Re: 2024 Taxpayers' Transportation Accountability Act Report

Dear Legislators,

I am pleased to provide the report on the Taxpayers' Transportation Accountability Act. This report is required under [Minnesota Statute 161.3203, Subdivision 4](#).

The report covers 113 contracts executed during Fiscal Year 2024 and provides status updates to contracts that remained active from previous reports.

Please contact me if you have questions about this report, or you may contact Chris Roy, the Minnesota Department of Transportation's Assistant Operations Division Director, by email at chris.roy@state.mn.us, or by phone at 651 366-3182.

Thank you.

Sincerely,

Nancy Daubenberger, P.E.
Commissioner

Legislative Request

This report is issued to comply with [Minnesota Statutes 161.3203, subdivisions 3 and 4.](#)

161.3203 CONTRACTS FOR WORK FOR TRUNK HIGHWAY.

Subd. 3. **Review of contract costs.**

(a) Before entering into a privatization transportation contract, the commissioner of transportation shall prepare a comprehensive written estimate of the cost of having the same work provided in the most cost-effective manner by agency employees. The cost estimate must include all costs of having agency employees provide the work, including the cost of pension, insurance, and other employee benefits. The cost estimate is nonpublic data, as defined in section [13.02, subdivision 9](#), until the day after the deadline for receipt of responses under paragraph (b), when it becomes public data.

(b) After soliciting and receiving responses, the commissioner shall publicly designate the responder to which it proposes to award the privatization contract. The commissioner shall prepare a comprehensive written estimate of the cost of the proposal based on the designated responder's bid, including the cost of a transition from public to private provision of the work, any additional unemployment and retirement benefits resulting from the transfer, and costs associated with monitoring the proposed contract. If the designated responder proposes to perform any or all of the desired services outside the state, the commissioner of transportation shall include in the cost estimate, as nearly as possible, any loss of sales and income tax revenue to the state. The cost estimate must not include trade secret data which is classified as nonpublic data under section [13.37](#), subdivision 2.

(c) Before entering into a privatization transportation contract for \$250,000 or more, the commissioner shall determine that:

(1) the cost estimated under paragraph (b) will be lower than the cost estimated under paragraph (a);

(2) the quality of the work to be provided by the designated responder is likely to equal or exceed the quality of services that could be provided by Department of Transportation employees;

(3) the contract, together with other privatization transportation contracts to which the department is or has been party, will not reduce full-time equivalent positions within the department or result in layoffs; and

(4) the proposed privatization contract is in the public interest.

Subd. 4. **Reports.**

On May 23, 2024 the following went into effect for Subd. 4.:

(a) By September 1 of each year, the commissioner must submit a report to the chairs and ranking minority members of the legislative committees with jurisdiction over transportation policy and finance.

(b) The report must list all privatization transportation contracts that were executed or performed, whether wholly or in part, in the previous fiscal year. The report must identify, with respect to each contract:

(1) the contractor;

(2) contract amount;

(3) duration;

(4) work, provided or to be provided;

(5) the comprehensive estimate derived under subdivision 3, paragraph (a);

(6) the comprehensive estimate derived under subdivision 3, paragraph (b);

(7) the actual cost to the agency of the contractor's performance of the contract; and

(8) for contracts of at least \$250,000, a statement containing the commissioner's determinations under subdivision 3, paragraph (c).

(c) The report must collect aggregate data on each of the commissioner's district offices and the bridge office on barriers and challenges to the reduction of transportation contract privatization. The aggregate data must identify areas of concern related to transportation contract privatization and include information on:

- (1) recruitment and retention of staff;
- (2) expertise gaps;
- (3) access to appropriate equipment; and
- (4) the effects of geography, demographics, and socioeconomic data on transportation contract privatization rates.

EFFECTIVE DATE.

This section is effective the day following final enactment.

In response to the updated legislative requirements, MnDOT will begin collecting the additional data this year. The Fiscal Year 2025 TTA report will include these new reporting requirements.

The cost of preparing this report is less than \$5,000.

