LEGISLATIVE INFORMATION SUMMARY

STATE OF MINNESOTA

PREFACE

In 1935, the Bureau of Criminal Apprehension was given the responsibility to collect crime activity information from the law enforcement agencies throughout the State of Minnesota. Biennially, reports were completed and forwarded to the concerned parties as required by State Statute. In 1972, the publications began to be printed annually.

Each year's report measures the amount of criminal activity within the State as collected and prepared from data submitted by individual law enforcement agencies. The criminal activity consists of measurements involving offenses, clearances, and arrests. Limited information is also available on law enforcement personnel. Comparisons with previous year's statistics will be presented only

where there is a significant number of trend changes that might be of use to the evaluator. Individual comparisons on specific measurements will be left to the evaluator for use as required by the individual's needs.

The Bureau of Criminal Apprehension wishes to express its thanks to the cooperating law enforcement agencies whose assistance provide the success of this publication. A special debt of gratitude is extended to Ms. Evelyn Neuman of the Criminal Justice Information Systems Section of the Bureau. Through her extensive past experience, professional ideals and untiring devotion, the information for each year's report is synthesized for meaningful interpretation by the editor.

INTRODUCTION

BACKGROUND

The State of Minnesota, since 1936, has participated in the FBI's Uniform Crime Reporting Program. The statistics that have been generated each year are not only of vital concern to national figures, but are equally important to the State as a whole. In 1972, Minnesota began collecting crime related data as part of a computerized statewide Criminal Justice Reporting System program. The benefits derived from such an automated program are indicated in a modernistic approach to the collection of Uniform Crime Reports.

The responsibility and authority for collecting and disseminating the UCR Information was mandated to the Bureau of Criminal Apprehension through applicable State Statutes. They are as follows.

MINNESOTA STATE STATUTES, CHAPTER 299C

299C.05 DIVISION OF CRIMINAL STATISTICS. There is hereby established within the Bureau a division of criminal statistics, and the superintendent, within the limits of membership herein prescribed, shall appoint a qualified statistician and one assistant to be in charge thereof. It shall be the duty of this division to collect, and preserve as a record of the Bureau, information concerning the number and nature of offenses known to have been committed in the state, of the legal steps taken in connection therewith from the inception of the complaint to the final discharge of the defendant and such other information as may be useful in the study of crime and the administration of justice. The information so collected and preserved shall include such data as may be requested by the United States Department of Justice, at Washington, under its national system of crime reporting.

299C.06 DIVISION POWERS AND DUTIES; LOCAL OFFICERS TO COOPERATE. It shall be the duty of all sheriff's, chiefs of police, city marshals, constables, prison wardens, superintendents of insane hospitals, reformatories and correctional schools, probation and parole officers, school attendance officers, coroners, county attorneys, court clerks, the liquor control commissioner, the commissioner of highways, and the state fire marshal to furnish to the division statistics and information regarding the number of crimes reported and discovered, arrests made, complaints, informations and indictments filed and the disposition made of same, pleas, convictions, acquittals, probations granted or denied, receipts, transfers, and discharges to and from prisons, reformatories, correctional schools, and other institutions, paroles granted and revoked, commutation of sentences and pardons granted and rescinded, and all other data useful in determining the cause and amount of crime in this state and to form a basis for the study of crime, police methods, court procedure, and penal problems. Such statistics and information shall be furnished upon the request of the division and upon such forms as may be prescribed and furnished by it. The division shall have the power to inspect and prescribe the form and substance of the records kept by those officials from which the information is so furnished.

299C.12 RECORDS KEPT BY PEACE OFFICERS; REPORTS. Every peace officer shall keep or cause to be kept a permanent written record, in such form as the superintendent may prescribe, of all felonies reported to or discovered by him within his jurisdiction and of all warrants of arrest for felonies and search warrants issued to him in relation to the commission of felonies, and shall make or cause to be made to the sheriff of the county and the bureau, reports of all such crimes, upon such forms as the superintendent may prescribe, including a statement of the facts and a description of the offender, so far as known, the offender's method of operation, the action taken by the officer, and such other information as the superintendent may require.

GOALS AND OBJECTIVES

The primary goal of the UCR program in Minnesota is to provide statistical information on the volume and affect of crime. To better assist concerned individuals and agencies to solve the state crime problem, a more encompassing approach involving all aspects of criminal activity was needed. With this in mind, and examining the recommendations of the President's Commission on Law Enforcement and the Administration of Justice, the UCR program became one aspect of the computerized State Criminal Justice Reporting System.

The major objectives of Minnesota's UCR Program include:

1. Statistics on crime in Minnesota to be used by the Governor, Legislature, Crime Control Planning Board, and other concerned individuals within the State.
2. Statistics on crime for administrative and operational use by law enforcement administrators.
3. Statistics on specific criminal offenses to be used in the FBI's national crime reports.
4. Statistics involving the age, sex and race of offenders to determine the proper focus for crime prevention and enforcement.
5. Statistics on crime for researchers to assist in the formation of the causes of crime within a biological, sociological and/or psychological framework.
6. Statistics on crime to measure the workload and effectiveness of the 'current' state criminal justice system.

7. Statistics on crime for personnel employed by the criminal justice system to help assist them in improving the efficiency and performance of criminal justice agencies.

REPORTING PROCEDURES

Through Minnesota's crime reporting statutes, participating Minnesota Law Enforcement Agencies are required to submit information as determined by the Bureau of Criminal Apprehension. The required information is tallied from the individual agency's internal record of complaints, investigations, miscellaneous reports and arrests. To help achieve a uniformity of reporting throughout the State, a copy of the *Minnesota Law Enforcement Records Manual*, along with the FBI's *Uniform Crime Reporting Handbook* is offered to each agency. In conjunction with the manuals, numerous training sessions in record and report writing and filing are offered to each agency by field representatives of the Bureau's Criminal Justice Information Systems Section. Individual contact with agencies experiencing difficulty in any phase of the Criminal Justice Reporting System is also offered by the field representatives. Verification for authenticity of reports that are submitted are handled by the clerical staff at the Bureau or by a special "edit" program written into the computerized Criminal Justice Reporting System. Inconsistencies of report information and minor errors are corrected by telephone or terminal contact. Major errors in UCR reporting methods are handled exclusively by field representatives.

The Bureau, along with the FBI, has established their specific program to measure criminal data activity for both state and federal purposes. The result is a tabulation of the number and type of offenses committed, cases cleared or solved, and the persons arrested. A criminal act may involve several crimes, several persons, and several victims; but all that is necessary for such an act to be reported and recorded by the state and federal programs is one violation. If a given criminal act involves more than one offense, only the more serious offense is counted. "Clearance by arrest" indicates that at least one person was arrested. It does not preclude the fact others may have also been involved in the offense. Any additional arrests are purely supplemental and are used for each department's record purposes only and not reported under the program.

