### CATEGORY A: Fiscal Responsibility

#	Accomplishment	Description																						
A.1	<p><b>Turned a \$6.2 Billion Budget Deficit into Repeated Budget Surpluses; Left Behind a \$1.5 Billion Budget Surplus and over \$2.5 Billion in Cash and Budget Reserves</b></p>	<p>When Governor Dayton took office in January 2011, Minnesota faced a \$6.2 billion budget deficit. That deficit was the seventh straight forecasted deficit since November 2007. With sound fiscal management, Governor Dayton has restored a balanced budget in Minnesota – delivering repeated budget surpluses. In fact, between November 2013 and February 2017, Minnesota Management and Budget (MMB) forecasted eight straight budget surpluses.</p> <p>The November 2017 forecasted deficit came after Republican majorities in the Minnesota House and Senate insisted on \$648 million in tax cuts for the next biennium and \$790 million in the subsequent one. Governor Dayton opposed these cuts because they jeopardized Minnesota’s fiscal stability.</p> <p>The final State Budget and Economic Forecast under Governor Dayton’s tenure, delivered in December 2018, showed a \$1.5 billion surplus and more than \$2.5 billion in cash and the Budget Reserve. The Budget Reserve alone stands at \$2.075 billion – the highest in state history. Ten out of the last eleven budget forecasts under Governor Dayton’s leadership have projected budget surpluses.</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse; text-align: center;"> <thead> <tr style="background-color: #0056b3; color: white;"> <th colspan="2">Budget Forecasts</th> </tr> </thead> <tbody> <tr> <td>November 2010</td> <td>(\$6.19 billion)</td> </tr> <tr> <td>February 2011</td> <td>(\$5.03 billion)</td> </tr> <tr> <td>November 2011</td> <td>\$0</td> </tr> <tr> <td>February 2012</td> <td>\$0</td> </tr> <tr> <td>November 2012</td> <td>(\$1.1 billion)</td> </tr> <tr> <td>February 2013</td> <td>(\$627 million)</td> </tr> <tr> <td>November 2013</td> <td>\$825 million</td> </tr> <tr> <td>February 2014</td> <td>\$1.23 billion</td> </tr> <tr> <td>November 2014</td> <td>\$1.04 billion</td> </tr> <tr> <td>February 2015</td> <td>\$1.87 billion</td> </tr> </tbody> </table>	Budget Forecasts		November 2010	(\$6.19 billion)	February 2011	(\$5.03 billion)	November 2011	\$0	February 2012	\$0	November 2012	(\$1.1 billion)	February 2013	(\$627 million)	November 2013	\$825 million	February 2014	\$1.23 billion	November 2014	\$1.04 billion	February 2015	\$1.87 billion

<b>A.2</b>	<b>Secured the Largest State Budget Reserves in History to Protect Minnesota from Future Economic Downturns</b>	<p>When Governor Dayton took office in January 2011, Minnesota had almost nothing in the State Budget Reserve account. In 2013, the Governor and DFL Legislature changed the law to require more funds to be put into the State Budget Reserves to protect Minnesota from future economic downturns.</p> <p>By December 2018, the State Budget Reserve reached its highest level in Minnesota history, at \$2.075 billion – providing the security Minnesota needs to protect the state’s fiscal integrity, and the services we all rely on. All told, Governor Dayton concluded his term with \$2.5 billion in cash and Reserves to protect Minnesota’s fiscal stability into the future.</p> <p>Following eight years of strong fiscal management, Minnesota’s economic turnaround was affirmed by two national bond rating agencies. Fitch Ratings and Standard and Poor’s (S&amp;P) gave the State of Minnesota their highest “AAA” bond ratings in July 2018. And in 2018, <a href="#">a Pew Charitable Trust analysis of the National Association of State Budget Officers</a> ranked Minnesota’s state budget reserves as the tenth strongest in the nation.</p>														
<b>A.3</b>	<b>Paid Back All the Debt Owed to Minnesota Schools</b>	<p>When Governor Dayton took office in January 2011, Minnesota owed our public schools \$1.8 billion that previous Legislatures had borrowed in order to balance the state budget. In May 2013, the Governor and DFL Legislature accelerated the repayment of those funds, mandating that any additional budget surplus be dedicated to immediately paying off any outstanding debt to our schools. By December 2013, the state’s debt to public school districts had been repaid in full.</p>														
<b>A.4</b>	<b>Returned Minnesota to Tax Fairness</b>	<p>When Governor Dayton took office in January 2011, the richest Minnesotans paid about 9.5 percent of their income in state and local taxes, compared to 12 percent for most Minnesotans. Tax policies enacted by Governor Dayton during his tenure have restored tax fairness in Minnesota, with the wealthiest Minnesotans now paying about 12 percent of their income in state and local taxes, just like the rest of Minnesotans.</p>														

		<p>This increased revenue went to pay back our schools, expand all-day kindergarten, balance the budget, provide tax cuts for middle-income Minnesotans, and more.</p>
<p><b>A.5</b></p>	<p><b>Cut Taxes by \$1.5 Billion for 2.3 Million Minnesotans</b></p>	<p>When Governor Dayton took office in January 2011, he promised to raise taxes 2 percent on the wealthiest 2 percent of Minnesotans, and then invest those revenues in a better Minnesota. Governor Dayton and the DFL Legislature delivered on that promise in 2013.</p> <p>While raising taxes on the rich, Governor Dayton cut taxes for middle and lower-income Minnesotans. During Governor Dayton’s tenure, 98 percent of Minnesotans have seen no increase in their income tax rates. In fact, other than the wealthiest 2 percent of Minnesotans, the state’s personal income tax rates for 98 percent of Minnesotans have remained exactly the same for 19 years.</p> <p>Since 2013, Governor Dayton has signed into law \$1.5 billion in tax cuts benefiting over 2.3 million hard working Minnesota families and farmers. These tax cuts have included:</p> <ul style="list-style-type: none"> <li>• <b>Increased Renter Tax Credit in 2013</b> – Tax cuts signed by Governor Dayton increased refunds for approximately 24 percent of filers (about 80,000 taxpayers). The average renter property tax refund increase was \$152. Renters earning more than \$59,000 are not eligible for the credit. This change cut taxes by \$15.5 million in the first year.</li> <li>• <b>Expanded Homestead Credit Property Tax Refund in 2013</b> – The cuts signed by Governor Dayton expanded homeowner refunds to approximately 76 percent (312,000) of current filers. Approximately 112,000 new claimants became newly eligible. The average refund increased by approximately \$219. Homeowners earning over \$109,000 are not eligible for the refund. This change cut taxes by \$85.6 million in the first year.</li> <li>• <b>Strengthened Working Family Tax Credit in 2014</b> – Governor Dayton worked with the Legislature to increase the maximum credit for lower income families, and extended the credit to reach more middle income families. This expansion of the credit helped approximately 330,000 taxpayers, providing \$50 million in additional relief.</li> <li>• <b>Expanded the Working Family Credit in 2017</b> – Governor Dayton secured the expansion of the Working Family Tax Credit to include 21 to 24 year olds without children, making less than \$15,000 a year. These Minnesotans saw an average credit of \$79 in 2017.</li> </ul>

		<ul style="list-style-type: none"> <li>• <b>Increased Child and Dependent Care Tax Credit in 2017</b> – The cuts signed by Governor Dayton increased the credit for all eligible and extended it to more low and middle income families. Thanks to this expansion, 26,900 more Minnesota taxpayers receive this credit. For 43,000 Minnesotans the average credit increased by \$342. Overall, this change provided Minnesotans \$17 million in additional assistance in the first year.</li> <li>• <b>Signed New Student Loan Credit into Law in 2017</b> – The Governor provided important tax relief to Minnesotans paying back undergraduate or graduate degree loans. Thanks to this new credit worth up to \$500, about 65,000 Minnesotans receive \$27 million to help pay back their students loans.</li> </ul>
<p><b>A.6</b></p>	<p><b>Invested More than \$175 Million in Direct Property Tax Relief</b></p>	<p>Before Governor Dayton took office, Minnesota’s tax system was broken, outdated, and unfair. The richest 2 percent paid a lower percentage of their income in state and local taxes than lower- and middle-income earners. Most low- and middle-income earners in Minnesota paid about 10 percent more of their income in state and local taxes than the richest Minnesotans.</p> <p>Governor Dayton has worked to improve tax fairness – asking the richest 2 percent of Minnesotans to pay 2 percent more in income taxes. With this additional revenue, Governor Dayton worked with the Legislature to make critical investments in job creation and education, and provide more than \$188.8 million in direct property tax relief for Minnesotans.</p> <ul style="list-style-type: none"> <li>• <b>Invested \$85.6 Million in Homestead Credit Property Tax Refund</b> – In 2013, Governor Dayton worked with the Legislature to expand the Homestead Credit Property Tax Refund to 76 percent of all filers. Thanks to this change, approximately 112,000 new claimants became eligible. The average refund increased by approximately \$219. Homeowners earning over \$109,000 are not eligible for the refund. This change cut taxes by \$85.6 million in the first year.</li> <li>• <b>Increased Renter Tax Credit by \$15.5 million</b> – Tax cuts signed by Governor Dayton increased refunds for approximately 24 percent of filers (about 80,000 taxpayers). The average renter property tax refund increase was \$152. Renters earning more than \$59,000 are not eligible for the credit. This change cut taxes by \$15.5 million in the first year.</li> <li>• <b>Increased Homestead Credit for Homeowners</b> – In 2014, Governor Dayton worked with the Legislature to increase the Homestead Credit by 3 percent for homeowners, providing \$12.1</li> </ul>

		<p>million in property tax relief. The additional assistance benefited 500,000 homeowners, with an average refund of \$837 in 2014.</p> <ul style="list-style-type: none"> <li>• <b>Increased Homestead Credit for Family Farms</b> – In 2014, Governor Dayton worked with the Legislature to increase the Homestead Credit for farmers who live on their land by approximately \$16.9 million. An estimated 90,000 farms would benefit with the typical farmer seeing an additional \$200 in aid.</li> <li>• <b>Increased Renter’s Credit</b>– In 2014, Governor Dayton worked with the Legislature to increase the Renter’s Credit by 6 percent, providing \$12.5 million in property tax relief. The additional assistance benefited 350,000 homeowners, with an average refund of \$643 in 2014.</li> <li>• <b>Reduced Property Taxes for Minnesota Farmers by \$35 Million</b> – Farm property taxes in Minnesota have increased 114 percent in the last decade. This problem has been compounded by low commodity prices and high agricultural land values. To help relieve property tax burdens on Minnesota farmers, Governor Dayton worked with the Legislature in 2017 to provide a tax credit worth \$35 million for owners of agricultural property. The credit is equal to 40 percent of farm property taxes attributable to school district debt levies.</li> </ul>
<p><b>A.7</b></p>	<p><b>Invested \$380 Million in Local Governments to Reduce Property Tax Increases, Protect Essential Services</b></p>	<p>Minnesotans rely on their city and county governments to provide essential services like police and fire protection. Since taking office, Governor Dayton has worked with the Legislature to provide cities an additional \$100 million in Local Government Aid, including \$53 million for Greater Minnesota communities, townships an additional \$10 million in Township Aid, and counties an additional \$65 million in County Program Aid to support these important community services and relieve the burden on Minnesota property owners.</p> <p>Governor Dayton also worked with the Legislature to exempt local governments from having to pay state sales taxes, saving them approximately \$140 million each year.</p>

**Local Government Aid, 2008 – 2018**

**County Program Aid, 2008 – 2018**

<b>A.8</b>	<b>Invested \$4.5 Million in Tax Credits for Border Communities</b>	<p>The Border Cities Enterprise Zone Program provides business tax credits to qualifying businesses in the Border-Cities Enterprise Zone cities of Breckenridge, Dilworth, East Grand Forks, Moorhead, and Ortonville. The program makes the following types of development incentives available: property tax credits, debt financing credit on new construction, sales tax credits on construction equipment and materials, and new or existing employee credits.</p> <p>Governor Dayton invested an additional \$1.5 million in Border City Enterprise Zones during the 2013 Legislative Session. Again, in 2017, Governor Dayton worked with Legislature to provide an additional \$3 million in aid for these communities.</p>				

<b>A.9</b>	<b>Invested \$7 Million in the Greater Minnesota Sales Tax Exemption</b>	<p>The Greater Minnesota Business Expansion Sales Tax Refund Program provides tax benefits to businesses located in Greater Minnesota that increase employment. Qualifying businesses that meet job-growth goals may receive sales tax refunds for purchases made during a seven-year period. Businesses may be eligible for up to \$2 million in sales tax refunds per year and up to \$10 million over the seven-year certification period. In 2013, Governor Dayton worked with the Minnesota Legislature to invest \$7 million in this program.</p>
<b>A.10</b>	<b>Invested \$905 Million in Preservation of Public Facilities</b>	<p>Governor Dayton championed improving public buildings throughout his two terms because he understood it is exponentially more expensive to restore facilities the longer they are allowed remain in disrepair. It costs an average of 70 percent more to repair a structure in “poor” condition than maintain a building in “fair” condition.</p> <p>During his two terms, the Governor secured \$906 million to repair and maintain state-owned buildings, including \$310 million to restore the Minnesota State Capitol. The Dayton Administration also worked to catalogue the condition of state-owned facilities. Under his leadership, the percentage of facilities with condition data has increased from 20 percent to 85 percent.</p>
<b>A.11</b>	<b>Returned \$249 Million in Unclaimed Property to Minnesotans</b>	<p>Each year, the Minnesota Department of Commerce receives millions of dollars in unclaimed property from businesses and organizations that have lost contact with the owners.</p> <p>Under the Dayton Administration’s leadership, the Commerce Department has implemented reforms that have increased the amount of money returned to Minnesotans by 73.5 percent. The Commerce Department paid out 130,567 claims to Minnesotans totaling more than \$249 million since July 2011 (FY12-FY18). This compares to 77,220 claims totaling \$143.5 million in the equivalent prior time period (FY05-FY11).</p>

## CATEGORY B: Jobs and Economic Growth

#	Accomplishment	Description																																																															
<b>B.1</b>	<b>Reached 2.978 Million Total Jobs for the First Time in Minnesota History</b>	<p>In October 2018, Minnesota had a total 2.978 million jobs – the most ever in the state’s history. The following chart depicts total employment in Minnesota and corresponding unemployment rates each month, dating back to January 2011 when Governor Dayton took office.</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <thead> <tr style="background-color: #002060; color: white;"> <th>Month</th> <th>Employment</th> <th>Unemployment Rate</th> </tr> </thead> <tbody> <tr><td>Jan-11</td><td>2,659,700</td><td>6.9%</td></tr> <tr><td>Feb-11</td><td>2,663,500</td><td>6.8%</td></tr> <tr><td>Mar-11</td><td>2,667,100</td><td>6.7%</td></tr> <tr><td>Apr-11</td><td>2,673,200</td><td>6.7%</td></tr> <tr><td>May-11</td><td>2,681,100</td><td>6.7%</td></tr> <tr><td>Jun-11</td><td>2,679,900</td><td>6.7%</td></tr> <tr><td>Jul-11</td><td>2,664,400</td><td>6.6%</td></tr> <tr><td>Aug-11</td><td>2,689,200</td><td>6.5%</td></tr> <tr><td>Sep-11</td><td>2,701,600</td><td>6.3%</td></tr> <tr><td>Oct-11</td><td>2,696,500</td><td>6.1%</td></tr> <tr><td>Nov-11</td><td>2,698,500</td><td>6.0%</td></tr> <tr><td>Dec-11</td><td>2,703,400</td><td>5.9%</td></tr> <tr><td>Jan-12</td><td>2,703,700</td><td>5.8%</td></tr> <tr><td>Feb-12</td><td>2,707,700</td><td>5.7%</td></tr> <tr><td>Mar-12</td><td>2,717,000</td><td>5.7%</td></tr> <tr><td>Apr-12</td><td>2,725,300</td><td>5.7%</td></tr> <tr><td>May-12</td><td>2,716,600</td><td>5.6%</td></tr> <tr><td>Jun-12</td><td>2,721,300</td><td>5.6%</td></tr> <tr><td>Jul-12</td><td>2,712,400</td><td>5.6%</td></tr> <tr><td>Aug-12</td><td>2,723,600</td><td>5.6%</td></tr> </tbody> </table>	Month	Employment	Unemployment Rate	Jan-11	2,659,700	6.9%	Feb-11	2,663,500	6.8%	Mar-11	2,667,100	6.7%	Apr-11	2,673,200	6.7%	May-11	2,681,100	6.7%	Jun-11	2,679,900	6.7%	Jul-11	2,664,400	6.6%	Aug-11	2,689,200	6.5%	Sep-11	2,701,600	6.3%	Oct-11	2,696,500	6.1%	Nov-11	2,698,500	6.0%	Dec-11	2,703,400	5.9%	Jan-12	2,703,700	5.8%	Feb-12	2,707,700	5.7%	Mar-12	2,717,000	5.7%	Apr-12	2,725,300	5.7%	May-12	2,716,600	5.6%	Jun-12	2,721,300	5.6%	Jul-12	2,712,400	5.6%	Aug-12	2,723,600	5.6%

			Source: <a href="#">Minnesota Unemployment Statistics, LAUS (Local Area Unemployment Statistics) Data; Current Employment Statistics (CES)</a>			
<b>B.2</b>	<b>Added 316,700 New Minnesota Jobs Since 2011</b>	When Governor Dayton took office in January 2011, 204,000 Minnesotans were unemployed. Since January 2011, Minnesota has gained back all of the jobs lost during the Great Recession. In fact, Minnesota employers have added more than 316,700 new jobs.				

This represents a 12 percent increase in total Minnesota jobs during Governor Dayton’s tenure in office.

**B.3 Reached 53-Straight Months with Unemployment At/Below 4 Percent**

When Governor Dayton took office in January 2011, the state’s unemployment rate was at 6.9 percent. Now, for the last 53-straight months, unemployment in Minnesota has been at or below 4 percent.

Most recently, in November 2018, the statewide unemployment rate was 2.8 percent. This is the lowest state unemployment rate since May 1999. Minnesota’s unemployment rate continues to remain lower than the national average of 3.7 percent, and is the 5<sup>th</sup>-lowest unemployment rate of any state in the nation.

The following chart compares the unemployment rates, in communities across Minnesota, between January 2011 and October 2018. It also includes the percent improvement in each community’s unemployment rate over that period.

**B.4**

**Supported the Creation of More than 15,000 Jobs Across Minnesota Through Investments in Job Creation and Business Expansion Programs**

Governor Dayton made economic growth and opportunity in every corner of Minnesota a priority throughout his two terms. Under the Governor's leadership, \$55.5 million has been invested in the Minnesota Investment Fund (MIF) and \$39.9 million in the Minnesota Job Creation Fund (JCF).

Thanks to the investments, MIF has supported 116 projects with approximately 9,500 new jobs created since 2011. It has leveraged more than \$1.6 billion in additional private investment. Similarly, the JCF has supported 93 projects, and with these projects projected to create 5,872 positions and leverage \$1.1 billion in private investment.

	<b>Minnesota Investment Fund</b>	<b>Job Creation Fund</b>	<b>Total</b>

<b>B.5</b>	<b>Invested \$3.5 Billion in Public Works Projects Since 2011, Creating an Estimated 53,500 Minnesota Jobs</b>	<p>Since 2011, Governor Dayton has signed into law five bonding bills totaling \$3.5 billion. According to an economic model used by the U.S. Bureau of Economic Analysis, those investments have helped create an estimated 53,500 jobs. The model estimates that for every \$1 million in construction project spending in Minnesota, it generates approximately 15.3 jobs.</p>

**B.6 Invested \$30.67 Million in Agriculture Innovation, Creating More than \$2,500 Jobs**

In 2013, Governor Dayton worked with the Minnesota Legislature to create the Agricultural Growth Research and Innovation (AGRI) Fund. The AGRI Fund provides grants for start-up, transition and expansion of family farm livestock operations; assistance for farm start-up; research on conventional and cover crops; and renewable energy research.

Under Governor Dayton’s leadership, \$30.67 million was invested in the AGRI Fund, which has supported more than 1,000 projects and 2,500 jobs across Minnesota. These projects are supporting the development of value-added products that strengthen and diversify our state’s agriculture industry. Below is a description of all the grant programs that AGRI Fund resources can be used to support.

- **Beginning Farmer Scholarships** – This program helps farmers in Minnesota learn good business management strategies that will lead to profitable farming operations. Scholarships pay 50 percent of the tuition for up to 40 credits, which make Farm Business Management education more affordable for beginning farmers.
- **Minnesota Value Added-Grant Program** –The goal of the program is to increase sales of Minnesota agricultural products by

		<p>diversifying markets, increasing market access, and increasing food safety. The Value-Added Grant Program focuses on areas of greatest opportunity and potential economic impact to create agricultural jobs, profitable businesses, and encourage development of value-added agriculture. Farmers, agricultural businesses, cooperatives, and entrepreneurs with new business or market plans, diversification or expansion goals are the primary target for the program.</p> <ul style="list-style-type: none"> <li>• <b>Livestock Investment Grant</b> – The program helps encourage long-term development in Minnesota’s \$7 billion livestock sector. These grants have enabled livestock farmers to pay for new buildings or make renovations to existing ones. In some cases, the recipients used the grants for modernizations and improvements that would help expedite the farm transition process to the next generation. Eligible producers can get up to 10 percent of the first \$500,000 of their investment reimbursed.</li> <li>• <b>Farm to School Grants</b> – The grants support Minnesota school districts in the processing of Minnesota agricultural products. Grants can be used to create plans that identify specific equipment, tools, training, or policies needed by school districts. They also can be used to purchase equipment necessary to prepare and serve more Minnesota grown and raised food.</li> <li>• <b>New Markets Program</b> – The Minnesota Tradeshow &amp; Demonstration Support Program is designed to help small to medium-sized Minnesota food companies, farmers, and ranchers who add value to their products, agricultural cooperatives, and others, to investigate new markets by attending and participating in more local, regional, and international wholesale food events, and do more retail product sampling events.</li> <li>• <b>Minnesota Pavilion Program</b> – The Minnesota Pavilion program is designed to help Minnesota companies showcase their products at wholesale tradeshows. By sharing booth space with other Minnesota companies, small businesses can save money while creating brand synergy, helping them stand out at crowded tradeshows.</li> <li>• <b>Sustainable Agriculture Demonstration Grant Program</b> – These grants support innovative on-farm research and demonstrations. Projects must explore sustainable agricultural practices and systems. The program is designed to help farmers maximize profitability, energy efficiency, and the benefits of sustainable agriculture practices and systems from production through marketing.</li> <li>• <b>Biofuel Infrastructure Partnership Grant Program</b> – The program provides grants for ethanol compatible pumps, underground</li> </ul>
--	--	--

		<p>storage tank installations, and retrofitting fuel pumps and storage tanks for the purpose of offering E15 and E85 for retail sales.</p> <ul style="list-style-type: none"> <li>• <b>Bioincentive Program</b> – This program, established by Governor Dayton and the Legislature in 2015, provides production payments to encourage commercial-scale production of advanced biofuels, renewable chemicals, and thermal energy production from biomass.</li> <li>• <b>Crop Research Grants</b> – The grants fund applied crop research that will improve agricultural product quality, quantity, or value. Any Minnesota organization, research entity, individual, or business with agricultural research capability is eligible to apply and receive funding.</li> <li>• <b>Farm to Early Care and Education Grants</b> – These grants support early care and education organizations in the processing of Minnesota agricultural products. Grants are intended to create plans that identify specific equipment, tools, training, or policies needed by early care and education programs. They also facilitate the purchase of equipment to allow early care and education programs to purchase, prepare, and serve more Minnesota grown and raised food.</li> <li>• <b>Good Agricultural Practices/Good Handling Practices Certification Cost Share Program</b> – This cost share program helps producers and handlers implement food safety plans that enhance the integrity of our food supply. Eligible producers can receive reimbursement for up to 75 percent of their certification costs.</li> </ul>
<p><b>B.7</b></p>	<p><b>Invested an Additional \$150,000 in AURI to Support Innovation in Agriculture</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested an additional \$150,000 per year in the Agricultural Utilization and Research Institute (AURI), which helps develop new uses for agricultural products through science and technology by partnering with businesses and entrepreneurs. AURI helps generate economic impact in Minnesota communities by helping businesses take advantage of innovative opportunities in four focus areas: bio-based products, renewable energy, coproducts, and food.</p>
<p><b>B.8</b></p>	<p><b>Invested an Additional \$800,000 in the Agriculture Research, Education, Extension, and Technology Transfer program; and \$1 million for Avian Flu Research at the University of Minnesota</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested an additional \$800,000 per year in the Agriculture Research, Education, Extension, and Technology Transfer program. The purpose of the grant program is to provide investments to efficiently achieve long-term agricultural productivity increases through improved infrastructure, vision, and accountability. The legislation requires that:</p> <ul style="list-style-type: none"> <li>• At least \$600,000/year is for the Minnesota Ag Experiment Station’s Ag rapid response fund;</li> </ul>

		<ul style="list-style-type: none"> <li>• \$2 million/year is for the Minnesota Ag Education Leadership Council to enhance Ag education.</li> <li>• Up to \$350,000/year is for potato breeding research;</li> <li>• Up to \$450,000/year is for the wild rice breeding project at the North Central Research and Outreach Center; and</li> <li>• Up to \$1 million each year is for avian flu related research at the University of Minnesota.</li> </ul>
<p><b>B.9</b></p>	<p><b>Invested \$1.35 million in Strategies to Combat Noxious Weeds and Pests</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested an additional \$1.35 million in strategies to address known and emerging noxious weeds and invasive plants and pests.</p> <ul style="list-style-type: none"> <li>• \$600,000 was invested in the Noxious Weed and Invasive Plant Species Assistance Account to award grants to local units of government to manage noxious weeds. Preference is to be given to counties responding to Palmer Amaranth or other weeds on the eradicate list;</li> <li>• An additional \$250,000 was invested to enhance the Department of Agriculture’s capacity to address noxious weeds.</li> <li>• \$500,000 in one-time funding was invested to expand current efforts on high priority plant pests and pathogens.</li> </ul>
<p><b>B.10</b></p>	<p><b>Made Investments to Improve Pesticide Application Strategies, Protecting Environmental and Human Health</b></p>	<p>Minnesota farmers rely on the strategic use of pesticides to limit weeds, insects, diseases, and funguses that can seriously hurt crop yields.</p> <p>In 2013, Governor Dayton and the Legislature invested \$200,000 to update pesticide and training manuals for farmers. The old manuals were outdated and did not reflect current technology or the growing number of products the agriculture industry uses. This change has resulted in some of the most up-to-date pesticide manuals in the country, allowing Minnesota farmers to safely apply their pesticides.</p> <p>In 2017, Governor Dayton and the Minnesota Legislature enacted several provisions in a continuing effort to balance the benefits of pesticides with environmental and human protection.</p> <ul style="list-style-type: none"> <li>• <b>Pesticide Education and Training</b> – In an effort to help provide greater awareness of pollinators and the impact of neonicotinoids on pollinator habitat, the education and training component for those seeking licensure/certification as a pesticide applicator was modified. The current label requirements have been expanded to address thresholds and guidance to reduce the impact of insecticides on pollinators. In addition, training manuals and examinations must now also include the economic thresholds and guidance for insecticide use.</li> </ul>

		<ul style="list-style-type: none"> <li>• <b>Modification of Experimental Pesticide Use Permit</b> – Responding to uncertainty in current law, a new experimental pesticide use permit was established to clearly define when this registration is necessary and what the application requires. These changes more closely align the state permit process with the U.S. EPA’s Experimental Use Permit process.</li> <li>• <b>Pesticide Use Notification</b> – Structural pest control applicators are now required to provide an after-pesticide application notification to an apartment dweller. The notification must list key pesticide label instructions so that a resident knows the precautions that should be taken to comply with directions on the pesticide label and limit risk of exposure to pesticide residues.</li> </ul>
<b>B.11</b>	<b>Created First Time Farmer Tax Incentives</b>	<p>In 2017, Governor Dayton and the Minnesota Legislature created several incentives in support of beginning farmers, including an expansion of the RFA beginning farmer program and a series of income/franchise tax credits available to owners or beginning farmers on the sale or rental of Ag assets to a beginning farmer.</p> <p>Thanks to this change, beginning in tax year 2018, beginning farmers in Minnesota may be eligible for a nonrefundable credit of up to \$1,500 for the amount paid for participating in a financial management program approved by the Rural Finance Authority. Unused portions of this credit can be carried over for 3 years.</p>
<b>B.12</b>	<b>Invested \$300,000 in Assistance for Farmers Impacted by Wolves and Elk</b>	<p>While the recovery of Minnesota’s wolf and elk populations are ecological success stories, they create challenges for farmers and ranchers who must find a way to protect livestock and crops from these species. In 2017, Governor Dayton and the Minnesota Legislature invested \$300,000 in Minnesota’s wolf and elk depredation programs, which provide financial assistance to farmers who experience damage to or loss of livestock and crops.</p>
<b>B.13</b>	<b>Invested \$400,000 in the Farm Advocates Program</b>	<p>In 2011, Governor Dayton worked with the Minnesota Legislature to invest \$360,000 in the Farm Advocates Program. In 2017, the Governor and Legislature invested an additional \$40,000 each year in the program.</p> <p>Farm Advocates provide one-on-one assistance for Minnesota farmers who face crisis caused by either a natural disaster or financial problems. Farm Advocates understand the needs of our agricultural families and communities. They are trained and experienced in agricultural lending practices, mediation, lender negotiation, farm programs, crisis counseling, disaster programs, and to recognize the need for legal and/or social services.</p>

<p><b>B.14</b></p>	<p><b>Invested \$9.818 million in Food Assistance Programs</b></p>	<p>In 2011, Governor Dayton worked with the Legislature to invest \$500,000 in the Second Harvest Milk Grant program, which purchases milk for distribution to food shelves throughout the state. Governor Dayton and the Legislature also provided \$177,000 for Farmers Market Nutrition programs that connect low-income seniors and children/families with fresh food from farmers markets across the state.</p> <p>In 2013, Governor Dayton and the Minnesota Legislature invested \$1 million for grants to purchase milk at wholesale prices for the Second Harvest Food Shelf.</p> <p>In 2014, Governor Dayton and the Minnesota Legislature provided an additional \$2 million to reimburse farmers for the cost of harvesting, packaging, and transporting surplus crops. The estimated retail cost of the same amount of food is more than \$20 million. The funding is enough for the Farm-to-Food Shelf program to provide 10 million pounds of fresh, nutritious food (an estimated 7.6 million meals) for low-income families.</p> <p>In 2015, Governor Dayton and the Minnesota Legislature allocated an additional \$50,000 each year for a total of \$550,000 annually. This will provide additional milk to more families served by the six Second Harvest food banks located throughout the state.</p>
<p><b>B.15</b></p>	<p><b>Created Minority Farmer Microloan Program</b></p>	<p>In 2012, Governor Dayton and the Minnesota Legislature created a new Minority Pilot Microloan Program to help finance the production of specialty crops and qualifying livestock. The program makes loans of up to \$10,000 available to legal Minnesota residents who are qualified immigrants or members of a protected group (women, persons with disabilities, members of identified minority groups).</p>
<p><b>B.16</b></p>	<p><b>Created Uniform Food Safety Standards for Farmers Markets and Community Events</b></p>	<p>In 2014, Governor Dayton and the Minnesota Legislature created uniform food safety standards for farmers markets and food sampling, ensuring community food events can take place safely.</p>
<p><b>B.17</b></p>	<p><b>Exempted Cottage Foods from Licensing Requirements</b></p>	<p>In 2015, Governor Dayton and the Minnesota Legislature allocated \$25,000 to the Department of Agriculture to develop and maintain cottage food license exemption outreach and training materials. The legislation also updated statutes related to growing food products for farmers markets, craft food, and direct sales.</p> <p>Standards are established for labeling of products sold by individuals that are prepared and processed or canned at home. Individuals selling food under this exempted category are limited to total sales of</p>

		gross receipts of \$18,000 or less in a calendar year. For those selling between \$5,000 and \$18,000 a year, a safe food handling training course approved by the department must be completed every three years and individuals must pay a \$50 registration fee each year. Those earning less than \$5,000 in gross sales each year are exempt from the registration fee and must take an on-line safe food handling course.
<b>B.18</b>	<b>Invested \$1 Million to Develop the Next Generation of Minnesota Agriculture Crops</b>	In 2016, Governor Dayton and the Minnesota Legislature invested \$1 million in the University of Minnesota’s Forever Green research program. This funding was used to develop cropping systems that protect our national resources, while increasing the efficiency, profitability, and productivity of Minnesota farmers by incorporating perennial and winter annual crops into existing agriculture rotations.
<b>B.19</b>	<b>Invested \$1.8 Million to Help Protect Minnesota Farms from Disease and Other Agricultural Emergencies</b>	In 2016, Governor Dayton and the Minnesota Legislature allocated \$1 million for a special Department of Agriculture emergency account to ensure the state has sufficient resources immediately available to respond to emergencies (like avian flu). The Governor and Legislature also invested \$283,000 for a Veterinary Diagnostic Laboratory at the University of Minnesota to help identify and monitor emerging diseases and develop new diagnostic methods. An additional \$600,000 was provided to the University of Minnesota to develop a software tool to help veterinarians and producers track pathogen strains in livestock and poultry.
<b>B.20</b>	<b>Created Industrial Hemp Pilot Program to Create New Market Opportunities for Minnesota Farmers</b>	<p>Governor Dayton worked with the Legislature in 2015 to enact the Minnesota Industrial Hemp Development Act, which allowed the Department of Agriculture to create an industrial hemp research pilot program in order to study the growth, cultivation, and marketing of industrial hemp.</p> <p>In 2016, there were six participants in Minnesota who grew industrial hemp in MDA's pilot program. In 2017, there were 56 registered pilot participants, producing hemp on 970 total acres.</p> <p>Building on this progress, Governor Dayton and the Legislature invested an additional \$400,000 in the Industrial Hemp Development Program in 2017. The Department of Agriculture is using these new resources to improve market opportunities for Minnesota farmers.</p>
<b>B.21</b>	<b>Created Beginning Farmer Tax Credit</b>	The average Minnesota farmer is 55 years-old. Currently only 4 percent of Minnesota farmers are younger than 35 years of age, while research shows the greatest barrier to entry for young farmers is access to land.

		In 2017, Governor Dayton worked with the Legislature to create a first-of-its-kind \$5 million tax incentive program to help beginning Minnesota farmers get started and have access to land. As many of Minnesota’s farmers hit retirement age, the tax incentive will help the next generation of farmers acquire and rent land.
<b>B.22</b>	<b>Invested \$2 Million in Farm to Food Shelf Program</b>	In 2014, Governor Dayton invested \$2 million to reimburse farmers for the cost of harvesting, packaging, and transporting surplus crops to food shelves. The Farm to Food Shelf Program will provide 10 million pounds of fresh, nutritious food (an estimated 7.6 million meals) for low-income families. The estimated retail cost of the same amount of food is \$20 million.
<b>B.23</b>	<b>Expanded Minnesota Grown Directory by 7.1 Percent</b>	Minnesota has experienced steady growth in consumer demand for locally grown and raised foods. Unique visitors to the Minnesota Grown Directory website increased from 222,000 to more than 381,000 between 2012 and 2017. The number of farmers’ markets increased from 156 in 2012 to 180 in 2017. The number of farms listed in the MDA’s annual Minnesota Grown Directory increased from 945 in 2012 to 1,000 in 2018.
<b>B.24</b>	<b>Secured Minnesota’s Place as a Nationally Recognized “Top State for Business”</b>	<p>Under Governor Dayton’s leadership, Minnesota has retained its leading business climate. Driven by its skilled workforce and high quality of life, Minnesota has repeatedly been recognized as a top state for business by CNBC. In the annual CNBC report, Minnesota has ranked no worse than sixth since 2014, including a first-place finish in 2015. And in 2016, Minnesota ranked first in Gallup’s “Top State for Job Creation” index. In 2011, Minnesota tied with four other states for sixteenth place.</p> <p>Under the Dayton Administration, Minnesota continued to be a hub for major businesses. Minnesota per capita personal income of \$53,043 continues to outpace the national average of \$50,392. Minnesota personal income per capita has been higher than the U.S. since the late 1980s and through the end of 2017, Minnesota was 105 percent of the national level, ranking Minnesota fourteenth among states.</p>
<b>B.25</b>	<b>Annually Exporting \$21 Billion in Minnesota-Made Goods</b>	<p>Minnesota has a diverse export sector, with state businesses and producers sending \$21 billion worth of products to 203 countries in 2017. Exports are a vital part of Minnesota’s economy, supporting nearly 118,000 jobs in the state.</p> <p>Minnesota’s top five export partners in 2017 were Canada, Mexico, China, Japan and Germany. Minnesota’s top five manufactured</p>

		<p>exported product groups in 2017 were optical/medical equipment, machinery, electrical machinery, vehicles, and plastics.</p> <p>Minnesota’s exports reached \$5.7 billion the third quarter of 2018, growing 6.5 percent since the third quarter of 2017. This also marks the state’s seventh-straight quarter of export growth. For the year-to-date, the state’s exports are up 10.2 percent through the third quarter of 2018.</p> <p>Under Governor Dayton’s leadership, the State of Minnesota led trade missions to countries around the world. These trips have helped to foster connections between Minnesota companies and growing global markets.</p> <ul style="list-style-type: none"> <li>• <b>South Korea and Japan</b> – In 2011, Governor Dayton led a Minnesota delegation of 25 business executives, academic leaders and state government officials to South Korea and Japan. The Japan visit help demonstrate importance our state places on the Minnesota-Japan relationship, our fourth largest export market. In addition, the South Korea visit helped to strengthen the ties between Minnesota and our 6<sup>th</sup>-largest export market.</li> <li>• <b>China</b> – In 2012, Governor Dayton led a Minnesota delegation of 50 business executives, higher education leaders, and state government officials to China. To showcase Minnesota companies and export industries and promote the state as an ideal destination for Chinese foreign direct investment, the delegation hosted three large receptions in Beijing, Shanghai and Xian.</li> <li>• <b>Germany, Norway, and Sweden</b> – In 2013, Governor Dayton led a delegation to the business centers of Berlin, Dusseldorf, Oslo, and Stockholm for meetings with business leaders and government officials, presentations by market and industry experts, networking activities, and business site visits. Germany was the state’s fifth-largest market in 2012, accounting for about \$728 million of Minnesota exports of manufactured and non-manufactured goods and representing almost four percent of the state’s exports of goods. Markets in the Nordic Region accounted for slightly more than \$400 million of Minnesota exports of manufactured and non-manufactured goods.</li> <li>• <b>Mexico</b> – In 2015, Governor Dayton led a delegation of 48 business and agriculture executives, academic leaders and state government officials to Mexico. The mission focused on growing state exports, building new business opportunities and partnerships for Minnesota companies, and strengthening existing relationships with longstanding partners in México.</li> </ul>
--	--	---

B.26

**Wages Increased by 17 Percent Since 2011**

Under Governor Dayton’s leadership, average weekly wages have grown by nearly 17 percent in Minnesota. In 2017, Minnesota’s weekly average wage of \$1,079 was 11<sup>th</sup> in the nation and third-highest between the two coasts.

Year	Average Weekly Wage
2011	\$920
2012	\$949
2013	\$964
2014	\$993
2015	\$1,030
2016	\$1,045
2017	\$1,079
2018	\$1,175 (Q1 only)

Source: [U.S. Bureau of Labor Statistics](#).

To help achieve these results, Governor Dayton is strong advocate for efforts that increase wages for Minnesota workers.

- **Cracked Down on Worker Misclassification** – Beginning in 2012, the Governor’s Administration worked to crackdown on the misclassification of employees as independent contractors in the construction industry. Sometimes employers will deliberately misclassify their employees to avoid having to pay certain benefits and workplace protections. Working with stakeholders, the Department of Labor and Industry developed a program to register independent contractors. The agency also has taken 400 enforcement actions to address contractor registration and misclassification violations.
- **Raised and Indexed Minimum Wage** – In 2014, Governor Dayton worked with the Legislature to increase Minnesota’s minimum wage to \$9.50 an hour, a 22 percent increase. This increase benefited an estimated 248,000 Minnesota workers who made less than \$9.50. It also likely lifted wages for thousands more workers who made slightly more than \$9.50 an

		<p>hour. The bill signed by Governor Dayton also indexed the minimum wage to inflation, ensuring that minimum wage continues to increase in the future. The current state minimum wage for employers is \$9.65 (when annual gross revenue is more than \$500,000) and \$7.87 (when annual gross revenue is less than \$500,000). On January 1, 2019, Minnesota’s minimum wage will be adjusted for inflation to \$9.86 (for large employers) and \$8.04 (for all other state minimum wages).</p> <ul style="list-style-type: none"> <li>• <b>Enacted Women’s Economic Security Act</b> – Governor Dayton also signed the Women’s Economic Security Act into law in 2014. The legislation took a number of steps to break down barriers for women: <ul style="list-style-type: none"> <li>○ <b>Stronger Workplace Protections</b> – WESA requires employers to provide reasonable accommodations to an employee for health conditions related to pregnancy or childbirth. It also requires employers to provide reasonable unpaid break time each day to an employee who needs to express breast milk for her infant child. In addition, it enhances protections for employees seeking to assert rights or remedies if a violation occurs in the workplace.</li> <li>○ <b>Reduced the Gender Pay Gap</b> – WESA reduces the gender pay gap through increased enforcement of equal pay laws for state contractors by requiring businesses with 40 or more employees seeking state contracts over \$500,000 to certify they are paying equal wages to workers regardless of gender. It ensures the rights of employees to voluntarily discuss their compensation without fear of retaliation from their employers.</li> </ul> <p>WESA also decreases the gender pay gap by addressing the “motherhood penalty,” requiring businesses to make hiring, promotion, and termination decisions regardless of an employee’s “familial status” (Pregnant women and parents and legal guardians of children under 18 who live with them).</p> <ul style="list-style-type: none"> <li>○ <b>Expanded Family and Sick Leave</b> – WESA expands unpaid leave under the Minnesota Parental Leave Act from 6 to 12 weeks and allows use of leave during pregnancy. It also allows grandparents to use existing earned sick leave to care for an ill or injured grandchild.</li> <li>○ <b>Enhanced Support for Violence Victims</b> – WESA expands unemployment insurance eligibility currently available to victims of domestic violence to include victims of stalking and sexual assault. It also allows employees to use existing</li> </ul> </li> </ul>
--	--	--

		<p>earned sick leave to recover from sexual assault, domestic violence, or stalking.</p> <ul style="list-style-type: none"> <li>○ <b>Economic Security in Retirement</b> – WESA enhances retirement security by considering a state retirement savings plan for those without an employer-provided option.</li> <li>● <b>Proposed Wage Theft Legislation</b> – In 2017, Governor Dayton proposed legislation to crack down on wage theft, which occurs when employees are not paid for hours already worked. While the Legislature rejected tougher penalties for employers who fail to pay employees the wages they are due, Governor Dayton was able to secure additional funding to increase enforcement efforts and reduce wage claim processing time. In July 2018, DLI launched a wage theft initiative to engage employers on labor standards and educate workers about their rights.</li> </ul>
<p><b>B.27</b></p>	<p><b>Stabilized Union Membership in Minnesota, Strengthened Labor Rights for Workers</b></p>	<p>After decades of decline, union membership in Minnesota <a href="#">has stabilized</a> under Governor Dayton’s leadership. In 2016, 364,143 Minnesota workers were members of a union up from 350,500 in 2012, a 3.9 percent increase. Minnesota’s union membership rate is 14.2 percent, outpacing the national average by 3.5 percent.</p> <p>Unions in Minnesota continue to anchor the middle class by increasing wages by an average of 8 percent. They also help to reduce racial and gender-based inequality, boosting wages for these Minnesotans by 13.9 percent and 8.7 percent respectively.</p> <p>In 2013, Governor Dayton worked with the Legislature to pass a law allowing in-home child-care providers and personal care attendants who receive public funds to vote on forming a union. In 2014, personal care attendants in Minnesota voted to unionize. In 2015, thanks to the union, personal care attendants successfully bargained for a \$12 minimum wage, holiday pay, earned paid time off, and paid training. Improved pay and benefits will help ensure that workers make a decent living. More training for workers and less workforce turnover will ultimately benefit personal care attendant clients.</p>
<p><b>B.28</b></p>	<p><b>Achieved Minnesota’s 25% Renewable Energy Standard Seven Years Early</b></p>	<p>Governor Dayton understands that renewable energy is good for Minnesota’s public health, its environment, and its economy. Under his leadership, renewable energy usage has increased from 17 percent in 2011 to 25 percent in 2017. At the same time, coal usage dropped from 53 percent to 39 percent – a significant move in the right direction.</p>

			2011	2017	Percent Change
<b>Sources of Electricity</b>					
Coal			53.2%	39.10%	-27%
Hydroelectric			1.4%	2.10%	50%
Natural Gas			6.3%	12.0%	90%
Nuclear			22.5%	23.30%	3.6%
Biomass			1.75%	3.40%	94%
Petroleum			0.071%	0.072%	1.4%
Solar			0.00%	1.20%	---
Wind			12.7%	18.20%	62%
<b>Total Emission Rate (lbs/MWh)</b>					
Sulfur dioxide			2.2	0.8	-64%
Nitrogen oxide			1.7	0.9	-47%
Carbon dioxide			1,354	1,064	-21%
Source: U.S. Department of Energy, <a href="#">2017 Minn. State Profile</a>					
		<p>By the end of 2017, 25 percent of Minnesota’s energy came from renewable sources. Under Governor Dayton’s leadership, Minnesota achieved the Renewable Energy Standard seven years ahead of schedule.</p> <p>Because the state has the potential to go much further, Governor Dayton introduced a bipartisan plan to increase Minnesota’s renewable energy standard from 25 percent by 2025 to 50 percent by 2030. This enhanced standard would have reduced Minnesota’s carbon footprint, while driving additional job growth across the state. Unfortunately, Republicans in the Legislature did not pass the measure.</p> <p>Renewable energy’s positive impact on Minnesota’s economy has been significant. In 2018, clean energy jobs grew at a rate of 2.6 percent, twice as fast as overall job growth in the state. Clean energy jobs in Greater Minnesota account for 40 percent of all clean energy jobs in the state.</p> <p>In 2018, more than 59,000 Minnesotans worked in the clean energy industry. New clean energy jobs have been created across the entire state, and include positions in the manufacturing, utilities, professional, engineering, architecture, and construction fields.</p>			
<b>B.29</b>	<b>Created Office of Broadband Development to Support Expansion of</b>	<p>In 2013, Governor Dayton worked with the Minnesota Legislature to create the Minnesota Office of Broadband Development. Since its creation, the office has coordinated Minnesota’s efforts to expand broadband access. It also has connected communities,</p>			

	<b>High-Speed Internet Access</b>	policymakers, providers, regional support organizations, and state and federal programs with each other and the resources they need to improve broadband access and use in Minnesota.																																																																																								
<b>B.30</b>	<b>Invested \$85.6 Million in Border-to-Border High-Speed Internet Access</b>	<p>Governor Dayton proposed \$241 million for rural broadband infrastructure during his two terms in office. This would have been enough funding to expand access for 67,989 households, 10,234 businesses, and 787 community institutions. This much funding would have leveraged an estimated \$265.7 million in additional private and local funding.</p> <p>Efforts to expand access were slowed by Republicans in the Legislature who would only agree to \$85.6 million. Despite these setbacks, this funding was enough to expand broadband access for 33,852 households, 5,189 businesses, and 300 community institutions since 2014, leveraging \$110.6 million in private and local matching funds. Today, 91 percent of Minnesotans have access to wireline broadband speeds of 25 mbps download/3 mbps upload (2022 goal). In 2011, only 56 percent of Minnesotans, largely in urban areas, had access to those speeds.</p> <table border="1" data-bbox="646 940 1393 1883"> <thead> <tr> <th>Year</th> <th>Company/Org.</th> <th>Location</th> <th>State Grant</th> </tr> </thead> <tbody> <tr><td>2014</td><td>Arvig</td><td>Sauk Lake</td><td>\$536,702</td></tr> <tr><td>2014</td><td>Century Link</td><td>Benton County</td><td>\$152,672</td></tr> <tr><td>2014</td><td>Century Link</td><td>Balkan</td><td>\$230,211</td></tr> <tr><td>2014</td><td>Con. The Iron Range Resources & Rehabilitation Board (IRRRB) also invested an additional \$2.9 million in efforts to connect households, businesses, and public institutions across northeast Minnesota to broadband. These investments leveraged an additional \$7.6 million in private and local government investment to connect more than 3,877 households, businesses, and public institutions to high-speed internet.

		Work remains, however, with more than 190,000 households across the state still lacking access to affordable high-speed internet.															
<b>B.31</b>	<b>Mining and Forestry Jobs Increased by 3.1 Percent</b>	Governor Dayton understands that the mining and forestry industries help form the economic bedrock of northern Minnesota. Since the Governor took office, employment in these sectors has increased from 6,400 in January 2011 to 6,600 total jobs in May 2018, a 3.1 percent increase															
<b>B.32</b>	<b>Invested in 380 Economic Development Projects on the Iron Range</b>	<p>Governor Dayton is committed to building an economy that works for all Minnesotans, everywhere in the state. During the Governor’s two terms, the Iron Range Resources &amp; Rehabilitation Board (IRRRB) invested \$107.3 million in 380 economic development projects across northeast Minnesota. The total project investment of \$835.7 million helped to create 1,477 jobs, while sustaining another 2,293 jobs.</p> <table border="1"> <thead> <tr> <th></th> <th>Projects</th> <th>IRRR Investment</th> <th>Amount Leveraged</th> <th>Jobs Created/ Sustained</th> </tr> </thead> <tbody> <tr> <td><b>Non-mining economic development</b></td> <td>67</td> <td>\$44.7 million</td> <td>\$74.7 million</td> <td>3,364</td> </tr> <tr> <td><b>Public infrastructure development</b></td> <td>313</td> <td>\$62.6 million</td> <td>\$761 million</td> <td>406</td> </tr> </tbody> </table>		Projects	IRRR Investment	Amount Leveraged	Jobs Created/ Sustained	<b>Non-mining economic development</b>	67	\$44.7 million	\$74.7 million	3,364	<b>Public infrastructure development</b>	313	\$62.6 million	\$761 million	406
	Projects	IRRR Investment	Amount Leveraged	Jobs Created/ Sustained													
<b>Non-mining economic development</b>	67	\$44.7 million	\$74.7 million	3,364													
<b>Public infrastructure development</b>	313	\$62.6 million	\$761 million	406													
<b>B.33</b>	<b>Reduced Wage Gap Between Men and Women by 2.1 Percentage Points</b>	<p>Under Governor Dayton’s leadership, Minnesota took steps to reduce the wage gap between men and women. Since the Governor took office, the gap has never been greater than 20 percent. Overall, Minnesota’s wage gap has shrunk by 2.1 percentage points since Governor Dayton took office. In 2011, for every \$1 men on average earned, women on average earned 80 cents. In 2017, for every \$1 men on average earned, women on average earned 83 cents.</p> <p>The gap reached an all-time low of 15.8 percent in 2014. That same year, on Mother’s Day, Governor Dayton signed the <a href="#">Women’s Economic Security Act</a> into law, which strengthened workplace protections, improved flexibility for pregnant women and nursing mothers, expanded employment opportunities for women in high-wage occupations, and reduced gender pay gap through increased enforcement of equal pay laws.</p>															

		<p>Under the Dayton Administration, the Department of Labor and Industry has investigated and addressed 69 complaints raised under the Women’s Economic Security Act. The Department of Human Rights completed more than 500 workforce certificate audits, which ensure that contractors are providing equal employment opportunities for women and people of color on public works projects, including the Capitol Restoration and U.S. Bank Stadium. This is a 3,200 percent increase over the previous administration.</p>
<b>B.34</b>	<b>Increased Stability for Main Street Banks</b>	<p>Minnesota farmers, entrepreneurs, and small business owners rely on loans from their local banks to invest and grow their operations. In 2011, shortly after Governor Dayton took office, 36 percent of state chartered banks were considered “problem banks.” Today, only 5 percent of these institutions are deemed to be at risk. Since 2014, no state chartered banks have failed.</p> <p>The majority of state-chartered banks are located in Greater Minnesota communities, where they provide convenient financial services and access to lending for their communities.</p>
<b>B.35</b>	<b>Trained Nearly 2,700 Criminal Offenders for Brighter Futures</b>	<p>Minnesotans who are incarcerated often lack the job skills they need to be successful upon release, which can make it harder for them to reintegrate into society.</p> <p>To help these individuals, the Minnesota Department of Corrections’ EMPLOY job readiness program trains and prepares offenders for their return to the community. Since 2011, the EMPLOY Program has trained 2,696 participants.</p> <p>Participants in the EMPLOY program average \$5,400 more each year than those who have not participated. EMPLOY participants have a significantly lowered the risk of recidivism by 35 percent for re-arrest, 32 percent for reconviction, 55 percent for new offense re-incarceration, and 63 percent for re-incarceration for a technical violation revocation. EMPLOY has a positive cost benefit of \$15.90 for every \$1 that goes into the program.</p> <p>In 2013, the Department of Corrections created its Bridge program, which provides three months of employment and work skills training in an “outside the walls” environment. It also connects released offenders with employment opportunities – subcontracting with Minnesota companies.</p>
<b>B.36</b>	<b>Invested More Than \$2 Billion in Mass Transit Projects</b>	<p>Governor Dayton understands that robust investments in mass transportation were critical to the quality-of-life and economic opportunity available to Minnesotans. Governor Dayton has secured more than \$2 billion in investment for Twin Cities</p>

		<p>metropolitan area transit projects. This funding was critical to the development of the Central Corridor LRT project, Southwest LRT project, Bottineau LRT project, and numerous Bus Rapid Transit projects. In addition to easing congestion, improving air quality, and reducing commuting times, these investments have generated at least \$8.4 billion in economic development.</p> <p><i>Completed:</i></p> <ul style="list-style-type: none"> <li>• <b>Central Corridor (Green Line) LRT</b> – Four months after the Governor took office, the Dayton Administration executed a Full Funding Grant Agreement with the Federal Transit Administration totaling \$957 million, completing the financing necessary to build and complete the Central Corridor. The 11-mile Green Line opened for passenger service in June 2014 after 30 years of planning. The project created more than 5,500 construction jobs, with a payroll of \$250 million for workers from more than 60 Minnesota counties. Since the project began, approximately \$5.8 billion in new development in more than 100 projects along the line have been completed. The Green Line now has daily weekday ridership of nearly 40,000.</li> <li>• <b>Snelling Avenue (A Line) BRT</b> – In 2016, Metro Transit opened the A Line, connecting the Blue Line and Green Line with bus rapid transit via Snelling Avenue. The project improves connectivity for transit users and allows them to reach popular destinations, including Highland Village, Rosedale Center, HarMar Mall, Minnehaha Park, and the Midway area. To help complete the project, Governor Dayton secured \$16 million in state funds, which also helped leverage an additional \$11 million in federal and local funds. The A Line grew ridership in the Snelling Avenue corridor by more than 35 percent in its first two years of operation.</li> <li>• <b>Red Line BRT</b> – The Red Line BRT links the communities of Lakeville, Apple Valley, and Eagan to the Mall of America (MOA), MSP Airport, and downtown Minneapolis (via METRO Blue Line connection at the MOA). The 11-mile corridor began operation in June 2013. Ridership totaled 270,400 in 2017. The METRO Red Line resulted from a collaborative effort among several local, regional and state agencies. Dakota County Regional Railroad Authority led the initial planning for the transitway and the construction of the improved roadway, with the Metropolitan Council overseeing the transit facility and technology components. Funding was provided by federal, state, and local sources, including Dakota County and the Counties Transit Improvement Board.</li> </ul> <p><i>In Development:</i></p> <ul style="list-style-type: none"> <li>• <b>Orange Line BRT</b> – The Orange Line is a 17-mile planned highway Bus Rapid Transit (BRT) line that will connect</li> </ul>
--	--	--

		<p>Minneapolis, Richfield, Bloomington, and Burnsville along I-35W. The Orange Line will provide frequent, all-day service in both directions, seven days a week. Under Governor Dayton’s leadership, Minnesota invested \$15.1 million in the project, fulfilling the state portion of the funding.</p> <ul style="list-style-type: none"> <li>• <b>Southwest (Green Line Extension) LRT</b> – The 14.5-mile Green Line Extension will include 15 new stations and operate from Minneapolis through St. Louis Park, Hopkins, Minnetonka, and in close proximity to Edina. The project is expected to provide jobs for 7,500 construction workers, with an estimated \$350 million construction payroll. By 2035, employment is expected to grow to 80,900 within one-half mile of the proposed stations and 145,300 in downtown Minneapolis – an 18 percent increase in employment. Communities along the line have already experienced more than \$1 billion in development. Highlights include the \$60 million Mariner apartment project planned near Opus Station in Minnetonka and the \$61 million apartment/retail mixed income Elevate project at SouthWest Station in Eden Prairie. In November 2018, the Federal Transit Administration granted the project a Letter of No Prejudice, allowing the project to move forward with construction. And in December 2018, the Metropolitan Council, Hennepin County, and surrounding communities broke ground to begin construction on the project – which will be the largest infrastructure project in Minnesota’s history.</li> <li>• <b>Bottineau (Blue Line Extension) LRT</b> – The planned Blue Line Extension will help connect workers to jobs and operate 13 miles northwest of downtown Minneapolis, through north Minneapolis, Golden Valley Robbinsdale, Crystal and Brooklyn Park with 11 new stations. With construction due to begin in 2019, the line is to open in 2022. By 2035, employment is expected to grow to 20,800 within ½ mile of the proposed new stations and 159,600 in downtown Minneapolis. An estimated 6,500 construction workers will be needed to build the line, with a \$300 million estimated construction payroll. Planned and recent development along the Blue Line Extension tallies up to \$522 million in investment, up from \$489 million reported in January 2017.</li> <li>• <b>Gold Line BRT (St. Paul to Woodbury)</b> – The Gold Line a planned nine-mile dedicated Bus Rapid Transit (BRT) line that will connect St. Paul, Maplewood, Landfall, Oakdale and Woodbury generally along Interstate 94. It will be Minnesota's first BRT line that operates primarily within exclusive bus-only lanes. Under Governor Dayton’s leadership, Minnesota has invested \$2 million in state funding, leveraging an additional \$23 million in local funding to advance the project.</li> </ul>
--	--	---

		<ul style="list-style-type: none"> <li>• <b>C Line (Penn Avenue) BRT</b> – The 8.5-mile C Line will connect Minneapolis and Brooklyn Center with faster, enhanced bus service when it opens in 2019. The \$35 million transit investment is being leveraged as part of a broader street partnership with Hennepin County and the City of Minneapolis to transform Penn Avenue. More than half of the brand-new C Line bus fleet will be fully battery electric, with zero tailpipe emissions, a first for Metro Transit.</li> <li>• <b>D Line (Chicago-Fremont) BRT</b> – Connecting 18 miles of Brooklyn Center, Minneapolis, Richfield and Bloomington, the D Line is a planned and long-needed upgrade to the state’s highest ridership bus route. The \$75 million capital investment in the D Line will serve more than 15,000 rides today, growing to over 23,000 daily customers by 2030. The D Line is moving forward into engineering in 2018, while continuing to seek \$35 million to fully fund construction in 2020.</li> </ul>
<p><b>B.37</b></p>	<p><b>Allocated Over \$800 Million to Twin Cities Metropolitan Area Transportation Projects</b></p>	<p>During Governor Dayton’s two terms, the Metropolitan Council and its Transportation Advisory Board allocated over \$800 million in federal funding to local transportation projects through the Regional Solicitation in the metro area. These projects, nearly 200 of them, are matched with local funding and resulted in over \$1.5 billion in total project funding.</p> <p>The Transportation Advisory Board whose members include local elected officials, agency representatives and citizen members, solicits, reviews and recommends road and bridge, transit, and bike and pedestrian projects for federal funding throughout the region.</p> <p>Examples of significant projects include Highway 41 expansion in Chaska, expansion of Hanson Boulevard in Andover and the A Line Bus Rapid Transit along Snelling Avenue.</p>
<p><b>B.38</b></p>	<p><b>Increasing Transit Ridership on Metro Transit Services</b></p>	<p>Thanks to continued investment in mass transit under Governor Dayton’s leadership, Metro Transit has enjoyed the longest period of sustained ridership growth in a generation, with ridership at its highest point in 30 years.</p> <p>In 2015, Metro Transit annual ridership was 85.8 million. In 2016, Metro Transit, along with suburban transit providers, collectively saw annual ridership top 96 million, helping people to get to school, jobs and other important destinations. Research shows that 80 percent of weekday transit trips are to work or school.</p> <p>In 2017, for the seventh consecutive year, Metro Transit’s annual ridership exceeded 80 million rides, topping 81.9 million, with average weekday ridership of 264,347. The 2017 ridership total</p>

includes a record 13.1 million rides on the METRO Green Line, which has seen ridership grow every year since its 2014 opening and had its highest single-day ridership ever on Aug. 31, 2017. Blue Line ridership also broke a previous record set in 2015, hitting nearly 10.7 in ridership. Ridership on the Green Line increased about 3.5 percent compared to 2016, while Blue Line ridership increased nearly 4 percent.

