Property tax is a very important source of revenue for all local units of government: cities, townships, school districts, special districts and county government. The State Government of Minnesota has not levied a property tax since 1966.

Property Taxes Levied in Minnesota is divided into five sections. Section I is a review of the Minnesota Property tax system. It discusses property valuation and how tax levies and mill rates are determined. Section II contains historical data (from as far back as 1925) and shows how taxes and values have changed over the years. Section III looks at current year values, both market and assessed, of the various classifications of property. Section IV is devoted to current year tax data, including information on taxes levied and credits. Section V consists of information on mobile home values and taxes.

Review of the Minnesota Property Tax System

A. Values

B. Levies and Mill Rates

SECTION 1

REVIEW OF THE MINNESOTA PROPERTY TAX SYSTEM TAX PAYABLE IN 1985

The following narrative section is a general description of the Minnesota property tax system for taxes payable in 1985 and the laws that prevailed at that time.

The general property tax is the major tax imposed by local governmental units and school districts. The State has not imposed a levy on property since 1966. Therefore, the entire property tax base is subject to taxation only by the local taxing districts. The property tax is an ad valorem tax. The amount of tax levied on a parcel of property is based upon the market value of the property, the total assessed value of property in the taxing districts having authority to levy a tax on the parcel of property, and the property tax budget requirements of the taxing districts. (See Fiscal Disparities page 23, for the method of taxation in metropolitan counties.) All real property and tangible personal property is subject to taxation unless specifically exempted by law.

A. Values

1. Exempt Property:

Exempt real property includes Indian lands, public property, educational facilities, religious and charitable institutions. The property is valued every six years with the most recent assessment being made in 1980.

Exempt personal property includes farm livestock, farm machinery, furniture, inventories, tools and machinery of service, retail, wholesale and manufacturing businesses, furnishings of rental units if the rental value is subject to the sales tax, and containers in the possession of the consumer during consumption if the sale of the commodities is subject to the sales tax. Household goods are also exempt from property taxation as are intangible properties, such as stocks, bonds and insurance policies.

Effective for the 1973 and subsequent assessments, exempt property also includes the value of commercial and industrial tools, implements, machinery and equipment attached to or installed in real property for use in the business or production activity conducted thereon, excepting public utility attached machinery.

2. Assessors:

As of January 1, 1968, each county must have a county assessor appointed by the Board of County Commissioners and approved by the State Commissioner of Revenue. The term of county assessor is four years. Assessors in municipalities of 30,000 or more population have the same duties and responsibilities as county assessors. The county assessor, aided by deputy assessors and local assessors, must assess all property except state-assessed property. The state is responsible for the original assessment of electric transmission and distribution systems and pipeline systems distributing natural gas or petroleum products. All air-flight property, i.e., commercial aircraft, is assessed by the state. Minerals and unmined ore are also state-assessed.

3. Valuation of Property:

All taxable property values are listed as of January 2 of each year. At least one-fourth of all parcels of real property in a taxing district must be reassessed every year so that every parcel is assessed at least once every four years. All property is to be valued at its market value, which is its selling price in a normal open market transaction. (Prior to the 1975 assessment all real estate was supposed to be assessed every two years and personal property assessed every year. In practice, especially in counties with many parcels, real estate was rarely reassessed that often.) Before the 1972 assessment, the market value was divided by three to arrive at an "adjusted market value." The statutory classification rates (see Item No. 4, Classification of Property, below) were applied to the adjusted market value to determine the assessed value. With the discontinuation of adjusted market value, the total assessed values of real and personal property approximately tripled. Since the mill rate is determined by dividing the tax levy by the assessed valuation, the mill rate under the current method is approximately one-third of what it had been under the previous system. Therefore, a rate of 300 mills prior to 1972 would be only 100 mills under the current system.

Railroad Property

In 1976, the federal Railroad Revitalization and Regulatory Reform (4R) Act became law. The purpose of this act was to eliminate the discriminatory taxing practices that were applied to railroads. As a result of this act, Minnesota changed its taxing procedure for railroads by replacing a gross earnings tax with a property tax, based on the market value of an individual railroad's property within the state.

Since 1980, several railroads have filed appeals of their property taxes, stating that their properties were overvalued and were not being assessed comparably with other commercial and industrial property. The Minnesota Tax Court handed down a decision on the first of these appeals in 1983. The court ruled that the taxable value was overstated and that the lower value must be equalized to the assessment level of other commercial and industrial property.

As a result of this ruling, the market values of the railroads involved have been adjusted substantially in payable years 1982 to 1984. This has meant an adjustment to assessed values and property taxes as well. The railroad values and taxes reported in this bulletin are the values and taxes as certified to the state by individual counties, and do not reflect any adjustments that resulted from appeals to the Tax Court.

4. Classification of Property:

The Minnesota property classification system originated with the 1913 Legislature which passed the classified property tax law. Beginning in assessment year 1914 Minnesota had four classes of property:

Class 1 - Iron ore mined or unmined at 50% of full and true value.

Class 2 - Household goods and personal effects assessed at 25%.

Class 3 - Unplatted real estate, livestock, farm produce, inventories and manufacturers' tools assessed at 33 1/3%.

Class 4 - All other properties, primarily urban realty, assessed at 40% of full and true value.

The 1933 Legislature made a significant change in the classification system by establishing a preferential percentage for homestead property. The following two homestead classifications were created effective for assessment year 1934.

Class 3b - Unplatted real estate used for a homestead, 20% on the first \$4,000 of full and true value and 33 1/3% on any excess.

Class 3c - Platted real estate used for a homestead, 25% on the first \$4,000 of full and true value and 40% on any excess.

Beginning in 1941, there has been a change in the classified property tax law during every session of the state legislature.

The next major reform to the property tax system came in 1967 with the passage of the "Tax Reform and Relief Act." The tax relief programs created by the Act were designed to reduce the burden of local property taxes by reducing the costs of local government and providing taxpayers with reimbursements linked to property tax payments. The state took increased fiscal responsibility for local costs. Under this Act all farm livestock and machinery were exempted from property taxation. Businesses were given the option to exempt either inventory or tools and machinery. Other property tax relief programs not relating to the property classification system were also enacted, such as the homestead credit, renters' credit, senior citizen income tax credit, local government aids and elimination of the state property tax levy.

When property is valued, it must be classified according to the legal classification system. The various statutory classification rates are applied to the market value to determine the assessed value of property. "Taxable" value differs from "assessed" value when there are any tax increment assessed values, fiscal disparities assessed values or ten percent power line assessed values. These assessed values (as explained on pages 20 to 23) must be subtracted from the total assessed value in order to arrive at the taxable value. This taxable value is the one used for mill rate calculations. Real and personal property in Minnesota is classified as follows for the 1984 assessment for determination of taxes payable in 1985. Mobile home property not qualifying for treatment as real estate is classified for the 1984 assessment for taxes payable in 1984.

REAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
1	1913	Unmined Iron Ore	50%
1a	1913	"Low Recovery" Iron Ore	30 to 48 $\frac{1}{2}$ %
1b		Severed mineral interests tax	*
3	1923	Agricultural non-homestead	19%
3	1959	Seasonal residential for recreational purposes:	
		a. Commercial, but not used for more than 200 days per year (example: resort).	21%
		b. Non-commercial (example: cabin)	21%
3	1974	Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures to real property	33-1/3%
3a	1959	Commercial seasonal recreational residential not used for more than 200 days per year which includes a portion used as a homestead by the owner	12%
3b	1933	Agricultural homestead	
		1st \$62,000 market value	14%
		Excess of market value over \$62,000	19%
3c	1933	Non-agricultural homestead**	
		1st \$31,000 market value	17%
		2nd \$31,000 market value	19%
		Excess of market value over \$62,000	30%
*		25¢ per acre annually (tax became effective January 1, 1975). Each parcel is subject to minimum annual tax of \$2.00	
**		Townhouse property is classified and valued as all other homestead real estate. Value is added for each unit's share of the development's common areas.	

REAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
3cc	1953, 1969 & 1974	Paraplegic veterans, homesteads of blind and permanently and totally disabled persons 1st \$31,000 market value \$31,000 to \$62,000 market value: agricultural Excess of market value over \$62,000: agricultural \$31,000 to \$62,000 market value: non-ag. Excess of market value over \$62,000: non-ag.	5% 14% 19% 19% 30%
3d	1971	Non-homestead residential a. Apartments with four or more units do not qualify as Title II National Housing b. Land of Title II National Housing	34% 34%
3dd	1979	Non-homestead residential one, two or three units	28%
3e	1957	Timberland	19%
4	1981	All other real property 4c Commercial, industrial, public utility land and buildings, railroad operating property: 1st \$60,000 market value	28%
	1974	4a Commercial, industrial, public utility land and buildings, railroad operating property: Excess over \$60,000 market value	43%
	1980	4b Vacant land	40%
	1982	4d Employment Property (Enterprise Zones) 1st \$50,000 market value Excess over \$50,000	20% & 31.5% 21.5% and 38.5%
None	1973	Type I and II Apartments Five or more stories (structures only) Four or less stories (structures only)	25% 34%
None	1969	Housing for elderly or for low and moderate income families financed by direct federal loan or federally insured loan pursuant to Title II of the National Housing Act or the Minnesota Housing Act. Structures only.	20%
None	1971	Housing for elderly or for low and moderate income families financed by a direct loan or insured loan from the Farmer's Home Administration and located in a municipality under 10,000 population. Structures only.	5%

PERSONAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
2a	1959	Mobile Homes	
		Agricultural Homestead	
		1st \$62,000 market value	14%
		Excess of market value over \$62,000	19%
		Non-Agricultural Homesteads	
		1st \$31,000 market value	17%
		2nd \$31,000 market value	19%
		Excess of market value over \$62,000	30%
		Non-homestead	28%
3		Structures on leased public lands in rural areas	21%
3		Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures	33-1/3%
3		Leased agricultural real estate of exempt land (M.S. 272.01, Subd. 2)	19%
3f	1969	Owner occupied residences on leased public or railroad lands	***
3g	1981	Leased homestead on land owned by occupant	***
4****		Structures on leased public lands in urban areas	28% & 43%
		Structures on railroad operating right-of-ways	28% & 43%
		Leased all other (non-agricultural) real estate of exempt land (M.S. 272.01, Subd. 2)	28% & 43%
		Systems of electric, gas and water utilities	28% & 43%
***		Buildings receive classification rate as if they were homesteaded real property within the scope of Class 3b, 3c or 3cc, whichever is applicable.	
****		Potentially these properties are also eligible for the class 4c preferential 28% rate on the first \$60,000 of market value.	

CLASSIFICATIONS NO LONGER ASSESSED

There is no assessment on the following former classes of property:

- 3 Personal - Inventories, stocks of merchandise of sorts, all materials, parts and supplies, furniture and equipment, manufacturer's materials, manufactured articles including the inventories of manufacturers, wholesalers, retailers and contractors, and the furnishings of a room or apartment in a hotel, rooming house, tourist court, motel or trailer camp, and tools and machinery which, by law are considered as personal property
- 3a Agricultural products in the hands of the producer
- 3j Petroleum refinery's personal property
- 3 Real - Machinery which constitutes fixtures to real estate except public utilities under ad valorem taxation

5. Market Value Increase Limitation:

The 1973 Legislature created the concept of limited market value by placing a 5% reassessment on homestead property. In 1975 this limit was repealed and the annual market value increase for any property for the 1975 through 1978 assessments was limited to 10 percent or one-fourth of the total amount of increase from the previous year, whichever was greater. In 1979 a change was made in the formula used in determining the limited market value on property for the 1979 assessment and the elimination of the limited market value on property for the 1980 assessment. For the 1979 assessment, the amount of increase in the limited market value was 10 percent of the 1978 limited market value or one-half of the difference between the 1978 limited market value and the 1979 estimated market value, whichever amount was greater. This limited market value was the base to which the property classification assessment percentages referred to in Item No. 4 above were applied to arrive at the assessed value for assessment years 1975 - 1979. Beginning with the 1980 assessment, the limited market value on property was eliminated, and the estimated market value is now the base to which the property classification assessment percentages are applied to arrive at the assessed value.

6. Review and Equalization:

The work of the assessor is subject to administrative review and equalization at three levels: the local Board of Review, the County Board of Equalization and the State Board of Equalization. It is the duty of these boards to equalize property assessments within each class and within each taxing district.

B. Tax Levies and Mill Rates

1. The Property Tax Budget Levy:

Each local taxing district determines the amount of money needed to fund their various operations in the coming year. The total amount of this money is commonly referred to as a "budget." Finances for the budget originate from a variety of sources including, among others, state and federal aids, parking meters, fines, municipal liquor stores, licenses, permits, local sales taxes and property taxes. The property tax budget levy is only one component of the entire operating budget required by the taxing district.

2. Levy Limitations:

The 1971 Legislature enacted a law which imposed limitations upon the revenue raised by means of property tax levies. There are two basic overall levy limitation laws; one pertains to local government and the other pertains to school districts. Since these laws are completely independent of one another, each will be discussed separately.

a. Local Government Levy Limitations:

For payable 1985, all cities with a population of 5,000 or more and all counties are subject to the overall levy limitation. Basically, it limits these local governmental units to several controlled increases in their adjusted levy limit base for the previous year. For payable 1985, the base is adjusted upward by two major factors. First, the base is increased by 6.4% for inflation as determined by the Implicit Price Deflator (IPD) from the U.S. Department of Commerce. Second, the inflation adjusted base is increased by a growth factor equal to the greater of the increase in population or households between 1983 and 1984. Several minor adjustments are also authorized for 1985. As a final step, the 1985 adjusted base is reduced by the sum of several state-paid 1985 aids. The resulting figure is the overall levy limitation for payable 1985.

Provisions are made in the law which allow the limitations to be increased or adjusted to reflect boundary changes, transfer of functions or services from one governmental subdivision to another, or the will of the voters of the governmental subdivision by way of a direct referendum on a levy increase.

This overall levy limitation is in addition to specific charter, special law, and statutory levy limitations. If the overall levy limitation is more restrictive than the specific limitations, the overall levy limitation prevails. If the specific limitations are more restrictive than the overall levy limitation, the specific limitations prevail.

All ad valorem tax levies are subject to the governmental subdivision's overall levy limitation except for "special levies." The "special levies" authorized outside the overall levy limitations are numerous and detailed, but in brief they include the following levies:

(1) The increased costs of court judgments and out of court settlements on any tort action, including the premium costs of liability insurance (but excluding coverage for Workmen's Compensation claims);

(2) The increased cost of compliance with written lawful orders initially issued prior to January 1, 1977, by the State of Minnesota, or the United States, or any agency or subdivision thereof, or with stipulation agreements in lieu of such lawful orders signed before January 1, 1977. This special levy also includes the cost of complying with permits or applications for permits for treatment works or disposal systems for pollution abatement in lieu of lawful orders which were initially signed before January 1, 1977;

(3) Matching fund programs or projects with the state or federal government to the extent of the increase in levy for the required local share over the amount levied for the program or project in levy year 1970, taxes payable in 1971. In determining the special levy, the governmental subdivision may include levies in anticipation of state or federal grants, levies to reimburse expenditures already made in the previous levy year for local shares, as well as current levy year requirements;

(4) The costs of social services and social services administration and the unreimbursed cost of public assistance aids up to a maximum 18% increase over the previous year. This does not include the costs of public assistance administration;

(5) Bonded indebtedness, including the entire levy amount required to make the bond principal and interest payments due in the forthcoming budget year. A municipality may also claim a special levy for the amount needed to reimburse liquor store revenues used to pay the principal and interest due on municipal liquor store bonds in the calendar year immediately preceding the current levy year. Other bond-like payments that qualify as a special levy are the levies to fund the payments made to the Minnesota State Armory Building Commission to the extent that such payments are for the purpose of retiring the principal and interest on armory construction bonds. Similarly, a levy to fund the payments made to another political subdivision of the State of Minnesota is a special levy to the extent that such payments are used to retire the principal and interest on bonds or certificates of indebtedness of the type that qualify for a special levy;

(6) The cost of principal and interest on certain types of certificates of indebtedness;

(7) A decreased mobile home tax distribution, to the extent that the governmental subdivision's portion of the ad valorem tax on mobile homes in the current levy year is less than the distribution of the mobile home tax aid to the governmental subdivision in calendar year 1971;