Another part of criminal data collection involves juvenile offenses and arrests. When reviewing such data it should be remembered that many times juvenile offenses are handled informally within the different agencies and therefore go unreported. In cases where an offense involves both adults and juveniles, and subsequent arrests are made of both, the crime reporting program will indicate this offense to be cleared by the arrest of the adult. Juvenile arrests are used for clearance purposes only in those instances where juveniles alone are involved.

Clearing an offense by the arrest of a person(s) is but one means of indicating such activity. Another involves the

clearing of a reported offense by use of the term "exceptionally cleared". An exceptional clearance exists when some element beyond law enforcement action prevents formal charges against the offender. Such a situation might arise if:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by a law enforcement officer.
5. The offender confesses to committing the crime while already in custody for another crime or serving a sentence.
6. The offender is prosecuted in another city for a different crime by federal, state, or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses.

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "offenses actually known to law enforcement agencies" for each crime offense category is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur, rather than to the agency which may investigate, arrest, or otherwise in some manner dispose of the case. Municipal law enforcement agencies report those crimes which are committed within the cities; county sheriff's departments report those crimes which occur in the counties outside the city. Law enforcement agencies also report on a periodic basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides. Additional reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law

enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily and semi-daily basis under the Minnesota Criminal Justice Reporting System program. Once received, it is processed and disseminated for use in state and national reports as well as by the participating agencies themselves (see CJRS-UCR flow chart).

"Crime rate" is a term often used in evaluating criminal statistics. The crime rate represents or equates the number of index crimes per 100,000 in population. Basically, it refers to the comparison of the number of offenses with the number of potential offenses and the number of persons exposed to the risk of the offense. It does not include other variables which might affect the amount of crime within a given area.

CRIME FACTORS

When the current method of crime reporting is considered, several limitations in its accuracy may be immediately recognizable. Law enforcement agencies are not totally to blame because of their capability to only report that which is known to them. In many instances, the very citizens who are themselves "victims" of a crime fail to inform the law enforcement agency of their occurrence. There is a general tendency among the public to not report minor crimes that are, in their eyes, of little consequence. The public may also feel that the law enforcement agency is of little help to them. They may also feel the threat of blackmail or retaliation for participating in a sex, gambling, or narcotic offense. The public may also feel the threat of embarrassment for being involved in a crime regarded against the norms of society. Given these factors, much crime is never included in the total state evaluation of the crime problem.

Another element of concern is the actual number of law enforcement agencies reporting crime information. Lack of crime information by delinquent agencies can potentially reduce the accuracy of the crime picture as developed from reported information.

The term "selective reporting" also has a bearing on the crime reported by participating agencies. Selective reporting reflects only the crimes for which an agency considers important or necessary to be reported through the system. The information that is utilized from such reporting is slanted and misleading. It does not give an accurate account of the crime problem and it further discredits the time spent in reporting the "selected" activity. Such reporting is immediately recognizable from the output reports and its improper use affects all the information submitted by the contributing law enforcement agencies.

Extraneous conditions beyond the realm of law enforcement also affect the measurement and analysis of crime. These conditions, or CRIME FACTORS, include but are not necessarily limited to:

- A. Legislative changes as to what constitutes a criminal offense.
- B. Density and size of the community population and the metropolitan area of which it is part.
- C. Composition of the population with reference particularly to age, sex, and race.
- D. Economic status and mores of the population.
- E. Relative stability of population including commuters, seasonal and other transient types.
- F. Climate, including seasonal weather conditions.
- G. Educational, recreational, and religious characteristics.
- H. Effective strength of the police force.
- I. Standards governing appointments to the police force.
- J. Policies of each of the law enforcement agencies.
- K. Policies of the prosecuting officials and the courts.
- L. Attitude of the public toward law enforcement problems.
- M. The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Information provided in *MINNESOTA CRIME INFORMATION 1979* is as accurate as currently available in the State. Crime and arrest statistics should be interpreted with caution when comparing different law enforcement jurisdictions. **Reported crimes relate to events, while arrests relate to persons.** For any one criminal act there may be multiple crimes, multiple offenders, and multiple victims.

Given the above considerations, the total crime picture is indeed influenced by many variables. Opponents of the Uniform Crime Reporting System are often vocal in pointing out the inadequacy of this system. Proponents respond by indicating that at the present time there is no other suitable method of collecting criminal statistics. If a better system is developed, tested, and offered as a replacement, law enforcement will not hesitate to implement it.

A DESCRIPTION OF UNIFORM CRIME REPORTING OFFENSES AND THEIR CLASSIFICATIONS

The Bureau of Criminal Apprehension, using the reporting techniques recommended by the FBI, records criminal data submitted by the many law enforcement agencies in

FLOW CHART OF THE CJRS/UCR IN MINNESOTA

the State. The criminal data collected contains information regarding Part I Offenses and Part II Offenses called to the attention of Minnesota Law Enforcement agencies.

Part I Offenses reflect information on eight "serious" crime classifications, and it is generally referred to as the "Crime Index" measurement. Part II Offenses are represented by twenty-five "less serious" crime classifications.

The eight crimes represented in the Part I Offenses include murder, rape, aggravated assault, robbery, burglary, larceny, motor vehicle theft, and arson. These crimes were chosen because of their uniformity of definition, total volume, and likelihood of being reported. The crimes of murder, rape, aggravated assault, and robbery are also known as "violent crimes". The crimes of burglary, larceny, and motor vehicle theft, are labeled as "property crimes". The crime of arson is not classified as "violent" or "property"; this offense falls into a category by itself. The law enforcement agency may become aware of these crimes in several ways; reports of its own officers, citizens complaints, notification from the prosecuting attorney, and from information supplied by court officials.

PART I OFFENSES (Serious Crime)

Criminal Homicide — The killing of another person.

(a) **Murder** — Any unlawful killing of a human being in which the element of malice aforethought was present in the murder.

Manslaughter — Any unlawful killing of a human being without the element of malice aforethought is counted as manslaughter.

(b) **Death by Negligence** — Any death that occurs because of the negligence of some person other than the victim and that is not in the commission of an unlawful act. These are deaths which police investigation established as primarily caused by gross negligence.

Forcible Rape (does not include Statutory Rape).

(a) **Rape by Force** — The carnal knowledge of a female forcibly and against her will, but excluding statutory rape and other sex offenses.

(b) **Assault to Rape-Attempts** — All assaults and attempts to rape.

