Hello,

We are currently operating under a standard 3 channel configuration (Channel 1 = PCT 2 & 3, Channel 2 = PCT 4, Channel 3 = PCT 1 & 5). Attached is the communication plan for today for an expanding event. We have staff in place to expand as needed. We have interoperable channels reserved as needed for mutual aid. Other agencies in the metro have been sharing their plans so I do have those available to take into consideration as situation evolve.

I understand there was some confusion with channels last night. I am available 24/7 to answer any comms questions and to help MECC facilitate better comms pathways.

Are there any additional plans in place this evening that we should take into consideration for channels?

Thanks, Sara