(8) For those governmental subdivisions which experienced a county auditor's error of omission or an error of omission in the levy certified to the county auditor in levy year 1971 or thereafter;

(9) The increased costs of municipal services resulting from annexations, consolidations or incorporations ordered by the Minnesota Municipal Board after 1970. The amount of such increased costs must be the costs as estimated by the Minnesota Municipal Board and contained in a Municipal Board order. The total special levy may not exceed 50 percent of the governmental unit's levy limit base. This amount may be levied in one year or prorated over two or three years, depending on the Municipal Board's order;

(10) The increased costs of providing municipal services to new private industrial and non-residential commercial developments. One part of the special levy is for site preparation, such as sewers, water lines, streets, street lighting and traffic signals for the development site. One year's expenditures for each site to be paid by non-bonded indebtedness property tax levies may be claimed as a special levy. The other part of the special levy (applicable only to cities) is tied to the increase in the assessed value of new industrial and commercial property. For each development, the current assessed value is compared to the latest assessed value prior to the issuance of the basic construction permit (the oldest one issued within the three calendar years preceding the current levy year). The sum of these differences for all eligible developments is multiplied times the ratio of the city's limitation for the current levy year to its total assessed value for the current levy year in order to determine the special levy. The developments used must all be taxable, nonresidential properties and their assessed values for the purpose of this special levy include both land and buildings;

(11) The amount required to recover a loss in tax receipts due to abatement or court action in the year preceding the current levy year. Limited to the ratio of non-special levies to total levies for the year preceding the current levy year multiplied times the loss in tax receipts. The special levy portion may be claimed under other special levy categories. County governments are not authorized to claim this levy;

(12) The amounts required by law to reduce the unfunded accrued liability (deficit) of public pension funds, including interest on the deficit, to the extent of the increase over 106 percent of the amount levied for that purpose in levy year 1976, payable in 1977;

(13) The cost of establishing and administering an employer commuter van program in accordance with Minnesota Statutes, Section 174.27. Limited to 0.1 mill for establishment and 0.01 mill for administration;

(14) The costs of the Southern Minnesota River Basin Area II for Blue Earth, Brown, Cottonwood, Lac Qui Parle, Lincoln, Lyon, Murray, Pipestone, Redwood, or Yellow Medicine counties.

(15) The amount of tax receipts lost due to abatements or court action in 1980 resulting from a reassessment ordered by the Commissioner of Revenue. This special levy is applicable to county governments. City governments may claim a special levy for lost tax receipts from a particular abatement or court action only once;

(16) The county's operating costs of a regional or county jail.

(17) The cost of shade tree disease control programs operating under Minnesota Statutes, Section 18.023.

(18) The county's costs for the Minnesota Cooperative Soil Survey.

(19) The costs of services provided within a county subordinate service district.

(20) The costs of any programs authorized outside of the overall levy limitation under Laws 1982, 1983, and 1984.

Except for these "special levies" and any increased levies authorized by direct referendum, all levies in excess of a governmental subdivision's overall levy limitation are subject to a penalty equal to 33 percent of the excess levy, which is deductible from the governmental subdivision's Local Governmental Aid payments.

b. School District Levy Limitations:

Maintenance:

The major levy limitation for school districts is the school maintenance levy. School district expenditures from the maintenance fund include expenditures for instructions, administration and school building operations. The major components of the maintenance levy are:

Basic Maintenance: All districts had a basic maintenance levy limitation. For most districts the basic maintenance levy limitation before adjustments equals 23.5 mills times the previous year's adjusted assessed valuation. (The adjusted assessed valuation is the taxable valuation of each district adjusted by the state for variations in property assessment levels and other adjustments specified in statutes.) For districts with relatively high property valuation per pupil unit, 23.5 mills times the EARC valuation would raise an amount per pupil unit) greater than the foundation aid formula allowance. For these districts the basic maintenance levy is equal to the formula allowance times the district's total pupil units plus a maintenance levy revenue equity adjustment.

The basic foundation program provides a certain level of financial support (the foundation aid formula allowance for each pupil unit in the combination of state aid and local levy. The local effort is the basic maintenance levy limitation. The state aid is equal to the total pupil units times the formula allowance minus 23.5 mills times the previous year's EARC valuation. The formula allowance for the 1985-86 school year (used for 1984 payable 1985 levies) is \$1,585.

Cost Differential Tier: Ninety-nine percent of the districts had a cost differential tier levy limitation. The cost differential tier provides districts with additional revenues to replace the former sparsity aid and to fund the additional cost due to highly trained and experienced staff. The district's cost differential tier maintenance levy was equal to the cost differential revenue times

the lesser of one or the ratio of the district's EARC valuation per total pupil unit to \$67,447 (the equalizing factor). Cost differential tier foundation aid is equal to the cost differential tier revenue minus the cost differential tier levy.

Second Tier: Seventy-eight percent of the districts had a second tier levy limitation. The maximum second tier allowance is equal to \$150 per pupil unit. The district's fund balance in the operating funds can reduce the second tier revenue. The district's second tier maintenance levy limitation was equal to the second tier revenue times the lesser of one or the ratio of the district's EARC valuation per total pupil unit to \$67,447. Second tier foundation aid is equal to the second tier revenue minus the second tier levy.

Third Tier: All school districts had a third tier levy limitation. The maximum third tier allowance is equal to \$100 per pupil unit. The district's third tier maintenance levy limitation was equal to the third tier revenue times the lesser of one or the ratio of the district's EARC valuation per total pupil unit to \$50,585.25 (75% of the equalizing factor). Third tier foundation aid is equal to the third tier revenue minus the third tier levy.

Fourth Tier: Eighty-eight percent of the districts had a fourth tier levy limitation. The maximum fourth tier allowance is equal to \$100 per pupil unit plus an additional amount based on teacher training and experience. The district's fourth tier maintenance levy was equal to the fourth tier revenue times the lesser of one or the ratio of the district's EARC valuation per total pupil unit to \$33,723.50 (50% of the equalizing factor). Fourth tier foundation aid is equal to the fourth tier revenue minus the fourth tier levy.

Fifth Tier: Nine percent of the districts had a fifth tier levy limitation. The fifth tier provides certain districts with additional revenues in order to insure that all districts receive a guaranteed minimum increase in revenue per pupil unit from the new tier system. The district's fifth tier maintenance levy limitation was equal to the fifth tier revenue times the lesser of one or the ratio of the district's EARC valuation per total pupil unit to \$33,723.50 (50% of the equalizing factor). Fifth tier foundation aid is equal to the fifth tier revenue minus the fifth tier levy.

Unemployment Insurance Maintenance: Fifty-seven percent of the K-12 districts had an unemployment insurance maintenance levy limitation. The levy limitation was equal to the amount needed to eliminate a projected deficit balance in the account appropriated for unemployment insurance.

Referendum Maintenance: Forty-seven percent of the districts have a referendum maintenance levy limitation. The limitation is equal to the additional levy authority authorized by the voters of the district for the years specified on the ballot. The district's voters may, through a recall referendum, eliminate this levy limitation authority.

SOD Maintenance: Eight percent of the K-12 districts were required to levy up to $1\frac{1}{2}$ mills times the previous year's EARC valuation to retire the district's Statutory Operating Debt. This debts an operating fund balance deficit established as of June 30, 1977.

Transportation

All districts had a transportation levy limitation. The basic transportation levy limitation was equal to 1.75 mills times the previous year's EARC valuation. Districts were also permitted to levy for the cost of transporting students residing less than one mile from the school where traffic hazards were present, for the cost of the transporting secondary students residing between one and two miles from school, and for bus purchases. Districts contracting for pupil transportation had additional levy authority based on the percentage of pupils transported on contracted buses.

Community Service:

Eighty-seven percent of the districts had a community service levy limitation. The limitation was equal to the lesser of 0.8 mills or \$5.25 times the district's population for the basic community education program, plus the lesser of 0.4 mills or \$79.25 times the districts population under five years of age for early childhood family education programs.

Capital Expenditure:

All K-12 districts had "basic", "special-purpose", and "hazardous" capital expenditure levy limitations. The combined per-pupil allowance for these three components was \$140 plus \$5 if the district was growing and \$5 if the district had a secondary vocational or industrial arts program. The permitted revenue was equal to the per-pupil allowance of \$145, \$150 or \$155 multiplied by the district's total 1984-85 pupil units. The district could levy up to eleven mills times the previous year's EARC towards the permitted revenue. With the approval of the Commissioner of Education, a district could levy an additional amount for the costs of leasing a school building. Districts were also permitted to levy the amount needed to repay the principal and interest on state energy conservation loans.