Summary

This report contains data about contracts that meet the definition of “Privatization Transportation Contracts” as described in [Minnesota Statutes 161.3203](#), which is also known as the “Taxpayers’ Transportation Accountability Act.” A total of 994 contracts were evaluated since the Act took effect.

The Minnesota Department of Transportation executed 113 contracts meeting the statutory definition of a privatization transportation contract during state fiscal year (FY) 2024 (July 1, 2023 - June 30, 2024). This report provides information on the contracts executed in FY 2024 and the 248 contracts from previous years that remained active or were in the close-out audit process at the end of the prior year. Appendix A provides a detailed breakdown for each active contract.

FY 2024 | Contracts Executed

During FY 2024, MnDOT executed 113 contracts with a total value of \$71,155,800.00.

- Contracts greater than \$250,000*: 75 contracts for a total amount of \$64,778,900.00
- Contracts between \$100,000 and \$250,000**: 38 contracts for a total amount of \$6,376,900.00

**MnDOT may only enter into contracts over \$250,000 if the TTAA analysis shows that outsourcing is the less expensive option.*

***For contracts between \$100,000 and \$250,000, MnDOT may contract for the services even if the TTAA analysis shows that outsourcing is the more expensive option.*

FY 2024 | Types of Projects

The 113 contracts executed in FY 2024 were for the following types of projects:

- Bridge Design | 7
- Construction Support | 3
- Design Build Support | 2
- Detailed Design | 57
- Environmental | 1
- Hydraulic Study | 8
- Inspection | 16
- Preliminary Design | 3
- Roundabouts | 2
- Sign Design | 6
- Signal Design | 2
- Land Survey | 1
- Special Study | 1
- Traffic Evaluation | 3
- Testing | 1

FY 2024 | Reason for Outsourcing

The reasons for using outside assistance for the contracts evaluated were:

- (1) Staff unavailable in necessary timeframe | 100
- (2) Specialized expertise unavailable (often staffing limitations as well) | 12
- (3) Specialized equipment unavailable | 1

MnDOT values the knowledge and experience its employees bring to projects; however, no potential contracts over \$250,000 in FY 2024 were re-evaluated and the work kept within the agency as a result of the TTAA estimate comparison. This is because the agency staffs to a “base” program and may need to use consultants when there is additional funding available for more projects, when there is staff turnover, or when specialized expertise is needed and not present in MnDOT’s workforce.

For the 38 contracts with a value between \$100,000 and \$250,000, all were outsourced. In 20 cases, the agency cost estimate, “A” was lower than the contractor’s cost estimate “B”. For the 75 contracts with a value greater than \$250,000, MnDOT’s cost estimate was higher in all cases. This was due primarily to the construction inflation delay factor additives included in 47 MnDOT cost estimates. The construction inflation delay factor additive is an estimate of the additional cost of materials for a construction contract due to inflation if construction was delayed. Premium overtime is no longer used as an additive when no time is available to complete work.

The total estimate of MnDOT’s costs to complete the contracts without construction inflation delay additives was \$66.3 million, versus the total cost of all contracts plus monitoring costs of \$71.1 million. This estimated variance is \$4.8 million.

New TTAA reporting requirements were passed on May 24, 2024 and will be reflected in the Fiscal Year 2025 Report.

Quick Yearly Stats: 2017-2024

Below is a quick summary of the status of contracts from 2017-2024. There are 226 contracts from years prior to 2017 that are closed and no longer included in the summary. Further details for 2024 can be found in Appendix A, which begins on page eleven.

FY 2024 | Contract Status Update

Of the 113 contracts executed in FY 2024:

- 4 are completed and closed
- 3 are completed and in audit
- 106 remain active

FY 2023 | Contract Status Update

Of the 71 contracts executed in FY 2023:

- 12 are completed and closed
- 2 are completed and in audit
- 57 remain active

FY 2022 | Contract Status Update

Of the 83 contracts executed in FY 2022:

- 9 are reported closed or cancelled and in a prior report and are not in this year's report
- 14 are completed and closed
- 5 are completed and in audit
- 55 remain active

FY 2021 | Contract Status Update

Of the 68 contracts executed in FY 2021:

