

Health Care Hot Topics

This bipartisan interest group is open to House and Senate members. The goals of the group are:

- shared learning
- build competence and confidence in analyzing and addressing health care issues
- develop a common understanding of problems in the current health care system
- identify potential solutions
- review or analyze health reform bills proposed or under consideration

Specific health care system challenges the group discusses:

- coverage and access issues
- how to promote quality improvements and cost containment
- longterm care
- health care prevention and promotion

Once core attendees are established, participants will keep each other up to date and encourage attendance as the process moves forward. Meeting times are to be determined.
