**About the Minnesota Office of Higher Education**

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$208 million in need-based grants to Minnesota residents attending accredited institutions in Minnesota. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

# Executive Summary

The Minnesota State Grant program is a need-based financial aid program created to assist Minnesota resident undergraduates attending public and private postsecondary institutions in Minnesota. The program was established in 1969, and in Fiscal Year 2019 approximately 79,805 were awarded grants, for a total of nearly \$208 million. The State Grant program is designed to provide choice and access to undergraduate students to attend the postsecondary institutions that best meet their needs. It provides financial aid to students in conjunction with the Federal Pell Grant.

**Average Combined Federal Pell and Minnesota State Grant Award Received by State Grant Recipients, Fiscal Year 2019**

\*Includes only Federal Pell Grants received by Minnesota State Grant recipients

## Report Highlights:

- The Minnesota State Grant primarily assists low-income students. In Fiscal Year 2019, 59% of State Grant recipients had a family adjusted gross income of less than \$40,000.
- Most State Grant recipients attended a public university. In Fiscal Year 2019, 62% of recipients attended a Minnesota State College or University, 15% attended the University of Minnesota, and 23% attended a private college.
- In academic year 2017-2018, Minnesota ranked 16th in financial aid spending per full-time equivalent undergraduate<sup>1</sup>.

<sup>1</sup> Full-time equivalent undergraduates are calculated by taking the sum of credits carried by all students at a particular level enrolled in classes, divided by the number of credits in a full-time load (15 credits). An FTE of 1.0 is equivalent to one full-time student.

# Introduction

The Minnesota State Grant program is a need-based financial aid program created to assist Minnesota resident undergraduates attending public and private postsecondary institutions in Minnesota. The program was established in 1969, and in Fiscal Year 2019 approximately 79,805 were awarded grants, for a total of nearly \$208 million. The State Grant program is designed to provide choice and access to undergraduate students to attend the postsecondary institutions that best meet their needs. It provides financial aid to students in conjunction with the Federal Pell Grant.

Since 1983, Minnesota State Grant policy has used the Design for Shared Responsibility model, a framework that was influenced by the work of the Carnegie Commission on Policy Studies in Higher Education. The goal of the program is established in [Minnesota Statute 136A.095](#):

*The legislature finds and declares that the identification of men and women of the state who are economically disadvantaged and the encouragement of their educational development in eligible institutions of their choosing are in the best interests of the state and of the students.*

This policy statement provides a framework for Minnesota policymakers when responding to changes in tuition and fees and living expenses faced by students. State Grant policy distributes the price of postsecondary education among students, families, and taxpayers, taking into account family income and student choices in institution attended and enrollment level.

This report contains data on the number and dollar amounts of Minnesota State Grants received by Minnesota undergraduate students for Fiscal Year 2019 (July 1, 2018 to June 30, 2019). Because Minnesota State Grants are coordinated with Federal Pell Grants, this report includes tables and graphs with combined Federal Pell and State Grant awards received by State Grant recipients, in addition to reporting on State Grant awards. The report also includes information on categories of student characteristics that affect State Grant awards: family adjusted gross income<sup>2</sup>, dependency status/family circumstances, institution choice, and registration credit load. Recipient demographics such as race and gender are also reported. All tables and charts in this report show family adjusted gross income of Minnesota State Grant recipients as reported on the Free Application for Federal Student Aid (FAFSA) from the federal income tax return. For dependent students, the parents' adjusted gross income was used; for independent students, the student's (and spouse's, if married) adjusted gross incomes were used.

The data in this report are based on State Grant data available as of October 1, 2019. The totals may differ slightly from other documents published by the Minnesota Office of Higher Education made before or after this date.

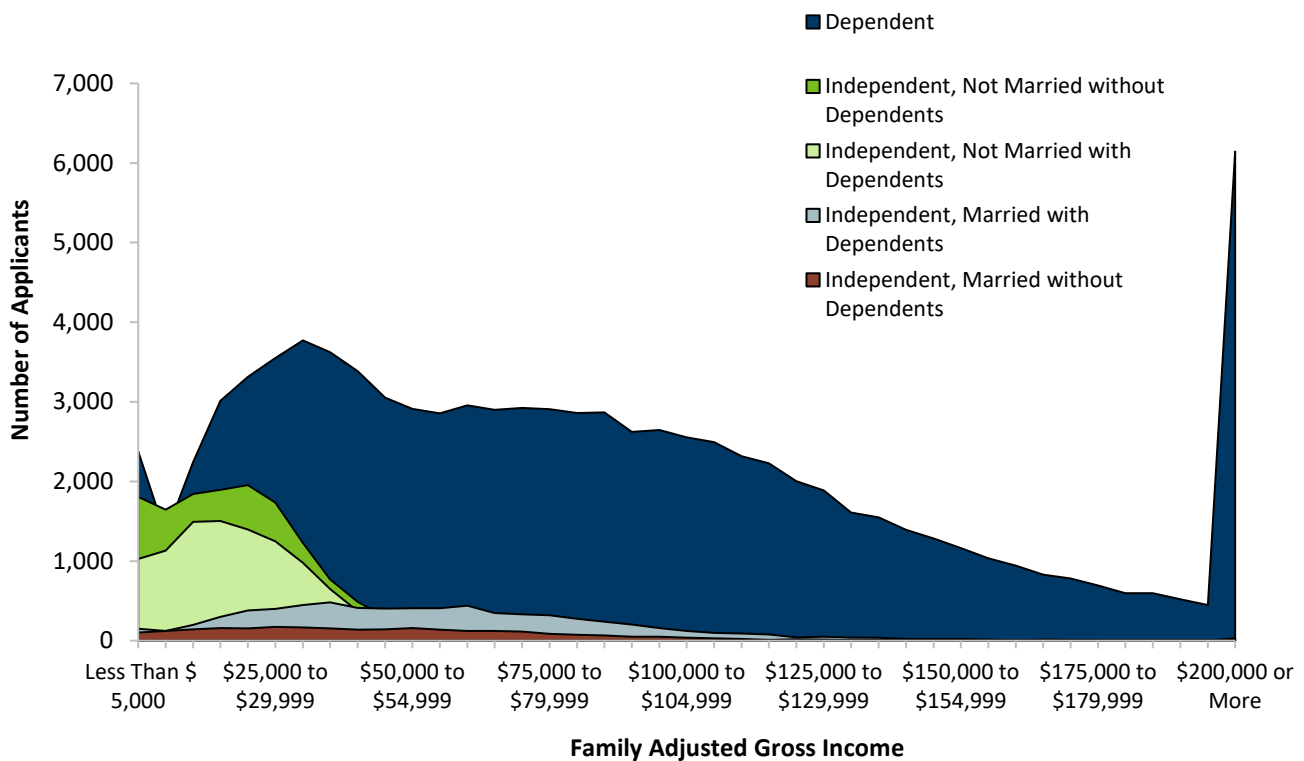

---

<sup>2</sup> Adjusted gross income is gross income minus certain deductions, such as health savings account deductions or retirement account contributions. Adjusted gross income is used to calculate federal taxable income.