Robbery — A robbery is defined as the felonious and forcible taking of property of another against his will by violence or by putting him in fear. This includes all attempts.

(a) **Armed Robbery-Any Weapon** — When any object is so employed as to constitute force or the threat of force, it will be considered a weapon. This would include firearms, knives, clubs, brass knuckles, black jacks, broken bottles, acid, explosives, etc. Cases involving possible pretended

weapons or cases involving weapons not seen by the victim but which the robber claims to have with him should be counted in this category.

(b) **Strong Arm-No Weapon** — This includes muggings and similar offenses where no weapon is used but strong-arm tactics are employed to deprive the victim of his property. This definition is limited to hands, arms, fists, feet, etc. Include all attempts.

Aggravated Assault — An Aggravated Assault is an attempt or offer with unlawful force or violence to do physical injury to another. As a general rule all assaults will be classified and scored in this category. Exclude assaults with intent to rob or rape. Excludes simple assault, assault and battery, fighting, etc. These will be scored in the appropriate category.

(a) **Gun** — Includes all assaults or attempted assaults involving the use of any type of firearm. This includes revolvers, automatic pistols, shotguns, zip guns, pellet guns, etc.

(b) **Knife or Cutting Instrument** — Includes all assaults or attempted assaults involving the use of cutting or stabbing objects such as knives or razors, hatchets, axes, cleavers, scissors, glass, broken bottles, daggers, ice picks, etc.

(c) **Other Dangerous Weapons** — Includes all assaults or attempted assaults when an object other than a gun, knife or cutting instrument is used. This includes clubs, bricks, jack handles, bottles, explosives, acid, lye, poisons, scalding water, and cases of attempted drownings and burnings, etc.

(d) **Hands, Fists, Feet, etc.-Aggravated** — Includes all assaults with hands, fists, feet, etc., which could result in an aggravated assault conviction. In order to be classified as aggravated, the victim must suffer great bodily harm.

Burglary-Breaking and Entering — Includes any unlawful entry or attempted forcible entry of any structure to commit a felony or larceny. As a general rule, score as one offense, any unlawful entry or attempted forcible entry of any dwelling, attached structure, public building, shop, factory, storehouse, apartment, house, trailer, warehouse, mill, farm, ship, railroad car, etc. For UCR purposes, breaking and entering with larceny is classified and scored only as breaking and entering. This does not include breaking and entering of motor vehicles. These are scored in the larceny category.

(a) **Forcible Entry** — Includes all offenses where force of any kind is used to unlawfully enter a locked structure such as any of those listed above with intent to steal or commit a felony. This includes entry by use of a master key,

celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building followed by breaking out of the structure should also be scored here.

- (b) **Unlawful Entry-No Force** — Includes any unlawful entry when you fail to discover any evidence of forcible entry.
- (c) **Attempted Forcible Entry** — Included in this category only when your investigation determines that a forcible entry has been attempted.

Larceny-Theft (does not include Motor Vehicle Theft) — This category includes the unlawful taking of the property of another with intent to deprive him of ownership. This involves all larcenies and thefts resulting from pocketpicking, purse snatching, shottlifting, larceny from auto, larceny of auto parts and accessories, bicycle theft, larceny from buildings, and larceny from any coin operated machines. Any theft that is not a robbery or any theft that does not result from a breaking and entering shall be scored here. Excludes embezzlements, unlawful conversions, larceny by bailee, frauds or bad checks. Enter all attempted larcenies. Note: when the true or known value of stolen property is not available, estimates based on accepted police methods of property evaluation should be used for the purposes of Uniform Crime Reporting.

Motor Vehicle Theft — This category includes larceny or attempted larceny of motor vehicles. Includes all thefts and attempted thefts of motor vehicles. This includes all vehicles which can be registered as a motor vehicle in this state. Excludes incidents in which the alleged offender had lawful access to the vehicle as in a family situation or the unauthorized use by others having lawful access to the vehicle such as chauffeur, employee, etc.

Arson — Includes all arrests for violation of state law and municipal ordinances relating to arson and attempted arson. This generally includes any willful or malicious burning of a dwelling, church, college, jail, meeting house, public building, ship or other vessel, motor vehicle, aircraft, contents of building, personal property of another, goods or chattels, crops, trees, fences, gates, grain, vegetable products, lumber, woods, marshes, meadows, etc. A death resulting from arson will be classified as murder and personal injuries resulting would be classified as assaults.

PART II OFFENSES (Less Serious Crime)

Other Assaults — This classification consists of all assaults and attempted assaults which are simple or minor in nature.

Forgery and Counterfeiting — In this class, place all

offenses dealing with the making, altering, uttering or possession with intent to defraud, anything false in a semblance of that which is true. Include altering or forging of public or other records, making, altering, forging or counterfeiting coins, plates, banknotes, checks, etc. Possessing or uttering forged or counterfeited instruments, signing the name of another or a fictitious person with intent to defraud and all attempts to commit any of the above acts.

Fraud — This is defined as fraudulent conversion and obtaining money or property by false pretense. Include bad checks, confidence games, etc., except forgeries and counterfeiting.

Embezzlement — This is the misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

Stolen Property-Buying, Receiving, Possessing — This includes all offenses of buying, receiving, possessing, or concealing stolen property as well as all attempts to commit any of these offenses.

Vandalism-Destruction of Property — This includes all willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth or any other such means as may be specified by law.

Weapons — This classification includes violation of weapon laws such as the manufacture, sale, or possession of deadly weapons or silencers, carrying deadly weapons, furnishing deadly weapons to minors, aliens possessing deadly weapons, and all attempts to commit any of the above offenses.

Prostitution and Commercialized Vice — Include in this class the sex offenses of a commercialized nature such as prostitution, keeping a bawdy house, disorderly house, or house of ill repute, pandering, procuring, transporting or detaining women for immoral purposes, etc., and all attempts to commit any of the above.

Sex Offenses — This includes all sex offenses other than forcible rape, prostitution, and commercialized vice. This encompasses offenses against chastity, common decency, morals, and the like such as adultery and fornication, buggery, incest, indecent exposure, sodomy, carnal abuse (no force), and all attempts to commit any of the above.

Narcotic Drug Laws — This includes all arrests for the violation of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

Gambling — Includes all charges relating to promoting, permitting, or engaging in gambling.

Offenses Against Family and Children — Includes all charges of non-support, neglect, or abuse of family and children by such acts as desertion, abandonment, or non-support, neglect or abuse of a child, or nonpayment of alimony.

Driving Under the Influence — This classification is limited to driving or operating any vehicle while under the influence of liquor or narcotic drugs.