General Debt Service:

Seventy-seven percent of the K-12 districts had a general debt service levy limitation. Districts are obligated to levy enough to pay their obligations for bonded indebtedness and state loans on time. The county auditor was to reduce the levy by the excess funds on hand in a district's debt service fund unless the school board determined that some portion of the excess was necessary to ensure timely payment of obligations.

AVTI Debt Service and AVTI "Other":

The 33 AVTI (Area Vocational Technical Institute) districts are authorized to levy for AVTI debt service and AVTI "Other". AVTI "Other" included components for unemployment insurance, liability insurance and construction. The three intermediate AVTI districts may also levy for secondary vocational and special education.

3. Determination of the Property Tax Levy:

The local units of government certify to the county auditor their property tax budget levy. The auditor adjusts the levies to comply with specific charter and statutory limitations. Generally, however, he makes no adjustments to the overall levy limitations of the taxing districts unless specifically authorized to do so by the Commissioner of Education or the Commissioner of Revenue. This last review of the budget levies by the county auditor determines the actual dollar amounts to be levied through ad valorem property taxation.

4. Special Assessments:

Special assessments, which are also paid by property owners, involve the funding of such projects as streets, curbs, sidewalks, ditches and storm sewers. When any of these improvements are made to a person's property, that person is considered to have benefited directly by them. Improvements of this nature have no relationship to the value of the owner's property; rather, the amount needed for the project is determined on the basis of how much each property benefits. The determination of the mill rate and the individual's taxes due (see Section 5 below) excludes the amounts needed for these types of special assessments. Any amounts for special assessments are added but enumerated separately on the property owner's tax statement. They are not considered to be a tax on property.

5. Determination of the Mill Rate and the Individual Taxes Due:

The final levy requirements of each taxing district, namely counties, cities, towns, school districts and special taxing districts, are spread against the respective taxable values to determine the mill rates required to generate the necessary revenue. Under normal circumstances, this is accomplished by dividing the property tax budget levy amount by the total taxable value. For example, if the county's levy was \$1,000,000 and the total assessed value was \$50,600,000, then the total county mill rate would be calculated as follows:

$$\$1,000,000/\$50,600,000 = .0197628 = 19.763 \text{ mills}$$

Thus, one mill equals one-tenth of one percent.

Special attention, however, needs to be given to mill rate calculations which deviate from the customary calculations.

a. Fire Protection Districts:

Township mill rates are influenced by the presence of special fire protection districts (Minnesota Statutes 1982, Section 368.85). Any organized town may, through a majority vote cast by the electors within the proposed district, establish a territory which will receive fire protection. A fire district consists of compact and contiguous

property of which at least 25 percent of the total assessed value of taxable real property therein is classified as homestead property and other buildings or structures. All costs of a fire protection district are borne by the property taxpayers located within its boundaries. The cost of the fire district is reflected in a higher municipal mill rate for the concerned property. Property outside of the district does not contribute tax dollars toward this protection.

b. Rural-Urban Service Districts:

A factor to be considered in the calculation of city mill rates is the rural-urban service district. A rural service district and an urban service district which are adopted by ordinance constitute "separate taxing districts for the purpose of all municipal property taxes except those levied for the payment of bonds and judgments and interest thereon." (Minnesota Statutes 1982, Section 272.67.) Only unplatted lands which are rural in character and which are not developed for commercial, industrial or urban use can become rural service districts. Such land is not benefited to the same degree as other lands by municipal services financed by general taxation. An urban service district consists of all lands within the boundaries of the municipality which are not included in the rural service district. Lesser benefits within a rural service district result in lower mill rates for taxpayers within its boundaries than for taxpayers located within the boundaries of the complementary urban service district.

6. Agricultural Aid Credit:

The state agricultural aid was first established by the 1933 Legislature as a mill rate differential on agricultural property for school maintenance levies. This resulted in a shift in the tax burden to non-agricultural properties. The 1971 Legislature initiated the providing of state aid to finance the agricultural aid mill rate differential. Initially, this state aid was equal to a differential of 8.3 mills. In 1975 the Legislature changed the aid from a mill rate differential to the type of property tax credit that existed until 1983. (See Table 16 on page 45).

Effective for taxes payable in 1985 all agricultural homestead property up to 320 acres is subject to a tax reduction equal to 33 percent of the total tax levied on the assessed value of this portion of the property excluding the value of the house, garage and surrounding one acre. The portion of the agricultural homestead from 320 to 640 acres, the portion of non-homestead agricultural property up to 320 acres and all non-commercial seasonal recreational residential property receive a reduction equal to 15 percent of the total tax levied on the assessed value of these portions or class of property.

The portion of agricultural homestead property over 640 acres, the portion of non-homestead agricultural properties over 320 acres and 3e timberland properties receive a reduction equal to 10 percent of the total tax on the assessed value of these portions or class

of property. The amount of reduction which any taxpayer can receive on agricultural property cannot exceed \$4,000, and on non-commercial seasonal recreational property the reduction cannot exceed \$100. Also, the amount of agricultural credit cannot exceed the amount of the school district levy on a specific property. The agricultural credit granted is paid entirely to the school district by the state.

In 1984, the Legislature made changes in the law which affected the agricultural aid credit. The \$2,000 credit limit in effect at that time was increased to \$4,000, which required county treasurers to send amended tax statements to those individuals that were affected. The amounts of this additional agricultural aid credit are not reflected in the tables in this bulletin.

7. Wetlands Credit and Reimbursement:

Enactment of the wetlands exemption, credit and reimbursement was made by the 1979 Legislature effective for taxes payable in 1981.

Effective for taxes payable in 1985, qualifying wetlands of one acre or more ($2\frac{1}{2}$ acres or more or 10 acres or more in certain cases) are exempt from the property tax, and local taxing districts automatically receive a state paid wetlands reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979 assessed value of property currently exempt under the wetlands provisions by the current year total mill rate for the taxing area in which the wetlands are located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt wetlands cannot be less than \$5 per acre of wetlands.

Owners of property containing qualifying wetlands can apply for and receive a wetlands credit on the taxes they pay on the rest of their property as long as those parcels are contiguous to the wetlands parcel. The wetlands credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the wetlands are located by the number of acres of wetlands in the parcel. The actual credit amount is determined by multiplying the wetlands credit value by 5 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of wetlands credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

8. Native Prairie Credit and Reimbursement:

The 1980 Legislature passed the native prairie exemption, credit and reimbursement. These provisions became effective for taxes payable in 1981.

Effective for taxes payable in 1985, qualifying native prairie of ten acres or more (five acres in certain southern counties) is exempt from the property tax, and local taxing districts automatically receive a state paid native prairie reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979 assessed value of property currently exempt under the native prairie provisions by the current year total mill rate for the taxing area in which the native prairie is located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt native prairie cannot be less than \$5 per acre of native prairie.

Owners of property containing qualifying native prairie can apply for and receive a native prairie credit on the taxes they pay on the rest of their property as long as those parcels are within two cities and/or townships from the native prairie parcel. The native prairie credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the native prairie is located by the number of acres of native prairie in the parcel. The actual credit amount is determined by multiplying the native prairie credit value by 15 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of native prairie credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

9. Disaster Credit

The disaster credit was created by the 1982 Legislature effective for taxes payable in 1984.

The disaster credit is based on the reassessment of homestead property which is located within a declared disaster or emergency area. The county assessor reassesses the property that is physically damaged by the disaster. The reassessed value is subtracted from the market value of the property as assessed for January 1 of the year in which the disaster occurs. The difference is then multiplied by the fraction created by dividing the number of remaining full months (after the disaster happens) by 12. The product of this is then subtracted from the January 1 market value to get the average market value for the year.

The county assessor reports both the assessed value as of January 1 and the assessed value based on the average market value to the county auditor. The difference between these two values is then multiplied by the prevailing local mill rate to determine the amount of the disaster credit. There is no maximum credit limitation for the disaster credit.