# 1. Fiscal Year 2019 Applicants

Students applying for financial aid complete a Free Application for Federal Student Aid (FAFSA). The FAFSA form asks students and their parents to supply information regarding wages, income, assets and household composition. This information is used in the federal need analysis formula called Federal Methodology, which determines the family’s expected contribution toward college costs using the student’s and parents’ financial resources. The formula calculates an expected Parent Contribution (PC), an expected Student Contribution (SC) and an Expected Family Contribution (EFC). These calculations determine the student’s eligibility for federal student aid and, in Minnesota, the student’s eligibility for the Minnesota State Grant program.

**Figure 1. Minnesota Undergraduate Applicants Eligible for a Minnesota State Grant, by Income and Family Type, Fiscal Year 2019**

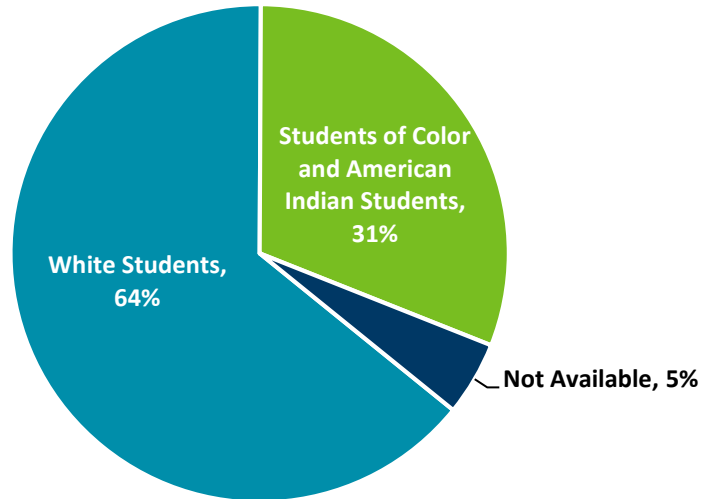

For Fiscal Year 2019 (academic year 2018-2019), 131,983 students completed the FAFSA and met eligibility requirements for a Minnesota State Grant. As compared to the prior year, total applications<sup>3</sup> declined by 3 percent. Just over 70 percent of applicants were dependent students. The remaining 30 percent of applicants were independent students. As shown in Figure 1, dependent student applicants are distributed evenly across all

<sup>3</sup> Students apply for the Minnesota State Grant program by filing a Federal Application for Free Student Aid (FAFSA).

family adjusted gross incomes. Independent students display a smaller range of family adjusted gross incomes, with 73 percent of independent students reporting incomes less than \$35,000.

**Figure 2. Student Race and Ethnicity, Fiscal Year 2019, All State Grant Applicants**

Thirty-one percent of State Grant applicants reported as students of color or American Indian students, while 64 percent of applicants reported as white. The remaining 5 percent of students did not report a race or ethnicity (Figure 2).

## 1.1 Income Profile of Applicants by Dependency Status

Across all types of institutions, independent students had lower median family incomes (\$24,500) than dependent students (\$77,300) did. Independent students enrolled at the University of Minnesota had the lowest median family income (\$17,400) (Figure 3, Table 1). Dependent students enrolled in private for-profit institutions had lower median family incomes (\$44,000) compared to those enrolled in other sectors (Figure 3, Table 1).

**Figure 3. Median Family Adjusted Gross Income, by Sector  
Fiscal Year 2019 State Grant Applicants**

**Table 1. Median and Mean Family Adjusted Gross Income of Students,  
by Institution Sector and Dependency Status, Fiscal Year 2019**