Liquor Laws — With the exception of drunkenness and driving under the influence, all state or local liquor law violations are placed in this class. Excludes federal violations, includes manufacturing, selling, transporting and furnishing as in maintaining unlawful drinking places. Bootlegging, operating a still, furnishing liquor to a minor and the using of a vehicle for illegal transportation of liquor are included.

Drunkenness — No longer reported under the UCR program in Minnesota. This offense was repealed in Minnesota on July 1, 1971 (MSS 340.96; C 90, S2).

Disorderly Conduct — Disturbing the Peace — This includes all disorderly persons arrested who cannot be classified under Offenses of Criminal Homicide, Forceable Rape, Drunkenness, or Vagrancy.

Vagrancy — This classification indicates arrests for failure of an individual to give a good account of himself, begging, loitering, etc.

All Other Offenses — Include in this class every other state or local offense not included, except traffic. This encompasses abduction and compelling to marry, abortion (death resulting from criminal abortion, according to statutes, is criminal homicide), bastardy and concealing death of a bastard, bigamy and polygamy, blackmail and extortion, bribery, contempt of court, discrimination and unfair competition, kidnapping, offenses contributing to juvenile delinquency, perjury, possession, repair, manufacturing, etc., of burglary tools, possession or sale of obscene literature and unlawful use, possession, etc., of explosives, etc.

Suspicion — This category is used for unknown incidents when the actual offense has not been determined.

Curfew and Loitering Law Violation (Juveniles) — This area shows offenses relating to local curfew or loitering ordinances, where such laws exist. It is limited to juveniles taken into protective custody who have run away from the reporting jurisdiction.

Runaways (Juveniles) — This classification is limited to juveniles taken into protective custody under provisions of State Statutes.

LAW ENFORCEMENT AGENCIES CONTRIBUTING

To assure an accurate interpretation of the data presented in this report, the exact number of law enforcement agencies submitting information must be indicated. Specifically, reports are collected for urban places (cities and towns) and rural areas according to the definitions of Uniform Crime Reporting. The police department reports information for cities of 2,500 inhabitants and over, while the sheriff's departments collect information for the rural areas. (Also included are those cities of under 2,500 population.)

The Bureau requests that information from all reporting agencies be submitted regularly. Minnesota's continual high rate of agency participation indicates an ever increasing amount of information being returned for analysis. Since 1936 the average percent of sheriff's departments forwarding information has been over 95 percent. The 99 percent contribution figure for 1979 is further evidence of the high degree of cooperation reflected by those agencies submitting information.

MINNESOTA OFFENSE INFORMATION

MINNESOTA CRIME INDEX INFORMATION

STATEWIDE OVERVIEW

Crime Index (Serious Crimes)

The eight major criminal offenses are referred to as the crime index and they are used to evaluate the changes and trends in amounts of crime over designated periods of time. Beginning in 1973, the Minnesota State Patrol began submitting criminal offense and arrest information in accordance with the Statewide Uniform Crime Reporting Program. Statewide totals in the *Crime in Minnesota* publication of 1973 did not include the State Patrol figures, except as a separate section of the book. The statewide figures for 1974 to the present do not include the State Patrol data.

- The crime index in Minnesota totaled 177,929 actual offenses during 1979 which was 8.1 percent higher than the 164,593 actual offenses occurring in 1978.
- The crime rate represented 4,803 per 100,000 in population for 1979, while in 1978, the crime rate was registered at 4,157 per 100,000 population, a 15.5 percent increase.
- Of the total crime index offenses reported in 1979, 23 percent were cleared by arrest or exceptionally cleared. In 1978, 20 percent of the total offenses were cleared by arrest or exceptionally cleared.
- Larceny was the largest category of serious crime reported for Minnesota in 1979 with a total of 110,571 offenses reported. Larceny was also the largest category of serious crime reported for the state in 1978 with 110,624 total offenses reported.

Violent Crimes

Violent crime in Minnesota accounted for 5 percent of all crime index offenses reported in 1979. There were 8,965 murders, forcible rapes, robberies, and aggravated assaults for that year. Compared with the 7,581 total violent crimes reported for 1978, the 1979 figures represent an 18.2 percent increase in violent crime for the state. This compares to an 11 percent increase in violent crimes for the nation in 1979 based on preliminary figures released by the FBI in April, 1980. The number of violent crimes per 100,000 population for 1979 was 223, while in 1978 there were 191 per 100,000 population.*

- **Murder** — Offenses involving murder totaled 98 in 1979 in Minnesota compared to 81 in 1978, an increase of 20.9 percent.
- **Forcible Rape** — Minnesota registered 870 rapes in 1979 and 795 in 1978, an increase of 9.4 percent.

*Minnesota crime rates per 100,000 inhabitants are based on a 4,026,400 state population of those agencies who contributed reports in 1979.

• **Robbery** — There were 3,752 robberies in Minnesota in 1979, compared to 3,407 offenses in 1978; an increase of 10.1 percent.

• **Aggravated Assault** — Offenses involving aggravated assault numbered 4,245 in 1979, compared to 3,298 aggravated assaults in 1978, an increase of 28.7 percent.

Property Crime

Property crime in Minnesota in 1979 amounted to 95 percent of the crime index offenses for that year. There were a total of 168,964 burglaries, larcenies, and motor vehicle thefts actually reported in 1979. Compared with the 157,012 offenses reported in 1978, the 1979 figure represents a 7.6 percent increase in property crime for the state. This compares to an 8 percent increase in property crimes for the nation in 1979 based on preliminary figures released by the FBI in April, 1980.

- **Burglary** — There were 45,053 burglaries in Minnesota in 1979, compared to 43,477 offenses in 1978, an increase of 3.6 percent.
- **Theft/Larceny** — Offenses involving larcenies in Minnesota in 1979 totaled 110,571 compared to 100,624 offenses in 1978; an increase of 9.9 percent.
- **Motor Vehicle Theft** — In 1979, there were 13,340 offenses of motor vehicle theft in Minnesota, compared to the 12,911 offenses reported in 1978, an increase of 3.3 percent.

Total Arrests**

Law Enforcement agencies within Minnesota's 4,026,400 reporting population area accounted for 99,401 total arrests in 1979. The total number of arrests in 1978 for the state's 99 percent reporting population area was 94,507.

- **Adult Arrests** — Arrests for adults in 1979 amounted to 62,472 total, while in 1978, the total number of adult arrests were recorded at 57,821.
- **Juvenile Arrests** — The total number of juveniles arrested in 1979 for criminal offenses amounted to 36,929. In 1978 the total number of juveniles arrested represented a 36,686 figure.

**Total arrests represent all arrests for adults and juveniles involved in either a Part I (serious) or Part II (less serious) criminal offense. An arrest in the Uniform Crime Reporting sense refers to a form of detention by depriving an individual of his personal liberties by a form of legal authority.