10. Power Line Credit:

The 1980 Legislature passed the power line credit provision which became effective for taxes payable in 1982. To qualify for this credit a parcel of property must be located in an organized town

or city, classified as class 3, 3b, 3c, 3cc, 3d, 3dd, 3f, or 3g and crossed by a transmission line of 200 KV or above which was constructed after June 30, 1974. In the past, utility companies made direct payments to these property owners as a form of compensation for having these power lines cross their property.

The utility companies no longer make direct payments for the credit. Instead, the county auditor computes the credit and applies it against the gross property tax of the property owner. The credit is limited to 20 percent of the total gross tax, and the credit is not granted if it is calculated to be less than \$10. However, if the property containing the high voltage line right-of-way is included in a parcel which is more than 40 acres, the total gross tax on the parcel is multiplied by a fraction before the 20% is figured. This fraction is figured by dividing the 40 acres by the total number of acres in the parcel.

This credit is financed by a certain portion of the property tax paid by the utility companies. Ten percent of the assessed value of these transmission lines (200KV and above, constructed after June 30, 1974 and located in organized towns and cities) is not included in the assessed value used to determine mill rates, but is taxed at the prevailing total local mill rate. This tax is set aside to finance the power line credit.

11. Agricultural Preserves Credit:

The agricultural preserves credit was part of the Metropolitan Agricultural Preserves Act passed by the 1980 Legislature to become effective for taxes payable in 1983. Only within the seven metropolitan counties are properties eligible to receive this credit.

Effective for taxes payable in 1985, the agricultural preserves credit is based on the assessed value of all land designated as agricultural preserves land and all non-residential buildings used for agricultural purposes, which are located on such land within the seven county metropolitan area. The difference between the current year total local mill rate for the taxing area where the property is located and 105% of the prior year's statewide average total township mill rate is the agricultural preserve credit mill rate. The credit is calculated by multiplying the agricultural preserves credit mill rate by the assessed value of the agricultural preserves land and the non-residential buildings used for agricultural purposes located on this land.

The agricultural preserves credit applies in both cities and townships, and there is no acreage limit applicable. If the total local mill rate is less than 105% of the prior year's statewide average mill rate in townships, there is no credit. The agricultural preserves credit is paid by the state directly to the local taxing districts.

12. Enterprise Zone Credit:

The enterprise zone law was passed by the 1982 Legislature and became effective July 1, 1983. The purpose of the enterprise zone is to generate jobs and industry in economic hardship areas, by means of tax reductions and credits for the area designated as an enterprise zone.

When a city or an area has qualified as and been given approval for designation as an enterprise zone, it may qualify for several forms of tax reductions. The enterprise zone property tax credit is a state paid credit for a portion of the property taxes paid by certain commercial or industrial properties located within the enterprise zone.

For taxes payable in 1985, five counties in Minnesota reported enterprise zone property tax credits. (See Table 45, page 208).

13. Homestead Property Tax Relief Credit:

The homestead credit provisions were among the many property tax relief programs passed by the 1967 Legislature. (See Table 12, page 41).

Effective for taxes payable in 1985, the homestead credit is computed on 54 percent of the gross tax (less any agricultural, wetlands, native prairie, power line, agricultural preserves, enterprise zones and disaster credits), based on a limit of \$67,000 in market value and up to a maximum of \$650. Homestead mobile homes are also eligible for the homestead credit. The amount of homestead credit granted is paid by the state directly to the local taxing districts.

The taconite homestead credit was created by the 1970 Legislature. (See Table 14, page 43).

For taxes payable in 1985, an additional 57 percent or 66 percent (depending upon the iron ore value of the assessment district or the presence of taconite mines, plants or electric generating facilities) taconite homestead credit up to a maximum reduction of \$435 or \$490, respectively, is extended to homesteads located in certain iron range areas. The taconite homestead credit is calculated after the 54 percent homestead credit is calculated and deducted. The taconite credit is paid by the state from a portion of the taconite production tax receipts.

Beginning with taxes payable in 1981, homesteads within school district #317 in Itasca County and school district #698 in Aitkin and St. Louis Counties receive the supplemental homestead property tax relief credit instead of the 57% taconite homestead credit. This credit was passed by the 1980 Legislature.

14. Mobile Homes:

Mobile home taxation adheres to the traits of more than one type of tax. The term "hybrid" might be a way of describing its characteristics. A mobile home, or trailer house, is not taxed as a motor vehicle even though it has the ability to be easily moved. Beginning with assessment year 1980 for taxes payable in 1981 and subsequent years, mobile homes that meet each of the following criteria must be treated as real estate and valued and assessed as such:

1. The owner of the unit holds title to the land upon which it is situated;
2. The unit is affixed to the land by:
 - a. a permanent foundation,
 - b. or is installed at its location in accordance with

- the mobile homes building code, Sections 327.3 to 327.34,
- c. or is affixed to the land in a manner comparable to other real property in the taxing district;
3. The unit is connected to public utilities, has a well and septic tank system, or is serviced by water and sewer facilities comparable to other real property in the taxing district.

Those mobile homes not meeting each of the above criteria continue to be classified as Class 2a personal property. These mobile homes are able to qualify for property tax relief credits in a manner similar to real property. To become eligible for homestead credit, the mobile home must be owner-occupied just as real property. Homesteaded mobile homes receive the same assessment ratios and the same homestead base amounts as for homesteaded real estate in the previous assessment year. (See Table 24 on page 53.)

Mobile homes classified as Class 2a personal property are assessed every year as other personal property but the taxes are due in full on or before August 31 of that same year. The valuation of 2a mobile home property is not included in the calculations which establish the mill rates used to determine taxes on other real and personal property values. The mill rate applicable to 2a mobile home values is the mill rate which was established and was employed on other real and personal property in that same year.

The 1983 and 1984 valuations and resulting taxes associated with mobile homes classified as Class 2a personal property are shown on Tables 50 and 51.

15. Tax Increment Financing:

The mechanism of tax increment financing provides a growing tax base to finance renewal or renovation projects. There are seven main types of tax increment financing allowable under Minnesota law:

- 1 Minnesota Rural Development Finance Authority (M.S. 362A)
- 2 Port Authority (M.S. 458.192)
- 3 Municipal Development District (M.S. 472A)
- 4 Housing and Redevelopment Authority (M.S. 462.545 and M.S. 462.585)
- 5 Metropolitan Housing and Redevelopment Authority (M.S. 473.193-473.201)
- 6 Municipal Industrial Development (M.S. 474)
- 7 Special Laws:
 - St. Paul Urban Renewal - 1963 Laws, Chapter 891
 - Hopkins Development Districts - 1971 Laws, Chapter 548
 - Minneapolis and Robbinsdale Development Districts - 1971 Laws, Chapter 677
 - Duluth Development Districts - 1973 Laws, Chapter 761
 - St. Paul Development Districts - 1973 Laws Chapter 764

Although these seven types of tax increment financing have particular distinguishing characteristics, they all function on the same basis. The original value of the project area, before renewal, is used when

calculating the mill rate. The tax levies are spread against the full value of the project area. Revenue obtained from the difference between the original assessed value and the current year assessed value of the concerned property is distributed to the appropriate authority to finance the renewal project debt. As the value of the property increases, so will this "tax increment". The increment values and taxes are shown by city and by county on Table 27.

For example, a district had an original assessed value of \$500,000. The current year assessed value of the property, however, increased to \$750,000. The county auditor uses only the original assessed value of \$500,000 when determining mill rates. The difference between the two values, \$250,000, is the "tax increment value". This \$250,000 value times the total local mill rate equals the tax increment amount which the county auditor distributes to the affected tax increment district.

16. Fiscal Disparities;

The Metropolitan Development Act, more commonly known as "Fiscal Disparities", was first implemented for taxes payable in 1975. It established a new property tax system for the seven metropolitan counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington. Although the law is complex, it can be briefly summarized as follows:

Forty percent of the increase in commercial-industrial (including public utility) assessed valuation in each assessment district since 1971 is contributed to an area-wide tax base. Using the factors of population and real property market value, a per capita distribution index is calculated. This index is employed in determining what proportion of the assessed value in the area-wide tax base shall be distributed back to each assessment district. The total assessed value less the contribution assessed value equals the local taxable value used to determine local mill rates.