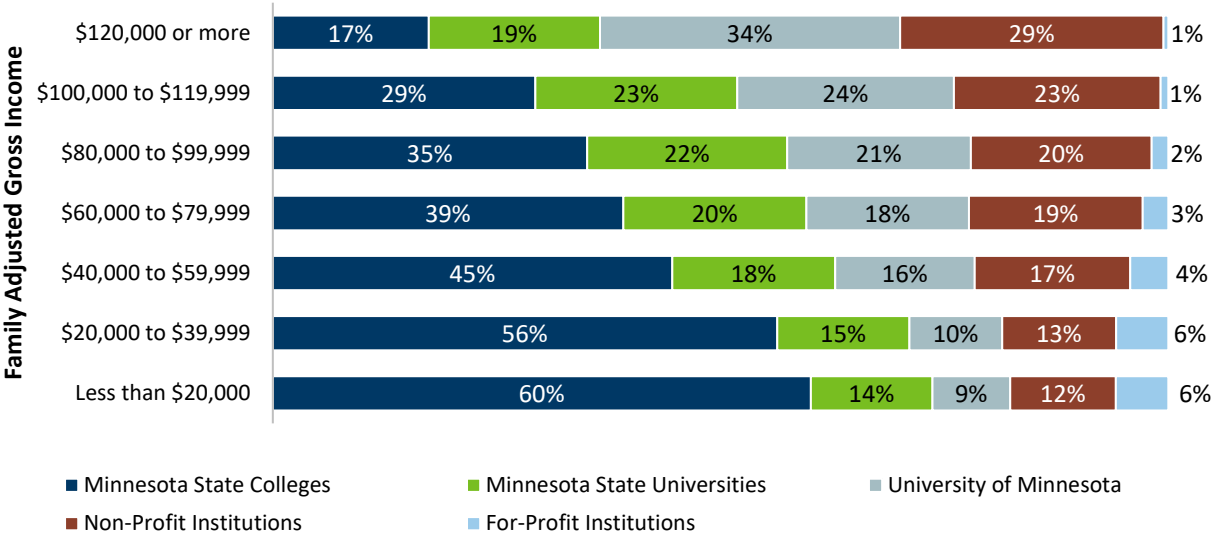

Sector	Student Type	Median Income	Mean Income	Count
State Colleges	Dependent	\$57,400	\$69,000	29,205
Minnesota State Colleges	Independent	\$24,900	\$31,100	22,234
Minnesota State Colleges	Total	\$37,000	\$52,600	51,439
State Universities	Dependent	\$80,100	\$88,600	18,456
Minnesota State Universities	Independent	\$24,800	\$33,200	3,894
Minnesota State Universities	Total	\$68,400	\$78,900	22,350
University of Minnesota	Dependent	\$95,900	\$112,200	21,805
University of Minnesota	Independent	\$17,400	\$25,300	1,465
University of Minnesota	Total	\$90,000	\$106,800	23,270
Non-Profit Institutions	Dependent	\$91,000	\$112,900	20,380
Non-Profit Institutions	Independent	\$22,700	\$31,700	3,350
Non-Profit Institutions	Total	\$79,600	\$101,400	23,730
For-Profit Institutions	Dependent	\$44,000	\$55,900	1,320
For-Profit Institutions	Independent	\$25,000	\$30,200	3,279
For-Profit Institutions	Total	\$28,300	\$37,600	4,599
Total	Dependent Students	\$77,300	\$92,900	91,166
Total	Independent Students	\$24,500	\$31,100	34,222
Total	All Students	\$56,100	\$76,000	125,388

## 1.2 Enrollment Profile of Applicants by Income

As family income increases, the percent of students enrolled in public two-year institutions or private for profit institutions declined. In contrast, as income increases, more students enrolled in private four-year institutions and the University of Minnesota. The University of Minnesota had the highest median family adjusted gross income (\$90,000 among all students) among Minnesota postsecondary sectors (Table 1). Among 2019 applicants from families with incomes below \$20,000, 60 percent enrolled in a Minnesota State College and 14 percent enrolled at a State University (Figure 4).

The State Grant program provides funds to lower- and middle-income students to attend the institution of their choosing. Nonetheless, this comparison highlights existing economic stratification in enrollment among Minnesota students.

**Figure 4. Percent of Minnesota State Grant Applicants Enrolled, by Income and Institution Type, Fiscal Year 2019**

## 1.3 Income Profile of Applicants by Sector

More State Grant applicants from families with incomes below \$20,000 enrolled in private for-profit institutions (36 percent) than any other institution type. Only Minnesota State Colleges had a comparable percentage of lower income students enrolled (31 percent) (Figure 5, Table 2).

**Figure 5. Percent of Minnesota State Grant Applicants Enrolled, by Institution Sector and Income, Fiscal Year 2019**

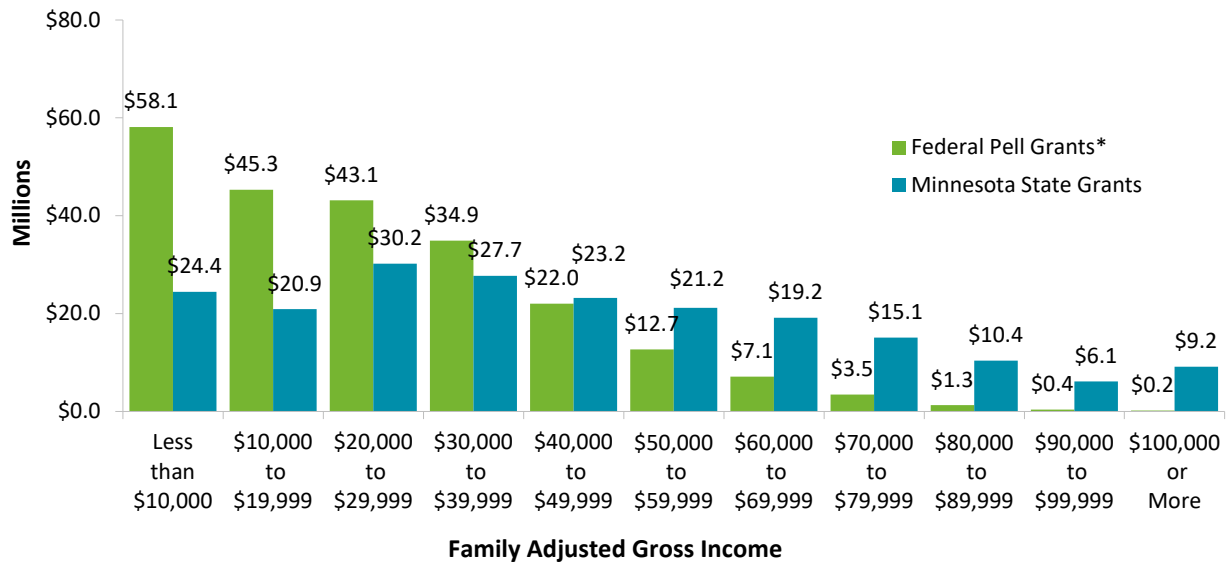

**Table 2. Percent of Minnesota State Grant Applicants, by Income and Institution Sector, All Applicants, Fiscal Year 2019**

Sector	Less than \$20,000	\$20,000 to \$39,999	\$40,000 to \$59,999	\$60,000 to \$79,999	\$80,000 to \$99,999	\$100,000 to \$119,999	\$120,000 or more	Total Applicants