ROBBERY

AGGRAVATED ASSAULT

CRIMINAL HOMICIDE – MURDER

Criminal homicide involves those offenses of murder and non-negligent homicide that are classified as willful felonious deaths as distinguished from deaths caused by negligence. Attempts to kill are scored as aggravated assaults and not as murder. Justifiable or excusable homicides, suicides and accidental deaths are excluded from this category.

SUMMARY ANALYSIS

- In 1979 there were 98 homicides reported for the state, with 79 of these offenses cleared by arrest. This represents an 81 percent clearance rate for that year. Of the 81 offenses that were cleared, 6 were cleared by the arrest of a juvenile.*

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- The crime rate for homicide in 1979 was 2 per 100,000 population. Thirteen offenses were unfounded, or classified as justifiable or excusable.
- Homicide offenses represented .055 percent of the total violent crimes, with one averaged every 3.7 days.

HOMICIDE SCENARIO

A white male, age 30, living in an urban area is shot with a handgun by a member of his family or a friend during a domestic argument. The offender, a white male, age 21, is likely to be arrested.

SUPPLEMENTARY HOMICIDE INFORMATION

Supplementary Homicide Reports are manually submitted to the BCA by law enforcement agencies reporting homicides during the year. These reports provided additional information on the homicide offenses. The following information was compiled from reports on 98 homicides during 1979.

Relationship of the Victim to the Offender

- 24 homicide victims were killed by a member of their nuclear family. (24%)
- 65 homicide victims were either family members or friends. (66%)
- 16 homicide victims were strangers to their assailants. (16%)

FIGURE 4
NUMBER OF HOMICIDES BY RELATIONSHIP FOR 1979

Weapon Used to Commit the Homicide

- Forty-six homicides reported were committed with some type of firearm. (47%)
- In 33 of the 46 homicides involving a firearm, the victim was a family member or friend. (72%)
- In 8 of the homicides involving a firearm, the victims were killed by strangers. (17%)

TOTAL HOMICIDES = 98

**FIGURE 5
NUMBER OF HOMICIDES AND
HOW THEY WERE COMMITTED DURING 1979**

Age, Sex and Race of Victims

- 75 homicide victims were white (76%), compared to 72% in 1978.

- The highest number of victims for a single age group was 20-24 with 19 victims (19.4%).
- 60 homicide victims were male (61%), compared to 65% in 1978.

Age, Sex, and Race of Offenders

- 67 homicide offenders were male (69%), compared to 83% in 1978.

- The highest number of offenders in a particular five year age bracket is the 15-19 and 20-24 year age groups both with 16 offenders. (16.5%)

- 50 homicide offenders were white (51%), compared to 60% in 1978.

FORCIBLE RAPES — INCLUDING ATTEMPTS

Forcible rape is the carnal knowledge of a female using force and committed against her will. Uniform Crime Reporting needs require rape to be divided into two categories: (1) Rape by force, and (2) Attempted rape. Statutory rape and other sex offenses are excluded from this category.

SUMMARY ANALYSIS

- For the 957 rapes reported in 1979, 89 were listed as unfounded.
- Of the 870 reported actual rapes that occurred in Minnesota in 1979, 684 were by force while 186 were recorded as attempted rapes.

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- Of the total rapes occurring in 1979, 376 or 43 percent were cleared by arrest. Of this total, 31 were cleared with the arrest of the juvenile.*
- The crime rate for rape in 1979 represented 22 per 100,000 population.
- The total number of rapes in 1979 represented 9.7 percent of the total violent crimes with 2.4 averaged per day.

RAPE SCENARIO

A woman living in an urban area is forcibly raped, the offender has a less than 50 percent chance of being arrested. The offender, if arrested, is a 22 year old, white male.

FIGURE 6
COMPARISON OF RAPES UNFOUNDED, CLEARED, AND ATTEMPTED
FOR PERIOD 1975-1979

ROBBERY

Robbery involves the felonious and forcible taking of the property of another against his will, by violence or by placing the person in state of fear. The crime of robbery necessitates that a victim be present in order for it to be so classified. As a general rule, robbery differs from larceny in that it is aggravated by the threat and element of force. An attempt to commit a robbery, either armed or strong arm is counted as if the actual offense did occur.

SUMMARY ANALYSIS

- Of the 3,956 total robberies reported in 1979, 204 offenses were unfounded.
- Of the 3,752 actual robbery offenses that occurred in Minnesota in 1979, 969 or 25 percent were cleared by arrest. Of the 969 offenses that were cleared, 221 were cleared by the arrest of a juvenile.*

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- There were 78 bank robberies in 1979 compared to 48 in 1978; a 63 percent increase. Bank robberies account for only 2 percent of the total robberies but 13 percent of the total dollar loss.
- The crime rate for robberies in 1979 amounted to 93 per 100,000 population.
- In 1979, robbery offenses represented 42 percent of the total violent crimes with 10.3 offenses averaged each day.
- Residential robbery in 1979 increased 27 percent, from 322 incidents in 1978 to 409 in 1979.
- There was a 36 percent increase in total stolen property lost to robbery in 1979.

ROBBERY SCENARIO

On an urban street, a victim is deprived of \$173.88 worth of property by strong arm tactics. The chances are one in four that the offender will be arrested. If the offender is arrested it will be a 17 year old, white male.

FIGURE 7

PLACES OF OCCURRENCE FOR ROBBERIES FOR 1979

FIGURE 8
AVERAGE STOLEN PROPERTY LOSS PER ROBBERY TYPE FOR 1979

FIGURE 9
STOLEN PROPERTY VALUE FOR
TYPES OF ROBBERIES — 1979

AGGRAVATED ASSAULT

The definition of assault involves an attempt or offer with unlawful force of violence to do physical injury to another. An aggravated assault may be committed by a gun, knife or cutting instrument, other dangerous weapons such as clubs, or through the use of hands, fists or feet. Assault with intent to commit murder is also listed as aggravated assault.

All assaults where no weapon is used, which result in minor injuries are classified as non-aggravated assaults or simple assaults and are not counted in the crime index total.

SUMMARY ANALYSIS

- Of the 4,460 total assault offenses reported in 1979, 215 were reported as unfounded.

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- For the total 4,245 actual assaults occurring in Minnesota in 1979, 2,683 or 63 percent were cleared by arrest. Of the 2,683 assaults cleared by arrest, 353 were cleared with the arrest of a juvenile.*
- The crime rate for assaults in 1979 was 105 per 100,000 population, compared to 83 in 1978.
- In 1979, assault offenses accounted for 47 percent of the total violent crimes with 11.6 averaged per day.

