19,619	5.2%	18,816	4.9%	803	4.3%
Operating services	26,073	7.0%	23,389	6.1%	2,684	11.5%
Maintenance	36,293	9.7%	36,319	9.4%	(26)	-0.1%
Depreciation and amortization	142,970	38.1%	139,226	36.0%	3,744	2.7%
Other	5,611	1.5%	4,411	1.1%	1,200	27.2%
Operating expenses	326,703		324,526		2,177	
Nonoperating expenses						
Interest expense	48,949	13.0%	62,238	16.1%	(13,289)	-21.4%
Total nonoperating expenses	48,949		62,238		(13,289)	
Total expenses	$ 375,652	100.0%	$ 386,764	100.0%	$ (11,112)	-2.9%

Personnel decreased by 6.8% or $6,432,000. The majority of the decrease is related to a reduction in net pension liabilities in 2017 due to an increase in the fair value of plan assets for both pension plans and an increase in the discount rate of the Public Employees Police and Fire Fund. This was partly offset by an increase in annual wage adjustments, new employees and additional medical claims.

Utilities increased $803,000 or 4.3% primarily due to higher rates and increased usage of natural gas, sewer and water services partially offset by a decrease in electricity cost due to savings in sales tax from changing to sales tax exempt status in 2017.

Operating services increased $2,684,000 or 11.5% due primarily to the increase in service agreements for renewing and expanding technology related agreements and from additional security staffing at several field gate locations around Terminal 1-Lindbergh.

Depreciation increased $3,744,000 or 2.7%. The increase is attributable to new projects placed into service during 2016-2017.

Other expenses increased $1,200,000 or 27.2% due to the Commission's Air Service Incentive Program. Two airlines met the criteria for new continuous international air service earning waivers for landing and gate fees.

Interest expense decreased $13,289,000 or 21.4% due to the refunding of several bond issues in the prior year.

Financial Section

In 2016, the MAC's total expenses increased by 8.7% to $386,764,000 from $355,933,000 in 2015. Changes in major categories are summarized below (dollars in thousands):

	2016	% of Total	2015	% of Total	Dollar Change	Percent Change
Operating expenses						
Personnel	$ 94,425	24.4%	$ 81,728	23.0%	$ 12,697	15.5%
Administrative	1,723	0.4%	1,521	0.4%	202	13.3%
Professional services	6,217	1.6%	5,574	1.6%	643	11.5%
Utilities	18,816	4.9%	18,304	5.1%	512	2.8%
Operating services	23,389	6.1%	21,230	5.9%	2,159	10.2%
Maintenance	36,319	9.4%	32,089	9.0%	4,230	13.2%
Depreciation and amortization	139,226	36.0%	134,419	37.8%	4,807	3.6%
Other	4,411	1.1%	3,454	1.0%	957	27.7%
Operating expenses	324,526		298,319		26,207	
Nonoperating expenses						
Interest expense	62,238	16.1%	57,614	16.2%	4,624	8.0%
Total nonoperating expenses	62,238		57,614		4,624	
Total expenses	$ 386,764	100.0%	$ 355,933	100.0%	$ 30,831	8.7%

Personnel increased by 15.5% or $12,697,000. The majority of the increase is related to the implementation of GASB 68 in 2015, which resulted in a significant increase in pension expense adjustment in 2016. The remaining increase is due to annual wage adjustments, new employees and additional medical claims, partially offset by a decrease in post-retirement medical benefit.

Professional services increased by 11.5% or $643,000 primarily due to an increase in information technology projects and legal fees.

Utilities increased $512,000 or 2.8% due to the addition of the G Concourse utilities in 2016.

Operating services increased $2,159,000 or 10.2% due primarily to the Commission entering into a funding agreement with the Airport Foundation to replace the lost income from their two stores, airline incentive program for carriers that met the criteria, providing a full year of queue line management services and a shuttle service from the Quick Ride ramp to Terminal 1 compared to a partial year in 2015.

Maintenance increased $4,230,000 or 13.2%. The majority of the increase is attributable to the Commission regaining responsibility for the G Concourse and the related cleaning and maintenance costs in January 2016. The remaining increase was due to higher snow removal materials in 2016.

Depreciation increased $4,807,000 or 3.6%. The increase is attributable to new projects placed into service during 2015-2016.

Other expenses increased $957,000 or 27.7% due to an increase in computer and radio equipment purchases.

Net Revenues

In order to promote and encourage the efficient use of facilities at all of the MAC's airports, as well as minimize the environmental impact of MSP on the surrounding community, the MAC has implemented a policy of subsidizing its reliever airports to encourage the use of these facilities rather than MSP. In order to maintain this subsidy, the MAC sets its rates and charges to assure that total system revenues will be sufficient to pay total system expenses.

Net revenues generated by the Commission are designated for construction and debt service payments. These net revenues provide the Commission with a portion of the money to meet the funding requirements of its capital improvement program. This reduces the need to issue bonds and, therefore, allows the Commission to avoid the interest expense of additional debt.

Following is a summary of the Statements of Revenues, Expenses and Changes in Net Position for the years ended December 31, 2017, 2016 and 2015 (dollars in thousands):

	Fiscal Years Ended December 31,		
	2017	**2016**	**2015**
Operating revenues	$ 353,944	$ 338,932	$ 307,421
Operating expenses	(326,703)	(324,526)	(298,319)
Operating income	27,241	14,406	9,102
Nonoperating revenues	80,161	87,850	80,371
Nonoperating expenses	(48,949)	(62,238)	(57,614)
Nonoperating income	31,212	25,612	22,757
Increase in net position before capital contributions and grants	58,453	40,018	31,859
Capital contributions and grants	1,427	4,003	14,686
Increase in net position	59,880	44,021	46,545
Net position, beginning of year, as previously reported	1,760,795	1,716,774	1,719,348
Change in accounting principle	-	-	49,119
Net position, beginning of year, as previously reported	1,760,795	1,716,774	1,670,229
Net position, end of year	$ 1,820,675	$ 1,760,795	$ 1,716,774

The Commission shows an increase in the total change in its net position in 2017 versus 2016. This is primarily a result of an increase in operating income and a decrease in interest expense resulting from prior year debt refundings. This was partially offset by the loss on the sale of assets and a decrease in capital contributions and grants.

The Commission shows a decrease in the total change in its net position in 2016 versus 2015. This is primarily a result of an increase in operating income and an increase in interest income due to higher interest rates. This was partially offset by an increase in interest expense and a decrease in capital contributions and grants.

Occasionally, the Commission may show an operating loss as a result of its methodology of assessing airline rates and charges and the reporting requirements for passenger facility charges (PFCs). For its airline rates and charges model, the Commission uses debt service instead of depreciation as a basis of recovering capital costs. Therefore, projects constructed with internally generated funds are not recoverable under the airline agreement. Further contributing to operating losses is the accounting treatment for PFCs and federal and state grants. The Commission cannot charge the users of the airport for any of its capital costs that were funded by PFCs and/or capital contributions. Therefore, under operating expenses the full cost of the capital project is depreciated over its useful life; however, the corresponding revenue (PFCs and federal and state grants) for that particular project is reflected as nonoperating revenue.

We believe we are well positioned to increase the long-term financial stability and air service competitiveness of MSP. In addition, our 10-year history of airline rates and charges is very competitive and, as one of the few airports with an AA- rating from both Fitch Investor Services and Standard & Poor's, we feel we are positioned well for growth in the future.

STATEMENTS OF NET POSITION

The Statements of Net Position present the net position of the MAC at the end of the fiscal year. Net position is equal to total assets plus deferred outflows of resources less total liabilities less deferred inflows of resources and is an indicator of the current financial health of the MAC. Summarized statements of net position information at December 31, 2017, 2016 and 2015 follows (dollars in thousands):

	December 31, 2017	December 31, 2016	December 31, 2015
Assets			
Current assets - unrestricted	$ 433,330	$ 366,942	$ 425,019
Restricted assets - current	106,212	111,209	89,599
Noncurrent assets:			
Other noncurrent assets	650,231	790,421	438,751
Capital assets - net	2,625,183	2,521,344	2,432,036
Total assets	3,814,956	3,789,916	3,385,405
Deferred Outflows of Resources	61,888	94,989	53,092
Total assets and deferred outflows of resources	$ 3,876,844	$ 3,884,905	$ 3,438,497
Liabilities			
Current liabilities - unrestricted	$ 104,186	$ 140,238	$ 77,125
Payable from restricted current assets	105,468	75,760	97,157
Noncurrent liabilities:			
Bonds payable	1,569,053	1,644,486	1,305,023
Other noncurrent liabilities	221,743	241,042	219,783
Total liabilities	2,000,450	2,101,526	1,699,088
Deferred Inflows of Resources	55,719	22,584	22,635
Total liabilities and deferred inflows of resources	2,056,169	2,124,110	1,721,723
Net Position			
Net investment in capital assets	1,338,558	1,265,771	1,163,545
Restricted	278,281	341,266	299,192
Unrestricted	203,836	153,758	254,037
Total net position	1,820,675	1,760,795	1,716,774
Total liabilities, deferred inflows of resources and net position	$ 3,876,844	$ 3,884,905	$ 3,438,497

The decrease in total assets and deferred outflows of resources is primarily due to the decrease in deferred outflows of resources related to the Commission's pension plans. Overall, the majority of the increase in net position from 2016 to 2017 is due to an increase in operating income.