## 2. Fiscal Year 2019 Recipients

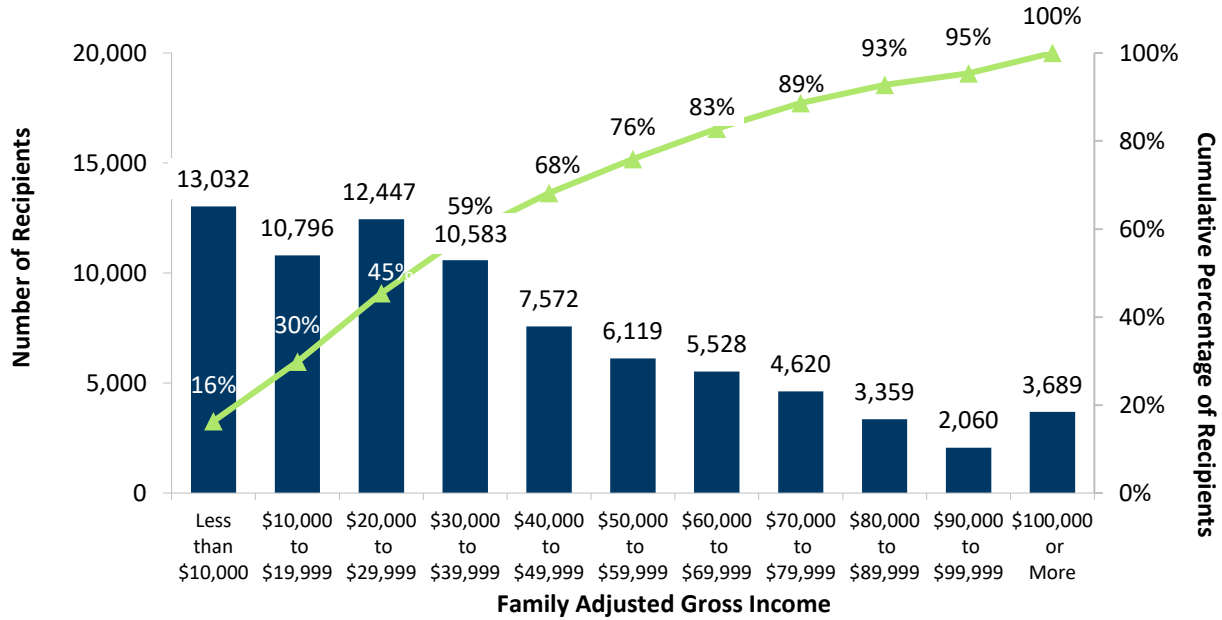

**Figure 6. Federal Pell and Minnesota State Grant Awards Received, by Family Adjusted Gross Income, Fiscal Year 2019**

\*Includes only Federal Pell Grants received by Minnesota State Grant recipients

During Fiscal Year 2019, \$208 million in State Grants were awarded to 79,805 students. Minnesota State Grant awards are determined solely by the student’s financial need, and State Grant policy directs funding to students and families with the highest need. Of the \$208 million in Minnesota State Grants awarded in Fiscal Year 2019, roughly half of that total was awarded to students from families earning less than \$40,000 annually (Figure 6). These students represent nearly 60 percent of all State Grant recipients (Figure 7).

**Figure 7. Number and Cumulative Percentage of Minnesota State Grant Recipients, Fiscal Year 2019**

**Figure 8. Average Combined Federal Pell and Minnesota State Grant Award Received, by Family Adjusted Gross Income, Fiscal Year 2019**

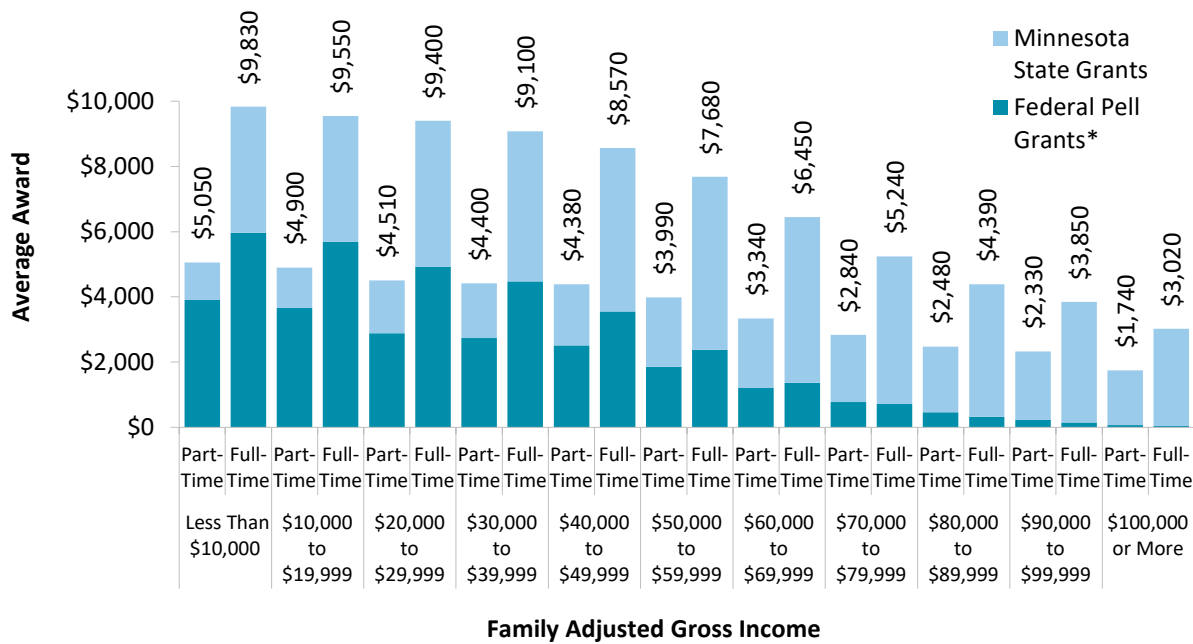

\*Includes only Federal Pell Grants received by Minnesota State Grant recipients

Calculations for the Minnesota State Grant take into account the student's Federal Pell Grant award. Figure 8 shows the average combined award for the Federal Pell Grant and the Minnesota State Grant by income.

Students from families earning less than \$10,000 annually received the highest combined average award (\$6,340) (Figure 8).

Figure 9 displays the average combined award for the Federal Pell Grant and the Minnesota State Grant by income and full-time/part-time enrollment status. Full-time enrollment is defined as being enrolled for 30 credits or more for the academic year. As shown in Figure 9, students that attend full time receive higher average State Grants and higher average Federal Pell Grants compared to students that attend part time. This is because full-time students are typically charged a higher tuition rate than students attending less than full time, and the State Grant takes this additional educational cost into account when determining the award. Full-time students from families earning less than \$10,000 received the highest average combined award in 2019 (\$9,830) (Figure 9).