AGGRAVATED ASSAULT SCENARIO

An urban resident is assaulted with a knife or cutting instrument by a 17 year old, white male, who has a 2 out of 3 chance of being arrested.

FIGURE 10
TYPES OF AGGRAVATED ASSAULTS IN MINNESOTA FOR 1979

CRIMES AGAINST PROPERTY

BURGLARY

LARCENY

MOTOR VEHICLE THEFT

BURGLARY

Burglary consists of the unlawful entry or attempted forcible entry of a structure to commit a theft or felony, even though no force may have been used to gain entry. Burglary is divided into three separate classes:

- A. Forcible Entry
- B. Unlawful Entry — No Force
- C. Attempted Forcible Entry

Supplementary information is collected that denotes the time and place of occurrence.

SUMMARY ANALYSIS

- Of the total 46,739 burglary offenses reported for the state in 1979, 1,686 offenses were unfounded.

- There was a total of 45,053 actual burglaries that occurred in Minnesota in 1979. Of that total 5,672 offenses were cleared by arrest which amounted to a 13 percent clearance rate. For the total 5,672 offenses cleared by arrest, 1,976 were cleared with the arrest of a juvenile.*

- The burglary rate for 1979 was recorded at 1,098 per 100,000 population.
- In 1979, burglaries represented 26.7 percent of the total property crimes with 123 averaged per day.

BURGLARY SCENARIO

An urban residence is forcibly entered during the night and \$371.58 worth of property is stolen. The offender has a one in eight chance of being caught, but if arrested will be a 16 year old, white male.

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

FIGURE 11
TYPES OF BURGLARIES FOR MINNESOTA FOR 1979

BY TIME OF DAY, 1973 - 1979**

FIGURE 13

TOTAL BURGLARIES BY PLACE OF OCCURRENCE AND STOLEN PROPERTY VALUES, 1975 - 1979

LARCENY

Larceny (theft) is the taking of the personal property of another with intent to permanently deprive him of ownership. Larceny figures will include all those offenses in which a theft (also attempted situations) occurred regardless of monetary loss assigned the stolen property.

SUMMARY ANALYSIS

- Of the total 112,687 larceny offenses reported for 1979, 2,116 were listed as unfounded.
- Of the 110,571 actual larceny offenses that occurred in Minnesota in 1979, 22,330 were cleared by arrest, representing a 20 percent clearance rate. Of the 22,330 larceny offenses that were cleared, 7,847 were cleared by the arrest of a juvenile.*

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- Larceny in 1979 represented a crime rate of 2,746 per 100,000 population.
- The total number of larcenies for 1979 amounted to 65 percent of the total property crime figures with 303 averaged each day.

LARCENY SCENARIO

A 16 year old, white male steals \$147.00 worth of parts and accessories from a motor vehicle in an urban area. The offender has a one in five chance of being arrested.

FIGURE 14
COMPARISON OF LARCENY THEFTS BY VALUE
REPORTED IN MINNESOTA FOR 1979

FIGURE 16
AVERAGE STOLEN PROPERTY LOSS PER TYPE OF LARCENY FOR 1979

FIGURE 17
TOTAL DOLLAR LOSS BY TYPE OF LARCENY FOR 1979

MOTOR VEHICLE THEFT

Motor Vehicle Theft is the larceny or attempted larceny of a motor vehicle. This includes all vehicles that can be registered as such; "joyriding" thefts are included under this category.

SUMMARY ANALYSIS

- Of the 15,065 motor vehicle thefts reported in 1979, 1,725 offenses were unfounded.
- In Minnesota during 1979, there were 13,340 actual thefts reported to have occurred. Of that total, 3,299 were cleared by arrest, indicating a clearance rate of 25 percent. Out of the total offenses cleared by arrest, 1,173 were cleared with the arrest of a juvenile.*
- Motor vehicle thefts in 1979 represented a crime rate of 331 per 100,000 population.

*Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- In 1979, motor vehicle thefts represented 7.9 percent of the total property crimes which averaged 36 per day.
- Of the 13,340 motor vehicles stolen in 1979, 6,521 or 49 percent were recovered.
- Of the 13,340 vehicles reported stolen, 9,249 were automobiles, 1,940 were trucks/buses and 2,151 were vehicles such as snowmobiles, motorcycles, motor-scooters, etc.

MOTOR VEHICLE THEFT SCENARIO

An automobile valued at \$2,211.09 is stolen in an urban area. There is a little better than 49 percent chance the vehicle will be recovered and it will likely be recovered within the same jurisdiction in which it was stolen. The offender has a one in four chance of being arrested. If arrested, it will be a 16 year old, white male.

MINNESOTA PROPERTY CRIME VALUE INFORMATION

1979 PROPERTY CRIME INFORMATION FOR MINNESOTA

Information on property stolen and recovered in Minnesota for the offenses of criminal homicide, rape, robbery, burglary, larceny and motor vehicle theft is reflected in the following tables and figures.

Table 6 indicates that the property type category of Stolen Vehicles had the highest stolen value of property taken in the state in 1979. The office equipment category showed

the lowest amount of stolen value for property taken during that year. The highest recovered value reported reflected the Vehicle category while the lowest recovered value reported was office equipment. Table 7 indicates a more specific itemization of property stolen/recovered and the associated monetary values. Figure 20 shows the average dollar loss to property offenses in Minnesota for the past year. Figure 21 reflects what proportion of an average dollar was lost to the robbery, burglary, larceny and motor vehicle theft offenses during 1979.

TABLE 6

TOTAL VALUE OF PROPERTY STOLEN/RECOVERED IN MINNESOTA FOR 1979

Property Type	Stolen Value	Recovered Value
Currency/Notes	4,455,047	273,594
Jewelry/Metals	3,516,539	356,197
Clothing/Furs	1,517,448	148,728
Locally Stolen Autos	30,874,026	20,642,181
Office Equipment	442,269	37,553
TV/Radio/Stereo	6,668,735	389,247
Firearms	814,823	71,351
Household Items	830,767	136,114
Consumer Items	499,073	58,749
Livestock	485,730	46,688
Miscellaneous	18,420,966	2,104,321
TOTAL	68,525,423	24,264,723

Stolen Values are based on the "fair market value" at the time of theft. Recovered values are determined by "fair market value" at the time of recovery less any damage or depreciation.