CASH AND INVESTMENT MANAGEMENT

The following summary shows the major sources and uses of cash during the years ended December 31, 2017, 2016 and 2015 (dollars in thousands):

	Fiscal Years Ended December 31, 2017	2016	2015
Cash provided by operating activities	$ 354,840	$ 338,029	$ 305,770
Cash used in operating activities	(168,779)	(150,248)	(142,740)
Net cash provided by operating activities	186,061	187,781	163,030
Net cash provided by (used in) capital and related financing activities	(265,827)	136,530	(112,603)
Net cash provided by (used in) investing activities	82,885	(325,593)	(53,425)
Net increase (decrease) in cash and cash equivalents	3,119	(1,282)	(2,998)
Cash and cash equivalents, beginning of year	4,876	6,158	9,156
Cash and cash equivalents, end of year	$ 7,995	$ 4,876	$ 6,158

Cash temporarily idle during the year is invested according to legal requirements established by the Legislature of the State of Minnesota. In accordance with state law, investments are generally restricted to various United States government securities, mutual funds, state and local obligations, commercial paper and repurchase agreements. With the exclusion of postemployment medical investments which must have an average portfolio life of no greater than 12 years maximum, all other securities must mature within four years from the date of purchase. During 2017, the MAC's average portfolio balance was $1,091,935,000 and total investment earnings were $8,565,000 for an average yield on investments during the year of 0.78%. This compares to an average portfolio balance of $994,138,000; investment earnings of $8,721,000 and average yield of 0.88% in fiscal year 2016.

The Commission currently has a policy of keeping a six-month working capital reserve in its operating fund. At the end of 2017, the Commission has in its operating fund approximately $76 million over and above its 2017 six-month working capital requirement. The Commission is currently considering how to apply or use some or all of these excess-operating funds.

CAPITAL CONSTRUCTION

During 2017, the Commission expended $254,000,000 on its on-going Capital Improvement Program (CIP). Approximately $5,000,000 was associated with various airfield and runway projects. Approximately $119,000,000 was related to Terminal 1-Lindbergh projects. Projects at Terminal 1-Lindbergh include vertical circulation improvements, Concourse A to G connector improvements, and HVAC/AHU replacements. Approximately $116,000,000 was mainly spent on site preparation, roadway work and buildings for a new parking ramp at Terminal 1-Lindbergh, with the remaining spent on other various landside/parking projects. Approximately $10,000,000 was spent on the Commission's reliever airport system. The remaining $4,000,000 was spent primarily for noise mitigation and other building improvements. Average monthly capital spending in 2017 was approximately $21,200,000.

During 2016, the Commission expended $206,000,000 on its on-going capital improvement program. Approximately $9,000,000 was associated with various airfield and runway projects. Approximately $59,000,000 was related to Terminal 1-Lindbergh projects. Projects at Terminal 1-Lindbergh include the start of vertical circulation improvements, restroom rehabilitations, and a passenger boarding bridge. Approximately $104,000,000 was spent on various Terminal 2-Humphrey projects, landside/parking and miscellaneous building projects with the largest projects being the site preparation, roadway work and buildings for a new parking ramp at Terminal 1-Lindbergh and three additional gates added at Terminal 2-Humphrey. Approximately $7,000,000 was spent on the Commission's reliever airport system. The remaining $12,000,000 was spent primarily for the installation of solar panels on top of the parking ramp at Terminal 2 -Humphrey. Average monthly capital spending in 2016 was approximately $17,200,000.

Further information can be found in Note F.

CAPITAL FINANCING AND DEBT MANAGEMENT

The MAC has issued three forms of indebtedness: notes payable, general airport revenue bonds and general obligation revenue bonds. General obligation revenue bonds are backed by Commission revenues and the authority to levy any required taxes on the assessed valuation of the seven county Metropolitan Area. General airport revenue bonds are not backed by the MAC's taxing authority but rather are payable from certain pledged revenues.

Statutory authority for issuing general obligation revenue bonds is obtained from the Minnesota State Legislature. Authorization as of December 31, 2017, which permits the issuance by the MAC of up to $55,000,000 of general obligation revenue bonds. Currently, the MAC has no general obligation revenue bonds outstanding.

On October 4, 2016, the Commission issued two new series of general airport revenue bonds. The series labeled 2016A and 2016B General Airport Revenue Bonds were issued for $330,690,000 and $152,190,000, respectively. The proceeds were used to refund and defease $647,811,000 of the remaining principal outstanding of the Series 2007A and Series 2007B General Airport Revenue Bonds, which were called on January 1, 2017.

On December 20, 2016, the Commission issued three new series of General Airport Revenue Bonds. Two of the series, labeled Series 2016C and Series 2016E General Airport Revenue Bonds were issued for $207,250,000 and $171,690,000, respectively, and the proceeds are being used to construct a new parking garage, which includes public parking and an auto rental facility. The series labeled Series 2016D General Airport Revenue Bonds were issued for $23,410,000 and the proceeds were used to repay a portion of the outstanding revolving line of credit.

The MAC is financing its construction program through a combination of the MAC's revenues, entitlement and discretionary grants received from the FAA, state grants, PFCs and revenue bonds. Long-term debt is the principal source of funding of the capital improvement program. The MAC, through its Master Indenture, has covenanted to maintain a debt service coverage ratio of 1.25. Debt service coverage is calculated based on a formula included in the Master Indenture and the airport use agreement.

The Commission has irrevocably committed a portion of PFCs it receives to the payment and funding of debt service on Senior Bonds and/or Subordinate Obligations issued to finance projects authorized to be financed with PFCs (collectively, the "PFC Eligible Bonds") through December 31, 2030.

Pursuant to the PFC Resolution, the Commission has irrevocably committed the following amounts of PFCs in the following Fiscal Years:

Irrevocably Committed PFCs

Fiscal Year	Irrevocably Committed PFCs	Fiscal Year	Irrevocably Committed PFCs
2018	9,338,400	2025	9,337,650
2019	9,337,650	2026	9,334,900
2020	9,339,400	2027	9,334,650
2021	9,337,900	2028	9,465,900
2022	9,332,650	2029	9,467,625
2023	9,333,150	2030	9,462,475
2024	9,333,400		

If the Commission does not use the full amount of the irrevocably committed PFCs to pay debt service on PFC Eligible Bonds in a Fiscal Year (i.e., there is more irrevocably committed PFCs than there is debt service due on PFC Eligible Bonds in such Fiscal Year), any unused portion of the irrevocable commitment for such Fiscal Year is not required to be carried over for use in future Fiscal Years.

In addition to the PFCs irrevocably committed pursuant to the PFC Resolution, the Commission can, at its sole discretion, use excess PFCs to pay additional debt service on PFC Eligible Bonds. The Commission currently expects to utilize all of the irrevocably committed PFCs and a portion of the remaining PFCs to pay the debt service on the PFC Eligible Bonds.

For further information on capital financing activity see Notes G and H.

CONTACTING THE MAC'S FINANCIAL MANAGEMENT

This financial report is designed to provide the MAC's Commissioners, management, investors, creditors and customers with a general view of the MAC's finances and to demonstrate the MAC's accountability for the funds it receives and expends. For further information about this report, or if you need additional financial information, please contact Director of Finance, 6040 28th Avenue South, Minneapolis, MN 55450 or access the Commission's website – https://metroairports.org/Airport-Authority/Metropolitan-Airports-Commission/Administration/Financials.aspx.

Bond payments funded from escrow account	-	(601,312)
Refunding bond proceeds deposited to escrow account	-	601,312

Fiscal years ended December 31, 2017 and 2016

NOTE A: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Minneapolis/St. Paul Metropolitan Airports Commission (the Commission) was created by an act of the Minnesota State Legislature in 1943 as a public corporation. Its purpose is to promote air navigation and transportation (international, national and local) in and through the State of Minnesota; promote the efficient, safe, and economical handling of air commerce; assure the inclusion of the state in national and international programs of air transportation; and, to those ends, develop the full potential of the metropolitan area as an aviation center. It has the responsibility to assure residents of the metropolitan area the minimum environmental impact from air navigation and transportation, promote the overall goals of the state's environmental policies, and minimize the public's exposure to noise and safety hazards around airports.

The area over which the Commission exercises its jurisdiction is the Minneapolis/St. Paul metropolitan area, which includes Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington counties. The Commission controls and operates seven airports within the metropolitan area, including the Minneapolis/St. Paul International Airport, which services scheduled air carriers and six reliever airports serving general aviation.