In 2017, Northstar Commuter Rail Line saw a nearly 12 percent increase in annual ridership over 2016, at 794,000. Metro Transit also was recognized for its success as the American Public Transportation Association named Metro Transit the “2016 System of the Year.”

**B.39 Invested \$128.4 Million in the Minnesota Local Road Improvement Program**

The Local Road Improvement Program provides funding assistance to local agencies for constructing or reconstructing local roads. Under Governor Dayton’s leadership, approximately \$128.4 million has been invested in 109 separate local road projects across Minnesota since 2011.

Year	Location	Description
2011-2012	Itasca County	\$400,000 for pavement reconstruction/rehabilitation on CSAH 10 from TH 169 to TH2
2011-2012	Chisholm	\$400,000 for reconstruction of MSA 111-238 from Central Avenue to East Iron Drive
2011-2012	LaPrairie	\$350,000 to consolidate access points and make signal and access road improvements along Glenwood Drive
2011-2012	Thief River Falls	\$400,000 for roadway and intersection improvement on MSAS 155 from Barzen Avenue to Oakland Park Road
2011-2012	Fertile	\$300,000 for grade and surface bridge replacement between Summit Avenue and Nature Center
2011-2012	Fosston	\$400,000 for the resurfacing of Second Street between Mark Avenue and CSAH 6
2011-2012	Isanti County	\$400,000 to widen and resurface CSAH 9 between CR 45 and CSAH 18

		2018	Red Wing	\$490,000 to reconstruct Spring Creek Avenue/Drive
		2018	Ostrander	\$314,000 to reconstruct CSAH 1 and CSAH 3
		2018	Carrolton TWP	\$475,000 to reconstruct Goodview Road
		2018	Carrolton TWP	\$545,200 to reconstruct Heron Road
		2018	Martin County	\$1,000,000 to recondition CSAH 26
		2018	North Mankato	\$700,000 to reconstruct Commerce Drive
		2018	Waseca	\$1,000,000 to reconstruct and improve drainage on 3rd Street Northeast
		2018	Waldorf	\$750,000 to reconstruct CSAH 3 and 4, CR 74
		2018	Sweet TWP	\$740,000 to reconstruct and pave Township Road 267
		2018	Renville County	\$750,000 to reconstruct five miles of CSAH 4
		2018	Redwood Falls	\$1,000,000 to reconstruct Courthouse Square
		2018	Canby	\$400,000 to reconstruct and pave 200th Street
		2018	Laketown TWP	\$750,000 to reconstruct and pave Airport Road
		2018	Wyoming	\$1,000,000 to reconstruct Pioneer Road
		2018	Chisago County	\$1,000,000 to reconstruct CSAH 30
		2018	Cottage Grove	\$600,000 to reconstruct Ravine Parkway as a divided roadway
		2018	South St. Paul	\$400,000 to reconstruct and improve Southview Boulevard/3rd Avenue

<b>B.40</b>	<b>Invested \$1.132 Billion in Minnesota’s Corridors of Commerce Program</b>	<p>The <a href="#">Corridors of Commerce</a> program supports statewide economic growth by strategically expanding the capacity of Minnesota’s transportation system and improving the movement of freight across Minnesota.</p> <p>In 2013, Governor Dayton worked with the Legislature to create the Corridors of Commerce program. Under Governor Dayton’s</p>
-------------	--	---

leadership, Minnesota invested \$1.132 billion in the program. The first \$331.5 million has already been allocated to projects across Minnesota, benefiting 48 communities and creating 3,000 construction jobs.

Through 2018, approximately 50 percent (\$706.6 million) of these new investments have helped fund road improvement projects in Greater Minnesota.

Projects	Project Description
Highway 169	About \$8 million for lane expansion in Itasca County
Highway 2	Up to \$10 million for passing lanes from Cass Lake to Deer River
Interstate 94	Over \$31 million for auxiliary lanes from Rogers (MN 101) to St. Michael (MN 241)
Highway 34	Up to \$8 million to add passing lanes from Detroit Lakes to Nevis
Highway 14	Up to \$12 million to make the road 4-lane from Owatonna to Dodge Center
Highway 14	Up to \$28 million to make the road 4-lane from North Mankato to Nicollet
Highway 14	Up to \$35 million for a 4-lane Nicollet bypass
Highway 23	Up to \$9 million for passing lanes from Willmar to I-90
Highway 14	\$1.5 million to purchase right of way for expansion between Dodge Center and Owatonna
Highway 23	\$1.5 million for environmental work to prepare Highway 23 for future expansion from New London to Paynesville and Paynesville to Richmond
Highway 34	\$1.9 million for center left turn lane in Detroit Lakes from Highway 59 to County Road 141
Highway 2	\$2.3 million to reconstruct segment of roadway in Deer River
Highway 14/ Highway 15	\$1 million for preliminary design work at the intersection in New Ulm
Interstate 94	\$1.4 million to design additional lanes from St. Michael to Albertville.
Highway 11	\$500,000 to design passing lanes from Greenbush to Warroad
Highway 14	\$7.3 million to purchase right-of-way for expansion of Highway 14 between Owatonna to Dodge Center
Highway 23	\$800,000 for the purchase right-of-way for expansion of Highway 23 between New London to Paynesville

		<b>Highway 34</b>	\$3 million for mill and overlay work on Highway 23 from Detroit Lakes to Becker CR29
		<b>Highway 371</b>	\$45.4 million for an expansion to four lanes from Nisswa to Jenkins
		<b>Highway 169</b>	\$1.5 million for design work for replacement of the Nine Mile Creek Bridge
		<b>Interstate 35W</b>	\$5.5 million for design work related to the I-35W Minnesota River Crossing
		<b>Interstate 35W</b>	\$1.1 million for expansion of the MnPASS system in the northern suburbs
		<b>Highway 65</b>	\$1 million for design work for replacement of the Third Avenue Bridge of the Mississippi River
		<b>Interstate 94</b>	\$2 million for design work for new pavement and bridges between St. Paul and Minneapolis
		<b>Highway 51</b>	\$14 million for reconstruction of Highway 51 between Selby Avenue to Pierce Butler
		<b>Interstate 35W</b>	\$18.3 million for MnPASS system expansion on I-35W North.
		<b>Interstate 694</b>	Almost \$39 million for reconstruction and lane expansion of I-694 in Arden Hills and Little Canada
		<b>Highway 610</b>	\$80 million to connect Hwy 610 to I-94
		<b>Highway 14</b>	\$160 million to expand Highway 14 from two lanes to four lanes between Owatonna and Dodge Center
		<b>Highway 23</b>	\$105 million to create a continuous four-lane roadway from Willmar to St. Cloud
		<b>Highway 252/Interstate 94</b>	\$163 million to convert the highway to a freeway and add MnPASS lanes Dowling to TH 610
		<b>Highway 169</b>	\$157 million to convert Highway 169 in Elk River to a freeway
		<b>Interstate 494</b>	\$70 million to construct the first phase of a turbine interchange that includes a directional ramp for northbound I-35W to westbound I-494 traffic
		<b>Interstate 94</b>	\$56 million to expand I-94 from four to six lanes between Highway 241 in St. Michael and County Road 19 in Albertville

**B.41****Invested \$119 Million in the Local Bridge Replacement Program, Replaced More than 400 Bridges**

There are 14,814 local bridges in Minnesota. The Local Bridge Replacement Program helps local governments pay for the reconstruction, rehabilitation or removal of their bridges. Governor Dayton worked with the Minnesota Legislature to invest \$119 million in the Local Bridge Replacement Program, enough to complete more than 400 bridge projects in Greater Minnesota.

Year	County	Investment	Description
2012	Aitkin	\$273,527	County Hwy 4 over the Rice River
2012	Aitkin	\$72,000	County Hwy 28 over Cahin Between Two Lakes
2012	Anoka	\$100,373	0.4 miles west of Trunk Highway 47
2012	Anoka	\$9,798	0.4 miles west of Trunk Highway 47
2012	Becker	\$76,862	County Rd 159 6.2 Miles Northwest of Callaway
2012	Becker	\$75,615	County Rd 159 6.2 Miles Northwest of Callaway
2012	Beltrami	\$157,306	
2012	Beltrami	\$280,181	On County Rd 307, 0.5 miles northeast of County Hwy 22 over Turtle River
2012	Benton	\$159,906	0.1 miles north of Trunk Highway 23, County Hwy 6 over Little St. Francis River
2012	Blue Earth	\$126,336	Over creek/ditch, Shelby Township
2012	Blue Earth	\$28,129	County Hwy 14 over the Big Cobb River
2012	Blue Earth	\$234,270	County Hwy 69 over Minneopa Creek, South Bend township
2012	Carlton	\$223,856	0.3 miles north of Trunk Highway 210
2012	Carlton	\$243,418	0.2 miles south of Trunk Highway 210
2012	Carver	\$381,889	0.1 miles southwest of County Hwy 40
2012	Carver	\$229,899	County Hwy 41 over Bevens Creek, Dahlgren Township
2012	Carver	\$384,758	Over Carver Creek, Dahlgren township
2012	Cass	\$400,819	Over unnamed stream 4.4 miles south of Longville

2012	Cass	\$250,669	Over Gulf Creek
2012	Cass	\$91,701	County Hwy 1 over Stony Brook
2012	Chippewa	\$225,016	Over Shakopee Creek, Louriston township
2012	Chisago	\$202,721	2-3050mm X 2440mm X 29.3m PCC BOX CULV
2012	Chisago	\$133,584	
2012	Chisago	\$329,608	0.6 miles west of County Hwy 5
2012	Chisago	\$224,058	County Hwy 9 over Sunrise River
2012	Chisago	\$362,905	County Hwy 19 over sunrise river
2012	Chisago	\$29,156	County Hwy 30 over Rush Creek
2012	Chisago	\$142,563	2-3050mm X 2440mm X 29.3m PCC BOX CULV
2012	Chisago	\$300,411	Located on County Hwy 8 over goose Creek 1.1 miles
2012	Chisago	\$184,709	County Hwy 9 over sunrise river
2012	Chisago	\$474,906	0.8 miles west of County Hwy 9
2012	Clay	\$588,317	Co road 94 over the Buffalo River
2012	Clay	\$31,060	0.1 mi s of County Hwy 26
2012	Clay	\$47,265	0.1 miles south of County Rd 70
2012	Clay	\$69,922	2.1 miles south of the county line
2012	Clay	\$50,511	0.1 miles south of County Rd 69
2012	Cottonwood	\$93,772	Over Highwater Creek, Rose Hill township
2012	Cottonwood	\$182,343	
2012	Cottonwood	\$124,257	Over stream
2012	Crow Wing	\$96,147	Over Cullen Creek
2012	Crow Wing	\$123,147	Over Daggett Brook, Daggett Brook and Platte Lake Townships
2012	Douglas	\$132,574	Over Geneva/Le Homme Dieu Channel
2012	Douglas	\$131,475	Over Geneva/Le Homme Dieu Channel
2012	Douglas	\$307,789	
2012	Fairmont	\$1,136,695	Over channel between Bud Lake and Hall Lake

		2012	Fairmont	\$78,852	Over channel between Bud Lake and Hall Lake
		2012	Faribault	\$163,306	Over south Creek, Verona township
		2012	Faribault	\$187,827	Over middle branch of the Blue Earth River, Elmore township
		2012	Faribault	\$277,953	Over Badger Creek, Jo Daviess township
		2012	Faribault	\$55,344	County Hwy 4 over Coon Creek
		2012	Fillmore	\$57,600	Over Shady Creek, township Chatfield
		2012	Fillmore	\$60,093	Over stream, township Chatfield
		2012	Fillmore	\$47,334	0.6 miles west of County Hwy 14
		2012	Fillmore	\$53,271	Over Willow Creek, Carimona township
		2012	Fillmore	\$23,435	Over stream, Holt township
		2012	Fillmore	\$62,985	Arendahl township
		2012	Fillmore	\$222,400	Over Willow Creek, Carimona township
		2012	Fillmore	\$81,847	Over stream, Holt township
		2012	Freeborn	\$387,536	Over unnamed stream 0.7 miles east of County Hwy 18
		2012	Freeborn	\$268,171	Over Goose Creek, Shell Rock township
		2012	Freeborn	\$264,109	Over county ditch 16, Shell Rock township
		2012	Freeborn	\$263,255	Over Mud Lake Creek, London township
		2012	Freeborn	\$268,889	Over Deer Creek, Newry township
		2012	Freeborn	\$279,227	Over Goose Creek, Freeman township
		2012	Freeborn	\$196,853	0.9 miles south of County Hwy 17, over county ditch #23, Alden Township
		2012	Freeborn	\$212,085	Over Steward Creek, Nunda township
		2012	Freeborn	\$252,609	Over county ditch j24, Riceland township
		2012	Freeborn	\$55,256	Over Cobb Creek, Freeborn township
		2012	Freeborn	\$50,781	Over county dich j6, Freeborn township

		2012	Freeborn	\$59,019	Over Woodburry Creek, Oakland Township
		2012	Hennepin	\$4,078,805	0.4 miles east of Washington Ave
		2012	Hennepin	\$1,155,167	1.1 miles north of Trunk Highway 7, Vine Hill Road over HCRRA
		2012	Houston	\$39,593	Trunk Highway 44 over unnamed stream
		2012	Houston	\$38,123	Near 171" west of cut across road on COUNTY HWY 4
		2012	Houston	\$57,161	
		2012	Hubbard	\$391,535	2.1 miles west of County Hwy 2
		2012	Hugo	\$263,243	129th Street over Clearwater Creek
		2012	Isanti	\$366,961	Over Stanchfield Creek, Springvale township
		2012	Itasca	\$732,409	1.1 miles west of County Rd 127
		2012	Itasca	\$600,164	County Hwy 31 over the big fork river
		2012	Itasca	\$10,197	County Hwy 4 over Stream
		2012	Itasca	\$175,675	Over Bigfork River
		2012	Itasca	\$508,603	Over Bigfork River 7 miles east of Wirt
		2012	Jackson	\$140,562	0.1 miles west of County Hwy 3
		2012	Jackson	\$6,051	Over ditch project #4, La Crosse township
		2012	Jackson	\$12,488	0.1 miles west of County Hwy 3
		2012	Jackson	\$254,993	On County Hwy 4 over Little Sioux River
		2012	Jordan	\$729,404	0.1 miles south of Trunk Highway 282
		2012	Kandiyohi	\$52,396	
		2012	Kandiyohi	\$225,364	In Raymond

**B.42 Invested \$80 Million in 27 Transportation Economic Development Projects, Supporting the Creation of More Than 16,700 Jobs**

The Transportation Economic Development Program (TED) is a competitive grant program available to communities for road and public infrastructure projects that create jobs and support economic development. Since taking office, Governor Dayton has worked with the Minnesota Legislature to make additional investments in the program.

Thanks to these investment, the Minnesota Department of Transportation has been able to devote more than \$80 million to 27 projects supporting economic development across Minnesota. These projects have helped to create or maintain at least 16,700 jobs and leverage more than \$312 million in additional investment.

Year	Location	Description	Leveraged Funds	Jobs Created
2017	Anoka	\$5 million for US 10/169 Safety and Mobility Improvements	\$77,920,000	TBD
2017	Brooklyn Park	\$10 million for US 169/101st Avenue North Interchange	\$27,000,000	TBD
2017	Carver County	\$1.5 million for MN 41/CSAH 18 roundabout	\$2,600,000	TBD
2017	Dodge County	\$135,450 for MN 56 Turn and Bypass Lanes	\$58,050	TBD
2017	Duluth	\$247,000 for Kayak Bay Intersection Signalization	\$107,000	TBD
2017	Kittson County	\$315,000 for Canola Oil Processing Plant Frontage Rd	\$135,000	TBD
2017	Pennington County	\$1 million for MN 32/CSAH 16 roundabout and Mark Boulevard extension	\$4,770,000	TBD
2015	Bloomington	\$8 million for East Bush Lake Road I-494	\$15,780,000	2600

			Westbound Entrance Ramp		
2015	Carver County	\$3.5 million for MN 41 Expansion	\$13,260,000	300	
2015	Dakota County	\$3.1 million for US 52/CSAH 42 Interchange Reconstruct	\$19,191,168	322	
2015	Scott County	\$10 million for US 169/MN 41/CSAH 78 Interchange	\$28,075,533	528	
2015	Washington County	\$4 million for MN 36/CSAH 35/Hadley Ave Interchange	\$14,857,000	275	
2015	Marshall	\$666,000 for MN 68 – Michigan Road Turning/Bypass	\$2,757,300	40	
2015	Mille Lacs County	\$110,187 for MN 95 roundabout and Princeton Business Park Access	\$1,794,284	900	
2015	Redwood Falls	\$280,000 for CSAH 101/MN 19/US 71 Union Drive Intersection Traffic Signal	\$200,000	770	
2015	Wells	\$147,880 for Wells Business Park Access	\$3,609,800	140	
2013	Minneapolis	\$6.8 million for I-94 7th Street Off Ramp and Repurposed 5th Street Off Ramp	\$2,910,000	5000	
2013	Waconia	\$4.5 million for MN 5 Improvements	\$6,599,103	360	
2013	LeSueur	\$2.1 million for US 169 Le Sueur Hill Access and Rest Area Improvements	\$1,642,042	200	
2013	Olmsted Co.	\$2.2 million for CSAH 16 & US 63 Interchange	\$9,295,000	450	

				Reconstruction and Airport Access Improvement Project		
2012	Eden Prairie	\$7 million for S. Shady Oak Rd Improvements	\$24,700,000		3500	
2012	Maplewood	\$1 million for MN 36 / English St Interchange	\$21,997,000		230	
2012	Minnetonka	\$1.6 million for I-394 Ridgedale Dr. westbound on ramp	\$6,396,035		450	
2012	St. Louis Park	\$3 million for MN 7 / Louisiana Interchange	\$22,008,000		450	
2012	Benton Co	\$2.9 million for US 10 / CSAH 3 Interchange	\$1,956,000		50	
2012	Delano	\$605,500 for Delano NW Business Park	\$3,313,000		100	
2012	Windom	\$544,960 for North Windom Industrial Park improvements	\$805,500		35	
<b>Totals:</b>		<b>\$80.2 million</b>	<b>\$311 million</b>		<b>16,700</b>	

<b>B.30</b>	<b>Invested \$8.8 Million in 11 Transportation Economic Development Infrastructure Program Projects, Supporting the Creation or Retention of 4,500 Jobs</b>	The Transportation Economic Development Infrastructure Program (TEDI) is a competitive grant program available to communities for road and public infrastructure projects that create jobs and support economic development. Under Governor Dayton’s leadership, the State of Minnesota has invested approximately \$8.8 million in projects across the state.			
		<b>Year</b>	<b>Project</b>	<b>Description</b>	<b>Jobs</b>
		2017	Brooklyn Park	\$1,500,000 to construct a new interchange at US Highway 169 and 101st Avenue North	2549
		2017	Chaska	\$650,000 to construct a new local street in downtown Chaska that will provide better access to a redevelopment area	72
2017	Pennington County	\$1,000,000 for MN 32 and CSAH 16/Mark Boulevard Roundabout	500		

		2017	Duluth	\$1,100,000 to construct an extension of Waseca Industrial Park Road.	215
		2015	Wells	\$407,000 to provide two turn lanes off of TH 22 and develop an internal road and infrastructure for a new business park.	140
		2015	Mankato	\$813,233 for Adams Street Extension, providing access to 170 acres of industrial land adjacent to US Hwy 14	367
		2015	Princeton		
		2015	St. John's Township	\$409,579 for First Avenue West upgrade, providing access to Meadow Star Dairy	52
		2012	Int'l Falls	\$657,000 for installation of utilities and a rail spur to the multi-modal district, which is located adjacent to the busiest rail port of entry in North America	50
		2012	Rice County	\$673,782 to improve access to developable properties north of the Faribault city limits along Interstate 35	93
		2012	Mankato	\$969,218 for road and utility improvements in Eastwood Energy Industrial Park	405
		2012	Delano	\$640,000 for highway infrastructure improvements are planned in support of a new industrial park	100
		<b>Total:</b>	<b>11 projects</b>	<b>\$8.8 million</b>	<b>4500</b>

<b>B.43</b>	<b>Invested \$8.6 Billion in Road and Bridge Construction Projects; a 36 Percent Increase Over Previous Administration</b>	<p>Under Governor Dayton's leadership, Minnesota invested \$8.6 billion in state road construction, an average of \$1.07 billion a year. In contrast, the Pawlenty Administration only invested \$6.3 billion in road construction, an annual average of \$786 million per year.</p> <p>From 2011-2018, this funding has improved over 8700 miles of state roadway and 1209 bridges. The funding also has supported efforts to improve interchanges and intersections, add more lanes and expand the MnPASS system. These improvements have slowed the increase of congestion during the last 10 years.</p> <p>The funding has also supported more than 13,000 jobs annually in the road and bridge construction and related sectors between</p>
-------------	--	--

		2011 and 2016. The new funding of projects for the next several years will continue to support jobs.
<b>B.44</b>	<b>Provided \$28.5 Million in Aid Program to Help Small Communities Maintain Roads</b>	In 2015, Governor Dayton and the Minnesota Legislature created the Small Cities Assistance Account for cities with a population under 5,000 that did not previously receive municipal state aid for their streets. The assistance is distributed through a formula to the 700 Minnesota cities. Since the program’s creation, Governor Dayton and the Legislature have provided \$28.5 million in assistance.
<b>B.45</b>	<b>Improved Rail Safety by Passing Legislation Requiring Railroads to Provide Training to Local Law Enforcement and Improved their Preparedness During Emergencies</b>	<p>In 2014, Governor Dayton and the Minnesota Legislature updated state law “the Spill Bill” to ensure that the State and the railroad corporations are better prepared to respond to rail derailments, and emergencies.</p> <p>Under the law, railroads are required to coordinate with and offer training to local law enforcement, fire departments, and emergency managers along the train routes, and the training must include how to respond to incidents that include oil and hazardous materials.</p> <p>Upon confirmation of a spill, railroads are required to deliver and deploy sufficient equipment and trained personnel to protect the public and environment within specified timeframes. Railroads are also required to conduct a drill and submit their prevention and response plan every three years.</p>
<b>B.46</b>	<b>Secured More than \$8 Million in Back Wages for Minnesota Workers</b>	Governor Dayton has advocated for workers and businesses that follow the law by empowering the Minnesota Department of Labor and Industry to crack down on employers who fail to pay workers for work already done. The agency estimates that more than 39,000 workers experience wage theft in Minnesota each year. Wage theft is most common in the janitorial services, construction, and restaurant industries. Under Governor Dayton’s leadership, almost \$8.5 million has been assessed in back wages and penalties for failure to comply with Minnesota wage and hour laws.
<b>B.47</b>	<b>Inspected More Than 15,000 Workplaces for Safety Compliance; Reduced Injury Rate</b>	Minnesota’s Occupational Safety and Health Administration conducts more than 1,900 compliance inspections each year and investigates an average of 17 worker deaths annually — not including deaths from traffic accidents, farming accidents, mining accidents and federal worksites. It also provides more than 1,000 free OSHA consultation assistance and safety training visits to help employers identify safety and health hazards.

		<p>Minnesota OSHA’s focus on high-hazard worksites in industries such as construction and manufacturing is helping ensure more workers go home safely at night. In 2011, workers in Minnesota on construction jobs were injured at a rate of 6.5 per every 100 full-time workers. That figure dropped to 3.4 in 2016, a 41 percent decline. In the past decade, Minnesota has seen a 33 percent decrease in its rate of work-related injuries and illnesses.</p>
<b>B.48</b>	<b>Set All-Time Low for Workplace Injuries</b>	<p>Minnesota's estimated workplace injury and illness rate for 2017 decreased to its lowest rate since measurement started in 1973. According to the annual Survey of Occupational Injuries and Illnesses, the state had an estimated 3.3 OSHA-recordable nonfatal workplace injuries and illnesses per 100 full-time-equivalent (FTE) workers in 2017. The estimated rate was 3.4 cases per 100 FTE workers in 2016, 3.7 in 2014, and 3.8 in 2011. The survey estimated Minnesota had 72,500 workers with OSHA-recordable nonfatal workplace injuries and illnesses in 2017, compared to 75,400 estimated cases for 2011. In the past fifteen years, Minnesota has seen a 40 percent decrease in its rate of work-related injuries and illnesses.</p>
<b>B.49</b>	<b>Launched MnSAFE Safety Initiative, Reducing State Employee Injuries by 29 Percent</b>	<p>In 2011, the Department of Administration launched the MnSAFE program. It is a statewide initiative to reduced work related injuries and illnesses. So far, the program has contributed to a reduction in work related injuries and illnesses of 29 percent, preventing over 3,000 fewer injuries to state employees over the past 7 years. It is estimated that the MnSAFE initiative has also contributed to \$31.5 million in reduced workers’ compensation costs during the same period.</p>
<b>B.50</b>	<b>Reviewed Workplace Safety Violations in One-Half of the Time</b>	<p>The Minnesota Occupational Safety and Health Administration works to improve workplace safety and health. It provides education to employers and employees, consults with organizations in making improvements, and takes enforcement actions against violators.</p> <p>Each year, the Minnesota Occupational Safety and Health Administration conducts an average of 2,300 enforcement inspections. On average, it issues reports and citations for safety violations in 19 days in comparison to the national average of 45 days. Similarly, it issues reports and citations for health violations in 24 days in comparison to the national average of 56 days.</p> <p>In 2015, the Minnesota Occupational Safety and Health Administration began Serious Injury Inspections, which require employers to report within 24 hours any work-related amputation, in-patient hospitalization, or loss of an eye. Since its</p>

		implementation, Serious Injury Inspections have tripled in reporting.
<b>B.51</b>	<b>Created the State’s Farm Safety Program; Provided Roll Bars for 354 Tractors</b>	<p>Between 2006 and 2016, 210 farmworkers were killed in farm accidents – the majority from tractor rollovers. In response, Governor Dayton worked with the Minnesota Legislature in 2016 to invest \$250,000 in a program to help farmers add rollover protection to aging tractors. An additional \$27,500 was raised from private sector donations. In 2017, the Governor and Legislature invested an additional \$150,000 in the program.</p> <p>Rollbar kits typically cost about \$900, but can cost double that amount depending on the tractor and the kit. When the operator also wears a seatbelt, roll bars are 99 percent effective in preventing death or serious injury.</p> <p>Thanks to these new resources, 354 roll bars have been installed on tractors across Minnesota. As of October 2018, another 13 have ordered their ROPS kits and are waiting for them to arrive; 210 are on the waiting list until more funding is secured.</p>
<b>B.52</b>	<b>Created a First-in-the-Nation Window Washing Safety Standard</b>	<p>After several fatalities in the state, in March 2012 Minnesota became the first state in the country to create a window washing safety standard. The standard applies to workers who are suspended more than 14 feet above grade and provides clear direction to contractors that perform interior or exterior window washing or building maintenance operations. Governor Dayton also worked with Minnesota Legislature in 2012 to require that new buildings have permanent anchoring systems for window washers.</p>
<b>B.53</b>	<b>Workplace Safety and Health Cooperative Compliance Partnership</b>	<p>In September of 2012, MNOSHA Compliance revised its partnerships with both the Associated General Contractors of Minnesota (AGC CHASE- Construction Health and Safety Excellence) program and the Minnesota Chapter of Associated Builders and Contractors (MN ABC).</p> <p>The partnership is managed by both associations and has three levels. Level 1 requires the employer maintain the minimum requirements of a safety and health program. Level 2 requires a more comprehensive safety and health program. Level 3 is Minnesota OSHA’s Cooperative Compliance Partnership (CCP) program where MNOSHA Compliance will provide compliance assistance for a specific project. To qualify, contractors must be at Level 2 for a minimum of one year and can then apply for participation in the CCP program for construction projects projected to last at least six months, but fewer than 18 months.</p>

		DLI’s Minnesota OSHA Compliance unit has 18 cooperative compliance partnership (CCP) agreements at construction sites across Minnesota to create mutual trust and respect among all parties – including project owners and construction workers – involved in the construction process.
<b>B.54</b>	<b>Completed Safety Training Program for Over 140 Employers and Over 57,000 Minnesota Workers</b>	During 2014 to 2017, Minnesota OSHA Compliance had more than 140 employers and more than 57,000 workers participate in a safety stand-down campaign to raise awareness among employers and workers about preventing falls, which account for the highest number of deaths in the construction industry. During the stand-down, employers and workers were asked to pause their workday to talk about fall prevention in construction and discuss topics such as ladder safety, scaffolding safety and roofing work safety.
<b>B.55</b>	<b>Launched the First Excavation Safety Stand-Down Campaign</b>	Minnesota OSHA Compliance launched its first Excavation Safety Stand-down campaign during April 17-21, 2017, to raise awareness about preventing excavation accidents. This was the first excavation Safety Stand-down in the country with Federal OSHA starting a National Stand-down on June 2, 2018. To date, over 20 Minnesota employers and their 350 employees paused their workday to talk about excavation safety and discuss ways to protect workers from hazards during excavation projects.
<b>B.56</b>	<b>Created the Office of Workers’ Compensation Ombudsman, Provided Assistance to 2,250 Minnesota Workers</b>	<p>After a serious injury, it can be difficult to navigate the workers compensation system. In 2011, the Department of Labor and Industry created an Office of Workers’ Compensation Ombudsman to provide direct assistance to injured workers and small businesses having difficulties navigating the workers’ compensation system.</p> <p>The ombudsman provided assistance to 2,250 Minnesotans from 2011 to 2017. The ombudsman has played a critical role in assisting injured workers who are in the most difficult of circumstances, working to ensure that they receive benefits they deserve.</p>
<b>B.57</b>	<b>Connected Minnesota Workers with Employment-Based Training</b>	<p>Under Governor Dayton’s leadership, the Department of Labor and Industry created the Minnesota PIPELINE Program – an innovative approach to address the state’s current and future workforce needs that develops industry-based, employer-driven, dual training programs for workers across the state. In 2016, the Program earned a State Government Innovation Award for engaging over 700 industry leaders to invest in employment-based training as a workforce investment strategy.</p> <p>Over the course of 2018, the PIPELINE Program team has increased industry leader participation to 828 participants. To date, 67</p>

		<p>employers have established dual-training programs that are supported by grant funding, impacting 1,219 employees. The PIPELINE Program team has established competency models for 36 occupations, including seven career pathway options. In the upcoming year, the PIPELINE team will host a speaker series for employers to share valuable information, launch a detailed toolkit for dual training program development, and continue to deepen industry and competency work – all with the goal of ensuring employer can give their workers the skills they need to succeed.</p>
<b>B.58</b>	<b>Enhanced Licensing and Registering Requirements for Professional Contractors</b>	<p>Through the licensing and registration of professional construction contractors, the Department of Labor and Industry promotes a fair, competitive marketplace, giving consumers the assurances they need to know their contractors are properly trained and registered.</p> <p>Under Governor Dayton’s leadership, the Department of Labor and Industry worked with stakeholders to amend state law and establish a two-year pilot project to register contractors who provide building construction and improvement services. The program became permanent in 2014. Since the program’s implementation, an additional 17,000 residential construction service providers have been registered with the State of Minnesota.</p>
<b>B.59</b>	<b>Provided \$8.6 Million in Compensation to Homeowners Harmed by Fraudulent and Deceptive Practices</b>	<p>Under Governor Dayton’s leadership, the Department of Labor and Industry ensured that the Contractor Recovery Fund, which serves as the consumer protection program for residential construction contractors, was fully funded and the application process was streamlined for homeowners who have suffered a financial loss due to a licensed contractor’s fraudulent, deceptive, or dishonest practices.</p> <p>During Governor Dayton’s two terms, the Fund increased the amount of compensation available to homeowners from \$150,000 per contractor to \$300,000 to help them recoup their losses when their contractor fails to perform the services they paid for in the past. From 2012 through 2017, 542 homeowners were compensated a total of \$8.6 million through this fund.</p>
<b>B.60</b>	<b>Less Costly, More Efficient Licensing – Saving Businesses Time and Money</b>	<p>Professional licensing helps ensure a fair and competitive marketplace, while assuring consumers know the professionals they hire are properly trained. Governor Dayton’s Administration put the licensing process online for all 82 licenses provided by the Department of Labor and Industry – making it faster, easier, and less costly for every professional and contractor licensed by the Department. These new online innovations reduced the time it takes to issue licenses between 25 percent and 40 percent for individuals and businesses. Average processing times for new</p>

		<p>professional licenses have dropped from seven days to three days. The processing time for business license applications has dropped from 22 days to 11 days. License renewals used to require three days. Now they are renewed online within minutes of an application.</p> <p>In addition to these reforms, the Department of Labor and Industry helped implement an online system for business license renewals, and simplified insurance filings. Because these online processes were more efficient, DLI was able to reduce its license fees by \$20 in 2015 – resulting in lower license costs for contractors, electricians, boiler operators, plumbers, and high-pressure pipefitters.</p> <p>In 2017, the Department of Labor and Industry was able to propose to the Legislature reducing the Department’s fees for construction licensing, permitting, and plan review. The proposal was passed by the Legislature, and will save Minnesota businesses an estimated \$5.2 million.</p>
<b>B.61</b>	<b>Moving Permitting Online – Saving Time and Making Business Easier</b>	<p>Since 2011, DLI has allowed electrical contractors, homeowners, and high-pressure piping contractors to apply online for permits, review inspection results, and pay fees – all in a matter of minutes.</p> <p>Under Governor Dayton’s Administration, this new online system cut the amount of staff time required to process and issue permits by 90 percent. Prior to 2012, all of the approximately 105,000 electrical permits issued by DLI’s Construction Codes and Licensing division (CCLD) were processed manually, which took approximately 8 business days. In FY18, 88 percent of electrical permits were applied for and issued instantly online.</p> <p>In 2015, DLI added online E-TRAKiT permits for elevators and boilers. Now, 99.5 percent of these elevator and boiler permits are applied for and issued online – saving time, and making business easier.</p>
<b>B.62</b>	<b>Making It Easier for Minnesotans to Comply with State and Local Building Codes</b>	<p>In 2012, DLI built a one-stop “Local Code Lookup.” This new online tool allows homeowners and contractors to find local code requirements and code inspectors, all in one place online. The search tool helps Minnesotans learn which code authority has local jurisdiction for permits, plan reviews and inspections in the areas of boilers, building codes, electrical, elevators, high-pressure piping, plumbing, or other Minnesota construction codes and licensing disciplines.</p>

<p><b>B.63</b></p>	<p><b>Building Trust with Minnesota’s Latino Workforce</b></p>	<p>Workplace Safety Consultation (WSC) began an alliance agreement with the Consulate of Mexico in Saint Paul on August 31, 2015. The agreement established a collaborative relationship to provide Mexican nationals in Minnesota information, guidance, and access to education and training resources to promote workers’ rights in protecting their occupational safety and health, and to help them understand U.S. domestic law on the rights of workers and the responsibilities of employers under the Occupational Safety and Health Act (OSHA Act).</p> <p>In January 2016, WSC began participating in bimonthly “TALK” sessions to inform consulate attendees about WSC programs and services. To date, there have been over 200 attendees, including mobile consulate events where the consulate travels to northern or southern Minnesota to offer legal services to Mexican nationals who are not be able to travel to Saint Paul.</p> <p>WSC has also included Vocational Rehabilitation, Labor Standards, and, Apprenticeship divisions from within the Department of Labor and Industry to attend monthly “TALK” sessions at the consulates Saint Paul offices.</p>
--------------------	--	--

<p><b>B.64</b></p>	<p><b>Invested \$62.6 Million in Local Infrastructure in Northeast Minnesota, Leveraging \$698.4 Million in Total Investment</b></p>	<p>The Iron Range Resources and Rehabilitation Board is charged with promoting and investing in business, community and workforce development in northeast Minnesota. <b>B.65</b>	<b>Invested \$81.98 Million in Rail Safety Projects Across Minnesota</b>	<p>Every day, trains carrying oil and other hazardous materials pass through Minnesota. These trains present real risks to public safety and our natural resources. To improve railway safety, the 2015 public works bill signed by Governor Dayton provided \$3.7 million for the Willmar Wye project, \$4.7 million for the Plymouth rail grade separation project, and \$460,000 for the Ranier rail grade separation project.</p> <p>Governor Dayton also worked with the Legislature in 2014 to invest \$2 million in improve safety at highway-rail grade crossing in which oil or other hazardous materials are transported</p>				

		<p>The 2017 public works bill signed by Governor Dayton provided \$42.3 million for the 21<sup>st</sup> Street South rail grade separation in Moorhead, \$14.1 million for the Hanson Boulevard rail grade separation in Coon Rapids, and \$14.8 million for the Sturgeon Lake Road rail grade separation. The 2017 public works bill also included \$1 million for railroad warning devices.</p> <p>The 2018 public works bill signed by Governor Dayton provided \$6 million to the 21<sup>st</sup> Street South rail grade separation in Moorhead, \$10.5 million to the Glenwood rail grade separation and \$1.2 million to construct crossing safety improvements in Hennepin County.</p>										
<p><b>B.66</b></p>	<p><b>Invested \$987,000 in Workforce Training Program, Benefiting 262 Participants</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature invested \$987,000 in a pilot customized training program for skilled manufacturing industries in an effort to expand on-the-job training and apprenticeship opportunities. Thanks to the pilot program, Alexandria Tech, Century College, Hennepin Tech, and Central Lakes College were able to partner with 20 manufacturing employers to provide employment and training opportunities in high skilled, high demand manufacturing occupations.</p> <p>The curriculum and training are developed specifically to meet employer needs – enrollees both work and attend class – like an apprenticeship. Upon completion, the average hourly wage of participants was \$14.63.</p> <table border="1" data-bbox="704 1178 1336 1346"> <thead> <tr> <th>School</th> <th>Enrollment</th> </tr> </thead> <tbody> <tr> <td>Alexandria Tech. &amp; Comm. <p><b>B.67</b></p>	<p><b>Invested \$57.4 Million in the Minnesota Job Skills Partnership Program, Benefiting 185 in Greater Minnesota and 221 in Twin Cities Metro Area</b></p>	<p>Since 2011, the State of Minnesota has invested nearly \$60 million in the Minnesota Job Skills Partnership Programs. These programs work strategically with businesses, educational institutions, and other training providers to train or retrain workers, expand work opportunities, and keep high-quality jobs in the state. These training grants are used to offset training-related expenses incurred by business, industry and educational institutions necessary to meet current and future workforce needs.</p> <p>Of the 406 awards since 2011 under this program, 185 have assisted businesses in Greater Minnesota and 221 in the Twin Cities seven-county metro.</p>										

<p><b>B.68</b></p>	<p><b>Invested \$44.5 Million in Lewis and Clark Regional Water System, Connecting Southwest Minnesota to Reliable, Affordable Water</b></p>	<p>Authorized by Congress in 2003, the Lewis and Clark Regional Water System was designed to connect more than 300,000 people in Minnesota, Iowa, and South Dakota to reliable, affordable water resources. The failure of the federal government to provide sufficient funding to cover the federal share of the project slowed construction, leaving Minnesotans disconnected from the project.</p> <p>Under Governor Dayton’s leadership, the state of Minnesota stepped up to provide the \$44.5 million in funding needed for the federal share of the project. Thanks to Governor Dayton, construction got underway to connect all remaining Minnesota communities to the project. The project is scheduled to conclude in December 2018. Connecting these communities to reliable water resources is critical to protecting quality of life for area residents and attracting and retaining economic development.</p> <table border="1" data-bbox="638 726 1403 959"> <thead> <tr> <th>Year</th> <th>State Investment</th> <th>Construction Funded</th> </tr> </thead> <tbody> <tr> <td>2014</td> <td>\$22 Million</td> <td>Iowa to Luverne, Magnolia, Rock County Water District</td> </tr> <tr> <td>2015</td> <td>\$19 Million</td> <td>Magnolia to Lincoln Pipestone Rural Water System</td> </tr> <tr> <td>2017</td> <td>\$3.5 Million</td> <td>Lincoln Pipestone Rural Water System to Worthington</td> </tr> </tbody> </table>	Year	State Investment	Construction Funded	2014	\$22 Million	Iowa to Luverne, Magnolia, Rock County Water District	2015	\$19 Million	Magnolia to Lincoln Pipestone Rural Water System	2017	\$3.5 Million	Lincoln Pipestone Rural Water System to Worthington
Year	State Investment	Construction Funded												
2014	\$22 Million	Iowa to Luverne, Magnolia, Rock County Water District												
2015	\$19 Million	Magnolia to Lincoln Pipestone Rural Water System												
2017	\$3.5 Million	Lincoln Pipestone Rural Water System to Worthington												
<p><b>B.69</b></p>	<p><b>Created Sales Tax Exemption for Data Center Construction</b></p>	<p>In 2011, Governor Dayton worked with the Minnesota Legislature to create a sales tax exemption for materials used in the construction of data centers. Companies that build data or network operation centers of at least 25,000 square feet and invest \$30 million in the first four years qualify for valuable tax breaks. Qualifying projects receive sales tax exemptions for 20 years on:</p> <ul style="list-style-type: none"> <li>• Computers and servers</li> <li>• Cooling and energy equipment</li> <li>• Energy use</li> <li>• Software</li> </ul> <p>Companies that refurbish a data or network operations center of at least 25,000 square feet and invest \$50 million in the first 2 years also qualify for the Data Center Sales Tax incentives.</p>												
<p><b>B.70</b></p>	<p><b>Secured Legislative Support for People’s Stadium, Creating Over 8,000 Jobs</b></p>	<p>In 2012, Governor Dayton signed legislation investing \$348 million in the construction of a new Minnesota Vikings Stadium. This project created 8,000 jobs, leveraged \$750 million in additional local and private investment, and spurred \$1 billion in additional economic activity and development in downtown Minneapolis. In addition, 90 percent of companies that participated in the construction process were Minnesota businesses, approximately 36</p>												

		percent of workers were people of color and 9 percent were women—exceeding hiring goals.
<b>B.71</b>	<b>Strengthened Development of Minnesota Solar Energy Industry</b>	In 2012, Governor Dayton and the Minnesota Legislature authorized state government to spend up to 5 percent of total appropriations for new or remodeled state buildings to be spent on Minnesota-made solar electric and/or solar thermal energy projects that will reduce long-term energy costs for the state.
<b>B.72</b>	<b>Cracked Down on Employee Misclassification</b>	In 2012, Governor Dayton and the Minnesota Legislature implemented bipartisan reforms to crack down on employee misclassification by requiring independent contractors in the construction industry to register with the Department of Labor and Industry. Misclassification allows employers to unfairly avoid payroll taxes and deprives workers of Workers’ Compensation, Unemployment benefits and overtime pay.
<b>B.73</b>	<b>Enacted Legislation Establishing Rochester Destination Medical Center</b>	<p>In 2013, Governor Dayton and the Minnesota Legislature enacted legislation authorizing the once-in-a-generation Destination Medical Center initiative, which is a multi-billion dollar public-private partnership to make Rochester “America’s City for Health.”</p> <p>Over the 20-year implementation timeline, DMC will create approximately 35,000 new jobs and generate more than \$7.5 billion in new tax revenue. DMC is a unique public private partnership. The private investment by Mayo Clinic and others is projected at more than \$5 billion. No public dollars will go to Mayo Clinic buildings or facilities. The \$585 million public investment by the state, Olmsted County, and the City of Rochester will go to building public infrastructure.</p> <p>In 2018, there are currently 23 projects at various stages of development in the DMC district. New DMC developments approved in 2018 totaled \$342 million. From 2013 to 2017, DMC attracted nearly \$428 million in private investment. Since 2014, approximately 3,300 new jobs, 1,100 new apartment units, and nearly 600 new hotel rooms have been added in Rochester.</p> <p>In 2018, the Mayo Clinic was named the #1 hospital in the United States for the third year in a row by <a href="#">U.S. News and World Report</a>.</p>
<b>B.74</b>	<b>Enacted \$350 Million Business Tax Cut</b>	In 2013, Governor Dayton and the Minnesota Legislature enacted a \$350 million business tax cut by reducing the assessment charged to employers for unemployment insurance. Prior to the tax cut, Unemployment Insurance Trust Fund had a large and growing surplus.

<b>B.75</b>	<b>Competitive Grants for Small Businesses and Entrepreneurs</b>	In 2013, Governor Dayton and the Minnesota Legislature invested \$2.85 million in a competitive grant program designed to help entrepreneurs and helps small businesses grow.
<b>B.76</b>	<b>Invested \$10 Million in Snowbate Program, Attracting \$51 Million in Private Spending</b>	In 2013, Governor Dayton and the Minnesota Legislature invested \$10 million in the Snowbate Program, which provides rebates (up to 25 percent) to film and television production crews for the production costs they incur in Minnesota. This investment generated more than \$51 million in private spending in Minnesota and attracted high profile projects such as feature films “Dear White People” and “Wilson,” and TV series “Lady Dynamite,” Danger & Eggs,” and “20/20: In an Instant” in addition to multiple commercial, TV and film projects.
<b>B.77</b>	<b>Expanded Sick Time Usage</b>	<p>Previously, employers with 21 or more employees were required to allow their employees to use their accrued sick leave for time off to care for a sick child.</p> <p>In 2013, Governor Dayton and the Minnesota Legislature passed legislation expanding the scope of the requirement to include the employee’s extended family—spouse, sibling, parent, grandparent, stepparent and the employee’s children over 18. Workers can now use sick leave time to provide care to spouses or parents who develop dementia or similarly debilitating conditions.</p> <p>In 2014, the law was further expanded to allow sick time to be used to care for in-laws or grandchildren, and to receive assistance in cases of domestic abuse, stalking, or sexual assault.</p>
<b>B.78</b>	<b>Invested \$11.4 Million Effort to Close Skills Gaps</b>	In 2013, Governor Dayton and the Minnesota Legislature appropriated \$3 million to the FastTRAC program (now Pathways to Prosperity), which provides training to Minnesotans in fields that are high in demand. The Governor and Legislature also invested \$8.4 million to continue the Job Skills Partnership, which provides customized training for incumbent workers when a business wants to employ new technology or expand its operations.
<b>B.79</b>	<b>Created Public Benefit Corporate Form</b>	In 2014, Governor Dayton and the Minnesota Legislature authorized the creation of public benefit corporations, which are a hybrid between a for-profit business and a non-profit organization. They allow the business to designate a social purpose in the corporate governing documents. The corporation is then responsible to its shareholders for pursuing those social goals.

<b>B.80</b>	<b>Invested in Efforts to Support Small Businesses</b>	In 2014, Governor Dayton and the Minnesota Legislature invested \$475,000 to each of the six Initiative Foundations located in Greater Minnesota. This funding is designated for the lending programs that each of the Initiative Foundations operates to help small businesses.
<b>B.81</b>	<b>Provided \$500,000 to Small Business Development Centers</b>	In 2014, Governor Dayton and the Minnesota Legislature invested \$500,000 in the network of Small Business Development Centers (SBDCs) operating throughout Minnesota. The SBDCs provide expert advice and consulting services designed to get small businesses up-and running.
<b>B.82</b>	<b>Unemployment Insurance Tax Cut for Employers</b>	In 2013, Governor Dayton and the Minnesota Legislature passed a bill to accelerate unemployment insurances tax reductions for tens of thousands of Minnesota businesses. This tax reduction put hundreds of millions of dollars back into the pockets of employers working to recover from the Great Recession.
<b>B.83</b>	<b>Secured Additional Unemployment Benefits for Unemployed Workers Affected by Steel Dumping and the Avian Flu Outbreak</b>	<p>Governor Dayton and the Minnesota Legislature acted in 2015 to provide laid off steel workers full unemployment benefits without regard to cashing in unused vacation days. That law also provided an extra 13 weeks of unemployment benefits for workers who were laid-off from farms and processing facilities due to an outbreak of the avian flu.</p> <p>In 2016, Governor Dayton and the Minnesota Legislature passed a law providing 26 weeks of additional benefits for laid off workers affected by the global downturn in steel prices.</p>
<b>B.84</b>	<b>Ensured Unemployment Insurance Trust Fund Solvency</b>	Governor Dayton and the Minnesota Legislature passed a law in 2016 that made Minnesota one of the only states in the nation with a statutory solvency threshold for its Unemployment Insurance Trust Fund. This reform helps keep employer UI taxes down while limiting the need for future borrowing from the federal government.
<b>B.85</b>	<b>Created Siding Production Incentive to Support Growth in Minnesota’s Forestry Industry</b>	In 2016, Governor Dayton and the Minnesota Legislature create a siding production incentive credit for eligible facilities who turn forest resource raw materials into siding. Payments are made on a basis of \$7.50 per 1,000 siding square feet for 10 years with a maximum. Maximum payments to producers are based on 400 million of siding square feet. Total incentive funding may not exceed \$3 million a year and is awarded on a first-come-first-served basis.

<p><b>B.86</b></p>	<p><b>Created New Protections Against Patent Trolling</b></p>	<p>In 2016, Governor Dayton and the Minnesota Legislature created additional protections and remedies against “patent trolling,” which is when a person sends written communications claiming patent infringement even though they are not legitimate claims. The law now prohibits a person from sending written communications in which a bad faith claim of patent infringement is made against an end user located or doing business in Minnesota. The Attorney General is authorized to pursue these claims, and pursue civil fines of up to \$50,000 per instance.</p>																																				
<p><b>B.87</b></p>	<p><b>Provided \$3.65 Million in Assistance to Struggling Mille Lacs Area Businesses</b></p>	<p>In 2016, Governor Dayton and the Minnesota Legislature provided \$3.65 million in relief to individual businesses that have seen at least a 10 percent reduction in gross receipts since 2010. The Governor and Legislature also provided \$300,000 to Explore Minnesota Tourism to promote tourism in the Mille Lacs area.</p>																																				
<p><b>B.88</b></p>	<p><b>Invested \$94 Million in Minnesota Small Businesses, Leveraging an Additional \$393 Million in Private Sector Investment</b></p>	<p>The Angel Tax Credit Program provided a 25-percent credit to investors or investment funds that put money into startup companies focused on high technology, new proprietary technology, or a new proprietary product, process or service in specified fields.</p> <p>Since 2011, Governor Dayton has secured \$94 million for Minnesota’s Angel Investment Tax Credit, which supports the growth of small businesses across the state. This investment has leveraged nearly \$400 million in additional private sector investment.</p> <table border="1" data-bbox="646 1213 1393 1612"> <thead> <tr> <th></th> <th><b>Businesses</b></th> <th><b>Investments Made</b></th> <th><b>Angel Tax Credits Issued</b></th> </tr> </thead> <tbody> <tr> <td>2011</td> <td>113</td> <td>\$63,148,784</td> <td>\$15,787,196</td> </tr> <tr> <td>2012</td> <td>117</td> <td>\$46,150,674</td> <td>\$11,415,751</td> </tr> <tr> <td>2013</td> <td>128</td> <td>\$50,657,447</td> <td>\$12,365,229</td> </tr> <tr> <td>2014</td> <td>110</td> <td>\$59,783,632</td> <td>\$13,841,673</td> </tr> <tr> <td>2015</td> <td>114</td> <td>\$70,411,833</td> <td>\$15,542,608</td> </tr> <tr> <td>2016</td> <td>105</td> <td>\$58,894,095</td> <td>\$14,723,711</td> </tr> <tr> <td>2017</td> <td>101</td> <td>\$44,474,766</td> <td>\$10,723,963</td> </tr> <tr> <td><b>Total:</b></td> <td><b>788</b></td> <td><b>\$393,521,231</b></td> <td><b>\$94,400,131</b></td> </tr> </tbody> </table>		<b>Businesses</b>	<b>Investments Made</b>	<b>Angel Tax Credits Issued</b>	2011	113	\$63,148,784	\$15,787,196	2012	117	\$46,150,674	\$11,415,751	2013	128	\$50,657,447	\$12,365,229	2014	110	\$59,783,632	\$13,841,673	2015	114	\$70,411,833	\$15,542,608	2016	105	\$58,894,095	\$14,723,711	2017	101	\$44,474,766	\$10,723,963	<b>Total:</b>	<b>788</b>	<b>\$393,521,231</b>	<b>\$94,400,131</b>

<p><b>B.89</b></p>	<p><b>Invested \$30 Million in Workforce Housing</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested \$30 million in Minnesota workforce housing program. This funding allowed Minnesota to leverage additional federal funding, which will help to address the serious lack of workforce housing found in many parts of the state.</p>																																				

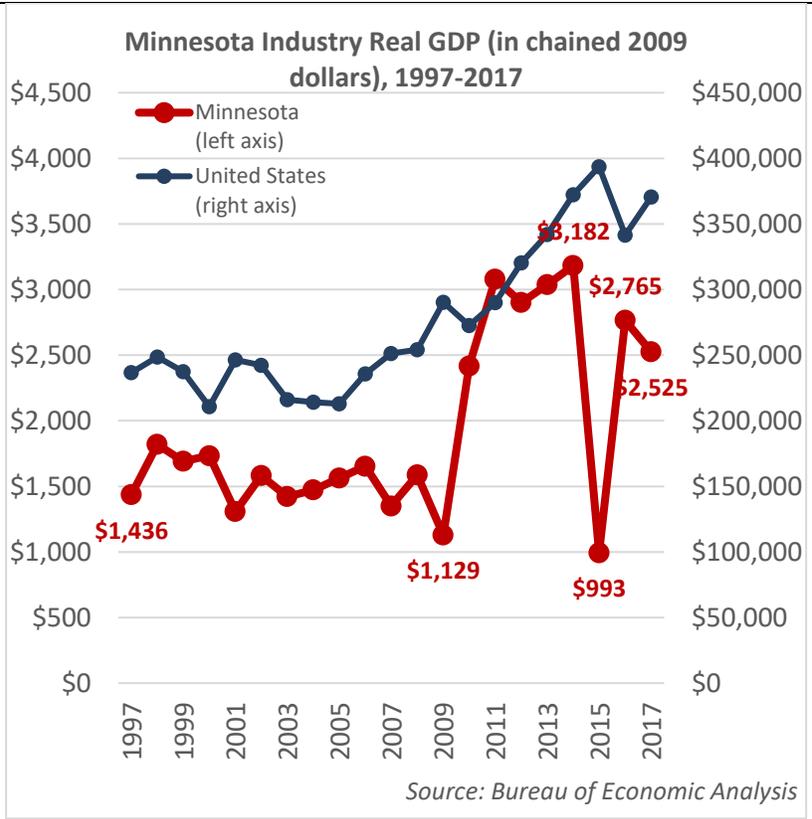

<p><b>B.90</b></p>	<p><b>Implemented a Statewide Brand for All Minnesota State Agencies</b></p>	<p>In 2012, the Governor-appointed Explore Minnesota Tourism Council imagined a statewide branding initiative that would make Minnesota government agencies look cohesive, approachable and modern. In collaboration with Governor Dayton and a diverse taskforce of tourism industry and state agency partners, Explore Minnesota began surveying, interviewing and documenting perceptions and perspectives of the state. Creative options were developed and tested, and Explore Minnesota debuted the new brand mark in conjunction with the #OnlyinMN campaign launch in 2014. Seeing the success and use of the new Minnesota brand by Explore Minnesota, Governor Dayton directed all state agencies to adopt the new mark and create a unified brand for the state in 2016 – making state agencies and the services they provide more easily recognizable for all Minnesotans.</p>
<p><b>B.91</b></p>	<p><b>Provided \$1.5 Million in Grant Funding for New Events, Generating Awareness and Tourism Across the State</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature created the New Event Grant program as a vehicle for communities throughout Minnesota to generate economic impact and awareness through new major events. In the program’s first year, the \$673,000 appropriation funded 22 events across greater Minnesota and the seven-county metro area, ranging from sporting events and nationally recognized competitions to cultural festivals and homegrown flagship community events.</p> <p>In 2018, the program was expanded to \$900,000, allowing another 18 new events and two event bids to be funded, which will result in increased tourism spending and amplify the visibility of Minnesota to a global audience.</p>

**B.92**

**Recovered Jobs and Fostered Growth in the Mining Industry**

- **Mining Industry Real GDP** – Under Governor Dayton’s leadership, the Mining industry in Minnesota saw growth in Real GDP over time, according to GDP estimates from the Bureau of Economic Analysis. Overall, Minnesota’s mining GDP has tracked with national Mining GDP.

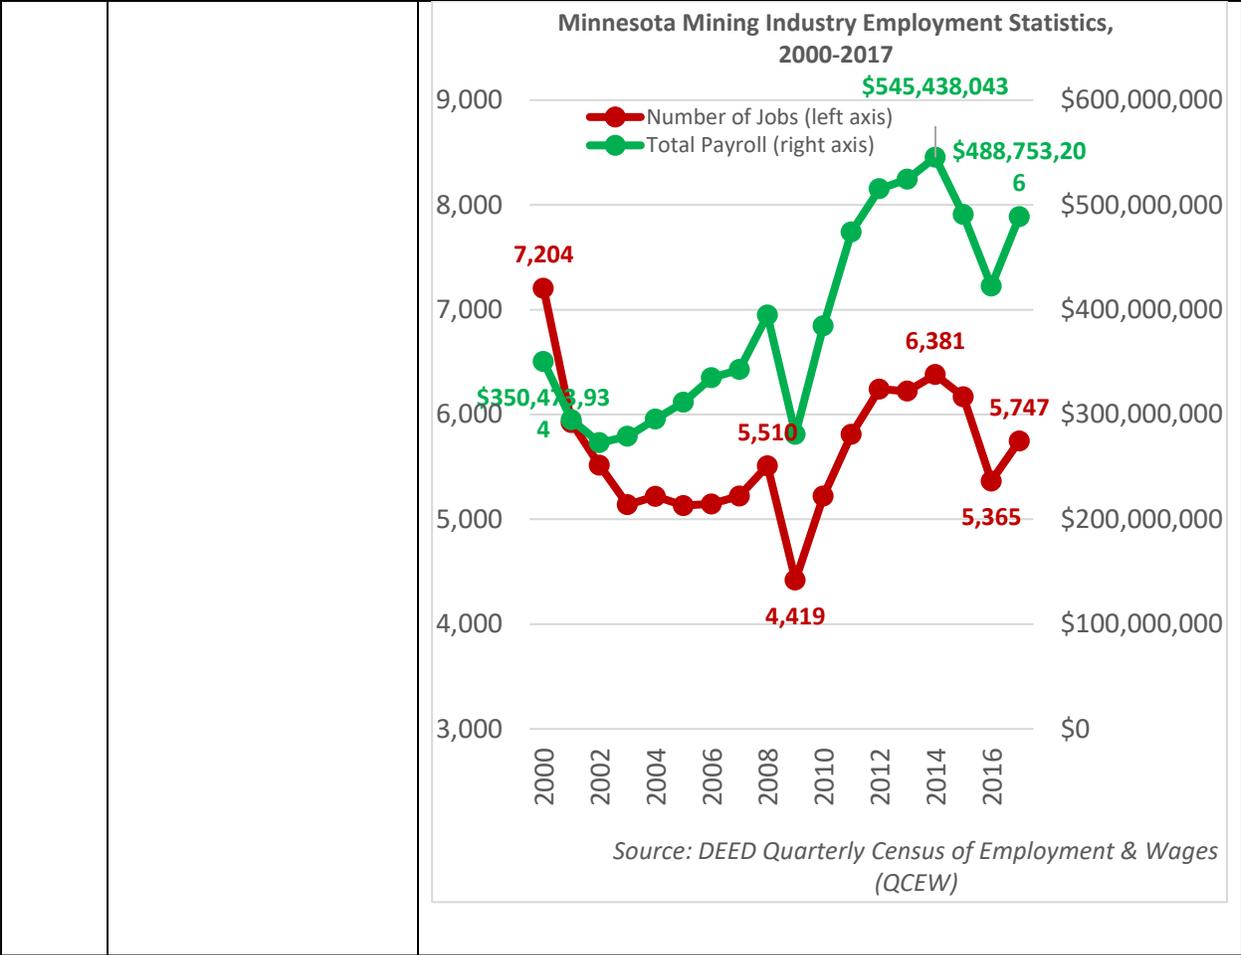

<b>Minnesota Industry Real GDP (in chained 2009 dollars), 1997-2017</b>		
	<b>United States (right axis)</b>	<b>Minnesota (left axis)</b>
<b>1997</b>	\$236,777	\$1,436

- Mining Industry Employment** – Under Governor Dayton’s leadership, the Mining industry has recovered jobs lost during the ups and downs of the industry since 2000. In 2017, the Mining industry had 5,747 jobs. This is 525 more jobs than the industry had in 2007, and 1,328 more jobs than the industry had in 2008 following the economic recession.