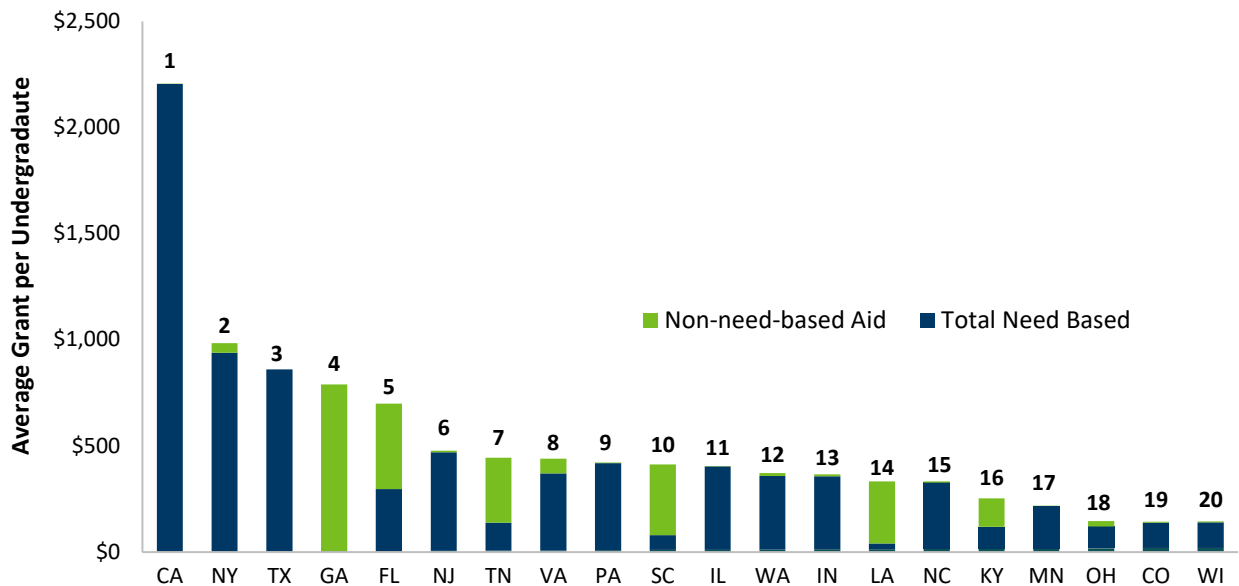

**Figure 9. Average Combined Federal Pell and Minnesota State Grant Award Received by State Grant Recipients, by Full-Time/Part-Time Status, Fiscal Year 2019**

\*Includes only Federal Pell Grants received by Minnesota State Grant recipients

### 3. Comparisons with Other States

**Figure 10. Minnesota ranks 17th in State Grant Funding to Undergraduates**  
**Includes Need-Based<sup>4</sup> and Non Need-Based<sup>5</sup> Grants, 2017-2018**

For the 2017-2018 academic year, Minnesota’s State Grant program was the 17th-largest in the nation for total grant aid awarded according to the annual survey of National Association of State Student Grant & Aid Programs (Figure 10). The state ranks 12th when only need-based grant aid is considered.

The state grant spending per full-time equivalent (FTE) undergraduate<sup>6</sup> places Minnesota 16th among all other states. Minnesota spends an average of \$922 per FTE undergraduate as compared to the top-spending state, South Carolina (\$2,230), according to the 2017-2018 annual survey of the National Association of State Student Grant & Aid Programs (Figure 11).

<sup>4</sup> Need-based grants are those awarded based solely on the student’s financial need.

<sup>5</sup> Non need-based grants are those awarded on measures other than the student’s financial need, such as academic merit.

<sup>6</sup> Full-time equivalent undergraduates are calculated by taking the sum of credits carried by all students at a particular level enrolled in classes, divided by the number of credits in a full-time load (15 credits). An FTE of 1.0 is equivalent to one full-time student.

**Figure 11. Minnesota spends \$922 per Full-time Equivalent Undergraduate  
Includes Need-Based and Non-Need-Based Grants, 2017-2018**

*L: Program is at least partially funded through lottery funds; LD: Program is a last-dollar grant; F: Grants are awarded on a first-come, first-served basis and funding is limited; R: This program uses a design for shared responsibility model to calculate awards*

*\*Note: The Washington State Need Grant Program will change dramatically for the 2020-2021 academic year, due to increased investment in the program. In fiscal year 2021, students from families with incomes up to 100% of the state's median household income will be eligible to receive awards, and all students who are eligible will receive an award (the program will no longer be first-come, first-served).*