The Commission is governed independently by a 15-member Board of Commissioners. The governor of the State of Minnesota appoints 13 commissioners. The mayors of Minneapolis and St. Paul also have seats on the Commission with the option to appoint a surrogate to serve on their behalf. Certain large capital improvement projects having metropolitan significance must be reviewed by the Metropolitan Council, which is a public agency established by law with powers of regulation over the development of the metropolitan area.

In applying current Governmental Accounting Standards Board (GASB) guidance, the State of Minnesota and the Commission have agreed that the Commission is not financially accountable to any other organization and is considered a stand-alone governmental unit.

Basis of Accounting

Under GASB Statement No. 34, *Basic Financial Statements–and Management's Discussion and Analysis–for State and Local Governments*, the Commission is considered to be a special-purpose government engaged primarily in business type activities (BTA). As a BTA, the Commission prepares its financial statements using the accrual basis of accounting and the economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when they are earned or when services are provided, and expenses are recognized when they are incurred.

Fiscal years ended December 31, 2017 and 2016

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue and Expense Recognition

The Commission considers revenues and expenses carried out in the operation and the maintenance of the Commission's system of airports to be operating in nature. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions and grants.

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first, and then unrestricted resources as they are needed.

Budgeting Process

As required by Minnesota Statutes, the Commission adopts an annual operating and capital expenditures budget for purposes of determining required taxes, if any, to be levied by counties in its jurisdiction. Budgets are established on a departmental basis using the accrual method of accounting.

The process to amend the budget is set forth in the Commission bylaws, Article III, Section 8(a), and presented below:

"8(a) Establishment of the annual budget setting out anticipated expenditures by type of expenditure and/or upward or downward revision of that budget in the course of the corporation's fiscal year shall constitute prior approval of each type of expenditure. Authorization by vote of the Commission is required for transfer of budgeted amounts between or among line items or to appropriate additional funds for each line item. The Executive Director/CEO is directed to provide for the daily operation and management of the Commission within the expenditure guidelines of the annual budget. Commission approval of a contract shall constitute prior approval of disbursements made pursuant to terms of the contract within the constraints of the budget for all contract payments, except final construction contract payments, which shall require Commission approval.

The Executive Director/CEO shall have the responsibility of securing adequate quantities of office, janitorial, maintenance and repair materials and supplies, and the rent of sufficient equipment necessary for the smooth, continuous operation of the Commission's system of airports and all facilities associated with the system of airports. The Executive Director/CEO's authority to secure these items shall be subject to the Commission's purchasing procedures and be subject to the line-item budget constraints of the annual budget.

Fiscal years ended December 31, 2017 and 2016

At any time during the fiscal year, the Executive Director/CEO may recommend to the full Commission that all or any unencumbered appropriation balances of individual line-items be transferred to those line-items that require additional budgeted funds. In addition, the Executive Director/CEO may recommend to the full Commission the appropriation of additional funds above and beyond those approved at the time of budget adoption."

The Commission is not required to demonstrate statutory compliance with its annual operating budget. Accordingly, budgetary data are not included in the basic financial statements. All budgets are prepared in accordance with airport lease and use agreements. Unexpended appropriations lapse at year-end.

Cash and Cash Equivalents

In accordance with Minnesota Statutes, the Commission maintains deposits at those depository banks which are members of the Federal Reserve System, as authorized by the Commission.

For purposes of the statement of cash flows, the Commission considers cash on hand plus overnight investments to be cash and cash equivalents.

Investments

The Commission's investments are reported at fair value as determined by quoted market prices in the statement of net position and changes in the fair value of investments are reported as investment income in the statement of revenues, expenses and changes in net position.

Inventory

Inventories, primarily fuel, are valued at cost on a first-in, first-out basis (FIFO). The cost of the Commission's inventories included in other assets is recorded as an expense when consumed rather than purchased.

Leases

Substantially all airport improvements and buildings are leased or charged to users under various agreements. Certain facilities are leased under self-liquidating lease agreements, which require the lessee to pay annual payments equal to the debt service requirements of the debt issued to construct the facilities or the debt service requirements that would have been required if debt had been issued. Other facilities at Minneapolis/St. Paul International Airport are charged to user airlines under lease agreements, which provide for compensatory rental rates designed to recover agreed-upon portions of costs incurred, including debt service, in the terminal building, ramp, and runway areas. Other facilities, to the extent they are leased, are leased under conventional agreements, primarily percentage leases.

Federal and State Grants

Outlays for airport capital improvements and certain airport operating expenses, primarily those relating to airport security, are subject to reimbursement from federal grant programs. Funds are also received for airport development from the State of Minnesota. The Commission records government grants in aid of construction as capital contributions.

Funding provided from government grants is considered earned as the related approved capital outlays or expenses are incurred. Costs claimed for reimbursement are subject to audit and acceptance by the granting agency.

Fiscal years ended December 31, 2017 and 2016

Passenger Facility Charges

In June 1992, the Commission began collecting passenger facility charges (PFCs). PFCs are fees imposed on enplaned passengers by airport authorities for the purpose of generating revenue for airport projects that increase capacity, increase safety, or mitigate noise impacts. The Commission has received permission from the Federal Aviation Administration (FAA) to impose and use a $4.50 PFC, the current maximum rate allowed.

The following table sets forth a summary of the Commission's approved PFC applications (dollars in thousands):

PFC Application	Approval Date	Approved Amount (as Amended)
1	June, 1992	$ 92,714
2	August, 1994	140,717
3	June, 1998	36,377
4	April, 1999	47,801
5	August, 1999	112,533
6	April, 2003	759,734
7	April, 2003	14,479
8	August, 2005	147,986
9	February, 2006	8,659
10	May, 2008	101,472
11	March, 2014	52,827
12	September, 2015	40,796
13	January, 2017	65,212
14	September, 2017	126,557
		$ 1,747,864

PFC applications one through five and PFC application 9 are fully funded and have been closed out.

PFC's, which are recognized as earned, are included in nonoperating revenues and amounted to approximately $73,390,000 and $72,273,000 for 2017 and 2016, respectively.

Fiscal years ended December 31, 2017 and 2016

Intangible Assets

The Commission has incurred, and continues to incur, substantial costs in relation to its ongoing Part 150 Sound Insulation Program. The Sound Insulation Program pays for a home within the airport's impacted noise area to be sound insulated with respect to doors, window treatments, etc., with no further cash outlay required by the Commission. Because the Commission receives an avigation release from each affected homeowner in return for providing sound insulation improvements, the associated costs are being recorded as an intangible asset and amortized to expense over a ten-year period, which approximates the estimated useful lives of such improvements. Amortization expense for capitalized Part 150 Sound Insulation expenses was $11,526,000 and $11,964,000 for the years ended December 31, 2017 and 2016, respectively. This amortization expense is included as a component of depreciation expense on the statements of revenues, expenses and changes in net position. The unamortized costs included in airport improvements and buildings at December 31, 2017 and 2016 was approximately $47,180,000 and $58,706,000, respectively.

Airports and Facilities

As required under Chapter 500, Laws of Minnesota 1943—the law under which the Commission was created—certain capital assets, classified as land and airport improvements and buildings, were contributed by the cities of Minneapolis and St. Paul. Fee title to the land and improvements remain with the two cities.

Additions to capital assets are recorded at cost, unless contributed, in which case such additions are recorded at acquisition value as of the date of acquisition.

It is the Commission's policy to amortize the carrying amount of its capital assets, including those acquired using government grants in aid of construction and passenger facility charges, over their estimated useful lives on a straight-line basis by annual depreciation charges to expense. Estimated useful lives on depreciable capital assets are as follows:

Airport improvements and buildings	10-40 years
Moveable equipment	3-15 years

Costs incurred for major improvements are carried in construction in progress until disposition or completion of the related projects. Costs relating to projects not pursued are expensed, while costs relating to completed projects are capitalized. The capitalization threshold for capital assets is $10,000.

Capitalized Interest

Interest capitalized on projects funded by internally generated funds is based on the weighted-average borrowing rate of the Commission and actual project expenditures during the period of construction. Interest capitalized on projects funded from bond proceeds is based on the interest cost of the specific borrowing, less interest earned on undisbursed invested funds during the construction period. Interest is not capitalized on project costs that are reimbursed by government grants in aid of construction or PFCs.

Total interest expense was approximately $48,949,000 and $62,238,000 for the years ended December 31, 2017 and 2016, respectively, while interest capitalized as part of the cost of constructed assets was approximately $3,735,000 and $2,051,000, respectively.

Fiscal years ended December 31, 2017 and 2016

Compensated Absences

In accordance with the vesting method provided under GASB Statement No. 16, *Accounting for Compensated Absences*, accumulated vacation and personal time is accrued based on assumptions concerning the probability that certain employees will become eligible to receive these benefits in the future.

Substantially all employees receive compensation for vacations, holidays, illness and certain other qualifying absences. Liabilities relating to these absences are recognized as incurred and included in employee compensation, payroll taxes and other on the statements of net position.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the General Employees Retirement Fund and the Public Employees Police and Fire Fund (cost-sharing, multiple-employer defined benefit plans administered by the Public Employees Retirement Association of Minnesota in which the Commission participates) and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Unearned Revenue

Unearned revenue represents advance interest payments on direct financing leases received from certain airlines, which will be recognized as investment income over the term of the lease agreement, as well as the unearned portion of annual taxi permits.