Minnesota Mining Industry Employment Statistics, 2000-2017

**B.93 Restored the Minnesota State Capitol, Increasing Access for Minnesotans**

Under Governor Dayton’s leadership, the State Capitol was restored and renovated. The \$309 million Capitol restoration was a comprehensive project covering virtually every inch of the 113-year old structure, from reinforcing subterranean footings to the newly-gilded finial on top of the Capitol’s dome. Over 26,000 pieces of marble were repaired, 242 historic windows were replaced, 57 murals were restored and thousands of other repairs were made to ensure our Capitol will endure for the next 100 years.

The Capitol restoration project was delivered on-time and under-budget. The project met workforce and subcontracting diversity goals, with nearly 30 percent of workers on the project being people of color and 12.5 women. With the repurposing of the space inside the Capitol, areas dedicated to public use have doubled to approximately 40,000 square feet – allowing more Minnesotans to access more of their State Capitol and meaningfully engage in their democracy.

<p><b>B.94</b></p>	<p><b>Reached Major Milestone in PolyMet’s Proposed NorthMet Mining Project, Issuing Permits to Mine</b></p>	<p>After careful review of the project, its environmental impacts and financial assurances, and more than 80,000 public comments, the Minnesota Department of Natural Resources issued permits for Poly Met Mining, Inc.’s (PolyMet’s) proposed NorthMet mining project in northeast Minnesota. This was a major milestone for a project that has been rigorously studied and refined for more than a decade, consistent with Minnesota’s strong environmental protection standards.</p> <p>In November 2018, the Minnesota DNR issued a permit to mine, two dam safety permits, six water appropriation permits, a public waters work permit, and an endangered species takings permit for the NorthMet project. As part of the permit to mine, DNR secured an unprecedented financial assurance package to protect the area’s natural resources for the long-term and ensure Minnesota’s taxpayers are not responsible for reclamation and water treatment costs. The issuance of these permits concluded the DNR’s consideration of the major permits that the project needs from the DNR in order to proceed.</p> <p>In order to proceed, the NorthMet project still requires water and air quality permits from the Minnesota Pollution Control Agency and a wetlands permit from the Army Corps of Engineers, in addition to other local permits and approvals. These permits and approvals are currently under review.</p>
<p><b>B.95</b></p>	<p><b>Ensured Iron Range Contractors Were Paid for Their Work</b></p>	<p>In July 2018, the Minnesota Department of Natural Resources (DNR) determined that Chippewa Capital Partners, LCC satisfied all of the terms for reinstatement of its State mineral leases. As a condition of the new lease terms, the Minnesota DNR ensured that contractors and vendors were paid the compensation they were owed for work they had previously completed on the Nashwauk project site. Satisfying the settlement agreement, Chippewa Capital Partners, LCC paid more than \$46 million owed to the project’s contractors and vendors.</p>

<p><b>CATEGORY C: Education</b></p>		
<p><b>#</b></p>	<p><b>Accomplishment</b></p>	<p><b>Description</b></p>
<p><b>C.1</b></p>	<p><b>Invested \$2 Billion in E-12 Education</b></p>	<p>When Governor Dayton was elected, he promised to increase state investments in public education every year he was Governor; no excuses, no exceptions. Governor Dayton has delivered on that promise, increasing E-12 education spending by nearly \$2 billion since he took office in January 2011.</p>

<p><b>C.2</b></p>	<p><b>Invested \$326 Million in High-Quality Early Learning Programs</b></p>	<p>Under the leadership of Governor Dayton, Minnesota made historic investments in giving more kids great starts, investing in Early Learning Scholarships, and beginning to offer free, voluntary preKindergarten to Minnesota families in school districts around the state.</p> <p>During the Governor’s two terms, Minnesota invested \$326 million in the state’s youngest students. With those funds, more than 31,600 young kids have gained access to early learning programs with Early Learning Scholarships; and 6,100 four-year-olds across Minnesota enrolled in school-based preKindergarten and school readiness plus programs during the 2017-2018 school.</p> <table border="1" data-bbox="797 667 1239 982"> <thead> <tr> <th>Year</th> <th>Scholarships Awarded</th> <th>Voluntary PreK</th> </tr> </thead> <tbody> <tr> <td>2013</td> <td>507</td> <td>---</td> </tr> <tr> <td>2014</td> <td>5,871</td> <td>---</td> </tr> <tr> <td>2015</td> <td>8,225</td> <td>---</td> </tr> <tr> <td>2016</td> <td>11,219</td> <td>3,300</td> </tr> <tr> <td>2017</td> <td>15,079</td> <td>6,100</td> </tr> <tr> <td>2018</td> <td>15,779</td> <td>7,160*</td> </tr> <tr> <td><b>Total:</b></td> <td><b>56,680</b></td> <td><b>16,560</b></td> </tr> </tbody> </table> <p>These early learning opportunities help close the state’s persistent achievement gaps, and expand opportunities for success for students and families across Minnesota.</p>	Year	Scholarships Awarded	Voluntary PreK	2013	507	---	2014	5,871	---	2015	8,225	---	2016	11,219	3,300	2017	15,079	6,100	2018	15,779	7,160*	<b>Total:</b>	<b>56,680</b>	<b>16,560</b>

<b>Total:</b>	<b>56,680</b>	<b>16,560</b>																								
<p><b>C.3</b></p>	<p><b>Delivered Free, All-Day Kindergarten for 55,000 Kids Per Year Since 2014</b></p>	<p>When Governor Dayton was elected, he promised to extend the option of free, all-day Kindergarten to every Minnesota family. Governor Dayton and the DFL Legislature delivered on that promise during the 2013 Legislative Session.</p> <p>In 2013, only 54 percent of kids were enrolled in all-day Kindergarten. At that point, many families were forced to pay \$2,500-4,500 out-of-pocket for all-day Kindergarten.</p> <p>By 2014 (the first school year statewide funding took effect), 99.6 percent of school districts had chosen to provide free, all-day Kindergarten for their students, benefiting 57,000 kids in the first year alone. To-date, 165,000 children have benefited from free, all-day Kindergarten.</p>																								
<p><b>C.4</b></p>	<p><b>Provided Early Learning Scholarships to Over 31,600 Young Children</b></p>	<p>When Governor Dayton took office in January 2011, no child in Minnesota had access to state-funded early learning scholarships. Working with Republicans and Democrats, Governor Dayton created the state’s Early Learning Scholarship Program. Since the scholarships were created in 2011, about 31,600 low-income, at-</p>																								

		risk children have gained access to early learning programs, preparing them for success in school and life.
<b>C.5</b>	<b>Implemented New Voluntary Pre-K Program</b>	<p>In 2016, Governor Dayton secured a historic \$25 million investment for voluntary preKindergarten – allowing 3,300 four-year-olds across Minnesota to attend preschool free of charge.</p> <p>In 2017, Governor Dayton worked with the Legislature to secure another \$50 million in one-time funding for voluntary preKindergarten or school-readiness programs. The Governor had proposed \$175 million to ensure every school district could offer voluntary preKindergarten to their families free of charge.</p> <p>In total, this funding allowed up to 6,100 Minnesota four-year-olds to attend free, voluntary prekindergarten during the 2017-2018 school year. These programs are saving families thousands of dollars, while preparing Minnesota’s youngest learners for success in school and life.</p>
<b>C.6</b>	<b>Trained Educators at 583 Schools Working with Students with Challenging Behavior</b>	<p>In 2016, Governor Dayton worked with the Minnesota Legislature to secure \$2.75 million for school wide positive behavioral interventions and supports (PBIS). The statewide program provides districts and individual schools throughout Minnesota with training and technical support to improve student behavior, especially for students with challenging social behaviors.</p> <p>To date, more than 300,000 Minnesota students at 645 schools have benefited from this training. Once implemented, PBIS utilizes an evidence-based framework for preventing problem behavior, providing instruction and support for positive behaviors, and supporting social, emotional, and behavioral needs for all students</p> <p>Schools that implement PBIS have experienced increases in instructional time and decreases in office discipline referrals and suspensions. For example, one large district that implemented PBIS over time experienced a 58 percent reduction in disciplinary incidents from 2011 to 2017.</p>
<b>C.7</b>	<b>Launched an Early Childhood Longitudinal Data System</b>	<p>Governor Dayton is a champion for early learning opportunities as an effective tool for closing achievement gaps throughout his tenure as Governor. In 2016, the Dayton Administration developed and launched a new Early Childhood Longitudinal Data System. This innovative tool combines data collected by each agency to show children’s growth and achievement in relation to their participation in a variety of educational and social programs over time.</p>

		<p>Lawmakers, educators, community members and parents use this resource for general information and to inform policies and practices. It is the first-ever comprehensive picture of public investments in early childhood in Minnesota, has led to increased collaboration across state and local programs and allows us to track the long-term impact of investments and programs for further evaluation.</p>																																																								
<p><b>C.8</b></p>	<p><b>Posted Record 82.7 Percent Graduation Rate in 2017</b></p>	<p>Governor Dayton was committed to ensuring all students received an education that prepared them for future success. Under his leadership, Minnesota increased funding for education every year – no excuses, no exceptions.</p> <p>Continuing a steady upward trend, more Minnesota students are graduating from high school than ever before. Rates for all students increased 5 percentage points from 2011, showing that more Minnesota students are graduating from high school. During Dayton’s two terms, graduation rates for non-white students increased by 13.1 percentage points. Rates for white students have increased by 3.2 points during that time.</p> <table border="1" data-bbox="623 940 1369 1241"> <thead> <tr> <th colspan="7">Four-Year Graduation Rates</th> </tr> <tr> <th></th> <th>Latino</th> <th>American Indian</th> <th>Asian</th> <th>African American</th> <th>White</th> <th>All Students</th> </tr> </thead> <tbody> <tr> <td><b>2013</b></td> <td>59.2%</td> <td>48.1%</td> <td>79.7%</td> <td>57.7%</td> <td>85.9%</td> <td>80.4%</td> </tr> <tr> <td><b>2014</b></td> <td>63.2%</td> <td>48.2%</td> <td>82.4%</td> <td>60.2%</td> <td>86.5%</td> <td>81.4%</td> </tr> <tr> <td><b>2015</b></td> <td>65.9%</td> <td>49.1%</td> <td>83.5%</td> <td>62.2%</td> <td>87.2%</td> <td>82.1%</td> </tr> <tr> <td><b>2016</b></td> <td>66.0%</td> <td>49.5%</td> <td>84.4%</td> <td>64.9%</td> <td>87.5%</td> <td>82.5%</td> </tr> <tr> <td><b>2017</b></td> <td>66.3%</td> <td>50.7%</td> <td>85.5%</td> <td>64.7%</td> <td>88.0%</td> <td>82.7%</td> </tr> <tr> <td><b>Change</b></td> <td>11.8%</td> <td>5.4%</td> <td>7.2%</td> <td>12.1%</td> <td>2.4%</td> <td>2.3%</td> </tr> </tbody> </table>	Four-Year Graduation Rates								Latino	American Indian	Asian	African American	White	All Students	<b>2013</b>	59.2%	48.1%	79.7%	57.7%	85.9%	80.4%	<b>2014</b>	63.2%	48.2%	82.4%	60.2%	86.5%	81.4%	<b>2015</b>	65.9%	49.1%	83.5%	62.2%	87.2%	82.1%	<b>2016</b>	66.0%	49.5%	84.4%	64.9%	87.5%	82.5%	<b>2017</b>	66.3%	50.7%	85.5%	64.7%	88.0%	82.7%	<b>Change</b>	11.8%	5.4%	7.2%	12.1%	2.4%	2.3%

<p><b>C.9</b></p>	<p><b>Invested \$12 Million to Expand Student Access to School Counselors and Student Support Staff at 79 Schools</b></p>	<p>After a decade of funding cuts before Governor Dayton took office, many Minnesota schools lacked enough guidance counselors to help support students. In 2011, Minnesota schools had one counselor for every 771 students – more than triple the ratio recommended by education experts.</p> <p>In 2016, Governor Dayton secured a \$12 million investment for school support staff from the Legislature, and established a one-time grant program for schools. The new resources are now helping 77 schools across Minnesota add school counselors, school psychologists, social workers, chemical dependency counselors, and school nurses for the next six years. The additional counselors and other support staff will begin to alleviate Minnesota’s shortage of student support personnel.</p> <table border="1" data-bbox="646 1833 1390 1862"> <thead> <tr> <th>School</th> <th>Position</th> <th>Status</th> </tr> </thead> </table>	School	Position	Status

<b>C.10</b>	<b>Expanded State Support for American Indian Students</b>	<p>As Governor, Mark Dayton worked to close opportunity gaps for Minnesota’s American Indian children. In 2015, he worked with the Legislature to replace an underfunded and competitive grant program with a formula aid program that provides \$12.6 million in funding to 136 public school districts, charter schools, and federal tribal schools, serving nearly 95 percent of our American Indian students in Minnesota.</p> <p>In addition, \$5 million was invested to increase the cap on state equalization funding for the federally-operated Bureau of Indian schools from \$1,500 per student to \$3,230, more than doubling the per pupil equalization funding the state provides. This provides more per pupil funding to students in Bureau of Indian Education schools to bring them closer to the statewide average. It provides these schools the sorely needed resources that they have been missing.</p>		
<b>C.11</b>	<b>Created Regional Centers of Excellence</b>	<p>In 2013, Governor Dayton and the Legislature invested \$2 million to expand the statewide system of support to schools by creating regional centers to help struggling schools implement targeted, strategic interventions to help close the achievement gap, increase graduation rates, and create the World's Best Workforce.</p>		

		<p>These centers offer Greater Minnesota school districts hands-on support to help improve student achievement. Previously, there were only three Regional Centers of Excellence in Thief River Falls, St. Cloud, and Rochester. Thanks to Governor Dayton’s leadership, there are now three more – in Mountain Iron, Fergus Falls, and Marshall.</p> <p>In 2015, the Regional Centers of Excellence was named one of Harvard Ash Center’s Top 25 Innovations in Government. From 2014 to 2015, center specialists spent nearly 13,000 hours in direct service to 78 schools. As a result, 65 percent of Priority and 63 percent of Focus schools showed improved growth in just one year.</p> <p>Moving forward under the Every Student Succeeds Act (ESSA), Minnesota will expand center staffing to address specific improvement needs and ESSA requirements, including specialist support in reading, math, district support, equity, graduation support reform, dropout prevention and principal leadership.</p>
<p><b>C.12</b></p>	<p><b>Made Schools Safer by Establishing Anti-Bullying Law and School Safety Technical Assistance Center</b></p>	<p>In 2011, Governor Dayton convened the Governor’s Task Force on the Prevention of School Bullying to develop legislative solutions to prevent bullying in Minnesota schools.</p> <p>In 2014, Governor Dayton signed into law the Safe and Supportive Schools Act, which addresses bullying in Minnesota schools. The law provides local school districts the guidance, support, and flexibility to adopt clear and enforceable school policies to help protect all children from bullying, and to reinforce the principles of tolerance and respect in our schools.</p> <p>The Act puts the following measures in state law to help protect Minnesota children from the threat of bullying:</p> <ul style="list-style-type: none"> <li>• <b>Locally-Implemented School Policies</b> – The Act directs public and charter schools to adopt local policies to prevent and prohibit school bullying. School districts will also have the option to adopt anti-bullying policy language drafted by the state.</li> <li>• <b>Defines Bullying</b> – The Act clearly defines what behaviors, and patterns of behaviors, should be considered bullying in Minnesota schools – including online forms of bullying through social media.</li> <li>• <b>Helps Train Teachers and Staff</b> – The Act designates a staff member at each school to monitor and investigate reports of bullying behavior. It also provides regular training and professional development for teachers and staff to identify and prevent bullying behavior.</li> </ul>

		<ul style="list-style-type: none"> <li>• <b>Provides Support for Schools</b> – The Act creates a School Safety Technical Assistance Center at the Minnesota Department of Education to help schools with training for teachers and staff, gather data on bullying in Minnesota schools, review best practices, and help school districts develop and implement anti-bullying policies at the local level.</li> </ul> <p>From November 2016 to November 2017, the School Safety Center provided an estimated 1,900 hours of technical assistance to students, families, teachers, school support staff, schools and school districts. During that period, center staff provided nearly 500 hours of training and presentations attended by nearly 3,000 people on a range of topics. These topics included restorative practices; identifying, investigating and addressing bullying; school climate improvement; rethinking discipline policies and practices; trauma-informed approaches to supporting students; using student data to inform school improvement planning; and practices to ensure that LGBTQ students feel safe, supported and welcome at school.</p> <p>In 2017, the School Safety and Technical Assistance Center released a toolkit for Ensuring Safe and Supportive Schools for Transgender and Gender Nonconforming Students. The toolkit is a resource for school districts and charter schools in creating school environments where transgender and gender nonconforming students are safe, supported and fully included, and have equal access to the educational opportunities provided to all students.</p> <p>In 2018, the Center released a Social and Emotional Learning Implementation Guidance document with resources to help schools put in place proven strategies to develop students’ social and emotional skills, which improve students’ capacity to learn and boost student academic achievement. Research shows that social and emotional learning in school improves students’ mental health, social skills and academic performance. It also reduces students’ conduct problems and emotional distress.</p>
C.13	<p><b>Reduced Funding Inequity Between School Districts by More than 39 Percent</b></p>	<p>In 2014, Governor Dayton worked with the Minnesota Legislature to empower local school boards to raise additional revenue for education. By increasing local control, the Governor and Legislature helped reduce the inequity between the districts with the highest and lowest funding by more than 39 percent. By 2016, the gap between the districts with the highest and lowest funding dropped to 18.5 percent, a more than 12 percentage point reduction since 2013. Ensuring that all schools have the resources they need will help Minnesota students in every corner of the state get the world class education they need for success in life.</p>

<p><b>C.14</b></p>	<p><b>Improved Support for English Learners</b></p>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Education completed a comprehensive overhaul of the English learner (EL) system, emphasizing dual language proficiency. The aim of the changes was to help students achieve English academic proficiency in the main classroom setting, provide English learner training to all teachers, and leverage state accountability systems to track and improve EL academic achievement.</p> <p>Additionally, with an understanding that students who speak English as their second language may need additional support on their path to career and college, the number of years an English learner is eligible for funding was extended from five to seven years.</p>																		
<p><b>C.15</b></p>	<p><b>Provided More Than 33 Million Nutritious, No or Low-Cost Meals to Minnesota Students</b></p>	<p>In January 2014, Mid-Minnesota Legal Aid released a report revealing that 46 Minnesota school districts had policies that denied students access to a nutritious lunch, if those students do not have sufficient funds to pay for their meal. Some students were even being shamed for their family’s inability to pay.</p> <p>In May 2014, Governor Dayton and the Legislature invested \$3.5 million in school lunch, ensuring no child is denied a nutritious lunch or shamed in the lunch room. Now, students who qualify for reduced-price lunches will receive a free lunch. In addition, the Governor signed into law a nearly \$570,000 investment in 2014 that provides free breakfasts for all of the state’s kindergarten students.</p> <table border="1" data-bbox="732 1178 1304 1444"> <thead> <tr> <th colspan="3"><b>Meals Served</b></th> </tr> <tr> <th><i>Year</i></th> <th><i>Kindergarten Breakfast</i></th> <th><i>Reduced Price Lunches</i></th> </tr> </thead> <tbody> <tr> <td>2015</td> <td>2,225,377</td> <td>8,928,354</td> </tr> <tr> <td>2016</td> <td>2,313,454</td> <td>8,787,512</td> </tr> <tr> <td>2017</td> <td>2,448,383</td> <td>8,939,808</td> </tr> <tr> <td><b>Total:</b></td> <td><b>6,987,214</b></td> <td><b>26,655,674</b></td> </tr> </tbody> </table>	<b>Meals Served</b>			<i>Year</i>	<i>Kindergarten Breakfast</i>	<i>Reduced Price Lunches</i>	2015	2,225,377	8,928,354	2016	2,313,454	8,787,512	2017	2,448,383	8,939,808	<b>Total:</b>	<b>6,987,214</b>	<b>26,655,674</b>

<p><b>C.16</b></p>	<p><b>Continued Leadership on the Nation’s Report Card</b></p>	<p>In 2013, the latest year of available results, Minnesota fourth graders were first in nation for mathematics on the National Assessment of Educational Progress, commonly known as the “Nation’s Report Card.” Minnesota black students were fourth in nation, and Minnesota fourth graders 10<sup>th</sup> in nation in reading, up from 22<sup>nd</sup>. Minnesota fourth graders closed the white/black achievement gap in half from 33<sup>rd</sup> to 17<sup>th</sup> in nation.</p> <p>In 2018, NAEP released results showing Minnesota students rank second in the nation in 4<sup>th</sup> and 8<sup>th</sup> grade math, and our ranking increased to 16<sup>th</sup> in 4<sup>th</sup> grade reading.</p>																		

<p><b>C.17</b></p>	<p><b>Secured \$45 Million Federal Grant to Develop Quality Early Learning Choices</b></p>	<p>As Governor, Mark Dayton made improving the quality of Minnesota’s early learning programs and statewide access to programs a priority. In 2011, Minnesota was one of only nine states awarded a federal Race to the Top--Early Learning Challenge grant. This \$45 million award is supporting efforts to improve early learning and development opportunities for Minnesota’s young children. The grant addresses a critical need to provide more high-needs children from birth to age five with access to high-quality early care and education programs.</p> <ul style="list-style-type: none"> <li>• Children participating in Three- and Four-Star Parent Aware Rated programs increased from 11,485 prior to the grant to 83,887 at the end of the grant.</li> <li>• 964 children from 733 families were served by Race to the Top scholarships across the four Transformation Zones- the Northside Achievement Zone in Minneapolis, the Saint Paul Promise Neighborhood in Saint Paul, Itasca County, and White Earth Nation.</li> <li>• The Assuring Better Child Health Development Family Medicine Project, improved screening, referral, and feedback processes for children ages birth to age five with suspected developmental or social-emotional delays. The project resulted in 19,859 well child visits with 16,832 children who completed screens and 513 children who were referred for early intervention services.</li> </ul>
<p><b>C.18</b></p>	<p><b>Minnesota Remained National Leader on ACT Exam Scores</b></p>	<p>In 2015, Minnesota students reached the milestone of achieving the nation's highest ACT scores for ten straight years. According to the report, Minnesota high school seniors again outperformed their peers among states in which at least 50 percent of graduates took the test.</p> <p>In 2018, Minnesota students again topped the nation (for the third year in a row) among the 19 states where 90 percent or more students took the college entrance exam. Minnesota students earned a composite score of 21.3 compared to the national average composite score of 20.8.</p> <p>Minnesota students. Thirty percent of Minnesota graduates met all four ACT college readiness benchmarks, compared to 27 percent of students nationally, meaning they are likely prepared for the rigor of college-level coursework. Among states who give the test to more than half their students, Minnesota ranked fifth in the nation.</p>

		In 2013, Governor Dayton worked with the Minnesota Legislature to ensure that all students could take the ACT, regardless of their ability to pay. In 2016, Minnesota students were first among the 18 states that provided the ACT to all students. The state currently covers the costs of taking the exam for all students receiving free or reduced-price lunch.																																																																																
<b>C.19</b>	<b>Invested \$40 Million in Special Education Reform</b>	In 2013, Governor Dayton worked with the Minnesota Legislature to invest \$40 million in special education reform. The state is also working to better support special education teachers by cutting down paperwork, allowing teachers focus their efforts where it is most needed: the classroom.																																																																																
<b>C.20</b>	<b>Invested \$32 Million in Local School Improvements</b>	<p>In 2015, Governor Dayton and the Minnesota Legislature invested \$32 million to help school districts provide important maintenance to classrooms and other school facilities.</p> <table border="1"> <thead> <tr> <th>School District</th> <th>State Aid</th> <th>School District</th> <th>State Aid</th> </tr> </thead> <tbody> <tr> <td>Adrian</td> <td>\$21,023</td> <td>Mahtomedi</td> <td>\$164,352</td> </tr> <tr> <td>Albany</td> <td>\$174,978</td> <td>Mankato</td> <td>\$330,789</td> </tr> <tr> <td>Albert Lea</td> <td>\$333,369</td> <td>Maple Lake</td> <td>\$62,818</td> </tr> <tr> <td>Alden</td> <td>\$60,182</td> <td>Maple River</td> <td>\$25,135</td> </tr> <tr> <td>Annandale</td> <td>\$20,596</td> <td>Marshall</td> <td>\$126,786</td> </tr> <tr> <td>Anoka-Hennepin</td> <td>\$2,522,864</td> <td>Medford</td> <td>\$37,845</td> </tr> <tr> <td>Ashby</td> <td>\$11,047</td> <td>Melrose</td> <td>\$121,034</td> </tr> <tr> <td>Austin</td> <td>\$521,757</td> <td>Menahga</td> <td>\$105,285</td> </tr> <tr> <td>Badger</td> <td>\$31,596</td> <td>Mesabi East</td> <td>\$55,621</td> </tr> <tr> <td>Bagley</td> <td>\$105,789</td> <td>Milaca</td> <td>\$191,858</td> </tr> <tr> <td>Barnesville</td> <td>\$43,299</td> <td>Minneota</td> <td>\$5,995</td> </tr> <tr> <td>Barnum</td> <td>\$74,525</td> <td>Minnertonka</td> <td>\$29,244</td> </tr> <tr> <td>Becker</td> <td>\$73,985</td> <td>Montevideo</td> <td>\$160,762</td> </tr> <tr> <td>Belgrade-Brooten-Elr</td> <td>\$23,918</td> <td>Monticello</td> <td>\$142,831</td> </tr> <tr> <td>Belle Plaine</td> <td>\$124,583</td> <td>Moorhead</td> <td>\$417,397</td> </tr> <tr> <td>Bemidji</td> <td>\$284,176</td> <td>Moose Lake</td> <td>\$40,638</td> </tr> <tr> <td>Bertha-Hewitt</td> <td>\$55,483</td> <td>Mora</td> <td>\$166,371</td> </tr> <tr> <td>Big Lake</td> <td>\$183,770</td> <td>Morris Area</td> <td>\$55,903</td> </tr> <tr> <td>Blackduck</td> <td>\$55,027</td> <td>Mounds View</td> <td>\$236,496</td> </tr> </tbody> </table>	School District	State Aid	School District	State Aid	Adrian	\$21,023	Mahtomedi	\$164,352	Albany	\$174,978	Mankato	\$330,789	Albert Lea	\$333,369	Maple Lake	\$62,818	Alden	\$60,182	Maple River	\$25,135	Annandale	\$20,596	Marshall	\$126,786	Anoka-Hennepin	\$2,522,864	Medford	\$37,845	Ashby	\$11,047	Melrose	\$121,034	Austin	\$521,757	Menahga	\$105,285	Badger	\$31,596	Mesabi East	\$55,621	Bagley	\$105,789	Milaca	\$191,858	Barnesville	\$43,299	Minneota	\$5,995	Barnum	\$74,525	Minnertonka	\$29,244	Becker	\$73,985	Montevideo	\$160,762	Belgrade-Brooten-Elr	\$23,918	Monticello	\$142,831	Belle Plaine	\$124,583	Moorhead	\$417,397	Bemidji	\$284,176	Moose Lake	\$40,638	Bertha-Hewitt	\$55,483	Mora	\$166,371	Big Lake	\$183,770	Morris Area	\$55,903	Blackduck	\$55,027	Mounds View	\$236,496

<b>C.21</b>	<b>Reduced Funding Gap Between Rural and Metro Schools by 23 Percent</b>	<p>In the eight years before Governor Dayton took office, the funding equity gap between metro and rural schools grew by 49 percent – impacting the quality of education for students based on their zip codes. Under Governor Dayton’s leadership, Minnesota enacted reforms to reduce that disparity by 23 percent. The Governor also worked with the Minnesota Legislature to increase per pupil funding for students in Greater Minnesota by \$2,562.</p> <ul style="list-style-type: none"> <li>• <b>Small Schools Revenue</b> – In 2011, Governor Dayton and the Minnesota Legislature created small schools revenue that provides additional funds for school districts that have fewer than 1,000 students.</li> <li>• <b>American Indian Education Aid enacted</b> – In 2015, Governor Dayton and the Minnesota Legislature enacted an American Indian Education aid program, which provides funding for school districts, charters and American Indian controlled tribal contract schools with at least 20 American Indian students. Districts are guaranteed at least \$20,000.</li> <li>• <b>Agricultural School Bond Credit</b> – Enacted under Governor Dayton’s leadership in 2017, the bond credit pays 40 percent of debt service levy on agriculture land, helping districts with large amounts of farm land to pass and maintain levies.</li> <li>• <b>Long Term Facilities Maintenance</b> – In 2015, Governor Dayton and the Legislature created the Long Term Facilities Maintenance program, which helps school districts maintain school buildings. This per pupil driven formula can be used to increase facility accessibility, and health and safety. School districts receive \$193 per students for FY17, \$292 for FY18, and \$380 for FY19 and later.</li> </ul>			

		<ul style="list-style-type: none"> <li>• <b>Local Optional Revenue</b> – In 2013, Governor Dayton and the Minnesota Legislature established an additional category of general education revenue, called local optional revenue, which makes all districts eligible for \$424 per pupil in additional revenue.</li> </ul>																		
<p><b>C.22</b></p>	<p><b>Invested \$1.3 Million in Agricultural Literacy</b></p>	<p>Under Governor Dayton’s leadership, \$1.3 million has been invested in the Minnesota Agriculture in the Classroom Program, which works to increase agricultural literacy through K-12 education. The program provides resources to Minnesota educators to help them teach core curriculum concepts in science, social studies, language arts and nutrition using authentic, agricultural-based content.</p> <p>Through the Minnesota Agriculture in the Classroom Program, teachers can apply for Ag Literacy Grants to bring agriculture and food systems into the classroom, or support field trips to working farms or agriculture businesses. The program also funds Ag Literacy Grants to help FFA chapters and 4-H programs promote agricultural literacy in their communities.</p> <p>In addition to funding ag literacy efforts, the Minnesota Agriculture in the Classroom Program provides funding for an Outstanding Teacher Award, which allows that educator to attend the National Agriculture in the Classroom Conference.</p> <table border="1" data-bbox="824 1108 1208 1430"> <thead> <tr> <th>Year</th> <th>Funding</th> </tr> </thead> <tbody> <tr> <td>2011</td> <td>\$110,000</td> </tr> <tr> <td>2012</td> <td>\$131,000</td> </tr> <tr> <td>2013</td> <td>\$220,000</td> </tr> <tr> <td>2014</td> <td>\$193,000</td> </tr> <tr> <td>2015</td> <td>\$207,000</td> </tr> <tr> <td>2016</td> <td>\$228,000</td> </tr> <tr> <td>2017</td> <td>\$253,000</td> </tr> <tr> <td><b>Total:</b></td> <td><b>\$1,342,000</b></td> </tr> </tbody> </table>	Year	Funding	2011	\$110,000	2012	\$131,000	2013	\$220,000	2014	\$193,000	2015	\$207,000	2016	\$228,000	2017	\$253,000	<b>Total:</b>	<b>\$1,342,000</b>

<p><b>C.23</b></p>	<p><b>Provided \$4 Million Strengthen and Expand Agricultural Education</b></p>	<p>Minnesota Agricultural Education Leadership Council works to improve agricultural education by fostering new ideas, encouraging people to enter or remain in the agriculture education profession, and serving as a source of information for agricultural education questions.</p> <p>Under Governor Dayton’s Administration, the Council has provided \$4 million grants to help increase the number of Farm Business Management Instructors that work one on one with farmers to help them improve their understanding of financial decisions that have and/or will affect their farm. In addition, a small portion of the funds</p>																		

		have been set aside to help mentor new instructors as they begin their new roles.																												
<b>C.24</b>	<b>Invested Additional \$250,000 in Agricultural Education Programs</b>	<p>In 2016, Governor Dayton and the Minnesota Legislature invested \$250,000 in a competitive grant program for high schools with approved agricultural education programs. For the 2017-18 school year, the Department of Education awarded grants to 43 different schools, totaling \$233,839. High schools that received grants were required to match the funding dollar for dollar.</p> <p>The grants helped 61 teachers enhance student learning opportunities in the following five areas: service learning, experiential learning, career exploration, farm safety, and program development.</p>																												
<b>C.25</b>	<b>Invested \$500,000 to Improve High-Speed Internet Access for Greater Minnesota Students</b>	<p>In addition to the \$85 million investment in high-speed internet for homes and businesses, Governor Dayton worked with the Minnesota Legislature to invest \$500,000 in grants for school-based high-speed internet in 2016.</p> <p>These grants are designed to expand broadband access to students across Minnesota, with priority given to applicants demonstrating a combination of students from low-income families and with long bus routes. Without this funding, these students would lack access to reliable high-speed internet, putting them at a competitive disadvantage with their urban peers.</p> <p>Given the limited funding, only 12 of the 33 applicants were awarded funding – highlighting the ongoing need for investment in rural high-speed internet. Of the 12 districts receiving funding, 11 are in Greater Minnesota. The legislation capped the grants at \$50,000 per district.</p> <table border="1"> <thead> <tr> <th>School District</th> <th>Broadband Grant Award</th> </tr> </thead> <tbody> <tr> <td>Deer River School District</td> <td>\$39,267</td> </tr> <tr> <td>Fertile-Beltrami School District</td> <td>\$41,922</td> </tr> <tr> <td>Lake of the Woods School District</td> <td>\$49,840</td> </tr> <tr> <td>Lake Superior School District</td> <td>\$50,000</td> </tr> <tr> <td>McGregor School District</td> <td>\$46,500</td> </tr> <tr> <td>Pine City School District</td> <td>\$44,831</td> </tr> <tr> <td>Princeton School District</td> <td>\$44,916</td> </tr> <tr> <td>Rothsay School District</td> <td>\$46,500</td> </tr> <tr> <td>Shakopee School District</td> <td>\$34,574</td> </tr> <tr> <td>St. Cloud School District</td> <td>\$40,546</td> </tr> <tr> <td>Thief River Falls School District</td> <td>\$30,484</td> </tr> <tr> <td>Tracy School District</td> <td>\$30,620</td> </tr> <tr> <td><b>Total:</b></td> <td><b>\$500,000</b></td> </tr> </tbody> </table>	School District	Broadband Grant Award	Deer River School District	\$39,267	Fertile-Beltrami School District	\$41,922	Lake of the Woods School District	\$49,840	Lake Superior School District	\$50,000	McGregor School District	\$46,500	Pine City School District	\$44,831	Princeton School District	\$44,916	Rothsay School District	\$46,500	Shakopee School District	\$34,574	St. Cloud School District	\$40,546	Thief River Falls School District	\$30,484	Tracy School District	\$30,620	<b>Total:</b>	<b>\$500,000</b>

		<p>In addition to this investment, Governor Dayton and his Administration launched the K-12 Connect Forward Initiative in partnership with national non-profit <a href="#">EducationSuperHighway</a>. The initiative supports efforts to ensure all Minnesota students have access to scalable infrastructure, high-speed affordable bandwidth, and ubiquitous Wi-Fi for digital learning. By 2018, the initiative made significant strides in achieving this goal.</p> <p>Since 2015, an additional 329,488 students in Minnesota can access the Internet at speeds of 100 kbps/student. In 2015, approximately 75 percent of school districts had access to the Internet at 100 kbps/student. By 2018, that percentage increased to 99 percent of school districts with access to the Internet at 100 kbps/student. In the three years since 2015, the median bandwidth speeds increased by 3.9x across Minnesota – from 226 kbps to 890 kbps. Since 2015, the cost of broadband in Minnesota has decreased by 84 percent. Nationally, the cost decreased by 72 percent.</p> <p>The K-12 Connect Forward Initiative supported a major upgrade to a fiber-based network in 31 school districts in Minnesota. In 2018, 1,238 schools have fiber infrastructure, and over 20,000 students have enhanced access to digital and distance learning.</p>
<b>C.26</b>	<b>Established Early Learning Council to Improve Access Early Childhood Care and Education Programs</b>	<p>In August 2011, Governor Dayton reaffirmed his commitment to making quality early childhood education a priority for his administration, appointing 22 Minnesotans to the Early Learning Council. The Early Learning Council is responsible for advising the governor, the Children's Cabinet, and the Legislature on how to increase access to high quality state and federal early childhood care and education programs for all Minnesota learners—including those who are part of underrepresented and special programs.</p>
<b>C.27</b>	<b>Invested \$523 Million in Additional Assistance for Minnesota Public Colleges and Universities</b>	<p>Thanks to Governor Dayton's leadership, Minnesota's public postsecondary institutions now receive an additional \$523 million a year in state funding. Since 2011, Minnesota State schools have received a total of \$328 million in additional state aid. Similarly, the University of Minnesota now receives an additional \$194.8 million a year in state funding.</p> <p>This additional funding has helped Minnesota's public colleges and universities cover their operating expenses and maintain and expand educational offerings for thousands of students since 2011. These investments and the expansion of the State Grant Program also have helped reduce student debt. Compared to 2012, median student debt for Minnesotans graduating with a bachelor's degree in 2016 had dropped 5.4 percent, reversing years of increases.</p>

C.28

**Invested an Additional \$269.2 Million in the Minnesota State Grant Program, Providing Grants to 376,500 Students**

Governor Dayton is a strong advocate for improving higher education affordability and accessibility. The Minnesota State Grant Program helps students afford the higher education they need to succeed. Since taking office, the Governor worked with the Legislature to invest \$269.2 million in additional funding in the Minnesota State Grant program.

As a result, about 376,500 students have received State Grants since 2012 to make their higher education more affordable, and all State Grant recipients have seen increases in their State Grants, averaging \$915. These grants have helped students build better futures for themselves and their families, by making two-year schools, four-year schools, and technical school training programs more affordable.

<b>C.29</b>	<b>Froze College Tuition at Public Colleges and Universities</b>	<p>Governor Dayton signed into law a two-year tuition freeze for all Minnesota State and University of Minnesota campuses in 2013, benefiting an estimated 282,000 students. In 2016, Governor Dayton worked with the Legislature to extend the tuition freeze at all four-year Minnesota State institutions, such as Minnesota State Moorhead or St. Cloud State University.</p> <p>In 2017, the Governor and Legislature implemented a tuition freeze at the Minnesota State Colleges and Universities for the 2018-19 school year.</p>																																																									
<b>C.30</b>	<b>Launched Tool to Help Students Secure Need-Based Financial Aid</b>	<p>Paying for college can be expensive and the financial aid system can be difficult to navigate. In 2016, the Minnesota Office of Higher Education launched a FAFSA completion outreach program. The FAFSA is the form that all students must complete to apply for state and federal financial aid.</p> <p>The outreach program connects community partners at high schools to help graduating high school seniors complete the FAFSA form and get the financial aid they need to pay for higher education.</p>																																																									

		For the first two years of the program, there were 56 districts/designated entities (college prep programs), 110 schools or programs who had an active Data Sharing Agreements (DSA) and 279 individual users able to use the technical tool.
<b>C.31</b>	<b>Created Grant Program to Expand Higher Education Opportunities for Students of Color</b>	<p>In 2016, Governor Dayton worked with the Minnesota Legislature to invest \$500,000 in the Equity in Education and Job Connection Grant program designed to increase opportunities and outcomes for students of color. Grants were awarded to:</p> <ul style="list-style-type: none"> <li>• Provide proactive advising and support to help students of color enrolled in developmental education be successful in college and into the workforce.</li> <li>• Provide proactive advising, academic support services and performance based scholarships to racially/ethnically diverse pool of students to help them access and succeed in college.</li> <li>• Historically underrepresented first-year students are offered college and career coaching and increased knowledge of campus-based resources, increasing their social and campus integration.</li> </ul> <p>Since the program began, more than 12,350 students have already been served at the two schools providing data about the program (Riverland Community College and Minnesota State University Mankato).</p>
<b>C.32</b>	<b>Enacted the Minnesota Dream Act to Support Undocumented Higher Education Students</b>	<p>Minnesota is home to nearly 6,300 DREAMers; unauthorized individuals brought to this country as children. A survey of DACA recipients found that 95 percent of them were currently employed or enrolled in school. It is estimated that removing DACA eligible-workers from the state would cost Minnesota’s economy an estimated \$387 million a year.</p> <p>To help these Minnesotans pursue higher education, Governor Dayton signed the Minnesota Dream Act into law in 2013. The law helps qualifying undocumented students improve their lives by providing higher education benefits. Because Dream Act students are not eligible to fill out the FAFSA to access financial aid programs, the Office of Higher Education created a separate online Dream Act application.</p> <p>Since 2013, an estimated 1,396 students have received some assistance with their postsecondary education as a result of the Minnesota Dream Act.</p>

C.33	<b>Invested \$3.4 Million in the Minnesota Indian Scholarship Program, Eliminated Waiting List</b>	<p>In 2014, Governor Dayton worked with the Minnesota Legislature to invest \$3.4 million in the Minnesota Indian Scholarship program. Thanks to this investment, the Minnesota Office of Higher Education was able to eliminate the 500-student waiting list, helping these Minnesota American Indian students afford college education. The investments also improved awareness of the scholarship funding program and has led more American Indian students to attend college. The 2017 average award was \$3,291 per student.</p>
C.34	<b>Strengthened Minnesota Childcare Grant Program</b>	<p>The average community college student is 29 years old, while 40 percent of all college students are older than 25. These older students may have family responsibilities that can make it hard to complete their educations. To help these students, the Minnesota Office of Higher Education reformed its Childcare Grant Program to increase the grant sizes and expand eligibility.</p> <p>Under the Dayton Administration, the grant expanded eligibility to include graduate students, extended eligibility from the equivalent of eight semesters to ten semesters and increased the maximum Childcare Grant from \$2,600 per child per year to \$3,000 per child per year.</p>
C.35	<b>Funded Summer Enrichment Program, Benefiting Over 5,400 Minnesota Children Since 2012</b>	<p>Since 2012, the Minnesota Office of Higher Education, supported by the federal College Access Challenge Grant, managed the Summer Academic Enrichment Program, which enables low-income students to attend a rigorous educational summer camp offered by Minnesota postsecondary institutions and nonprofit organizations.</p> <p>When federal funding ended in 2014, Governor Dayton helped secure state appropriations to continue that program. Between 600 and 900 low-income children are able to participate in the program each summer. Since 2012, approximately 5,400 students have benefited.</p>
C.36	<b>Launched Loan Refinance Program to Save Minnesotans with College Debt Money</b>	<p>In 2016, the Office of Higher Education launched a new student loan refinancing program is now available to Minnesota residents who want to lower their monthly payments or overall student debt burden. Called the SELF Refi program, the initiative helps eligible borrowers manage and reduce their student loan debt by refinancing their debt at a lower rate.</p> <p>In 2014, Governor Mark Dayton and the Minnesota Legislature enacted crucial reforms giving the Office of Higher Education the authority to refinance student loans through the sale of revenue bonds. Since its creation, the SELF Refi program has helped nearly 1,100 Minnesotans reduce their loan payments and save money.</p>

<b>C.37</b>	<b>Enacted Legislation to Reduce Sexual Violence on College Campuses</b>	<p>To do homework, get a good night's sleep, and be ready to succeed in the classroom, every college student needs a safe environment. In 2017, Governor Dayton secured a \$250,000 investment to hire a Campus Sexual Violence Prevention and Response Coordinator at the Office of Higher Education, who will support efforts to reduce sexual violence at campuses around the state.</p> <p>Governor Dayton also signed legislation requiring college campuses to track and report sexual assaults on campus. The new law also encourages more partnerships with campuses and their local law enforcement entities through memos of understanding.</p>
<b>C.38</b>	<b>Invested \$600,000 in Large Animal Veterinarian Loan Forgiveness Program</b>	<p>Governor Dayton worked with the Legislature to invest \$600,000 in the state's Large Animal Veterinarian Loan Forgiveness Program, which supports veterinarians working in rural communities across the state. To qualify for the program, a participant must be a graduate of the University of Minnesota veterinary program, and work full-time in an underserved rural community, caring for food animals at least 50 percent of the time. Qualified veterinarians can receive up to \$15,000 in total loan forgiveness for up to five years.</p> <p>Eight University of Minnesota veterinary graduates practicing in rural areas have benefited by receiving a total commitment of \$600,000.</p>
<b>C.39</b>	<b>Allowed 9<sup>th</sup> and 10<sup>th</sup> Graders to Take Concurrent Enrollment Classes</b>	<p>In 2011, Governor Dayton worked with the Minnesota Legislature to allow 9<sup>th</sup> and 10<sup>th</sup> graders to take concurrent enrollment courses if additional students are needed to allow the course to be offered. The program allows high school students to earn college credits by taking college classes at their own high schools.</p>
<b>C.40</b>	<b>Authorized Alternative Licensure for K-12 Teachers</b>	<p>In 2011, Governor Dayton worked with the Minnesota Legislature to authorize alternative teacher licensure programs. Eligible college graduates must receive at least a 200-hour training and pass basic skills tests prior to entering the classroom with a two-year limited term license. While teaching, candidates receive further review and evaluation, in hopes of acquiring a standard teaching license.</p>
<b>C.41</b>	<b>Expanded Access to School-Linked Mental Health Grants</b>	<p>In 2013, Governor Dayton and the Minnesota Legislature expanded the number of grants available for school-linked mental health services. School-linked mental health grants allow licensed mental health professionals to provide behavioral and mental health services to children in public schools and cover the costs of care</p>

		not typically covered by a child’s health insurance. The expansion allows school districts across the state, in conjunction with local mental health professionals, to apply for the school-linked grants program.
<b>C.42</b>	<b>Eliminated Barriers for High Quality Teacher Candidates</b>	In 2014, Governor Dayton and the Minnesota Legislature authorized teacher licensure candidates to take the ACT or SAT as an alternative to the MTLE reading, writing and math tests. In addition, nonnative English speaker candidates seeking to teach direct instruction in their native language or world language instruction do not need to pass a basic skills test.
<b>C.43</b>	<b>Authorized Military Veterans to Pay In-State Tuition</b>	In 2014, Governor Dayton and the Minnesota Legislature authorized that all honorably discharged military veterans will be eligible for resident tuition rates at all U of M and MnSCU campuses, regardless of their Minnesota resident status otherwise.
<b>C.44</b>	<b>Reformed High Stakes Testing as Graduation Requirement</b>	In 2013, Governor Dayton and the Minnesota Legislature repealed the GRAD test requirements. The GRAD tests were a set of reading, mathematics, and writing tests that students enrolled in grade 8 through 11 had to pass to meet graduation requirements. The GRAD test was not aligned to career and college standards. It also acted as a barrier to graduation for students who had completed every other graduation requirement. The test was replaced with a suite of career and college readiness tests.
<b>C.45</b>	<b>Funded Full Service Community Schools</b>	Full Service Community Schools seek to meet all of the countless factors that affect student performance ranging from nutrition to mental and physical health by offering wrap-around services on-campus. Governor Dayton and the Legislature first funded full service community schools in 2015, allocating \$250,000 for FY16 and \$250,000 for FY17. In the 2016 session, an additional \$1 million was appropriated for FY17.
<b>C.46</b>	<b>Northside Achievement Zone &amp; St. Paul Promise Neighborhood</b>	In 2015, Governor Dayton and the Minnesota Legislature provided annual increases of \$1 million each to these grants for the biennium, accounting for a \$4 million increase over the biennium.
<b>C.47</b>	<b>Higher Education Grants for Children of Fallen Law Enforcement Officers</b>	In 2015, Governor Dayton and the Minnesota Legislature authorized \$100,000 per year to assist eligible dependent children and spouses of public safety officers killed in the line of duty.

C.48	<b>Authorized Scholarships for American Indian Students</b>	In 2015, Governor Dayton and the Minnesota Legislature authorized \$3.5 million per year with a requirement that at least one person with demonstrated competence in American Indian culture and who lives in or near Bemidji be employed to assist students with the American Indian scholarship and other financial aid programs
C.49	<b>Authorized \$150,000 for Tribal College Grants</b>	In 2015, Governor Dayton and the Minnesota Legislature provided \$150,000 a year to support enrollment of students at tribal colleges who are not members of a federally-recognized tribe. Existing federal grant funding is not available for educational costs associated with enrollment of these students.
C.50	<b>Directed Department of Education and Minnesota State to Develop Career and College Readiness Benchmarks</b>	In 2016, Governor Dayton and the Minnesota Legislature directed Minnesota State to review and confirm career and college readiness benchmarks established by the Department of Education that show students are able to successfully complete credit-bearing coursework at a Minnesota State school. The legislation also bars Minnesota State from requiring a student to take a remedial, noncredit course in a subject area if they have received a college-ready MCA score in that subject area.
C.51	<b>Invested \$10.3 Million to Address Teacher Shortages</b>	In 2016, Governor Dayton and the Minnesota Legislature invested over \$10 million to address teacher shortages in Minnesota. The funding supports teacher prep programs to recruit and prepare American Indian students and students of color for the teaching profession, and to grow the number of teachers qualified in shortage subjects throughout the state. Funding also supports nontraditional students through their education and students interested in teaching in shortage areas.
C.52	<b>Invested \$6 Million in Staff Development Grants</b>	In 2016, Governor Dayton and the Minnesota Legislature invested \$6 million in efforts to provide staff development grants to intermediate school districts or cooperatives in a Level 4 or higher institution to be used for proactive behavior management, personal safety training, de-escalation techniques, and adapting curriculum and pedagogy for students with complex learning and behavioral needs.
C.53	<b>Invested \$6 Million in Homeless and Highly Mobile Students and Homework Starts with Home Program</b>	Approximately 167,000 Minnesota households with children face housing instability. Research shows that homeless and mobile children are more likely to be absent from school, perform worse on math and reading tests, and eventually drop out. Since 2014, \$6

		<p>million in housing resources have been targeted to nearly 500 homeless families and students across the state.</p> <p>In 2017, Governor Dayton and the Minnesota Legislature invested \$2 million in the Homework Starts with Home program to provide housing assistance to Minnesota families with children to ensure that students have stable housing throughout the school year. An evaluation of the Homeless and Highly Mobile Student Program showed that housing stability, school attendance and academic performance improved. Additionally, parents increased their income.</p>
<b>C.54</b>	<b>Invested \$175,000 in Emergency Housing Assistance for Post-Secondary Students</b>	In 2017, Governor Dayton and the Minnesota Legislature invested \$175,000 a year in a grant program for higher education students at-risk of homelessness.
<b>C.55</b>	<b>Funded Campus Sexual Violence Prevention and Resp. Coordinator</b>	In 2017, Governor Dayton and the Minnesota Legislature provided \$150,000 a year for new coordinator position at the Office of Higher Education to serve as a statewide resource and provide assistance to campuses for on-campus sexual violence.
<b>C.56</b>	<b>Created Aviation Degree Loan Forgiveness Program</b>	In 2017, Governor Dayton and the Minnesota Legislature invested \$25,000 a year in a new program to help people with aviation or aviation mechanic educational loans to attract more people to the program and available for work in smaller Greater Minnesota regional airports.
<b>C.57</b>	<b>Invested \$500,000 in a Grant Program to Support Teacher Candidates</b>	In 2017, Governor Dayton and the Minnesota Legislature invested \$500,000 a year for a new program to increase the number of teacher candidates of color and teachers in shortage areas. The program provides stipends of up to \$7,500 that may be awarded to cover student teaching.
<b>C.58</b>	<b>Invested \$400,000 in Grants for Higher Education Students with Developmental Disabilities</b>	In 2017, Governor Dayton and the Minnesota Legislature invested \$400,000 in a new grant program to increase opportunities for higher education students with developmental disabilities.
<b>C.59</b>	<b>Provided \$150,000 in Student Debt Relief for Ag Educators and</b>	In 2017, the Governor and the Legislature authorized \$100,000 in loan forgiveness for ag educators and \$50,000 in loan repayment assistance for attorneys with full-time employment providing legal advice or representation for low-income clients.

