Clause p: (continued)

Approved programs are surveyed for continued compliance with applicable Minnesota Rules at least once every ten years. During FY 1997, two professional and three practical nursing programs were granted renewal of approval based on survey. One professional and one practical nursing program were placed under special Board oversight because of low pass rates for first time candidates on the licensure examination. One other practical nursing program was removed from Board monitoring because it successfully raised its pass rate on the licensure examination.

During FY 1998, two professional and one practical nursing program were granted renewal of approval based on survey. The two programs placed under Board oversight during 1997 raised their pass rates on the licensure examination. These programs were removed from Board oversight; monitoring of the programs will continue for at least one more year. One professional and two practical nursing programs were placed under special Board oversight because of low pass rates for first time candidates on the licensure examination. This oversight will be for at least one year.

All professional and practical nursing program directors attested to compliance with all applicable rules during FY 1997 and FY 1998.