Deferred Outflows of Resources

As of December 31, 2017 and 2016, deferred outflows of resources consisted of the following components (dollars in thousands):

	2017	2016
Net difference between projected and actual earnings on pension plan investments - pensions	$ -	$ 13,440
Differences between expected and actual experience - pensions	2,242	253
Changes of assumptions - pensions	32,221	47,124
Changes in proportion and differences in contributions - pensions	5,192	10,205
Commission's contributions made subsequent to the measurement date - pensions	3,741	3,795
Deferred loss on refundings of debt	18,492	20,172
Total deferred outflows of resources	$ 61,888	$ 94,989

Fiscal years ended December 31, 2017 and 2016

Deferred Inflows of Resources

As of December 31, 2017 and 2016, deferred inflows of resources consisted of the following components (dollars in thousands):

	2017	2016
Net difference between projected and actual earnings on pension plan investments - pensions	$ 3,834	$ -
Differences between expected and actual experience - pensions	8,026	12,373
Changes of assumptions - pensions	29,029	-
Changes in proportion and differences in contributions - pensions	7,285	1,691
Accumulated increase in fair value of forward delivery agreements	7,241	8,192
Deferred gains on refundings of debt	304	328
Total deferred inflows of resources	$ 55,719	$ 22,584

Original Issue Discounts/Premiums

Original issue discounts/premiums on bonds are generally being amortized using the effective interest method over the lives of the bonds to which they relate.

Net Position

GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net position categories:

- Net investment in capital assets: reflects the Commission's investment in capital assets, net of accumulated depreciation and outstanding balances of debt attributable to the acquisition, construction or improvements of those assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

- Restricted: represent resources for which the Commission is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

- Unrestricted: represent resources that are not subject to externally imposed stipulations that may be used to meet the Commission's ongoing obligations to the public and creditors. Unrestricted resources may be designated for specific purposes by action of the management or the governing board of the Commission.

Fiscal years ended December 31, 2017 and 2016

Rental Income

Rental income is generally recognized as it becomes receivable over the respective lease terms. The Commission may, from time to time, have leases which provide for waived rent during the initial period of the lease term and/or rental escalations throughout the lease term. In accordance with GASB Statement No. 13, *Accounting for Operating Leases with Scheduled Rent Increases*, the related rental income for leases in which the rental income stream is not systematic, if significant, is reported using the straight-line method rather than using the terms of the lease agreements.

Customer Facility Charges

With respect to on-airport rental car companies, the Commission is assessing a customer facility charge (CFC) per transaction day to recover the rental car portion of capital costs associated with the construction of the auto rental/public parking garage located adjacent to Terminal 1 (formerly the Lindbergh Terminal), as well as to recover certain maintenance costs relating to the auto rental facilities. During 2016, the Commission increased the fee to $5.90 per rental car transaction per day from $3.25, due to the construction of a new auto rental/public garage adjacent to Terminal 1.

NOTE B: DEPOSITS AND INVESTMENTS

Cash Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Commission's deposits may not be returned to it. Minnesota Statutes require that all Commission deposits be protected by insurance, surety bond, or collateral. The fair value of collateral pledged must equal 110% of the deposits not covered by insurance or bonds (140% for mortgage notes pledged). Authorized collateral includes allowable investments as discussed below, certain first mortgage notes, and certain other state or local government obligations. Minnesota Statutes require that securities pledged as collateral be held in safekeeping by the Commission or in a financial institution other than that furnishing the collateral.

The Commission's interest-bearing deposit accounts are insured up to $250,000 by the Federal Deposit Insurance Corporation (FDIC). For 2017 and 2016, cash deposits were entirely insured or collateralized by securities held in the Commission's name by a financial institution (Commission's agent) other than that furnishing the collateral.

Fiscal years ended December 31, 2017 and 2016

Investments

The Commission may invest idle funds as authorized by Minnesota Statute, Section 118A, and the Commission's internal investment policy in the following:

a) Securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as high risk by Minnesota Statute, Section 118A.04 subd. 6;
b) Mutual funds through shares of registered investment companies, provided the mutual fund receives certain ratings depending on its investments;
c) General obligations of municipalities and certain state agency and local obligations of other states, provided such obligations have certain specified bond ratings by a national bond rating service;
d) Bankers' acceptances of United States banks;
e) Commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two national rating agencies and matures in 270 days or less; and
f) With certain restrictions, in repurchase agreements, security lending agreements, joint powers investment trusts, and guaranteed investment contracts.

The Commission addresses certain investment-related risks to which it is currently exposed as follows:

Interest rate risk - the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Commission has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates. The Commission may not invest in securities maturing more than four years from the date of purchase unless the security is for post-retirement health care funding, which may have an average portfolio life of no more than 12 years. The Commission manages interest rate risk by maintaining sufficient liquidity to enable the Commission to meet anticipated cash requirements. The money market mutual funds are presented as an investment with a maturity of less than one year because they are redeemable in full immediately.

Fiscal years ended December 31, 2017 and 2016

The maturity ranges and credit ratings for the Commission's investment securities at December 31, 2017 and 2016 follow (dollars in thousands):

Security Type	Ratings S&P / Moody's	December 31, 2017 Maturing in Years Less than 1	1 - 5	6 - 10	More than 10	Total

Fiscal years ended December 31, 2017 and 2016

Credit risk - the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Commission's investment policy addresses credit risk through adherence to Minnesota Statute 118A, which limits the types of investment instruments that may be purchased by the Commission. This statute generally provides that public funds may only be invested in United States' securities, any security that is a general obligation of a state or local government rated "A" or better by a nationally recognized rating agency, any security that is a revenue obligation of a state or local government rated "AA" or better, a general obligation of the Minnesota Housing Finance Agency that is rated "A" or better, commercial paper issued by United States' corporations or their Canadian subsidiaries that is rated in the highest quality category by at least two nationally recognized rating agencies and matures in 270 days or less, and time deposits fully insured by the FDIC. The ratings of the Commission's debt investments are shown in the tables above.

Concentration of credit risk - the Commission requires a diversified investment portfolio to avoid risk of losses resulting from an over-concentration of assets in a specific maturity, issuer, or class of securities.

In respect to U.S. government agency obligations and government-sponsored enterprises, the Commission places no limit on the amount that may be invested in any one issuer. The Commission cannot hold more than 30% of its portfolio in commercial paper, 25% in any state or local government obligation, or 4% in any one corporation. The U.S. government-sponsored enterprise securities held by the Commission are not explicitly guaranteed by the U.S. Government and are subject to concentration of credit risk.

At December 31, 2017 and 2016, the following investments represent more than 5% of total investments:

	12/31/17	12/31/16
Government-Sponsored Enterprises:		
Federal Home Loan Bank	31%	27%
Federal National Mortgage Association	9%	15%

Custodial credit risk - the risk that, in the event of the failure of the counterparty, the Commission will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. At December 31, 2017 and 2016, none of the Commission's investments were exposed to custodial credit risk.

Foreign currency risk - the risk of adverse effects on the fair value of an investment from changes in exchange rates. The Commission's investment policy does not allow investments in foreign investments, thus the Commission has no foreign currency risk with respect to its deposits or investments.

Fiscal years ended December 31, 2017 and 2016

The Commission's cash, cash equivalents and investments are reported as follows in the statements of net position at December 31 (dollars in thousands):

	2017	2016
Cash and cash equivalents - unrestricted	$ 7,995	$ 4,876
Investments - unrestricted	402,769	333,737
Investments, current - restricted	95,032	100,306
Investments, noncurrent - restricted	613,670	748,007
Total cash, cash equivalents and investments	$ 1,119,466	$ 1,186,926

Investment income for the Commission for the years ended December 31 consisted of the following (dollars in thousands):

	2017	2016
Investment income from leases	$ 3,742	$ 3,914
Investment income from investments	15,527	12,375
Net decrease in fair value of investments	(6,963)	(3,655)
	$ 12,306	$ 12,634

NOTE C: DISCLOSURE ABOUT FAIR VALUE OF ASSETS AND LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Fiscal years ended December 31, 2017 and 2016

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities (if any) recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017 and 2016 (dollars in thousands):

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2017				
Investments by fair value level				
U.S. Treasury Security Notes	$ 313,703	$ 313,703	$ -	$ -
U.S. Treasury Security Bills	105,881	105,881	-	-
U.S. Government-Sponsored Enterprise securities	523,311	-	523,311	-
Municipal securities	31,015	-	31,015	-
Money market mutual funds	137,561	137,561	-	-
Total investments by fair value level	$ 1,111,471	$ 557,145	$ 554,326	$ -
Derivative instruments				
Forward delivery agreements	$ 7,241	$ -	$ -	$ 7,241

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016				
Investments by fair value level				
U.S. Treasury Security Notes	$ 313,545	$ 313,545	$ -	$ -
U.S. Treasury Security Bills	125,628	125,628	-	-
U.S. Government-Sponsored Enterprise securities	579,318	-	579,318	-
Municipal securities	16,065	-	16,065	-
Money market mutual funds	147,494	147,494	-	-
Total investments by fair value level	$ 1,182,050	$ 586,667	$ 595,383	$ -
Derivative instruments				
Forward delivery agreements	$ 8,192	$ -	$ -	$ 8,192

Fiscal years ended December 31, 2017 and 2016

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Derivative Investments

The fair values of the forward delivery agreements are estimated by the counterparty using a proprietary model and, therefore, are classified within Level 3 of the valuation hierarchy.

