

Office Memorandum

Date: March 23, 2018

To: Senator Julie Rosen
Senator Richard Cohen
Representative Jim Knoblach
Representative Lyndon Carlson

From: Commissioner Myron Frans 

Subject: Disaster Contingency Account Transfers and Payments

Dear Senators and Representatives:

The purpose of this memo is to provide information about the current balance of the disaster assistance contingency account, transfers to the disaster assistance contingency account from unused general fund disaster appropriations and payments made from the disaster assistance contingency account in calendar year 2017, in accordance with the requirements under M.S. 16A.28 subd. 9 and M.S. 12.221 subd. 6(b).

Current Disaster Assistance Contingency Account Balance

The current unencumbered available balance in the disaster assistance contingency account is \$13,688,673.

Transfers to the Disaster Assistance Contingency Account

The following transfers were made to the disaster assistance contingency account from previous disaster appropriations. These transfers were made in accordance with M.S. 16A.28 subd. 9.

Calendar Year 2017 Expenditures

A report is attached detailing spending from the disaster contingency account in calendar year 2017 in accordance with the requirement under M.S. 12.221 subd.6(d). A total of \$6,064,846 has been allocated and encumbered for federal and state declared disasters in 2017. Of that amount and previous years' transfers, \$11,554,385 has been paid out to aid recipients.

The fundamental reason for the difference between the amounts allocated and encumbered for specific disasters and the actual spending is cycle time. The typical fiscal life cycle for a state disaster, from declaration to closeout, is 12 months. For a federal disaster it is 72 months. Once HSEM determines the amount to be spent on each event, they establish a specific disaster sub-appropriation and transfer that amount from the Disaster Account. The amount transferred from the Disaster Account for each declared disaster is based on formal, on the ground, documented damage assessments and is not a general estimate. The figures are particularly accurate for state disasters, which are much easier to budget for because of their more limited scope and minimal changes to the project worksheets. The practice of establishing a separate appropriation for each disaster and setting aside the amount needed to pay the state's obligation gives a much clearer picture of the progress towards closing out each disaster and knowing how much funding is available for future events.

The table below shows the disasters that received funds from the disaster assistance contingency account in calendar year 2017. Incidents named with an "SD" are state declared disasters and incidents named with a "DR" are federally declared disasters.
