It cannot be used by the Immigration Services, the Armed Forces or anybody else; all names are stripped as they are received. COUNCIL ON ASIAN-PACIFIC MINNESOTANS**1986****1. COUNCIL FORUM ON HUMAN RIGHTS**

The Council sponsored a Community Forum on Human Rights and documented the following comments and recommendations:

- A. The Minnesota Department of Human Rights met with representatives of the Minnesota Department of Administration, Housing and Urban Development, Equal Employment Opportunity Commission and three major labor unions and the comments indicate that the Minnesota Department of Human Rights is functioning properly, procedures are being followed, and controls are in place. In addition, the backlog, which has been the historical problem of the Department, has been reduced.
- B. The Minnesota Department of Human Rights recorded the following complaints from the Asian-Pacific community - 11 Vietnamese, 9 Indian, 4 Chinese, 3 Hmong, 3 Filipino, 3 Japanese and 1 each from Bangladesh, Pakistani, Laotian communities. Plans have been made for the translation of human rights materials from English to Asian-Pacific languages. The categories of charges reported were as follows - 5 employee charges, 4 housing charges. Compared to other minority groups, the Asian-Pacific community do not file as many charges as the others.
- C. The "Commission concept" was proposed as a model with the Commissioners appointed by the Governor with quasi-judicial powers and to depoliticize the positions. The Commissioners will appoint the Executive Director.
- D. Creation of a Human Rights Commission as an advisory body with the ability to solve difficult and sensitive issues and work under pressure. In addition, a Selection Committee should be appointed to screen candidates for the position of Commissioner and Deputy Commissioner with strong background in the management of human and civil rights.
- E. By interaction and cooperation, the needs of the community should be addressed - the first stage being the needs of the refugees such as housing, food, etc., and the second stage - education and interpersonal skills. Access routes should be developed such as funding for community-based organizations and recognition of cultural differences. Language barriers should be minimized and that the Council on Asian-Pacific Minnesotans should serve as an "umbrella" for community groups in an advocacy role and administrative liaison.

- F. Employment opportunities should be provided including the hiring of additional staff in the Minnesota Department of Human Rights. The Department should be charged with the responsibility to oversee the needs of minorities, women, handicapped, youth, senior citizens, veterans, single parents as it relates to civil and human rights.
- G. The Minnesota Department of Human Rights should provide a "check and balance" monitoring system to ensure that state agencies are in compliance with the Human Rights Statutes.
- H. The Minnesota Department of Human Rights should emphasize conciliation rather than the legalistic approach in its conflict resolution mandates and provide more community education.

The Council recommended to the Minnesota Legislature that the Minnesota Department of Human Rights should be an independent agency.

2. **COUNCIL REVENUES - \$3,850.00**

The Council received the following revenues:

- A) Increase Council visibility in the community and develop strong working relationships with the Governor, Legislature, and State Agencies. Establish linkages within Asian-Pacific community organizations and support programs and services beneficial to the Asian-Pacific clientele. The Council under its legislative mandate serves as a Clearing House regarding the application of state agencies for federal funds.
- B) Ensure "equal representation" of Asian-Pacific communities in the Council. The Council's role is to bring the Asian-Pacific communities together recognizing that the movement for Asian-Pacific cooperation is relatively new with a diversity of economic and educational backgrounds.

The Council should adhere to a policy of a "sense of fairness" and always be concerned that many of our Asian-Pacific peoples have difficulty with the English language. The primary role of the Council is that of "advisory to the Governor and the Legislature" and should develop attainable goals.

- C) The Council should participate actively in the cultural and educational activities designed to promote Asian-Pacific Heritage. Priority should be given to conducting community meetings and long range planning programs.
- D) The Council must address Asian-Pacific concerns such as - mental health, problems affecting the 1st, 2nd, and 3rd generation, the "un-represented and under-represented groups," and integration of Council programs with other community organizations. The Council must work on "team building" efforts and promote cohesiveness, including board and staff development, continuing education programs and provide training and technical assistance to the Asian-Pacific Community Organizations.
- E) The Council must develop a Fund Raising Program to ensure the financial foundation of its programs and services. The Council must address critical issues in the Asian-Pacific community such as - employment, education, housing, and the Asian-Pacific Woman. The Council should schedule public hearings and secure the support of state agencies and community organizations serving the Asian-Pacific community to secure maximum input from all interested parties.

The Council should define its role, duties and responsibilities particularly as it relates to policy implementation and its structure. The Council should work with educational institutions in the development of Asian-Pacific Student Interns.

- F) The Council's important role is to unite the Asian-Pacific community and publish a quarterly newsletter to highlight its activities in the community. The Council should sponsor the formation of the Asian-Pacific Chamber of Commerce of Minnesota and actively support the employment and promotion of Asian-Pacific people in the State Government. The Council should endorse the Asian Business and Community News as a vehicle for communicating the achievements of various ethnic groups and as a positive support for various Asian-Pacific advocacy community leaders.
- G) The Council should participate and co-sponsor community meetings, public hearings, seminars, institutes and conferences to secure maximum support in the implementation of the Council's programs and services.
- H) The Council should address significant Asian-Pacific problems affecting the refugees and immigrants in the areas of - employment, language barriers, mental health and legal services. The Council should monitor State Agencies to determine whether or not adequate funds, programs and services are being provided to the Asian-Pacific peoples. The Council should support programs of Asian-Pacific corporations and higher education opportunities to ensure the promotion of Asian-Pacific peoples to management levels.
- I) The Council must make a periodic assessment of the concerns and problems of the Asian-Pacific community, analyze the issues and

develop coordinative efforts to avoid over-lapping of services. The Council should address the process of integrating refugees and immigrants who are now U.S. citizens at the same time ensuring the retention of their values and traditions. The Council should be non-partisan and develop close working relationship with the Legislature including constructive and positive legislative dialogue during public hearings and comments and recommendations on pending bills.

- J) The Council should develop a Fund Raising Program to raise 10% of the required match to our annual appropriation. This effort should begin before the end of its fiscal year to demonstrate to the Legislature of our sincere commitment to increase our programs and services via private funds.
- K) The Council should serve as a watchdog against discrimination in the state government and function as a liaison to refugees, immigrants and citizens for services available to the community.
- L) The Council should be informed of Asian-Pacific visitors to Minnesota and should host foreign guests so that they may be more appreciative of our American values and way of living.
- M) The Council should provide continuing education workshops for Southeast Asian refugees particularly in the areas of - driver education, liability, and the need for insurance coverage.
- N) The Council should consider "Voter Education and Registration" as a priority to implement its legislative mandate: "that Asians in Minnesota are more fully incorporated into the governmental and policy making process."
- O) For humanitarian reasons, the Council should support the "Missing In Action (MIA) Program".
- P) The Council should develop a work plan to develop the following projects - 1) Asian-Pacific Shopping Center; 2) Quarterly Newsletter; 3) Development of a Job Bank; 4) Fund Raising Program for Scholarships and Business Development; 5) Lease/Purchase computer for data sourcing and research; 6) Develop opportunities for Southeast Asian Refugees; and 7) Audit Affirmative Action Programs in the Public/Private Sectors for compliance.