- 23 is reported closed or cancelled and in a prior report and are not in this year's report
- 19 are completed and closed
- 6 are completed and in audit
- 20 remain active

FY 2020 | Contract Status Update

Of the 58 contracts executed in FY 2020:

- 27 were reported closed or cancelled in a prior report and are not in this year's report
- 10 are completed and closed
- 5 are completed and in audit
- 16 remain active

FY 2019 | Contract Status Update

Of the 77 contracts executed in FY 2019:

- 54 are reported closed or cancelled in a prior report and are not in this year's report
- 12 are completed and closed
- 6 are completed and in audit
- 5 remain active

FY 2018 | Contract Status Update

Of the 76 contracts executed in FY 2018:

- 73 are reported closed or cancelled in a prior report and are not in this year's report
- 2 are completed and closed
- 1 is completed and in audit

FY 2017 | Contract Status Update

Of the 77 contracts executed in FY 2017:

- 75 are reported closed or cancelled in a prior report and are not in this year's report
 - 2 are completed and closed
-

Appendix B: Calculations Used

Taxpayers' Transportation Accountability Act Calculation of MnDOT Labor and Overhead Cost - FY 2024

Labor Cost Group	Calculation or Percentage Used	Types of Costs Included
Salaries	Estimated hours by employee job class and work activity per project manager, multiplied by salary rate.	Average salary rate per hour for all MnDOT employees at each employee job class.
Payroll Taxes and Benefits	Average of all MnDOT employees at each job class – ranges from 25 percent to 45 percent of salaries – average about 35 percent.	FICA – Employer portion of social security taxes. Insurance – Employer portion of group health insurance. Retirement – Employer portion of retirement benefit costs.
Indirect Labor Additive	28.78 percent - Audited labor additive rate	Vacation – Absences due to vacation time taken, donated or transferred to deferred compensation. Holiday – Absences due to designated holidays and use of floating holiday. Sick leave – Absences due to employee sickness, dependent illness or medical/dental appointments. Premium time – Cost of overtime premium (the half-time portion of time-and-a-half). Workers Comp Leave Time – absences due to work-related injury or illness. Miscellaneous benefits and leaves – Cost of retroactive salary adjustments, achievement awards, grievance awards, first day of injury, death benefit, absences due to voting, jury duty, military leave, snow days, etc.
Indirect Overhead Additive	18.2 percent - Overhead additive rate calculated to include expenses from MnDOT offices providing services throughout the department such as: <ul style="list-style-type: none"> • Finance and Accounting • Legal Services • Information Technology (IT) • Government Relations • Human Resources and Workforce Relations • Building and Facilities Operations 	Full-time and part-time salaries and benefits, including overtime and premium pay for people in the offices and: <ul style="list-style-type: none"> • Space rental, maintenance and utilities • Repairs, alterations and maintenance • Printing and advertising • Professional and technical services • Computer and systems services • Communications • Travel • Employee development • Supplies and Equipment • Attorney general and other statewide indirect costs • Other operating costs
Specific Overhead Additive	23.06 percent - Audited billing overhead additive rate. Primarily Operations Division supervisory, administrative and miscellaneous costs.	Full-time and part-time salaries and benefits, including overtime and premium pay for these people and: <ul style="list-style-type: none"> • Space rental, maintenance and utilities • Repairs, alterations and maintenance • Printing and advertising • Professional and technical services • Computer and systems services • Communications • Travel • Employee development • Supplies • Equipment • Other operating costs

Labor Cost Group	Calculation or Percentage Used	Types of Costs Included
Premium Overtime	One half of the average salary rate per hour for employees eligible for premium, or time and a half, overtime.	Overtime and FICA
Construction Delay Inflation Factor	Construction Delay Inflation Factor- the potential estimated additional cost of materials for a construction contract due to inflation if construction is delayed. Factor equals: Estimated construction cost X Length of Delay X Inflation Rate = Factor	Most recent estimated cost of project construction, per project manager. Inflation factor per the Office of Capital Programs and Performance Measures annual construction inflation rates. This factor ranges from 1 to 8 percent per year.