# 4. State Grants 1997-2019

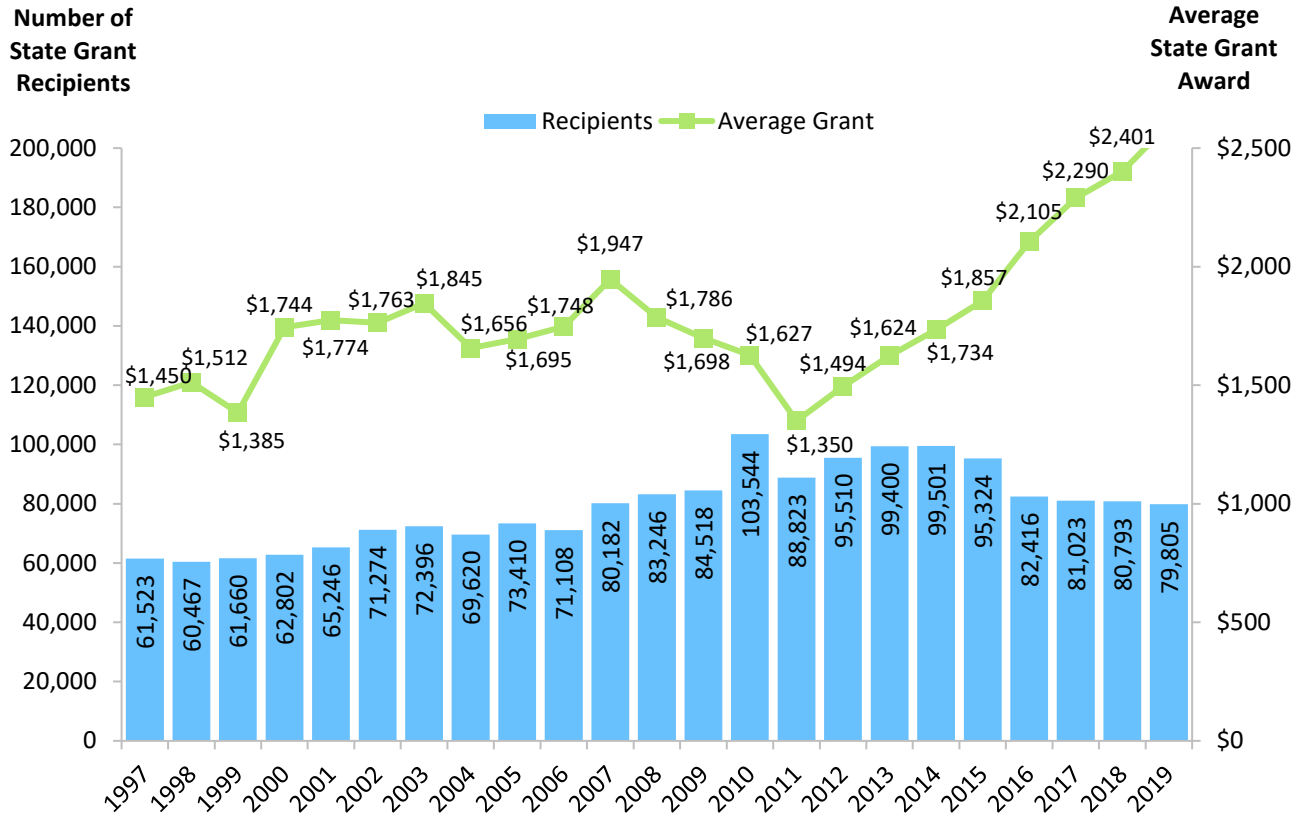

The average State Grant that a student receives continues to increase as the state’s investment in the program increases.

**Figure 12. Average Minnesota State Awards and Total Awards Over Time, Fiscal Years 1997-2019**

**Figure 13. Average Minnesota State Awards and Number of Recipients Over Time, Fiscal Years 1997-2019**

## 5. Postsecondary Institution Choice

The institutions students choose to attend determine the price of attendance used in calculating each student’s Minnesota State Grant award. Institutions are grouped into five categories for this report:

- Minnesota State Colleges — two-year colleges
- Minnesota State Universities — four-year universities
- University of Minnesota
- Minnesota private non-profit institutions
- Minnesota private for-profit institutions

Tribal colleges operated by entities other than Minnesota State Colleges and Universities are included in the “private non-profit” category for reporting purposes.

**Table 4. Minnesota State Grant Receipt, by Type of Institution, Fiscal Year 2019**

### Programs of 2 Years or Less

Type of Institution Attended	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Minnesota State Colleges	34,707 (43%)	\$141.40	\$37.30 (18%)
Minnesota State Universities	0 (0%)	\$0.00	\$0.00 (0%)
University of Minnesota	0 (0%)	\$0.00	\$0.00 (0%)
Minnesota Private Non-Profit Institutions	547 (1%)	\$2.04	\$0.53 (<1%)
Minnesota Private For-Profit Institutions	1,039 (1%)	\$5.72	\$1.81 (1%)
Subtotal – Programs of 2 Years or Less	36,293 (45%)	\$149.16	\$39.64 (19%)

### Programs of 4 Years

Type of Institution Attended	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Minnesota State Colleges	0 (0%)	\$0.00	\$0.00 (0%)
Minnesota State Universities	14,463 (18%)	\$79.10	\$35.45 (17%)
University of Minnesota	12,177 (15%)	\$91.35	\$60.43 (29%)
Minnesota Private Non-Profit Institutions	13,903 (17%)	\$108.72	\$69.03 (33%)
Minnesota Private For-Profit Institutions	2,969 (4%)	\$5.72	\$3.14 (2%)
Subtotal – Programs of 4 Years	43,512 (55%)	\$284.88	\$168.06 (81%)
<b>Total (All Programs)</b>	<b>79,805 (100%)</b>	<b>\$434.04</b>	<b>\$207.69 (100%)</b>

Under the current State Grant parameters set in law, the percent of recipients receiving a Minnesota State Grant will rarely equal the percent of State Grant dollars by type of institution attended. The State Grant award calculation uses the average tuition and fees charged to undergraduate students at their institution or the tuition and fee maximums established in law. Students with lower average tuition and fee charges will receive a smaller award. As a result, lower cost institutions receive a smaller percentage of total State Grant funds (e.g. Minnesota State Colleges). Students with higher-than-average tuition and fee charges will receive a higher State Grant award. As a result, higher-cost institutions will receive a greater percentage of total State Grant funds (e.g. University of Minnesota).

The maximum tuition and fees allowed for two-year programs is significantly lower (\$5,790) than the maximum tuition and fees allowed for four-year programs (\$14,790). Because full-time students will also receive a higher State Grant award, institutions that enroll a higher percentage of full-time students tend to receive a higher percentage of total State Grant funds as compared to institutions that enroll a higher percentage of part-time students.

**Table 5. All Minnesota State Grant Recipients, Minnesota State Grant Statistics,  
Fiscal Year 2019**

Minnesota State Grants (millions)	\$207.69	\$37.30	\$35.45	\$60.43	\$69.56	\$4.95

