Legislative Charge

Minnesota Statutes 2020, section 120B.11, subdivision 9, paragraph (c):

(c) The commissioner shall report by January 25 of each year to the committees of the legislature having jurisdiction over kindergarten through grade 12 education the list of school districts that have not submitted their report to the commissioner under subdivision 5 and the list of school districts not achieving their performance goals established in their plan under subdivision 2.

Introduction

The World's Best Workforce (WBWF) under Minnesota Statutes, section 120B.11, means striving to:

- Meet school readiness goals;
- Have all third-grade students achieve grade-level literacy;
- Close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty;
- Have all students attain career and college readiness before graduating from high school; and
- Have all students graduate from high school.

Under the legislation, school boards adopt a comprehensive, long-term strategic plan to support and improve teaching and learning that is aligned with creating the world's best workforce. The school board publishes an annual report and holds an annual public meeting to review goals, outcomes and strategies. An electronic summary of the annual report must be sent to the commissioner of education each year. The 2021–22 summaries were due on December 15, 2022. The Minnesota Department of Education (MDE) utilized an electronic survey for districts and charters to use when submitting their summaries this year.

District and charter WBWF plans include their own unique locally developed goals and benchmarks for instruction and student achievement in line with statute. Many districts and charters choose to use local measures, in addition to indicators available at the state level, to set goals and track progress over time. The WBWF summary template gives districts and charters the opportunity to self-report whether their goals were met, not met or in progress.

Analysis

The World's Best Workforce (WBWF) law, Minnesota Statutes, section 120B.11, creates baseline strategic planning, community engagement, and reporting requirements for all school districts and charter schools in the state. Among these are the requirements that each district or charter school adopt and maintain a WBWF strategic plan, make an annual report to their community, and provide a summary of that report to the Minnesota Department of Education (MDE). This report provides key information about districts' completion of their summaries and progress toward their local WBWF goals.

Each local WBWF plan must contain at least one goal in each of the following areas, provided the district or charter school offers the relevant grades:

- Meet school readiness goals
- Have all third-grade students achieve grade-level literacy
- Close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living poverty
- Have all students attain career and college readiness before graduating from high school
- Have all students graduate from high school

Each district and charter school can choose the specific measurement used for each local goal as well as the timeline for meeting that goal. A district or charter school can revise its plan, including its goals. Every local plan, including the goals, should be developed and revised with active participation by an advisory committee including teachers, parents, support staff, students and other community residents that, to the extent possible, reflect the diversity of the district. The plan is adopted by the school board.

Districts and charter schools were able to submit the summaries of their reports on the 2021–22 school year beginning in mid-October of 2022, with the first complete summary submitted on October 17, 2022. MDE posted the link to the submission on its WBWF webpage along with a template in Microsoft Word format that districts and charter schools could use to prepare their responses prior to submitting.

Districts or charter schools could identify multiple local goals for a given WBWF goal area, and the summary submission process allowed for districts and charter schools to pick one of the following status options for each goal they identified:

- Goal Met (one-year goal)
- Goal Not Met (one-year goal)
- Met All (multiple goals), such as when identifying several groups in a single achievement gap goal
- Met None (multiple goals)
- Met Some (multiple goals)
- Not On Track (multi-year goal)
- On Track (multi-year goal)

MDE communicated about this process through the School Leader Mail in October and again in December, having set an initial submission deadline of December 15. Districts and charter schools that had not yet submitted by early to mid-December received a targeted follow-up email from MDE. Another targeted follow-up was sent after December 15 in an effort to gather more complete data. This report includes data from the 469 completed summaries submitted through January 9, 2023.

Statute requires MDE to submit a report to the Legislature including the list of school districts that have not submitted their annual report summary as well as the list of districts' performances relative to their local goals.

The table that follows lists the independent school districts and charter schools active during the 2021–22 school year and their progress toward their local goals in that school year as reported in their annual report summary. If a district provided a status for more than one goal, the number of goals in each status is given.

Since each district or charter school can set its own goals, including the choice of measurements and timelines, goals and progress toward them cannot be meaningfully compared between individual districts or charter schools.

When a district or charter school reported a status for multiple goals within a goal area, the count of each type of status is provided. To illustrate, consider the following fictional example:

- The Gopherville Public School District set two different achievement gap goals for 2021–22:
 - Math proficiency would increase by 6 percentage points for American Indian students (from 17% to 23%), 4 percentage points for Hispanic students (from 21% to 25%) and 2 percentage points for white students (from 36% to 38%).
 - Reading proficiency would increase by 6 percentage points for American Indian students (from 35% to 41%), 4 percentage points for Hispanic students (from 42% to 46%) and 2 percentage points for white students (from 52% to 54%).
- The final results for the year showed the goals being met for all groups in math and for American Indian and white students in reading.
- The district’s results for achievement gap closure would read:
 - Met All (multiple goals) x1
 - Met Some (multiple goals) x1

Many different combinations of goal status are possible because of the wide variation in local goal-setting approaches.

If no information about progress toward goals is provided in the table below, the district or charter school did not submit a summary report to MDE.
