State General Fund Budget Situation August 2018

In 2017, the Legislature adopted and the Governor signed legislation to enact a budget for fiscal years 2018 and 2019. The 2018 Legislature made some adjustments to that budget.

The Current Biennium – FY 2018-19

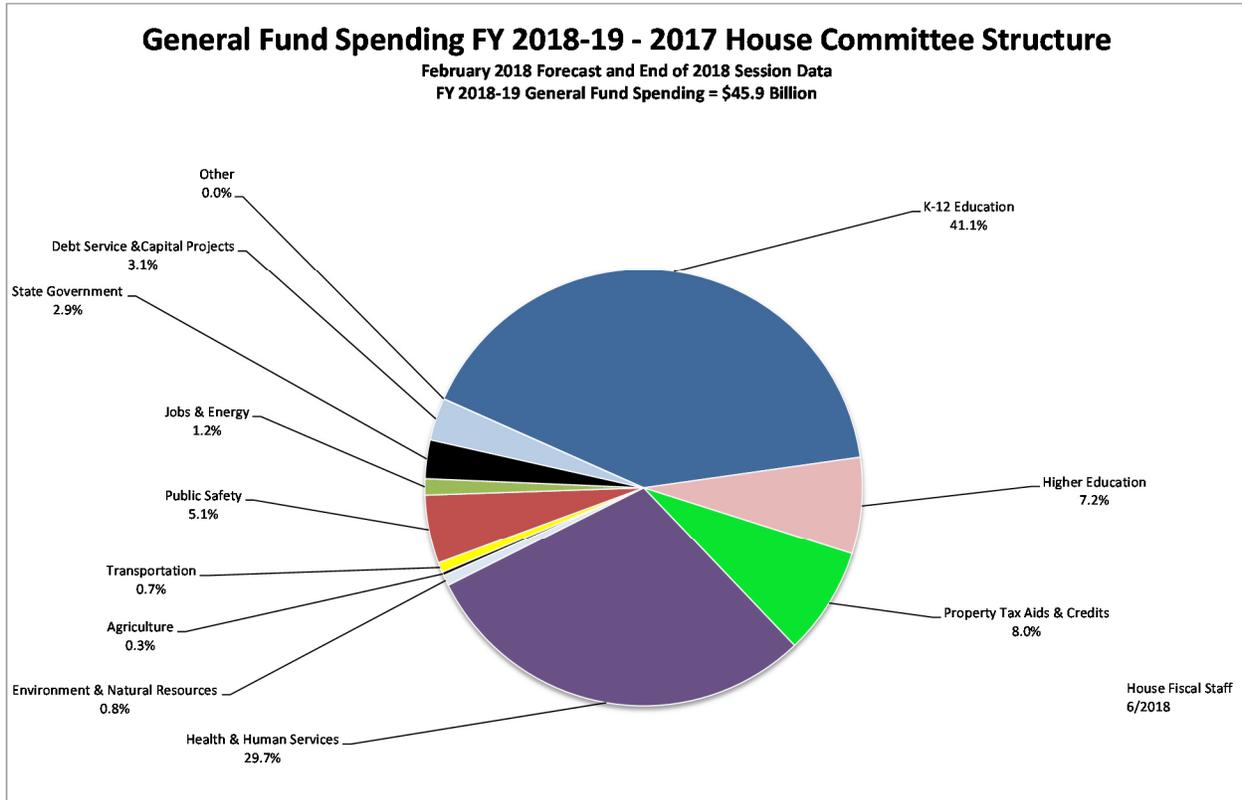

The general fund budget for fiscal years (FY) 2018-19 (the two fiscal years that make up the biennium that began July 1, 2017 and ends June 30, 2019), anticipates \$44.8 billion in revenues and \$45.6 billion of spending. A balance of \$1.35 billion was carried forward into this biennium from the FY 2016-17 biennium.

Major general fund revenue sources are illustrated in the graph below:

The budget reserve is at \$1.583 billion and the cash flow account is at \$350 million. A general fund budget balance of \$288 million is projected for the end of the current FY 2018-19 biennium.

Major categories of general fund spending for the FY 2018-19 biennium are illustrated below:

The FY 2018-19 Budget

The state budget forecast released at the end of February 2018 projected a \$329.3 million general fund budget balance for the FY 2018-19 biennium.

No changes were enacted in state general fund revenue during the 2018 legislative session. \$25 million was transferred from the budget reserve to the general fund for school safety projects.