NOTE D: RESTRICTED CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments at December 31 are restricted as follows (dollars in thousands):

	2017	2016
Coverage Account	$ 17,013	$ 17,013
Police Federal Forfeiture Fund	788	794
Police State Forfeiture Fund	83	109
Passenger Facility Charges Funds	168,793	219,984
911 Emergency Communications Fund	45	76
Solar Panel Construction Funds	2	1,532
Revenue Bond Interest and Principal Funds	95,032	71,913
Revenue Bond Reserve Funds	107,732	107,135
Revenue Bonds Construction Funds	309,836	401,364
Revenue Bond Cost of Issuance Funds	-	1,393
Revolving Loan Debt Service Funds	-	27,000
Revolving Loan Construction Funds	9,378	-
	$ 708,702	$ 848,313

Fiscal years ended December 31, 2017 and 2016

NOTE E: GRANTS RECEIVABLE

Grants receivable from government agencies represent reimbursements due from the federal government and/or the State of Minnesota for allowable costs incurred on federal and state award programs. Grants receivable at December 31 consists of (dollars in thousands):

	2017	2016
Federal Aviation Administration	$ 2,038	$ 4,472
Transportation Security Administration	2,551	3,346
State of Minnesota	406	1,889
	$ 4,995	$ 9,707

NOTE F: CAPITAL ASSETS

Changes in capital assets by major classification are as follows (dollars in thousands):

	Balance January 1, 2017	Additions	Transfers In (Out)	Retirements or Disposals	Balance December 31, 2017
Capital assets - not depreciated:					
Land	$ 367,973	$ -	$ -	$ (12,204)	$ 355,769
Construction in progress	118,681	254,423	(82,252)	-	290,852
Total capital assets - not depreciated	486,654	254,423	(82,252)	(12,204)	646,621
Capital assets - depreciated:					
Airport improvements and buildings	4,097,955	154	77,534	-	4,175,643
Less: accumulated depreciation	(2,117,962)	(133,321)	-	-	(2,251,283)
Net airport improvements and buildings	1,979,993	(133,167)	77,534	-	1,924,360
Movable equipment	166,641	4,544	4,718	(3,087)	172,816
Less: accumulated depreciation	(111,944)	(9,649)	-	2,979	(118,614)
Net movable equipment	54,697	(5,105)	4,718	(108)	54,202
Total capital assets - depreciated	2,034,690	(138,272)	82,252	(108)	1,978,562
Net capital assets	$ 2,521,344	$ 116,151	$ -	$ (12,312)	$ 2,625,183

	Balance January 1, 2016	Additions	Transfers In (Out)	Retirements or Disposals	Balance December 31, 2016
Capital assets - not depreciated:					
Land	$ 363,824	$ 7,691	$ -	$ (3,542)	$ 367,973
Construction in progress	140,092	209,586	(230,997)	-	118,681
Total capital assets - not depreciated	503,916	217,277	(230,997)	(3,542)	486,654
Capital assets - depreciated:					
Airport improvements and buildings	3,863,710	8,215	226,030	-	4,097,955
Less: accumulated depreciation	(1,987,711)	(130,251)	-	-	(2,117,962)

	$ 84,973	$ 1,458,170	$ 1,543,143	$ 717,643	$ 2,260,786

The Commission's General Airport Revenue Bonds are not general obligations, but are limited obligations of the Commission payable solely from and secured by a pledge of net revenues. Neither the full faith and credit nor the taxing power of the Commission, the City of Minneapolis, the City of St. Paul, the State, or any political subdivision or public agency of the State, other than the Commission, to the extent of net revenues, is pledged to the payment of the General Airport Revenue Bonds. The proceeds of these issues have been used to finance a portion of the Commission's long-term capital improvement program, which details the expansion of the airport system.

On October 4, 2016, the Commission issued $330,690,000 of Series 2016A Senior Airport Revenue Refunding Bonds (Non-AMT) and $152,190,000 of Series 2016B Subordinate Airport Revenue Refunding Bonds (Non-AMT) to current refund and defease $451,465,000 of the Series 2007A Senior Airport Revenue Refunding Bonds and $196,346,000 of the Series 2007B Subordinate Airport Revenue Refunding Bonds. As a result of this refunding, the Commission reduced its total debt service requirements by $164,340,453, which resulted in an economic gain (the difference between the present values of the debt service payments on the old and new debt) in the amount of $138,659,212. The Commission recognized an accounting loss of $15,336,985 in connection with this refunding that is reflected as a deferred outflow of resources in the statements of net position and is being amortized to interest expense on a straight-line basis through January 1, 2032.

On December 20, 2016, the Commission issued three new series of General Airport Revenue Bonds. The Series 2016C Senior Airport Revenue Bonds (Non-AMT) and Series 2016E Subordinate Airport Revenue Bonds (Taxable) were issued for $207,250,000 and $171,690,000, respectively, and the proceeds are being used to construct a new parking garage, which includes public parking and an auto rental facility. The Series 2016D Subordinate Airport Revenue Bonds (AMT) were issued for $23,410,000 and the proceeds were used to repay a portion of the outstanding revolving line of credit.

Fiscal years ended December 31, 2017 and 2016

The Commission had a $75,000,000 revolving line of credit that expired on November 3, 2017. On October 26, 2017, the Commission entered into a new $150,000,000 revolving line of credit agreement with a different lender. The new line of credit is to be used to fund certain capital improvement program projects and is secured by a subordinate pledge of the Commission's net revenues. Each advance under the revolving line of credit is evidenced by a separate promissory note. Interest is payable monthly and varies with the sum of the Taxable London Interbank Offered Rate (LIBOR) and an applicable spread based on the Commission's long-term credit ratings or the sum of 70% of the Tax-Exempt LIBOR plus an applicable spread based on the Commission's long-term credit ratings and a margin rate factor, and expires on October 26, 2020. The interest rate on the Commission's revolving line of credit was 1.28% and 0.97% on December 31, 2017 and 2016, respectively, and there was $38,020,000 and $40,648,500 in outstanding notes at December 31, 2017 and 2016, respectively. These amounts are included in notes payable in the statements of net position.

The Commission has entered into Taxable Equipment Lease/Purchase Agreements to finance the solar panels on top of parking ramps at Terminal 1 and 2. The principal amount of these agreements qualifies as a new clean renewable energy bond (NCREB) or a qualified energy conservation bond (QECB), both of which are eligible for a direct interest rate subsidy from the federal government. The effective net interest rates range from 0.53% to 1.09%, with scheduled payments through 2035 and 2036. At December 31, 2017 and 2016, there was $$32,614,000 and $34,031,000, respectively, in outstanding notes payable.

The Commission enters into Tax-Exempt Lease/Purchase Agreements each year to finance the acquisition of equipment, primarily heavy equipment and vehicles. Scheduled payments under these lease/purchase agreements extend through October 2026 with various maturity dates beginning in 2018. The interest rates ranged from 1.12% to 4.57%, and there was $14,338,100 and $17,552,700 in outstanding notes payable at December 31, 2017 and 2016, respectively.

