Property Tax

Bulletin No. 1

St. Paul, Minnesota 55145

FOREWORD

Property tax is a very important source of revenue for all governmental units, namely cities, villages, townships, school districts, special districts and county governments. The State government has not levied a property tax since 1966. This bulletin summarizes the property taxes levied in Minnesota by governmental unit by county which are payable in 1972 and the 1972 payments for the 35% homestead tax relief credit. Beginning in 1968, the tax due on homesteaded property, exclusive of the levy for bonded indebtedness is reduced by 35% up to a maximum of \$250.00. The amount of the reduction of the tax is paid by the State. In addition to current year property taxes, this bulletin also illustrates selective historical property tax data and a comparison by county of the current year's taxable value, taxes levied and mill rates to those in 1971.