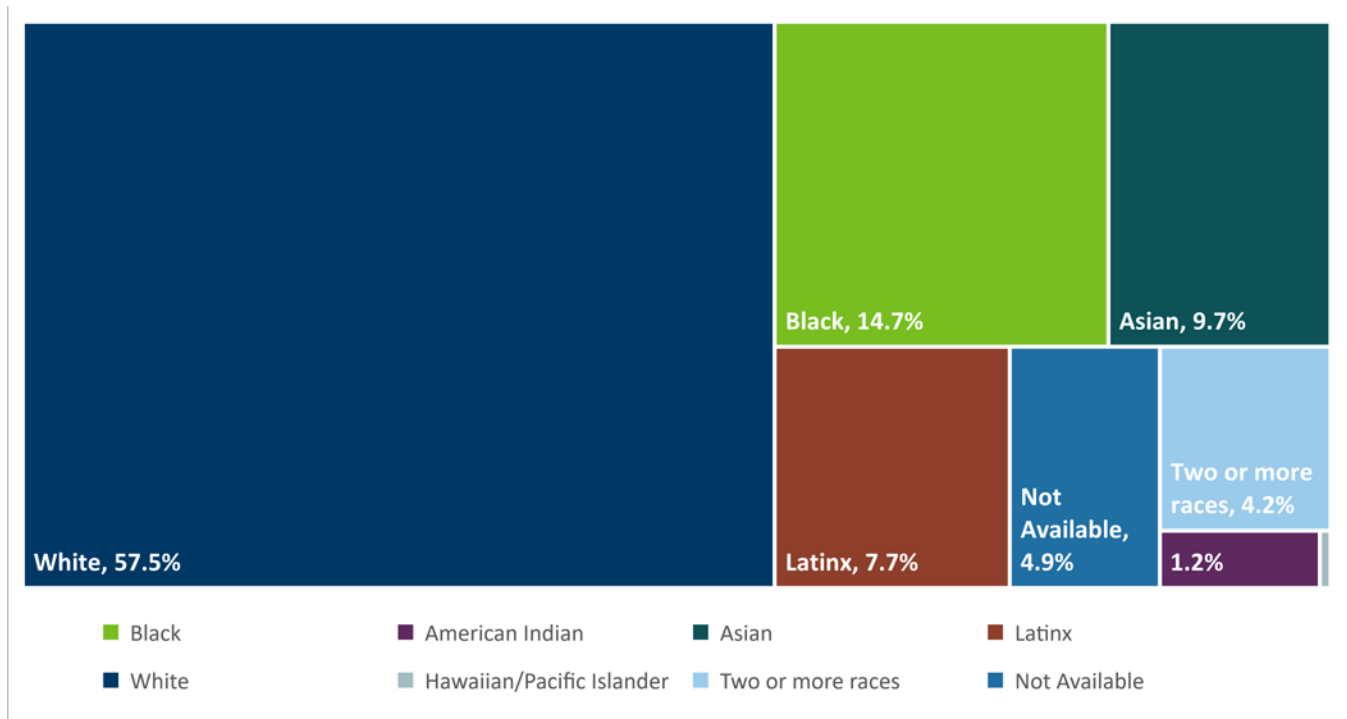

## 6. Student Demographics of Recipients

In 2019, more than one-third of State Grant recipients were students of color or American Indian students (Figure 14). This is roughly 8 percentage points higher than the percent of State Grant applicants that identified as students of color or American Indian students (Figure 2). A full breakdown of students by race and ethnicity is shown in Figure 15.

**Figure 14: Minnesota State Grant Recipients by Student Race and Ethnicity, Fiscal Year 2019**

**Figure 15: Minnesota State Grant Recipients by Student Race and Ethnicity, Fiscal Year 2019**

Nearly 60% of State Grant recipients self-reported as female in 2019, while roughly 40% of recipients reported as male (Figure 16).

**Figure 16: Minnesota State Grant Recipients by Student Gender, Fiscal Year 2019**

## 7. Dependency Status & Family Circumstances

The student's and family's ability to pay for the total cost of attendance (tuition and fees plus a living and miscellaneous expense allowance) is assessed differently for each family category in the State Grant award formula. Family categories are:

- Dependent students (usually students less than 24 years old who were not married and not supporting their own children and were not veterans/military service members)
- Married independent students with dependents (usually children)
- Unmarried independent students with dependents
- Married independent students with no dependents other than a spouse
- Unmarried independent students with no dependents

**Table 6. Minnesota State Grant Statistics, Fiscal Year 2019  
All State Grant Recipients**

Family Status	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Dependent Students	51,662	\$309.44	\$164.64
Married Independent Students with Dependents (Children)	4,687	\$20.43	\$5.04
Unmarried Independent Students with Dependents (Children)	8,767	\$42.32	\$8.09
Married Independent Students with No Dependents	1,642	\$6.95	\$3.73
Unmarried Independent Students with No Dependents	13,047	\$57.21	\$26.20
Total	79,805	\$436.34	\$207.69

The profile of students enrolling by institution type varies. The majority of grant recipients enrolling at Minnesota State Universities, the University of Minnesota and private non-profit institutions are dependent students, as shown in Figure 17.

**Figure 17. Percent of State Grant Recipients by Dependency Status and Institution Type, Fiscal Year 2019**

## 8. Registration Load

The registration load or number of course credits the student enrolls in affects the price of attendance used in calculating Minnesota State Grant awards. The Minnesota State Grant program defines full-time attendance as a registration load of at least 15 credits per term or the equivalent (30 credits per academic year). Average registration load varies by income and family status for State Grant recipients. Dependent students register for more credits annually on average (25.9) than independent students (18.97-21.17), as shown in Table 7.

**Table 7. Minnesota State Grant Recipients and Average Annual Credit Load by Family Status, Fiscal Year 2019**

Family Status	Number of Recipients	Average Annual Credit Load
Dependent Students	51,662	25.90
Married Independent Students with Dependents (Children)	4,687	19.70
Unmarried Independent Students with Dependents (Children)	8,767	18.97
Married Independent Students with No Other Dependents	1,642	21.17
Unmarried Independent Students with No Dependents	13,047	20.13
Total	79,805	23.74

Recipients from families with an adjusted gross income of \$100,000 or more register for more credits annually on average (28.39) than recipients with lower family incomes (Table 8). In 2019, roughly 70 percent of State Grant recipients with family incomes below \$50,000 enrolled part time, compared to 51 percent of State Grant recipients with family incomes above \$50,000. This highlights the economic stratification that exists in how many credits students choose to enroll in.

**Table 8. Minnesota State Grant Statistics, Fiscal Year 2019  
All State Grant Recipients**

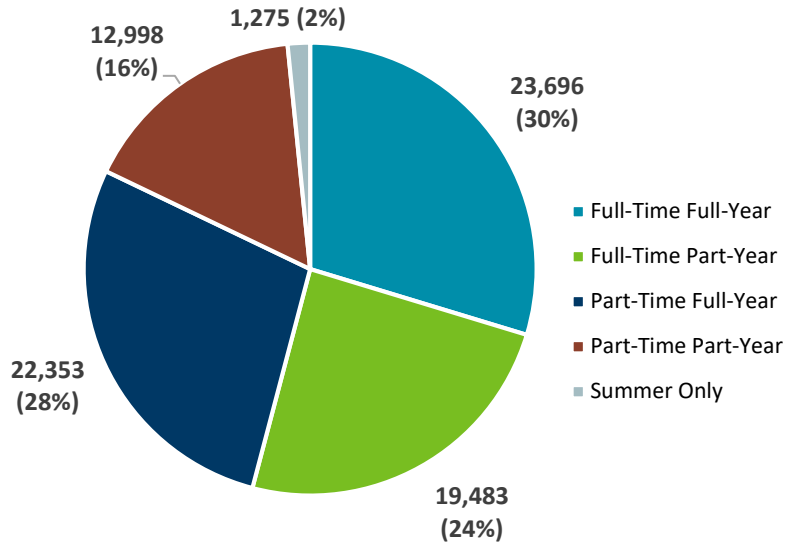

<b>Adjusted Gross Income</b>	<b>Number of Recipients</b>	<b>Average Annual Credit Load</b>
Less Than \$10,000	13,032	21.71
\$10,000 to \$19,999	10,796	21.81
\$20,000 to \$29,999	12,447	22.12
\$30,000 to \$39,999	10,583	22.99
\$40,000 to \$49,999	7,572	24.32
\$50,000 to \$59,999	6,119	25.28
\$60,000 to \$69,999	5,528	25.91
\$70,000 to \$79,999	4,620	26.63
\$80,000 to \$89,999	3,359	27.02
\$90,000 to \$99,999	2,060	27.44
\$100,000 or More	3,689	28.39
Total	79,805	23.74