NOTE H: CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the years ended December 31, 2017 and 2016 was as follows (dollars in thousands):

	Balance January 1, 2017	Additions	Retirements and Other	Balance December 31, 2017	Current Portion
Unearned revenue	$ 2,503	$ 1,782	$ (1,437)	$ 2,848	$ 2,079
Employee compensation and other	11,074	80,123	(79,655)	11,542	9,065
Postemployment medical	62,154	5,661	(3,941)	63,874	-
Notes payable	88,454	41,799	(45,280)	84,973	3,121
Bonds payable, including premiums	1,685,956	-	(61,513)	1,624,443	55,390
Net pension liabilities	131,753	17,266	(76,248)	72,771	-
	$ 1,981,894	$ 146,631	$ (268,074)	$ 1,860,451	$ 69,655

Fiscal years ended December 31, 2017 and 2016

	Balance January 1, 2016	Additions	Retirements and Other	Balance December 31, 2016	Current Portion
Unearned revenue	$ 2,389	$ 1,476	$ (1,362)	$ 2,503	$ 1,605
Employee compensation and other	9,990	77,646	(76,562)	11,074	8,628
Postemployment medical	60,623	5,203	(3,672)	62,154	-
Notes payable	90,857	3,194	(5,597)	88,454	44,663
Bonds payable, including premiums	1,362,033	1,027,199	(703,276)	1,685,956	41,470
Net pension liabilities	68,428	83,832	(20,507)	131,753	-
	$ 1,594,320	$1,198,550	$ (810,976)	$ 1,981,894	$ 96,366

NOTE I: DIRECT FINANCING LEASES

The Commission leases certain facilities to tenants under self-liquidating lease agreements. Self-liquidating lease agreements require the lessee to pay annual rentals equal to the debt service requirements of the bonds issued to construct the facilities, or the debt service requirements that would have been required if bond financing was used. These leases are classified as direct financing leases and expire in various years through 2030. The Commission records the interest portion of the lease payments as investment income. The following lists the components of the Commission's direct financing leases as of December 31 (dollars in thousands):

	2017	2016
Total minimum lease payments to be received	$ 50,232	$ 58,509
Less: Unearned income	(16,010)	(19,633)
Leases receivable - current and noncurrent	$ 34,222	$ 38,876

As of December 31, 2017, future minimum lease payments are as follows (dollars in thousands):

2018	$ 8,339
2019	8,403
2020	8,403
2021	8,143
2022	6,283
2023 - 2027	9,267
2028 - 2030	1,394
	$ 50,232

Fiscal years ended December 31, 2017 and 2016

NOTE J: DERIVATIVE FINANCIAL INSTRUMENTS

The Commission is a party to two debt service reserve forward delivery agreements (the Forward Delivery Agreements). The Forward Delivery Agreements require the counterparty financial institutions to deposit securities in certain of the Commission's debt service reserve trust accounts and provide the Commission with a guaranteed rate of return for these accounts. The securities that are deposited into these accounts are timed to meet scheduled debt service reserve funding requirements.

Eligible securities under the Forward Delivery Agreements are generally limited to: (a) non-callable obligations of the United States of America, including obligations issued or held in book-entry form on the books of the Department of Treasury and (b) bonds, notes, debentures, obligations or other evidence of indebtedness issued or guaranteed by the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation.

Objective of the Forward Delivery Agreements

The Forward Delivery Agreements allow the Commission to earn a guaranteed fixed rate of return over the life of the investments. These agreements are utilized by the Commission to earn a rate of return in excess of a rate that would otherwise be feasible by investing in securities with a shorter term.

Terms

The general terms of each agreement are set forth in the table below (dollars in thousands):

	Effective Date of Agreement	Termination Date	Scheduled Amount	Guaranteed Rate	Fair Value at December 31, 2017	Fair Value at December 31, 2016
Series 2009 Debt Service Reserve Funds	5/18/2000	1/1/2021	$ 2,228	6.1600%	$ 255	$ 1,273
Series 2014 Debt Service Reserve Funds	11/1/2005	1/1/2035	23,182	4.6775%	6,986	6,919
					$ 7,241	$ 8,192

Fair Value

The fair value of each Forward Delivery Agreement is based on the value of the future discounted cash flows expected to be received over the life of the agreement relative to an estimate of discounted cash flows that could be received over the same term based on current market conditions. The fair values of the Forward Delivery Agreements are classified as a noncurrent asset. As the Forward Delivery Agreements are effective hedging instruments, the offsetting balances are reflected as deferred inflows of resources.

Credit Risk

Credit risk is the risk that the counterparty will not fulfill its obligations. Under the terms of the Forward Delivery Agreements, the Commission is either holding cash or an approved security within certain debt service reserve funds. None of the principal amount of an investment under the Forward Delivery Agreements is at risk to the credit of the counterparty. Should the counterparty default, the Commission's maximum exposure is the positive termination value, if any, related to these agreements.

Fiscal years ended December 31, 2017 and 2016

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair values of the Commission's financial instruments or cash flows. The fair values of the Forward Delivery Agreements are expected to fluctuate over the life of the agreements in response to changes in interest rates. The Commission does not have a formally adopted policy related for interest rate risk on the Forward Delivery Agreements.

Termination Risk

The Commission or the counterparties may terminate the Forward Delivery Agreements if the other party fails to perform under the terms of the contract. If the Forward Delivery Agreements have a negative fair value at the time of termination, the Commission would be liable to the counterparty for a payment equivalent to the fair value of the instrument at the time of termination.

NOTE K: PENSION AND RETIREMENT PLANS

The Commission participates in the following cost-sharing multiple-employer defined benefit pension plans: the General Employees Retirement Fund (GERF) and the Public Employees Police and Fire Fund (PEPFF). Both of these plans are administered by the Public Employees Retirement Association of Minnesota (PERA) in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

Plan Descriptions

GERF

All full-time and certain part-time employees of the Commission are covered by the GERF Coordinated Plan. General Employees Plan members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new GERF members must participate in the Coordinated Plan.

PEPFF

Originally established for police officers and firefighters not covered by a local relief association, PEPFF now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, PEPFF also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

Benefit Provisions

PERA provides retirement and disability benefits to members, and benefits to survivors upon the death of eligible members. Benefits are established by state statute and can only be modified by the state legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90 percent funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

Fiscal years ended December 31, 2017 and 2016

GERF

GERF benefits are based on a member's highest average salary for any five successive years of allowable service, age and years of credit at termination of service. A reduced retirement annuity is also available to eligible members seeking early retirement. Two methods are used to compute benefits for GERF Coordinated Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, only Method 2 is used and normal retirement age is the age for unreduced Social Security benefits capped at 66.

Disability benefits are available for vested members and are based upon years of service and average monthly salary over a GERF Coordinated Plan member's highest-paid 60 consecutive months of public service (high-five salary) or all months of service is less than 60.

A lifetime survivor benefit is available to the surviving spouse of a GERF Coordinated Plan member and is based upon a formula using the member's total years of service, high-five salary age at death and age of the spouse.

PEPFF

Benefits for PEPFF members hired prior to July 1, 2010, vest after three years of credited service. Benefits for PEPFF members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50% after five years up to 100% after ten years of credited service. Benefits for PEPFF members first hired after June 30, 2014, vest on a prorated basis from 50% after ten years up to 100% after twenty years of credited service. The annuity accrual rate is 3% of average salary for each year of service. For PEPFF members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

PEPFF members qualify for disability with one or more years of service if disabled outside the line of duty. If disabled in the line of duty, there is no minimum service requirement. There is a minimum benefit of 60% of salary if a PEPFF member is disabled while engaged in hazardous activities related to the occupation. Disability under any circumstances results in a minimum benefit of 45% of salary. A duty disability benefit will only be awarded if the disabling event occurred while the member was engaged in hazardous activities inherent to the occupation.

A lifetime survivor benefit is available to the surviving spouse of a PEPFF member and is based on either 50% of the average of the full-time monthly base salary rate in effect during the last six months of allowable service or a formula using the member's total years of service, high-five salary age at death and age of the spouse. Automatic lifetime survivor benefits are also available to the spouse of a PEPFF member who suffers total and permanent disability.

Contributions

Minnesota Statutes set the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The Commission makes annual contributions to the pension plans equal to the amount required by state statutes.

Fiscal years ended December 31, 2017 and 2016

GERF

GERF Coordinated Plan members were required to contribute 6.50% of their annual covered salary to the plan in calendar years 2017 and 2016, while the Commission was required to contribute 7.50%. The Commission's contributions to GERF for the years ended December 31, 2017 and 2016 were approximately $4,198,000 and $4,085,000, respectively, and were equal to the required contributions as set by state statute. This amount includes an Employer Supplemental Contribution of approximately $1,210,000 for the years ended December 2017 and 2016, relating to the former Minneapolis Employees Retirement Fund (MERF), which was fully merged into GERF in January 2015.

As a result of legislation passed in the 2015 legislative session, the State of Minnesota is required to contribute $6,000,000 to GERF during the measurement periods ended June 30, 2016 and June 30, 2017, $16,000,000 for the period ending June 30, 2018 and $6,000,000 each measurement period thereafter until 2031.

PEPFF

PEPFF members were required to contribute 10.80% of their annual covered salary to the plan in calendar years 2017 and 2016, while the Commission was required to contribute 16.20%. The Commission's required contributions to PEPFF for the years ended December 31, 2017, and 2016 were approximately $2,039,000 and $2,055,000, respectively, and were equal to the required contributions as set by state statute. Additionally, the State of Minnesota is required to contribute an aggregate amount for all employers of $9,000,000 to PEPFF each year, beginning in fiscal year 2014. State aid will continue until the plan is 90 percent funded, or the State Patrol Plan, administered by the Minnesota State Retirement System, is 90 percent funded, whichever occurs later. Such nonemployer contributions to PEPFF by the State of Minnesota do not meet the special funding criteria set forth in GASB 68.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

GERF

At December 31, 2017 and 2016, the Commission reported a liability of approximately $56,300,000 and $81,869,000, respectively, for its proportionate share of GERF's net pension liability. The Commission's net pension liability reflected a reduction due to the State of Minnesota's contribution of $6,000,000 to the fund in both 2017 and 2016. The State of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the Commission totaled $707,922. The net pension liability was measured as of June 30, 2017 and 2016, and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of those respective dates. The Commission's proportion of the net pension liability was based on the Commission's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2016 through June 30, 2017 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the Commission's proportion was 0.8819%, which was a decrease of 0.1264% from its proportion of 1.0083% measured as of June 30, 2016.