TABLE 7
MINNESOTA PROPERTY INFORMATION BY PROPERTY TYPE
FOR STOLEN/RECOVERED VALUES IN 1979

Property Type	Stolen Value	Recovered Value		Total Recovered
		Within Jurisdiction	Outside Jurisdiction	
Passenger Vehicles/Trucks	\$17,114,400	\$6,609,976	\$6,252,196	\$12,862,172

FIGURE 21
PERCENTAGE OF DOLLAR LOST TO SERIOUS CRIMES
IN MINNESOTA FOR 1979

ADDITIONAL STATEWIDE OFFENSE INFORMATION

In addition to the aforementioned crime index information and property crime values, there are additional sources of offense information included as a part of Minnesota Offense Information.

Table 8 contains statewide summary information for total Part I and Part II offenses for 1979. The first column is the offenses listed according to crime category, as described in Section I of this publication. The remaining columns give the number of offenses, unfounded offenses, the crime rate, offenses cleared by arrest, and offenses cleared by arrest of a juvenile.

Table 9 encompasses 1979 statewide data relating to property loss. The first portion of the table refers to the various property

types and the corresponding stolen and/or recovered value. The rest of the table lists the Part I offenses broken down into sub-categories and the value of the property stolen or recovered for each offense.

Table 10 provides summary information including the crime rate, population, crime index and percent cleared for urban-rural, the various Crime Control Planning Board regions, and the reporting agencies in Minnesota for 1979.

Table 11 depicts summary Minnesota Crime Index information for the years 1936-1979, and also includes state population and crime rate.

TABLE 8
1979 STATEWIDE OFFENSE AND CLEARANCE INFORMATION

Offense Categories	Offenses Known or Reported	Unfounded Complaints	Total Actual Offenses	Crime Rate	Total Offenses Cleared by Arrest	Cleared by Arrest Persons Under 18

*Estimated 1978 population FBI.

**Crime statistics include all larceny offenses, regardless of value-Part I crimes will be referred to as crime index offenses and do not include negligent manslaughter.

A — Delinquent, population not included in totals.

B — Agency not contributing Part II offenses, simple assault only recorded.

C — Population not calculated.

TABLE 11
CRIME INDEX SUMMARY 1936-1979

Year	Population	Crime Index Total	Aggravated Assault					Larceny	Motor Vehicle Theft	Crime Rate
			Murder	Rape	Robbery	Burglary

MINNESOTA ARREST INFORMATION

GENERAL ARREST INFORMATION

Arrest information for Minnesota in 1979 is presented with a state total concerning age, sex, and race factors. Data has also been tabulated for the specific kinds of narcotic arrests and the individuals involved.

The total number of arrests involving criminal offenses in the state in 1979 was 99,401*, with 81,539 males and 17,862 females arrested. Compared with 94,507* total arrests (77,442 males and 17,065 females) for 1978, the 1979 figures represent a 5 percent increase in total arrests. Arrests of males increased 5 percent and female arrests increased 4.7 percent from 1978 to 1979.

There are several significant factors to consider when arrest data is evaluated. One arrest situation is counted for each time an individual is arrested whether it be several times a year for one type of offense or for different offenses.

Another factor to consider is that an arrest can be reported for an offense that occurred during a previous

reporting period and thus can reflect an arrest picture not totally consistent with the total actual offenses for that period. In some extreme cases arrests may outnumber offenses, which in large measure is a result of this factor.

As stated previously, an arrest situation constitutes a form of detention for uniform crime reporting purposes. Because police arrest activities often vary, especially with relation to juveniles, the reporting agencies are instructed to count one arrest each time a person is taken into custody for committing a specific crime. The FBI's instructions state that:

"A juvenile is counted as a person arrested when he commits an offense and the circumstances are such that if the offender were an adult an arrest would be made."¹

*Based on detailed arrest information received by the BCA.

1975-1979

NARCOTIC ARREST INFORMATION

NARCOTIC ARRESTS IN MINNESOTA

Narcotic arrest information for the state in 1979 involved 5,337 arrest situations, with 4,641 males and 696 females arrested. Persons aged 17 comprise the greatest portion of the arrests (689) representing 12.9 percent of all arrests. Persons aged 18 was the next highest with 627 arrests. Race information was not available on the total arrest situations. Compared with the

1978 figures for narcotic arrests (5,634), the 1979 amount indicates a 5.3 percent decrease.

Since 1974, there has been an 18.7 percent decrease in the number of narcotic arrests within the state. The years of 1974-1975 reflects the largest decrease in number of arrests with 12 percent.

FIGURE 24

NUMBER OF NARCOTICS ARRESTS IN MINNESOTA FOR PERIOD 1975-1979

TOTAL NARCOTIC ARRESTS = 5,337*

Marijuana = 4,338

Opium/Cocaine and their derivatives (Morphine, Heroin, Codeine) = 177

Synthetic Narcotics (manufactured, and can cause true drug addiction) = 216

Other Dangerous Drugs (Barbiturates, Benzedrine) = 436.

Narcotic Not Specified = 170

*Minneapolis Juvenile narcotic arrests not specified as to type.

URBAN-RURAL AND REGIONAL INFORMATION

COMPARISON OF URBAN-RURAL CRIME OFFENSES/ARRESTS FOR 1979

Urban-rural crime comparison by offense offers information to agencies in evaluating the difference in crime occurring by geographical locations. The information that is available must be interpreted with caution as it gives a general indication of urban-rural crime only and does not represent data that can be applied to any one specific agency. Variations in crime are caused by a multitude of crime factors, which have been listed previously in this report. The information that is presented in this section lists the numbers of specific criminal offenses that have been reported to the appropriate urban or rural law enforcement authority. Because of jurisdictional reasons,

State Patrol figures are excluded from this section of the report.

Of additional value is the ratio of urban to rural crime offenses for 1979. The ratio is nothing more than the amount of one particular criminal offense for the urban area as compared with the amount of one particular offense for the rural area. A ratio of 8:1 aggravated assaults indicate that for every eight offenses of aggravated assault in an urban area, the rural area experienced one aggravated assault.

COMPARISON OF CRIME OFFENSES/ARRESTS BY REGIONS

COMPARISON OF CRIME BY REGIONS 1979

The regional breakdown of crimes and arrests within Minnesota often provides a more exacting measurement of the volume of crime based on specific areas. For specific information, the regional distinctions evaluated in this report are based on the nine state planning regions of the Crime Control Planning Board.

Region 11, which is the most densely populated geographical section for the entire state, recorded the highest number of reported Part I offenses (115,028) and Part II offenses (77,901)* of all regions. Sixty-five percent of the state's Part I offenses occurred in this region, while 49 percent of the Part II offenses were registered from this area. Approximately 82 percent of the state's violent crimes were recorded from this section and 64 percent of all property crime was represented by this

region. The largest portion of arrests for Part I and Part II offenses were also registered from Region 11. There were 20,064 arrests for Part I violations compared to 34,437* arrests for Part II offenses.