Figures 18 and 19 display the percent of recipients by the number of credits enrolled per term as follows:

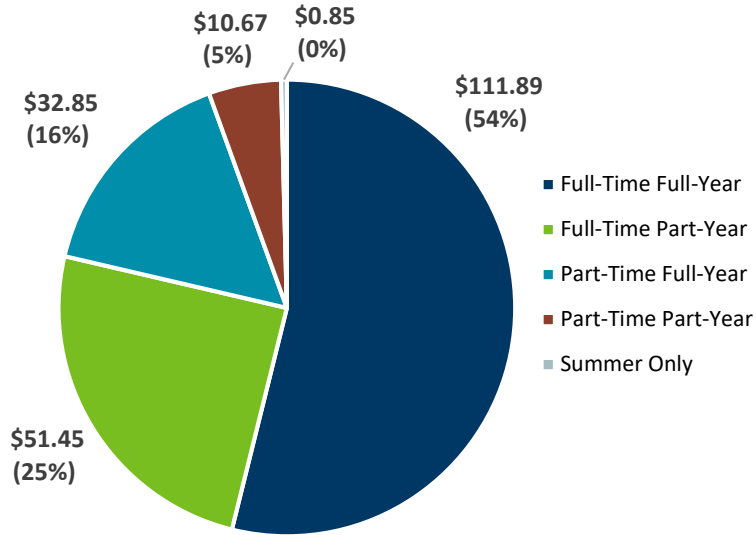

- Full-Time, Full-Year: Recipients who registered for 15 or more credits during both fall and spring terms if a semester-based calendar is used; OR registered for 15 or more credits during fall, winter and spring terms if a quarter-based calendar is used.
- Full-Time, Part-Year: Recipients who registered for 15 or more credits during either fall or spring terms if a semester-based calendar is used; OR registered for 15 or more credits during either fall, winter or spring terms if a quarter-based calendar is used AND the student registered for fewer than 15 credits for the other terms.
- Part-Time, Full-Year: Recipients who registered for fewer than 15 credits during both fall and spring terms if a semester-based calendar is used; OR registered for fewer than 15 credits during fall, winter and spring terms if a quarter-based calendar is used.
- Part-Time, Part-Year: Recipients who registered for fewer than 15 credits during either fall or spring terms if a semester-based calendar is used; OR registered for fewer than 15 credits during either fall, winter or spring terms if a quarter-based calendar is used AND the student did not register for at least one of the other terms.
- Summer only: Recipients who registered at any level for either summer term and did not register in fall, winter or spring terms.

**Figure 18. Enrollment Patterns of State Grant Recipients, Fiscal Year 2019**

Approximately 30 percent of all State Grant recipients enrolled full-time for both fall and spring semesters (or the equivalent quarter terms, for institutions using a quarter-based academic calendar). An additional 24 percent of recipients registered for 15 or more credits in either fall or spring term. Forty-four percent of recipients enrolled for fewer than 15 credits. An additional 2 percent of recipients enrolled in summer term only (Figure 18).

**Figure 19. Percent of State Grant Dollars Received by Student Enrollment Level, Fiscal Year 2019, All State Grant Recipients**

State Grant awards calculated based on the enrollment level of the student. As a result, students that register for fewer than 15 credits per semester will receive lower State Grant awards than students who enroll full time. Students enrolled full time for both fall and spring semesters receive a greater percentage of total State Grant funds compared to students enrolled for fewer credits annually. The majority of State Grant aid is received by students taking 15 or more credits in both fall and spring semesters (Full-Time Full-Year) (Figure 19).

## 8. Minnesota Dream Act

In May 2013, the state legislature passed and Governor Dayton signed into law the Minnesota Dream Act (officially titled in Minnesota law as the Prosperity Act). Under this law, undocumented students meeting the criteria in the Minnesota Dream Act are eligible for in-state tuition rates, privately funded financial aid administered by Minnesota public colleges and universities, and can apply for state financial aid, including the Minnesota State Grant program. Minnesota students granted Deferred Action for Childhood Arrivals (DACA) may also be eligible.

The Minnesota Dream Act provides certain benefits to undocumented students with the following criteria:

- Attended a Minnesota high school for at least 3 years; and
- Graduated from a Minnesota high school or earned a GED in Minnesota; and
- Registered with the U.S. Selective Service (applies only to males 18 to 25 years old); and
- Provide documentation to show they have applied for lawful immigration status but only if a federal process exists for a student to do so (does not include applying for Deferred Action for Childhood Arrivals). Currently, no federal process exists, therefore this documentation is not currently required.

During the Fiscal Year 2019, a total of 436 students received State Grants pursuant to the Minnesota Dream Act, as shown in Table 9.

**Table 9. Number of Minnesota State Grants Recipients and Amount by Institution Awarded Under the Prosperity Act, Fiscal Year 2019**

Participating Institutions	Number of Minnesota State Grant Recipients	Minnesota State Grants Received	Average Minnesota State Grant
Minnesota State Colleges	195	\$229,897	\$1,161
Minnesota State Universities	47	\$129,031	\$2,745
University of Minnesota	65	\$370,472	\$5,700
Minnesota Private Institutions	129	\$702,804	\$8,877
Total	436	\$1,432,204	\$3,285

## 9. Institution Level Data

### 9.1 Minnesota State Colleges

Participating Institutions	Number of Minnesota State Grant Recipients	Percent of Minnesota State Grant Applicants Receiving a State Grant	Combined Federal Pell and Minnesota State Grants Received	Minnesota State Grants Received	Average Minnesota State Grant
Alexandria Technical College	604	58%	\$2,753,800	\$1,010,100	\$1,672
