As required by Minnesota Statute 3.197: This report cost approximately \$321.65 to prepare, including staff time, printing and mailing expenses.

Upon request, this material will be made available in an alternative format such as large print, Braille or audio recording. Printed on recycled paper.

Application Evaluation Report

Minn. Stat. §116J.395, subd. 8 requires the Office of Broadband Development to publish an application evaluation report by June 30 of each year. The report is to contain a list of all Border to Border Broadband Development Grant applications received during the previous year and, for each application, the results of any quantitative weighting scheme or scoring system used to award the grants or to rank the applications, the grant amount requested, and the grant amount awarded, if any. The report is to be published on the Department of Employment and Economic Development’s website and provided to the chairs and ranking minority members of the senate and house committees with primary jurisdiction over broadband.

The information below is provided in compliance with Minn. Stat. §116J.395, subd. 8. In addition to the total score as a factor in determining which projects were funded, those projects which were found to be credibly challenged were not funded (Palmer Wireless Sherburne Co. Rd. 8, Mediacom Eden Valley, Mediacom Wykoff, SCI Greenway) or only partially funded (Paul Bunyan Communications North Central and SCI Shamrock Township). Other factors that may have resulted in a higher scoring project not being funded was the requirement that the grants be awarded to all areas of the state [Minn. Stat. 116J.395, subd. 6.(c)] or there was insufficient funding available to award to a project so the next smaller project(s) were funded.

2017 Applications Received	Score	Amount Requested	Amount Awarded
AcenTek Houston	98	\$3,427,184	\$0
AcenTek Rushford	98	\$2,011,628	\$2,011,628

N/A* means the application did not meet the requirement in Minn. Stat. §116J.395, subd. 5(9), which requires the applicant to provide evidence that they had contacted, in writing and at least six weeks prior to submitting an application, all entities providing broadband service in the proposed project area for information about the existing providers' plan to upgrade broadband service in the project area as part of their grant application. This evidence was not submitted with the application as required, and the application was therefore not scored.