A taxing district's budget levy is reduced by the levy amount it is permitted to spread on the area tax base. Its area levy amount is its distribution assessed value multiplied by its prior year mill rate. The reduced budget levy divided by the taxing district's local taxable value (assessed value less contribution assessed value) equals its levy mill rate. The local mill rate times the assessed value less contribution value is equal to the local portion of each district's property tax budget levy; whereas, the prior year local mill rate times the distribution value is equal to the area-wide portion. Each metropolitan county auditor certifies to the administrative auditor the area-wide portions of the levy for each district located within his county. The administrative auditor then computes an area-wide mill rate by dividing the total of the area-wide levies by the total area-wide tax base.

A calculated proportion of the assessed value of each commercial-industrial parcel of property is taxed based on the area-wide mill rate; the remaining value receives the local mill rate.

As a result of the aforementioned law, the property tax levy of a taxing district is not the tax amount amount paid by the taxpayers located within the geographic boundaries of that district. The amount they paid could be more or less than what is actually needed by the district in which they live, depending upon whether the area-wide mill rate was larger or smaller than the local mill rate and whether the contribution value was larger or smaller than the distribution value.

17. Payment of the Tax:

The resultant extensions of taxes due are submitted to the county treasurer for collection. Statements containing the assessor's determination of market value and the amount of tax due after the deduction of applicable credits are sent to each taxpayer. Property taxes may be paid to the county treasurer in two equal installments. One-half of the personal property tax must be paid by February 28, and the other half by June 30. Payment of one-half of the real estate tax is due by May 15, with the remainder due by October 15. The tax on mobile homes is due in full on August 31.

18. Property Tax Penalties:

a. Personal Property:

All unpaid personal property taxes where the amount is \$10 or less are deemed delinquent on the next March 1 after they become due, and thereupon a penalty of eight percent is charged upon all such taxes. When the amount of such tax exceeds the sum of \$10, the first half becomes delinquent if not paid prior to March 1 and thereupon a penalty of eight percent is charged on the unpaid first half. The second half of the tax in excess of \$10 becomes delinquent if not paid prior to July 1 and thereupon a penalty of eight percent is charged on such unpaid second half. The provision does not apply to Class 2a mobile home property.

b. Real Estate:

On May 16 of each year, with respect to property actually occupied and used as a homestead by the owner of the property, a penalty of three percent is charged upon all unpaid current real estate taxes, and a penalty of seven percent on non-homestead property. Thereafter, for both homestead and non-homestead property, on the 16th day of each month, up to and including October 16 following, an additional penalty of one percent for each month is charged on all such unpaid taxes. When the taxes against any tract or lot exceed \$10, one-half of them may be paid prior to May 16 without a penalty; the remaining one-half can be paid at any time prior to October 16, without penalty. However, if the remaining one-half is not paid by October 16, then a penalty of four percent is charged on homestead property and a penalty of four percent on non-homestead property. Thereafter, an additional penalty of two percent is added on the 16th day of each month up to and including December 16 following if the second half

taxes on homestead property remain unpaid. For non-homestead property, an additional four percent penalty is added on the 16th day of each month up to and including December 16 following if the second half taxes remain unpaid.

c. Mobile Home:

All unpaid taxes on mobile homes shall be deemed delinquent on September 1 in the year of assessment and thereupon a penalty of eight percent shall be imposed.

SECTION II

Historical Data

TABLE 1

**ASSESSED VALUES, TOTAL TAXES LEVIED INCLUDING SPECIAL ASSESSMENTS
AND STATEWIDE AVERAGE MILL RATES**

Payable Year	Assessed Values				Average Tax Rate In Mills*	Total Taxes Levied
	Rural Land Including Structures	Urban Land Including Structures	Personal Property	Total

* The statewide average mill rate is exclusive of special assessments.

(a) The homestead base values by payable year are as follows:

1970-1972...\$ 4,000	1978...\$15,000	1981.....\$25,000 and \$50,000	1985...\$31,000 and \$62,000
1973-1976...\$12,000	1979...\$17,000	1982-1983...\$27,000 and \$54,000	
1977.....\$13,000	1980...\$21,000	1984.....\$30,000 and \$60,000	

(b) For payable years 1970 - 1972, due to reporting errors, Non-Homestead Real Estate contains some values that should be in Homestead Real Estate. Therefore, values for these years should not be directly compared to values for other years.

(c) The market value concept was first used for taxes payable in 1973. Under this concept, assessed values and average tax rates changed considerably.

NOTE: Footnotes may be found on page 33.

FOOTNOTES FOR TABLES 2, 3 AND 4

NOTE: Homestead credit became effective with taxes payable in 1968;
Taconite credit became effective with taxes payable in 1970.

- 1) Due to the elimination of the "adjusted market value" concept, the mill rate decreased to approximately one-third of the previous level. See explanation on page 4.
- 2) Total amounts of homestead credit include the following amounts of taconite credit:

1970....\$1,012,094	1977....\$ 9,066,923	1984....\$19,416,876
1971.... 1,043,486	1978.... 9,524,963	1985.... 10,460,191
1972.... 2,814,419	1979.... 11,748,570	
1973.... 2,617,416	1980.... 13,006,426	
1974.... 3,250,178	1981.... 14,398,085	
1975.... 3,648,072	1982.... 16,412,340	
1976.... 9,263,039	1983.... 17,854,916	

- 3) Includes (or excludes in the case of net taxes) Seven County Metropolitan Contribution Levy in:

1975...\$16,672,517	1981...\$ 46,774,964
1976... 20,986,439	1982... 65,019,879
1977... 19,418,464	1983... 88,756,546
1978... 23,075,548	1984... 107,423,873
1979... 29,523,199	1985... 137,398,665
1980... 36,268,483	

Also includes power line levy of:

1982	1983	1984	1985
<u>\$367,851</u>	<u>\$407,699</u>	<u>\$395,464</u>	<u>\$404,262</u>

- 4) Includes tax increment financing levy amount of:

1982	1983	1984	1985
<u>\$35,141,373</u>	<u>\$46,425,859</u>	<u>\$58,154,901</u>	<u>\$70,761,120</u>

- 5) Starting in 1981, the net taxes column reflects the exclusion of the following credits:

	1981	1982	1983	1984	1985
Reduced Assessment Credit.....	<u>\$11,536,758</u>	<u>\$14,026,852</u>	<u>\$14,584,416</u>	<u>\$ NA</u>	<u>\$ NA</u>
Wetlands Credit.....	2,307,260	2,798,921	2,791,508	313,355	421,758
Native Prairie Credit.....	83,104	102,267	109,052	121,898	139,261
Power Line Credit.....	NA	135,506	151,957	165,373	163,997
Agricultural Preserves Credit....	NA	NA	125,054	340,215	390,855
Disaster Credit.....	NA	NA	NA	58,582	71,575
Enterprise Zone Credit.....	NA	NA	NA	651,896	1,013,948

* Special Assessments are charges made to specific real estate parcels for improvements which do not benefit the entire taxing district. Special Assessments are not included in the taxing district levy when mill rates are determined.

** School Districts do not have special assessments. However, the entries in this table are basically old school district debts that were treated as special assessments during that year in which the taxes were due. Because of their treatment, these taxes were not included in calculating the average county mill rate, the statewide average mill rate, nor were they given homestead credit for the years in which homestead credit was paid.

*** Prior to payable year 1974, no specific provisions were made for reporting special taxing districts' (specifically watersheds) special assessments. Hence, any special taxing district's special assessments were shown on this table as county special assessments. Effective with payable 1974, a separate column was provided for reporting special taxing districts' special assessments.

* Includes tax increment financing district levy. The amounts of this levy can be found in Table 5, Page 34.

** Excludes fiscal disparities contribution levy and beginning in 1982, also excludes power line levy. The amounts of both of these levies can be found in the footnotes following Table 4, Page 33.

TABLE 12

**HOMESTEAD CREDIT DETERMINATION DATA
TAXES PAYABLE 1968-1985**

<u>Payable Year</u>	<u>Base</u>	<u>Rate</u>	<u>Maximum</u>	<u>Acreage</u>
1968-1973	all non-debt	35%	\$250	80
1974	all non-debt plus school debt	45%	\$325	120
1975-1976	all non-debt plus school debt	45%	\$325	120
1977	all non-debt plus school debt after ag credit	45%	\$325	120
1978	gross tax after ag credit	45%	\$325	120
1979	gross tax after ag credit	45%	\$325	120
1980	gross tax after ag credit	50%	\$550	240
1981-1983*	gross tax after credits	58%	\$650	240
1984	gross tax after credits	54%	\$650	Unlimited
1985	gross tax after credits	54%	\$650	Unlimited

* In 1982 a limitation was placed on the mill rate and levy used to determine homestead credit for all local taxing districts except school districts and the Metropolitan Transit Commission. If the 1982 levy of a taxing district was more than 108 percent of its 1981 levy, the total homestead credit amount was determined by the mill rate based on 108 percent of the taxing district's 1981 levy.