	<b>Attorneys Serving Low-Income Clients</b>	
<b>C.60</b>	<b>Recognized the Nation's First-Of-Its-Kind Youth Council, and Established a Voice for Minnesota Youth</b>	<p>In 2013, Governor Dayton and the Legislature formally recognized the work of the Minnesota Youth Council, a collaboration of youth and adults working together to empower and mobilize young people across the state to exercise their voices, opinions and ideas, and take action on issues affecting youth, by passing the Minnesota Youth Council Committee Bill into law. The law established the council as the “voice of the youth” to the Minnesota Legislature and the Governor.</p> <p>At the time, the Minnesota Youth Council was the only legislatively mandated council of its kind in the country. During Governor Dayton’s two terms, the Minnesota Youth Council has offered testimony and input on numerous issues that have shaped policy and practices in Minnesota schools.</p>

<b>CATEGORY D: Health and Human Services</b>		
<b>#</b>	<b>Accomplishment</b>	<b>Description</b>
<b>D.1</b>	<b>Helped 386,000 Minnesotans Access Health Coverage and Reduced the State’s Uninsured Rate to Its Lowest Levels Ever</b>	<p>When Governor Dayton took office in January 2011, 8 percent of Minnesotans were uninsured. By 2016, the state’s overall uninsured rate had been cut in half to just 4 percent, with over 386,000 Minnesotans accessing health coverage. To achieve these historic results, Governor Dayton worked to enact policies that expanded access to coverage:</p> <ul style="list-style-type: none"> <li>• <b>Expanded Medicaid Coverage to an Additional 80,000 Minnesotans in 2011</b> – In his first official act as Governor, Dayton signed two executive orders implementing Minnesota’s early Medicaid expansion on January 5, 2011. In February 2013, Governor Dayton signed legislation cementing his executive order into law, while further expanding coverage to additional 35,000 low-income adults. As of 2018, 1.1 million Minnesotans are enrolled in Medicaid.</li> <li>• <b>Created MNsure Health Insurance Exchange</b> – Governor Dayton signed legislation creating MNsure, the Minnesota health exchange, on March 20, 2013. By creating MNsure, Governor Dayton and the Legislature ensured that Minnesota would have a health insurance marketplace tailored to the unique needs and characteristics of Minnesota’s families, economy, and nation-leading health care system.</li> </ul>

		<ul style="list-style-type: none"> <li>○ <b>2.7 Million Enrollments</b> – since the creation of MNsure, the Minnesota Exchange has processed 2.7 million health insurance enrollments.</li> <li>○ <b>\$813 Million in Tax Credits</b> – since the creation of MNsure, Minnesotans have received more than <b>\$813</b> million in premium tax credits available only through MNsure.</li> <li>○ <b>105,000 Minnesotans</b> – since the creation of MNsure, <b>105,000</b> Minnesotans have received premium tax credits.</li> <li>○ <b>\$5,600</b> – since the creation of MNsure, the average annual tax credit is nearly <b>\$5,600</b> a year. Current recipients, however, are receiving an average annual tax credit of \$7,020 per household.</li> <li>● <b>Created Basic Health Plan</b> – Under Governor Dayton’s leadership, MinnesotaCare was transformed into a Basic Health Plan under the federal Affordable Care Act. This increased the federal funding for Minnesota, which resulted in the Basic Health Plan being nearly 100 percent federally funded in 2017. Minnesota became the first state to create a Basic Health Plan and remains only one of two states to do so. Under Governor Dayton, Minnesota remained a leader in health care reform.</li> </ul>
<p><b>D.2</b></p>	<p><b>Reduced the Uninsured Rate in Greater Minnesota by Nearly 60 Percent</b></p>	<p>When Governor Dayton took office in January 2011, 12 percent of Greater Minnesota residents did not have health insurance coverage. By, 2015, the uninsured rate in Greater Minnesota had dropped to just 5 percent, reducing the number of uninsured Greater Minnesota residents by nearly 60 percent. As a result of expanded health insurance coverage, uncompensated care at Minnesota’s hospitals in 2015 dropped to the lowest level since 2008.</p>
<p><b>D.3</b></p>	<p><b>Chronic Disease and Injury Risk Factors Declined</b></p>	<p>Chronic diseases and injury are Minnesota’s leading causes of death and disability. Under Governor Dayton’s leadership, Minnesota took action to prevent the most common chronic diseases and injuries, promote access to screenings that detect disease early when treatment is most effective, and help people reach better health by encouraging ongoing treatment and self-management.</p> <p>Minnesota was ranked the sixth healthiest state in the nation in 2017. According to the state's chronic disease and injury dashboard, which tracks 31 different measures of health, 19 indicators remain stable, while 9 are improving.</p> <ul style="list-style-type: none"> <li>● <b>Decreased Preventable Hospitalizations by 30 Percent</b> – Under Governor Dayton’s leadership, the number of preventable hospitalizations decreased from 52.9 per 1,000 Medicare</li> </ul>

		<p>recipients in 2011 to 36.6 per 1,000 in 2017. Preventable hospitalizations are often linked to issues like inactivity and obesity, smoking and drinking, drug abuse, and health insurance coverage.</p> <ul style="list-style-type: none"> <li>• <b>Increased the Number of Primary Care Doctors by 16 Percent</b> – Primary care physicians can develop strong relationships with their patients, identify issues requiring additional care, and provide preventative care. Under Governor Dayton’s leadership, the number of primary care physicians increased from 139.5 per 1,000 Minnesotans in 2010 to 162.3 per 1,000 Minnesotans in 2017.</li> <li>• <b>Reduced Air Pollution Exposure by 12 Percent</b> – Under Governor Dayton’s leadership, average exposure of the general public to particulate matter of 2.5 microns or less in size decreased by 12 percent from 2011 to 2017.</li> <li>• <b>Reduced Infant Mortality by 12 Percent</b> – Under Governor Dayton’s leadership, infant mortality declined from 5.8 per 1,000 live births in 2010 to 5.1 per 1,000 births in 2017</li> </ul> <p>Under Governor Dayton’s leadership, a statewide focus on redesign of primary care delivery promoting access, prevention, management of chronic disease and meaningful engagement of patients in their care is ongoing. Since 2011, the number of Minnesota’s primary care clinics who have voluntarily certified as a Health Care Home has increased from 10 percent to 58 percent with 70 percent of counties having at least one certified clinic to ensure access to patient centered, coordinated care for an estimated 3.9 million Minnesota residents.</p>
<p><b>D.4</b></p>	<p><b>Secured \$187.4 Million in Federal Funding for Community-Based Services to Provide Care to Minnesotans with Disabilities and Older Minnesotans in their Homes</b></p>	<p>In April 2011, the Minnesota Department of Human Services received \$187.4 million from the U.S. Department of Health and Human Services to improve community services and support people in their homes rather than institutions. Based on changes, the budget has been adjusted to \$76,608,425. The project expects to serve approximately 650 people between 2011 and 2020.</p> <p>Through the Moving Home Minnesota program, these dollars help the Minnesota Department of Human Services provide more individualized care for some of Minnesota’s most vulnerable residents. The funding, part of the Affordable Care Act administered by the Centers for Medicare &amp; Medicaid Services, is a Money Follows the Person demonstration program.</p> <p>At the time of the award, the Money Follows the Person demonstration program had operated for approximately five years. Minnesota had not applied for the funding until Governor Dayton directed state agencies to more aggressively pursue opportunities for health reform funding.</p>

<p><b>D.5</b></p>	<p><b>Improved Health for Low to Moderate Income Newborns and New Mothers</b></p>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Health has worked to improve the health of pregnant women, new mothers, babies and young children. Since 2011, the agency through the Minnesota WIC program, has assisted nearly 1.4 million Minnesotans – reducing the risk for low birth weight and associated health care costs, while increasing breastfeeding rates.</p> <p>Investing in the health of newborns and new mothers has paid significant dividends for Minnesotans. Women participating in Minnesota WIC during their pregnancy had significantly fewer low birth weight infants than women eligible for WIC but not participating. The state also has seen breastfeeding rates increase 5 percentage points to 90 percent for all babies born in Minnesota since 2012. In Minnesota, an estimated lifetime savings of 208 million in medical costs could be saved annually if breastfeeding recommendations were met.</p> <p>The Governor’s Administration also has worked to expand access to healthy foods including fruits, vegetables, whole grains, and low fat dairy. Since 2011, Minnesota local grocery stores have distributed nearly 634 million dollars in WIC foods to low- income families.</p> <p>Minnesota also saw the percentage of mothers in WIC who breastfed for the first eight weeks of their babies’ lives increased by nearly 12 percent between 2012 and 2017. Breastfed babies visit the physician less often, are less likely to be hospitalized, and need fewer prescriptions than formula-fed infants.</p>
<p><b>D.6</b></p>	<p><b>Reduced Smoking Rates in Children and Adults</b></p>	<p>In Minnesota, the estimated health care costs of smoking exceed \$3.2 billion a year. Under Governor Dayton’s leadership, Minnesota has worked to deter our children from starting to smoke and help current smokers kick the habit. Those efforts are paying off.</p> <p>In 2013, Governor Dayton worked with the Legislature to raise cigarette taxes by \$1.30 a pack, which incentivized an estimate 36,000 Minnesotans to quit smoking, while saving Minnesotans \$1.65 billion in long-term health care costs.</p> <p>Since 2013, the smoking rate for 9th graders has dropped 43 percent and for 11<sup>th</sup> graders by 31 percent. Among adults, 61 percent considered quitting smoking, 48 percent cut down on smoking, and more than 44 percent attempted to quit.</p>

<p><b>D.7</b></p>	<p><b>Invested More Than \$280 Million in Mental Health Services, Annually Benefiting 12,000 of the Most Vulnerable Minnesotans</b></p>	<p>Too many Minnesotans lack access to quality mental health services. Some of these Minnesotans end up in state hospitals, crisis centers, and county jails. Under Governor Dayton’s leadership, however, Minnesota reversed course, investing more than \$280 million in better facilities, improved safety and security, increased staff and preserved access to care and treatment statewide for people with mental illness. This funding helps more than 12,000 Minnesotans treated each year in state-operated psychiatric hospitals and other direct care facilities and many more who are treated in communities statewide.</p> <p>Under Governor Dayton’s leadership, Minnesota also began to improve the way services were delivered, which has improved the efficiency of the mental health system. Among these investments and reforms include:</p> <ul style="list-style-type: none"> <li>• <b>Created Mental Health Special Treatment Service</b> – In 2013, Governor Dayton and the Minnesota Legislature created a 24/7 medically monitored mental health special treatment service as a transition service from psychiatric hospitalization for individuals with mental illness and complex treatment needs who require a longer stabilization period.</li> <li>• <b>Expanded Access to School-Linked Mental Health Services</b> – School-linked mental health programs connect or locate effective mental health services in schools. They increase accessibility for children and youth who are uninsured or underinsured. School-linked programs are particularly effective in reaching children who have never accessed mental health services. In addition, students of color served were significantly more likely to be accessing mental health services for the first time compared to white students. Since 2011, Governor Dayton has worked with the Legislature to invest more than \$60 million in these programs, currently benefiting nearly 15,000 students at 953 schools across the state.</li> <li>• <b>Minnesota Security Hospital</b> – The Minnesota Security Hospital (MSH) is the only secure facility in the state designed to provide assessment and treatment of individuals who have been civilly committed as mentally ill and dangerous. Recognizing that the antiquated facilities did not provide the proper treatment atmosphere and were a danger to patients and staff, Governor Dayton worked with the Minnesota Legislature to invest a total of \$126.5 million in a major expansion and renovation of the Security Hospital. The \$56.3 million Phase I was completed in January 2017 and has already resulted in marked improvements in safety and therapeutic atmosphere. Construction on the \$70.2 million Phase II is underway and is expected to be complete in 2020.</li> </ul>
-------------------	---	---

		<ul style="list-style-type: none"> <li>• <b>Created Community Competency Restoration Program</b> – In 2016, Governor Dayton and the Minnesota Legislature invested \$6.7 million to create and \$8.4 million per year in ongoing funding to operate a new 32-bed Community Competency Restoration Program in St. Peter. The facility treats individuals living with a mental illness who have been charged with a crime, and are deemed incompetent to stand trial. The 32-bed facility focuses on clients who do not need to be hospitalized or treated in a secure setting. The program takes pressure off regional Community Behavioral Health Hospitals, the Anoka-Metro Regional Treatment Center, and the Minnesota Security Hospital, freeing up much-needed psychiatric beds at those facilities.</li>   <li>• <b>Anoka-Metro Regional Treatment Center</b> – The Anoka-Metro Regional Treatment Center is Minnesota’s largest psychiatric hospital. It provides care to patients with serious mental health conditions from across the state. Unfortunately, rising demand for services left the facility ill-equipped to provide care to these Minnesotans. Under Governor Dayton’s leadership, Minnesota has invested \$14.65 million to hire additional staff, improve the quality of care, strengthen security, and enhance staff and patient safety. These improvements help ensure that patients are cared for in a therapeutic environment, and that staff are safe in their workplace.</li>   <li>• <b>Community-Based Services</b> – The Minnesota Department of Human Services provides residential and vocational services to people with developmental disabilities and mental illness at 150 sites statewide. The programs, which serve clients with complex and challenging behaviors, have been operating at a financial loss because the current rate system does not cover the actual cost of care. Under Governor Dayton’s leadership, Minnesota has invested \$38 million to sustain the programs, benefiting 1,100 Minnesotans in need of care.</li>   <li>• <b>Funded a New Psychiatric Hospital for Children</b> – In 2017, Governor Dayton and the Minnesota Legislature invested \$7.5 million to build a new 16-bed psychiatric hospital for children and teens with serious and complex mental health conditions including autism spectrum disorder and fetal alcohol spectrum disorder. The new hospital will replace an outdated facility and greatly increase access to treatment and cut down on long waiting lists that force some children to seek treatment in other states.</li>   <li>• <b>Hired Additional Treatment Staff and Improved Wages</b> – In the face of a growing demand for services, Minnesota has struggled to maintain sufficient staff levels to provide needed care. In 2016, Governor Dayton and the Minnesota Legislature invested</li> </ul>
--	--	---

		<p>\$18.5 million initially and \$24 million per year ongoing to staff the statewide network of six community behavioral health hospitals up to full capacity. In 2017, Governor Dayton and the Legislature invested an additional \$58.1 million to hire an extra 150 full-time equivalent staff over three years at the Security Hospital, which had been greatly understaffed compared to facilities in other states. They also have provided \$32.8 million in salary supplements for direct care and treatment staff at mental health and forensics facilities since 2014. These investments are helping to reduce staff shortages, improve staff retention rates, and improve treatment and quality of care.</p> <ul style="list-style-type: none"> <li>• <b>Made Historic Mental Health Care Investments</b> – In 2015, Governor Dayton and the Minnesota Legislature made a historic \$46 million investment in Minnesota’s mental health system. This included additional resources for community-based services to care for people with the most intensive needs, additional beds for those needing a hospital-level of care, and more safe and affordable housing with supports for people with mental illness. In particular great strides were made in children’s mental health, with critical investments in services to reach kids earlier and in the places where they can access help easiest, like schools. <ul style="list-style-type: none"> <li>○ <b>Expanded Mental Health Crisis Services</b> – As part of this historic investment, Governor Dayton and the Legislature provided \$8.6 million to enhance and expand mental health crisis services for both children and adults. Initiatives included a single statewide telephone number for mental health crisis services, expanded mobile crisis services, improved consistency and quality of mobile crisis services, as well as expanded availability of telephone consultation to mobile crisis teams.</li> <li>○ <b>Implemented Behavioral Health Homes Model</b> – People with serious, persistent mental illness die on average 25 years earlier than the general population. The reasons for this premature death can mostly be traced to physical causes such as heart disease and cancer. In response, Governor Dayton and the Legislature provided \$5.4 million to help ensure adults and children with serious mental illness have access to coordinated delivery of primary care and behavioral health services.</li> <li>○ <b>Strengthened Mental Health Services Provider Rates</b> – Over the years the payment structure for mental health services has become fragmented and underfunded. As a result, Minnesota has a fragile and unsustainable provider network, leaving people unable to access needed services. In 2015, Governor Dayton and the Legislature invested \$5.5</li> </ul> </li> </ul>
--	--	---

		<p>million to stabilize Minnesota’s intensive mental health services infrastructure, while also providing an immediate rate increase for Mobile Crisis services to retain existing services and promote expansion.</p> <ul style="list-style-type: none"> <li>○ <b>Housing Support for Adults with Serious Mental Illness –</b> In 2015, Governor Dayton and the Legislature invested \$4.7 million to help an additional 840 individuals experiencing serious mental illness secure stable housing and connect them with health care and other services. With safe, stable housing and connection to support services these individuals will have a stronger recovery and better opportunity to live more fully integrated in their communities.</li> <li>○ <b>Expanded Assertive Community Treatment Program –</b> Minnesota’s Assertive Community Treatment Program is often called a “hospital without walls” because it provides an intensive level of service wherever a person resides. Services are offered by a team of professionals with 24-hour availability for crises. The team and the client meet daily, and together they focus on solving practical problems of daily living while also making progress toward personally defined goals. In 2015, Governor Dayton and the Legislature invested \$1.3 million to expand access to these services around Minnesota.</li> <li>● <b>Expanded Mental Health Crisis Response Services –</b> Minnesota’s Adult Mental Health Crisis Response Services help people who are experiencing mental health crisis to cope with that crisis and stay in their own home and community. A mental health crisis responder assesses the crisis, assists the recipient in coping with the crisis, and follows up with the person to assure that he or she receives longer term support and services, if needed, in order to remain at home. Since 2011, Governor Dayton and the Minnesota Legislature have invested \$9.4 million to expand access to these services. Thanks to these investments, crisis services are now available in all counties across the state, 24/7, serving over 22,000 people in the past two years.</li> <li>● <b>Created Mental Health Task Force –</b> In April 2016, Governor Dayton created the Governor’s Task Force on Mental Health to advise the Governor and Legislature on improvements to Minnesota’s mental health systems. The task force took a comprehensive look at the state’s mental health system and made nine recommendations. They recommended improvements to the governance of mental health services to achieve that continuum. These recommendations continue to provide guidance as the state works to improve the continuum</li> </ul>
--	--	--

of mental health services, including strengthening access through streamlining standards, integrating the mental health and alcohol and drug abuse divisions to leverage existing funds serving those experiencing addiction and mental illness, and expanding the Medicaid benefit set to include services that assist people in securing and maintaining housing.

- **Awarded Mental Health Innovation Grants** – Under Governor Dayton’s Administration, the Minnesota Department of Human Services has awarded six grants to support counties, tribes and non-profits helping people with mental illnesses receive effective services in their community. In 2017, the Minnesota legislature allocated \$2.171 million in grant funding to support the Mental Health Innovation Grant Program. The program’s goal is to help expedite discharges for those in state facilities by supporting each individual’s specific needs in their own communities. In 2018, the Department of Human Services awarded these grants to six recipients.

**2018 Mental Health Innovation Grant Recipients**

Recipient	Grant	Summary
Adult Mental Health Initiative Region V+	\$260,958	Supports transition services in Aitkin, Cass, Crow Wing, Morrison, Todd, and Wadena counties, along with the Leech Lake Band of Ojibwe and the Mille Lacs Band of Ojibwe.
American Indian Family Center: Healing Journey	\$218,425	Supports the urban American Indian population in Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington counties, and ensures culturally specific and responsive services from the multidisciplinary mental health staff.
Hennepin County Adult Behavioral Health: Behavioral Health Care Center	\$867,074	Funds a new collaborative triage, urgent care, and care coordination unit of the Behavioral Health Care Center in Hennepin County.
Human Development Center: Emergency Department Case Management	\$348,442	The grant allows the St. Luke’s and Essentia Hospitals to develop discharge and follow up plans that include connections to community services.
Kanabec County: Care	\$195,512	Funds the development of a Care Connector/Navigator program to assist residents

		Connector/Navigator Model		with mental health issues as they transition from the hospital, treatment centers, or prison to programs in the community.
		White Earth Mental Health Program: Holistic Health Practitioners	\$280,558	Supports the addition of certified and licensed Holistic Health Practitioners to the team of caretakers in White Earth Mental Health program, to ensure the physical, emotional, mental, and spiritual needs of people with mental illness are met.
<b>D.8</b>	<b>Strengthened the Minnesota Sex Offender Program</b>	<p>Minnesota’s Sex Offender Program is a civil commitment program for the most serious sexual offenders. In 2011, a lawsuit was filed challenging the constitutionality of the program. Governor Dayton supported successful efforts by the Department of Human Services and the Minnesota Attorney General’s Office to defend the constitutionality of Minnesota’s Sex Offender Program.</p> <p>Governor Dayton also has taken steps to further protect public safety and ensure the program is safe from legal attacks in the future. In 2011, Governor Dayton worked with the Legislature to invest \$7 million in bonding to renovate the Shantz Building on the Minnesota Department of Human Services’ St. Peter campus. The renovation provided needed bed space for MSOP and began the process of separating the vulnerable adult and sex offender populations. That investment continued in 2014 with another \$7.4 million to complete the first phase of a three-phase renovation.</p>		
<b>D.9</b>	<b>Invested \$24.7 Million in Substance Abuse Screening, Intervention, and Treatment</b>	<p>Approximately 290,000 Minnesotans meet the criteria for a drug or alcohol abuse disorder. Since 2011, Governor Dayton and the Minnesota Legislature have invested \$24.7 million to prevent, assess, treat, and help Minnesotans struggling with substance abuse recover.</p>		
<b>D.10</b>	<b>Reduced Drug Abuse by Minnesota Criminal Offenders</b>	<p>Incarcerated individuals frequently struggle with drug abuse and addiction. In Minnesota approximately 90 percent of offenders abuse drugs and alcohol, which can make it difficult to successfully reintegrate into the community after finishing their sentence.</p> <p>Governor Dayton’s Administration made addressing chemical dependency a priority. Under his leadership, the Minnesota Department of Corrections added more space to treat an additional 300 people at a time for chemical dependency and other conditions.</p>		

		<p>Since 2011, more than 6,000 offenders have completed chemical dependency treatment, while serving their sentences.</p>
<b>D.11</b>	<b>Strengthened Minnesota’s Rural Health Care System</b>	<p>Under Governor Dayton’s leadership, the rate of uninsurance dropped dramatically in rural Minnesota – from 12 percent in 2011 to 8 percent in 2017. To spur the drop, Governor Dayton worked with the Minnesota Legislature to expand MinnesotaCare in 2013. Dayton also worked with the Legislature to invest in rural health care workforce development, including support for rural family medicine residency programs, primary care and mental health training programs, an immigrant physician integration program, interstate physician licensure compact, and a long-term care scholarship program.</p> <p>In 2015, Governor Dayton secured a \$15 million investment for the University of Minnesota Medical School. He worked throughout his two terms to expand loan forgiveness programs for medical students willing to practice in rural communities. Governor Dayton also signed legislation creating a Community Emergency Medical Technician licensure, a new type of practitioner expected to make a difference in rural areas.</p>
<b>D.12</b>	<b>Invested \$59.3 Million in the Training of Rural Health Care Professionals</b>	<p>Roughly a third of rural physicians plan to retire in the next 5 years, but incoming medical school class sizes have stayed fairly constant. Significant numbers of nurses, dentists and other health care providers also report that they are unlikely to still be practicing in Minnesota in 5 years. This means that rural areas will struggle to find health care providers they need to provide high-quality care. A key strategy to address that shortfall is the Medical Education and Research Costs program, which provides funding for hospitals and clinics across Minnesota train the health care professionals of tomorrow, and encourages these future doctors, nurses, and other professionals to find satisfaction in working in underserved areas – especially in Greater Minnesota.</p> <p>In 2011, the Republican Legislature cut Medical Education and Research Costs program funding in half. But during the 2013 Legislative Session, Governor Dayton restored that funding – investing \$12.8 million in the program. This new funding supported clinical training for more than 3,237 health profession students and residents 604 clinical training sites across Minnesota.</p> <p>Overall, since Governor Dayton took office, the state of Minnesota has provided more than 460 grants to rural health care providers, totaling \$59.3 million. These grants have helped to train thousands of medical professionals for practice in rural communities across Minnesota.</p>

*Note: that partial FTEs have rounded up to the nearest round number.*

<b>D.13</b>	<b>Provided \$13.4 million in Student</b>	Roughly a third of rural physicians plan to retire in the next 5 years, but incoming medical school class sizes have stayed fairly constant.				

	<p><b>Loan Relief to 376 Rural Health Care Professionals</b></p>	<p>Significant numbers of nurses, dentists and other health care providers also report that they are unlikely to still be practicing in Minnesota in 5 years. This means that rural areas will struggle to find health care providers they need to provide high-quality care.</p> <p>Under Governor Dayton’s leadership, Minnesota has invested \$13.4 million in Health Professional Education Loan Forgiveness Program funding since 2011 to attract and retain workers. This program provides assistance to physicians, nurses, nurse practitioners, physician assistants, mental health professionals, pharmacists, dentists, and dental therapists working in rural or underserved urban communities.</p> <p>In return for completing up to a four-year service obligation, these medical professionals receive payments equal to 15 percent of the average educational debt load for graduates in their profession. The program has benefited 376 health care professionals for a total commitment of \$13.4 million.</p>																					
<p><b>D.14</b></p>	<p><b>Held Minnesota’s Obesity Rate Below National Average</b></p>	<p>During Governor Dayton’s two terms, Minnesota made significant investments in public health designed to combat obesity. Minnesota invested \$167 million in the Statewide Health Improvement Partnership program to increase access and opportunities for active living and healthy eating.</p> <p>Under the Dayton Administration’s leadership, the Minnesota Department of Human Services and community partners launched the Market Bucks program in 2011 to incentivize Supplemental Nutrition Assistance Program (SNAP) recipients to purchase fresh fruits and vegetables at farmers markets by offering a \$10 match of SNAP benefits spent. In addition to helping recipients, use of SNAP benefits at farmers markets also helps Minnesota family farmers and communities by supporting the local economy.</p> <p>As a result of these efforts, Minnesota’s obesity rate increased only 2.1 percentage points between 2011 and 2016. Minnesota’s obesity rate also remains lower than the national average during the same period of time.</p> <table border="1" data-bbox="691 1556 1338 1850"> <thead> <tr> <th>Year</th> <th>Percent of obese adults (Body Mass Index of 30+)</th> <th>State Rank</th> </tr> </thead> <tbody> <tr> <td>2011</td> <td>25.7%</td> <td>36</td> </tr> <tr> <td>2012</td> <td>25.7%</td> <td>36</td> </tr> <tr> <td>2013</td> <td>25.5%</td> <td>41</td> </tr> <tr> <td>2014</td> <td>27.6%</td> <td>36</td> </tr> <tr> <td>2015</td> <td>26.1%</td> <td>39</td> </tr> <tr> <td>2016</td> <td>27.8%</td> <td>34</td> </tr> </tbody> </table>	Year	Percent of obese adults (Body Mass Index of 30+)	State Rank	2011	25.7%	36	2012	25.7%	36	2013	25.5%	41	2014	27.6%	36	2015	26.1%	39	2016	27.8%	34

<b>D.16</b>	<b>Top State for Child Well-Being and Health</b>	<p>Under Governor Dayton’s leadership, Minnesota has consistently ranked among the top five states for overall child well-being. Minnesota was named the top state for child health in both 2015 and 2016. Minnesota also ranked third for economic well-being, sixth in education and fourth in family and community in 2016.</p> <p>Governor Dayton’s administration also worked to expand access to health insurance for kids – cutting Minnesota’s rate of uninsured children nearly in half from 6.3 percent to 4.3 for children under age 5 and 3.6 percent for children ages 6 to 17.</p> <p>Thanks to these investments, Minnesota children experience better health than children across the United States. Approximately 6.4 percent of Minnesota babies are born with low birth-weights compared with 8.1 percent nationally. Minnesota’s rate of insurance for children in 3 percent compared with 5 percent nationally. Minnesota child and teen fatality rate also lower, at 21 deaths per 100,000 compared with 25 per 100,000 nationally. A lower percentage of Minnesota teens abuse alcohol or drugs than American teens overall (4 percent vs. 5 percent).</p>			
<b>D.17</b>		<p>When teenagers become parents they face significant educational, economic, social and emotional challenges. Throughout his two terms,</p>			

	<p><b>Dropped Minnesota's Teen Pregnancy Rate 29 Percent</b></p>	<p>Governor Dayton's administration worked to reduce the incidence of teen pregnancies and provide teenage parents and their babies needed support.</p> <p>In 2017, Governor Dayton and the Legislature invested \$12 million in the Department of Health's highly effective Home Visiting Program. Home visiting helps young parents develop the skills they need to care for their children. This investment will reach an additional 2,300 families statewide after four years.</p>
<p><b>D.18</b></p>	<p><b>Fourth Highest Participation Rate in Nutrition Assistance Programs</b></p>	<p>Nutrition assistance programs help the most vulnerable Minnesotans, including children, seniors, and people with disabilities, access the healthy foods they need. Under Governor Dayton's leadership, Minnesota's Women, Infants, and Children nutrition program had the fourth highest participation rate in the country, with 57 percent of all estimated eligible Minnesotans participating.</p> <p>Funded 31 community-based organizations to provide education and information, screening and application assistance across 84 counties to more than 12,000 households.</p> <p>During Governor Dayton's two terms, the percentage of eligible senior citizens receiving Supplemental Nutrition Assistance Program increased 31 percent. By 2016, more than 58 percent of eligible seniors were enrolled, or about 50,000 individuals.</p> <p>The increasing rate of participation is a testament to outreach efforts led by the Minnesota Health Department and the Minnesota Department of Human Services.</p> <p>Efforts to increase participation in food assistance programs among eligible Minnesotans also increased the rate of breastfeeding in new mothers from 74 percent in 2010 to 82 percent in 2016.</p> <p>According to the Minnesota Department of Health, breastfeeding improves the health of infants and mothers and results in cost savings for parents, insurers, employers, and society. Mothers who breastfeed have less risk of breast cancer, ovarian cancer, diabetes, and heart disease. Breastfed babies visit the physician less often, are less likely to be hospitalized, and need fewer prescriptions than formula-fed infants.</p>
<p><b>D.19</b></p>	<p><b>Top State for Long-term Services for Vulnerable and Older Adults</b></p>	<p>Since 2011, the AARP has consistently ranked Minnesota among the top states for long-term services and supports. Under Governor Dayton's leadership, the percentage of older adults receiving services in the community, instead of institutional setting increased 6.2 percent.</p>

		<p>To help achieve these results, the Department of Human Services implemented several initiatives to help Minnesotans stay in their homes and stay safe:</p> <ul style="list-style-type: none"> <li>• <b>Expansion of the Return to Community Program</b> – Since 2011 the Department of Human Services has expanded Return to Community. The program now not only helps people move from nursing homes to homes in the community but also helps people remain in their homes rather than move to a nursing home. Since the program’s start (in 2010) it has helped nearly 5,700 people move home from nursing homes. Community living specialists more recently are developing support plans to help older adults remain at home.</li> <li>• <b>Launched Minnesota Adult Abuse Reporting Center</b> – In 2015, the Department of Human Services and Minnesota Board on Aging launched the Minnesota Adult Abuse Maltreatment Center (MAARC). The center serves as the state’s single toll-free hotline to report suspected maltreatment of vulnerable adults, including older adults and people with disabilities. The new center consolidated 169 county phone numbers into one toll-free number, 1-844-880-1574, that any Minnesotan can call 24/7 to report abuse. Reports of maltreatment increased 33 percent in the first year of the center’s operation. The simplified centralized reporting system supports discovery of suspected maltreatment by counties and state licensing agencies for the protection of vulnerable adults.</li> <li>• <b>Helped to Support Older Adults at Home</b> – In 2014, as part of a broader home and community-based services reform initiative (Reform 2020), the Department of Human Services began to receive federal funding for the Alternative Care program, which provides home-and community-based services to people who need nursing home level of care but choose to live in the community. This recognized Alternative Care, previously funded by the state only, as a providing critical assistance, at a lower cost than institutional care, to people with modest income and assets who are not yet eligible for Medical Assistance. This is part of a strategy that has helped the state serve more older adults on public programs in the community rather than institutions.</li> <li>• <b>Received SCAN Foundation Pacesetter Award</b> – In 2017, Minnesota received The SCAN Foundation’s Pacesetter Prize in 2017 for supporting vital family caregivers, who provide the majority of long-term services and supports to older Minnesotans. SCAN cited new Minnesota laws that: require expanded employee sick leave benefits to care for a relative; require health care facilities to instruct family members on how to care for older adults after discharge; allow advanced practice nurses to delegate tasks, which increases families’ access to affordable health care.</li> </ul>
--	--	---

<p><b>D.20</b></p>	<p><b>Increased Rates for Personal Care Workers by 10.5 Percent</b></p>	<p>Home care workers play a critical role in Minnesota’s health care system – providing important services such as health care, food preparation, employment support, and crisis management. Their services help vulnerable Minnesotans live longer, healthier, more independent lives.</p> <p>However, Minnesota's provider reimbursement rate for home care workers rose less than two percent, while inflation increased by more than ten percent from 2007 to 2011. Stagnant wages have created significant hardships for home care providers – straining their ability to care for our parents, grandparents, and friends and relatives with disabilities.</p> <p>Working with the Minnesota Legislature, Governor Dayton increased rates for personal care workers by nearly 10.5 percent (from SFY2014 through SFY2018). Raising the wages that home care workers will help attract and maintain a high-quality workforce – helping improve the lives and care options of older Minnesotans and people with disabilities.</p> <p>In addition to saving families money and allowing Minnesotans to live more independently, in-home care providers help ease strain on the state's budget. In fact, for every additional senior who receives care in their home instead of a nursing facility, the state saves an estimated \$18,706 per year. And for every additional Minnesotan with disabilities who receives assistance at home instead of a nursing facility, the state saves an estimated \$10,090 per year.</p>
<p><b>D.21</b></p>	<p><b>Reformed Opioid Abuse Treatment to Improve Outcomes and Save Money</b></p>	<p>Opioid addiction has had a devastating impact on families and communities in Minnesota, and across the country. Overdoses involving prescription opioids account for more overdoses than any other drug, and the great majority of heroin and other illicit opioid users start with prescriptions. In 2016, 395 people died from opioid overdoses in Minnesota – an 18 percent increase over the previous year.</p> <p>In response, Governor Dayton and his Administration have worked to curb opioid use disorder and save lives. Since 2014, the Dayton Administration has implemented aggressive strategies to reduce the flow of illicit opioids into our communities, improve treatment and prevention options, and support disproportionately impacted communities.</p> <ul style="list-style-type: none"> <li>• <b>Expanded Access to Life-Saving Opioid Overdose Medication</b> – Governor Dayton and the Minnesota Legislature enacted “Steve’s Law” in 2014, which allows non-health care providers to administer Naloxone, a life-saving drug used to treat those who</li> </ul>

		<p>have overdosed on opioids. The law also provides immunity from criminal and civil charges if an individual seeks emergency medical assistance in the case of a drug overdose. Immunity also is provided for the individual experiencing the overdose.</p> <ul style="list-style-type: none"> <li>• <b>Joined National Task Force Focused on Addressing Prescription Drug Abuse</b> – Under Governor Dayton’s leadership, Minnesota joined a prescription drug abuse taskforce coordinated by the National Governors Association in 2014. Working with state policymakers from across the country, Minnesota has developed strategies to address prescribing practices, disposal options, prescription drug monitoring programs, public and provider education, treatment strategies and data, and metrics and evaluation. Building on this work, the Dayton Administration formed the State Government Opioid Oversight Project. The project connects policymakers from across Minnesota state government to coordinate opioid-related activities.</li> <li>• <b>Established Opioid Prescribing Workgroup to Reduce Abuse</b> – In 2015, Governor Dayton worked with the Legislature to establish an Opioid Prescribing Workgroup to reduce opioid dependency and substance use from prescription drugs. The Opioid Prescribing Work Group is comprised of consumers, health care and mental health professionals, law enforcement and representatives of the managed care organizations that contract to serve Minnesota Health Care Program members. The group is developing resources for providers to communicate with patients about pain management. It also is implementing an opioid prescribing quality improvement program for health care providers whose practices do not meet required standards.</li> <li>• <b>Provided Additional Support for Pregnant Women Struggling with Addiction</b> – Untreated opioid addiction during pregnancy can have devastating consequences. In 2015, Governor Dayton signed legislation providing \$1.4 million for 2016 and 2017 and \$2.4 million for 2018 and 2019 to help ensure pregnant women struggling with opioid addiction receive the support they need. The law directs state government to support efforts of five Minnesota tribes, by providing integrated services to identify and treat pregnant mothers and infants exposed to opioids, including community supports.</li> <li>• <b>Convened Tribal-State Opioid Summit to Develop Prevention and Treatment Strategies</b> – In partnership with Minnesota’s 11 Tribal Nations, Governor Dayton’s Administration convened a Tribal-State Opioid Summit in 2016 to discuss strategies to address the opioid crisis in American Indian communities. A final report issued in March 2017 summarized policy and budget recommendations in five areas: prevention, intervention and treatment, prenatal exposure, prescription monitoring, and law</li> </ul>
--	--	--

		<p>enforcement and public safety. These recommendations included key takeaway information, such as supporting culture and value based services and improving data collection to inform future practices. The report also highlighted measures that had already been taken by the state that are working, and further recommendations for how the state and tribes can continue to work together in order to fully address the opioid crisis in Minnesota. Tribal Nations held their own Tribal Opioid Summit in November 2017 to further discuss and refine their recommendations.</p> <ul style="list-style-type: none"> <li>• <b>Improved Access to Prescription Drug Drop-Off Sites</b> – Old or unneeded prescriptions left in medicine cabinets can be an easy source for people who are living with an addiction to. To help Minnesotans more easily dispose of medications, Governor Dayton signed legislation in 2016 allowing any Minnesota pharmacy to be a drop-off site for unused prescriptions, including opioids. By creating a designated location to safely dispose of unwanted or expired medication, the risk of harmful abuse, crime, and accidental poisoning can be substantially reduced.</li> <li>• <b>Secured \$1.5 Million Federal Grant for Opioid Abuse Prevention</b> – In 2016, Governor Dayton’s Administration secured a \$1.5 million federal grant over five years to prevent and reduce opioid abuse and reduce opioid overdoses. Thanks to the grant money, Minnesota is developing evidence-based prevention strategies, working with pharmaceutical and medical communities to prevent overprescribing, raising community awareness, and improving educational offerings for schools, communities, parents, prescribers, and patients.</li> <li>• <b>Reformed Minnesota’s Substance Abuse Disorder Treatment System</b> – Governor Dayton worked with the Minnesota Legislature in 2017 to transition Minnesota’s substance use disorder treatment system into a client-centered system, with an emphasis on managing substance abuse as a chronic condition. These changes remove barriers that previously prevented Minnesotans on Medical Assistance from accessing substance abuse treatment. The reform package allows patients to more quickly access services, and adds important services like withdrawal management, care coordination and peer support.</li> <li>• <b>Expanded Prescription Monitoring Program to Crack Down on “Doctor Shopping”</b> – “Doctor shopping” occurs when patients struggling with addiction seek out multiple opioid prescriptions from different doctors. To prevent this behavior, Minnesota’s state health licensing boards began collaborating with the Board of Pharmacy in 2017 to maximize the number of providers who are using the Prescription Monitoring Program system. This system allows prescribers and pharmacies to view controlled</li> </ul>
--	--	--

		<p>substance prescription histories for individual patients, and sends alerts to prescribers and pharmacies about individuals who may be doctor shopping.</p> <ul style="list-style-type: none"> <li>• <b>Secured Grant to Expand Access to Naloxone</b> – In 2017, Governor Dayton’s Administration secured a \$300,000 annual federal grant, which will be used to purchase Naloxone, a medication designed to rapidly reverse an opioid overdose, for emergency service providers across Minnesota.</li> <li>• <b>Mandated Addiction Risk Warning on Opioid Prescriptions</b> – Governor Dayton and the Legislature enacted legislation in 2017 that requires opioid prescriptions to contain a warning about the addiction risk. The law limits opiates to a four-day supply for certain situations of dental or ophthalmic pain, but provides health care providers discretion if a larger quantity is necessary.</li> <li>• <b>Established Grant Programs to Expand Opioid Addiction Treatment Programs</b> – The Governor and Legislature created a \$1 million grant program in 2017 to build capacity among health care and other service providers to prevent and treat opioid addiction, especially in rural Minnesota. The Governor and Legislature also invested an additional \$1 million in a chronic pain rehabilitation therapy demonstration project.</li> <li>• <b>Expanded Access to Medication-Assisted Treatment for Opioid Addiction</b> – Medication-Assisted Treatment programs help relieve withdrawal symptoms and psychological cravings as individuals are treated for opioid use disorder. In 2017, Governor Dayton and the Minnesota Legislature provided \$825,000 for health care providers to purchase direct injectable drugs to treat opioid addiction.</li> <li>• <b>Secured \$6 Million Grant to Expand Access to Medication-Assisted Treatment</b> – In 2017, Governor Dayton’s Administration secured a \$6 million Medication-Assisted Treatment expansion grant from the federal government. The project is a partnership with the Red Lake Nation, the White Earth Nation, and Fairview Health Services. The grants are being used to build the capacity to provide office based medication assisted therapy that integrates primary care with behavioral health services and makes these services more accessible. This grant in particular will be serving American Indian and African American communities most adversely affected by opioids. It is estimated that more than 440 clients will annually benefit.</li> <li>• <b>Secured \$10 Million Federal Grant to Improve Opioid Prevention and Treatment</b> – In 2017, Governor Dayton’s Administration secured funding of more than \$10 million in federal grants to encourage collaborative care between opioid treatment</li> </ul>
--	--	--

		<p>programs, health care clinics, care coordinators, and County and Tribal entities. Grants will focus on improving provider capacity to identify and treat opioid addiction and improving access to Naloxone to treat opioid overdoses. In addition, the grant is supporting the development of a statewide “Know the Dangers” public service awareness campaign. After launch, the campaign will increase awareness of opioid abuse and offer information and overdose intervention resources to potential and current opioid users.</p> <ul style="list-style-type: none"> <li>• <b>Secured \$17.7 Million Federal Grant to Support Treatment, Emergency Response, and Workforce Development</b> – In 2018, Governor Dayton’s Administration secured a \$17.7 million State Opioid Response grant from the federal government to combat the opioid epidemic throughout the state. The funding will support build ongoing work, expand services to new areas, increase the availability of emergency response drugs such as Naloxone and launch new efforts to combat the opioid crisis. The grant funding will support the state’s efforts to address the workforce shortage as well through investments in training for medical and mental health staff regarding treatment for opioid use disorder, and training and recruitment for new treatment workers who have had personal experience with opioids.</li> <li>• <b>Opioid Stewardship Program to Fund Statewide Opioid Abuse Prevention and Treatment</b> – In 2017, Governor Dayton proposed an Opioid Stewardship Program, which would have been dedicated exclusively to opioid abuse prevention and treatment in Minnesota. The program would have required opioid manufacturers to pay a “penny-a-pill” fee on pharmaceutical companies that produce opioids in order to fund these programs. The Legislature did not pass this proposal in 2017.</li> <li>• <b>Supporting Opioid Abuse Prevention Efforts in Minnesota’s American Indian Communities</b> – American Indians lose their lives at five times the rate of white Minnesotans from opioid overdoses. To help address this serious issue, Governor Dayton proposed \$4 million for prevention programs to reduce the number of opioid users and overdoses in American Indian communities. The Legislature did not pass this proposal in 2017.</li> <li>• <b>Improving Drug Monitoring</b> – Governor Dayton’s 2017 budget included \$200,000 for a drug analyst position at the Bureau of Criminal Apprehension (BCA). This position would have allowed the BCA to begin work monitoring the drug threat to Minnesota, and to work closely with the Minnesota Department of Health (MDH) and other state and local agencies to allow more timely deployment of opioid response resources throughout the state. The Legislature did not pass this proposal in 2017.</li> </ul>
--	--	---

		<ul style="list-style-type: none"> <li>• <b>Minnesota Opioid Action Plan</b> – During the 2018 Legislative Session, Governor Dayton announced the Minnesota Opioid Action Plan, a slate of legislative proposals to the combat opioid crisis and save lives across Minnesota. The action plan proposed an annual \$12 million investment in high-impact strategies to treat and prevent opioid abuse and identified four key areas for action: prevention, emergency response, treatment and recovery, and law enforcement. The plan also included an Opioid Stewardship Program, which would fund opioid abuse prevention and treatment strategies through stewardship fees collected from opioid manufacturers.</li>   <li>• <b>Improved Access to Treatment</b> – Under Governor Dayton’s leadership, the Department of Human Services ended prior authorization requirements in Minnesota’s Medicaid program for opioid addiction treatment medication prescriptions in 2018. Physicians will no longer need to obtain prior approval when prescribing opioid addiction treatment medications, removing the delay in patient access and making it easier for patients to receive the treatment they need when they need it.</li>   <li>• <b>Provided Resources for Employers</b> – In 2018, Governor Dayton’s Administration created an Opioid Epidemic Response Employer Toolkit in collaboration with the Minnesota Business Partnership. Employers are in a unique position to identify early signs and symptoms of substance use disorder, and help connect employees to treatment and recovery supports. The <a href="#">online Toolkit</a> identifies five key steps and best practices to equip employers to effectively and proactively respond to the opioid epidemic.</li> </ul>
<p><b>D.22</b></p>	<p><b>Strengthened Child Protection System for Minnesota Youth</b></p>	<p>Governor Dayton created the Governor’s Task Force on the Protection of Children to identify strategies for improving Minnesota’s child protection system. The bipartisan taskforce comprised of heads of social service and law enforcement agencies, child outreach workers for nonprofit agencies, and legislators developed more than 90 recommendations to improve screening and transparency, family assessment, and training and supervision for child protection workers.</p> <p>In 2015, Governor Dayton worked with the Legislature to implement many of the taskforce’s recommended reforms. Governor Dayton also secured an additional \$52 million to help the Department of Human Services and county governments better serve at-risk children and families. In 2017, 39,606 children received a child protection investigation or alternative response, a 25 percent increase from 2015.</p> <p>Response time to first face-to-face contact with alleged victims of maltreatment has improved over the last two years. For cases that require a face-to-face contact within 5 days, the median time to</p>

		<p>contact went from 65 hours in 2015 down to 54 hours in 2017 (preliminary results for 2018 show a continuation of this trend). For cases that require a face-to-face contact within 24 hours, the median time to contact remains steady at around 5 hours.</p> <p>The department revised the Minnesota Child Maltreatment Intake, Screening and Response Path Guidelines, which went into effect January 1, 2016. For the first time in Minnesota’s history, local child welfare agencies throughout Minnesota were required to implement the guidelines requiring a minimal information standard for information gathered at the point of intake, review of past screened-out reports and multi-disciplinary team decision-making in screening reports of maltreatment. The guidelines reinforced that Family Assessment Response is a serious involuntary child protective services response to allegations of maltreatment.</p> <p>As statewide implementation of the Collaborative Safety critical incident review process and use of the tools began in 2016, the department engaged professionals at all levels of the state’s child welfare system. In the first year of work, more than 1,500 child welfare professionals and stakeholders have engaged in training regarding the Collaborative Safety Model and creating a culture of safety throughout Minnesota’s child welfare system.</p> <p>The department continues to review the local agency screening decisions on a statewide random selection of screened-out reports of child maltreatment.</p>
<p><b>D.23</b></p>	<p><b>Required Health Insurance to Cover Care for Minnesotans with Autism</b></p>	<p>In 2013, Governor Dayton worked with the Minnesota Legislature to require health insurance cover early intensive intervention for children and young adults with autism spectrum disorder. Early intervention services is believed to be critical for children on the autism spectrum, but can be very expensive for families.</p> <p>That same year, Governor Dayton worked with the Minnesota Legislature to pass a new benefit under Medical Assistance that provided early intervention services for children and young adults with autism spectrum disorder. Approximately 70-80 children access that benefit at any given time.</p>
<p><b>D.24</b></p>	<p><b>Created Office of Inspector General at Department of Human Services, Saving Minnesotans \$109.5 Million</b></p>	<p>Furthering Governor Dayton’s commitment toward cultivating a more transparent state government that works for all Minnesotans, the Department of Human Services revamped its fraud prevention and recovery efforts in 2011, organizing them into a single office based on the federal inspector general model.</p> <p>This reorganization allows the agency to increase its focus on fraud prevention and recovery, streamline its external program integrity</p>

		operations, and more effectively structure staff who investigate, audit and evaluate others. From 2011-2017, the OIG has recovered \$109.5 million in fraud and waste
<b>D.25</b>	<b>Created Certified Community Behavioral Health Clinics Pilot Program</b>	Under Governor Dayton’s leadership, Minnesota became one of eight states to pilot a new model of mental health care and substance use disorder treatment, called Certified Community Behavioral Health Clinics. These clinics provide behavioral and chemical health services and coordinate physical health care for people with mental and substance use disorders and serve as a “one-stop-shop” for both adults and children who have trouble getting the services they need. Six clinics across the state are now open for business and are expected to serve more than 17,000 total people in the first year. The pilot runs until June 30, 2019.
<b>D.26</b>	<b>Launched Behavior Health Home Model for Health Care</b>	The behavioral health home model offers a coordinated approach to health care, serving the whole person across all areas of health and wellness, from primary care to social services. Behavioral health home services are covered by Medical Assistance, Minnesota’s Medicaid program. Certified providers deliver behavioral health home services using a strength-based approach, assessing and employing the cultural values and practices of the individual and their family in supporting their health goals. To date, 26 Minnesota providers are certified to offer behavioral health home services.
<b>D.27</b>	<b>Reformed Incentives Program to Encourage Adoption by Relatives</b>	<p>Children in foster care, who cannot be reunited with their parents, need stable, permanent, and loving homes. Adoption or transfer of custody to a relative can provide children with a permanent place to call home. In 2015, the Minnesota Department of Human Services implemented the Northstar Care for Children Program.</p> <p>Previously the financial incentives across the three programs were inconsistent, with family foster care – a temporary setting – typically providing higher levels of financial support than Adoption Assistance for adoptive families or Relative Custody Assistance for relatives who offer permanent homes for children.</p> <p>Under Northstar Care for Children, children age 6 and older in adoptive families and relative families receive the same benefit they would have received while in foster care. As part of Northstar Care for Children, there were 757 children who were adopted and 232 children who experienced a transfer of custody to a relative in 2015. In 2016, 919 children were adopted and 411 children experienced a transfer of custody to a relative. In 2017, 1,024 children were adopted and 542 children experienced a transfer of custody to a relative.</p>

<p><b>D.28</b></p>	<p><b>Health Insurance Premium Relief</b></p>	<p>In October 2016, Governor Dayton proposed that the Minnesota Legislature hold a special session to provide a 25 percent health insurance premium rebate to address rising premiums for Minnesotans expected to purchase health insurance on the individual market in 2017, and are not eligible for a federal tax credit due to their income.</p> <p>Eventually in late January 2017, the Legislature finally passed Governor Dayton’s proposal, providing an automatic 25 percent reduction in health insurance premiums for 118,000 Minnesotans facing significant premium increases in the individual market.</p> <p>Thanks to the premium rebate program, Minnesota families saved an average \$350 per month, or \$4,200 per year. Individuals saw an average saving \$136 per month, or \$1,632 per year.</p> <table border="1" data-bbox="699 737 1333 911"> <thead> <tr> <th colspan="2">Premium Rebate Program – 2017 Totals</th> </tr> </thead> <tbody> <tr> <td>Total Minnesotans Receiving Assistance</td> <td>117,985</td> </tr> <tr> <td>Total Number of Policies</td> <td>78,677</td> </tr> <tr> <td>Total Amount Reimbursed</td> <td>\$137.3 Million</td> </tr> </tbody> </table> <p>If the Governor’s proposal had been passed during a special session, it could have taken effect immediately in January, and would have given Minnesotans more certainty about what their premium costs would be, and what coverage they could afford.</p>	Premium Rebate Program – 2017 Totals		Total Minnesotans Receiving Assistance	117,985	Total Number of Policies	78,677	Total Amount Reimbursed	\$137.3 Million

Total Minnesotans Receiving Assistance	117,985									
Total Number of Policies	78,677									
Total Amount Reimbursed	\$137.3 Million									
<p><b>D.29</b></p>	<p><b>Invested More than \$900 Million in Nursing Homes and Community-Based Services Across Minnesota</b></p>	<p>Under Governor Dayton’s leadership, the Department of Human Services has made critical investments to ensure that seniors and people with disabilities are able to get the care they need at home, or in a nursing home setting. Since taking office, Governor Dayton had worked with the Minnesota Legislature to invest \$375 million in state resources in nursing homes across the state. These new resources are critical to helping rural facilities stay open. In the past, many nursing homes were faced with the threat of closure because they couldn’t afford to pay staff.</p> <p>In addition, more than \$530 million in state resources have been invested in home and community based services for seniors and people with disabilities since 2011.</p>								
<p><b>D.30</b></p>	<p><b>Required CPR for Day Care Providers</b></p>	<p>In 2011, Governor Dayton signed legislation enacting “Hannah’s Law,” which requires all child care teachers, assistants, and other staff to take cardiopulmonary resuscitation (CPR) training. The measure is named for 4-year-old Hannah Kozitza, who died after choking on a grape at a North Mankato day care center.</p>								

<b>D.31</b>	<b>Created Community Paramedic Classification</b>	In 2011, Governor Dayton worked with the Minnesota Legislature to create a community paramedic classification. The bill allows community paramedics (paramedics that receive additional training) to provide additional services in limited circumstances. The goal is to allow more flexibility and get more services to underserved areas, especially in Greater Minnesota.
<b>D.32</b>	<b>Provided Natural Disaster Nursing Home Relief</b>	In 2011, Governor Dayton worked with the Minnesota Legislature to provide tax relief to nursing homes that are forced to close and remodel in the wake of a natural disaster. The law also gives nursing homes more flexibility to move beds to where they are needed.
<b>D.33</b>	<b>Required Carbon Monoxide Education</b>	In 2011, Governor Dayton signed legislation enacting “Tyler’s Law,” which requires driver’s education teachers talk about the dangers of carbon monoxide and require a related question on permit tests. In December 2010, Tyler Lavers was installing a new speaker system on his car in the garage at the family’s cabin. Even though he had the garage door open, the cold air and confined space exacerbated the effects of the gas, killing him within 15 minutes.
<b>D.34</b>	<b>Started Initiatives to Reduce Incidence of Low Birth Weight</b>	In 2012, Governor Dayton and the Minnesota Legislature required managed care and county-based purchasing plans to implement plans strategically to reduce low birth weight babies in high-incidence areas. Not only are the health risks of low birth weight babies high, but the cost of having a low birth weight baby is tens of thousands of dollars more than the birth of a healthy weight baby.
<b>D.35</b>	<b>Support for Child and Maternal Health</b>	In 2012, Governor Dayton and the Minnesota Legislature re-established a Maternal and Child Health Advisory Task Force bringing the voices of the community into policy discussions around maternal and child health.
<b>D.36</b>	<b>Enhanced Penalties for Synthetic Cannabinoids</b>	In 2012, Governor Dayton and the Minnesota Legislature increased the penalty for the sale of synthetic cannabinoids from a gross misdemeanor to a felony, punishable by imprisonment for up to five years, a \$10,000 fine or both. The legislation also allows the Board of Pharmacy to add a substance to Schedule I provided that it finds that the substance has a high potential for abuse, has no currently accepted medical use in the United States, has a lack of accepted safety for use under medical supervision, has known adverse health effects, and is currently available for use within the state. The Board may use an expedited rulemaking process to make this addition with specific requirements. Finally, the legislation allows courts to stay the adjudication of guilt for first time possessors of synthetic cannabinoids.

<b>D.37</b>	<b>Enhanced Penalties for Neglect of Vulnerable Adults and Children</b>	In 2012, Governor Dayton and the Minnesota Legislature made it a felony for caregivers or operators to intentionally deprive a vulnerable adult of necessary food, clothing, shelter, health care or supervision when the caregiver is reasonably able to make the necessary provision and if the caregiver or operator knew the deprivation could result in substantial bodily harm or great bodily harm or the deprivation occurred over a long period of time. The legislation also created three new affirmative defenses for gross misdemeanor neglect and felony deprivation if proven by a preponderance of the evidence.
<b>D.38</b>	<b>Authorized Anatomical Gift Donations</b>	In 2012, Governor Dayton and the Minnesota Legislature authorized vehicle owners to make a voluntary \$2 donation to help conduct public information and education about anatomical gifts when they renew their vehicle registration. As a result of the change, the donation is only available for in-person transactions conducted by a deputy registrar appointed under applicable law. This replaces a part of the 2011 initiative on donations, which authorized donations when renewing vehicle registration.
<b>D.39</b>	<b>Strengthened Health Insurance Consumer Protections</b>	In 2013, Governor Dayton and the Legislature adopted popular health reforms, including a prohibition on pre-existing conditions, allowing adult children up to age 26 to retain family policy coverage, limited cost-sharing, and ensuring a minimum standard of benefits in all plans. In addition, the legislation requires health plans must cover at least 60 percent of expected medical costs, maintain accessible networks in the areas they serve, and implement quality assurance systems to keep quality high and prices low.
<b>D.40</b>	<b>Repealed MFIP Family Cap</b>	In 2013, Governor Dayton and the Minnesota Legislature repealed the MFIP family cap, which prevented an MFIP parent from receiving a benefit increase for a new baby. The change allows approximately 8,000 low-income Minnesota children to receive an average MFIP benefit increase of \$125/month. The provision had broad bipartisan support and brought together a diverse range of stakeholders, including the Minnesota Catholic Conference, Minnesota Citizens Concerned for Life, Legal Aid and NARAL Pro-Choice Minnesota.
<b>D.41</b>	<b>Approved MFIP Housing Assistance</b>	In 2013, Governor Dayton and the Minnesota Legislature authorized MFIP enrollees to receive a \$110 monthly housing assistance grant, and makes the program a forecasted program. MFIP enrollees who are currently receiving rental assistance are not eligible for this grant.

<p><b>D.42</b></p>	<p><b>Created Chemical Health Navigator Program</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature created a state-county chemical health navigation program to provide intensive wrap-around services to best address an individual’s chemical dependency needs. Key services provided include housing, employment and medical services, as well as chemical dependency services. Results from the original pilot project found an increase in housing stability, employment and sobriety across participants, along with a decline in detox admissions.</p>
<p><b>D.43</b></p>	<p><b>Strengthened Oversight of Pharmacies</b></p>	<p>In response to the 2012 fungal meningitis outbreak associated with improperly compounded drugs, Governor Dayton and the Minnesota Legislature strengthened pharmaceutical oversight. The legislation applied stringent Minnesota licensing and inspection standards to out-of-state pharmacies, distributors and manufacturers that sell into Minnesota.</p>
<p><b>D.44</b></p>	<p><b>Strengthened Protections Against Maltreatment of Older and Vulnerable Adults</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature enacted legislation to better ensure quality care and services for seniors and disabled adults. These improvements include:</p> <ul style="list-style-type: none"> <li>• Strengthening protections and procedures for nursing home residents who are being relocated from nursing facility that is closing.</li> <li>• Initiating service grants and providing standardized decision making tools to county adult protection units to increase consistency in service outcomes for vulnerable adults, who were the subject of a report of suspected maltreatment, regardless of the person’s county location.</li> <li>• Recommendations for improving case management services for nursing home residents and vulnerable adults.</li> </ul> <p>In 2018, Governor Dayton proposed comprehensive legislation to provide additional protections for vulnerable and older adults against maltreatment. Unfortunately, the Governor’s proposals – which were strongly supported by the AARP – did not become law.</p>
<p><b>D.45</b></p>	<p><b>Enacted Reforms to Improve the Long-Term Care System</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature enacted legislation aimed at improving Minnesota’s long-term care system to meet the dual challenges of rising health care costs and a growing aging population. These reforms include:</p> <ul style="list-style-type: none"> <li>• Enhancing vulnerable adult protections by making a common entry point for receiving and processing reports of vulnerable</li> </ul>

		<p>adult abuse and maltreatment.</p> <ul style="list-style-type: none"> <li>• Streamlining access to services and supports for older adults and their families to better navigate long-term care options.</li> <li>• Reducing unnecessary hospital admissions and stays by improving crisis diversion and discharge planning.</li> <li>• Improving access to home and community-based waiver services for people age 65 and older who are ventilator dependent.</li> </ul>
<b>D.46</b>	<b>Enhanced Penalties for Financial Exploitation of Vulnerable Adults</b>	<p>In 2013, Governor Dayton and the Legislature enhanced penalties for the financial exploitation of vulnerable adults. A provision was added to the Financial Exploitation of Vulnerable Adult statute to allow the value of the money, property or services received by the defendant within any 6-month period to be aggregated and subject to the penalties for this crime.</p> <p>The legislation also allows that when two or more offenses are committed by the same person in two or more counties, the accused may be prosecuted in any county in which one of the offenses was committed for all of the aggregated offenses.</p>
<b>D.47</b>	<b>Protected Seniors from Financial Exploitation</b>	<p>In 2017 and 2018, under Governor Dayton’s leadership, the Commerce Department took increased steps to protect seniors and vulnerable adults from financial exploitation.</p> <p>In 2017, the Commerce Department created a statewide education and outreach campaign to protect older and vulnerable adults and their caregivers from financial fraud and exploitation.</p> <p>Since November of 2017, the Department presented the Hang Up on Fraud campaign to more than one thousand people in over 75 locations across the state. In addition, the Department has supplied close to 26,500 toolkits to seniors and caregivers around the state. As part of the campaign, the Department also advertised in newspapers, radio, targeted emails, and by digital means.</p> <p>In 2018, under the Governor’s leadership, the Commerce Department initiative, Minnesota’s Safe Seniors Financial Protection Act was passed into law. This Act provides financial professionals who work with senior or vulnerable adult clients the tools to report and stop suspected fraud against their clients.</p>
<b>D.48</b>	<b>Enacted Medical Cannabis</b>	<p>In 2014, Governor Dayton and the Minnesota Legislature enacted the Medical Cannabis Therapeutic Research Act, which allows</p>

	<b>Therapeutic Research Act</b>	Minnesotans to access medical cannabis through a system of eight distribution centers overseen by the Minnesota Department of Health. Two in-state manufacturers grow and cultivate all medical cannabis and process it into pill and liquid/ oil forms for distribution to patients.
<b>D.49</b>	<b>Increased the Tobacco Tax and Reduced Youth Smoking by 31 Percent</b>	<p>Each year, more than 6,300 Minnesotans die from smoking related illnesses and smoking costs Minnesota more than \$3 billion in excess health care costs.</p> <p>In order to reduce smoking in Minnesota, particularly among youth, Governor Dayton signed into law a \$1.60 per pack tax and 95 percent wholesale tax on other tobacco products in 2013. This law also included an annual inflator on cigarettes (which was unfortunately repealed by the Republican Legislature in 2017).</p> <p>Minnesota’s cigarette tax is \$3.04 per pack and the state ranks seventh in the Nation. Increasing the tobacco tax is a CDC Best Practice and the Surgeon General states it is one of the most effective tobacco control interventions to prevent youth initiation, reduce smoking and promote cessation.</p> <p>Since the tobacco tax increase took effect, adult cigarette smoking use has declined by at least 16 percent and youth use has declined by at least 31 percent.</p>
<b>D.50</b>	<b>Regulated E-Cigarettes Like Traditional Tobacco Products</b>	In 2014, Governor Dayton and the Minnesota Legislature enacted legislation to regulate e-cigarettes in many of the same ways as tobacco cigarettes. Among other provisions, e-cigarettes are prohibited in any facility owned or licensed by any government entity, as well as on public school property and on daycare premises.
<b>D.51</b>	<b>Enacted Right to Try Act</b>	In 2015, Governor Dayton and the Minnesota Legislature enacted the Right to Try Act, which allows patients diagnosed with terminal illnesses better access to drugs, procedures or medical devices that are still undergoing clinical trials.
<b>D.52</b>	<b>Streamlined Licensing Requirements for Physicians</b>	In 2015, Governor Dayton and the Minnesota Legislature established an interstate medical licensure compact to create a streamlined and expedited process for physicians to be licensed in other compact states. The result is improved portability of a medical license across state lines.
<b>D.53</b>		

	<b>Banned Harmful Chemicals from Child Products</b>	<p>In 2013, Governor Dayton and the Legislature enacted bipartisan legislation banning bisphenol-A (BPA) from children’s food containers and formaldehyde in children’s personal care products.</p> <p>In 2017, the Minnesota Department of Commerce, Minnesota Department of Health and the Minnesota Pollution Control Agency established the Chemicals in Products Interagency Team (CPIT) to reduce the amount of chemical hazards in children’s products, including children’s jewelry and toys, and their dispersion into Minnesota's environment.</p>
<b>D.54</b>	<b>Strengthened Caregiver Connections</b>	<p>In 2016, Governor Dayton worked with the Minnesota Legislature to pass a law allowing patients to designate a caregiver to assist with after-care needs after hospital discharge. More than 670,000 family caregivers in Minnesota help their loved ones live independently, providing \$8.2 billion in unpaid care each year.</p>
<b>D.55</b>	<b>Invested \$2.45 Million in School-Based Mental Health Grants</b>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested \$2.45 million a year in a Department of Human Services grant program to improve mental health outcomes for youth. The grants fund innovative projects to support youth attending an intermediate district or the Southwest/West Central service cooperative that provides instruction to students in a setting of federal instructional level four or higher.</p>
<b>D.56</b>	<b>Required Lead Testing in School Drinking Water</b>	<p>In 2017, Governor Dayton and the Minnesota Legislature required the Departments of Health and Education to develop a plan for requiring school districts to test for lead in drinking water in public school buildings. Testing must begin by July 1, 2018 and school buildings must be tested at least once every five years. Districts must make test results available to the public and must notify parents of the availability of the information.</p>
<b>D.57</b>	<b>Reduced the Number of Children with Elevated Blood Lead Levels</b>	<p>The number of children under 6 years with a blood lead level of at least 5 µg/dL has fallen by almost 60 percent during the Dayton administration:</p>

		<table border="1"> <caption>Number of Children with Blood Lead Levels of 5+ µg/dL</caption> <thead> <tr> <th>Year of Test</th> <th>5+ µg/dL Confirmed</th> <th>5+ µg/dL Unconfirmed</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>2011</td> <td>913</td> <td>1642</td> <td>2555</td> </tr> <tr> <td>2012</td> <td>1057</td> <td>775</td> <td>1832</td> </tr> <tr> <td>2013</td> <td>857</td> <td>500</td> <td>1356</td> </tr> <tr> <td>2014</td> <td>719</td> <td>406</td> <td>1125</td> </tr> <tr> <td>2015</td> <td>764</td> <td>330</td> <td>1094</td> </tr> <tr> <td>2016</td> <td>862</td> <td>315</td> <td>1177</td> </tr> <tr> <td>2017</td> <td>757</td> <td>292</td> <td>1049</td> </tr> </tbody> </table> <ul style="list-style-type: none"> <li>Over 814,000 blood lead tests have been completed during the Dayton administration. Over 717,000 of these were for children under 6 years of age.</li> <li>Over 485,000 children under 6 years age received a blood lead test during the Dayton administration.</li> <li>82 percent (11,669) of the 14,219 children under 6 years with a blood lead level of at least 5 µg/dL received a follow-up test.</li> </ul>	Year of Test	5+ µg/dL Confirmed	5+ µg/dL Unconfirmed	Total	2011	913	1642	2555	2012	1057	775	1832	2013	857	500	1356	2014	719	406	1125	2015	764	330	1094	2016	862	315	1177	2017	757	292	1049