Fiscal years ended December 31, 2017 and 2016

For the years ended December 31, 2017 and 2016, the Commission recognized pension expense of $9,821,032 and $14,854,904, respectively, for its proportionate share of GERF's pension expense. In addition, the Commission recognized an additional $20,446 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of $6,000,000 to GERF.

At December 31, 2017 and 2016, the Commission reported its proportionate share of GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (dollars in thousands):

	2017	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 1,855	$ 3,622
Net difference between projected and actual earnings on pension plan investments	-	2,435
Changes of assumptions	9,347	5,644
Changes in proportion	4,924	6,705
Contributions subsequent to the measurement date	2,659	-
Total	$ 18,785	$ 18,406

	2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 242	$ 6,651
Net difference between projected and actual earnings on pension plan investments	9,140	-
Changes of assumptions	17,657	-
Changes in proportion	9,847	1,386
Contributions subsequent to the measurement date	2,723	-
Total	$ 39,609	$ 8,037

At December 31, 2017, the Commission reported approximately $2,659,000 as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability at December 31, 2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows (dollars in thousands):

2018	$ 2,230
2019	873
2020	(2,993)
2021	(2,390)
	$ (2,280)

Fiscal years ended December 31, 2017 and 2016

PEPFF

At December 31, 2017 and 2016, the Commission reported a liability of approximately $16,471,000 and $49,884,000, respectively, for its proportionate share of PEPFF's net pension liability. The net pension liability was measured as of June 30, 2017 and 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Commission's proportion of the net pension liability was based on the Commission's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2016 through June 30, 2017 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the Commission's proportion was 1.220%, which was a decrease of 0.023% from its proportion of 1.243% measured as of June 30, 2016.

For the years ended December 31, 2017 and 2016, the Commission recognized pension expense of $3,075,107 and $7,551,657, respectively, for its proportionate share of PEPFF's pension expense. The Commission also recognized $109,800 and $111,870 for the years ended December 31, 2017 and 2016, respectively, as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's on-behalf contributions to PEPFF

At December 31, 2017 and 2016, the Commission reported its proportionate share of PEPFF's deferred outflows of resources and deferred inflow of resources related to pensions from the following sources (dollars in thousands):

	2017	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 387	$ 4,404
Net difference between projected and actual earnings on pension plan investments	-	1,399
Changes of assumptions	22,874	23,385
Changes in proportion	268	580
Contributions subsequent to the measurement date	1,082	-
Total	$ 24,611	$ 29,768

	2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 11	$ 5,722
Net difference between projected and actual earnings on pension plan investments	4,300	-
Changes of assumptions	29,467	-
Changes in proportion	358	305
Contributions subsequent to the measurement date	1,072	-
Total	$ 35,208	$ 6,027

Fiscal years ended December 31, 2017 and 2016

At December 31, 2017, the Commission reported approximately $1,082,000 as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability at December 31, 2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows (dollars in thousands):

2018	$ (715)
2019	910
2020	(356)
2021	(1,411)
2022	(4,667)
	$ (6,239)

Actuarial Assumptions (Both Plans)

The total pension liabilities in the June 30, 2017 actuarial valuations were determined using the following actuarial assumptions:

Inflation	2.50% per year
Active member payroll growth	3.25% per year
Long-term expected rate of return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for both plans for males or females, as appropriate, with slight adjustments. Cost of living benefit increases for retirees are assumed to be: 1% effective every January for GERF through 2044 and PEPFF through 2064 and then 2.5% thereafter for both plans.

Actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies. The most recent four-year experience study for GERF was completed in 2015. The most recent five-year experience study for PEPFF was completed in 2016.

The following changes in actuarial assumptions occurred in 2017:

GERF

- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all future years to 1.0% per year through 2044 and 2.5% per year thereafter.
- The Combined Service Annuity (CSA) loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15.0% for vested deferred member liability and 3.0% for non-vested deferred member liability.

Fiscal years ended December 31, 2017 and 2016

PEPFF

- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all future years to 1.0% per year through 2064 and 2.5% per year thereafter.
- The single discount rate changed from 5.6% to 7.5%.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The Combined Service Annuity (CSA) load was 30% for vested and non-vested deferred members. The CSA has been changed to 33% for vested members and 2% for non-vested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3.0% for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65% to 60%.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing Joint and Survivor annuities was increased.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic stocks	39%	5.1%
International stocks	19%	5.3%
Fixed income	20%	0.8%
Alternative assets	20%	5.9%
Cash	2%	0.0%
	100%	

Fiscal years ended December 31, 2017 and 2016

Discount Rates

The discount rate used to measure the total pension liability for GERF was 7.5% in 2017 and 2016. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at rates set in Minnesota Statutes. Based on these assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

For the 2017 PEPFF actuarial valuation, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments of 7.5% was used as the discount rate to measure the total pension liability for PEPFF in 2017. For the 2016 PEPFF actuarial valuation, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through June 30, 2056. Therefore, the long-term expected rate of return of 7.5% was used as the discount rate for payments through June 30, 2056, and a municipal bond rate of 2.85% was used as the discount rate for payments after June 30, 2056. An equivalent single discount rate of 5.6% produced the same present value of projected benefits and was used to measure the total pension liability for PEPFF in 2016.

Pension Liability Sensitivity

The following presents the Commission's proportionate share of the net pension liability for both plans it participates in, calculated using the discount rate disclosed in the preceding paragraphs, as well as what the Commission's proportionate share of the net pension liabilities would be if they were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate (dollars in thousands):

	1% Decrease	Current Discount Rate	1% Increase
Commission's proportionate share of the GERF net pension liability	$ 87,325	$ 56,300	$ 30,900
Commission's proportionate share of the PEPFF net pension liability	31,021	16,471	4,460

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

Fiscal years ended December 31, 2017 and 2016

NOTE L: OTHER POSTEMPLOYMENT BENEFITS (OPEB)

In accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, the Commission recognizes postemployment benefits on the full accrual basis of accounting over a period that approximates an employee's years of service.

The Commission provides health insurance benefits for certain retired employees under a single-employer, self-insured plan. All non-union employees who retire at age 55 or later, have three years of service or who are receiving benefits from the PERA and who do not participate in any other health benefits program providing coverage similar to that herein described are eligible to continue coverage with respect to both themselves and their eligible dependent(s) under the Commission's health benefits program. Union employees require ten years of service to be eligible for benefits. The Commission does not issue a stand-alone financial report for its retiree health plan.

Funding Policy

The contribution requirements of employees and retirees are established and may be amended by the Commission. The required contribution is based upon projected pay-as-you-go financing requirements and funding for future benefits. For employees hired prior to January 1, 1991, the Commission makes contributions (as specified in union agreements or the Commission's personnel policy) toward required premiums at the same percentages applicable to active employees and their eligible dependent(s) until becoming eligible for Medicare Part A or B, or both. The Commission pays 100% of the premium for the retired employee, a spouse over age 65, and any legal dependents, provided that the retired employee is receiving benefits from the PERA and is enrolled in Medicare Part A and B as his/her primary health insurance. As of January 1, 1991, all employees hired by the Commission are only able to participate in the Commission medical plan up to age 65. During 2004, the Commission approved that non-organized employees hired after October 1, 2004 will be able to participate in the Commission medical plan provided that the retiree pay 100% of the total premium cost plus a 2% administrative fee. During 2006 and 2007, the Commission was successful in getting language in all eligible labor agreements that provides that organized employees hired after the date of the signed contract will be able to participate in the Commission's health plan provided that the retiree pays 100% of the total premium cost plus a 2% administrative fee. As of December 31, 2017, there were 264 retired employees and 562 active employees receiving health benefits from the Commission's health plan.

Fiscal years ended December 31, 2017 and 2016

The Commission contributed approximately $3,941,000 to the plan in fiscal year 2017, $3,671,000 to the plan in fiscal year 2016 and $3,664,000 in fiscal year 2015. Retirees contributed approximately $232,000 for fiscal year 2017, $202,000 for fiscal year 2016 and $178,000 for fiscal year 2015. Monthly contributions for retirees under 65 for 2017 are shown below:

Plan	Single	Family
Blue Plan	$ 44.00	$ 272.00
HSA	23.00	171.00

Annual OPEB Cost and Net OPEB Obligation

The Commission's annual OPEB cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined as of January 1, 2017, in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not-to-exceed 30 years. The following table shows the components of the Commission's annual OPEB cost for 2017, 2016 and 2015, the amount actually contributed to the plan, and changes in the Commission's net OPEB obligation (dollars in thousands):

	2017	2016	2015
Annual required contribution (ARC)	$ 6,865	$ 6,376	$ 7,325
Interest on net OPEB obligation	2,175	2,122	2,320
Adjustment to ARC	(3,379)	(3,296)	(3,354)
Annual OPEB cost	5,661	5,202	6,291
Contributions during the year	(3,941)	(3,671)	(3,664)
Increase in net OPEB obligation	1,720	1,531	2,627
Net OPEB - beginning of year	62,154	60,623	57,996
Net OPEB - end of year	$ 63,874	$ 62,154	$ 60,623

The percentage of the Commission's annual OPEB cost contributed to the plan was: 69.62% for 2017; 70.57% for 2016; and 58.24% for 2015.