Note: Effective for taxes payable in 1985, disaster credit, wetlands credit, native prairie credit, power line credit, agricultural preserves credit, enterprise zone credit and agricultural credit are deducted before the homestead credit is calculated. The homestead credit is calculated and deducted before the taconite homestead credit and supplemental taconite homestead credit are calculated.

*Homestead credit determination data can be found in Table 12, page 41.

**The non-agricultural homestead credit includes tax increment financing homestead credit.

TABLE 14

TACONITE HOMESTEAD CREDIT, PERCENTAGES AND MAXIMUMS
TAXES PAYABLE 1972 - 1985

Taxes Payable	TACONITE HOMESTEAD CREDIT*		PERCENTAGES AND MAXIMUMS		
	Taconite Credit Amount	Total Number Receiving	Payable Year	Percentages	Maximums
1972	\$ 2,814,419	---	1972	21 or 27%	\$150 or \$190
1973	2,617,416	---	1973	21 or 27%	\$150 or \$190
1974	3,250,178	46,753	1974	21 or 27%	\$150 or \$190
1975	3,648,072	51,504	1975	21 or 27%	\$150 or \$190
1976	9,263,039	53,828	1976	52 or 60%	\$300 or \$350
1977	9,066,923	55,951	1977**	49.7 or 57.3%	\$287 or \$334
1978	9,524,963	59,919	1978**	48.9 or 56.7%	\$283 or \$331
1979	11,748,570	61,090	1979	57 or 66%	\$345 or \$400
1980	13,006,426	60,794	1980	57 or 66%	\$360 or \$415
1981	14,398,085	59,728	1981	57 or 66%	\$375 or \$430
1982	16,412,340	53,218	1982	57 or 66%	\$390 or \$445
1983	17,854,916	52,237	1983	57 or 66%	\$405 or \$460
1984	19,416,876	50,321	1984	57 or 66%	\$420 or \$475
1985	10,460,191	51,587	1985	57 or 66%	\$435 or \$490

* The Taconite Credit Amount, starting in 1981, includes the following Supplementary Homestead Credit Amount:

1981.....\$ 419,537	1983.....\$ 504,017	1985.....\$ 311,485
1982..... 465,160	1984..... 588,618	

** The 1977 and 1978 percentages and maximums were adjusted due to insufficient receipts to cover the credit. The figures before adjustments were:

1977 - 52% or 60% with maximums of \$300 or \$350;
1978 - 57% or 66% with maximums of \$330 or \$385.

* The farm gross tax is before the deduction of the agricultural credit. For 1974-1976, gross tax is before the deduction of the agricultural mill rate differential credit.

** From 1974-1983, credits may include the agricultural, homestead, taconite homestead, reduced assessment, wetlands, native prairie, power line and agricultural preserves credits.

For 1984-1985, credits may include agricultural, homestead, taconite homestead, wetlands, native prairie, powerline, agricultural preserves, disaster, and enterprise zone credits.

ADJUSTMENT AMOUNTS FOR PRIOR YEARS
FOR REAL PROPERTY
TAXES PAYABLE 1974 - 1985

Year	Homestead Credit*		Taconite Homestead Credit	Supplemental Homestead Credit	Agricultural Credit***
	Tax Increment Financing Districts**	Taxing Districts			
1974		\$ 203,485	\$ 164,020		
1975		74,344	11,440		
1976		539,488	17,636		
1977		790,092	16,516		\$ 1,636
1978		657,200	61,913		-3,287
1979		650,112	38,757		35,991
1980		945,389	54,518		42,529
1981	\$ -73,367	1,229,469	45,038	\$ 2,109	69,284
1982	180,125	1,845,311	57,079	3,778	87,117
1983	10,203	1,853,707	45,750	3,238	78,179
1984	11,155	1,353,204	64,650	5,968	62,180
1985	45,233	3,277,627	116,895	2,872	107,155

* Adjustment amounts for homestead credit may include adjustment amounts for one or more of the following: reduced assessment credit (1982), wetlands and native prairie credits and reimbursements (1982-1985), agricultural preserves credit (1984-1985), and disaster and enterprise zone credits (1985).

** Prior year homestead credit adjustment amounts for tax increment financing districts were first reported separately in 1981.

*** Prior to payable year 1977, agricultural aid was based on a state financed mill rate differential as opposed to the agricultural credit referenced in this table.

* Includes tax increment financing values where there are tax increment financing levies.

** The average rate of taxation is exclusive of special assessments.

*** Includes Area Vocational Technical Institutes (AVTI) namely, #287, #916 and #917.

**** Includes:
Hospital Districts
Metropolitan Council
Metropolitan Transit
Mosquito Control
Watershed Districts
Housing & Redevelopment Authorities
Sanitary Sewer Districts
County Park District
Port Authorities
Regional Development Commissions

***** Includes the following amount of Supplementary Homestead Credit:

Aitkin	\$871
Itasca	\$224,953
St. Louis	\$85,661

	\$311,485

Explanation of Categorical Division of County,
City/Township, School District, and
Special Taxing District Levies by Major Purpose

To obtain uniform reporting from the 87 counties and to comply with the physical limitations of the Abstract of Tax Lists, the numerous authorized levies are grouped by major purpose of the levy. The county auditors are provided with instructions which detail the individual levies to be included in each category (column) on the abstract. Some are self-explanatory, while others include a wide variety of levies.

The following list is not a complete digest of all the levies. It is merely a general index to the nature of each category as found on the abstract. Tables 33 through 37 are patterned after the design of the abstract column headings.

County Levies

<u>Column Heading</u>	<u>Items Included Within Column Heading</u>
General.	General revenue, county or regional jail construction, other county buildings, public employees' retirement and social security funds, employees on leave from the state, ambulance service, health department and county controlled hospital districts, mental health services, nursing homes, cattle testing, agricultural societies and extension committees, civil defense, correction centers, probation services, sheltered workshops, senior citizen recreation programs, historical societies, insect and weed control, solid waste programs, parks and monuments, voting machines.
Indebtedness.	General obligation, state loans, debt portion of other levies.
Road and Bridge	Road and bridge, repair and maintainance.
Welfare	General assistance, aid to dependent children, aid to blind and disabled persons, medical assistance, administration expense, purchase and delivery of social services.
County and/or Regional Library. . .	County library, contracts for library service.

Miscellaneous	Public examiner's post-audit expense, state reassessment costs, judgments, armories.
County Special Assessments.	See (*) after City/Town Special Assessments.

CITY/TOWNSHIP LEVIES

Column	Heading	Items Included Within Column Heading
General Revenue - Tort		Tort liability insurance.
General Revenue - All Other.		All other regular and general fund purposes, relief for paid and volunteer firemen, police security funds, airports, ambulance and health services, civil defense, aquatic vegetation, water pollution, insect control, fire and police protection, community correction and activity centers, dump grounds and sewage disposal, commemorative purposes, parks, recreation, musical entertainment, library, cemetery, voting machines.
Indebtedness.		General obligations, state loans, hospitals, parking facilities, water, sewer bonds, indebtedness of dissolved villages, and all other debt within any fund.
Road and Bridge.		Road work, road drainage, bridge repairs.
Miscellaneous.		Advertising, comprehensive planning, judgments, state post-audit expense, permanent improvement and replacement fund.
City/Township Special Assessments. .		See (*) below.

* Property taxes categorized as special assessments are not determined through the use of a mill rate as are ad valorem property tax levies. Instead, the dollar amount of a special assessment is paid by the property owner who benefits from the improvement regardless of the cash value of the owner's property. Examples of special assessments are ditches, curbs, gutters and storm sewers. If public property is improved by a special assessment, however, such as a courthouse sidewalk, every property owner pays a portion of its costs. The improvement is financed through proper funds within the county or municipality's total ad valorem levy.