Region 1 recorded the smallest amount of Part I offenses with 2,491. Region 2 registered the second lowest amount of Part I offenses with 2,499. Region 2, with 2,424 offenses, recorded the lowest number of Part II offenses followed by Region 1 with 3,945 offenses. The least amount of violent crime reported for the state was submitted by Region 1, with 54. The lowest number of property offenses was reported by Region 2, with 2,428.

The regions registering the highest clearance rate for Part I offenses in 1979 were Regions 2 and D with 22 percent. The region with the highest Part II clearance rate was Region 1 with 62 percent.

MINNESOTA LAW ENFORCEMENT EMPLOYEE INFORMATION

LAW ENFORCEMENT CODE OF ETHICS

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

MINNESOTA LAW ENFORCEMENT EMPLOYEE INFORMATION

The average number of full time law enforcement personnel in 1979 (including sworn and civilian) amounted to 1.6 employees per each 1,000 residents of the state. The average number of sworn personnel (excluding civilian) amounted to 1.4 employees per 1,000 population. The contributing law enforcement agencies averaged one full-time civilian employee to 5.5 full-time sworn personnel. These figures represent the averages as derived from the submitted data and are not the recommended ratios for Minnesota law enforcement agencies. The average ratio of law enforcement personnel for any given community may, and does, vary according to a number of community and policing factors.

In 1979, the reporting sheriff's department indicated 1,632 sworn personnel employed and 553 civilian personnel which amounted to a total of 2,185 employees. The police departments reported to have 3,782 sworn personnel in 1979 compared with 689 civilian employees. The total number of municipal employees equaled 4,471 personnel. The State Patrol figures indicate 506 sworn personnel compared with 110 civilian employees.

Of the total number of sworn personnel in 1979 (6,037*), there were 5,864 males and 173 females. Considering the total number of civilian personnel for the same year (1,364) there were 449 males compared with 915 females.

*Total includes 623 personnel from University of Minnesota and Airport Police Departments, and the State Patrol.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Vital information other than Uniform Crime Reporting is also collected that evaluates the number of law enforcement personnel who have been assaulted and/or killed. The data from those county (sheriff) and municipal (police) agencies reporting is collected and tabulated annually.

Submitted information concerning law enforcement personnel assaulted or killed during 1979 was tabulated from 289 agencies. There was a total of 500 assaults recorded in Minnesota for 1979. Of that total, 398 involved hands, fists, and feet, 48 were attributed to firearms, 36 involved some other dangerous weapon, and 18 were committed by a knife or a cutting instrument. 284 of the assaults involved no personal injury to the law

enforcement officer, while 216 registered some form of personal injury. The type of activity most responsible for the assault situations was responding to "Disturbance Calls" with 159 incidents. Of the total assault situations, 432 were cleared by the law enforcement agencies. The most frequent time of assaults was indicated as between 12 Midnight and 2:00 a.m. with 116 confrontations. The type of assignment most frequently registered with assaults during the year was a one-man vehicle, assisted (165 incidents).

There were no law enforcement officers killed in Minnesota during 1979.

LAW ENFORCEMENT OFFICERS FIREARMS DISCHARGES

Pursuant to Minnesota State Statute 626.553, Subdivision 2, information is collected concerning firearm discharges by law enforcement officers in Minnesota. 1978 was the first full year that this information was available.

In 1979, there were 85 shots fired during 54 incidents. There are seven general areas of information collected: the Type of Activity the officer was engaged in at the time of the discharge; Type of Weapon Used; Purpose of the Discharge; Results of the Discharge; Time of Day; and the Level of the Incident which precipitated the discharge.

The highest number of shots fired by Type of Activity was for "Attempt Other Arrest" with 26 (30 percent), followed by "Disturbance" with 16 (18 percent). 69 (81 percent) of the total shots fired were with a handgun, and 65 (76 percent) of the total shots were Non-Warning Shots. 61 percent of the

firearms discharges were during a four-hour time period, from 8:00 p.m. to 12 midnight. In 77 percent of the shots fired no injuries were suffered, 11 shots resulted in wounds, and there were five fatalities.

Information on the size of the community served by the departments was also tabulated. 46 (54 percent) shots were fired in communities under 50,000 population, and 32 (38 percent) in communities over 50,000 population. Seven instances were not included because they involved State agencies. The highest occurrence of shots fired was in the 25,000 - 50,000 Population group, with 17 (20 percent).

Of the 85 shots fired, 65 were in felony situations, 12 gross misdemeanor, and 8 misdemeanors.

COUNTY AND MUNICIPAL LAW ENFORCEMENT AGENCY OFFENSE INFORMATION

County and Municipal Law Enforcement Offense Information contained in this section is arranged alphabetically by each county. Information is arranged by total county figures, sheriff office figures, and municipal police department figures.

The Arson figures reflected in this year's data have been tabulated and recorded in the Part II Crimes area, although legislation passed in October, 1978, reclassified the offense of Arson to a Part I Crime. Comparison between this year's and last year's figures may be misleading due to the changed pro-

cedures used for data collection which occurred in 1979. Extensive training has been conducted relating to the new reporting requirements, and as of January, 1980, Arson will be tabulated as a Part I Crime.

The information contained within this section will reflect agencies not reporting specific offenses, and prior cases cleared. Prior case cleared indicates that an offense reported prior to 1979 was cleared during 1979.

GLOSSARY OF TERMS

ADULT — For Minnesota Uniform Crime Report purposes, a person aged 18 or above.

ARREST RATE — The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST — For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is: (1) arrested, or (2) charged with the commission of the offense.

COUNTY — Subdivisions of state, each with its own government, including a sheriff's department.

CRIME FACTORS — Conditions which affect the amount and type of crime that occurs in a geographical area.

CRIME INDEX — The total number of eight major offenses used to measure the extent, fluctuation and distribution of a crime in a given geographical area. Crime classifications used in the index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Each of these offenses is referred to as an "Index Offense".

CRIME RATE — The number of index offenses reported for each unit of population, generally per 100,000 persons. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses divided by 10,000 population X 100,000 = 5,000 Crime Rate.)

EXCEPTIONAL CLEARANCE — A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE — For Minnesota Uniform Crime Report purposes, a person under the age of 18.

MUNICIPALITY — City or town that has its own government, including police department.

PART I OFFENSES — The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and occur most frequently. The monthly tabulation of Part I offenses provides a count of "offenses known".

PART II OFFENSES — The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature. Monthly tabulations of Part II offenses are included in Minnesota's crime information report.

PROPERTY CRIME — Consists of the Index Offenses of Burglary, Larceny and Motor Vehicle Theft.

VIOLENT CRIME — Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