2017	757	292	1049																															
<b>D.58</b>	<b>Invested \$3 Million in Spinal Cord and Traumatic Brain Injury Research</b>	<p>In 2017 and 2018, Governor Dayton and the Minnesota Legislature invested \$5 million in Spinal Cord and Traumatic Brain Injury Research Grant Program. The program provides grant funding for research into new and innovative treatments and rehabilitative efforts for the functional improvement of people with spinal cord and traumatic brain injuries. Research topics may include, but are not limited to, pharmaceutical, medical device, brain stimulus, and rehabilitative approaches and techniques.</p>																																
<b>D.59</b>	<b>Increased Child Care Assistance Program Maximum Rates for High Quality Child Care Providers</b>	<p>Beginning March 2014, family child care providers and child care centers are eligible for 15 percent higher rates if they achieve a three-star Parent Aware rating and 20 percent higher rates if they achieve a four-star Parent Aware rating.</p>																																
<b>D.60</b>	<b>Improved the Experience Children, Families and Providers Have with the Child Care Assistance Program</b>	<p>Child Care Assistance Program changes in 2017 simplify the program, improve school readiness, and encourage parents to pursue increased income and career advancement. The changes benefit approximately 30,000 children from 15,000 families and 3,450 providers each month.</p> <p>Changes include: 12 month redeterminations rather than 6 months; education added as an allowed activity for all sub-programs; up to 3 months of continued care when a parent’s work or school activity ends; and during the 12 month eligibility period copayments do not increase, the income exit is higher, authorized hours generally do not decrease, and families have fewer reporting requirements.</p>																																

<p><b>D.61</b></p>	<p><b>Expanded Parent Aware, Minnesota’s Quality Rating and Improvement System for child care and early learning programs statewide</b></p>	<p>This easy-to use tool is designed to help Minnesota parents find high-quality child care and early learning programs that prepare children for kindergarten. Child care and early learning programs volunteer to participate and seek a rating. As of December 2017, 2,705 or 25 percent of eligible programs had a Parent Aware rating.</p> <p>Since its launch in 2014, DHS has also helped connect approximately 283,864 visitors to a database of more than 12,000 child care and early learning programs via ParentAware.org and added new resources to the website for families in 2017.</p>
<p><b>D.62</b></p>	<p><b>Investments in Electronic Health Record Adoption and Use Improved the Health of Individuals and Communities</b></p>	<p>Under Governor Dayton’s leadership, Minnesota’s health care providers dramatically enhanced their use of technology to improve patient care and outcomes. Health information technology – or “e-health” - supports improved care through automated decision support tools, provider feedback reports, patient registries, research, and care coordination across providers using secure health information exchange (HIE). The expansion of e-health is improving the use of information to understand and improve the health in our communities, which in turn helps to better understand and improve the health of individuals.</p> <p>Since 2010 Minnesota has received more than \$850 million in federal funding to support e-health adoption, including electronic health records (EHRs) and community collaboration using technology and information. Starting in 2006, state funding provided \$8.3 million in grants for EHR adoption and an additional \$6.3 million for a revolving EHR Loan Program. These no-interest loan program was open four times between 2008 and 2015. These investments have resulted in near-universal e-health adoption among Minnesota’s health care providers and local public health departments, as well as electronic prescribing that greatly reduces prescription errors.</p> <p>Minnesota awarded approximately \$5.8 million in federal State Innovation Model funding to 14 community collaboratives or organizations across the state, resulting in increased electronic HIE to support care coordination, and enhanced data analytics for the Department of Human Services’ Integrated Health Partnerships.</p>

		<p>Percent of Minnesota Providers Using Electronic Health Records</p>  <table border="1"> <thead> <tr> <th>Facility Type</th> <th>Percent of Facilities with EHRs</th> </tr> </thead> <tbody> <tr> <td>Hospitals</td> <td>100%</td> </tr> <tr> <td>Clinics</td> <td>98%</td> </tr> <tr> <td>Nursing Homes</td> <td>95%</td> </tr> <tr> <td>Local Health...</td> <td>94%</td> </tr> </tbody> </table> <p>Source: Minnesota e-Health Profile, MDH Office of Health IT, 2011-2017</p>	Facility Type	Percent of Facilities with EHRs	Hospitals	100%	Clinics	98%	Nursing Homes	95%	Local Health...	94%

Clinics	98%											
Nursing Homes	95%											
Local Health...	94%											
<p><b>D.63</b></p>	<p><b>Public Health and Response Fund</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature worked together to create a public health response account that strengthens Minnesota’s state and local infrastructure against urgent new public health threats. The new law provides \$5 million for the account but limits its uses to major infectious disease outbreaks. Infectious diseases can strike at any time with little warning, and they require a rapid response by public health officials to save lives. In some cases, those response efforts can pose significant costs. The response account helps ensure that public health responders will have access to all resources necessary to move fast and protect public health and well-being.</p>										
<p><b>D.64</b></p>	<p><b>Strengthened Public Health Protections Against Infectious Disease</b></p>	<p>Following the 2017 measles outbreak, Governor Dayton and the Minnesota Legislature worked together to pass legislation that updated the Isolation and Quarantine statute. It clarifies that the Isolation and Quarantine Statute includes Ebola and other infectious diseases. There is new language that links the list of included diseases to federal isolation and quarantine language to ensure that MN has at least the same isolation and quarantine provisions as the federal government.</p> <p>In addition, it protects parents or guardians of children or caregivers of vulnerable adults who are in isolation or quarantine. The existing language had only protected the individual being isolated or quarantined. The new language protects the caregivers and guardians who must be home to care for the individual under isolation or quarantine.</p>										
<p><b>D.65</b></p>	<p><b>Provided Access to Newborn Screening</b></p>	<p>When Governor Dayton took office in January 2011, the Minnesota Department of Health’s (MDH) Newborn Screening program was</p>										

	<p><b>Testing and Follow-Up Services for 478,757 Minnesota Newborns</b></p>	<p>testing for 56 congenital and heritable conditions that, without early treatment, can lead to illness, physical disability, developmental delay, or death. By 2018, the Newborn Screening program had increased the number of conditions universally screened for to 61. Minnesota is among the first states to implement screening for these new conditions.</p> <p>Expanded the Minnesota Newborn Screening Panel to include detection of 61 medical conditions - The following screens were added to the newborn screening panel from 2011 to 2018:</p> <ul style="list-style-type: none"> <li>• Severe Combined Immunodeficiency (SCID)</li> <li>• Critical Congenital Heart Disease (CCHD)</li> <li>• X-linked Adrenoleukodystrophy (XALD)</li> <li>• Pompe disease</li> <li>• Mucopolysaccharidosis, type I (MPS I)</li> <li>• Spinal Muscular Atrophy (SMA)</li> </ul> <p>By adding these conditions to the screening panel universally available in Minnesota, 37 additional Minnesota newborns each year are able to receive early life-saving treatment.</p> <p>Initiated an improved sickle cell trait notification process to address inequitable access to health information – Screening for sickle cell disease and other hemoglobinopathies began in 1988. While MDH has always actively notified medical providers of disease states and trait status (carriers), before 2015 MDH did not notify parents with this information. In 2015, informed by focus groups with the at-risk community, MDH began directly notifying parents of these test results. This has resulted in over 1,100 infants and their parents (or legal guardians) each year made more aware of this important health information.</p>
<p><b>D.66</b></p>	<p><b>Protected Minnesota’s Groundwater Through Proper Well Construction and Sealing of Unused Wells</b></p>	<p>Groundwater is a precious resource that supplies drinking water for three out of four Minnesotans. Gov. Dayton recognizes the need to protect this invisible resource for current and future generations. Properly constructed wells protect the groundwater aquifer from pollution and those who drink from that well. Unused wells that are not correctly sealed can contaminant groundwater. Minnesota leads the nation in sealing unused wells.</p> <ul style="list-style-type: none"> <li>• 54,779 wells were sealed during the Dayton Administration</li> <li>• 1,252 bored geothermal systems have been permitted</li> <li>• 37,210 domestic water supply wells were installed</li> <li>• 132 community water supply wells were installed</li> <li>• 664 non community water supply wells were installed</li> </ul>
<p><b>D.67</b></p>		

	<p><b>Helped Minnesotans Protect Their Sources of Drinking water</b></p>	<p>During the Dayton Administration, 386 drinking water source protection plans have been developed for communities that serve drinking water to 91 percent of Minnesotans who receive public drinking water. To date, 1.28 million acres of land have been identified as important for drinking water source protection. 677 Source Water Protection Grants totaling \$4,371,957 were awarded during the Dayton Administration.</p> <p>Under Governor Dayton, in addition to routine sampling and evaluation of public drinking water quality, MDH studied public drinking water sources for other contaminant risks:</p> <ul style="list-style-type: none"> <li>• Assessed groundwater used by selected public water supply sources for contaminants.</li> <li>• Surveilled at-risk public water supply systems for pesticides, in cooperation with Minnesota Department of Agriculture</li> <li>• Conducted a Groundwater Virus Monitoring Study to help MDH understand and reduce the public health risk from viruses in groundwater used for drinking water.</li> <li>• Developed a Reuse water study and recommendations to serve as a foundation to move safe and sustainable reuse forward in Minnesota</li> <li>• Developed a Lead in drinking water report to serve as a foundation for an evaluation of removing all sources of lead in drinking water in Minnesota</li> <li>• Developed a guide for reducing risk of lead in drinking water systems at public schools</li> </ul>
<p><b>D.68</b></p>	<p><b>Helped Minnesotans Rebuild Public Water Supply Infrastructure</b></p>	<p>Governor Dayton, through the Public Facilities Authority, awarded \$1.65 billion in infrastructure loans and grants for 485 community projects to rebuild drinking water infrastructure including treatment plants, storage systems, and water mains and distribution systems.</p>
<p><b>D.69</b></p>	<p><b>Protected the Health of Minnesotans by Providing Guidance for Drinking Water Contaminants</b></p>	<p>New or updated health-based guidance values were derived for 62 contaminants that have the potential to be found or have been found in potential drinking water sources, including groundwater. These values are used by risk managers, the public, and stakeholders to make decisions about managing the health risks of contaminants in groundwater and drinking water.</p> <p>Rapid assessment screening values were derived for 200 pesticides and for 119 active pharmaceutical ingredients. The values are used by risk managers, the public, and stakeholders to provide context when these chemicals are found in water.</p>
<p><b>D.70</b></p>	<p><b>Strengthened Drinking Water Protections for</b></p>	<p>In the east Twin Cities metropolitan area PFAS-impacted communities, the Department of Health, in collaboration with the</p>

	<b>Minnesotans Living in Perfluoroalkyl Affected Areas</b>	<p>Pollution Control Agency and local communities, has:</p> <ul style="list-style-type: none"> <li>• Sampled 1689 individual private wells</li> <li>• Taken 3142 samples from private wells</li> <li>• Reported 3102 results to the well owner</li> <li>• Issued 758 well advisories for private wells</li> </ul>
<b>D.71</b>	<b>Protected More Minnesotans from Harmful Radon Gas</b>	<p>Radon is a colorless, odorless gas that is known to cause lung cancer. It exists naturally in Minnesota soils, but it can seep into homes through cracks and foundations. Minnesota has a higher radon risk than almost every other state due its geology and homes being closed up most of the year. An estimated 500-700 radon-related lung cancer deaths occur each year in Minnesota. They can be prevented by radon testing and mitigation. During the Dayton administration, MDH’s outreach, education and research contributed to:</p> <ul style="list-style-type: none"> <li>• 252,196 homes tested for radon</li> <li>• 22,125 homes mitigated for radon</li> <li>• 112,565 new homes built radon resistant</li> </ul> <p>The installation of radon reduction systems has increased from about 1,000 per year in 2010 to nearly 5,000 per year in 2017. This increase is due in part to a radon disclosure and notification law that went into effect in 2014.</p> <p>There have been more than 120,000 residential units built radon resistant in the last 9 years since a radon-resistant new construction law went into effect. The code was expanded in 2015 to cover multi-family housing of four units or more.</p>
<b>D.72</b>	<b>Protected More Minnesotans From Foodborne Illness</b>	<p>Food safety practices in the state were strengthened through the development and adoption of a new Minnesota Food Code during the Dayton administration. The code is used to guide and regulate the practices of restaurants, grocery stores, and food manufacturers and distributors to ensure as far as possible that the food they are selling or producing won’t make people sick.</p> <p>In the past eight years, MDH’s Food Pools and Lodging Services unit has responded to more than 5,000 complaints. These were both illness complaints that may have led to outbreak investigations, as well as best practices complaints at food, beverage and lodging establishments, swimming pools, manufactured home parks and campgrounds and youth camps.</p>
<b>D.73</b>	<b>Obtained a Section 1332 Waiver to</b>	<p>In 2017, in response to market instability in the individual health insurance market, the Commerce Department submitted a waiver</p>

	<p><b>Establish the Minnesota Premium Security Plan (MPSP), a State-Based Reinsurance Program to Stabilize Minnesota’s Individual Health Insurance Market</b></p>	<p>application to the federal government for a reinsurance program designed to stabilize and lower health plan premiums. Minnesota was only the second state to receive a 1332 waiver for a reinsurance program, and the only state to produce a successful 1332 waiver complete in-house without the assistance of outside consultants.</p> <p>As a result of the state’s reinsurance program, health insurance rates on the individual market held steady during the 2017 Open Enrollment period. Preliminary health insurance rates for the 2018 Open Enrollment period could decrease by as much as 3 to 12 percent.</p>
<p><b>D.74</b></p>	<p><b>Strengthened Mental Health Parity Outreach, Education and Compliance Efforts</b></p>	<p>The Commerce Department received a Health Insurance Enforcement and Consumer Protections Grant by the U.S. Centers for Medicare &amp; Medicaid Services to provide education and enforcement of Mental Health Parity Act ensuring equitable coverage for mental health and substance use disorder care.</p> <p>Commerce worked with patients to understand their health insurance coverage, as well as providers, advocacy groups, and insurance agents and brokers. Commerce expanded its enforcement capabilities to more closely scrutinize complaints from patients, providers, and advocacy groups.</p> <p>Commerce led an inter-agency team with DHS and MDH as Minnesota’s participation in the Substance and Mental Health Services Administration (SAMHSA) Commercial Parity Policy Academy. This year-long academy brought together state and federal regulators, mental health providers stakeholders to drive implementation of best practices, provide technical assistance and generate recommendations for better parity implementation and enforcement in the future.</p>
<p><b>D.75</b></p>	<p><b>Strengthened Health Insurance Consumer Protections and Market Rules</b></p>	<p>In 2013, the Commerce Department on behalf of the Dayton Administration, guided the adoption of legislation to implement popular health reforms in the state, including a prohibition on pre-existing conditions, allowing adult children up to age 26 to retain family policy coverage, limited cost-sharing, and ensuring a minimum standard of benefits in all plans. In addition, the legislation requires health plans must cover at least 60 percent of expected medical costs, maintain accessible networks in the areas they serve, and implement quality assurance systems to keep quality high and prices low.</p> <p>The Commerce Department implemented unified, annual rate review for state-regulated health insurance products in compliance with the Affordable Care Act (ACA). This process standardized the regulatory process by which health insurers bring products to market in Minnesota.</p>

<p><b>D.76</b></p>	<p><b>Opened the Nation’s First Fixed Dental Clinic on a State Veterans Home Campus</b></p>	<p>Under Governor Dayton’s leadership, the State of Minnesota opened the nation’s first fixed dental clinic on a State Veterans Home campus in August 2018. The new clinic provides more efficient dental care to the 300 residents of the Minneapolis Veterans Home, as well as the participants in the campuses Adult Day Center program. Previously, the Minneapolis Veterans Home, like other skilled care model facilities across the country, relied on mobile clinic dentistry programs to provide dental care for veterans. The new fixed dental clinic addresses the space limitations, increased cost, and inconsistencies of the previous model, and is expected to provide dental services to 500 Minnesota veterans in its first year.</p>																																
<p><b>D.77</b></p>	<p><b>Provided Grant Funding to Support Organizations Helping Minnesotans with Alzheimer’s and other forms of dementia</b></p>	<p>Under Governor Dayton’s leadership, the Minnesota Board of Aging provided grant funding to organizations throughout Minnesota supporting people with Alzheimer’s and other forms of dementia for FY17-19. The funding supports, or will support, organizations as they work to improve their services, including memory screenings and culturally responsive trainings for health care providers.</p> <table border="1" data-bbox="613 869 1417 1852"> <thead> <tr> <th data-bbox="613 869 773 936">Fiscal Year</th> <th colspan="3" data-bbox="773 869 1417 936">Dementia Grant Recipients</th> </tr> </thead> <tbody> <tr> <td data-bbox="613 936 773 1098">2017</td> <td data-bbox="773 936 1010 1098">A.C.E. of Southwest Minnesota</td> <td data-bbox="1010 936 1159 1098">\$93,000</td> <td data-bbox="1159 936 1417 1098">Supported dementia education trainings, early screenings</td> </tr> <tr> <td data-bbox="613 1098 773 1230">2017</td> <td data-bbox="773 1098 1010 1230">Age Well Arrowhead</td> <td data-bbox="1010 1098 1159 1230">\$49,999</td> <td data-bbox="1159 1098 1417 1230">Supported dementia awareness training</td> </tr> <tr> <td data-bbox="613 1230 773 1329">2017</td> <td data-bbox="773 1230 1010 1329">Centro Tyrone Guzman</td> <td data-bbox="1010 1230 1159 1329">\$88,500</td> <td data-bbox="1159 1230 1417 1329">Funded Spanish-based dementia education</td> </tr> <tr> <td data-bbox="613 1329 773 1491">2017</td> <td data-bbox="773 1329 1010 1491">Chippewa County Montevideo Hospital</td> <td data-bbox="1010 1329 1159 1491">\$17,374</td> <td data-bbox="1159 1329 1417 1491">Increased access to memory clinics for Hispanic individuals, supported dementia education</td> </tr> <tr> <td data-bbox="613 1491 773 1589">2017</td> <td data-bbox="773 1491 1010 1589">Comunidades Latinas Unidas En Servicio</td> <td data-bbox="1010 1491 1159 1589">\$49,999</td> <td data-bbox="1159 1491 1417 1589">Supported outreach and education efforts</td> </tr> <tr> <td data-bbox="613 1589 773 1688">2017</td> <td data-bbox="773 1589 1010 1688">East Side Neighborhood Services</td> <td data-bbox="1010 1589 1159 1688">\$49,953</td> <td data-bbox="1159 1589 1417 1688">Funded dementia education trainings</td> </tr> <tr> <td data-bbox="613 1688 773 1852">2017</td> <td data-bbox="773 1688 1010 1852">Helping Hands Outreach</td> <td data-bbox="1010 1688 1159 1852">\$49,713</td> <td data-bbox="1159 1688 1417 1852">Supported early screenings, education services, and cognitive testing</td> </tr> </tbody> </table>	Fiscal Year	Dementia Grant Recipients			2017	A.C.E. of Southwest Minnesota	\$93,000	Supported dementia education trainings, early screenings	2017	Age Well Arrowhead	\$49,999	Supported dementia awareness training	2017	Centro Tyrone Guzman	\$88,500	Funded Spanish-based dementia education	2017	Chippewa County Montevideo Hospital	\$17,374	Increased access to memory clinics for Hispanic individuals, supported dementia education	2017	Comunidades Latinas Unidas En Servicio	\$49,999	Supported outreach and education efforts	2017	East Side Neighborhood Services	\$49,953	Funded dementia education trainings	2017	Helping Hands Outreach	\$49,713	Supported early screenings, education services, and cognitive testing

E.1	<b>Implemented “Plain Language” Requirements to Make Government Easier to Understand</b>	In March 2014, Governor Dayton signed Executive Order 14-07 directing all state government agencies to communicate in “Plain Language.” Plain Language is communication that an audience can understand the first time they read or hear it. Thousands of state employees have been trained in how to use Plain Language in their day-to-day work, transforming the way the state’s workforce communicates with the Minnesotans they serve. Plain Language has provided Minnesotans better state services by reducing confusion, saving time, and improving customer satisfaction.

		<ul style="list-style-type: none"> <li>• <b>Simplified Forms at the Department of Labor and Industry –</b> Building on this order, the Department of Labor and Industry’s Plain Language team completed more than 60 projects to simplify forms, procedures, and online information to make it easier for Minnesotans to read and understand.</li>   <li>• <b>Child Care Licensing at the Speed of Business –</b> Many Minnesota communities, particularly those in rural areas, face a shortage of quality child care providers. As part of Governor Dayton’s plain language initiative, the Department of Human Services redesigned its child care center application, which was complex and confusing for applicants. The agency also reformed the way it processed license applications, ensuring that 87 percent of all applications are completed within 150 days; prior to the project, the average was 183 days. An additional 130 programs were opened from November 2016 through May 2018.</li>   <li>• <b>Simplified Permitting for Restaurateurs –</b> In 2016, the Minnesota Department of Agriculture unveiled a new tool for Minnesotans interested in starting a restaurant. The agency’s Food Business Licensing and Food Safety Wizard tool enables anyone wanting to make or sell food in Minnesota to more quickly get a food license. The web-based licensing tool is multilingual – available in English, Spanish, Somali, and Hmong – and formatted to fit mobile screens to make it easy-to-use and accessible. This wizard is an innovative solution to help Minnesotans navigate the laws and get critical information on starting a food business.</li>   <li>• <b>Redesigned Metro Transit Website –</b> In 2014, Metro Transit introduced a redesigned, mobile-friendly website based on customer feedback that emphasizes popular trip planning features. It also it more accessible on mobile devices. In 2016, Metro Transit also introduced a mobile app that allows customers to purchase fares using a mobile device. By March 2018, more than 80,000 people used the mobile app at least once. The agency has found that both regular riders and visitors use the app and enjoy the flexibility it provides.</li>   <li>• <b>Redesigned Bus Stop Signs to Make Trip Planning Even Easier –</b> Metro Transit replaced of all 12,000 of its bus stop signs. The new signs include route information and instructions for accessing real-time bus departure information for that specific stop via text messaging. In addition to indicating which route serves a stop, each bus stop has a decal providing instructions on how to access real-time bus departure information for that specific stop via text message. Since the inception of the program, the number of monthly text messages inquiries has grown from 521 to 284,386 in March 2018. Additionally, the</li> </ul>
--	--	--

		<p>number of unique users has grown from 120 to 21,207 by March 2018.</p> <ul style="list-style-type: none"> <li> <b>Created Plain Language Local Planning Handbook for Twin Cities Communities</b> – In 2015, the Metropolitan Council launched an online, plain language Local Planning Handbook to help local officials complete their comprehensive plans for growth and development. The new handbook provides local officials additional resources and examples to support their work. In addition, beginning in 2016, the Metropolitan Council’s began the <i>PlanIt</i> educational event series, which provides further technical assistance to local officials and consultants through in-person training events and a variety of online educational events, self-guided learning, and planning resources. </li> </ul>																
<p><b>E.2</b></p>	<p><b>Improving Transparency in Government</b></p>	<p>Since Governor Dayton took office, the Department of Administration has trained over 8,500 government employees on data practices and open meeting laws. The number of employees trained in 2017 has increased by 78 percent since Governor Dayton took office in 2011. The training sessions included individuals from all levels of state and local government and the Legislature.</p>																
<p><b>E.3</b></p>	<p><b>Implemented Nearly 700 Reform Projects to Make Government Work Better for People</b></p>	<p>Governor Dayton is committed to making government more efficient, effective, and accountable. Under the Dayton Administration, more than 9,000 state employees participated in a Continuous Improvement training. Minnesota’s Continuous Improvement strategy to make state government work better by emphasizing a customer focus, data driven decision-making, a focus on results, and a willingness to challenge the status quo. This training is helping state employees save time and money, reduce waste, and improve the quality of government services.</p> <p>The state also embarked on nearly 700 projects to streamline processes and save taxpayer money. These projects included a drone vehicle used by the Department of Transportation to inspect culverts for potential programs, efforts at Department of Veterans Affairs to improve sleeping among veterans and reduces falls, an initiative at the Department of Corrections to reduce document storage costs by 20 percent, and a program at the Pollution Control Agency to reduce contract processing time for 7 months to 3.5 months.</p> <table border="1" data-bbox="626 1656 1401 1871"> <thead> <tr> <th></th> <th>Year</th> <th>Agency</th> <th>Project</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>2011</td> <td>MDA</td> <td>Individual Award: Harley Olinske, Licensing Program improvement</td> </tr> <tr> <td>2</td> <td>2011</td> <td>MDH</td> <td>Newborn screening long term follow-up</td> </tr> <tr> <td>3</td> <td>2011</td> <td>MDOR</td> <td>Electronic check processing</td> </tr> </tbody> </table>		Year	Agency	Project	1	2011	MDA	Individual Award: Harley Olinske, Licensing Program improvement	2	2011	MDH	Newborn screening long term follow-up	3	2011	MDOR	Electronic check processing

<b>E.4</b>	<b>Expanded Administrative Support for Small State Agencies, Allowing Them to Focus on Their Core Missions</b>	<p>The Department of Administration’s Small Agency Resource Team provides accounting, budgeting and human resources services to the state's small agencies, boards and councils. By providing these administrative services, the team enables these small organizations to focus their most vital resources on their core businesses.</p> <p>Under Governor Dayton’s leadership, the Department of Administration expanded its Small Agency Resources Team to help a total of 20 state agencies.</p>																																																																																																				
<b>E.5</b>	<b>Launched Consumer-Friendly Human Rights</b>	<p>In 2011, the Minnesota Department of Human Rights streamlined the intake charge process resulting in a reduction of 66 days to complete an administrative charge. In 2016, the Department added</p>																																																																																																				

	<b>Website and Hotline</b>	foreign language hotlines to assist citizens, business owners and other members of the public. The hotline has served more than 80 Minnesotans with over 32 hours of calls since July 2016. Additionally, the Department’s Spanish speaking enforcement officer took about 480 calls from Minnesotans whose primary language is Spanish. In 2016, the Department also redesigned its website to increased efficiency and improve user navigability.
E.6	<b>Reducing Waste at the State Capitol Complex</b>	<p>In 2016, the Department of Administration introduced an improved recycling system that increased the State Capitol Complex’s recycling rate from 70 percent to 80 percent. The agency also set a goal of reaching zero-waste, with a recycle rate over 90 percent, by 2018. As part of the enhanced recycling program, the agency began recycling organic material throughout the Capitol Complex, including the cafeterias. In 2017, the agency diverted more than 390,330 pounds of organics from landfills. Some of that organic matter was used as compost to feed the pollinator-friendly gardens around the Capitol Complex. So far, the new system has achieved a 78 percent recycling rate.</p> <p>In 2016, the Dayton Administration and the Department of Administration partnered with Xcel Energy to create the “Renewable Connect-Government” program that provides 33 percent of the Capitol Complex base electrical need from renewable energy generated in Minnesota. The utility rates negotiated by the state will save taxpayer money over the next two decades.</p> <p>Since 2008, the Department of Administration has reduced energy consumption on the Capitol Complex by 23.7 percent despite the Capitol Complex population growing by 22.5 percent due to consolidation of state workspaces. This has resulted in an estimated \$13 million in electricity costs avoided, and 96,379 tons less CO2 produced to power the Capitol Complex.</p> <p>In addition, the Department of Administration added 193 hybrids and 21 all-electric or plug-in electric hybrid vehicles. In recognition of this work to improve mileage and reduce emissions, the National Association of Fleet Administrators certified the state vehicle fleet as a “Green Fleet.”</p> <p>The Department of Administration also created a Green Lease program in 2016. The program has initiated more than 149 negotiated leases in which private sector facilities owners agreed to meet criteria to improve the environmental footprint of state government.</p> <p>The Minnesota Department of Transportation’s fleet includes 38 hybrid vehicles and four electric vehicles. In 2018, MnDOT received a 2018 Government Green Fleet Award from the 100 Best Fleets in the</p>

		Americas in recognition of the department’s excellence in effective and efficient fleet operations. MnDOT was the only state department of transportation recognized in the 2018 awards. In addition, MnDot holds a Sustainable Fleet Accreditation from the National Association of Fleet Administrators Fleet Management Association.
<b>E.8</b>	<b>Saved Taxpayers \$1.5 Billion Through Competitive Health Insurance Contract Bidding</b>	<p>Before Governor Dayton took office, the State of Minnesota was not getting the best value for its Medicaid program provided through health plans. In 2011, Governor Dayton and the Department of Human Services began requiring health plans to compete to provide health care coverage for enrollees in Medicaid and MinnesotaCare. By requiring competitive bidding and introducing other reforms to purchasing, Governor Dayton has saved Minnesota taxpayers \$1.5 billion.</p> <p>Building on those reforms, in 2013 Minnesota launched its Integrated Health Partnership program, providing more coordinated care and paying health providers based on the quality of care they provide to their patients. This program has encouraged providers to be innovative in how they deliver health care and allows them to focus on the quality of care versus the amount of care they provide. The program now serves 465,000 Minnesota with 24 provider groups involved. It has saved a total of \$277 million since 2013.</p>
<b>E.9</b>	<b>Reduced Processing Time for Workforce Certificate Applications</b>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Human Rights worked to ensure equitable opportunities in state contracting while making the process more efficient for contractors</p> <p>The agency streamlined its workforce certificate application review process, which ensure that contractors are providing equal employment opportunities all people. Thanks to these reforms wait times were reduced from 30 days to less than 10 days, a 66 percent improvement.</p>
<b>E.10</b>	<b>Created Disaster Assistance Fund to Quickly Deliver Aid to Minnesota Communities</b>	<p>Since 2011, Minnesota communities have experienced severe weather and other disasters – causing \$310 million in damage to public infrastructure. These incidents have resulted in 9 federal disaster and 32 state disaster declarations.</p> <p>In 2014, Governor Dayton signed legislation establishing the State Disaster Assistance Contingency Account to assist local communities after a natural disaster without a special session, even when federal aid is not available.</p>

The legislation also directs the state to cover the full Federal Emergency Management Agency (FEMA) funding match for local governments in federally declared disasters.

Aid from the contingency account will reimburse counties for public infrastructure repairs and clean-up costs. Under Minnesota law, the state will reimburse 75 percent of eligible costs for public infrastructure repairs and clean-up, with local governments responsible for covering the remaining 25 percent.

Between 2011 and 2018, Governor Dayton directed more than \$233 million in aid to eligible Minnesota communities and Tribal Governments. The creation of the State Disaster Assistance Contingency Account in 2014 has helped to avoid the use of special sessions to approve aid – saving money and helping get aid to communities more quickly.

Year	Community	Assistance Authorized
2018	Faribault, Goodhue, Le Sueur, Martin, Prairie Island Indian Community, Renville, Rice, Steele, Waseca	\$3,652,805
2018	Cook County	\$95,801
2018	Aitkin County	\$96,131
2018	Houston and Koochiching Counties	\$585,568
2018	Aitkin, Beltrami, Blue Earth, Brown, Carlton, Cass, Clearwater, Cottonwood, Faribault, Itasca, Jackson, Koochiching, Lake, Lyon, Martin, Murray, Nicollet, Nobles, Pine, Pipestone, Polk, Redwood, Renville, Rock, St. Louis, Sibley, Watonwan, Leech Lake Band of Ojibwe, Red Lake Nation, White Earth Nation	\$5,438,832
2018	Fillmore and Red Lake Counties	\$200,730
2018	Ramsey County	\$766,770
2018	Lac qui Parle and Marshall Counties	\$192,466
2018	Nobles, Rock, and St. Louis Counties	\$1,094,697
2017	Redwood and Renville Counties	\$140,850
2017	Anoka County	\$522,387
2017	Becker, Clay, and Norman Counties	\$619,525
2017	Kittson County	\$95,025
2017	Freeborn County	\$45,860
2017	Redwood and Renville Counties	\$675,750
2017	Clearwater County	\$85,875
2017	Winona County	\$107,785
2017	St. Louis County	\$2,126,130
2017	Big Stone and Stevens Counties	\$45,125.63
2017	Cass and Crow Wing Counties	\$381,552
2016	Blue Earth and Nicollet Counties	\$687,314

		2016	Itasca County and Leech Lake Band of Ojibwe	\$85,200
		2016	Norman County	\$49,711
		2016	Chippewa County, Yellow Medicine County, and the Upper Sioux Community	\$259,191
		2016	Cass and Crow Wing Counties	\$281,707
		2016	Aitkin, Benton, Carlton, Crow Wing, Kanabec, Meeker, Mille Lacs, Morrison, Pine, and Traverse Counties	\$5,467,599
		2016	Aitkin, Beltrami, Cass, Clearwater, Lake, and St. Louis Counties, and for Bois Forte, Fond du Lac, and Leech Lake Tribal Communities	\$3,291,585
		2015	Beltrami, Blue Earth, Brown, Carver, Chippewa, Dakota, Dodge, Faribault, Freeborn, Hennepin, Jackson, Koochiching, La Qui Parle, Lake of the Woods, Le Sueur, Lyon, Marshall, Martin, McLeod, Morrison, Murray, Nicollet, Nobles, Pipestone, Ramsey, Redwood, Renville, Rice, Roseau, Rock, Scott, Sibley, Steele, Todd, Wadena, Waseca, Washington, Watonwan, Wright, and Yellow Medicine Counties. Tribal governments receiving funding include: Red Lake Band of Chippewa, Prairie Island Indian Community, Bois Forte Band of Chippewa.	\$17,300,000
		2013	Benton, Big Stone, Douglas, Faribault, Fillmore, Freeborn, Grant, Hennepin, Houston, McLeod, Morrison, Pope, Sibley, Stearns, Stevens, Swift, Traverse and Wilkin Counties	\$4,700,000
		2013	Nobles and Rock Counties, City of Worthington	\$219,141
		2012	Aitkin, Kandiyohi, Carlton, Lake, Cass, Meeker, Cook, Pine, Crow Wing, Rice, Dakota, St. Louis, Goodhue, Sibley, and Itasca Counties. Tribal governments receiving funding include: Fond du Lac Band of Lake Superior Chippewa, Grand Portage Band of Lake Superior Chippewa, and Mille Lacs Band of Ojibwe.	\$185,000,000
	<p>In addition to creating the State Disaster Assistance Contingency Account, Governor Dayton's Administration developed trainings and workshops for state and local emergency managers to better coordinate recovery efforts, surveyed local officials about how to improve state disaster response, overhauled the state's emergency</p>			

		<p>manager training program, and improved communications and coordination with Minnesota’s voluntary organizations.</p> <p>The Department of Public Safety also created a Community Recovery Specialist to assist communities recovering from the effects of disasters.</p>
<b>E.11</b>	<b>Eliminated Child and Vulnerable Adult Maltreatment Investigation Backlog</b>	<p>As part of Governor Dayton’s better government initiative, the Department of Human Services reformed the way it investigates allegations of maltreatment of vulnerable adults and children. In 2014, the agency implemented a paperless reporting system and other efficiencies. As a result, the Department of Human Services eliminated a backlog of 600 reports and now completes 90 percent of reports within 60 days as required by state law. Previously only 14 percent were completed on time.</p>
<b>E.12</b>	<b>Sentencing Reform for Low-Level Drug Offenders</b>	<p>Minnesota still has a relatively small prison population compared with other states. However, the state’s incarceration rate has spiked 150 percent over the past 25 years. This has put significant strain on Minnesota prison space and cost taxpayers billions in additional expenses.</p> <p>In 2016, the State of Minnesota implemented reforms that reduced sentences for certain low-level drug possession crimes. The state also created a new community justice reinvestment account to help fund community based programing. These reforms expected to reduce Minnesota’s prison population by about 600 long-term, reserving space for individuals who belong there and saving taxpayer’s money. This will reduce the state’s cost by about \$3 million each year.</p>
<b>E.13</b>	<b>Consolidated Metro Mobility Contracts to Improve Service and Save Money</b>	<p>Metro Mobility has 40,000 certified riders and provides rides to more than two million customers a year. With a rapidly growing customer base, Metro Mobility sought ways to save taxpayer dollars, better meet customer needs and accommodate growing ridership. In 2015, Metro Mobility consolidated its contract, which will save an estimated \$4 million annually in state expenses.</p>
<b>E.14</b>	<b>Provided Sustainable, Clean Drinking Water</b>	<p>Industries and the vast majority of homes in the Twin Cities metropolitan area are connected to one of the Metropolitan Council’s wastewater treatment plants through an extensive network of sewer pipes. The system’s seven treatment plants process some 260 million gallons of wastewater from 105</p>

		<p>communities; providing high-quality, cost-efficient service that protects public health and the environment.</p> <p>Under Governor Dayton’s leadership, the Metropolitan Council has worked to further enhance our nation-leading wastewater treatment network:</p> <ul style="list-style-type: none"> <li>• <b>Powered with Renewable Energy</b> – Reflecting Governor Dayton’s commitment to sustainability, the Metropolitan Council set the goal of purchasing 10 percent of its energy for wastewater treatment facilities from renewable source. To help meet this goal, the Council has installed solar arrays at its Blue Lake and Empire facilities.</li> <li>• <b>Created Stormwater Reuse Guide</b> – In 2011, the Metropolitan Council created a StormWater Reuse Guide to promote reuse of stormwater to help maintain the region’s abundant water supply. In 2015, the Council partnered with the St. Paul Saints to capture rainwater from a transit facility for irrigation of the ballfield and as water for some of the ballpark’s toilets.</li> </ul> <p>The success of this work has garnered national attention. In 2016, the region’s eight wastewater treatment plants, operated by Metropolitan Council Environmental Services, were recognized for their work in permit compliance.</p> <p>Six plants received a <i>Platinum Award</i> from the National Association of Clean Water for 100 percent compliance with their discharge permit requirements for five or more consecutive years.</p> <ul style="list-style-type: none"> <li>• Hastings – 26 years</li> <li>• St. Croix Valley – 25 years</li> <li>• Blue Lake – 11 years</li> <li>• Eagles Point – 11 years</li> <li>• Empire – 9 years</li> <li>• Metro – 5 years</li> </ul>
<p><b>E.15</b></p>	<p><b>Invested in Sustainable Energy Practices to Save \$16 Million and Improve Air Quality</b></p>	<p>Under Governor Dayton’s leadership, the state of Minnesota is proving that environmental protection and responsible stewardship go hand-in-hand.</p> <p>Following a comprehensive energy audit of its support facilities, Metro Transit invested more than \$10 million in energy-saving improvements, such as building automation systems, high-speed, insulated garage doors and energy-efficient lighting. More than \$16 million in savings has been realized since the initial facility improvements were made in 2009.</p>

		<p>Metro Transit also has installed solar arrays at two support buildings and two Park &amp; Rides and is purchasing solar energy through community solar gardens.</p> <p>Metro Transit’s fleet includes 134 hybrid-electric buses that have lower emissions and better fuel economy than standard diesel buses. Improvements in bus design and maintenance have also led to steady improvements in fuel conservation fleetwide.</p> <p>In recognition of these investments, Metro Transit received a Gold Level certification through American Public Transportation Association’s Sustainability Commitment program in 2014.</p>
<b>E.16</b>	<b>Created Online Rent Payment System, Saving \$450,000 per Year</b>	<p>In 2016 and 2017, the Metropolitan Council developed a new online system for rent assistance tenants and landlords that replaces a paper, in-person and mailing system.</p> <p>Tenants can fill out paperwork on-line, communicate with their caseworker and find out rent portions electronically. Landlords can login into their account and find the status of a housing inspection, view rent payments or communicate electronically with the HRA. This technology change replaces a paper system and in-person meetings, providing for service efficiency and budget savings.</p> <p>Thanks to these changes, the Metropolitan Council is saving an average of \$450,000 a year. The agency estimates that it will save approximately \$2.3 million during the first five years of the new system.</p>
<b>E.17</b>	<b>Redesigned State Websites to Improve Accessibility and User Experience</b>	<p>Under Governor Dayton’s leadership, state government was brought into the 21<sup>st</sup> century with more accessible websites, ways to access data and services online, and mobile-friendly tools. During the Dayton Administration, visits to <a href="http://www.mn.gov">www.mn.gov</a> increased from 1.1 million in 2012 to 18.9 million unique views in 2017. Unique views to DNR’s website, <a href="http://mndnr.gov">mndnr.gov</a>, increased nearly 70 percent, from 4.6 million unique views in 2011 to 7.8 million unique views in 2017. The website was totally overhauled in 2018 to make it even easier to use for Minnesotans. The new site design, provided by Minnesota IT Services (MNIT), makes it easier, faster and more intuitive for visitors to get the information they’re looking for.</p> <p>In 2014, Governor Dayton issued an executive order directing state agencies to use plain language to improve communications between government and Minnesotans. As part of the plain language initiative, the Dayton Administration led efforts to redesign state websites to improve user experience, ease of navigation, accessibility, and make it easier to implement upgrades in the future.</p>

		<ul style="list-style-type: none"> <li>• <b>Rebranded Agency Websites</b> – In 2017, 22 state agency websites adopted the new Unified Minnesota brand – creating a cohesive look for consumers and state employees conducting business with the State of Minnesota online.</li> <li>• <b>Redesigned DNR Website</b> – In 2017 and 2018, the Minnesota Department of Natural Resources redesigned its website and upgraded its platform to make it more user-friendly. The new website is mobile friendly and allows Minnesotans to use interactive maps, access fishing and hunting regulations, buy licenses and park passes, and view up-to-date information about park, lake access, and trail conditions. Other features include:</li> <li>• <b>ParkFinder Tool</b> – A new online trip-planning tool, ParkFinder, added to the Parks and Trails website in 2014, allows Minnesotans to search by park feature (e.g. camping or kayak rental) to see which Minnesota state parks have those amenities.</li> <li>• <b>Virtual Tours</b> – Virtual tours of all Minnesota state parks and trails have been created over the past eight years. The tours are designed to help Minnesotans with trip-planning. Most of the tours feature 360-degree, interactive panoramic photos; some also include video.</li> <li>• <b>Online Campsite Reservations and Park Passes</b> – in 2016, expanded the range of services available online, so that same-day reservations can now be made online or at self-service kiosks in the parks, without a reservation fee. Visitors also can now get daily and annual state park permits online, saving time for both staff and visitors. These reforms earned a State Government Innovation Award.</li> </ul>
<p><b>E.18</b></p>	<p><b>Saved Minnesota Taxpayers \$105 Million Through IT Consolidation and Reform</b></p>	<p>Technology is a ubiquitous part of modern life, and Minnesotans increasingly expect government to deliver services online just like other institutions and businesses.</p> <p>Under Governor Dayton’s leadership, the state of Minnesota reformed how it delivers technology to improve experiences for consumers and save money. In 2011, the Office of Enterprise Technology was transformed into Minnesota IT Services, a state department charged with managing technology across state government and protecting information, including personal information of citizens, from cyber-attack.</p>

		<p>Thanks to this consolidation, the Dayton Administration reduced the state’s data center footprint by more than 50 percent, making Minnesota more secure, while saving taxpayer money. In addition, Minnesota IT Services is able to leverage economies of scale to reduce technology purchasing costs. These reforms have saved taxpayers approximately \$15 million a year, or \$90 million in total.</p>
<b>E.19</b>	<b>Modernized IRRRB Grant Management Software</b>	<p>Iron Range Resources &amp; Rehabilitation’s Grants Office implemented a new grants management software, called FLUXX. FLUXX has moved the agency from paper applications to efficient, standardized electronic applications that support real time interaction with customers. Now 100 percent of all agency grant program applications, reimbursement requests, correspondence and reports are filed electronically through this system.</p> <p>Applicants have found many benefits, including the ability to apply for grants, track grant progress, and request grant reimbursements in a quick, efficient manner. In addition, the system allows the agency to electronically streamline grants management, provide timely communication to applicants about grant processes, and provide improved customer service.</p> <p>The agency has also implemented a new loan management software, called Portfol. Portfol is an internal business database which manages our business development loan transactions.</p>
<b>E.20</b>	<b>Continued “Toward Zero Deaths” Initiative That Has Helped Reduce Traffic Fatalities 40 Percent</b>	<p>Minnesota’s Toward Zero Deaths traffic safety initiative fosters a safe driving culture. It encourages motorists to practice and promote safe and smart driving behavior. The initiative focuses on educating motorists, enhanced enforcement, construction of safer roads and improved emergency response. Since 2003, Toward Zero Deaths helped reduce traffic-related deaths by 40 percent.</p> <p>In addition, Minnesota created additional fines for work zone speed limit convictions, strengthened driver education requirements and increased fines for texting and driving second offenses.</p>
<b>E.21</b>	<b>Implemented Reforms at the Department of Transportation that Saved \$217 Million</b>	<p>As Governor, Mark Dayton prioritized making government more efficient, effective, and accountable to the people it serves. Under his leadership, the Minnesota Department of Transportation implemented reforms that improved the efficiency of construction projects and project development. The agency also make reforms to its administration, maintenance and operations divisions. Overall, these reforms saved more than \$217 million since 2015. The funding saved through improved efficiency were then used to support additional road and bridge projects across the state.</p>

E.22	<p><b>Reduced Worker Compensation Claims at Department of Veteran Affairs by 12 Percent, Saving Taxpayers \$352,376</b></p>	<p>Improving worker safety has been a priority throughout Governor Dayton’s two terms. Since 2011, the Minnesota Department of Veterans Affairs strengthened its safety program intended to reduce slips, trips, and falls and reduce staff injuries at veterans’ homes. The agency has implemented a comprehensive incident review process to ensure timely corrective actions are taken in response to employee injuries/incidents.</p> <p>Thanks to these efforts, worker compensation claims have dropped 24 percent – from 141 claims in 2013 to 107 claims in 2017. In addition to improving employee safety, these reforms are saving taxpayers up to \$88,094 a year. Since 2013, a total of \$352,376 has been saved.</p>
E.23	<p><b>Ensured Veterans Homes Comply with Best Practices for High-Quality Care</b></p>	<p>In 2014, the Minneapolis Veterans Home completed the rigorous Centers for Medicare &amp; Medicaid Services (CMS) Certification process. In addition to implementing best practices and high standards of operations for skilled care, this certification allowed the Minnesota Department Veterans Affairs to receive additional federal revenues for veterans care.</p> <p>The agency also has started the certification process for the veterans homes in Luverne and Silver Bay, which will make additional federal funding available for veterans in those homes and ensure the homes are using best practices for care.</p>
E.24	<p><b>Implemented Reforms, Eliminated Taxpayer Subsidies for Combative Sports Commission</b></p>	<p>Governor Dayton signed legislation in 2012, directing the Department of Labor of Industry to undertake the regulation of boxing and mixed martial arts. Previously, regulation by the Combative Sports Commission had been inefficient and costly resulting in the need for General Fund subsidies. By allocating part time staff members more efficiently and eliminating duplicative regulation, operations have continued to be funded exclusively by fees from the 356 licensed professional and amateur mixed martial arts and boxing combatants and has saved \$80,000 per year since DLI assumed regulatory oversight.</p>
E.25	<p><b>Workers’ Compensation Modernization Program</b></p>	<p>In 2015, the Department of Labor and Industry adopted a plan to modernize its 20-year-old workers’ compensation database system. The plan was approved by the state’s Workers’ Compensation Advisory Council and \$16 million in funding was approved in 2015 Legislative Session. Implementation will begin 2018 with full implementation by the end of 2020</p> <p>The new system will collect needed information directly from stakeholders as data. The goal is to build a secure, accessible,</p>

		<p>supportable, cost-effective and stable web-based system that is flexible enough to respond to the present and future needs of the injured workers, the insurers, attorneys and others who rely on DLI to make sure the system operates fairly and to maintain complete and accurate records and files.</p>
<b>E.26</b>	<p><b>Increased Benefits for Injured Workers and Controlled Workers' Compensation Medical Administration Costs</b></p>	<p>In 2011, DLI proposed and both the Workers Compensation Advisory Council (WCAC) and legislature approved changes that had the effect of speeding up contested case hearings for injured workers at the Office of Administrative Hearings by 139 days.</p> <p>In 2013, the legislature passed DLI and WCAC changes that raised maximum indemnity benefits and cost of living adjustments for those injured. For the first time, coverage for on-the-job induced post-traumatic stress disorder (PTSD) was required. Limits were also placed on job development services, and DLI was given authority to require injured workers who are prescribed narcotics to enter pain contracts with their treating physician, which it did by rule in 2015.</p> <p>In 2016, the Department of Labor and Industry implemented a payment system for inpatient hospital care that controls costs by pegging payments to 200 percent of Medicare. This will save Minnesota's workers' compensation system an estimated \$8 to \$15 million a year, without cutting workers' benefits. The new system has increased the use of electronic billing and promptness of payment while reducing line-item denials and the number disputes involving hospitals.</p> <p>In 2018, the Department of Labor and Industry (DLI) implemented payment systems for outpatient hospital care and services provided by ambulatory surgical centers, and increased indemnity benefits for injured workers. The new payment systems will provide an estimated cost savings of \$10.8 million to the workers' compensation system. Certain first responder employees, such as firefighters and police, with a diagnosis of post-traumatic stress disorder will be presumed to be so due to the nature of their employment. DLI will be implementing treatment criteria for all workers suffering from PTSD using the expedited rulemaking process in section 14.389.</p>
<b>E.27</b>	<p><b>Cut Workers' Compensation Dispute Resolution Times in Half</b></p>	<p>In 2011, the Department of Labor and Industry worked with business, labor, insurers, and the workers' compensation bar to win passage of legislation that sped up the system's dispute resolution process. The goal was to cut in half the time needed to get to settlement conferences and hearings in contested cases at the Office of Administrative Hearings. Since then, the amount of time to first conference fell by 44 days (20 percent) and time to first hearing fell</p>

		by 104 days (27 percent), which has helped injured workers resolve their disputes faster.
<b>E.28</b>	<b>Enhanced Community Policing within the Metro Transit Police Department</b>	<p>During the Dayton Administration, the Metro Transit Police Department became one of the state’s largest and most diverse police agencies, with more than 100 full- and 90 part-time officers.</p> <p>The department was 95 percent white men in 2012. The department is almost 40 percent people of color and women. For example, in 2011 there were two full-time black officers. By 2018, the number of black officers had increased to 20 full-time officers.</p> <p>While calls for service have increased, crimes have declined. MTPD calls for service have increased by 226 percent over the past 5 years going from 21,000 in 2013 to 65,312 in 2017 and continuing to climb in 2018. We attribute this to the presence of beat officers encouraging reporting and Metro Transit Policy community outreach efforts that have reduced barriers to reporting. In addition, technology innovations such as Text for Safety system have allowed more citizens to reach out for police service.</p> <p>In 2013 and 2016, Metro Transit was recognized with a “Gold Standard” rating for its transit security program by the Transportation Security Administration. In 2018, MTPD was awarded the Gold award for the 2018 Super Bowl Transit operation by APTA.</p>
<b>E.29</b>	<b>Created Online Lender Search Tool that Helped More than 6,000 Minnesotans and Put Them on the Path to Homeownership</b>	<p>Under Governor Dayton’s leadership, the Minnesota Housing Finance Agency collaborated with partners from across the state to launch a new online lender search tool in 2016. The tool connects interested homebuyers with expert lenders. Since its launch in April 2016, the tool has had more than 71,000 visits and more than 6,000 inquiries to Minnesota Housing lender partners.</p>
<b>E.30</b>	<b>Coordinated Housing Inspections with Other Agencies Saving Time and Money</b>	<p>In 2015, the Minnesota Housing Finance Agency began coordinating rental licensing inspections with other local agency staff. This coordinated approach saves time and money for both the agency and the property owners who may be subject to multiple inspections by other lenders, investors, and local officials for the same properties. The tenants also experience less disruption in their homes and their daily life.</p> <p>In just the first year, the coordinated approach reduced the volume of inspections and the related costs by 15 percent. Since then, the agency has reduced that number an additional 7 percentage points –</p>

		for a total drop of 22 percent. This equates to a savings of nearly \$20,000.
<b>E.31</b>	<b>Worked Toward Ensuring all Rental Development Projects Close Within 12 Months</b>	The Minnesota Housing Finance Agency processes hundreds of millions of dollars' worth of housing development projects each year. In 2015, the agency revised its project development process to get projects in the ground and ready for residents faster. In 2016, the agency doubled the percentage of projects processed within 12 months from 50 percent to 100 percent.
<b>E.32</b>	<b>Developed User-Friendly Nursing Home Report Card Website</b>	<p>The Nursing Home Report Card (<a href="http://nhreportcard.dhs.mn.gov">nhreportcard.dhs.mn.gov</a>) helps consumers compare the quality of care in nursing homes across the state. When launched in 2006, it was the first of its kind in the nation to provide consumers with information on quality of life and resident satisfaction with individual nursing homes.</p> <p>In 2012, the Minnesota Department of Human Services developed an improved version of the website, which includes more detailed information on quality and more flexibility for consumers in selecting quality measures important to them.</p> <p>Other new features include the display of multiple facilities on the same screen to allow for comparisons, more than a year's worth of data for each facility, lists of facilities by city and links to Google Maps for locations and directions.</p> <p>The report card also includes rate data for each facility, bubbles explaining technical terms, bed capacity, ownership type, state inspection results and contact information. The site averages about 1,300 unique visitors a month or 15,500 annually.</p>
<b>E.33</b>	<b>Launched Program to Modernize and Streamline Technology at the Department of Human Services</b>	<p>The Minnesota Department of Human Services launched an effort in 2013 to improve many of the agency's most important business processes and systems, including those that support health care, child and family services, and chemical and mental health services.</p> <p>The agency's goal is to streamline currently fragmented service models and technologies to support person-centered, integrated services, develop stronger fraud prevention and enforcement tools, and to be more agile in responding to the changing needs of its clients and partners.</p>
<b>E.34</b>	<b>Enhanced Online Licensing Look-Up Tool</b>	In 2011, the Minnesota Department of Human Services significantly enhanced the online Licensing Look-Up so consumers can quickly access important health and safety information about child care providers, group homes for people with disabilities, and a range of

		<p>other services for children and vulnerable adults. This information had previously been the most frequently requested type of public information at the agency.</p> <p>In May 2018, information from monitoring visits to family child care providers was added and other improvements were made to increase transparency and provide information in plain language. More than 24,000 providers are listed and the site was visited more than 1.2 million times in state FY17.</p>
<b>E.35</b>	<b>Streamlined the Child Care Provider Application to Reduce Permitting Times by 27 Percent</b>	<p>The number of licensed family child care providers has decreased almost 30 percent since 2005. This problem is particularly acute in Greater Minnesota, where there is less access to child care centers. In 2015, the Minnesota Department of Human Services streamlined the process for processing child care provider licenses. Prior to the project, 31 percent of applications were completed within 120 days, with applications taking an average of 178 days to process.</p> <p>Before the continuous improvement process, the average time to complete the application was 183 days; now DHS is completing 87 percent of applications within 150 days and the new application is available online.</p>
<b>E.36</b>	<b>Streamlined Disability Eligibility Process to Save Money, Improve Service</b>	<p>Governor Dayton is committed to making government more efficient, effective, and accountable. Furthering that goal, the Department of Human Services worked to streamline the disability service eligibility process in 2014, which decides whether children and adults with serious physical and/or mental health impairments are eligible for certain types of assistance.</p> <p>Before the improvement process, it could take up to three to four weeks for a client to receive information. By creating fillable online forms, providing assistance filling out those forms over the phone, and only ordering evidence that is needed to make a decision directly from the client's providers, the amount of time to collect medical forms evidence and make a decision was reduced from an average of 54 days per case in 2013 to 39 days in 2014. This is a 27 percent improvement.</p>
<b>E.37</b>	<b>Created the Minnesota Business First Stop Program to Streamline Business Permitting Process</b>	<p>In 2012, Governor Dayton directed his Administration to create a single point of contact for individuals looking to start businesses or businesses seeking to expand in Minnesota.</p> <p>The Minnesota Business First Stop provides coordinated leadership and resources to develop, site or expand technology, renewable energy or clean technology businesses in the state. Businesses previously had to bounce from one agency to another to complete</p>

		<p>the permitting process, which made the undertaking confusing and take longer.</p> <p>Since its creation, the Business First Stop has contacted over 130 businesses and communities, supported the development of 1,230 new jobs, and secured more than \$100 million in private sector investment.</p>
<b>E.38</b>	<b>Implemented Reform 2020 Program</b>	<p>In 2013, Governor Dayton and the Minnesota Legislature restructured the delivery of services for older adults and people with disabilities. These changes are designed to expand consumer choice as well as consumer protections, improve outcomes, and meet the challenges of rising health care costs with a growing aging population. Since 2014 these changes have leveraged more than \$49 million in new federal funds, creating opportunities for investments in programs designed to expand consumer choice and protections and improve outcomes as well as meet the challenges of rising health care costs with a growing aging population.</p>
<b>E.39</b>	<b>Issued Permitting Reform Executive Order</b>	<p>In 2011, Governor Dayton worked with the Legislature to streamline the permit application process for Minnesota businesses. Those actions shortened the Minnesota Pollution Control Agency’s permit review process to a maximum of 150 days.</p> <p>In August of 2014, the MPCA announced that 99 percent of job-creating permits were being completed in 150 days or less. But Governor Dayton directed agencies to do even better. He signed into law a second goal to speed up turnaround to 90 days for the simplest job-creating permits. These improvements provide more certainty for businesses as they expand and create jobs, while preserving Minnesota’s strong environmental protections.</p>
<b>E.40</b>	<b>Made Further Job-Creating Permit Reforms</b>	<p>In 2017, Governor Dayton and the Minnesota Legislature made additional improvements to the permitting process to ensure that job-creating projects are not needlessly sidelined, while also protecting our natural resources. The legislation included the following reforms:</p> <ul style="list-style-type: none"> <li>• Required the Department of Natural Resources and Pollution Control Agency to provide a Tier 2 permit applicant with a schedule for issuing the permit and publish the notice within 150 days of receiving the completed application.</li> <li>• Required the Department of Natural Resources and Pollution Control Agency to provide a copy of the draft permit to the applicant and consider comments from the applicant prior to publishing the public notice.</li> </ul>

		<ul style="list-style-type: none"> <li>Modified provisions of the Department of Natural Resources and Pollution Control Agency's expedited permit review process, an initiative that allows permit applicants to accelerate the permitting process if they are willing to pay additional costs themselves. The modifications expanded the program to include the entire permitting process and required the Pollution Control Agency and Department of Natural Resources to provide cost estimates and a completion schedule for each task.</li> <li>Required rules to be adopted to allow a project proposer to prepare a draft Environmental Impact Statement.</li> </ul>
<b>E.41</b>	<b>Authorized Administrative Law Judges to Perform Marriages</b>	In 2012, Governor Dayton and the Minnesota Legislature authorized Office of Administrative Hearing (OAH) judges to perform marriages in Minnesota like other judges.
<b>E.42</b>	<b>Closed Pawnbroker Loophole</b>	Some companies were registering as industrial loan and thrift companies instead of as pawnbrokers, arguing that this allowed them to take possession of collateral (car titles) for loans without following any of the pawnbroker laws that restrict title lending. In 2013, Governor Dayton and the Minnesota Legislature closed this loophole by requiring any "title loan" company, however licensed, to follow the same rules that pawnbrokers must follow when they take possession of a car title in a pawn transaction.
<b>E.43</b>	<b>Closed Mortgage Loan Loophole</b>	An increasing number of predatory housing lenders were obtaining mortgage originator/servicer licenses solely to avoid regulations intended to eliminate their abuse of consumers. In 2013, Governor Dayton and the Minnesota Legislature closed this loophole by applying the consumer protection rules to licensed originators and servicers; legitimate originators' businesses are not affected by the change.
<b>E.44</b>	<b>Enhanced Penalties for Financial Exploitation of Vulnerable Adults</b>	In 2013, Governor Dayton and the Minnesota Legislature enhanced penalties for the financial exploitation of vulnerable adults. A provision was added to the Financial Exploitation of Vulnerable Adult statute to allow the value of the money, property or services received by the defendant within any 6-month period to be aggregated and subject to the penalties for this crime. The legislation also allows that when two or more offenses are committed by the same person in two or more counties, the accused may be prosecuted in any county in which one of the offenses was committed for all of the aggregated offenses.