SCHOOL DISTRICT LEVIES

Each of the following categories relate directly to the type of school property tax levy reported on the form entitled "Levy Limitation and Certification - 1984 Payable 1985".

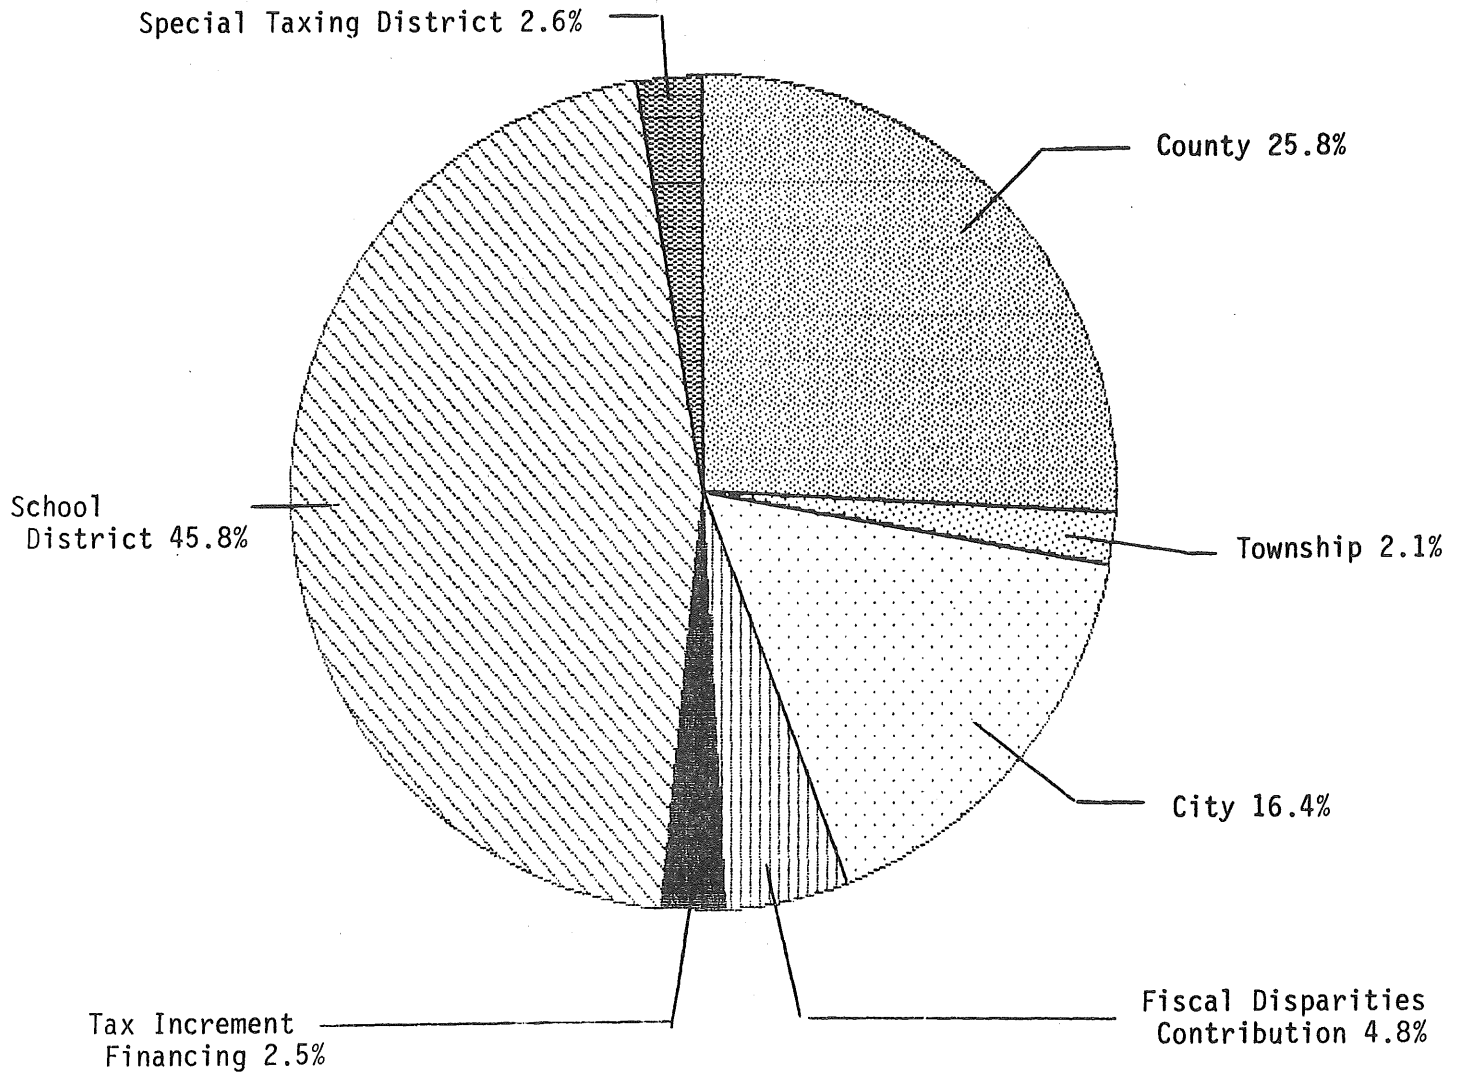

<u>Column Heading</u>	<u>Items Included Within Column Heading</u>
Maintenance.	Administration, operation and maintenance of school programs and buildings, includes salaries, fuel and supplies.
Transportation	Transportation costs, including bus service.
Community Service.	Community oriented activities, not limited to any age group.
Capital Expenditure.	Equipment and capital improvements not covered by bond issues.
Indebtedness	Debt service payments on general obligation bonds, state loans. Most debt is incurred due to a building program.
Area Vocational Technical Institute	
Debt Service.	Debt Service payments on AVTI bonds.
Maintenance	All vocational school costs except debt.
Intermediate Area Vocational Technical Institutes	
#287 - Suburban Hennepin County	
#916 - Ramsey-Washington County	
#917 - Dakota County	
These three intermediate AVTIs share an overlapping taxing authority with their K-12 component school districts.	
Debt	Debt service payments on AVTI bonds.
Maintenance.	All vocational school costs except debt.

SPECIAL TAXING DISTRICT LEVIES

Although special taxing districts exist with great variance among the counties, general categories are established in this section of the abstract. If special taxing districts exist in a county, the levies are entered separately for tort liability, all other revenue and debt. There are 14 main categories of special taxing districts as described in "1985 Tax Levy Authorizations and Limitations" as prepared and published by the Department of Revenue.

1. Hospital Districts
2. Housing and Redevelopment Authorities
3. Metropolitan Airports Commission
4. Metropolitan Council
5. Metropolitan Mosquito Control Commission
6. Metropolitan Transit Commission
7. Park Districts
8. Port Authorities
9. Regional Development Commissions
10. Regional Railroad Authorities
11. Regional Sanitary Sewer Districts
12. Sanitary Districts
13. St. Cloud Metropolitan Transit Commission
14. Watershed Districts

FIGURE 3
TOTAL REAL AND PERSONAL PROPERTY TAX
BY TAXING DISTRICT
PAYABLE 1985

NOTE: Total Gross Tax = \$2,874,995,386 excluding special assessments of \$136,671,326.
Power line not shown because it is less than .1%

NOTE: COUNTIES NOT LISTED IN THIS TABLE DID NOT HAVE ANY POWER LINE CREDIT
 FOR TAXES PAYABLE IN 1985.

*All transmission lines in this county are located in unorganized townships and taxed at the average county mill rate. Therefore, the assessed value and levy for these lines is shown on Table 47. Beginning with taxes payable in 1983, 10 percent of the tax on power lines of 200KV or larger in these unorganized townships is to go towards the funding of the power line credit.

NOTE: THE TAX ON THE POWER LINE PROPERTY OF ELECTRIC, LIGHT AND POWER COMPANIES IS DIVIDED INTO TWO CATEGORIES. TRANSMISSION LINES ARE ASSESSED AT 43% OF MARKET VALUE, WHILE DISTRIBUTION LINES ARE ASSESSED AT 5% OF MARKET VALUE. THE TAX RATE FOR BOTH IS THE COUNTYWIDE AVERAGE MILL RATE FOR ALL PURPOSES.
