Minnesota Grown Directory

Listing 678 Farms, Markets & Garden Centers

2008-2009

www.minnesotagrown.com • Minnesota Department of Agriculture

Minnesota Farmers Union is proud to be a major sponsor of this year's Minnesota Grown Directory. Since 1942, Minnesota Farmers Union has worked through its grassroots membership to promote and improve the lives of family farmers and consumers, both rural and urban.

Our organization is based on three principles: education, cooperation, and legislation. That is why the Minnesota Grown program, and Minnesota Farmers Union go hand-in-hand. In putting the Minnesota Grown Directory together, the Minnesota Department of Agriculture cooperates with local farmers to promote their farm-fresh food; therefore educating consumers about healthy food choices, and where to find quality, local food while helping support and build a strong, local, rural economy.

Minnesota Grown has over 20 years of success providing information to consumers about healthy food choices, and Minnesota Farmers Union looks forward to continuing to work with the Minnesota Department of Agriculture in supporting this worthy program.

Warmest Regards,

Doug Peterson,
President, Minnesota Farmers Union

Minnesota Farmers Union

Minnesota Farmers Union (MFU) has been working to improve the lives of rural and urban families since 1942. The issues vary - from fighting for country-of-origin-labeling (COOL) so consumers know where their food comes from, to supporting your local economy, to ensuring affordable healthcare is available for all Americans. MFU fights for the common sense issues that resonate across the Midwest and the United States.

MFU is a grassroots, membership-based organization. Representatives from MFU are there at the state and federal level working hard for the policy that our membership drafted. When you do not have the time to advocate for the issues important to you, Minnesota Farmers Union is there working for you!