E.45	<b>Enhanced Penalties for Assaulting a Transit Operator</b>	In 2013, Governor Dayton and the Minnesota Legislature established that a person is guilty of assault in the fourth degree (a gross misdemeanor) if they assault (or transfer bodily fluid onto) a transit operator when the transit operator is acting in the course of their duties. This includes transit operators of bus service, light rail service, commuter rail service, or other special transportation.
E.46	<b>Enacted Civil Asset Forfeiture Reform</b>	In 2014, Governor Dayton and the Minnesota Legislature enacted legislation to limit civil forfeiture to situation where the underlying offense is established by proof of a criminal conviction or admission of guilt for the following offenses: property associated with certain designated offenses including a controlled substance crime, and a motor vehicle used in a dangerous weapon crime.
E.47	<b>Prohibited Domestic Abusers from Possessing Firearms</b>	In 2014, Governor Dayton and the Minnesota Legislature enacted legislation to prohibit individual with a “criminal domestic abuse no contact order” or “civil domestic abuse order for protection” from possessing firearms. The gun owner does not give up ownership, only possession. These orders are typically issued for two years.
E.48	<b>Required Notification of Release Upon Request by Victim of Domestic Violence</b>	In 2014, Governor Dayton and the Minnesota Legislature enacted legislation directing the Department of Corrections to notify a victim of domestic violence of the city and zip code of where the offender will be living upon release from prison. All identifying information about the victim is classified as private data and is only accessible by the victim.
E.49	<b>Enacted Good Samaritan Immunity</b>	<p>In 2014, Governor Dayton and the Minnesota Legislature enacted legislation to provide civil and criminal immunity to individuals, including law enforcement, who administer life-saving opioid antidotes. Drug overdoses, especially from heroin and other opioids, are a major cause of preventable death in the United States.</p> <p>Medical assistance is often not sought by people or their companions experiencing drug overdoses for fear of being arrested for use, possession or other drug-related crimes. This legislation provides limited immunity from being charged or prosecuted for the possession, sharing or use of a controlled substance or for possession of drug paraphernalia when someone calls for emergency help in a life-threatening situation.</p>
E.50	<b>Authorized Medical Amnesty for Underage Drinkers</b>	In 2013, Governor Dayton and the Minnesota Legislature enacted legislation providing that a minor is not subject to prosecution for underage drinking or possession if they contact 911 to report that the

		<p>person or another person is in need of medical assistance for an immediate health or safety concern.</p> <p>The person who initiates the contact must be the first person to make such a report, provide their name and contact information, remain at the scene until assistance arrives, and cooperate with the authorities at the scene in order for this provision to apply. This immunity may apply to one or two persons acting in concert if all the requirements are met. The bill also provides immunity for the person receiving medical assistance.</p>
<b>E.51</b>	<b>Led Automobile Insurance Fraud Crackdown</b>	<p>In 2015, Governor Dayton and the Minnesota Legislature authorized the Commissioner of Commerce to impose administrative penalties on those involved in fraudulent behavior. In addition, any person convicted of insurance fraud under the automobile insurance chapter or of employment of runners is prohibited (for 5 years) from collecting medical benefits on their no-fault automobile insurance policy.</p>
<b>E.52</b>	<b>Cracked Down on Insurance Fraud</b>	<p>In 2017, Governor Dayton and the Minnesota Legislature worked together to pass legislation that allows the Minnesota Department of Commerce to order restitution to a company for the cost of an investigation in connection with insurance fraud. The law gives further identity protection to mandated fraud reporters working with the Commerce Fraud Bureau and ensures authority for applying and executing warrants to the Bureau’s agents as included in the definition of peace officers.</p>
<b>E.53</b>	<b>Created New Protections for Firefighters from Harmful Chemicals</b>	<p>In 2015, Governor Dayton and the Minnesota Legislature enacted legislation to begin the phase-out of the manufacture and sale of products for (or to be used by) children or upholstered residential furniture containing high levels of four flame retardant chemicals was passed.</p> <p>On or after July 1, 2018, the manufacture of products offered for sale for use as a children’s product or upholstered residential furniture containing the offending chemicals is prohibited. The prohibition extends to the sale of the same products by retailers on or after July 1, 2019. Food, beverages, dietary supplements, pharmaceuticals, certain toys and medical devices are excluded from the definition of “children’s product” in the bill.</p>
<b>E.54</b>	<b>Mandated Use of Carbon Monoxide Detectors on Certain Classes of Boats</b>	<p>Following the tragic death of 7-year-old Sophia Baechler, who died from carbon monoxide poisoning on boat on Lake Minnetonka, Governor Dayton and the Minnesota Legislature required that boats with enclosed cabins include carbon monoxide detectors. Baechler had been resting in the boat’s cabin where there was a hole in the exhaust</p>

		pipe. Minnesota became the first state to require carbon monoxide detectors on boats.
<b>E.55</b>	<b>Modernized Requirements for Proof of Auto Insurance</b>	Previously, proof of insurance was defined as an insurance identification card, written statement or insurance policy. In 2015, Governor Dayton and the Minnesota Legislature worked together to update state law to allow motorists to provide proof of insurance in an electronic format. The change allows law enforcement to accept electronic proof of insurance on a cellular phone or a portable electronic device. Many insurance companies now offer applications that can be downloaded to a smartphone or tablet.
<b>E.56</b>	<b>Cracked Down on Revenge Pornography</b>	<p>In 2016, Governor Dayton and the Minnesota Legislature enacted new legislation to crack down on a practice commonly referred to as revenge porn. Based on the recommendations of a working group, the legislation created creating a civil cause of action for distributing photos or videos of a person who is naked or engaged in a sex act to another person or who has solicited sex on behalf of another person.</p> <p>The legislation made the offense a gross misdemeanor punishable by not more than three years in jail and up to a \$5,000 fine. It also allows the court to award damages for specific damages and financial losses due to the distribution of the image, and damages for pain and suffering and mental anguish. The legislation also allows a damage award equal to the amount of profits made off of the distribution of an image, as well as an award for court costs, fees, and reasonable attorneys' fees. Finally, it allows the court to award a civil penalty to the plaintiff for an amount up to \$10,000.</p>
<b>E.57</b>	<b>Savings Incentive Programs Authorized</b>	In 2015, Governor Dayton and the Minnesota Legislature authorized promotional raffle programs designed to encourage people to make deposits into a qualified saving account at a participating credit union or bank. The legislation exempts such raffles from consumer protection statutes on prize notices and solicitations, and exempt from the prohibition on gambling.
<b>E.58</b>	<b>Authorized Presidential Primary</b>	In 2016, Governor Dayton signed a bill, passed by the Legislature, to move Minnesota to a presidential primary election – instead of caucuses – for the 2020 presidential elections. The election will be held on the first Tuesday in March, unless an alternative date is agreed upon by the leaders of all major political parties.
<b>E.59</b>	<b>Authorized Online Voter Registration</b>	In 2014, Governor Dayton and the Minnesota Legislature authorized individuals to register to vote and submit absentee ballot applications online with the Secretary of State's website. The Secretary of State

		must take steps to ensure that the website contains security measures necessary to prevent unauthorized access to data.
<b>E.60</b>	<b>Passed Legislation to Help Child Victims of Abuse Seek Damages as Adults</b>	<p>In 2013, Governor Dayton and the Minnesota Legislature enacted the Child Victim Act, which provides that an action for damages based on sexual abuse must be commenced within 6 years of the alleged abuse of someone 18 years or older. Actions for damages may be commenced at any time in the case of alleged sexual abuse of an individual under the age of 18. An action must be commenced before the plaintiff is 24 years of age in a claim against a natural person alleged to have sexually abused a minor if the alleged defendant was under the age of 14. The bill provides that claims based on vicarious liability must be brought within 6 years of the alleged abuse except when the plaintiff was under the age of 18 and then no later than the plaintiff's 24th birthday.</p> <p>The legislation provides a three-year window from the time of the effective date of the bill for individuals to bring forward current time-barred claims under this section. Prior to this legislation, state statute provided that any action for damages based on personal injury caused by sexual abuse must be commenced within 6 year from the time the plaintiff knew or had reason to know that the injury was caused by sexual abuse.</p> <p>The Minnesota Supreme Court interpreted the statute of limitations to begin running at the age of 18, thus putting a hard cap on any claims by the age of 24.</p>
<b>E.61</b>	<b>Enhanced School Bus Safety</b>	In 2012, Governor Dayton and the Minnesota Legislature enhanced school bus safety by requiring all school buses used in Minnesota that are manufactured after January 1, 2013, be equipped with a crossing control arm on the front right bumper.
<b>E.62</b>	<b>Created Stronger Protections for Police Dogs</b>	In 2011, Governor Dayton signed legislation that enhanced penalties for assaulting a police dog. The enhanced penalties were implemented after a criminal suspect repeatedly stabbed a Roseville police dog, leaving the animal permanently paralyzed.
<b>E.63</b>	<b>Improved Safety for Window Washers</b>	In 2012, Governor Dayton and the Minnesota Legislature amended the State Building Code to require that all new buildings (four stories or taller) include anchors on the roof to support suspended window cleaning personnel.
<b>E.64</b>	<b>Enhanced Penalties</b>	In 2016, Governor Dayton worked with the Legislature to increase penalties to a 15-year felony for vehicular homicide while intoxicated,

	<b>for Criminal Vehicular Homicide</b>	occurring within 10 years of a prior incident. A qualified prior driving offense under the law includes a prior conviction for a DWI, or criminal vehicular homicide or injury involving impairment.
<b>E.65</b>	<b>Cracked Down on Identity Theft</b>	In 2016, Governor Dayton and the Legislature extended the statute of limitations for large scale identity theft schemes from 3 years to 5 years, to better hold perpetrators of mass identity theft accountable.
<b>E.66</b>	<b>Increased Penalties for Attempted Child Exploitation</b>	In 2016, Governor Dayton signed a law, passed by the Legislature, to increase two felony penalties for attempting to exploit a child through prostitution. Under prior law, there was 20- year felony in cases where the victim was known to be under 13. The new penalties extended to include cases where the offender reasonably believed the victim was under that age.
<b>E.67</b>	<b>Invested \$7 Million in Voting Equipment Improvements</b>	In 2017, Governor Dayton and the Minnesota Legislature invested \$7 million in a grant program to help local governments replace aging electronic voting equipment.
<b>E.68</b>	<b>Automated Manual Processes and Reduced Paper Usage</b>	<p>The Minnesota Board of Medical Practice is charged with protecting the public's health and safety by assuring that” the people who practice medicine or as an allied health professional are competent, ethical practitioners with the necessary knowledge and skills appropriate to their title and role.” The Board has implemented a paperless meeting and document distribution system using secured iPads.</p> <p>Previously, documents were printed and couriered to Board member’s homes. The project streamlined the process of distributing important files to Board Members charged with protecting the public’s health and safety. It also ensures that documents are available to the Board quickly and enables the Board Members to rapidly view large files which ensure that they are able to fully review the file prior to meeting. Total estimated cost savings over three years is \$106,800.</p>
<b>E.69</b>	<b>Simplified Licensing Process for Food Business Entrepreneurs</b>	The Minnesota Department of Agriculture (MDA) Food Business Licensing and Food Safety Wizard is a web-based tool. The tool walks people through a series of simple questions presented in plain language to help them determine the proper type of license they need and the next steps for starting their new food business. The web-based licensing tool is multilingual – available in English, Spanish, Somali, and Hmong – and formatted to be accessible from any computer or mobile device connected to the internet.

		<ul style="list-style-type: none"> <li>• <b>Increased Access to Food Safety Information</b> – Food businesses are a popular entry point for entrepreneurs, especially for new Minnesota citizens. MDA has been struggling to meet the demand for educating entrepreneurs and getting them pointed in the right direction for their food licensing needs. These challenges are compounded when there is a language barrier. The wizard is an innovative solution to help Minnesotans navigate the laws and get key information prior to their initial meeting with an inspector to open their business.</li> <li>• <b>Increased Efficiency at MDA</b> – Historically, MDA’s inspectors would need to field these entrepreneurial inquiries in between conducting inspections. This often meant playing phone tag, creating delays and frustrations. MDA has partnered this web-based tool with a new staff position, a Licensing Liaison. Together, the tool and the liaison get people ready for that first licensing inspection with MDA inspectors much more quickly and easily. This saves time for the entrepreneurs and the inspectors.</li> <li>• <b>Public Awareness and Outreach</b> – After several rounds of testing with the MNIT@MDA project team, MDA staff and with native speakers of the various languages represented, MNIT rolled out the tool successfully. The web-based tool was launched in April 2017 and MDA has received very positive feedback. A Google Analytics report of the site showed over 10,000 visits to the site since the rollout, including almost 300 each in the Hmong, Somali and Spanish pages of the tool. MDA has been working with local community groups to get the word out about the application.</li> </ul> <p>For example, the African Development Center hosts entrepreneurship classes for Minnesotans who have recently emigrated from African countries. They will be using the MDA tool in their classes to help those interested in starting a food business. This web-based tool was the first of its kind at MDA and the agency has plans to expand the type of information provided in the tool to make it even more user friendly and helpful to the public.</p>
E.70	<p><b>Reduced Administrative Costs and Optimized Law Enforcement Data Entry</b></p>	<p>Real-time Office Activity Reporting (ROAR) is a web-based application. It allows law enforcement users to accurately and efficiently capture and report traffic stop information during federally funded overtime shifts. ROAR reduces the time needed to track grant activity for reporting and evaluation purposes. It is used by law enforcement throughout the state and by Office of Traffic Safety to perform administrative functions. Key features of the ROAR system include:</p> <ul style="list-style-type: none"> <li>• Reduces administrative costs by streamlining grant administration processes for grantees and grant managers</li> <li>• Electronically captures citation and warning information; allowing real time access to data and statistics</li> </ul>

		<ul style="list-style-type: none"> <li>• Provides reports used to evaluate grantee eligibility and performance at both an individual, agency, and grant level</li> <li>• Tracks grant activity and produces invoice reports used for law enforcement agency reimbursement</li> <li>• Promotes a paperless grant process</li> </ul> <p>Original version developed by St Paul Police Department (SPPD) to capture information for their own agency. DPS in partnership with MNIT expanded and updated the application to include administrative features for audits and reporting. The system serves users state-wide including over 300 law enforcement agencies. The first state-wide deployment was 10/1/2012. Application enhancements continue to be made, for example: requirements are being gathered for pedestrian safety enforcement.</p>
<p><b>E.71</b></p>	<p><b>Used Technology to Match Job Seekers with Employers</b></p>	<p>Launched in 2014 and 2017 with an updated system, Workforce One (WF1) is a web-based case management application used by 2,000 state, city, county, and non-profit employees to track services to more than 100,000 customers across Minnesota’s county offices, Workforce Centers, and Rehabilitation Services Offices. Minnesota IT Services created WF1 through a partnership of two Minnesota state agencies – the Department of Human Services (DHS) and the Department of Employment and Economic Development (DEED).</p> <p>As part of Minnesota IT Services partnering with DEED and DHS, the WF1 Team at Minnesota IT Services created a custom-built, innovative, accessible, and secure case management system over the course of the multi-year agile project. WF1 includes the following improvements as a result of these projects:</p> <ul style="list-style-type: none"> <li>• Case managers use Talent Pool Search and Work Preferences in conjunction to match up job requests from employers with job seekers who are getting services, getting customers a job faster</li> <li>• Electronic Document Storage functionality allows case managers to upload the documents that would typically be part of a customer’s paper case file, increasing visibility to customer needs and saving on the cost of storing and shipping paper files</li> <li>• Connections to other systems such as SWIFT (The State of Minnesota’s accounting system) Minnesota Works.net (Minnesota’s job bank), Unemployment Insurance, and Minnesota Department of Human Services’ public assistance eligibility system (known as MAXIS) which provide necessary insight into services, allow for program coordination, and save staff time and program funding</li> <li>• Streamlined state and federal programs and reporting to avoid duplicate data entry and errors, while still maintaining fiscal accountability</li> </ul>

		<ul style="list-style-type: none"> <li>• Online employment plans that allow case managers to document the barriers a customer is facing and how they intend to address them</li> <li>• Accessibility for reader and dictation software (WF1 is Web Content Accessibility Guidelines 2.0. Level AA compliant)</li> </ul> <p>Through our effort to be transparent and accountable, the WF1 Team of Minnesota IT Services employees and the Product Owner at DEED worked closely with our funders and key stakeholders to ensure that the WF1 projects launched on time and on or under budget. The 2014 launch was under budget and the 2017 launch was on budget.</p> <p>A 2018 Customer Satisfaction Survey of WF1 users and stakeholders revealed that 98 percent expressed that WF1 is valuable to the work they do and 93 percent indicated that the new WF1 enhances their efficiency in doing their jobs. Minnesota IT Services continues to maintain WF1 and has released more than 500 improvements since the 2017 launch.</p>
E.72	<p><b>Provided the Public with Timely and Accurate Information to Simplify Their Vacation Planning</b></p>	<p>By developing a responsive website in 2014, Explore Minnesota made information easily accessible on computers, tablets and mobile devices. Since July 2017, 67 percent of traffic to exploreminnesota.com has come from tablets and mobile devices. Having a responsive website allows the traveling public to access information in real time from any device.</p> <p>ExploreMinnesota.com is a one-stop shop where travelers can find lodging, attractions, events, and dining in addition to travel ideas on a single website, rather than having to visit multiple sites or wait for print materials to arrive in the mail saving them time.</p> <p>At no expense to the consumer, we provide travelers with information in their requested format. Since July 2017, our website has served over 1.8 million users. Our website also promotes economic development by giving qualifying Minnesota businesses (lodging properties, attractions, restaurants, etc.) a free listing and added exposure to travelers.</p>
E.73	<p><b>Created TransparencyMN Website to Provide Checkbook-level Information on Government to the Public</b></p>	<p>Minnesota Management and Budget operates TransparencyMN, a website that provides checkbook-level information on government spending to the public. TransparencyMN contains information on state agency budgets and payments, state employee salary information, information on Minnesota tax expenditures, state agency audits, state financial reports, and information on local government and school district finances.</p> <p>Since the site's launch, multiple innovative features and datasets have been added to give the public more (and easier) access to monitor how</p>

		<p>Minnesota allocates resources. Visualization tools including maps, graphs, and a taxpayer “receipt” that explains how a citizen’s tax dollar is distributed to different state spending functions. Unlike other states that use transparency portals simply to make data available, TransparencyMN focuses on creating a useful and engaging experience for the public. TransparencyMN was even recognized by United States Public Research Group for providing transparency in government spending in a way viewers could understand.</p> <p>TransparencyMN uses a robust business intelligence tool to make complex financial information understandable to citizens. It provides citizens with information on how their tax dollars are being spent in a concise and user friendly format. The information is updated daily to provide citizens with timely information on state budgeting and spending. The site greatly reduces the amount of time a citizen invests to have insight into state data without the need of a formal public data request. Often from a week or more to a few minutes. This effort has saved both the citizens and the state time and money that would otherwise been spent in both requesting and fulfilling many types of inquiries.</p>
<p><b>E.76</b></p>	<p><b>Improved the Management of Newborn Screening Information and Provided Faster Response to Requests for Information</b></p>	<p>The Minnesota Department of Health’s Newborn Screening Program had a successful collaboration with MN.IT staff to purchase and implement a new laboratory information management system (LIMS) by Neometrics (Natus). Moving to this new system was a smooth transition with no service interruption.</p> <p>As part of this project, the program also implemented an online portal known as SRV (secure remote viewer) for physicians, midwives, clinics, and hospitals to view and obtain patient results. The new process reduces the amount of time from the date of the screening results to the date that report is received by the submitter. It also assists the submitter with knowing the status of a specimen sent to the newborn screening laboratory, which allows facilities to meet a regulatory requirement set by their licensing body, the College of American Pathologists (CAP). They are able to see if we have received a specimen, if it has results pending, or if results have been completed. Users are able to download a pdf report that can be scanned into the patient’s electronic medical record.</p> <p>With the implementation of the Natus LIMS, MDH staff time has been reduced by not having to respond to individual requests for reports. The system has allowed expedited addition of screening for new disorders, which now only takes a few weeks rather than over 3 months with our previous LIMS.</p> <p>The MDH was able to reduce costs in several areas. The MDH no longer needs to mail the paper screening reports to the submitter, which today saves the program \$600 per month on postage and \$400 per</p>

		<p>year on faxing. These savings will increase as more facilities complete the on-boarding process. MDH was also able to sunset the communication tool IBM Lotus QuickR program for specialist referral and diagnostic follow-up which saves the program an additional \$20,000 per year.</p> <p>This new system is faster and offers many benefits that were not possible with the old system. Internal and external users have been extremely pleased with the transition to a new LIMS.</p> <p>The project kicked off in the Spring of 2014 which included requirements gathering and RFP work. The system was fully implemented and project closed by December 2016.</p>
E. 77	<b>Revised Minnesota Law to Increase Driving Restrictions Following a DWI Offense</b>	<p>In 2018, Governor Dayton and the Minnesota Legislature enacted legislation to increase driving restrictions for individuals convicted of driving while intoxicated in a highway-licensed vehicle. Individuals convicted of DWI will lose their driver's license and be prohibited from operating motor vehicles, including all-terrain vehicles, motorboats and snowmobiles. Before this legislation, people with DWI convictions could legally operate ATVs, motorboats, and snowmobiles.</p>
E.78	<b>Delivered Text-to-911 Service Statewide to Ensure Alternative Options for Safety in Emergency Situations</b>	<p>Under Governor Dayton's leadership, the Department of Public Safety developed a Text-to-911 service on Minnesota's Next Generation 911 network. In 2017, the service was made available throughout the state.</p> <p>By connecting Minnesotans directly with an operator via text messaging, Text-to-911 provides individuals a valuable alternative to contact emergency services if it is too dangerous to speak during an emergency. Additionally, the service provides a direct lifeline to emergency services for the 20 percent of Minnesotans with some form of hearing loss. People have also utilized the service when signal strength was lacking or when their microphones/speakers were inoperable.</p> <p>Since the program's deployment in December 2017, dispatchers have received more than 4,500 texts, averaging 375 texts per month.</p>

<b>CATEGORY F: Diversity and Inclusion</b>		
<b>#</b>	<b>Accomplishment</b>	<b>Description</b>
F.1	<b>Worked to Build a State Workforce that Reflects the Diversity of Minnesota</b>	Governor Dayton made building a state workforce that reflects the diversity of Minnesota a significant priority for his Administration.

		<p>In 2014, Governor Dayton issued Executive Order 14-14, which directed all state government agencies to increase their employment of Minnesotans with disabilities. To reach this goal, Minnesota state agencies implemented a training programs for hiring managers and human resources personnel, set clear goals and benchmarks for hiring, promoted employment opportunities for individuals with disabilities, and created new support programs for workers with disabilities to improve retention.</p> <p>In 2015, Governor Dayton signed Executive Order 15-02, which established the Diversity and Inclusion Council to improve the recruiting and retention of state employees from diverse backgrounds, improve the contracting process for businesses owned by Minnesotans from diverse backgrounds, and promote civic engagement in the State of Minnesota. The council focused its work in three areas:</p> <ul style="list-style-type: none"> <li>• The Council provided recommendations that will improve the recruiting, retention, and promotion of state employees from diverse backgrounds</li> <li>• The Council provided recommendations to improve the contracting process with business owned by Minnesotans from diverse backgrounds</li> <li>• The Council provided recommendations to improve civic engagement with diverse communities.</li> </ul> <p>In 2016, Governor Dayton announced a goal to ensure that 20 percent of the state workforce was comprised of people of color by 2019.</p> <p>Thanks to these efforts Minnesota has significantly improved state workforce diversity, better reflecting the richness of the people state government serves. When Governor Dayton took office, 8.1 percent of state employees were people of color. By 2018, 13.1 percent of state employees were people of color, a 62 percent increase. Similarly, 4.6 percent of state employees were people with disabilities in 2011. In 2018, 7.2 percent of state employees were people with disabilities.</p>
<p><b>F.2</b></p>	<p><b>Increased Racial Diversity of Minnesota’s Judges by 104 Percent, Gender Diversity by 47 Percent</b></p>	<p>As Governor, Mark Dayton appointed 174 new judges to fill vacancies in Minnesota’s ten judicial districts, the Court of Appeals, and the Minnesota Supreme Court. In making these appointments, Dayton was mindful of improving diversity on the bench – helping ensure that the state’s judges better-reflect the cultural, racial, and gender diversity of the Minnesotans they</p>

		<p>serve. Those intentional efforts have greatly improved diversity in Minnesota’s Judicial Branch.</p> <ul style="list-style-type: none"> <li>• <b>104 Percent</b> – Governor Dayton has increased the racial diversity of Minnesota’s judges by 104 percent</li> <li>• <b>82 Percent</b> – Governor Dayton has appointed 82 percent of all Hispanic judges in Minnesota (9 of 11 judges)</li> <li>• <b>47 Percent</b> – Governor Dayton has increased the proportion of female judges in Minnesota by 47 percent</li> <li>• <b>90 Percent</b> – Governor Dayton has increased the proportion of female judges in Greater Minnesota by 90 percent</li> <li>• <b>157 Percent</b> – Governor Dayton has increased diversity in the 4th District (Hennepin County) by 157 percent</li> </ul> <p>Governor Dayton appointed the first Hispanic appellate court judge in Minnesota’s history (Hon. Peter Reyes). He also appointed the first Hmong judge in Minnesota (Hon. Sophia Vuelo).</p> <p>Governor Dayton appointed the first African American female to the Minnesota Supreme Court (Justice Wilhelmina Wright). Since Justice Page was first elected, Justice Wright also was technically the first African American appointed to the Supreme Court. He also appointed the first openly gay justice, Justice Margaret H. Chutich.</p> <p>In addition, Governor Dayton appointed the first Native American woman to the Minnesota Supreme Court, also the first to any state’s highest court. Governor Dayton’s appointment of Justice Anne McKeig to the Minnesota Supreme Court also created a female-majority on the court for the first time since 1991.</p>
<p><b>F.3</b></p>	<p><b>Increased Diversity of Minnesota Board and Commissions by 98 Percent</b></p>	<p>Since 2011, Governor Dayton has made nearly 3,000 appointments to Minnesota’s boards and commissions. In making these appointments, Governor Dayton has worked to improve the diversity of these boards – helping ensure that these organizations better reflect the people who live in our state.</p> <p>In making these appointments, Governor Dayton’s Administration has collaborated with a wide-range of partners, including the African American Leadership Forum, Coalition of Asian American Leaders, Latino LEAD, the Tiwahe Foundation, Nexus Community Partners, and other community and business leaders.</p>

		<ul style="list-style-type: none"> <li>● <b>98 Percent</b> – Governor Dayton has increased the racial diversity of Minnesota’s boards and commissions by 98 percent. <ul style="list-style-type: none"> <li>○ <b>122 Percent</b> – Governor Dayton has increased the proportion of Asian/Pacific Islander board members by 122 percent.</li> <li>○ <b>120 Percent</b> – Governor Dayton has increased the proportion of African American board members by 120 percent.</li> <li>○ <b>65 Percent</b> – Governor Dayton has increased the proportion of Native American board members by 65 percent.</li> <li>○ <b>5 Percent</b> – Governor Dayton has increased the proportion of Hispanic board members by 5 percent.</li> </ul> </li> <li>● <b>47 percent</b> – Nearly 47 percent of Governor Dayton’s appointees have been women.</li> </ul>
<p><b>F.4</b></p>	<p><b>Developed and Implemented a Comprehensive Strategy to Improve Outcomes for Minnesotans with Disabilities</b></p>	<p>In January 2013, Governor Mark Dayton issued Executive Order 13-01 establishing a Subcabinet to develop and implement a comprehensive plan supporting freedom of choice and opportunity for people with disabilities. The Olmstead Subcabinet includes the commissioner or commissioner’s designee from a number of State agencies as well as representatives from pertinent State entities. The Subcabinet includes the following:</p> <ul style="list-style-type: none"> <li>● Department of Corrections</li> <li>● Department of Education</li> <li>● Department of Employment and Economic Development</li> <li>● Department of Health</li> <li>● Department of Human Rights</li> <li>● Department of Human Services</li> <li>● Department of Transportation</li> <li>● Minnesota Housing Finance Agency</li> <li>● Office of the Ombudsman for Mental Health and Developmental Disabilities</li> <li>● Governor’s Council on Developmental Disabilities</li> </ul> <p>In January 2015, Governor Dayton issued Executive Order 15-03 which further defined the role and nature of the Olmstead Subcabinet and the Olmstead Implementation Office (OIO). He subsequently designated Commissioner Mary Tingerthal of the Minnesota Housing Finance Agency to be the chair of the Subcabinet.</p>

		<p>To make the promise of Olmstead a reality in Minnesota, the Subcabinet has adopted a vision statement to guide the implementation of the Plan:</p> <p><b>People with disabilities are living, learning, working, and enjoying life in the most integrated setting.</b> There have been four major phases in the development of the current Olmstead Plan:</p> <ul style="list-style-type: none"> <li>• The development of the August 2015 Olmstead Plan approved by the Court on September 29, 2015</li> <li>• The June 2016 Plan amendment incorporating additional goals and strategies</li> <li>• The first annual Plan review and amendment process resulting in the February 2017 Plan</li> <li>• The second annual Plan review and amendment process resulting in the <a href="#">March 2018 Plan</a></li> </ul> <p>The Minnesota Olmstead Plan is organized into topic areas and goals that cover different aspects of improving the quality of life for people with disabilities. Key topic areas are included below along with the vision statement, key strategies being implemented to accomplish the goals, and some outcomes through February 2018.</p> <ul style="list-style-type: none"> <li>• <b>Improved Employment Opportunities</b> – People with disabilities should have choices for competitive, meaningful, and sustained employment in the most integrated setting. Since setting this goal, the State of Minnesota has worked to ensure that people with disabilities are connected to work opportunities before being provided services in segregated settings. Minnesota also has worked to implement reforms that improve access to competitive, integrated employment. Thanks to these efforts, the number of Minnesotans with disabilities working in competitive settings has increased more than 120 percent – from 9,654 people in 2014 to more than 21,300 today.</li> <li>• <b>Better Housing Choices</b> – People with disabilities should be able to choose where they live, with whom, and in what type of housing. Since setting this goal, the State of Minnesota has worked to create more affordable housing, provide greater choice to people with disabilities, and reform housing funding to support the development of integrated housing models. Since 2014, approximately 2,590 people with disabilities have secured integrated housing and Minnesota Housing has financed the construction of over 2,500 new rental homes. In addition, Bridges, a program that provides rental assistance for</li> </ul>
--	--	--

		<p>people with a mental illness, has seen a 20 percent increase in the number of households served from 704 households in 2014 to 882 in 2017.</p> <ul style="list-style-type: none"> <li>• <b>Access to Transportation</b> – People with disabilities should have access to reliable, cost-effective, and accessible transportation choices that support the essential elements of life such as employment, housing, education, and social connections. Since 2014, the State of Minnesota has worked to improve access to public transportation for people with disabilities and increase the number of accessibility improvements as part of public works projects. Thanks to these efforts, 3,748 curb ramp improvements have been completed, 574 accessible pedestrian signals have been installed, and more than 30 miles of sidewalks have been improved. In addition, public transit services have increased by 21 percent since 2014.</li> <li>• <b>Transition Supports and Services</b> – People with disabilities of all ages should experience meaningful, inclusive, and integrated lives in their communities, supported by an array of services and supports appropriate to their needs and that they choose. Under Governor Dayton’s leadership, the State of Minnesota has worked provide opportunities for people with disabilities to choose where and with whom they live, work, go to school, and are integrated into their community. Since 2014, an additional 6,255 people with disabilities have moved from segregated settings to more integrated settings. In addition, a pilot project was created in 2017 to streamline the application process for high risk incarcerated adults to support a successful transition to community.</li> <li>• <b>Inclusive Educational Options</b> – People with disabilities should experience an inclusive education system at all levels and lifelong learning opportunities that enable the full development of individual talents, interests, creativity, and mental and physical abilities. Under Governor Dayton’s leadership, the State of Minnesota has worked to expand the use of Positive Behavioral Interventions and Supports, which improves the school district’s capacity to reduce use of aversive treatment. Minnesota also has implemented strategies to support student access to integrated education through professional development, technical assistance, provision of assistive technology to students with disabilities and access to qualified educators. In addition, the state has utilized proven strategies that result in improvement in graduation rates for students with disabilities and improved reintegration for students with</li> </ul>
--	--	---

		<p>disabilities exiting juvenile correctional facilities and returning to their resident schools.</p> <ul style="list-style-type: none"> <li> <p><b>Coordinated Health Care Systems</b> – People with disabilities, regardless of their age, type of disability, or place of residence, should have access to a coordinated system of health services that meets individual needs, supports good health, prevents secondary conditions, and ensures the opportunity for a satisfying and meaningful life. The State of Minnesota has worked to improve access to health care for people with disabilities through the expansion of health care homes and behavioral health homes. The state also implemented strategies to improve access to dental services for people with disabilities.</p> <p>Thanks to these efforts, there are 57 new health care homes in Minnesota, which utilize a patient-centered care delivery model, since 2013. There are now a total of 371 health care clinics serving 70 percent of Minnesota counties. The geographic distribution of clinics throughout the state ensures access to patient centered, coordinated care for an estimated 3.9 million Minnesota residents, including people with disabilities.</p> </li> <li> <p><b>Meaningful Community Engagement</b> – People with disabilities should have the opportunity to fully engage in their community and connect with others in ways that are meaningful and aligned with their personal choices and desires. Under Governor Dayton’s leadership, the State of Minnesota has worked to increase the number of leadership opportunities for people with disabilities and ensure people with disabilities are given an opportunity to provide input on public projects. During 2016, twelve self-advocates graduated from a “Leading Transportation Access” training. This leadership training helped them gain knowledge and develop skills to advocate effectively for accessible transportation and public infrastructure in the Twin Cities Metro Area.</p> <p>During 2017, the Olmstead Community Engagement Workgroup was convened. The Workgroup was composed of leaders and advocates with and without disabilities. They provided recommendations to the Olmstead Subcabinet on how state agencies can improve public input, communications and community engagement with diverse communities with disabilities. In fall 2017, seven information sessions were held to recruit more people with disabilities, LGBT individuals, and people of color to Governor-appointed Boards and Commissions. In spring 2018, training was held for members and staff of Governor-</p> </li> </ul>
--	--	---

appointed Boards and Commissions on “Creating More Accessible and Inclusive Boards and Commissions.”

- Began Conducting Quality of Life Surveys** – The Olmstead Subcabinet directed the implementation of a longitudinal quality of life survey. The purpose was to measure the impact of the Olmstead Plan on individual’s quality of life. The initial Quality of Life baseline survey was implemented in 2017. It was based upon a face-to-face meeting between a person with a disability and a surveyor. The baseline survey report was completed in March 2018 and included a sample of more than 2,000 respondents. This survey report provided important baseline data against which future surveys results can be measured. It is expected that subsequent Quality of Life surveys will be conducted two or three times during the following three years to measure changes from the baseline. The results of each Quality of Life survey will be shared with the Subcabinet and State agencies that are implementing the Plan so that they can evaluate whether changes should be made in these activities. The results of each annual Quality of Life survey will also be shared with the public including people with disabilities and their supporters.
- Awarded Disability Services Innovation Grants** – Under the leadership of Governor Dayton, the Minnesota Department of Human Services allocated funding for an innovation grant program to support community organizations’ efforts to improve outcomes for people with disabilities. Funded projects include new ways to help people with disabilities achieve competitive employment, live in integrated settings, and better connect with others in their community. In 2017, the Department of Human Services awarded \$1.8 million in grant funding to ten recipients. In 2018, the Department of Human Services awarded an additional \$2.6 million in grant funding as of August.

Disability Services Innovations Grant Recipients			
2017	The Arc Minnesota	\$350,000	Funded statewide employment training and capacity building initiative, “A Working Life Alliance.”
2017	Centers for Independent Living	\$149,962	Supported civic engagement training and a mentoring program to help 120 people with disabilities practice self-advocacy.

		2017	Altair Accountable Care Organization	\$150,000	Assisted 50 individuals in developing a Life Plan through Altair Accountable Care Organization, whose goal is to increase the number of people with disabilities working in competitive jobs, living in integrated settings, and having valued roles in their community.
		2017	Community Involvement Programs in Minneapolis	\$129,576	Funded training and technical assistance for 36 people with disabilities to direct their own support and services, in order to gain competitive employment.
		2017	Kaposia	\$174,000	Helped support Little Canada-based Kaposia secure competitive employment for people with disabilities. The funding assisted partnership with two Twin Cities school districts to establish competitive employment for students with disabilities upon leaving high school.
		2017	Lifetrack Resources	\$185,900	Supported the Saint Paul-based organization in its goal to secure competitive employment for refugees and immigrants with disabilities and mental illnesses.
		2017	Midwest Special Services (MSS)	\$131,170	Funded the organization's St. Paul facility conversion to a community center for employment and

				art training, and other resources for people with disabilities.	
		2017	RISE	\$150,000	Supported the “Work is for Everyone” program in St. Paul and Minneapolis. The program placed 32 people with disabilities in competitive employment.
		2017	STAR Services	\$139,731	Assisted six agencies with planning services and trainings focused on person-centered practices. The organization also used funding to provide training for organizations on community inclusion.
		2017	Touchstone Mental Health	\$219,373	Supported the organization’s mission to assist people with disabilities in maintaining housing while experiencing a mental health crisis or psychiatric hospitalization.
		2018	Guild Employment Services	\$283,470	Enables the organization’s mission to assist youth with disabilities’ transition into employment, and adults with disabilities’ transition into competitive jobs.
		2018	Interact Center	\$391,433	Assists the organization in helping artists with disabilities market original artwork online, and in both Minnesota and national galleries. The “Proclaiming Our Place” program helps artists earn income

					through the sale of their artwork.
		2018	Institutes for Community Inclusion	\$560,000	Supports people with disabilities achieve competitive employment through partnerships with the University of Minnesota and the University of Massachusetts Boston.
		2018	Opportunity Partners	\$293,035	Supports this agency's ability to provide mentors to people with disabilities interning at Twin Cities businesses.
		2018	RISE	\$294,000	Supports the organization's "Let's Get to Work" program and places young adults in paying jobs with people who do not have disabilities.
		2018	Rochester Public Schools	\$264,927	Supports the school system's "Launching Emerging Adults" program, which provides resources to young people whose needs are not met through traditional programs.
		2018	Touchstone Mental Health	\$235,040	Allows the Minneapolis-based organization to help people find housing of their choice and gain employment. The grant funding supports the cost of housing deposits, moving fees, and apartment set-up.
<b>F.5</b>	<b>Made Historic Investments in Strategies to Close Economic</b>	Governor Dayton directed his administration to tackle racial and economic disparities between white Minnesotans and Minnesotans of color. Under his leadership, the unemployment			

	<p><b>Disparities Between White Minnesotans and Minnesotans of Color</b></p>	<p>rate for African Americans and Hispanic/Latino Minnesotans dropped 72 percent and 64percent respectively.</p> <p>In 2015, Governor Dayton’s Administration created the Office of Economic Equity and Opportunity to lead efforts to achieve economic equity for communities of color. The office is charged with identifying and breaking down barriers to opportunity for people of color and businesses owned by people of color.</p> <ul style="list-style-type: none"> <li>• The office helps to ensure equitable access to the training and resources needed to find good jobs – as well as resources and opportunities to start and expand businesses for communities of color.</li> <li>• It assists Minnesota businesses in developing hiring and contracting practices that will expand opportunities for workers of color and businesses owned by people of color.</li> <li>• The office also works to integrate racial equity principles and practices in all of the work of state government.</li> </ul> <p>In 2016, Governor Dayton secured a historic \$35 million investment in programs aimed at reducing the state’s economic disparities between white Minnesotans and Minnesotans of color. Ensuring economic success means all Minnesotans have or are on a path to meaningful employment with a family-sustaining wage. This investment has benefited more than 100,000 people and 400 businesses in Minnesota.</p> <p>Programs Created and Awarded Funding to Address Disparities:</p> <ul style="list-style-type: none"> <li>• Southeast Asian Economic Relief Grant Program</li> <li>• Pathways to Prosperity Grant Program</li> <li>• Support Services Grant Program</li> <li>• Women in High Wage, High Demand, Nontraditional Jobs Grant</li> <li>• Youth at Work Equity Grant Program</li> <li>• Somali Youth Equity Competitive Grant Program</li> <li>• Capacity Building Grant Program</li> </ul> <p>Organizations Awarded Direct Appropriations to Address Disparities:</p> <ul style="list-style-type: none"> <li>• American Indian Opportunities &amp; Industrialization Center</li> <li>• Construction Careers Foundation</li> <li>• Centers for Independent Living</li> <li>• Comunidades Latinos Unidas En Servicio</li> <li>• EMERGE Community Development</li> <li>• Hennepin County</li> </ul>
--	--	---

		<ul style="list-style-type: none"> <li>• Metropolitan Economic Development Association</li> <li>• Minneapolis Foundation</li> <li>• Twin Cities Rise</li> <li>• Ujamma Place</li> <li>• White Earth Nation</li> <li>• YWCA Minneapolis</li> <li>• YWCA St. Paul</li> </ul> <p>In 2017, the Minnesota Department of Employment and Economic Development allocated \$8.1 million in grants to organizations that will work to improve economic opportunities for people of color, women, youth, people with disabilities, and veterans in Minnesota. Review panels – composed of state staff and volunteers from the nonprofit and for-profit communities – selected 87 funding recipients after reviewing \$48.4 million in program proposals from 165 Minnesota organizations.</p> <p>In addition, Governor Dayton empowered the Minnesota Department of Human Rights to aggressively investigate discrimination based on disability, sex, race, and age in the workplace and enforce Minnesota’s human rights laws. Under the Dayton Administration, the Department of Human Rights:</p> <ul style="list-style-type: none"> <li>• <b>Increased Funding for Department of Human Rights</b> – The previous administration cut funding for the Department of Human Rights by \$1.2 million, or 15 percent. These cuts undermined the ability of the Department to efficiently and effectively investigate allegations of discrimination charges. Since taking office, Governor Dayton has advocated for regional offices and worked to restore the Department of Human Rights’ budget by investing an additional \$2.3 million in its operations. This amounts to a 34 percent increase and has allowed the agency to take on additional duties, including operating a St. Cloud regional office, and enforcing the Women’s Economic Security Act and Ban the Box law.</li> <li>• <b>Increased Number of Investigations by 250 Percent</b> – Since 2011, the Department has worked to aggressively investigate discrimination in the workplace, housing, and other areas. In the first four years of the Dayton Administration, the Department investigated 2,700 cases. During the previous four years (2006-2010), the Department investigated only 1,080 cases.</li> <li>• <b>Increased Workplace Audits by 3,200 Percent</b> – The Department of Human Rights has completed more than 500 workforce certificate audits since 2011. These audits help ensure that contractors are providing equal employment opportunities for people with disabilities, women, and</li> </ul>
--	--	---

		<p>people of color on public works projects. This is a 3,200 percent increase over the previous administration.</p> <ul style="list-style-type: none"> <li>• <b>Streamlined Workforce Certificate Process</b> – The agency streamlined its workforce certificate application process. Thanks to these process improvement, the wait time for contractors was reduced from 30 days to less than 10 days, a 66 percent improvement.</li> <li>• <b>Ensured Equal Pay for Women Working for State Contractors</b> – As of April 2018, the agency has initiated more than 122 Equal Pay audits on state contractors doing over \$500,000 worth of business with the state to ensure that they do not have gender-based pay disparities.</li> <li>• <b>Increased Opportunities for Employers to Address Workforce Shortages</b> – Since 2013, the Department has participated in hundreds of presentations discussing Ban the Box and collateral consequences and has worked with nearly 300 employers to modify their employment applications and pre-hire materials to ensure fair chance opportunities.</li> <li>• <b>Expand Opportunities in Construction</b> – In 2012, the Department increased construction workforce participation goals for people of color in the seven-county metropolitan area on state and major metropolitan agency projects. On construction projects monitored by the Department, the percentage of hours worked on construction projects by people of color between 2011 and 2016 rose from slightly more than 11 percent to 32 percent in Hennepin and Ramsey Counties and from 11 percent to 22percent in Anoka, Carver, Dakota, Scott, and Washington Counties.</li> <li>• <b>Launched Consumer-Friendly Website and Hotline</b> – In 2011, the Minnesota Department of Human Rights streamlined the intake charge process resulting in a reduction of 66 days to complete an administrative charge. In 2016, the Department added foreign language hotlines to assist citizens, business owners and other members of the public. The hotline has served more than 80 Minnesotans with over 32 hours of calls since July 2016. Additionally, the Department’s Spanish speaking enforcement officer took about 480 calls from Minnesotans whose primary language is Spanish. In 2016, the Department also redesigned its website to increased efficiency and improve user navigability.</li> </ul>
<p><b>F.6</b></p>	<p><b>Set and Achieved Aggressive Goals for Increasing Percentage of</b></p>	<p>Governor Dayton believes that state contracting opportunities should be open to all Minnesotans. In 2015, the Governor’s Administration created the Office of Equity in Procurement to</p>

	<p><b>Contracts Awarded to Minority Businesses</b></p>	<p>help minority, women, veterans, and people with physical disabilities-owned businesses navigate the state contract procurement process.</p> <p>Under Governor Dayton’s leadership, Minnesota set aggressive goals to continue increasing the percentage of contracts awarded to small businesses owned by minorities, women, and veterans. This was the first time that has ever been done. The goals require that 8 percent of the value of state contracts should go to businesses from certified targeted groups and 12 percent from all disadvantaged businesses. From 2015 to 2018, the percentage of contracts awarded to diverse small businesses had increased from less than 3 percent to 7.7 percent, just shy of the enterprise goal. Committed to making sure all Minnesotans have access to state contracting opportunities, Dayton’s Administration adjusted the state’s goals in 2018, increasing diverse spend goals for small, certified businesses from 8 percent to 10 percent, and from 12 percent to 15 percent for all disadvantaged businesses.</p> <p>To reach these goals, Minnesota implemented a number of critical strategies to increase state spending with targeted businesses and make state government more accessible for all Minnesotans.</p> <ul style="list-style-type: none"> <li>• <b>Improved Tracking of Targeted Businesses</b> – Under Governor Dayton’s leadership in 2015, the state began to track state spending more closely to better ensure these opportunities are available to all Minnesotans. The State of Minnesota also began working with local governments and higher education facilities on a comprehensive review of disparities between majority-owned businesses and businesses owned by underrepresented groups. These studies provide the basis for efforts to increase state spending with targeted groups.</li> <li>• <b>Increased Subcontractor Diversity</b> – Under Governor Dayton’s leadership, the State of Minnesota developed a new method to assess subcontracting goals for targeted businesses. These efforts have shown success on state projects, and demonstrated the ability to apply stronger goals for contracting partners. This new methodology could result in as much as a 60 percent increase in required subcontracting.</li> <li>• <b>Increased Number of Minority-Businesses Eligible for State Contracts by 45 Percent</b> – Targeted group businesses must be certified to make sure they meet the criteria for the program. Previously, this</li> </ul>
--	--	---

		<p>represented a major roadblock for new and smaller businesses. Thanks to efforts led by Governor Dayton, the number of certified businesses owned by people of color, women, and veterans increased by 45 percent, from 898 to 1302. To better ensure that even more targeted group businesses have the same opportunity to compete for state contracts, Governor Dayton has also directed the State of Minnesota’s public certifying bodies to streamline the certification process. Businesses can now apply for state, local, or federal certification with one online application.</p> <ul style="list-style-type: none"> <li>• <b>Provided Training for Purchasing Agents</b> – The Department of Administration has designed and administered a new Diversity and Inclusion training, which was initially delivered to approximately 700 state employees who make purchases for state agencies and is now an ongoing required class. The training is a practical look at ways to include target group businesses in the State’s supply chain. This includes activities that simulate the challenges a small business owner might experience as they try to navigate the State’s purchasing processes and compete against larger or incumbent businesses.</li> <li>• <b>Allowed Direct Purchasing from Targeted Businesses</b> – State law now allows for direct purchases of up to a \$25,000 from certified targeted group business. This new procurement option is identified as “Equity Select,” and has helped promote greater equity and offer a more efficient and streamlined option for purchasers.</li> <li>• <b>Created More Opportunities for Targeted Businesses</b> – When at least three certified, targeted group businesses are available to bid on a contract, state law allows for contract bids to be limited only to certified, targeted group businesses. While this opportunity was not previously utilized, renewed efforts around diversity and inclusion have led to 24 contracts being designated exclusively for targeted group businesses since June 2016.</li> <li>• <b>Enhanced Outreach Efforts</b> –The Office of Equity in Procurement was established at the Department of Administration, increasing the number of employees dedicated to working with diverse businesses from less than one full-time employee, to six full-time employees. This has created the bandwidth needed to get out into the community and connect with small business owners, work with agencies to understand purchasing</li> </ul>
--	--	--

		<p>needs, and create matches between the businesses and agencies. Historically, the Department attended five events per year. In 2017, they attended or hosted 86 events. In 2018, they attended or hosted more than 100 events.</p> <p>Thanks to these efforts, Minnesota has seen a significant increase in the number of state contracts going to businesses owned by people from communities of colors, women, and veterans. Under Governor Dayton’s leadership, the state’s diverse spend has increased by 64 percent from 2015 to 2018.</p> <ul style="list-style-type: none"> <li>• <b>1,715 Percent Increase in State Spending with African American Owned Businesses</b> – In 2015, state spending on contracts with African American owned businesses totaled \$135,000. In 2017, the state increased spending on contracts with African American owned businesses to \$1.5 million, a 1,075 percent increase. In 2018, the state spent more than \$2.45 million with African American owned businesses, a 1,715 percent increase since 2015.</li> <li>• <b>24 Percent Increase in State Spending with Asian American Owned Businesses</b> – In 2015, state spending on contracts with Asian American owned businesses totaled \$11 million. In 2017, the state increased spending on contracts with Asian American owned businesses to \$16.3 million, a 47.5 percent increase. In 2018, the state spent \$13.7 million with Asian American owned businesses, a 24 percent increase compared to 2015.</li> <li>• <b>35 Percent Increase in State Spending with Hispanic Owned Businesses</b> – In 2015, state spending on contracts with Hispanic owned businesses totaled \$1.1 million. In 2017, the state increased spending on contracts with Hispanic owned businesses to \$2.7 million, a 143 percent increase. In 2018, the state spent \$1.5 million with Hispanic owned businesses, a 35 percent increase compared to 2015.</li> <li>• <b>1,455 Percent Increase in State Spending with Indigenous Owned Businesses</b> – In 2015, state spending on contracts with Indigenous owned businesses totaled \$73,000 million. In 2017, the state increased spending on contracts with Indigenous owned businesses to \$141,000, a 94 percent increase. In 2018, the state spent more than \$1.13 million with Indigenous owned businesses, a 1,455 percent increase compared to 2015.</li> <li>• <b>33 Percent Increase in State Spending with Women Owned Businesses</b> – In 2015, state spending on contracts with women owned businesses totaled \$35.5 million. In 2017, the</li> </ul>
--	--	--

		<p>state increased spending on contracts with Indigenous owned businesses to \$47.2 million, a 33 percent increase. In 2018, the state spent \$47.5 million with women owned businesses, a 33 percent increase compared to 2015.</p> <ul style="list-style-type: none"> <li>• <b>17 Percent Increase in State Spending with Veteran Owned Businesses</b> – In 2017, state spending on contracts with veteran owned businesses totaled \$1.8 million. In 2017, the state increased spending on contracts with veteran owned businesses to \$6.8 million, a 275 percent increase. In 2018, the state spent \$2.1 million with veteran owned businesses, a 17 percent increase compared to 2015.</li> </ul>
F.7	<b>Exceeded Diversity Hiring Goals for Major Public Works Projects</b>	<p>Governor Dayton firmly believes that the benefits of major public investments should be felt by all Minnesotans. Throughout his two terms, the Governor has worked to strengthen diversity hiring requirements to ensure that all Minnesotans have an opportunity to participate in building these communities assets.</p> <ul style="list-style-type: none"> <li>• <b>U.S. Bank Stadium</b> – For the U.S. Bank Stadium project, approximately 36 percent of workers were people of color and 9 percent were women—exceeding hiring goals.</li> <li>• <b>MSFA Ramp and Skyway</b> – On the MSFA Ramp and Skyway project, 35.6 percent of workers were people of color and 9.75 percent were women—exceeding hiring goals.</li> <li>• <b>State Capitol Interior Restoration</b> – For the State Capitol Interior Restoration, 29.2 percent of workers were people of color and 12.5 percent were women. On this historic project, the hiring goal for people of color was nearly achieved, while hiring goal for women was exceeded.</li> <li>• <b>MSP Terminal One</b> – For the MSP Terminal One project, 33 percent of workers were people of color and 7 percent were women—exceeding hiring goals.</li> </ul>
F.8	<b>Increased Female and Minnesotans of Color Participation in Apprenticeship Programs by 65 Percent; Total Number of Graduates by 23 Percent</b>	<p>Apprenticeship programs train Minnesotans for good paying jobs across our state. Approximately ninety percent of apprentices in Minnesota are in the construction trades. Average starting pay in construction apprenticeship programs is currently \$21 an hour and average ending pay is currently \$35 an hour. Since October 2015, \$8.5 Million dollars in US DOL grant funds have been secured to expand apprenticeship in Minnesota.</p>

		<p>Registered Apprenticeship is expanding into high-growth industries in Minnesota. As part of its 5-year Minnesota Apprenticeship Initiative that began in late fall 2015, more than 35 new programs have been developed with Minnesota employers in advanced manufacturing, healthcare, information technology and transportation. The initiative is on track to increase participation by 1,000 apprentices.</p> <p>Under Governor Dayton’s leadership, Minnesota’s apprenticeship programs have become more diverse. In 2018 more than 25 percent of participants were female or people of color – a 65 percent increase over 2010. The total number of graduates also increased by 23 percent – increasing from 1,171 graduates in 2011 to 1,456 graduates in 2017. Veteran participation levels in apprenticeship nearly doubled since 2010.</p> <p>In 2018, Apprenticeship Minnesota received a PROGRESS MINNESOTA award by Finance and Commerce News. The Progress Minnesota awards recognize individuals, companies and organizations that drive Minnesota into the future through economic development, entrepreneurship, technological innovation and workforce development.</p>																								
<p><b>F.9</b></p>	<p><b>Granted Nearly 9,000 Home Loans to Households of Color</b></p>	<p>Under Governor Dayton’s leadership, the Minnesota Housing Finance Agency has worked to expand the American Dream of owning a home to communities of color. Between 2011 and 2018, the agency provided nearly 9,000 first time home loans to households of color.</p> <p>Between 2014 and 2016, the agency increased annual lending to households of color by over 100 percent, the number of loans increased from 674 loans to 1,377. To achieve these results, Minnesota Housing Finance worked to build trusted relationships, and enhance marketing and outreach efforts.</p> <table border="1" data-bbox="834 1415 1182 1877"> <thead> <tr> <th colspan="2">First-Time Home Loans to Households of Color</th> </tr> <tr> <th>Year</th> <th>Loans</th> </tr> </thead> <tbody> <tr> <td>2008</td> <td>474</td> </tr> <tr> <td>2009</td> <td>411</td> </tr> <tr> <td>2010</td> <td>624</td> </tr> <tr> <td>2011</td> <td>549</td> </tr> <tr> <td>2012</td> <td>555</td> </tr> <tr> <td>2013</td> <td>689</td> </tr> <tr> <td>2014</td> <td>674</td> </tr> <tr> <td>2015</td> <td>1,141</td> </tr> <tr> <td>2016</td> <td>1,121</td> </tr> <tr> <td>2017</td> <td>1,282</td> </tr> </tbody> </table>	First-Time Home Loans to Households of Color		Year	Loans	2008	474	2009	411	2010	624	2011	549	2012	555	2013	689	2014	674	2015	1,141	2016	1,121	2017	1,282

In 2017, 31.8 percent of the agency’s loans went to households of color. In 2018, 34.4 percent of the agency’s loans went to households of color. This is three times higher than the average in the private loan industry, which averages 9 to 11 percent.</p>	2018	1,377
2018	1,377			
<b>F.10</b>	<b>Provided Down Payment Assistance to More Than 10,000 Homebuyers</b>	<p>Many lower-income Minnesota families could afford to pay a mortgage – helping them to build generational wealth. However market conditions including rising home prices, increasing interest rates and low supply have made it harder to achieve homeownership.</p> <p>To help eligible homebuyers, the Minnesota Housing Finance Agency offers down payment assistance. In 2015, the program was expanded to provide larger down payment and closing-cost assistance to households. Between 2015 and 2017, these programs served 10,785 homebuyers across the state. One program serves 68 percent people of color. The average amount of assistance is around \$7,000 and the assistance is typically repaid to help additional first-time homebuyers.</p>		
<b>F.11</b>	<b>Launched Program to Support First-Time Homebuyers of Color</b>	<p>In 2015, the Minnesota Housing Finance Agency launched the Enhanced Homeownership Capacity Initiative, which provides intensive financial education, comprehensive homebuyer/owner training, and case management services to prepare families for sustainable homeownership.</p> <p>Working with community-based providers, the program is targeted to connect with households of color. It works intensively one-on-one with prospective homebuyers on financial capability important topics like credit repair, debt reduction, money management, applying for a mortgage loan.</p> <p>Since 2015, the Enhanced Homeownership Capacity Initiative has served 2,200 potential homebuyers, 87 percent of whom are people of color. Of the households that completed the program, nearly 60 percent have purchased a home and another 20 percent are currently looking. More than 80 percent have increased their credit score (average increase of nearly 50 points) and nearly all households have increased their savings or reduced their debt with a total financial improvement of \$3,600.</p>		
<b>F.12</b>	<b>Record Mortgage Production for First-Time</b>	<p>In addition to the successful downpayment and mortgage programs that have helped households of color, Minnesota</p>		

	<b>Homebuyers Across Minnesota</b>	Housing is seeing record mortgage loan levels. In May of 2018, despite a tight market with little available inventory, Minnesota Housing broke our all-time production record with more than \$110 million in mortgage production, creating homeownership opportunities for 616 households statewide! This compares to May of 2017 with \$88 million for 527 households.
<b>F.13</b>	<b>Released Comprehensive Analysis on Status of Communities of Color &amp; Minnesotans with Disabilities</b>	<p>Governor Dayton’s Administration has made closing disparities between white Minnesotans and Minnesotans of color a top priority. In 2016, the Minnesota State Demographer’s Office released a first ever report providing detailed analysis of the economic realities facing communities of color in Minnesota.</p> <p>The data in the report is critical as policymakers make investments intended to expand opportunity and close economic disparities between white Minnesotans and Minnesotans of color.</p> <p>The Dayton Administration also is committed to supporting people with disabilities. In 2017, the Minnesota State Demographer’s office published a report, “Minnesotans with Disabilities: Demographic and Economic Characteristics,” to help Minnesotans learn more about the work status, earnings and income, age, race, and residence of Minnesotans with disabilities.</p> <p>The report found that in 2015, approximately 10.9 percent of Minnesotans, or 593,700 people, reported a disability. As Minnesota continues to age, the report concluded that “local communities, employers, nonprofits, transportation and housing service providers, and the state overall will need to plan to be more responsive to a growing disabled population.”</p>
<b>F.14</b>	<b>Annually Hired 700 Summer Student Workers and Interns from Diverse Backgrounds</b>	<p>As part of Governor Dayton’s commitment to expand opportunity for Minnesotans from diverse backgrounds, Minnesota state agencies have participated in several student worker and internship programs, including Capitol Pathways, STEP-UP Achieve Minneapolis, Right Track in Saint Paul, the Minnesota Conservation Corps, HireUp in southern Minnesota, and the Star of the North Fellowship program.</p> <p>In total, Minnesota state government annually hires approximately 700 student workers and interns – giving these students and recent graduates valuable professional experience and connections.</p>

<p><b>F.15</b></p>	<p><b>Annually Provided Employment-Related Services to Between 17,000 and 18,000 Minnesotans with Disabilities Seeking Competitive, Integrated Employment</b></p>	<p>Minnesota’s Vocational Rehabilitation Services program helps to connect Minnesotans with disabilities to competitive, integrated employment opportunities in their communities. During Governor Dayton’s two terms, the program assisted a total of 21,872 Minnesotans with disabilities to achieve competitive, integrated employment.</p> <p>Competitive, integrated employment by definition pays at least minimum wage. The alternatives pay less – sometimes far less – than minimum wage. All Vocational Rehabilitation program participants are placed in competitive, integrated employment. Their average hourly wage over the past eight years has ranged between \$11 and \$13 per hour.</p>
<p><b>F.16</b></p>	<p><b>Saved Minnesotans with Disabilities Millions of Dollars</b></p>	<p>The Minnesota Department of Administration offers Minnesotans with disabilities free access to a <a href="#">Guide to Assistive Technology</a>. Assistive technology helps people of all ages with disabilities, including older adults with functional needs, increase, maintain, and improve independence at home, school, work, and in their communities. As part of the guide, the Department offers suggestions on appropriate technology for different settings (e.g. work, school). It also provides guidance on how Minnesotans can defray the costs of purchase equipment.</p> <p>Since 2013, the Minnesota Department of Administration also has provided nearly 900 Minnesotans with disabilities with free use of assistive technology, saving these individuals \$1.9 million while they tried different products before purchasing them.</p>
<p><b>F.17</b></p>	<p><b>Upgraded Metro Mobility Computers to Improve Rider Experience</b></p>	<p>Metro Mobility provides public transportation to Minnesotans who are unable to use regular fixed-route buses due to a disability or health condition. Rides are provided for any purpose. Under Governor Dayton’s leadership, the Metropolitan Council has implemented strategies to make Metro Mobility more efficient and improve the experience for Minnesotans who rely upon it.</p> <ul style="list-style-type: none"> <li> <p><b>Upgraded Computer System to Provide Real-Time Schedule Information</b> – In 2014, Metro Mobility upgraded its computer systems to provide real-time, up-to-date schedule information to drivers, dispatchers, and customers. This project improved on-time performance and increased the number of riders served per hour while managing an 8.5 percent ridership increase from 2013 to 2014. Overall, Metro Mobility ridership has increased by 41 percent from 1.59 million rides in 2011 to 2.26 million rides</p> </li> </ul>