Funding Status and Funding Progress

The Commission has set aside cash and investments to pay for future health benefits of approximately $64,219,000; $62,473,000 and $60,907,000 in 2017, 2016 and 2015, respectively. However, since such designated cash has not been irrevocably deposited in trust for future health benefits, the actuarial value of plan assets is $0.

Fiscal years ended December 31, 2017 and 2016

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and health care cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the accompanying notes to the financial statements, presents multi-year information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits over time.

The funded status and funding progress of the plan based on the most recent annual actuarial valuation for the plan, dated as of January 1, 2017, was as follows (dollars in thousands):

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability Projected Unit Credit	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
01/01/2017	$ -	$ 106,199	$ 106,199	0.0%	$ 50,175	211.7%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2017 actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions used include an initial annual health care cost trend rate of 6.8%, which decreases to 5.5% over 5 years. Additional assumptions used include a discount rate of 3.50% and an inflation rate of 2.75%. The unfunded actuarial accrued liability (UAAL) is being amortized as a level dollar amount over the maximum allowable period of 30 years on an open basis.

Fiscal years ended December 31, 2017 and 2016

NOTE M: RISK MANAGEMENT

Risk management is the responsibility of the Commission. The Commission is self-insured for workers' compensation and health/dental claims. Claims paid for workers compensation for 2017 and 2016 were approximately $391,000 and $551,000, respectively. Claims paid for health and dental coverage for 2017 and 2016 were approximately $6,690,000 and $6,761,000, respectively. The unpaid claims for workers compensation at December 31, 2017 and 2016 were approximately $965,000 and $1,184,000, respectively. The health and dental unpaid claims at December 31, 2017 and 2016 were approximately $953,000 and $756,000, respectively. The liability recorded under employee compensation and payroll taxes by the Commission includes estimated settlements for claims reported but not settled as of December 31, 2017 and 2016, as well as an estimate of claims incurred but not reported. The entire liability is included in the current liabilities section of the statements of net position, since any amounts considered to be noncurrent are believed to not be material. Changes in the balances of claim liabilities during 2017 and 2016 was as follows (dollars in thousands):

	2017	2016
Unpaid claims - beginning of year	$ 1,940	$ 1,680
Incurred claims and changes in estimates	7,058	7,572
Claims paid	(7,080)	(7,312)
Unpaid claims - end of year	$ 1,918	$ 1,940

Operationally, the Commission is exposed to various risks of loss relating to theft, damage and destruction of assets, as well as natural disasters and certain tort liabilities for which commercial insurance is carried. The commercial insurance policies carry a deductible of $50,000. Settled claims have not exceeded this commercial coverage in any of the past three years. Insurance policies procured, including commercial general liability and commercial property damage, are inclusive of coverage for certain war casualty and acts of terrorism. Coverage terms, limits, and deductibles have each been benchmarked in comparison with those maintained at other large-size airports and found to be within the range of our peers. Although coverage limits are significant, no assurance can be given that such coverage will continue to be available at such amounts and/or at a reasonable cost.

Casualty loss involving damage to or destruction of physical property in the course of construction is covered under the Commission's property insurance policy. This policy does not apply to the Commission contractors. This policy contains a deductible of $250,000 per occurrence applicable to all covered causes of loss, including flood and earth movement.

The Commission requires entities providing professional services to the Commission to obtain an owner's protective professional indemnity policy. Contracted professional service firms participating in this project are required to provide evidence of at least $1,000,000 of coverage and names the Commission as an additional insured on the general liability policy, leaving the Commission minimally exposed.

Fiscal years ended December 31, 2017 and 2016

NOTE N: CONTINGENT LIABILITIES AND COMMITMENTS

The nature of the business of the airport generates certain litigation against the Commission arising in the ordinary course of business. The Commission believes that existing and pending lawsuits and claims are either billable to airport users or would not materially affect the financial statements of the Commission.

Contractual obligations for construction were approximately $291,349,000 at December 31, 2017.

Noise Abatement

On October 19, 2007, the Minnesota State District Court, Fourth Judicial District (the District Court) approved a Consent Decree negotiated by the City of Minneapolis, the Minneapolis Public Housing Authority in and for the City of Minneapolis, the City of Eagan and the City of Richfield (collectively, the “Noise Plaintiffs”) and the Commission to settle noise abatement lawsuits.

Under the Consent Decree, the Commission must provide noise mitigation to homes and apartments in the 60 to 64 DNL contours. Noise mitigation activities vary based on noise contours, with homes in the most noise-impacted contours eligible for more extensive mitigation than those in less impacted areas. Multi-family dwellings (those with more than three living units) receive less extensive mitigation than single-family homes. The total cost to the Commission under this program was $102,000,000 as of December 31, 2017. All the original program terms under the Consent Decree were completed by the Commission in 2014.

The Consent Decree was amended in 2013 by establishing criteria to provide noise mitigation to homes and apartments through December 31, 2024. It is expected that some additional homes will become eligible for noise mitigation based upon changes in the DNL contours. Also, some homes will move into a higher DNL contour. A home will become eligible for consent decree noise mitigation if it is located or changes DNL contour levels for three consecutive years. The noise mitigation provided to the home or apartment will be consistent with the terms and levels of the original consent decree. The total cost to the Commission under the amended program was $2,000,000 as of December 31, 2017.

The costs related to the noise abatement settlements will be funded from internally generated funds of the Commission.

NOTE O: MAJOR CUSTOMER

Delta Airlines, Inc. (Delta) is in the business of transporting air passengers, mail and property. Delta operates both domestic and international air route systems. Minneapolis/St. Paul International Airport (MSP) is one of Delta’s major hubs. Airport revenues from Delta account for approximately 21% of operating revenues and 66% of total revenues from major airlines. Approximately 71% of total 2017 enplanements are attributable to Delta’s operation. In the event that Delta discontinues its operations, there are no assurances that another airline would replace its hub activities. It is therefore reasonable to assume that any financial or operational difficulties incurred by Delta, the predominant airline servicing MSP, could have a material adverse effect on the Commission.

Fiscal years ended December 31, 2017 and 2016

NOTE P: RENTAL INCOME FROM OPERATING LEASES

The Commission leases space at the airport terminal buildings as well as other land and building leases on a fixed fee as well as a contingent rental basis. Many of the leases provide for a periodic review and adjustment of the rental amounts. Substantially all capital assets are held by the Commission for the purpose of rental or related use. At December 31, 2017, minimum future rentals scheduled to be received on operating leases that have initial or remaining non-cancelable terms in excess of one year are (dollars in thousands):

2018	$ 107,850
2019	103,940
2020	111,288
2021	110,317
2022	55,760
Thereafter	173,429
	$ 662,584

Contingent rentals and fees aggregated approximately $104,900,000 and $101,600,000 in 2017 and 2016, respectively.

Note: Ten years of information is required to be disclosed and will be added as the information becomes available.

NOTES TO SCHEDULE:

Benefit changes: none

Fiscal year ended December 31, 2017
(Dollars in Thousands)

Changes of assumptions: The following changes in assumptions were made from the June 30, 2016 valuations.

GERF

- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all future years to 1.0% per year through 2044 and 2.5% per year thereafter.
- The Combined Service Annuity (CSA) loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15.0% for vested deferred member liability and 3.0% for non-vested deferred member liability.

PEPFF

- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all future years to 1.0% per year through 2064 and 2.5% per year thereafter.
- The single discount rate changed from 5.6% to 7.5%.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The Combined Service Annuity (CSA) load was 30% for vested and non-vested deferred members. The CSA has been changed to 33% for vested members and 2% for non-vested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3.0% for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65% to 60%.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing Joint and Survivor annuities was increased.

[1] The figures may differ from the passenger statistics reported by the Air Carriers to the Airport.

[2] Percentages may not sum to totals due to rounding.

[3] Codeshare with Northwest/Delta. Its decrease was picked up by Northwest Airlines (NWA) and NWA-affiliated carrier, Endeavor Air (formerly Pinnacle Airlines), which commenced its operations at MSP International Airport in July 2001. Comair ceased operations in September 2012.

[4] Codeshare with United.

[5] Codeshare with US Airways/American.

[6] Codeshare with American/formerly American Eagle.

[7] Continental and United began operating under a single carrier code in 2012.

[8] Atlantic Southeast Airlines and ExpressJet Airlines began operating under a single carrier code in 2011.

[9] AirTran Airways merged with Southwest Airlines in 2012 with full integration in 2014.

[10] US Airways and American began operating under a single carrier code in 2015.