		<p>in 2017. In 2017, the program provided service to more than 20,000 active certified users.</p> <p>In addition to improving on-time performance, this technology has helped reduce Metro Mobility’s use of the Emergency Response Radio System for the metropolitan area by 70 percent. The reduction in “talk time” has freed up capacity on the system and helps to ensure that emergency calls will not be disrupted or delayed.</p> <ul style="list-style-type: none"> <li>• <b>Created Automated Trip Information System</b> – In 2016, the Metropolitan Council launched an Automatic Vehicle Locator system, which allows customers to receive automated real-time information prior to their ride pick-up time through calls, emails or texts.</li> </ul> <p>The system frees Metro Mobility staff to book rides for customers, rather than providing ride information updates. It also enables greater efficiency in routing and service delivery, and improved information for drivers, including turn-by-turn directions and up-to-the-minute updates on route changes.</p>
<p><b>F.18</b></p>	<p><b>Launched Office of Equity in Procurement</b></p>	<p>In 2015, the Minnesota Department of Administration launched an Office of Equity in Procurement to ensure that state contracting reflects Minnesota’s diversity. Among the office’s accomplishments are:</p> <ul style="list-style-type: none"> <li>• <b>Equity Select Purchases</b> – In 2016, Governor Dayton and the Legislature amended state law to allow state agencies to directly select targeted group, economically disadvantaged or veteran-owned businesses up to a total dollar value of \$25,000. This procurement option not only promotes greater equity for our targeted, economically-disadvantaged and veteran-owned businesses, but it also offers a more efficient and streamlined option for procurement staff. In 2017, 279 Equity Select purchases were made, totaling \$3.4 million.</li> <li>• <b>Faster Pay</b> – Small businesses often struggle with cash flow issues, which can make it difficult to bid on state contracts. To help address this problem and reduce barriers, the Department of Administration now ensures that certified targeted businesses are automatically paid within 15 days, rather than the standard 30 days. Since the initiative began in 2016, 508 certified vendors have received payments totaling more than \$130 million.</li> <li>• <b>Training</b> – To help encourage equity in procurement, the Department of Administration has trained more than 806</li> </ul>

		<p>agency procurement staff who conduct purchasing on behalf of state government. The training focuses on specific techniques to promote diversity and inclusion in the state’s contracting processes.</p> <ul style="list-style-type: none"> <li>• <b>Subcontractor Goals</b> – The Department of Administration has refined its process for setting subcontractor goals in order to increase participation in construction contracting by targeted groups, economically disadvantaged or veteran-owned small businesses. The previous goal-setting process only included the certified targeted group subcontractors. The highest goal allowed was 10 percent of the project, and it was based on the number of already certified vendors. Many outstate projects had no goals as a result. The new goal setting formula is extended to the Economically Disadvantaged and Veteran-Owned businesses as well as the Targeted Group businesses. The new process is based not only on the number of certified vendors, but also on the vendors available to be certified, the location of the project and the scopes of work involved. The result has been goals being set on most projects, and at a higher percentage than previously. Closer monitoring of construction goals has resulted in more compliance and accountability.</li> <li>• <b>Sheltered Markets</b> – Utilizing its statutory authority when it has been determined by the commissioner that at least three businesses are likely to bid on a project or service, the Department of Administration has conducted 18 procurements where the project has been reserved for performance by a certified targeted group business with a value of \$2.4 million. Sheltered Markets are contracts designated for Minnesota-based certified Targeted Group/Economically Disadvantaged/Veteran Owned (TG/ED/VO) small business bidding only. Set-asides are one of the vital tools employed by the State to create contracting opportunities for small businesses to compete for and win State contracts. They are more frequently now referred to as “Sheltered Markets”.</li> <li>• <b>Outreach</b> – The creation of the Department of Administration’s Office of Equity and Procurement has created the bandwidth needed to conduct the important task of getting out into the community and connecting with small business owners. The department has contacted almost 3,000 vendors by email or letter and has hosted or attended 86 events in 2017 and 53 in the first part of 2018. The Office has registered nearly 100 new businesses and increased purchasing with diverse businesses by nearly \$20 million from 2015 to 2017.</li> </ul>
--	--	--

<p><b>F.19</b></p>	<p><b>Developed Mobile Phone App to Help People with Autism in Emergencies</b></p>	<p>In 2012, the Governor’s Council on Developmental Disabilities, in partnership with the Autism Society of Minnesota, developed a mobile device application that helps people with Autism Spectrum Disorders (ASD) to communicate. Innovatively using a proven 5-point, color-coded scale, it can be customized to the specific situation of an individual or family – a key concern given the wide range of ASD needs. The application can be downloaded in the <a href="#">iTunes App Store</a> and is available on Android and Kindle Fire devices. Overall, the application has been downloaded 115,000 times.</p>
<p><b>F.20</b></p>	<p><b>Established Enhanced Veteran and Targeted-Group Preference Initiatives</b></p>	<p>In 2012, Governor Dayton and the Minnesota Legislature granted counties the option to create a bid preference program for veteran-owned small businesses competing for county contracts for goods and construction-related services. The language is permissive and may only apply to six percent of contracts.</p>
<p><b>F.21</b></p>	<p><b>Enhanced Veteran Employment Opportunities</b></p>	<p>In 2012, Governor Dayton and the Minnesota Legislature added veterans to the groups targeted for special emphasis given in job recruitment and additional points given in the veterans’ credit on civil service exams for nondisabled and disabled veterans.</p>
<p><b>F.22</b></p>	<p><b>Enhanced Protections for Minnesotans with Disabilities</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature improved the Minnesota Human Rights Act. Prior to this law, the Human Rights Act established that it is an unfair discriminatory practice for an owner of a public place to prohibit a blind or deaf person from taking a service animal into a public place if the animal can be properly identified as being from a recognized program that trains service animals. This bill removes the qualifier that the owner must be able to identify the animal as being from a recognized training program.</p>
<p><b>F.23</b></p>	<p><b>Enacted “Ban the Box” Protection</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature passed legislation preventing employers from asking for criminal history information on a job application, or otherwise trying to use criminal history to screen initial applications. The law prevents most private employers from screening for criminal history until after they have selected candidates for an interview. Ban the Box helps individuals with criminal records gain employment, creating an opportunity for meaningful second change and improving public safety through reduced recidivism. In 2018, MDHR released a Ban the Box toolkit to help employers and job seekers.</p>

<p><b>F.24</b></p>	<p><b>Enacted Criminal Record Expungement Reform</b></p>	<p>In 2014, Governor Dayton and the Minnesota Legislature enacted legislation to reform the procedures for expungement of prior criminal offenses from an individual’s record. These changes include:</p> <ul style="list-style-type: none"> <li>• Grants the court the authority to expunge records relating to an eviction action at the time the judgment is entered for the defendant.</li> <li>• Grants the court the authority to expunge all records related to juvenile delinquency proceedings, including records held by executive agencies.</li> <li>• Allows criminal justice agencies and county attorneys the ability to open and exchange records for the purpose of criminal investigations and prosecution.</li> <li>• Requires business screening services to delete criminal records that have been expunged.</li> <li>• Allows access for the purpose of DHS and teacher licensure background checks, but keeps the record private if it is used to disqualify an applicant.</li> <li>• Outlines the time frames when petitioners may apply for an expungement. For successfully completed diversion programs and stays of adjudication, the waiting period is one year; for petty misdemeanors and misdemeanors, it is two years; for gross misdemeanors, it is four years; and for felonies, it is five years. Only those non-violent felonies listed in the bill may qualify for expungement.</li> </ul>
<p><b>F.25</b></p>	<p><b>Adopted Veteran-Owned Small Business Preference</b></p>	<p>In 2014, Governor Dayton and the Minnesota Legislature made it easier for Minnesota veteran-owned small businesses to receive preference when responding to solicitations issued by state agencies.</p>
<p><b>F.26</b></p>	<p><b>Cracked Down on Bias-Motivated Assault</b></p>	<p>In 2016, Governor Dayton worked with the Legislature to crack down on assaults motivated by race, color, religion, sex, sexual orientation, disability, age, or national origin. The new law allows for a maximum penalty 25 percent longer than the penalty would be without bias as a motivating factor.</p>
<p><b>F.27</b></p>	<p><b>Supported Targeted Businesses</b></p>	<p>In 2016, Governor Dayton worked with the Legislature to secure \$1 million for new software which has helped improve state initiatives to make more state purchases from targeted Minnesota</p>

		businesses, including those owned by women, people of color, and veterans.
<b>F.28</b>	<b>Invested \$100,000 in Crisis Training for Law Enforcement</b>	In 2017, Governor Dayton and the Minnesota Legislature provided \$100,000 a year for training state and local community safety personnel in the use of crisis de-escalation techniques.
<b>F.29</b>	<b>Hosted the Nation’s First Tribal Youth Gathering</b>	<p>In 2018, Governor Dayton hosted the Minnesota Tribal Youth Gathering at the University of Minnesota, bringing together Native American youth ages 14-24, tribal and state leaders, civic and business leaders, and education organizations to focus on challenges facing Native American Youth in a first-of-its-kind gathering in the nation. Over 200 Native youth attended the day-long event.</p> <p>The gathering recognized and amplified the positive work that Native youth in Minnesota are doing to improve their communities. The gathering addressed topics including culture and language revitalization, health, education, history, self-sufficiency and sovereignty, and youth engagement and public leadership development.</p> <p>Governor Dayton appointed a Youth Steering Committee, comprised of 22 Native youth delegates and supported by state agency leaders to plan and lead the day-long event.</p> <p>To become eligible to attend the Tribal Youth Gathering, Native American youth were encouraged to complete the Generation Indigenous (Gen-I) Challenge in the months leading up to the conference in August 2018. The Gen-I Challenge is a pledge from Native American youth to make a positive difference in their community. Following challenge submissions, a selected group of Native youth presented their work to tribal and state leaders and fellow youth participants at the Tribal Youth Gathering event.</p>
<b>F.30</b>	<b>Established Young Women’s Initiative of Minnesota</b>	<p>In partnership with the Women’s Foundation of Minnesota, a statewide community foundation investing in innovation to drive gender equality, Governor Dayton launched the Young Women’s Initiative of Minnesota in 2016. Aimed at improving opportunity for young women in Minnesota, the Young Women’s Initiative brings together nonprofits, businesses, government, philanthropies, and young women to create a plan to build equity in outcomes for young women in our state, allowing them to lead safe, prosperous lives.</p> <p>Minnesota is often ranked a top state for women, but disparities persist for young women of color, American Indian women,</p>

		<p>women from Greater MN, LGBTQ youth, and young women with disabilities. Young women of color and American Indian young women in Minnesota experience significantly higher rates of homelessness, teen pregnancy, poor health outcomes, foster care, parental incarceration, involvement in the juvenile justice system, and sex trafficking. Data show that LGBTQ youth and young women with disabilities can face similar challenges.</p> <p>Designed to be as participatory and inclusive as possible, the Young Women’s Initiative seeks to make the invisibility of disparities visible. The first-of-its-kind statewide initiative in the nation, the Young Women’s Initiative of Minnesota is comprised of three core committees, the Community-Specific Working Groups, the Young Women’s Cabinet, and the Young Women’s Initiative Council. The Young Women’s Cabinet is comprised of young women (ages 16-24) appointed by Governor Dayton.</p> <p>In 2017, the Young Women’s Initiative of Minnesota released the <a href="#">Blueprint for Action</a>, a plan offering 20 key recommendations to build a Minnesota where every girl thrives and is the champion of her own life. The plan engages cross-sector partners from nonprofits, businesses, government, universities, philanthropies, and young women in strategies to eliminate disparities in outcomes for young women of color, American Indian young women, LGBTQ youth, young women with disabilities, and young women from Greater Minnesota. Collectively, 500 cross-sector leaders – young women and youth ages 16-24, nonprofits, and elected officials – provided input resulting in the <a href="#">Blueprint for Action</a>.</p>

<b>G.2</b>	<b>Secured an Additional \$500 Million for Veterans Health Care; More Than \$2,100 Per Veteran</b>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Veterans Affairs has worked with partners including the Veteran Service Organizations and the Minnesota Association of County Veteran Service Officer to advocate for Minnesota’s 370,000 veterans through the federal claims process and encourage usage of all veteran benefits, including medical coverage.</p> <p>Thanks to this aggressive advocacy, Minnesota has secured more \$500 million in federal funding for Minnesota veterans, or an average of \$2,191 increase per veteran from 2011 to 2017. In addition, thanks to better advocacy and outreach, the percentage of Minnesota veterans accessing the health care benefits they have earned increased by 19 percent.</p>																																								
<b>G.3</b>	<b>Tirelessly Advocated on Behalf of LGBTQ Minnesotans; Signed Same-Sex Marriage into Law</b>	<p>Throughout his two terms in office, Governor Dayton has been a committed advocated for LGBTQ Minnesotans. In 2012, Governor Dayton established a Task Force on the Prevention of School Bullying, which took testimony from LGBTQ students as well as their parents and guardians.</p> <p>In his 2013 State of the State Address, Governor Dayton urged the Legislature to legalize same-sex marriage, <b>“Last year, Minnesotans began a conversation about why marriage matters and we found our common belief that it is about love, commitment and responsibility. I want Minnesota to be a state which affirms that freedom for one means freedom for everyone and where no one is told it is illegal to marry the person you love.”</b></p>																																								

		<p>In May 2013, Governor Dayton signed same-sex marriage into law, making Minnesota the first Midwestern state to legalize same-sex marriage by legislative vote and the 12th state in the nation.</p> <p>In 2014, Governor Dayton signed the Safe and Supportive Schools Act (“school bullying”) into law. The school bullying law created the School Safety Technical Assistance Council to help schools implement the school bullying law.</p> <p>In 2015, Department of Commerce and Department of Health began requiring that all state regulated insurance plans not discriminate based on gender identity, and must provide medically necessary treatment to transgender individuals including gender confirmation surgery.</p> <p>In 2017, the School Safety Technical Assistance Council published a Toolkit for Minnesota schools to use to ensure safe and supportive schools for transgender and gender nonconforming students.</p>
<b>G.4</b>	<b>Serious Crime Down 14 Percent Since 2011</b>	<p>Serious crimes have dropped by 14 percent since 2011, decreasing from 2,757 per 100,000 people in 2011 to 2,372 per 100,000 people in 2016. In addition, the Minnesota Department of Corrections has increased the number of offenders who annually receive pre-release planning to 4,900 since 2011. Release planning helps prepare offenders to return to the community, which will help to reduce the likelihood of reoffending and increasing the crime rate.</p>
<b>G.5</b>	<b>Invested \$5 Billion in Quality, Affordable Housing Since 2011; Provided Housing Assistance to 324,400 Households</b>	<p>Despite the end of the Great Recession, housing costs remained unaffordable or unavailable for many Minnesota families during Governor Dayton’s two terms. Governor Dayton has worked to raise family incomes and increase the supply of affordable housing.</p> <p>Minnesota has invested more than \$5 billion – both public and private sector funding – in quality, affordable housing for low- and moderate-income households during the Governor’s two terms. This investment is \$360 million more than was invested during the Pawlenty Administration and \$3.6 billion more than invested during the Ventura Administration.</p> <p>Under Governor Dayton’s leadership, the Metropolitan Council invested an additional \$82.7 million in affordable housing development and redevelopment projects in the Twin Cities metropolitan area, assisting in the creation of 2,441 affordable units, above and beyond Minnesota Housing’s investments.</p>

		<p>As a result of the investments made during Governor Dayton’s two terms, more than 324,400 Minnesota households received some type of housing assistance.</p> <p>In addition, Governor Dayton issued Executive Order 17-14, creating the Governor’s Task Force on Housing in December 2017 to develop solutions to alleviate Minnesota’s housing challenges, and connect more Minnesota families with good places to live. The nonpartisan task force, comprised of experts and advocates from across Minnesota, released its <a href="#">final report</a> in August 2018. The report recommended 30 actions steps aimed at improving access to quality, affordable housing for Minnesotans and building a more vibrant, inclusive economic future for all Minnesotans. One recommendation includes building 300,000 new homes by 2030, across all types, prices, and locations to stabilize prices and meet demand.</p>																																				
<p><b>G.6</b></p>	<p><b>Minnesota’s Foreclosure Rate Dropped 81 Percent with Homeownership on the Rise</b></p>	<p>Under Governor Dayton’s leadership, Minnesota’s foreclosure rate dropped 81 percent from 2.87 percent to 0.53 percent. Overall, Minnesota rate of foreclosure remains less than half of the national average. Minnesota’s overall homeownership rate also has largely recovered from the Great Recession – reaching 71.3 percent in 2016. And Minnesota’s homeownership rate continues to outpace the nation; in 2016, Minnesota’s rate was 8 percent higher than the national average.</p>																																				
<p><b>G.7</b></p>	<p><b>Financed Development of More Than 1,900 Units of Greater Minnesota Workforce Housing</b></p>	<p>Many Greater Minnesota communities lack an adequate supply of housing, even though they have growing businesses and good paying jobs for workers.</p> <p>To help address this housing imbalance, the Minnesota Housing Finance Agency and Department of Employment and Economic Development have financed more than 1,900 units in both rental and homeownership workforce housing developments in Greater Minnesota since 2012. Developments are located across the state.</p> <table border="1" data-bbox="670 1551 1403 1871"> <thead> <tr> <th>Location</th> <th>Units</th> <th>Location</th> <th>Units</th> </tr> </thead> <tbody> <tr> <td>Thief River Falls</td> <td>63</td> <td>Perham</td> <td>48</td> </tr> <tr> <td>Roseau</td> <td>40</td> <td>Rochester</td> <td>393</td> </tr> <tr> <td>Worthington</td> <td>127</td> <td>Austin</td> <td>38</td> </tr> <tr> <td>Jackson</td> <td>50</td> <td>Owatonna</td> <td>36</td> </tr> <tr> <td>St. Michael</td> <td>48</td> <td>Mankato</td> <td>110</td> </tr> <tr> <td>Cambridge</td> <td>28</td> <td>Duluth</td> <td>284</td> </tr> <tr> <td>Glenwood</td> <td>32</td> <td>Hinckley</td> <td>28</td> </tr> <tr> <td>Warroad</td> <td>29</td> <td>Grand Marais</td> <td>14</td> </tr> </tbody> </table>	Location	Units	Location	Units	Thief River Falls	63	Perham	48	Roseau	40	Rochester	393	Worthington	127	Austin	38	Jackson	50	Owatonna	36	St. Michael	48	Mankato	110	Cambridge	28	Duluth	284	Glenwood	32	Hinckley	28	Warroad	29	Grand Marais	14

<p><b>G.8</b></p>	<p><b>Reduced Homelessness in Minnesota by 8.5 Percent</b></p>	<p>In December 2013, Governor Dayton’s Administration launched its Plan to Prevent and End Homelessness. Thanks to strong collaboration across all levels of government with private and nonprofit organizations, significant progress has been made to reduce the incidence of homelessness in Minnesota.</p> <table border="1" data-bbox="716 430 1360 642"> <thead> <tr> <th>Population</th> <th>Improvement Since 2014</th> </tr> </thead> <tbody> <tr> <td>Overall</td> <td>8 percent</td> </tr> <tr> <td>Families</td> <td>20 percent</td> </tr> <tr> <td>Chronic Homelessness</td> <td>27 percent</td> </tr> <tr> <td>Veterans</td> <td>56 percent</td> </tr> </tbody> </table> <p>Building on this progress, an updated version of the plan was released in 2018. It sets the following goals:</p> <ul style="list-style-type: none"> <li>• End Veteran Homelessness</li> <li>• End Chronic Homelessness</li> <li>• Prevent and End Homelessness Among Unaccompanied Youth and Young Adults by 2020</li> <li>• Prevent and End Homelessness Among Families with Children by 2020</li> </ul>	Population	Improvement Since 2014	Overall	8 percent	Families	20 percent	Chronic Homelessness	27 percent	Veterans	56 percent
Population	Improvement Since 2014											
Overall	8 percent											
Families	20 percent											
Chronic Homelessness	27 percent											
Veterans	56 percent											
<p><b>G.9</b></p>	<p><b>Invested \$4.6 Million in Efforts to Prevent Veteran Homelessness</b></p>	<p>In 2012, Governor Dayton and the Minnesota Legislature allocated \$100,000 to the Minnesota Assistance Council for Veterans (MACV) to support efforts to prevent homelessness among veterans and aid those experiencing it. In 2013, Governor Dayton worked with the Minnesota Legislature to provide additional funding to MACV. Since then, from FY13 – FY18, the Legislature has invested \$750,000 in grant funding each year to support MACV and their efforts to serve Minnesota veterans in need. Altogether, these funds total a \$4.6 million investment in efforts to prevent homelessness among veterans.</p>										
<p><b>G.10</b></p>	<p><b>Eliminated Waiting List for Minnesotans in Need of Nursing Home Level Care</b></p>	<p>Governor Dayton has worked with the Legislature over his two terms to invest in services to help ensure Minnesotans with disabilities can live in the most integrated setting desired. Thanks to Governor Dayton’s leadership, the percentage of people with disabilities receiving services in the community versus institutions increased from 90.7 to 92.3 percent. In 2017 more than 85,000 people with disabilities received long-term services and supports in their homes and communities. Of those, about 47,000 received services through one of the disability waivers.</p>										

		<p>Waivers offer a wide variety of community-based services as options to institutional care. A waiver waiting list for people in need of nursing home level of care, which numbered 1,412 in 2015, has been eliminated. Under a new process for developmental disabilities waiver funding, agencies work to meet goals for the reasonable pace of movement of people waiting for funding.</p> <p>This has reduced the number of people waiting for funding and the length of time before funding is approved. For example, the number of people waiting longer than 45 days for funding decreased from 152 on Oct. 1, 2017, to 89 on Jan. 1, 2018, compared to 3,576 in June 2015. The average length of time people wait to access funding is now 80 days.</p>
<b>G.11</b>	<b>Released Comprehensive Report on Status of Rural Communities</b>	<p>Recognizing the challenges facing Greater Minnesota, Governor Dayton took actions to support economic development and quality of life in rural communities. In 2017, the Minnesota State Demographer’s Office released a first-ever report examining differences in demographic, social and economic conditions across Greater Minnesota; “Greater Minnesota: Refined &amp; Revisited.”</p> <p>The report provided an in-depth understanding of residents living in truly rural areas of the state. The report served as a guide for policymaking by revealing essential baseline data on how migration and natural population change have resulted in population growth or loss between 2000 and 2015 for all counties, grouped by their urban and rural characteristics.</p>
<b>G.12</b>	<b>Support for Minnesota Farm Families</b>	<p>Farm property taxes in Minnesota have increased 114 percent in the last decade. This problem has been compounded by low commodity prices and high agricultural land values. To help relieve property tax burdens on Minnesota farmers, Governor Dayton and Lt. Governor Smith worked with the Legislature to provide a tax credit worth \$35 million for owners of agricultural property in 2017. The credit is equal to 40 percent of farm property taxes attributable to school district debt levies.</p> <p>The Governor also worked with the Legislature in 2017 to create a first-of-its-kind \$5 million tax incentive program to help beginning Minnesota farmers get started and have access to land. As many of Minnesota’s farmers hit retirement age, the tax incentive will help the next generation of farmers acquire and rent land. The incentive is expected to help 370 new farmers each year.</p>

		<p>In 2013, Governor Dayton’s Administration created a first-of-its-kind agricultural bank credit to support Minnesota farmers. Administered by the Board of Soil and Water Resources, the Minnesota Ag Wetland bank has provided 560 credits to offset wetland impacts resulting from agricultural projects, and more are in the pipeline.</p> <p>Minnesota stands out nationally as <i>the</i> state with the most advanced and successful program. National and State resource agencies, conservation groups, and agricultural interests are now looking to Minnesota as the model for establishing similar agricultural wetland banking programs across the country.</p>
<b>G.13</b>	<b>Invested \$103 Million in the Minnesota Rural Finance Authority</b>	<p>Delivering needed assistance to Minnesota’s 74,000 farms, Governor Dayton worked with the Legislature to invest \$103 million in Minnesota’s Rural Finance Authority since 2011. This funding allows the Authority to offer eligible Minnesota farmers affordable financing and terms and conditions not offered by other traditional lenders. Without this investment, some farmers would have faced a credit crunch caused by several years of low commodity prices and rising expenses.</p>
<b>G.14</b>	<b>Extended Minnesota’s Farmer-Lender Mediation Program in 2013 and 2017</b>	<p>Minnesota farmers who are facing debt have the opportunity to renegotiate, restructure, or resolve their farm debt through the Farmer-Lender Mediation Program. Governor Dayton worked with the Legislature to extend the program first in 2013 and again 2017, providing important assistance to Minnesota farmers who are facing low commodity prices and high input costs.</p>
<b>G.15</b>	<b>Expanded the Minnesota Farm Advocates Program</b>	<p>Governor Dayton worked with the Legislature in 2017 to invest \$80,000 to expand the Farm Advocates program, which provides one-on-one assistance for farmers who face natural disasters or other financial challenges. Farm Advocates understand the needs of farming families and are trained and experienced in agricultural lending practices, farm programs, mediation, and disaster relief, among other assistance.</p>
<b>G.16</b>	<b>Invested \$1.2 Million in Noxious and Invasive Weed Programs</b>	<p>Invasive and noxious can have a significant impact on farm productivity and ecological diversity. Weeds invade crops, reducing output and raising costs. In 2017, Governor Dayton worked with the Legislature to invest \$500,000 in an effort to enhance the Department of Agriculture’s capacity to protect our crops from pests and diseases. The Governor and Legislature also invested \$850,000 in 2017 to address noxious weeds that threaten Minnesota crops, including grants to local weed inspectors to address noxious weeds at the local level.</p>

		<p>Under Governor Dayton’s leadership, the Department of Agriculture also has developed and began implemented strategies for eradicating highly damaging invasive plant populations before they could spread. This had not been attempted at a statewide level prior to this project and our target plants had been spreading for years, sometimes decades.</p> <p>Since efforts began in 2013, the Department of Agriculture has focused on plants such as cutleaf teasel, Dalmation toadflax, Grecian Foxglove and Oriental Bittersweet. A total of 34 workshops educated 772 people about target plants. Surveys totals are 1,542 road miles and 125 river and trail miles. Agreements were written with 162 private landowners for initial treatment on their lands. Many landowners have done follow up treatment on their own. A total of 1,360 acres were treated by crews.</p>
<b>G.17</b>	<b>Expanded Waste Pesticide Collection Program</b>	The Waste Pesticide Collection Program provides safe disposal of waste pesticides at no cost to Minnesotans. This program has been a great success, collecting more than 500,700 pounds of household and agricultural waste pesticides all 87 counties.
<b>G.18</b>	<b>Invested \$26.5 Million to Renovate and Construct Modern Agricultural Laboratories</b>	Governor Dayton worked with the Legislature in 2015 to secure \$18 million to replace two obsolete veterinary laboratories at the University of Minnesota with a new veterinary isolation facility. The new facility will help the state address new disease challenges, including avian influenza, and help Minnesota become a leader in infectious disease research. In 2015, the Governor and Legislature also invested \$8.5 million in improvements to the University of Minnesota poultry testing laboratory in Willmar. Upgrading the facilities and equipment will help the lab diagnose and test for avian influenza and other diseases. The new facility tests approximately 300,000 tests each year.
<b>G.19</b>	<b>Protected Minnesota’s \$800 Million Turkey Industry</b>	<p>Minnesota is the top turkey producing state in the country, annually raising between 44 and 46 million birds. The state’s approximately \$800 million turkey industry supports families and communities across Minnesota.</p> <p>In 2015, the Minnesota Board of Animal Health and Department of Agriculture worked with poultry producers to stop the spread of Highly Pathogenic Avian Influenza. Together, they were able stop the spread of avian flu and ensure producers were able to restock their barns as soon as possible.</p>

		<table border="1"> <thead> <tr> <th colspan="2">2015 Avian Influenza Outbreak</th> </tr> </thead> <tbody> <tr> <td>Farms Affected:</td> <td>108</td> </tr> <tr> <td>Turkeys Affected:</td> <td>9,024,632</td> </tr> <tr> <td>Counties Impacted:</td> <td>23</td> </tr> <tr> <td>Total Economic Impact:</td> <td>\$650 Million</td> </tr> <tr> <td>Last Case of Avian Influenza:</td> <td>June 5, 2015</td> </tr> <tr> <td>Quarantine Ended:</td> <td>July 2015</td> </tr> </tbody> </table> <p>The Board of Animal Health and the Department of Agriculture also worked with producers to develop new biosecurity protocols to avoid future outbreaks.</p>	2015 Avian Influenza Outbreak		Farms Affected:	108	Turkeys Affected:	9,024,632	Counties Impacted:	23	Total Economic Impact:	\$650 Million	Last Case of Avian Influenza:	June 5, 2015	Quarantine Ended:	July 2015

<b>G.20</b>	<b>Improving Disease Prevention and Response for Minnesota Farmers</b>	<p>Animal diseases can have a devastating impact on the livelihoods of Minnesota livestock producers. Under Governor Dayton’s leadership, the Board of Animal Health has worked with producers to develop secure food supply plans for the turkey, egg, broiler, beef, pork, and dairy industries.</p> <p>These plans will allow the state to better coordinate its response to an animal disease and help keep farmers in business. They also will help keep unaffected farms in operation and provide dedicated experts to help impacted producers recover.</p>														
<b>G.21</b>	<b>Saved Minnesotans \$729 Million on their Utility Bills</b>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Commerce worked to reduce rate increases requested by utility providers by 57.3 percent. This has saved Minnesotans more than \$729 million on the electricity and natural gas they need for their homes and businesses since 2010.</p>														
<b>G.22</b>	<b>Reformed and Strengthened Minnesota’s NextGen Biofuels Standard</b>	<p>Governor Dayton and the Legislature reformed Minnesota’s biofuel standard in 2013, expanding the law to include other forms of biofuels that meet federal standards. They also created a 12-year escalating biofuel and ethanol standard, which is gradually strengthening Minnesota’s standard. They also repealed out-of-date “E20” language, which was contingent on the federal government approving “E20” through the 2005 Clean Air Act. That approval has not occurred.</p>														
<b>G.23</b>	<b>Implementation of Minnesota’s B20 Mandate</b>	<p>In 2018, Governor Dayton’s administration implemented the new biodiesel standard moving Minnesota to a 20 percent biodiesel blend (B20) at pumps across the state. This new standard builds on Minnesota’s national leadership – in 2005, Minnesota became the first state in the nation to require all diesel fuel to have a blend of at least 2 percent biodiesel, known as B2.</p>														

		<p>The biodiesel industry adds an average of 63 cents to the market price of a bushel of soybeans for Minnesota farmers. B20 is expected to reduce 130 tons of particulate emissions and approximately 1 million tons of CO<sub>2</sub> next year.</p> <p>In 2013, Governor Dayton successfully defeated an attempt led by the oil industry to repeal Minnesota’s B10 mandate, which required that 10 percent of all diesel fuel sold in Minnesota between April and October comes from soybeans or other bio-based materials beginning in 2014. Since then, he has steadfast protected biodiesel mandate from big oil companies.</p>
<p><b>G.24</b></p>	<p><b>Expanded Hunting, Fishing, Outdoors Opportunities for All Minnesotans</b></p>	<p>Under Governor Dayton’s leadership, the Department of Natural Resources has made significant progress to improve and expand the outdoor recreational opportunities available to all Minnesotans. The Department has launched programs designed to share Minnesota’s hunting, fishing, and outdoors traditions.</p> <ul style="list-style-type: none"> <li>• <b>Expanded Youth Hunting Opportunities</b> – Between 2011 and 2017, the agency increased the number of special youth deer hunting participants by 130 percent, totaling 25,961 participating youth.</li> <li>• <b>Shared Outdoor Traditions With 81,482 People</b> -- Since 2011, 81,482 people have participated in the DNR’s “I Can!” program, sharing Minnesota’s proud traditions with the next generation of outdoors enthusiasts. 21,700 participants took part in the “I Can Fish” programs, with another 44,500 potential archers participating in the “Archery in the Park” series provided by Minnesota’s Parks and Trails Division. These programs provides hands-on instruction from experienced and friendly individuals to families interested in learning more about lifelong outdoors activities, including fishing, canoeing, camping, mountain biking, and archery. These introductory programs are designed for families and provide all the gear needed to participate.</li> <li>• <b>Becoming An Outdoors Woman Program</b> – The Department of Natural Resource’s “Becoming an Outdoors Woman” Program offers a wide range of opportunities for women who want to learn how to hunt, fish or develop other outdoor skills. Since 2011, the DNR has offered more than 527 workshops for women, and 6,722 women and girls have participated in the program.</li> <li>• <b>Expanded Access for Minnesotans with Disabilities</b> – Under Governor Dayton’s leadership, the Department of Natural Resources is opening the outdoors to people with disabilities by updating its public spaces and programs. The DNR is</li> </ul>

		<p>opening the outdoors to people with disabilities by updating its public spaces and programs.</p> <ul style="list-style-type: none"> <li>○ Parks and Trails Division has constructed or acquired 97 fully accessible buildings since 2010, 21 in 2017 alone.</li> <li>○ Since 2011, we have implanted new guidelines for OPDMD (Other Power Driven Mobility Devices), and have issued permits to people requesting such use to get better access on parks and trails.</li> <li>○ 72 public water access sites made accessible.</li> <li>○ Recent 2017 construction of Minneiska Campground at Whitewater State Park and Vermilion Ridge Campground at Lake Vermilion-Soudan Underground Mine State Park were designed and built for full ADA compliance.</li> <li>○ As of July 1, 2017 active military personnel in any branch or unit of the United States Armed Forces and Veterans with a service-connected disability are eligible to receive a free year-round vehicle permit, providing unlimited access to all 75 Minnesota state parks and recreation areas.</li> </ul>
<p><b>G.25</b></p>	<p><b>Expanded Water Fowl and Game Bird Hunting Opportunities</b></p>	<p>During the Dayton Administration, the Department of Natural Resources expanded waterfowl and game birding hunting opportunities by:</p> <ul style="list-style-type: none"> <li>● Continuing to offer a Sandhill Crane season in northwest Minnesota every year since 2010.</li> <li>● Maximizing waterfowl hunter opportunities since 2011 by providing the maximum season length and bag limits for Canada geese and ducks during the regular season as allowed by Federal frameworks.</li> <li>● Restoring key waterfowl habitat to increase waterfowl populations, by designating 13 shallow lakes as “State Waterfowl Lakes.” This designation has encompassed more than 3,435 acres since 2011, with water control structures added to 21 existing Waterfowl Lakes to allow the improvement of 14,000 total lake acres.</li> <li>● Expanding possession limits, starting in 2013, for migratory small- game birds, allowing hunters to possess three times the daily limit of each species (up from two times the daily limit). This change adds convenience for those whose hunting trips are three days or longer.</li> </ul>

		<ul style="list-style-type: none"> <li>• Reducing the number of Turkey Permit Areas in 2012 (from 81 to 12 permit areas), increasing hunting opportunity and flexibility. Additionally, in 2016, DNR increased the number of days available to hunt turkeys during the spring season. From 2011-2016, the number of fall turkey licenses sold increased by 60 percent. Spring turkey licenses increased by 10 percent.</li> </ul>
<p><b>G.25</b></p>	<p><b>Hundreds of Campsites Became Reservable</b></p>	<p>Between 2011 and 2017, overnight campers in Minnesota’s state parks increased from 286,000 to 360,000 campsites per year. In 2016, Minnesota state parks and recreation areas made hundreds of previously "first-come, first-served" campsites reservable, in response to customer feedback that showed families preferred this option.</p> <p>It used to be that visitors without prior reservations would show up at the park entrance on busy weekends in hopes of getting one of the “first-come, first-served” sites, but there was no guarantee of getting one. Now the DNR takes reservations for those sites, allowing campers to reserve a potential campsite up to a year in advance, which typically make up 25 to 30 percent of the total sites at each campground. Sales of year-round park permits increased by 37 percent during the past 7 years, with Minnesota state parks hosting more than 1 million visitors per year.</p> <p>The change comes as the result of a pilot project in 2014 and 2015, when about 20 percent of Minnesota’s state parks made all of their campsites reservable. Occupied sites increased about 6 percent from 2015 to 2016 and another 4 percent between 2016 and 2017.</p> <p>Making sites 100 percent reservable makes trip-planning easier for campers, especially families with kids, because they know they will have a campsite waiting for them at the park when they arrive. Prior to having all sites be reservable, families would pack up and drive, sometimes several hours to a park only to find out they wouldn’t be able to stay.</p> <p>People who are last minute campers will be able to use the website to see where there are still sites available and people can even check for availability on their way to the park if they have a smartphone. First come, first served sites are still available at State Forest Recreation Areas for those who prefer that method as well.</p>

<p><b>G.26</b></p>	<p><b>Increased State Parks and Trails Visits by 15 Percent; Campsite Visits by 21 Percent</b></p>	<p>Under Governor Dayton’s leadership, the Minnesota Department of Natural Resources implemented innovative programs to introduce Minnesotans to the outdoors, make it easier to find outdoors opportunities, while adding hundreds of new campsites, and thousands of acres of new parkland.</p> <p>Thanks to these investments, state park visits reached an all-time high in 2016, with 10.3 million visits. This marks a 15 percent increase over 2012. Camping has similar increased, with 346,106 overnight stays in 2016, a 21 percent increase.</p> <p>In addition, one-day state park vehicle permits sold increased from 244,269 in 2012 to 327,814 in 2016. And year-round state park vehicle permits sold increased from 133,527 to 173,718.</p>																																	
<p><b>G.27</b></p>	<p><b>Expanded Minnesota’s Beyond the Yellow Ribbon Network for Veterans and Military Families</b></p>	<p>Governor Dayton appreciates the immense sacrifices that military members and their families make for Minnesota and the country. Under his leadership, the Minnesota Department of Military Affairs and the Minnesota National Guard worked to expand the state’s Beyond the Yellow Ribbon Program which connects service members, veterans and military families with community, government, and private sector support.</p> <p>The program also works with businesses to recruit, hire and retain currently serving and veteran employees, support military connected employees and support local community Yellow Ribbon Networks. Over 200 Minnesota Communities and 65 companies have created networks of support across the state:</p> <table border="1" data-bbox="662 1415 1414 1866"> <thead> <tr> <th colspan="3">Yellow Ribbon Communities</th> </tr> </thead> <tbody> <tr> <td>Afton</td> <td>Harding</td> <td>Oakdale</td> </tr> <tr> <td>Albert Lea</td> <td>Hastings</td> <td>Odin</td> </tr> <tr> <td>Alexandria</td> <td>Hector</td> <td>Okabena</td> </tr> <tr> <td>Alpha</td> <td>Heidelberg</td> <td>Olivia</td> </tr> <tr> <td>Amboy</td> <td>Heron Lake</td> <td>Ormsby</td> </tr> <tr> <td>Anoka</td> <td>Hibbing</td> <td>Ortonville</td> </tr> <tr> <td>Apple Valley</td> <td>Hopkins</td> <td>Owatonna</td> </tr> <tr> <td>Appleton</td> <td>Hugo</td> <td>Pemberton</td> </tr> <tr> <td>Arden Hills</td> <td>Inver Grove Heights</td> <td>Pierz</td> </tr> <tr> <td>Austin</td> <td>Jackson</td> <td>Pine City</td> </tr> </tbody> </table>	Yellow Ribbon Communities			Afton	Harding	Oakdale	Albert Lea	Hastings	Odin	Alexandria	Hector	Okabena	Alpha	Heidelberg	Olivia	Amboy	Heron Lake	Ormsby	Anoka	Hibbing	Ortonville	Apple Valley	Hopkins	Owatonna	Appleton	Hugo	Pemberton	Arden Hills	Inver Grove Heights	Pierz	Austin	Jackson	Pine City

<b>G.28</b>	<b>Authorized Gold Star License Plates for Families of Fallen Heroes</b>	Minnesota's Gold Star Family program honors the legacy of every fallen Minnesota hero, while supporting the needs of their families. In 2011, Governor Dayton signed legislation allowing																																										

		surviving legal guardians, children, and siblings to apply for Gold Star License plates. Previously, these plates were only available to the surviving spouse and parents of a veteran who has died while serving honorably in active military service.
<b>G.29</b>	<b>Military Driver's License Renewal Reforms</b>	In 2011, Governor Dayton worked with the Minnesota Legislature to provide active service members and their spouses 12 months to renew their driver's licenses. Previously, these individuals only had 90 days following separation or discharge from active service outside the state and until the person's birthday, a full four-years following the previous renewal, if that is later to renew their driver's licenses.
<b>G.30</b>	<b>Invested \$200,000 to Help Veterans with PTSD</b>	In 2012, Governor Dayton and the Minnesota Legislature allocated \$200,000 to the Minnesota County Veteran Service to help veterans identify benefits for which they are eligible, especially those related to posttraumatic stress disorder.
<b>G.31</b>	<b>Provided Funding for Military Funeral Honor Guards</b>	In 2012, Governor Dayton and the Minnesota Legislature provided \$100,000 to support honor guard services. In 2013, the Governor and Legislature provided \$200,000 in permanent funding for honor guards at veteran funerals.
<b>G.32</b>	<b>Expanded the Minnesota GI Bill</b>	In 2012, Governor Dayton and the Minnesota Legislature expanded the Minnesota GI Bill, which provides postsecondary financial assistance to eligible Minnesota veterans and service members, to all veterans and included apprenticeships and on-the-job training.
<b>G.33</b>	<b>Allowed Active Duty Military Personnel to Take Peace Officer Reciprocity Exam</b>	In 2013, Governor Dayton and the Minnesota Legislature enacted legislation allowing active duty soldiers with relevant experience can take a peace officer reciprocity exam. Those who pass the exam cannot be licensed as a peace officer until after being honorably discharged. Previously, only honorably discharged soldiers were eligible to take the exam. This change allows veterans to move into civilian service without a long delay in employment.
<b>G.34</b>	<b>Restructured County Veterans Service Officer (CVSO) Grant Program</b>	In 2013, Governor Dayton and the Minnesota Legislature restructured the County Veterans Service Officer (CVSO) grant program and increased the grant amounts. Thanks to these changes, each county in Minnesota is eligible to receive a minimum annual grant of \$7,500 for outreach and enhanced services for veterans. In addition, the Minnesota Association of

		CVSOs is eligible to receive an annual grant of \$50,000 for operations, training and accreditation of CVSOs, and reintegration services.
<b>G.35</b>	<b>Replaced Federal Funding for Gold Star Family Program</b>	Each year, the Gold Star Program holds retreats and other supportive services where deceased veterans' surviving family members are able to honor and remember their loved ones in a safe environment and are provided tools that build resilience. The retreat grew from 70 participants in 2008 to 180 in 2012. After federal funding was cut for the program, Governor Dayton and the Minnesota Legislature appropriated \$100,000 in 2013 to ensure the program can continue.
<b>G.36</b>	<b>Provided Additional State Aid for Emergency Heating Assistance</b>	In 2014, Governor Dayton and the Minnesota Legislature invested \$20 million in emergency Low Income Home Energy Assistance Program funding. This ensured that the program would last through the cold-weather season after heavy demand from propane users and other heating customers during the extremely cold winter.
<b>G.37</b>	<b>Provided Tax Relief to Victims of N. Minneapolis Tornado</b>	In 2011, Governor Dayton worked with the Minnesota Legislature to authorize the City of Minneapolis to transfer extra money from TIF districts in Minneapolis and use them for tornado disaster relief in North Minneapolis. The legislation also allows abatement and allowance for Minneapolis to include 200 more homes in a redevelopment district.
<b>G.38</b>	<b>Provided Grants for Trapshooting Facilities</b>	In 2014, Governor Dayton and the Minnesota Legislature provided grants for up to 50 percent of the cost of updating or expanding a public trapshooting facility that is used to accommodate the rapid expansion of organized high school trapshooting.
<b>G.39</b>	<b>Provided Community-Based Grants for Sexual Assault Prevention and Domestic Abuse Service</b>	In 2014, Governor Dayton and the Minnesota Legislature provided \$300,000 for community-based grants to sexual assault advocacy programs for sexual violence community prevention networks. They also provided \$500,000 in one-time funding for fund emergency shelter and programming for victims of domestic abuse and trafficking. The program provides shelter to East African women and children.
<b>G.40</b>	<b>Required Mobile Home Parks to Provide Relocation Assistance</b>	In 2016, Governor Dayton and the Minnesota Legislature required mobile home park owners to provide relocation assistance to residents if the park is closed. The maximum assistance available

		<p>for relocation costs to a new location within a 25 mile radius of the closed park is \$7,000 for a single-section and \$12,500 for a multi-section manufactured home.</p> <p>If the homeowner chooses not to move their manufactured home, they can opt for a buyout. The maximum amount that may be reimbursed under the fund is \$8,000 for a single-section and \$14,500 for a multi-section manufactured home.</p> <p>A new minimum is established for reimbursement through the fund at \$2,000 for a single section and \$4,000 for a multi-section manufactured home. The annual fee that may be charged to fund the program is \$1.25 a month and \$15 a year.</p>
<b>G.41</b>	<b>Excluded Military Pension Income from Taxes</b>	<p>In 2016, Governor Dayton worked with the Legislature to eliminate taxes on pension income for Minnesota veterans with 20 or more years of military service.</p>

G.42

**Supported Youth Hockey Throughout the State**

The Mighty Ducks grant program was created in 1995 to help Minnesota communities address a serious shortage of ice time available throughout the state, especially for newly developing girls' hockey programs. By the time the program was suspended in 2004, 61 new ice sheets had been added.

Governor Dayton and the Legislature resurrected the program in 2014 when the federal government announced it would no longer import Freon. Since 2014, Governor Dayton has worked with the Legislature to secure \$13.5 million to help small cities and hockey associations pay to replace expensive refrigeration systems for indoor ice facilities.

<b>G.43</b>	<b>Provided Critical Funding for the 2020 Census</b>	In 2017, Governor Dayton and the Minnesota Legislature provided \$380,000 to fund the State Demographic Center’s participation in the federal 2020 Census to help assure all Minnesotans are counted in the upcoming census. Each decade, more than \$15,000 of federal funds are distributed to Minnesotans on the basis of the decennial census count for each individual counted by the census.																																																																																																				
<b>G.44</b>	<b>Approved Free State Park Permits for Active Military and Disabled Veterans</b>	In 2017, Governor Dayton and the Minnesota Legislature authorized the Department of Natural Resource to provide free annual state park permits to active military personnel, their dependents, and to the recipients of a Purple Heart medal. Also, requires the issuance of a free annual state park permit to a veteran with any level of service-connected disability.																																																																																																				

<b>G.45</b>	<b>Approved Sunday Liquor Sales</b>	In 2017, Governor Dayton and the Minnesota Legislature authorized Sunday liquor sales. The legislation allows all liquor stores in the state to be open on Sunday. The change began on July 2, 2017.
<b>G.46</b>	<b>Authorized Minnesota Municipalities to become Purple Heart Cities or Counties</b>	In 2018, Governor Dayton worked with the Minnesota Legislature to pass legislation authorizing Minnesota municipalities to become Purple Heart cities or counties. Under this legislation, a city or county may designate itself as a Purple Heart County or Purple Heart City, reserve parking spaces for Purple Heart recipients, accept donations to fund plaques or signs to publicize the Purple Heart status, and proclaim August 7 <sup>th</sup> as Purple Heart Day. The legislation recognizes and remembers Minnesota’s veterans and recipients of the Purple Heart medal across the state.

<b>CATEGORY H: Environment and Natural Resources</b>		
<b>#</b>	<b>Accomplishment</b>	<b>Description</b>
<b>H.1</b>	<b>Comprehensively Monitored Minnesota Watersheds for Impairment</b>	<p>Governor Dayton has made clean water a priority throughout his tenure as governor. Under his leadership, the Minnesota Pollution Control Agency completed the first-ever comprehensive evaluation of the state’s water resources. This program has identified where waters are safe and clean, and where work is needed to ensure that Minnesota’s lakes and streams support the recreational and economic activities that we all depend on and value.</p> <p>Now Minnesotans have the information we need to target and prioritize action to clean up the roughly 5,000 current impairments of Minnesota waters, and to prevent future problems. Continued monitoring – closely coordinated with local resource managers – will tell us if those actions are making a difference, and where different approaches are needed.</p>
<b>H.2</b>	<b>Enacted Bipartisan Water Quality Buffer Strip Legislation</b>	In 2015, Governor Dayton worked with the Minnesota Legislature to pass legislation requiring perennial vegetation buffers of up to 50 feet along lakes, rivers, and streams and buffers of 16.5 feet along public ditches. These buffers will help filter out phosphorus, nitrogen and sediment. Studies show that buffers are critical to protecting and restoring water quality and healthy aquatic life, natural stream functions and aquatic habitat due to their immediate proximity to the water.

		<p>In 2016, after receiving additional feedback from farmers and landowners across Minnesota, Governor Dayton signed another bipartisan bill into law making changes to the program to provide more flexibility and clarity for Minnesotans.</p> <p>In 2017, Governor Dayton worked with the legislature to secure new funding for direct payments to farmers and for local buffer program support which includes:</p> <ul style="list-style-type: none"> <li>• \$5 million in new Clean Water funding for direct cost-share payments to landowners.</li> <li>• \$8 million the first year, and \$10 million each year after for counties and watershed districts to enact buffer compliance and implementation.</li> </ul> <p>Additionally, Governor Dayton signed a law in 2017, for landowners who faced hardships meeting the November 1 deadline to commit to a compliance plan with their local SWCD to receive a waiver until July 1, 2018.</p>
<p><b>H.3</b></p>	<p><b>Engaged Thousands of Minnesotans in Conversations and Efforts to Improve Water Quality</b></p>	<p>Raising awareness of Minnesota’s water quality challenges is one of Governor Dayton’s lasting legacies. As Governor, Mark Dayton declared a “Year of Water Action,” a “Water Action Week,” held 10 water quality town hall meetings attended by more than 2,000 Minnesotans all across the state, and facilitated a water quality poster contest for children.</p> <p>In 2017, Governor Dayton also announced a new “25 by ‘25” Water Quality Goal to spur innovation and collaboration around strategies to improve Minnesota’s water quality 25 percent by 2025. Without additional action, the quality of Minnesota’s waters is expected to improve only 6 to 8 percent by 2034.</p>
<p><b>H.4</b></p>	<p><b>Invested Over \$1.651 Billion in More Than 480 Clean Water Infrastructure Projects Across Minnesota</b></p>	<p>In the Land of 10,000 Lakes, Minnesotans expect clean, affordable water, no matter where they live. However, more than 40 percent of Minnesota’s waters are listed as impaired or polluted. Experts estimate that Minnesota communities will need \$11 billion in water infrastructure improvements over the next two decades to replace and upgrade aging treatment facilities and expand systems to accommodate economic growth and increased demand.</p> <p>Under Governor Dayton’s leadership, the Public Facilities Authority has invested more than \$1.651 billion in 485 clean water infrastructure projects. Nearly 450 of the projects are located in Greater Minnesota communities, totaling approximately \$1.01 billion in state investment.</p>

Recipient	Year	Funding	Description	Area
Afton	2011	\$19,836	Technical assistance- feasibility of a soil based system in downtown Afton; includes cluster site id, soil investigation and cluster system preliminary layout. If soils are suitable, work will also include collection system preliminary layout and design	Metro

		Duluth	2011	\$12,504,224	Construction of Phase 2 of the East Interceptor WW overflow prevention storage tank, which includes an 8.2 million gallon sewage overflow prevention storage tank and reconstruction/	Non-metro

					relocation of pump station	
		Duluth	2011	\$7,753,059	Construction of Phase 3 of the East Interceptor WW overflow prevention storage tank, including mechanical, electrical components of the tank and construction of a diversion structure and 36-inch relief sewer line.	Non-metro
		Duluth	2011	\$1,293,200	Rehabilitate Highland pump station, removing four existing pumps installing HVAC equip, MCC and SCADA equip, plumbing, electrical, two split case pumps and 800 lineal feet of watermain.	Non-metro
		Duluth	2011	\$3,344,131	Demolition of two elevated water storage tanks and replacement with one elevated tank with a one million gallon capacity and a single pedestal, spheroid design.	Non-metro
		Eagle Lake	2011	\$543,454	Replacement of watermain in locations on 3rd Street, 2nd Street and Parkway Avenue.	Non-metro
		Elgin	2011	\$816,607	Replacement of existing cast iron watermain and lateral service lines, fittings and appurtenances, along with associated pavement restoration, in an older section of the city.	Non-metro

		Elmore	2011	\$343,707	Rehabilitation and expansion of the city's WWT stabilization pond system, along with sewer collection system work. The TMDL funding will be used for the pond expansion	Non-metro
		Forest City TWP	2011	\$86,536	Construction of a midsize community WWTS with a low-pressure collection system consisting of septic tanks and dosing tanks, and a pressurized drain field bed for WWT and disposal.	Non-metro
		Foxhome	2011	\$31,535	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro
		Gilbert	2011	\$1,337,076	Installation of a mechanical bar screen, replacement of trickling filter distribution system, tertiary filter repairs along with structural, electrical, mechanical and other rehabilitation work throughout the existing facility.	Non-metro
		Glyndon	2011	\$1,073,735	Replace and rehabilitate 8,880 feet of existing clay sanitary sewer and replacement of main lift station.	Non-metro
		Grand Lake TWP	2011	\$24,500	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro

		Green-bush	2011	\$1,418,697	Construction of a new package water treatment plant and installation of water meters.	Non-metro
		Hendrum	2011	\$229,684	Construction of well #3 and installation of 138 distribution system water meters.	Non-metro
		Hibbing	2011	\$876,873	Rehabilitate the one million gallon Highland Park elevated water storage tower.	Non-metro
		Hibbing	2011	\$2,500,000	WW and stormwater infrastructure improvements.	Non-metro
		Hibbing	2011	\$1,533,748	Rehab 2ndry plant at class A ww/piping, dredging, lagoon; N/S plant solids; add grit classifier, clarifier roof, vent pump controls,2nd/3rd stage trickling filter bearing sys, mod 1st stage clarifier pump,3rd stage skimmer arm/valves, to chlorine cylinder sys.	Non-metro
		Howard Lake	2011	\$2,508,122	Sanitary sewer improvements.	Non-metro
		Howard Lake	2011	\$2,059,069	Replace watermain.	Non-metro
		Isle	2011	\$215,506	Recoat Water Tower.	Non-metro
		Larsmont Cottages Lk Sup OA	2011	\$9,923	Installation of a new well and sealing an existing well.	Non-metro
		Leaf Valley TWP	2011	\$20,269	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro
		Lester Prairie	2011	\$1,788,806	Installation of water treatment plant for	Non-metro

					iron and manganese removal, and watermain loop along Highway 9.	
		Lonsdale	2011	\$1,210,591	Construction of a new water treatment plant for radionuclides (radium and radon), and installation of a diesel fueled emergency power generator.	Non-metro
		Mankato	2011	\$5,006,168	Lining a segment of 42" gravity sanitary sewer with Cured-In-Place Pipe (CIPP) lining, rehabilitating manholes and constructing a bypass near the Mulberry Street lift station.	Non-metro
		Mantorville	2011	\$528,302	Construction of a WW collection system to serve 20 households with inadequate or out of compliance private septic systems.	Non-metro
		Marshall	2011	\$309,215	Enlargement of the Tiger Lake storm water management pond.	Non-metro
		Medford	2011	\$2,802,176	Construction of a water treatment plant to address radon, iron and manganese in the drinking water, construction of a new water tower, demolition of the old water tower and construction of associated water transmission lines and main.	Non-metro
		Metro-politan Council	2011	\$70,870,121	MCES cash flow financing, multiple projects	Metro
		Middle River	2011	\$437,593	Construction of a new primary pond,	Non-metro

					new lift station and rehabilitation of existing pond dikes and sanitary sewer rehabilitation.	
		Midway TWP (Saint Louis County)	2011	\$630,041	Rehabilitation of a WW collection system owned by Midway TWP.	Non-metro
		Milford TWP	2011	\$190,000	On behalf of Essig Sewer District: TMDL wasteload reduction costs associated with the collection system and forcemain construction to convey WW to the City of Sleepy Eye.	Non-metro
		Milford TWP	2011	\$170,000	On behalf of Essig Sewer District: Collection system and forcemain construction to convey WW to the City of Sleepy Eye.	Non-metro
		Miltona TWP	2011	\$2,447	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro
		Minneota	2011	\$1,436,500	Sanitary sewer improvements, constr related to correction of cross connections between storm and sanitary sewer. Jefferson St from the S Branch Yellow Medicine River to MN TH 68 (Front St) and W on TH 68 to near Washington St and E on TH 68 to Madison St.	Non-metro
		Mora	2011	\$1,565,220	Rehabilitation of water treatment plant.	Non-metro
		Motley	2011	\$2,630,293	Replacement of the existing lift station on main street, 1,684 feet of gravity	Non-metro

					sewer line, a new aeration system, chemical addition for phosphorus removal, a two stage effluent filtration system and UV disinfection.	
		New London	2011	\$1,638,981	Replacement of sanitary sewer mains, manholes and a lift station.	Non-metro
		New London	2011	\$801,430	Replacement of watermains for Birch Street, 1st and 2nd Avenues East, Ash and Cedar Streets North.	Non-metro
		New Munich	2011	\$562,173	Construction of a primary pond and three rapid infiltration basins.	Non-metro
		New York Mills	2011	\$206,096	Replacement of water distribution piping along Highway 67 South, further identified as the 2010 Street and Utility Rehabilitation Project.	Non-metro
		New York Mills	2011	\$99,331	Replacement of sanitary sewer piping along Highway 67 South, further identified as the 2010 Street and Rehabilitation Project.	Non-metro
		Northern TWP	2011	\$19,500	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS for Birchmont Court.	Non-metro
		Norwood Young America	2011	\$5,618,868	Replacing the existing water treatment plant in the north service area with a new 1,000 gallon per minute iron and manganese removal	Metro

				water treatment plant.		
		Odin	2011	\$1,328,058	Construction of gravity WW collection lines and a lift station, along with a forcemain leading to a two cell stabilization pond treatment system, which will also accept WW from the City of Ormsby.	Non-metro
		Ormsby	2011	\$1,000,000	Construction of WW collection lines and a lift station, along with a forcemain that will transmit the city's WW to a treatment site in nearby Odin.	Non-metro
		Owa-tonna	2011	\$8,429,333	Rehabilitation of the city's WWTP, including phosphorus removal and construction of an off-site biosolids storage bunker.	Non-metro
		Pipestone	2011	\$3,474,924	Construction of a 25-acre primary and 25 acre secondary WW stabilization pond adjacent to the existing WWTP.	Non-metro
		Princeton	2011	\$500,000	Construction of WWTP improvements expanded capacity, and tertiary filtration and UV disinfection.	Non-metro
		Red Rock TWP	2011	\$584,380	Engineering, construction and other costs associated with providing the Nicolville area in Red Rock TWP with a new onsite sanitary sewer collection and treatment system.	Non-metro
		Rushford	2011	\$1,396,704	Expansion, repair and upgrade of	Non-metro

					components of the City's existing WWTP.	
		Saint Augusta	2011	\$3,269,993	St. Augusta's financial allocation relating to the expansion, upgrade and improvement at the St. Cloud WWTP.	Non-metro
		Saint Cloud	2011	\$7,736,790	Rehabilitate water treatment plant.	Non-metro
		Saint Paul	2011	\$5,960,000	Demolish and replace the existing Dale Street Reservoir.	Metro
		Saint Paul	2011	\$23,107,000	Replace approximately 1,600 lead service lines and replace or retrofit approximately 93,270 water meters.	Metro
		Sauk Centre	2011	\$6,596,236	Improve wastewater treatment facility	Non-metro
		Sherburn	2011	\$1,296,848	Rehabilitation of the existing WWTP, including conversion of the existing anaerobic digester to storage with aeration, and sewer collection system work along First Street, from Elm to Osborne South.	Non-metro
		Sportsman's Last Chance Inc.	2011	\$4,872	Install water treatment equip incl Grundfos MQ345 self-priming multistage pump, GE Homespriing Model UF211 ultrafiltration membrane unit, 2 165-gallon atmospheric storage tanks, 1 Stenner Model 45MHP10 chemical feed mechanism	Non-metro

					with 15 gallon poly tank.	
		Trosky	2011	\$18,300	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro
		Truman	2011	\$393,771	Construction of a storm sewer outlet to Judicial Ditch 47, to relieve infiltration and inflow to the city's WWTP.	Non-metro
		Tyler	2011	\$5,396,215	Loop and replace watermain and install a 150,000 gallon elevated water storage tank.	Non-metro
		Verndale	2011	\$336,932	Replace existing sewer line with conventional digging on Fifth Ave. South between Brown St and Farwell St and on alley 2 and alley 3 between First Ave South and Third Ave South.	Non-metro
		Warren	2011	\$362,774	Improvements to the lift station and collection systems; replacement of sewer lines in 7th St, Fletcher Ave, Ross Ave, 1st St N, 5th St, Marshall and Park Ave, 4th St; in other places it will be relined or replaced.	Non-metro
		Warren	2011	\$394,424	Replacement of cast iron watermain for 7th St and Pleasant Ave w/90 ft of 6-inch and 2,210 ft of 8-inch polyvinyl chloride watermain. Eligible costs include installing fittings, gate valves, boxes,	Non-metro

					hydrants, curb stops and lateral leads.	
		Watson	2011	\$1,502,344	Replacement of the City's existing WW collection system as well as a lift station and forcemain that will run from Watson to the City of Montevideo.	Non-metro
		Western Lake Superior SD	2011	\$234,360	Rehabilitation of the existing Hermantown interceptor.	Non-metro
		Western Lake Superior SD	2011	\$540,030	Rehabilitation of the existing Woodland interceptor.	Non-metro
		Western Lake Superior SD	2011	\$991,190	Construction of a 114,000 gallon capacity storage overflow tank at the existing Pike Lake pump station.	Non-metro
		Western Lake Superior SD	2011	\$5,079,385	Reconstruction of the existing Polk Street collection system pump station along with construction of a 1 million gallon sewage overflow tank.	Non-metro
		Williams	2011	\$2,800,000	Corrective action on a WWTS built since 2001 with federal funds.	Non-metro
		Wilmont	2011	\$714,321	Remove and replace the 3rd, 4th and 5th Avenue watermain segments.	Non-metro
		Winnebago	2011	\$3,538,722	Rehabilitation of WW treatment plant, which also serves the unincorporated community of Huntley. Includes addition of a phosphorus removal system and cured-in-place (CIP) sewer lining along	Non-metro

					Hwy 169 in Winnebago, and sewer service replacement.	
		York TWP	2011	\$21,858	Technical assistance grant to facilitate the proper design, installation, and management of proposed onsite WWTS.	Non-metro
		Albertville	2012	\$3,513,551	Improve the interchange including reconfiguration of the existing CSAH 19 and CSAH 37. The proposed collector would connect the half diamond interchange at Wright County CSAH 19 with a full diamond interchange at CSAH 37.	Non-metro
		Alexandria LASR	2012	\$228,823	Additional legal and engineering costs incurred associated with MPCA 2006 PPL/IUP Project No. 272468-01.	Non-metro
		Barnesville	2012	\$512,203	Sanitary sewer rehabilitation for Front Street.	Non-metro
		Barnesville	2012	\$537,082	Water main replacement for Front Street.	Non-metro
		Bearskin Lodge	2012	\$8,534	Installation of three GE Homespring UF211 ultra-filtration units for water treatment.	Non-metro
		Benson	2012	\$3,431,145	Rehabilitation of water treatment plant including demolition and removal of existing plant equipment, including existing filters, chemical feed equipment, and all interior process piping.	Non-metro

		Bertha	2012	\$1,315,000	Rehabilitation of the collection system, a new lift station, a new force main, and a new waste stabilization pond system to replace the existing mechanical plant.	Non-metro
		Blue Earth	2012	\$529,757	Improvements and repairs to the primary anaerobic digester tank, replacement of the secondary anaerobic digester floating cover and replacement of the air lines to the aeration basins, with associated mechanical, electrical and site work.	Non-metro
		Central Iron Range SSD	2012	\$3,687,048	Rehabilitation of Kinney lift station and construction of new lift stations for Buhl and Chisholm and new forcemain for Buhl.	Non-metro
		Central Iron Range SSD	2012	\$16,361,329	Decommissioning two aging WWTPs and construction of one new facility to service both areas as detailed in the plans and specifications approved by the MPCA on June 29, 2010.	Non-metro
		Chisago County	2012	\$17,000	Small Community WWT program technical assistance.	Non-metro
		Cleveland	2012	\$530,370	Replacement and looping of watermain	Non-metro
		Deer-wood	2012	\$450,883	East watermain supply improvement.	Non-metro
		Dover-Eyota-Saint Charles SD	2012	\$1,567,234	Rehabilitation of the District's existing WWTP,	Non-metro

					<p>serving the communities of Dover, Eyota and St. Charles.</p>	
		Duluth	2012	\$1,390,743	<p>Cured-In-Place-Pipe rehabilitation of 41,833 lineal feet of existing vitrified clay pipe sewer lines in Basin 2 in the Lakeside neighborhood of Duluth.</p>	Non-metro
		Duluth	2012	\$1,395,587	<p>Sewer system rehabilitation and replacement in the Riverside neighborhood.</p>	Non-metro
		Duluth	2012	\$1,221,631	<p>Replace watermain in Riverside w/9,530 ft 8-inch high density polyethylene. Install fittings, gate valves, boxes, hydrants, curb stops, and lateral leads. Proportionate costs for excavating, backfilling, aggregate, restoring roadway and related.</p>	Non-metro
		Duluth	2012	\$1,395,898	<p>Installation of 3400 lineal feet of 16" HDPE sanitary sewer forcemain along with various improvements to lift station No. 45 including upgrading from 32-hp pumps to 50-hp pumps.</p>	Non-metro

		Evansville	2012	\$319,504	<p>Phosphorus removal improvements include construction of</p>	Non-metro

				boat access in the secondary pond and a storage building.		
		Evansville	2012	\$466,601	Replacing watermain for CSAH 1 & 5 and a one block section for First Avenue.	Non-metro
		Fairfax	2012	\$1,034,260	Replace water tower and install automated reading meters.	Non-metro
		Fairmont	2012	\$33,082,306	Construction of a new drinking water treatment plant and demolition of the old plant.	Non-metro
		Fosston	2012	\$6,840,082	Construction of two new 6.0 acre aerated ponds, the elimination of the 1.5 acre pre-aeration pond and conversion of primary pond cell #2 to a secondary cell.	Non-metro
		Hamburg	2012	\$290,242	Construction of sanitary sewer improvements.	Metro
		Hidden Valley Mgmt.	2012	\$6,381	Rehabilitate a mobile home community well that exceeded the public health standards for radionuclides.	Non-metro
		Isanti	2012	\$785,125	Replace wellhouse #1, loop watermain at Bluebird Park and replace water meters.	Non-metro
		Kasson	2012	\$994,038	Major rehabilitation and expansion of their existing WWTP.	Non-metro
		Lafayette	2012	\$1,068,000	Construction of improvements to the sanitary sewer system.	Non-metro
		Lake Park	2012	\$1,000,000	Sanitary sewer rehabilitation.	Non-metro
		Long Prairie	2012	\$4,821,000	Expand WWTS.	Non-metro

		Madison Lake	2012	\$820,008	Construction of a new, 200,000 gallon water tower, and demolition of the old, 60,000 gallon water tower.	Non-metro
		Metro-politan Council	2012	\$60,000,000	MCES cash flow financing, multiple projects	Metro
		Minn. DNR	2012	\$10,000	Install a new Well #9 and associated pumps in Afton State Park. Seal the old well.	Metro
		Minn. DNR	2012	\$1,597,175	Re-construction of a 5.3-mile segment of Trunk Highway 1 in Lake from Forest Road #424 to 0.17 miles north of Forest Road #553.	Metro
		Minneapolis	2012	\$1,463,466	Convert 5-1/2 blocks of urban roadway to a pedestrian walkway with rain gardens. Underground flood storage component funded with non-PFA funds.	Metro
		Minnesota City	2012	\$1,876,371	Assess the condition of existing septic systems, propose alternatives to remedy failing systems, and assist with design selection.	Non-metro
		Montevideo	2012	\$161,967	WWTP modifications phase 2- new storage building.	Non-metro
		Morton	2012	\$1,689,000	Construction of a WW collection system for an unincorporated area around Roberds Lake, along with a transmission line to the city of Faribault.	Non-metro
		New Richland	2012	\$2,142,895	Rehab WWTS, replace lift station	Non-metro

				and sanitary sewer line.		
		Nisswa	2012	\$1,500,000	Construction of a pedestrian tunnel under T.H. 371 to connect Nisswa Lake Park and downtown Nisswa; City's cost share of MNDOT 1810-92(T.H. 371) & Crow Wing County State Aid HWY 18 construction.	Non-metro
		North Koochiching ASD	2012	\$14,344,087	Existing secondary treatment plant rehabilitation, tertiary treatment addition (advanced) and sewer system rehabilitation.	Non-metro
		Nuss Truck and Equip.	2012	\$3,378	Installation of two water parallel plumbed Kinetico filters to solve treatment problem.	Non-metro
		Olivia	2012	\$9,013,288	Rehabilitate collection and treatment systems.	Non-metro
		Olivia	2012	\$6,346,478	Rehabilitate water treatment plant and water tower, modify well #5 and install watermains.	Non-metro
		Oronoco	2012	\$39,937	Small Community WWT program technical assistance grant for Oronoco's historic downtown area.	Non-metro
		Oronoco TWP	2012	\$24,000	Construction of a sewage collection and treatment system for fourteen properties in the King's Park portion of Oronoco TWP, all of which have failing or out of compliance septic systems.	Non-metro
		Perham	2012	\$337,745	Replace watermain on Southside/5th Ave SE.	Non-metro

		Perham	2012	\$148,475	Replace watermain on Southside/5th Ave SE.	Non-metro
		Plainview	2012	\$275,304	Replacement of undersized, cast iron watermain on East Broadway, in conjunction with a larger roadway project.	Non-metro
		Plummer	2012	\$422,134	Replace well #2 with well #3; rehab the water treatment filtration system; and recoat the interior of the water tower all as detailed in the MN Dept. of Health's certification dated 09/19/11.	Non-metro
		Quamba	2012	\$780,000	Construction of new ww collection system, lift station, and forcemain.	Non-metro
		Ramsey-Washington MWD	2012	\$1,250,000	Improvements to the Maplewood Mall parking lot including tree trenches, rain gardens, planted end islands and renovations to 4 mall entrances.	Metro
		Rush City	2012	\$920,505	Replace Trunk sanitary sewer along CSAH 1 (4th Street) and CSAH 30 (Bremer Avenue) as part of the TH361 Turnback Project.	Non-metro
		Sioux Valley Trinity Lutheran Church	2012	\$8,476	Connect to Lincoln-Pipestone Rural Water and seal the old well.	Non-metro
		Starbuck	2012	\$1,561,542	Upgrade WWTS to include phosphorus treatment.	Non-metro
		Trails Echo Lake LLC	2012	\$10,000	New well with 6-inch diameter steel casing, extending 52 feet; continue to a total depth of 375 feet, terminating in bedrock. The	Non-metro

				wellhead will be completed with a pitless adaptor, a submersible pump and a one horsepower motor.		
		Ulen	2012	\$1,538,613	Sanitary sewer rehabilitation.	Non-metro
		Virginia	2012	\$18,042,427	Reconfiguration and enlargement of a stormwater sediment pond, and the addition of rate control, groundwater recharge and filtration.	Non-metro
		Wadena	2012	\$3,811,009	Improve WWTS.	Non-metro
		Waverly	2012	\$335,613	Installation of PVC watermain and removal of watermain and appurtenances.	Non-metro
		Welcome	2012	\$753,307	Improvements to the existing mechanical WWTP.	Non-metro
		Western Lake Superior SD	2012	\$5,310,310	Rehabilitation of various segments of the Scanlon interceptor mainly through the use of Cured-In-Place Pipe (CIPP) lining along with pipe replacement.	Non-metro
		Western Lake Superior SD	2012	\$478,998	Rehabilitation of the Proctor interceptor next to the 35W road crossing.	Non-metro
		Western Lake Superior SD	2012	\$2,235,959	Upgrade the electrical power system at the WWTP.	Non-metro
		Wheaton	2012	\$2,161,816	Sanitary Sewer Rehabilitation-Phase III	Non-metro
		Austin TWP	2013	\$7,000	Development of a Community Assessment Report (CAR) and other tasks, for the Turtle Creek 1 area, in preparation for a	Non-metro

					potential Small Community WW construction project.	
		Austin TWP	2013	\$10,250	Development of a Community Assessment Report (CAR) and other tasks, for the Turtle Creek 2 area, in preparation for a potential Small Community WW construction project.	Non-metro
		Barnum	2013	\$61,968	Installation of 330 lineal feet of 8-inch ductile iron watermain, 20 lineal feet of 6-inch ductile iron watermain, one hydrant and one gate valve.	Non-metro
		Caledonia	2013	\$1,884,688	Rehabilitation and replacement of sanitary sewer to reduce inflow/infiltration, replacing a lift station and replacing individual water meters used for billing of WW service.	Non-metro
		Duluth	2013	\$2,382,685	Sewer system rehabilitation phase 2 using cured-in-place pipe (CIPP) technology in the Basin 24 area.	Non-metro
		Duluth	2013	\$322,331	Lift Station Number 39 Improvements.	Non-metro
		Erskine	2013	\$1,277,250	Construction of a new 150 gallon per minute filtration plant receiving water from two existing wells and removing iron and manganese.	Non-metro
		Greenbush	2013	\$841,312	Installation of 3,654 lineal feet of 6-inch C900 PVC watermain, 9	Non-metro

					hydrants and 27 gate valves and replacement of water service lines to the curb stop.	
		Hibbing	2013	\$7,912,830	Addition of tertiary treatment to the City's WWTP consisting of five rectangular dual media (sand/anthracite) filters each with 12 inches of sand and 18 inches of anthracite and a surface area of 407 feet (squared) each.	Non-metro
		Jackson	2013	\$2,728,116	Rehab approx 48,500 feet of existing sanitary sewer collection system and 176 manholes. The sanitary sewer improvements will be made by installing cured-in-place-pipe (CIPP).	Non-metro
		Karlstad	2013	\$1,862,083	Installation of 10,444 lineal feet of 6-inch C900 PVC watermain, 18 hydrants and 70 gate valves and replacement of water service lines to the curbstop.	Non-metro
		Lansing TWP	2013	\$598,294	Construction of a low pressure sanitary sewer collection system with grinder pumps to serve the Andyville East area, with connection to the Lansing TWP treatment ponds, to help resolve TMDL issues in two river basins.	Non-metro
		McIntosh	2013	\$1,533,018	Replacement of all VCP mains with PVC mains within the project area. All	Non-metro

				service holes will be replaced with precast concrete structures and a new lift station will be installed to correct the elevation difference in the system.		
		McIntosh	2013	\$471,171	Replacing 340 lineal feet of 6-inch and 2,735 lineal feet of 8-inch polyvinyl chloride watermain and install valves and hydrants.	Non-metro
		Metropolitan Council	2013	\$40,000,000	MCES cash flow financing, multiple projects	Metro
		Mountain Lake	2013	\$7,280,435	Rehabilitate collection system.	Non-metro
		Mountain Lake	2013	\$179,847	Watermain loop 6th and 11th Streets.	Non-metro
		New Hope	2013	\$1,035,000	Installation of 6,280 lineal feet of 12-inch watermain, 1,245 lineal feet of 8-inch ductile iron watermain, 900 lineal feet of 6-inch ductile watermain, 100 lineal feet of 4-inch ductile iron watermain, 16 hydrants, 13 butterfly valves and 48 gate valves.	Metro
		New-folden	2013	\$533,066	Installation of approximately 3,250 lineal feet of 6-inch watermain.	Non-metro
		Paynes-ville	2013	\$3,044,364	Construction of a new main lift station and rehabilitation of an aerated pond system, spray irrigation lift station and spray irrigation equipment.	Non-metro

				3.5 Ave. SE, and Sixth Street SE.		
		Pelican Rapids	2013	\$645,575	Utility and street improvements within portions of 5th Street SE., 7th Ave. SE, 8th Ave. SE, 3.5 Ave. SE, and Sixth Street SE.	Non-metro
		Perham	2013	\$3,728,235	Expand WWTP.	Non-metro
		Ramsey-Washington MWD	2013	\$1,569,623	Improvements to the Maplewood Mall parking lot including tree trenches, rain gardens, planted end islands and renovations to 4 mall entrances.	Metro
		Roseland TWP	2013	\$1,283,584	Construction of a WW collection and stabilization pond system for an unsewered community.	Non-metro
		Rushford Village	2013	\$305,167	Construction of a new well to remedy elevated radium levels in the existing well, watermain to convey water to the existing pumphouse, and connection to the existing system within the pumphouse.	Non-metro
		Steele County	2013	\$753,289	Construction of a collection system and community WWTS for the east side of Bixby, an unincorporated area in Steele County, to help resolve TMDL issues in two river basins.	Non-metro
		Stewart	2013	\$704,888	Replace and loop watermain.	Non-metro
		Stewart	2013	\$819,578	Improvements to existing sanitary sewer collection system.	Non-metro

		Upper Sioux Indian Cmty.	2013	\$750,000	Upper Sioux Community Water System.	Non-metro
		Warren	2013	\$972,472	Construction of a new 200,000 gallon spheroid style elevated water storage tank which includes installation of 60 lineal feet of 12-inch C900 PVC watermain and a new 6-inch hydrant.	Non-metro
		Western Lake Superior SD	2013	\$5,195,750	Sewer system rehabilitation project for Scanlon, Phase 2 (Area 3).	Non-metro
		Western Lake Superior SD	2013	\$4,384,436	Sewer system rehabilitation for the Cloquet interceptor using cured-in-place pipe lining.	Non-metro
		Western Lake Superior SD	2013	\$153,663	Proctor Interceptor Replacement.	Non-metro
		Western Lake Superior SD	2013	\$1,999,565	Slope Stabilization / Scanlon Interceptor (Division D).	Non-metro
		Western Lake Superior SD	2013	\$2,029,521	Scanlon (Division D) Interceptor and Support Pier Restoration.	Non-metro
		Western Lake Superior SD	2013	\$2,059,132	Rehabilitation of the Scanlon Interceptor, Phase 3, which includes MH D080 to MH D068.	Non-metro
		Albert Lea	2014	\$1,000,000	Improvements to water and sewer utilities in the area of Broadway Avenue and Main Street, including demolition of deteriorating concrete curbs, gutters, sidewalks and streets above the utilities.	Non-metro
		Backus	2014	\$1,628,000	Construction of a new lift station and six-inch forcemain	Non-metro

				along the Paul Bunyan State Trail between Backus and Pine River, the project also includes the abandonment of the existing treatment system.		
		Belgrade	2014	\$955,000	Rehabilitation of the sanitary sewer system.	Non-metro
		Blue Earth	2014	\$394,873	Repair and replacement of sewer lines and manholes, as part of MN DOT's reconstruction of State Trunk Highway 169.	Non-metro
		Browerville	2014	\$1,239,330	To replace water, storm water and sanitary sewer systems, lighting and pedestrian facilities on US Highway 71 from Drayer Creek to Harris Creek and on 5th Street from the alley west of US Highway 71 to Railroad Avenue.	Non-metro
		Cam-bridge	2014	\$13,105,093	Construction of new oxidation ditch/clarifier system, chemical phosphorus removal, and other miscellaneous improvements to the WWTP.	Non-metro
		Cosmos	2014	\$905,941	Watermain replacment for Highway 4 and CSAH 43.	Non-metro
		Darwin	2014	\$1,207,419	Construction of a new filtration plant.	Non-metro
		Dassel	2014	\$778,420	Sanitary sewer rehabilitation and replacement work, relocation of the Maple Street Lift Station, and rehabilitation of the	Non-metro

				Fifth Street Lift Station.		
		Dassel	2014	\$274,742	Installation of watermain and gate valves.	Non-metro
		Duluth	2014	\$4,778,806	Roof demolition and replacement, W Duluth Reservoir and associated valve chamber. Replace existing valves, repairs to existing walls, floor and column.	Non-metro
		Dundee	2014	\$1,199,285	Construction of a new two cell stabilization pond facility to serve an unsewered community.	Non-metro
		Eden Valley	2014	\$470,625	Sanitary sewer replacement between Trunk Highway 22 and Hutcheson Avenue.	Non-metro
		Eden Valley	2014	\$871,645	Replace watermain - Trunk Highway 22.	Non-metro
		Elbow Lake	2014	\$310,542	Improvements to the sanitary sewer collection system by replacing the unstable sanitary sewer structures with polyvinyl (PVC) piping, replacing and/or rehabilitating manholes.	Non-metro
		Elbow Lake	2014	\$467,794	Installation of 1,625 lineal feet of 6-inch C-900 PVC watermain, 700 lineal feet of 8-inch C-900 PVC watermain, 5 hydrants and 16 gate valves.	Non-metro
		Eveleth	2014	\$57,666	Installation of 157 lineal feet of 16-inch ductile iron watermain, 3,572 lineal feet of 6-inch ductile iron watermain, 40 lineal feet of 4-inch	Non-metro

					ductile iron watermain, 8 hydrants and 24 gate valves.	
		Excelsior	2014	\$837,361	Construct a 70,000 gallon backwash reclaim tank and modifications to piping and related controls.	Metro
		Fosston	2014	\$552,223	Rehabilitation of industrial park lift station and pretreatment facility improvements.	Non-metro
		Gibbon	2014	\$2,197,983	Construction of a new water treatment plant and new clearwell, modifications to wells 1 and 2, associated watermain work and demolition of the old water treatment plant and pumphouse.	Non-metro
		Glenwood	2014	\$768,145	Installation of a 350,000 gallon above grade storage reservoir, 200 lineal feet of 12-inch watermain and 120 lineal feet of 8-inch watermain, and the addition of an altitude valve, valve vault, additional SCADA upgrades and security fencing.	Non-metro
		Hanska	2014	\$923,146	Replacement of watermain, hydrants and valves along Broadway and a portion of 2nd Street.	Non-metro
		Henning	2014	\$2,596,463	Improvements to the sanitary sewer collection system by replacing the unstable sanitary sewer structures	Non-metro

					with polyvinyl (PVC) piping and replacing four pump stations.	
		Henning	2014	\$1,907,789	Installation of 4,340 lineal feet of 6-inch C-900 PVC watermain, 26 gate valves and 13 hydrants.	Non-metro
		Kenyon	2014	\$1,828,630	Rehabilitation of the city's existing WWTP and some repair and replacement of sanitary sewer main and associated sewer laterals.	Non-metro
		Lewiston	2014	\$593,000	Construction of a wastewater treatment equalization basin, updated lift station pumps and controls, and decommissioning of the old stabilization pond.	Non-metro
		Mankato	2014	\$628,193	Reconfiguration and enlargement of a stormwater sediment pond, and the addition of rate control, groundwater recharge and filtration.	Non-metro
		Mankato	2014	\$524,085	Extension of a sanitary sewer collection line to the Knollwood Mobile Home Park, to replace failing onsite systems.	Non-metro
		Maple Lake	2014	\$1,273,927	Collection System Rehabilitation.	Non-metro
		Mapleton	2014	\$1,793,391	Rehabilitation of the wastewater ponds, construction of forcemain, lift station improvements, and replacement/rehabilitation of sewer mains and manholes.	Non-metro

		Metropolitan Council	2014	\$60,929,494	MCES cash flow financing, multiple projects	Metro
		Motley	2014	\$3,614,867	Construction of a new 425 gallon per minute water treatment plant, and piping modifications to the existing well house.	Non-metro
		Northrop	2014	\$1,465,000	WW stabilization pond rehabilitation and collection system improvements.	Non-metro
		Oronoco TWP	2014	\$563,517	Construction of a sewage collection and treatment system for fourteen properties in the King's Park portion of Oronoco TWP, all of which have failing or out of compliance septic systems.	Non-metro
		Oronoco TWP	2014	\$37,798	Small community wastewater treatment program technical TA grant for the TWP's Cedar Beach area.	Non-metro
		Park Rapids	2014	\$1,636,348	Construction of a water treatment plant, backwash holding tank, construction of Well No. 9 and installation of 120 lineal feet of 10-inch C900 watermain.	Non-metro
		Paynes-ville	2014	\$3,583,357	Rehabilitation of existing water treatment plant.	Non-metro
		Pelican Rapids	2014	\$7,960,380	Improvements to preliminary treatment by adding screening and vortex grit system, construction of a new secondary system by adding moving bed	Non-metro

					biological reactor (MBBR), improvements in disinfection system and solids handling.	
		Prior Lake	2014	\$243,882	Provide sanitary sewer service to unsewered homes through the CSAH 12 and Sunset Avenue projects.	Metro
		Raymond	2014	\$2,012,000	Construction of a new 3 cell stabilization pond system that will provide storage capacity to meet TMDL requirements.	Non-metro
		Red Rock TWP	2014	\$6,885	Development of a Corrective Action Report, along with other tasks, for the Nicolville Subordinate Service District.	Non-metro
		Rice County	2014	\$5,286,291	Construction of a WW collection system for an unincorporated area around Roberds Lake, along with a transmission line to the city of Faribault.	Non-metro
		Richmond	2014	\$858,890	Installation of watermain, hydrants and gate valves.	Non-metro
		Saint Anthony Village	2014	\$247,442	Installation of an alum dosing treatment system for phosphorus removal.	Non-metro
		Saint Paul	2014	\$2,200,000	Construction of an additional filter press at the McCarrons water treatment plant.	Metro
		Saint Paul Park	2014	\$960,953	Recoating and structural modifications and repairs to the 750,000 gallon hydropillar style	Metro

				elevated storage tank.		
		Stewart	2014	\$190,141	Improvements to existing sanitary sewer collection system.	Non-metro
		Stewart	2014	\$140,853	Replace and loop water main.	Non-metro
		Swanville	2014	\$1,258,524	Installation of 4,060 lineal feet of 8-inch C900 PVC watermain, 180 lineal feet of 6-inch C900 PVC watermain, 7 hydrants and 21 gate valves.	Non-metro
		Willmar	2014	\$2,345,424	Construction of gravity sewer pipe and associated structures (Western Interceptor Sewer).	Non-metro
		Audubon	2015	\$2,063,210	Source-Two New Wells, Treatment-New Plant, Watermain-Replace and Loop, Hydrants, Conservation-Replace Meters.	Non-metro
		Austin	2015	\$496,931	Extension of sanitary sewer lines to a recently-annexed area of the city known as Turtle Creek 1, to eliminate a public health threat due to non-functioning and non-compliant onsite treatment systems	Non-metro
		Biscay	2015	\$1,332,088	Construction and installation of a pressure and gravity sanitary sewer, main lift station, grinder pumps, septic tanks, force main and mound treatment system as well as decommission of existing septic tanks.	Non-metro

		Brooklyn Center	2015	\$19,662,352	Construction of a new 10 million gallons per day water treatment plant, clearwell and backwash reservoir, ground storage reservoir and backwash reclaim tank.	Metro
		Browns Valley	2015	\$2,091,000	Collection system rehab and construction of upgrades to a Class D wastewater treatment facility. Removal of old mechanical treatment plant.	Non-metro
		Canby	2015	\$4,266,964	Replacement of approximately 18,400 lineal feet of sanitary sewer.	Non-metro
		Canby	2015	\$4,562,990	Installation of 568 lineal feet of 6-inch C-900 PVC watermain, 17,024 lineal feet of 8-inch PVC watermain, 40 hydrants and 100 gate valves.	Non-metro
		Carver County	2015	\$15,835,245	Southwest Reconnection Project	Metro
		Central Iron Range SSD	2015	\$458,637	Decommissioning of Buhl and Chisholm's wastewater treatment plants.	Non-metro
		Cologne	2015	\$839,216	Replace and loop water main.	Metro
		Crow Wing County	2015	\$1,301,730	Collection system improvements including new aerobic treatment system with denitrification prior to subsurface soil disposal	Non-metro
		Duluth	2015	\$4,304,234	Cured-In-Place-Pipe Phase 3 rehab of existing vitrified clay pipe sewer lines in Basin 23, 19 and 18.	Non-metro

		Elbow Lake	2015	\$1,816,999	Improvements to the sanitary sewer collection system by replacing unstable sanitary sewer structures with PVC piping, replace and/or rehabilitate manholes.	Non-metro
		Elbow Lake	2015	\$1,982,844	Installation of 6,349 lineal feet of 6-inch C-900 PVC watermain, 3,809 lineal feet of 8-inch C-900 PVC watermain, 18 hydrants and 79 gate valves.	Non-metro
		Elko New Market	2015	\$10,194,232	Construct treatment to remove radium, rehabilitate storage tower and add an additional well.	Metro
		Evansville	2015	\$2,918,146	Rehab collection system-phase 2.	Non-metro
		Evansville	2015	\$1,752,652	Installation of 3,245 lineal feet of 6-inch C-900 PVC watermain and 5,473 lineal feet of 8-inch PVC watermain.	Non-metro
		Fillmore County	2015	\$1,357,940	Construction of low pressure and gravity sanitary sewer lines and a wastewater treatment system for thirty-five households in the Greenleafon Subordinate Service District (SSD) - PSIG.	Non-metro
		Fosston	2015	\$1,055,892	Watermains, 4 hydrants and 10 gate valves, and an alternate bid, which includes the installation of various watermains, 4 hydrants and 17 gate valves.	Non-metro
		Hayfield	2015	\$2,056,627	Improvements to the city's	Non-metro

				wastewater treatment system, including those that will bring the city into compliance with the phosphorus limits of its wastewater permit.		
		Hayward	2015	\$242,684	Wastewater improvements.	Non-metro
		Hazel Run	2015	\$512,000	Will consist of eight individual Type I mound systems, two Type I cluster mound systems, and two Type V cluster mound systems.	Non-metro
		Herman	2015	\$1,259,212	Construction of a new 125 gallon per minute water treatment plant and demolition of the existing plant.	Non-metro
		Kandiyohi	2015	\$1,630,400	Replacement and rehabilitation of mains and manholes	Non-metro
		Kandiyohi	2015	\$2,157,600	Replace watermain on North Side	Non-metro
		Kennedy	2015	\$128,955	Installation of 91 lineal feet of 6-inch C-900 PVC watermain, 140 lineal feet of 8-inch HDPE watermain and 5 gate valves.	Non-metro
		Lanesboro	2015	\$3,529,097	Extensive improvements to the city's drinking water system, including work that will reduce Radium 226 and 228 to within standards issued by the EPA, along with related engineering and financing costs.	Non-metro
		Lewis and Clark JPB	2015	\$22,000,000	Construction grant for the Lewis & Clark Regional Water System for Minnesota Phase I.	Non-metro

		Mankato	2015	\$6,495,931	Primary and secondary clarifier improvements at the existing wastewater treatment facility.	Non-metro
		Mankato	2015	\$540,773	Extension of a sanitary sewer collection line to the Schaeffer's Addition area, to replace failing onsite systems	Non-metro
		Mankato	2015	\$111,173	Sanitary sewer line rehabilitation	Non-metro
		Metro-politan Council	2015	\$70,000,000	MCES cash flow financing, multiple projects	Metro

**H.5 Reduced Carbon Emissions in Electricity Sector by 6.5 Percent**

Governor Dayton was a strong supporter of strategies that reduce carbon pollution. The Governor understood that pro-climate policies were good for public health, the environment, and jobs and the economy. Under his leadership, carbon emissions in the electricity sector dropped by 6.5 percent. During his two terms, Governor Dayton proposed and signed into law a number of critical programs to support additional progress:

- **Solar Energy Renewable Energy Standard** – Governor Dayton signed into law a solar energy standard for Minnesota in 2013, establishing that 1.5 percent of electricity should come solar by 2020 and 10 percent by 2020. In 2017, 715 MW<sub>DC</sub> (600 MW<sub>AC</sub>) solar PV<sup>1</sup> was

		<p>generated contributing 1.2 percent of energy generated in Minnesota.</p> <ul style="list-style-type: none"> <li>• <b>Value of Solar Reimbursement</b>– to further drive growth in Minnesota’s solar industry, Governor Dayton also signed a provision directing the Minnesota Public Utility Commissioner to establish a method of calculating the true “value of solar” rate to compensate solar generators. This rate reflects avoided expenses such as avoided construction cost for new power plants and transmission lines, and reduced transmission and distribution line losses.</li> <li>• <b>Nation-Leading Community Solar Gardens</b> – Governor Dayton approved a bill in 2013 allowing Minnesotans to participate in Community Solar Gardens along with other subscribers. A share of the electricity generated by the project is credited to each subscriber’s utility bill. The gardens offer Minnesotans the opportunity to benefit from solar energy without installing a system at their home. As of June 2018, Minnesota has 423 MW of Community Solar statewide representing nearly half of Minnesota’s total solar capacity. Thanks to these investments, Minnesota is the national leader in community solar garden electricity production.</li> <li>• <b>“Made in Minnesota” Solar Incentives</b> – From 2013 to 2017, the Made in Minnesota program provided Minnesotans who installed Minnesota-made solar panels an annual incentive payment for 10 years based on the system’s electricity production. For owners of solar thermal systems, the program offers a one-time rebate up to 25 percent of the installed cost.</li> <li>• <b>Launched Renewable Connect Program</b> – In 2016, the Dayton Administration announced a new partnership with Xcel Energy called the Renewable*Connect Government Pilot Program. The new initiative ensures that 33 percent of the base energy used at the State Capitol Complex comes from renewable sources. In addition to reducing the state’s dependency on fossil fuel energy, the partnership is expected to save taxpayers about \$100,000 over the life of the agreement.</li> </ul>
<p><b>H.6</b></p>	<p><b>63 Percent Increase in “Good” Air Quality Days; 24 Percent Drop in Emissions</b></p>	<p>Governor Dayton has strongly supported strategies that reduce carbon pollution. The Governor understood that pro-climate policies were good for public health, the environment, jobs and the economy. Under Governor Dayton’s leadership, Minnesota saw a significant improvement in air quality:</p>

		<ul style="list-style-type: none"> <li>• <b>63 Percent Increase in “Good” Air Days</b> – In 2011, only 46 percent of days had “good” air quality. In contrast, 75 percent of days in 2016 were marked by “good” air quality, a 63 percent increase.</li> <li>• <b>24 Percent Drop in Emissions</b> – Statewide emissions from all sources have decreased by 24 percent between 2011 and 2016.</li> <li>• <b>35 Percent Drop in Permitted Emissions</b> – Emissions from permitted facilities have decreased by 35 percent between 2011 and 2015.</li> </ul> <p>With the support of the Dayton Administration, the Pollution Control Agency targeted efforts in communities with the highest levels of air pollution. Cleaner air improves our health and means fewer missed work and school days and less spending on air pollution-related illness.</p>
<p><b>H.7</b></p>	<p><b>Secured \$350 Million for Wildlife Habitat and Water Quality</b></p>	<p>In 2017, Governor Dayton signed an agreement with U.S. Department of Agriculture, securing \$350 million in federal funding to protect wildlife habitat and improve water quality in 60,000 acres across 54 Minnesota counties. The Minnesota Conservation Reserve Enhancement Program (CREP), will target areas of southern and western Minnesota facing significant water quality challenges, to protect and improve our natural resources for future generations.</p> <p>Through the Minnesota CREP, farmers and agricultural landowners could voluntarily enroll land in the Conservation Reserve Program (CRP) and Reinvest in Minnesota (RIM) Reserve easement program to create buffers, restore wetlands, and protect wellheads for drinking water. Farmers and other landowners who voluntarily participated in the program were eligible for \$350 million in federal funds for direct payments to farmers.</p> <p>Governor Dayton worked with the Legislature to secure \$116 million in state funding for the Conservation Reserve Enhancement Program (CREP). This unlocks an additional \$271 million dollars in federal funding for CREP. Buffers and other water quality practices on agricultural land can be put into CREP.</p>
<p><b>H.8</b></p>	<p><b>Implementing Conservation Practices on More Than 450,000 Acres of Land</b></p>	<p>In 2012, Governor Dayton signed a Memorandum of Understanding with the federal government that formalized a state-federal commitment to developing and implementing the Minnesota Ag Water Quality Certification Program. The program is a voluntary opportunity for farmers and agricultural landowners to</p>

		<p>take the lead in implementing conservation practices that protect our water.</p> <p>To date, the program has enrolled over 680 producers and more than 450,000 acres of Minnesota farm land since it began as a pilot in 2013. This program has added 1,300 conservation practices, kept over 48.1 million pounds of sediment out of Minnesota rivers, saved 122 million pounds of soil and 28,291 pounds of phosphorous on farms, and reduced nitrogen losses by up to 49 percent. The MAWQCP has also partnered with Land O' Lakes Inc. to expand this innovative program.</p>
H.9	<b>Expanded the Twin Cities Regional Park System by 1,275 Acres</b>	<p>Under Governor Dayton's leadership, the Metropolitan Council preserved an additional 2,244 acres of green space for future generations of Minnesotans to enjoy, an increase of more than 3 percent from 2011. Investments in regional parkland also help to protect sensitive environmental areas and improve park experiences for visitors. Thanks to these investments, annual visits to Twin Cities regional parks grew to 58.3 million in 2017, an increase almost 25 percent from 2011.</p>
H.10	<b>Acquired 117 Square Miles of Land for Conservation and Enjoyment by Future Generations</b>	<p>Governor Dayton is a committed advocate for environmental conservation efforts throughout his two terms. He understood that preserving Minnesota's land and water resources was critical to protecting our way of life for future generations. Under Governor Dayton's leadership, the Department of Natural Resources protected thousands of acres of environmentally sensitive areas:</p> <ul style="list-style-type: none"> <li>• <b>43,500 Acres of New Wildlife Management Areas</b> – WMAs are established to protect those lands and waters that have a high potential for wildlife production, public hunting, trapping, fishing, and other compatible recreational uses. They are the backbone to DNR's wildlife management efforts in Minnesota and are key to protecting wildlife habitat for future generations, providing citizens with opportunities for hunting, fishing and wildlife watching, and promoting important wildlife-based tourism in the state.</li> <li>• <b>Acquired 4,960 Acres of New Aquatic Management Areas</b> – the AMAS are located on 90 lakes and 104 trout streams, totaling 440,000 feet of shoreline. Aquatic management areas are established to protect, develop, and manage lakes, rivers, streams, and adjacent wetlands and lands that are critical for fish and other aquatic life, and for water quality and fishing.</li> <li>• <b>Acquired 38 Miles of Trout Stream Easements</b> – stream easements create quality fishing opportunities for anglers,</li> </ul>

		<p>while creating a source of income for the landowners who allow them. Under Governor Dayton’s leadership, the Department of Natural Resources acquired an additional 38 miles of trout streams easements for Minnesotans to enjoy.</p> <ul style="list-style-type: none"> <li>• <b>Enrolled 26,700 Acres in the Walk in Access Program.</b> In 2012, Governor Dayton worked with the Minnesota Legislature to create the Walk-In Access Program, which provides public hunting access to wildlife habitat on private land. Since then, 26,700 acres of land have been enrolled in the program.</li> </ul> <p>Under Governor Dayton’s leadership, the Scientific and Natural Areas (SNA) program has conserved an additional 4,645 acres of unique natural ecosystems of Minnesota.</p>
<p><b>H.11</b></p>	<p><b>Expanded State Parks and Trails Systems</b></p>	<p>Under Governor Dayton’s leadership, the Department of Natural Resources acquired thousands of acres of additional state parks and trails land.</p> <ul style="list-style-type: none"> <li>• <b>Brown’s Creek State Trail</b> – Brown’s Creek State Trail, completed in 2014, is paved for 6.5-miles from Stillwater to the Gateway State Trail, which continues all the way to St. Paul. It is part of Minnesota’s extensive state trail system, which now includes more than 600 miles of paved trails.</li> <li>• <b>La Salle Lake SRA</b> – Established in 2011, La Salle Lake SRA offers hiking, fishing, camping and more on 940 acres of land in Hubbard County. Recent additions, to be highlighted at a celebration on Aug. 12, 2017, include a picnic pavilion, expanded parking area, nature play area and interpretive hiking trail.</li> <li>• <b>Lake Vermilion-Soudan Underground Mine State Park</b> – Since acquiring the land in 2010, the DNR has been working to develop roads, trails, a day-use area and campground facilities at the Lake Vermilion unit of this park. The campground opened in fall 2017.</li> </ul>
<p><b>H.12</b></p>	<p><b>Restored or Enhanced 481 Square Miles of Native Prairie Grasses</b></p>	<p>Since 2011, the Department of Natural Resources has restored 17,000 acres (26.5 sq. miles) of prairie and enhanced another 291,000 acres (454.7 sq. miles) of prairie. Grassland restoration, enhancement, and protection efforts occur throughout the farmland region of Minnesota. Activities are focused on strategic areas, guided by the Prairie Conservation Plan and Pheasant Summit Action Plan, where we know they will have the largest benefits for wildlife.</p>

		<p>In addition to the DNR enhancing and restoring former prairie, the Native Prairie Bank program has also helped to protect an additional 4,974 acres of the remaining 2 percent original native prairie in Minnesota through permanent conservation easements.</p> <p>Enhancement techniques include noxious weed control, removal of invading woody vegetation, conservation grazing, and prescribed burns.</p> <p>Grassland restorations convert former agriculture fields to permanent grassland cover. Whenever possible, restorations are done using diverse mixes (60-80 species of native grasses and wildflowers) of local ecotype seed to maximize the value of these acres for both wildlife and pollinators. Grassland and wetland restoration in strategic areas is one of the most cost-effective ways to filter and clean water.</p>
<p><b>H.13</b></p>	<p><b>Restored Lake Superior Lake Trout, Rainy River Sturgeon Populations, and Helped Improve the Lake Mille Lacs Walleye Population</b></p>	<p>Governor Dayton strongly supported the DNR’s science-based efforts to manage wildlife populations and restore some of state’s most iconic fisheries. The Department of Natural Resources hit key milestones in the restoration of the following three fish populations during Governor Dayton’s two terms in office:</p> <ul style="list-style-type: none"> <li>• <b>Lake Superior Lake Trout</b> – The restoration of lake trout in Lake Superior started with efforts 60 years ago. It reached a milestone in 2017 when charter boat captains began reporting that fishing success was excellent and that most fish caught were wild(not stocked), thus eliminating the need for additional stocking.</li> </ul> <p>Survey data were used to model lake trout stocks, and limited commercial fishing was restored in Minnesota waters of Lake Superior. Wild lake trout are now widely caught by anglers and available for purchase along the North Shore. Lake trout restoration is a true success story – and with attentive monitoring and management (including sea lamprey control), should remain strong indefinitely.</p> <ul style="list-style-type: none"> <li>• <b>Rainy River/Lake of the Woods Sturgeon</b> – In the past century, pollution and overfishing nearly wiped out Minnesota's lake sturgeon, which can grow to be over 100 pounds. But sturgeon recovery work by the DNR in cooperation with neighboring states and tribal and federal resource agencies has achieved some remarkable successes.</li> </ul> <p>After sturgeon limits and seasons were made more restrictive, in 2012 Minnesota and Ontario officials agreed that the short-</p>

		<p>term recovery goals had been met, shifting management towards the goals of the long-term recovery. Consequently, lake sturgeon are currently managed on a harvest-goal based on the potential yield of approximately 11,600 lbs/year for Lake of the Woods and Rainy River. Long-term population goals include having at least 40 year classes present with male fish to age 40 and female fish up to age 17, fish over 80 inches, and consistent production of young fish.</p> <ul style="list-style-type: none"> <li>• <b>Lake Mille Lacs Walleye</b> – Walleye safe harvest level for Lake Mille Lacs is determined annually, based on population status, and predictions of how harvest will affect the walleye population in the future. The safe harvest level is divided between the 1837 Treaty Bands and state anglers. By agreement, the Bands and the state are required to monitor harvest by their members or state anglers, respectively.</li> </ul> <p>In 2018, angler survey results showed that state anglers took walleye at levels far enough under the state’s safe harvest allocation of 87,000 pounds to eliminate past years’ overages.</p>
<p><b>H.14</b></p>	<p><b>Reintroduced Bison to Minneopa State Park</b></p>	<p>In 2014, the Minnesota Department of Natural Resources collaborated with the Minnesota Zoo to reintroduce bison at Minneopa State Park near Mankato. Bison historically ranged the prairies of southern Minnesota.</p> <p>Currently the herd has approximately 130 bison at three different sites: Blue Mounds State Park, Minneopa State Park and the Minnesota Zoo. Eventually the herd will grow to a 500-animal population occupying several locations. Genetic testing of the herd from 2011-2014 found them largely free of any genetic material that would have come from cross-breeding with cattle. This makes them rare among modern bison.</p> <p>Since the bison arrived in 2014, annual visits to Minneopa State Park have increased 66 percent—from about 173,000 to more than 288,000.</p>
<p><b>H.15</b></p>	<p><b>Nearly Doubled the Number of State Parks and Trails with Renewable Energy</b></p>	<p>From 2011 to now, Minnesota State Parks and Trails facilities generating renewable energy grew from 12 to 22. These include solar hot water (4), solar PV (27) and wind (1). The total renewable electricity generation capacity is 341 kW, and systems produced 345,802 kWh in 2017. This is approximately 5.8 percent of Parks and Trails electricity consumption and represents an offset of 475,500 lbs. These systems reduce DNR’s total carbon foot print by approximately 1 percent.</p>

		Parks and Trails renewable energy projects installed since 2011 have been funded through asset preservation, Legacy appropriation, Environment and Natural Resources Trust Fund and Xcel RDF Grant.
<b>H.16</b>	<b>Improved Accessibility for Minnesotans with Disabilities at State Parks</b>	<p>Governor Dayton and his administration were committed to building a state that worked for everyone. During his two terms, the Minnesota Department of Natural Resources worked to improve accessibility at state parks for people with disabilities.</p> <p>The department installed hundreds of accessible picnic tables and fire rings at Minnesota state parks and recreation areas. It also opened an accessible visitor center at Tettegouche State Park, where visitors enjoy a spectacular view of Lake Superior.</p>
<b>H.17</b>	<b>Reduced Costs for Solar Power Installations</b>	The Department of Labor and Industry implemented a new solar photovoltaic inspection fee schedule and reduced permit fees by up to 75 percent, should reduce the cost of solar installations an estimated \$800,000 in one year alone.
<b>H.18</b>	<b>Reduced Costs for Wind Energy</b>	In 2013, the Department of Labor and Industry reduced electrical permit fee schedules for wind generation to reduce costs, and provide a flat fee based on system wattage. This innovative reform reduced fees for wind energy generation by 76 percent.
<b>H.19</b>	<b>Launched Office of Enterprise Sustainability, Set Goal of Reducing Greenhouse Gas Emissions by 30 Percent</b>	<p>In August 2016, the Department of Administration created the Office of Enterprise Sustainability, modeled after similar initiatives in Minnesota’s major companies, to partner with state agencies to reduce state government’s carbon footprint, leverage industry expertise and best practices, and increase accountability in sustainable operations. With the help of the Office of Enterprise Sustainability, the Department of Administration plans a 30 percent reduction of greenhouse gas emissions by 2025 relative to a 2005 calculated baseline.</p> <p>The Department of Administration installed a 133 Kw solar array on the roof of the Minnesota Senate Building, now in operation. A second phase will add an additional 50 Kw to the Senate Building’s rooftop.</p> <p>The Department of Administration has created a master contract for small-scale solar installations to make it easier for state agencies and local communities to install on-site solar. Through this contract, the State is working with local communities in a program called <i>Solar Possible</i> to install an additional 3 MW of solar</p>

		<p>capacity on public buildings by the end of 2019, including at five additional sites on the Capitol Complex.</p> <p>The agency also launched a sustainable purchasing program in partnership with the Pollution Control Agency. Through this partnership, the Department of Administration has developed a sustainable purchasing program to ensure that products purchased by state agencies do not harm the environment. State contracts for paper, toner cartridges, and office equipment are examples of products that may have high-recycled content or high-energy efficiency to avoid or mitigate adverse environmental, social, and economic impact.</p> <p>In 2018, the Office of Enterprise Sustainability released the 2017 Annual Sustainability Report, an evaluation of the state’s progress in meeting sustainability goals in fleet, water, energy, solid waste, procurement, and greenhouse gas emissions. Governor Dayton established six sustainability goals for state agencies to meet or exceed by 2027:</p> <ul style="list-style-type: none"> <li>• 15% reduction in water use,</li> <li>• 30% reduction in vehicle fossil fuel consumption,</li> <li>• 30% reduction in energy use,</li> <li>• 30% reduction in greenhouse gas emissions</li> <li>• 25% increase in sustainable purchasing, and</li> <li>• 75% increase in composting and recycling solid waste.</li> </ul> <p>The 2017 Annual Sustainability Report showed Minnesota’s state agencies made positive progress towards reaching the six goals. According to the report, by 2017 Minnesota’s state agencies reached:</p> <ul style="list-style-type: none"> <li>• 1.7% of the goal to reduce water use,</li> <li>• 13% of the goal to reduce vehicle fossil fuel consumption,</li> <li>• 49% of the goal to reduce energy use,</li> <li>• 56% of the goal to reduce greenhouse gas emissions,</li> <li>• 64% of the goal to increase sustainable purchasing, and</li> <li>• 40% of the goal to increase recycling and composting of solid waste.</li> </ul> <p>Additionally, Minnesota’s state agencies avoided \$25,927,180 in costs due to conservation measures from 2005-2017.</p>
<p><b>H.20</b></p>	<p><b>Built 11 Pollinator Friendly Gardens at State Capitol Complex</b></p>	<p>Beekeepers across the United States have reported losing an average of 30 percent of their bees each year. Multiple factors are harming bees, including loss of habitat. To help, the Department of Administration has built 11 pollinator-friendly gardens on the Capitol Complex by the end of this year. These</p>

		gardens will attract bees and other pollinators essential for creating and maintaining a healthy ecosystem.
<b>H.21</b>	<b>Provided More Than 815 Clean Water Fund Grants; Keeping 100,000 Tons of Sediment and Over 85,000 Pounds of Phosphorus Kept out of Minnesota’s Water Each Year</b>	<p>The Minnesota Clean Water Fund provides funding to protect, enhance, and restore water quality in lakes, rivers, and streams and to protect groundwater from degradation. At least five percent of the clean water fund must be spent to protect drinking water sources.</p> <p>During Governor Dayton’s two terms, more than 815 Clean Water Fund grants awarded via the Board of Water and Soil Resources Clean Water Fund allocations. This funding helped to implement more than 5,000 conservation practices – keeping almost 100,000 tons of sediment and over 85,000 pounds of phosphorus out of Minnesota’s water annually.</p>
<b>H.22</b>	<b>Launched One Watershed, One Plan to Support Locally Driven Action</b>	<p>Looking to local leaders, the Dayton Administration has grown a recommendation from the Local Government Water Roundtable into a statewide clean water program; this group includes the Association of Minnesota Counties, Minnesota Associate of Watershed Districts, and Minnesota Association of Soil and Water Districts. The One Watershed, One Plan concept is now a statewide program run by the Board of Water and Soil Resources that supports locally led, science-based watershed planning and implementation.</p> <p>This program recognizes that solutions come from those living on the land, and a holistic perspective that considers the entire watershed. An initial \$9M has been secured for grants to watersheds with the intent that over time this program will provide the blue print for action and focus of implementing the Clean Water Fund goals to restore and enhance state waters.</p>
<b>H.23</b>	<b>Enhanced Pollinator Habitat</b>	In 2013, Governor Dayton and the Minnesota Legislature established criteria for creating pollinator habitat on state lands and prairie restoration. The legislation also allocated \$300,000 for the Department of Agriculture to develop best management practices (BMPs) to protect pollinator habitat and incorporate these BMPs into training for pesticide applicators This will help protect and create habitat for bees, moths, beetles, and other types of pollinators that have seen a dramatic decrease in their population in the last few years. This decline is a national concern in agriculture, and Minnesota is the first state to take steps to protect this vital part of agriculture.

<b>H.24</b>	<b>Created Terrestrial Invasive Species Research Center</b>	In 2014, Governor Dayton and the Minnesota Legislature created the Terrestrial Invasive Species Research Center at the University of Minnesota. The research center is developing new strategies to address invasive plants and pests. The center also is giving farmers and growers more tools to address invasive species.
<b>H.25</b>	<b>Continued Development of Perennial Crops</b>	In 2016, Governor Dayton and the Minnesota Legislature provided \$594,000 to the Pollution Control Agency and Board of Water and Soil Resources to incentivize landowners to plant perennial crops along waterways. Planting perennial crops along waterways helps to capture run-off and sediments that would otherwise end up polluting Minnesota’s streams, rivers, and other waters.
<b>H.26</b>	<b>Started Clean-Up of Polluted Locations in the St. Louis River Area of Concern</b>	<p>In 2016, Governor Dayton and the Minnesota Legislature provided \$432,000 to lay the groundwork for cleaning up old industrial pollution at ten locations around the St. Louis River Estuary and the Duluth harbor and bay.</p> <p>In 2017, the Minnesota Pollution Control Agency secured an additional \$25.4 million in bonding dollars for the project. These local funds leveraged \$47.2 million in federal Great Lakes Legacy Act funds. Using a portion of these funds, the Pollution Control Agency has begun work on three of the ten projects in the St. Louis River Area of Concern. Plans are well underway for future cleanup of the remaining sites.</p>
<b>H.27</b>	<b>Authorized On-Site Generation Interconnection</b>	In 2013, Governor Dayton and the Minnesota Legislature authorized business and institutional customers in public utility territories to credit their bill with electricity generated by larger on-site generators. Thanks to this legislation, high use customers can now net meter with a generator of up to 1 MW capacity (previously 40 kW). In addition, customers with multiple meters, like a college campus, may request aggregation of their electric meters at one site giving them further flexibility in siting their electric generation and applying the credits.
<b>H.28</b>	<b>Improved Local Air Quality Monitoring</b>	In 2013, Governor Dayton and the Minnesota Legislature invested \$420,000 in mobile air monitoring systems. These movable systems allow the state to test air quality in previously untested areas, which helps the state discover new problems and validate air quality modeling. The legislation also directed the MPCA to monitor areas where low-income, indigenous American Indians, and communities of color are disproportionately impacted by pollution from highway, air, or industrial traffic.

<p><b>H.29</b></p>	<p><b>Enhanced Penalties for Wildfire Arson</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature increased the penalty for wildfire arson based on structures burned or threatened, acreage burned, crops damaged, and whether a person suffered demonstrable harm because of the fire. The legislation also provides that a court may also order restitution for costs associated with injuries sustained by any firefighters in the performance of their duties.</p>
<p><b>H.30</b></p>	<p><b>Worked to Reduce Spread of Aquatic Invasive Species</b></p>	<p>Governor Dayton and the Minnesota Legislature required that those who purchase watercraft licenses and nonresident fishing licenses are to complete an AIS affirmation when applying for a new, transfer, duplicate or renewal of watercraft license, beginning January 1, 2016. The affirmation portion of the license must be displayed with the signed license certificate.</p> <ul style="list-style-type: none"> <li>• <b>Upper St. Anthony Falls Lock Closure</b> – Governor Dayton worked with Congress, the United States Army Corps of Engineers, and industry to enact closure of the Upper St. Anthony Falls Lock and Dam in Minneapolis providing a critical barrier to the movement of invasive carp up the Mississippi.</li> <li>• <b>Development of the Minnesota Aquatic Invasive Species Research Center (MAISRC)</b> – In partnership with the University of Minnesota and the Minnesota Legislature, Governor Dayton created a new interdisciplinary and innovative research center focused on the prevention and management of aquatic invasive species.</li> <li>• <b>Aquatic Invasive Species prevention aid</b> – Governor Dayton supported legislation that provides \$10 million of AIS prevention aid funds to MN counties. This has resulted in more than 3,384 watercraft inspectors on our public waters - more than any other state in the nation.</li> <li>• <b>Invasive Carp prevention and management</b> – Governor Dayton has supported the development of legislation that has allowed the DNR to track and understand the movement of invasive carp. This data provides critical information to the national effort to prevent the spread of invasive carp.</li> </ul>
<p><b>H.31</b></p>	<p><b>Enhanced Monitoring for Dangerous Substances</b></p>	<p>In 2013, Governor Dayton and the Minnesota Legislature invested \$1.5 million in the Department of Health’s perfluorochemical bio-monitoring program. From the late 1940’s until 2002, 3M produced perfluorochemicals for use in its products. However, this lead to water contamination in the east metropolitan area.</p>

<p><b>H.32</b></p>	<p><b>Invested \$250,000 in Pollinator Research</b></p>	<p>In 2017, Governor Dayton and the Minnesota Legislature invested \$250,000 in pollinator habitat and research at the University of Minnesota. The research includes developing science-based best practices and the identification and establishment of habitat beneficial to pollinators.</p>
<p><b>H.33</b></p>	<p><b>Granted Certificate of Need Exception for Sherburne County Generating Station</b></p>	<p>Xcel Energy has committed to closing the Sherburne County Generating Station (known as Sherco), which generates more than 2,200MW of electricity for Minnesota. The coal plant, which was built in the 1970s, generates significant fossil fuel emissions. However, the facility also is a major employer for the community of Becker, Minnesota.</p> <p>To provide certainty to local economy and reduces emissions, Governor Dayton and the Minnesota Legislature exempted Xcel Energy from the Certificate of Need process in 2017, which allow the company to convert the facility to natural gas.</p>
<p><b>H.34</b></p>	<p><b>Ensured Sustainable Management of Minnesota Forests</b></p>	<p>Throughout Governor Dayton’s administration, Minnesota has worked to ensure that state forest lands are managed sustainably, supporting multiple values important to Minnesotans, including timber supply, habitat, recreation, and clean water. As part of these efforts, Minnesota DNR manages almost 5 million acres of forest under dual third party certification from the Forest Stewardship Council (FSC) and Sustainable Forestry Initiative (SFI). The state has been a steady supplier of timber, helping insulate Minnesota’s vital forest products industry from swings in production off of other lands. In 2018, DNR completed state-of-the-art modeling and identified a sustainable harvest level of 870,000 cords annually on state lands for the next 10 years, supplemented with an additional 30,000 cords of ash and tamarack annually for the next five years to address insect threats to these species.</p>
<p><b>H.35</b></p>	<p><b>Achieved Progress on the Fargo-Moorhead Flood Diversion Project</b></p>	<p>In 2017, Governor Mark Dayton and North Dakota Governor Doug Burgum <a href="#">established a Task Force</a> to develop design principles and concept-level engineering solutions to achieve balanced flood risk management for the Fargo-Moorhead region, including upstream, downstream, and metro-area communities and properties. Governor Dayton’s overall goal in this collaborative effort was an approach to flood risk reduction that would meet Minnesota’s strong environmental protection standards, reduce risks where possible, and maintain the opportunity for economic growth in the region.</p> <p>After months of collaborative work with communities impacted by the proposed flood mitigation project, the Task Force <a href="#">released a</a></p>

		<p><a href="#">final report</a> to the Fargo-Moorhead Diversion Authority. The report provided a roadmap for compromise, identifying key modifications that could provide a path forward. The Diversion Authority revised its project proposal based on the Task Force’s work. That project is contingent upon regulatory approvals from both states, including the Minnesota Department of Natural Resources.</p> <p>In November 2018, the Minnesota Department of Natural Resources issued a Final Supplemental Environmental Impact Statement (Final SEIS) for the Fargo-Moorhead Flood Risk Management project. The DNR is currently considering public comments on the Final SEIS and reviewing the Diversion Authority’s permit application. This impartial review is crucial, as the two states work toward a resolution that will fairly and effectively mitigate flood risks for communities on both sides of the Red River Valley.</p>
